J. TER KUILE,

31 BROADWAY,

NEW YORK.

P. O. BOX 2494

Telephone Call, 160 Pearl.

INTRODUCTORY REMARKS.

THE success with which we met the past two seasons has induced us to again offer our patrons a list of the finer and most successful varieties of Roses.

The plants are imported from one of the largest establishments in Europe and acclimated in the vicinity of New York City for one year or more, and are, without a doubt, the finest and most thrifty plants ever offered. They are low budded on seedling briars (*Rosa Canina*) producing vigorous, well branched roots, and acknowledged the best stock for the successful production of large, beautiful flowers.

The plants range from 2 to 4 years old.

Orders are booked any time during the year and shipped from October until May as our patrons may require.

We ship all the plants by express only, as they are too large to be sent by mail.

No charge for packing or cases.

5% discount allowed on orders amounting to \$30.00 or more ;
10% discount allowed on orders amounting to \$50.00 or more.

Remittances should invariably accompany orders, and will be accepted in any form convenient to our customers, viz. : Check, Draft, Money Order, Postal Note, Stamps, etc.

A trial order will convince you of the excellent quality of the plants.

Yours very truly,

J. TER KUILE.

Remarks on the Cultivation of Roses.

PLANTING.

THE best time to plant is from October to May. Keep the soil well heaped up around them to prevent their drying out.

It is advisable to cover the shoots as high as they are pruned.

WATERING.

In dry weather water freely. After they have started growing, remove part of the soil heaped around and replace by well rotted cow manure, which prevents the sun from drying up the young roots.

On warm and dry days syringe the plants in the evening, thoroughly wetting the leaves and shoots.

This will keep away insects, American blight and mildew.

PRUNING.

All plants are pruned, if desired ; otherwise they are left as grown.

Pruning should be done in early Spring only.

Never prune shoots too short ; always leave from 6 to 10 buds of last year's growth. Never leave the flowers on too long, as they will go to seed, which deprives the plant of the strength needed for further growth.

PROTECTION.

To prevent the plants from freezing in Winter, bend them down to the ground and cover with soil ; over the unprotected shoots spread salt hay or straw.

For further information we refer our patrons to the many interesting works on the subject, any of which we mail at publisher's price.

HYBRID PERPETUAL ROSE.

HYBRID PERPETUAL ROSES.

Strong established plants adapted for out door cultivation and Winter forcing.

Our stock includes among others the following varieties :

Alfred Colomb. Very brilliant crimson, finest form, full and large.

American Beauty. Bright carmine with violet shade, a most excellent forcing; vigorous at all seasons. An H. P. with H. T. habits. On briars it produces a larger quantity of flowers.

Anna Alexiff. Fresh salmon, flowers large, full and well formed, fine for forcing.

Anna de Diesbach. Clear rose, very large and fine, not very double.

Baron de Rothschild. Delicate rose, shaded like flesh color. The finest H. P.

Barronne Nathaniel Rothschild. Flowers very large, double, fine rose, free grower in the way of Baroness Rothschild.

Captain Christy. Delicate flesh color, white, bluish centre, flowers large, full, beautifully formed.

Charles Lefebvre. Brilliant velvety crimson, a large, superb variety, centre shaded purple, sweet scented.

Comte Carnaval. Very dark red, almost black flowers large and full.

Comtesse of Oxford. Bright carmine, with soft violet shade, full and cupped, petals smooth. Surpasses *Victor Verdier*.

Crimson Bedder. Scarlet flowers medium size, free bloomer, full and well formed.

Doctor Andry. Very fine, bright red, large, full and well formed flowers.

Duchess de Valombrosa. Delicate flesh, dark centre, flowers large, fine form, full.

Elisa Boelle. Pure white, flowers large, full and well formed, distinct foliage, free bloomer.

Geant des Batailles. Brilliant crimson, flowers large, full and well formed. An abundant bloomer.

General Jaqueminot. Brilliant velvety red, flowers large, not very full but well formed. The best rose for forcing.

Georges Moreau. Fine bright red, shaded with vermillion. Flowers very large, full and of a fine form. It opens well, is very sweet scented, and is considered to be better rose than Paul Neyron.

Gloire Lyonnaise. The flowers are very large and double, well shaped and formed, of large, smooth, glossy petals; they are bordered in a nice way, round edges with pure white. The color is a very clear yellow, in the way of Mad. Falcot, the flowers standing bold, erect on single stems like Baroness Rothschild. Growth very free, upright, stems with very bold prickles, smelling like Tea scented roses. It is a Seedling of Baroness Rothschild and Mad. Falcot, (Tea).

Heinrich Schultheis. Delicate bright rose flowers, very large, full and of a most beautiful form, very sweet scented. A free blooming variety.

Henry Ledechaux. Bright carmine rose, flowers large, full and well formed. A first class variety.

Her Majesty. A beautiful pink, flowers immense, twice as large as Paul Neyron. Habit of Baroness Rothschild. One of the best for forcing.

Jean Rosenkranz. Fine, bright, light color red, flowers large, full and of a most delicious form.

John Hopper. Fine bright rose, flowers very large, cupped, full and well formed, a superb rose. A first-class variety.

HYBRID PERPETUAL ROSES—Continued.

Jules Margottin. Delicate cherry red, flowers large, full and well formed. A beautiful old variety.

La France. Silvery rose, centre lilac rose, a first-class variety. Distinguished from many other sorts through its wonderful blooms, very even leaves, delicious scent, continuous blooming, especially in Autumn. It is almost the most important of all Perpetual Roses.

La Rosiere Amaranth. Red outside petals, nearly black, large, full and well formed.

Mad. Gabriel Luizet. Very fine satin rose, large petals, flowers large, full and of a very fine form.

Mad. Lacharme. Pure white, centre shaded delicate rose, exquisitely formed and highly scented. A beautiful white rose.

Madame Montet. A delicate rose color, petals very large. Flowers large, not very double, and beautiful in the bud.

Mlle. Eugenie Verdier. Bright satin rose, color clear and beautiful, flowers large, full and of a fine form.

Marie Baumann. Very fine brilliant red, flowers large, full and perfectly formed.

Merveille de Lyon. Pure white with a little satin rose in the centre. Flowers about 8 inches in diameter, full and well formed. Petals large and of a beautiful round form. Received three first prizes, and is considered to be the best Rose next to Baroness Rothschild.

Paul Neyron. Deep rose, flowers large, full and well formed, 8 to 10 inches in diameter.

Pierre Notting. Blackish red, with violet; fully formed, fine and distinct.

Prince Camille de Rohan. Dark chestnut brown, shaded with velvety red, flowers large, full and beautiful.

Queen of Queens. Pink with blush edges of perfect form and a true perpetual flowering rose; strong grower.

Senator Vaisse. Bright red, shaded with deep velvety carmine, flowers large, perfectly full, and of a beautiful form.

Ulrich Brunner Fils. Cherry red, petals very large. Flowers not very double, but well formed. As bud this rose is really magnificent.

Violette Bouyer. White shaded with flesh color. Flowers large, full and well formed. We consider it an improved Mme. Lacharme. It is a strong growing variety, and a good forcing rose.

White Baroness. Flowers large, full and well formed, exactly like Baroness Rothschild. Color pure white. Flowers freely in September.

All other varieties at market prices.

Note the extremely low prices for the quality of these plants as described in "Introductory Remarks."

100 in 50 finest varieties, our selection, \$19.50; Customer's choice \$23.00

TEA ROSES.

THESE Roses bloom at all seasons. They are tender and need protection in Winter (as per "Remarks on Cultivation"). They are forced in large quantities for market purposes and belong to the most profitable of the Rose family.

The following are the handsomest varieties of this class:

Alba rosea. Flesh color, flowers of medium size, full and well formed. Good for forcing. A first class variety.

Alphonse Carr. Purple, with carmine flowers of a distinct form.

Camoens. Bright Chinese rose shaded with yellow at the centre.

Canarie. Canary yellow, flowers of medium size, but well formed. A fine variety.

Catherine Mermet. A large, full, bright, flesh colored rose.

Comte de Sembuy. Salmon rose, with yellow silvery tint flowers, hang like *Niels*, and quite as large.

Coquette de Lyon. A fine velvety yellow colored rose, of medium size, and well formed. One of the best.

Duchesse Mathilde. Pure white. One of our best. This rose is really magnificent.

Enfant de Lyon. Yellow, sometimes changing to straw yellow. Flowers large and well formed. A fine variety.

Etoile de Lyon. A fine yellow rose, very free bloomer, excellent out of doors with us.

Madame Berard. Chamois, shaded with light rose, flowers very large, well formed.

Madame Charles. Nankin yellow, a delicious color, flowers large, not very double. A first class variety.

Madame Cusin. Rosy pink color, sometimes shaded, extra fine rose.

Mademoiselle Suzanne Blanchet. Flowers very large, very double. A new, magnificent, flesh colored rose. Cut flower very sweet. A strong grower.

Marechal Niel. Yellow, flowers very large, full, and of a fine form, sweet scented, and of a climbing habit.

Marie Van Houtte. Yellow, changing to white, with rose spots. Flowers of medium size, not very double. A superb and well formed rose.

Mlle. Francisca Kruger. Flesh colored white, shaded with coppery and rose. Flowers large, full and of a beautiful form. An extra fine variety.

Perle des Jardins. A deep yellow rose of a fine and distinct flower. The best forcing variety in this country.

Reine Marie Henrietta. Bright red, of a most beautiful form as bud, flowers large and full. Of a climbing habit.

Souv. d'un Ami. Very bright salmon rose, large foliage and handsome formed.

Prices same as for Hybrid Perpetuals.
All other varieties at market prices.

TEA ROSE, CATHERINE MERMET.

NOISETTE ROSES.

THE Noisettes are very floriferous, blooming during Summer and Autumn, and are very free growing. They are perfectly hardy with few exceptions. They are specially adapted for covering walls, trellises, pillars, etc., and serve as well for that purpose as the climbing roses, with the advantage of a longer blooming period.

Our stock includes only the best varieties. The colors are as follows :

RED, SULPHUR YELLOW, WHITE, PINK, YELLOW.

Per 100 in 12 finest varieties, \$23.50.

" 25 " 10 " " 7.00.

" 12 " 12 " " 3.40.

Each 35.

BOURBON ROSES.

Bloom splendidly in Autumn ; perfectly hardy when protected (as per " Remarks on Cultivation").

We can supply, among others, the following excellent varieties :

Comtssse de Barbantane. Flesh color, changing to white, flowers large, full and of a fine form.

La Reine des Iles Bourbon. A fine salmon rose color. One of the best for forcing.

Mad. Forcade de la Roquettee. Currant red. A fine and distinct variety. Flowers large, full and well formed.

Mme. Pierre Oger. Flowers large, full and well formed, color white.

Mlle. Blanche Lafitte. Flowers small, color white, sometimes flesh color, free bloomer.

Mrs. Bosanquet. A very good and distinct sort, of pale flesh color, very hardy, an excellent bloomer.

Modele de Perfection. Fine satin rose color, flowers of medium size, and of a fine form.

Queen of Bedders. A very free bloomer, color dark crimson, growth moderate.

Souv. de la Malmaison. This is undoubtedly the finest and most perfect rose of this class, hardy free blooming, of beautiful clear flesh color, edges blush superb.

FINE FOR FORCING.

Other colors than above to be left to our selection.

Per 100 in 10 finest named kinds, \$21.50.

" 50 " " " " 11.50.

" 12 " " " " 3.00.

Each " " " " 35.

Hardy Hybrid Perpetual Moss Roses.

Noted for their delicious fragrance and beautiful moss colored buds; perfectly hardy, need no protection in Winter, and bloom throughout the Summer. Excellent for cemetery.

Our stock embraces all the best kinds, including the following charming varieties, which are by far the finest in existence :

Centifolia Moss. (Old English Moss Rose). Beautiful rose color, flowers large, full and well mossed, splendid in bud, very fragrant.

Crestata (Crested Moss). Fine red, flowers large, full and well formed.

Per 100, in variety, our selection,	-	-	\$23 50

CLIMBING ROSES.

These Roses are perfectly hardy, and especially recommended for covering walls, pillars, verandas, outbuildings, etc. They bloom very profusely in early Summer. We offer them in White, Red, Delicate Pink, etc.

Sold at same prices as quoted for Bourbon Roses.

STANDARD ROSES.

(TREE ROSES.)

THEY should be well protected during Winter, either bent down and covered with soil or wrapped in salt hay or straw. We can supply varieties of all classes budded on stems from two to four feet high.

The varieties mostly budded on standards are of the hybrid perpetual class, as on pages 3 and 4.

Each, 50

Rooted cuttings in 3-inch pots for Spring planting.

By mail, per dozen, . . . \$1 25

" " each, 12

Also have the following colors :

DOUBLE BLUE, SINGLE CARMINE.

Plants in 6-inch pots.

Per dozen, \$4 50

Each, 40

Rooted cuttings, per dozen, \$1.00 ; each, 10 cents—by mail.

FUCHSIAS.

OF these beautiful plants we have a large stock of the celebrated varieties offered below.

NOTE DISTINCTLY!

THAT all orders from this Catalogue are shipped immediately.

That none of the plants are sent by mail, as same are too large and heavy.

That cuttings of Carnations and Fuchsias are sent by mail, postage prepaid.

WE wish to guarantee that roses shipped by us are true to name and strong vigorous plants.

They are not mere cuttings or three-inch pot plants, but strongly wooded and rooted, and will produce, without fail, abundance of flowers in season shortly after planting.

They are annually imported by tens of thousands for the large cut flower growing establishments and pronounced to be the *strongest, healthiest and most productive* plants in the market.

Those who wish to stock their greenhouses with excellent forcing roses should write us stating quantities and numbers of varieties required, and we will give them lowest estimate.

We have received an excellent testimonial from nearly every customer who has purchased these roses.

If you will give us a trial order you will certainly be satisfied and well pleased.

Yours respectfully,

J. TER KUILE,

P. O. BOX 2494. Telephone Call : 160 Pearl.
