FALL OF 1888.

TREES AND TREE SEEDS.

MAILING LIST.

Everything offered in this list will be sent free by mail at the prices herein quoted.

The seedlings will be packed in moss, wrapped in oiled paper and securely tied. Customers at distant points invariably report quick and safe arrival of goods so sent. There is no limit to the number of pounds which may be sent by mail. The weight of packages is limited to four pounds, but any number of packages may be sent to one address.

By a recent act of Congress the postage rate on trees, seeds, plants, bulbs and cuttings has been reduced to eight cents per pound. This enables me to make lower quotations than ever before.

NOTICE.

Intending purchasers are requested to notice the following statements:

1. The growing of trees from seed is my specialty. This is the leading nursery in the U. S., and perhaps the only one making an exclusive business of growing a general line of forest trees from seed.

2. Owing to the fact that my whole attention is given to this branch of the nursery business, I am enabled to offer better stock at lower rates and give better attention to the filling of orders than any of the large nurseries engaged in growing a general line of nursery stock.

3. The liberal patronage and many kind words of recommendation from customers of previous years have encouraged me to make more extensive plantations this year than usual.

4. The results of my experience in growing trees from seed, up to the date of its publication, are embodied in a work entitled, "FOREST LEAVES (2d edition)," which is mailed to any address on receipt of 50 cents; thus virtually giving to the public the benefits of many years experience in the business.

TERMS OF PAYMENT.

The very low prices quoted in this list are based on a strictly cash sale, and do not admit of any loss from slow pay or bad debts; hence, customers will be expected to remit cash with the order, or else furnish satisfactory proof that the stock will be paid for on arrival or within a reasonable time after shipment. Nurserymen and dealers who have a good commercial rating will be expected to remit within 30 days from date of shipment.

Remittances at my risk, if made by bank draft, money order or registered letter. P. O. money orders should be drawn on Bellaire, Mich., which is my nearest money order office. Postage stamps received for small amounts.

W. W. JOHNSON,

SNOWFLAKE,

Antrim County, Michigan.

LARGER TREES.

I have a nice collection of larger sized trees, suitable for village yards and grounds where more immediate effect is desired, on which I will quote prices to any one desiring it. They are too large to send by mail and should be sent by express ONLY, in order to insure safety in transit.

Nurserymen and others who wish large quantities sent by freight or express and are willing to assume all risks of transportation, will be furnished with special quotations on application.
