AMYGDALUS. Almond. Manelbaum, Ger. Amandier, Fr.

A. communis flore roseo pleno. Large Double-flowering Almond. A vigorous, beautiful tree, covered in May with double rose-colored blossoms, like small roses.

A. communis striata. Striped-bark Almond. An ornamental variety, with bark and foliage yellow striped.

For Dwarf varieties see Prunus, in "Ornamental Shrubs."
CUT-LEAVED WEEPING BIRCH.

(From a Specimen on our Grounds.)

BETULA. Birch. Birke, Ger. Pouleau, Fr.

This genus embraces a very popular and highly ornamental class of trees. Their elegant, graceful port, silvery bark, slender branches, and light and airy foliage, render them general favorites. As single specimens on the lawn, or employed as avenue trees, the upright varieties are very imposing and handsome. They thrive even in the poorest soils and in the most exposed situations.

B. alba. European White Weeping Birch. A graceful tree, of moderate size, with silvery bark and slender branches. Quite erect when young, but after four or five years’ growth assumes an elegant drooping habit, rendering the tree very effective in landscapes.

var. atropurpurea. Purple-Leaved Birch. A variety possessing the vigorous habit of the Birches, and having purple foliage. $1.00.

var. pendula laciniata. Cut-Leaved Weeping Birch. Beyond question one of the most popular of all weeping or pendulous trees. Its tall, slender, yet vigorous growth, graceful drooping branches, silvery-white bark, and delicately cut foliage, present a combination of attractive characteristics rarely met with in a single tree. $1.00.
JAPAN WEEPING ROSE-FLOWERED CHERRY.
(From a Specimen in our Collection.)

Betula a. var. pendula Youngii. Young's Weeping Birch. When grafted on stems five to six feet high, it forms beautiful pendulous heads, and its slender shoots droop gracefully to the ground. See cut. $1.50.

var. pubescens. Downy-leaved Birch. A native of Germany, resembling the European White Birch, but more vigorous, and branches slightly pendulous.

var. tristis. A charming variety of the European; of pendulous habit. $1.00.

var. urticaefolia. Nettle-leaved Birch. A fine tree, of rather slow growth, with irregularly cut foliage of a deep green color. 75 cents.

B. Bhojpattra. Indian Paper Birch. A fine, distinct species, of upright growth, with large heart-shaped foliage. In its wild state, on the Himalayan Mountains, it forms a noble tree fifty to sixty feet high. 75 cents.

B. costata. A species from the Amoor River, of fine, erect habit, and with cordate leaves. $1.00.

B. nana. Dwarf Birch. A bushy shrub, native of both Europe and America, seldom growing higher than twelve feet; leaves numerous, round, sharply crenated. Young wood downy. A charming miniature tree. $1.00.

B. nigra. River or Red Birch. An American species of moderate growth, elegant habit, with fine foliage and reddish brown bark.
Betula papyracea. Paper or Canoe Birch. Native of America; forms a large tree; bark brilliant white, leaves large and handsome.

var. purpurea. Pale purple leaves, turning almost green as the season advances. 75 cents.

CARPINUS. Hornbeam. Hainbuche, Ger. Charme, Fr.

C. Americana. American Hornbeam. A native species, growing from fifteen to twenty feet high. In its mode of growth, quite similar to the Beech, but the foliage is thinner and more irregular in form. Makes a very ornamental and useful hedge.

FLOWERS OF THE CATALPA.
(½ NATURAL SIZE.)

CARYA. Hickory. Noyer, Fr.

C. alba. Shell Bark or Shag Bark Hickory. The most ornamental and valuable of the genus. The nuts are whiter and the shell thinner than those of other species.

CASTANEA. Chestnut. Äechte Kastanien, Ger. Chataignier, Fr.

C. Americana. American Chestnut. The well known native variety. A stately tree, with broader leaves than the Spanish, and producing smaller fruit. When in full bloom, one of the handsomest trees.

C. Japonica. Japan Chestnut. Habit and foliage like Spanish Chestnut; fruit very large. $1.00.

C. vesca. Sweet or Spanish Chestnut. Originally introduced from Asia Minor into Europe. A valuable species both for ornament and fruit. It forms a handsome lawn tree, and produces much larger fruit than the American variety.
CATALPA. Trompetenbaum, Ger. Catalpa, Fr.

The Catalpas flower in July, when few trees are in bloom. Their blossoms are large, very showy and quite fragrant. Leaves large, heart-shaped, and yellowish green. They are all effective, tropical-looking lawn trees.

C. Bungei. A species from China, of dwarf habit, growing only from three to five feet high. Foliage large and glossy; a shy bloomer. $1.00.

C. biguoniodes, syn. C. syringefolia. Native of the Southern States. A showy, rapid growing, spreading, irregular tree, with very large, heart-shaped leaves, and pyramidal clusters, a foot long, of white and purple fragrant flowers. Blooms latter part of July, when few trees are in blossom, and, therefore, very desirable.

var. aurea variegata. Golden Catalpa. A medium-sized tree of rapid growth, having large, heart-shaped leaves, which are of a beautiful golden color in spring and early summer, but later in the season become green. 75 cents.

var. speciosa. A variety which is said to have originated in the west. It is finer and hardier than the common, hence better adapted to forest and ornamental planting. Its blossoms open two or three weeks earlier than those of the biguoniodes.

C. Kämpferi. Introduced from Japan by Siebold. A species of rapid growth with deep green, glossy foliage. Flowers fragrant, cream-colored, speckled with purple and yellow; not so large as those of syringefolia; panicle, also, is smaller and more loose. Seed pods long and very narrow; two weeks later than syringefolia.

RANUNCULUS-LIKE FLOWERING CHERRY.

CELERIS. Nettle Tree. Zierelbaum, Ger. Micocoulier, Fr.

C. occidentalis. American Nettle Tree. A rare native tree, with numerous slender branches, which spread out horizontally, and thick, rough bark. Leaves about the size and form of those of the apple, but more pointed, and a bright, shiny green.
CERASUS. Cherry. Kirsch, Ger. Cerisier, Fr.

A very ornamental family of trees. The drooping varieties are especially adapted to beautify small grounds. As single specimens on the lawn they are unique and handsome, and require only to be better known in order to be extensively planted. Now that the Kilmarnock Weeping Willow is no longer rare, its place may well be filled with the Japan Weeping Cherry, which is equally ornamental, and is unquestionably destined to become just as popular.

C. acida var. semperflorens pendula. Ever-Flowering Weeping Cherry. A fine drooping variety, that bears fruit and flowers all summer. $1.00.

C. avium var. flore alba plena. Large Double Flowering Cherry. At the period of flowering in May, a remarkably beautiful and attractive tree. The flowers are so numerous as to conceal the branches, and present to the eye nothing but a mass of bloom, each flower resembling a miniature rose. A valuable variety, deserving of wide dissemination. See cut.

var. pendula. A pretty variety, with drooping branches. $1.00.

C. caproniana ranunculiflora. Ranunculus-like Flowering Cherry. An upright grower, producing large, double white flowers, resembling those of a Ranunculus. An important addition. Flowers several days later than the Double White. $1.00. See cut.

C. Japonica pendula. Resembles pumila pendula somewhat, but is much more feathery and graceful; flowers single white, fruit red. One of the finest of the small-headed pendent cherries. $1.50.

var. aurea variegata. Foliage variegated, drooping head. $1.50.

var. rosea pendula. Japan Weeping Rose-flowered Cherry. Brought from Japan by Von Siebold, and is certainly one of the finest pendent trees for lawns or small grounds. The branches are slender, and fall gracefully to the ground, and the flowers are rose-colored. Undoubtedly one of the finest weeping cherries. $1.50.
Cerasus pumila pendula. Dwarf Weeping Cherry. Grafted standard high, this makes a curious and beautiful little round-headed, drooping tree. $1.00

CERCIDIPHYLLUM.

C. Japonicum. Lately introduced from Northern Japan, where it becomes a large tree. Form pyramidal, foliage small, heart-shaped, resembling somewhat that of the Judas Tree; leaf stalks tinted with red, and young growth slender, with a reddish brown bark; flowers inconspicuous. $1.00.

CERCIS. Judas Tree, or Red Bud. Judas Baum, Ger. Ganier, Fr.

C. Canadensis. American Judas Tree. A very ornamental native tree, of medium size, irregular rounded form, with perfect heart-shaped leaves of a pure green color, glossy surface above, and grayish green beneath. The tree derives the name of Red Bud from the profusion of delicate reddish purple flowers with which it
is covered before the foliage appears. Flowering at the same time with the Chinese Magnolias, it may be planted among them in groups with fine effect. Grown as single specimens they are also beautiful and attractive, and deserve to be classed among our finest ornamental trees. See cut.

**Cercis Japonica. Japan Judas Tree.** Of medium size, rounded form, foliage deep shining green, and heart-shaped; flowers larger than those of *Canadensis* and of a rich reddish purple color; a valuable addition to the list of choice small trees $1.00.

**CHIONANTHUS. Fringe Tree.** Schneeflockenbaum, *Ger.* Chionanthus, *Fr.*

**C. Virginica.** White Fringe. A small native tree or shrub of roundish form, with large, glossy leaves and drooping racemes of pure white flowers, having narrow, fringe-like petals; blossoms in May or June. A superb lawn tree. 75 cents.

**VIRGILEA LUTEA.** (Yellow Wood.)

**CLADastris.** Virgilie, *Ger.* Virgilier, *Fr.*

**C. tinctoria, syn. Virgilea lutea.** Yellow Wood. One of the finest American trees. Of moderate growth, broadly rounded head, foliage compound like that of the *Robinia*, and of a light green color, turning to a warm yellow in autumn; flowers pea-shaped, white, sweet-scented, appearing in June in great profusion, in long drooping racemes covering the tree. See cut. $1.00.
ORNAMENTAL TREES, SHRUBS, ETC.

THE WHITE FLOWERING DOGWOOD. (CORNUS FLORIDA.)

(CORNUS. Dogwood. Hartriegel, Ger. Cornouiller, Fr.)

C. florida. White-flowering Dogwood. An American species, of spreading irregular form, growing from 16 to 25 feet high. The flowers produced in Spring before the leaves appear are from 3 to 3½ inches in diameter, white and very showy. They begin to appear just as the Magnolia flowers are fading, and are invaluable for maintaining a succession of bloom in the garden border or on the lawn. They also are very durable, lasting in favorable weather more than two weeks. Besides being a tree of fine form, its foliage is of a grayish green color, glossy and handsome, and in the autumn turns to a deep red, rendering the tree one of the most showy and beautiful objects at that season. We regard it, all things considered, as one of the most valuable trees for ornamental planting, ranking next to the magnolia among flowering trees, and only second to the Scarlet Oak (which it almost equals) in brilliant foliage in autumn. See cut. $1.00.

var. flore rubro. Red Flowering Dogwood. Recently introduced. A variety producing flowers suffused with bright red; blooms when quite young. $2.00.

var. pendula. Weeping Dogwood. A variety of C. florida, with decidedly drooping branches. $2.00.

CRATÆGUS. Thorn. Weisdorn, Ger. Epine, Fr.

The Thorns justly deserve to be classed among the most beautiful flowering trees. They are generally dense, low growers, occupying comparatively little space and well adapted to beautify small grounds. If judiciously pruned, they can also be trained to assume picturesque tree forms. The foliage is varied and attractive, flowers very showy and often highly perfumed. The fruit is ornamental. There are numerous varieties, all of which are hardy and will thrive in any dry soil. We have endeavored to select the best and most distinct. They flower in May and June.

C. Azarolus. From Southern France. A tree with a round, spreading head; foliage large and handsome; fruit scarlet, very ornamental. $1.00.

C. Crus-galli var. pyraeauthifolia. Pyracantha-leaved Thorn. A beautiful variety, with narrow, bright green, glossy foliage. $1.00.

DOUBLE FLOWERING THORN.

**Cratægus C. var. hybrida.** Hybrid Smooth-leaved Thorn. Smooth shining leaves; white flowers; very handsome. $1.00.

**C. mespilus.** Medlar-leaved Thorn. Medlar-like leaves; distinct. $1.00.

**C. nigra.** Black-fruited Thorn. A native of Hungary, where it grows fifteen to twenty feet high. It is upright in growth, with medium-sized, lobed leaves. Fruit black. $1.00.

**C. orientalis,** erroneously **C. apiifolia.** A fine distinct species: foliage grayish, and deeply lobed. $1.00.

**C. oxyacantha.** Common Hawthorn. The celebrated English hedge-plant.

**var. apiifolia.** Parsley-leaved Thorn. When young this is quite a novelty; the leaves being pale green, finely cut and crimped, and the flowers single white. $1.00.

**var. coccinea flore pleno.** Double Scarlet Thorn. A tree of fine habit, with rich luxuriant foliage. Flowers unusually large, much larger than the double red, of a deep crimson color, with scarlet shade, and very double. A charming variety. $1.00.

**var. coccinea flore pleno Paulii.** Paul's Double Scarlet Thorn. Flowers bright carmine red. Superior to any of its color. $1.00.

**var. flore pleno.** Double White Thorn. Has small double white flowers. A highly ornamental variety, on account of both foliage and flowers. Makes a striking contrast when planted with the double scarlet. $1.00.

**var. punicea.** Single Scarlet Thorn. Of moderate growth and fine habit; flowers single scarlet and highly perfumed. One of the best. $1.00.

**var. flore punicea pleno.** Double Red or Superb Thorn. Bright double red flowers $1.00.
Crataegus o. var. Gumpperi bicolor. Gumpper's Thorn. Flowers white, edged with rose. A charming variety. $1.00.

var. pendula. Weeping Thorn. This variety grafted standard high forms pretty drooping heads. The branches are slender and hang gracefully towards the ground; flowers white. $1.50.

var. pyramidalis. Pyramidal Thorn. Flowers white, single. $1.00.

C. tanacetifolia. Tansy-Leaved Thorn. A fine, large, vigorous tree, with beautiful, deep green, distinct foliage and yellow fruit. $1.00.

C. tomentosa, erroneously C. glabra. A vigorous species with large dark green foliage; fruit red. $1.00.

var. mollis, erroneously C. acerifolia. A close, compact-headed tree with distinct and ornamental foliage. $1.00.

C. Laburnum. Common Laburnum or Golden Chain. A native of Europe, with smooth and shining foliage, and attaining a height of twenty feet. The name "Golden Chain" alludes to the length of the drooping racemes of yellow flowers, which appear in June.

var. alpinus. Alpine or Scotch Laburnum. A native of the Alps of Jura. Also said to be found wild in Scotland. In good soil grows from thirty to forty feet in height. Of irregular, picturesque shape, smooth, shining foliage, which is larger than the English, and yellow flowers in long racemes. Blooms later than the English.

var. Parksii. Large shining leaves and long racemes of golden yellow flowers. $1.00.

var. purpureus. Purple-Flowered Laburnum. Produces long racemes of purple flowers. $1.00.
LEAVES OF CUT-LEAVED BEECH.

WEEPING BEECH.
The Beeches are noted for their rich glossy foliage and elegant habit. The purple-leaved, Cut-leaved, and Weeping Beeches are three remarkable trees, beautiful even while very young, but magnificent when they acquire age. As single specimens upon the lawn, they exhibit an array of valuable and attractive features not to be found in other trees.

**Fagus sylvatica.** European Beech. A beautiful tree attaining a height of sixty to eighty feet.

**var. cristata.** Cris-ted or Curled-leaved Beech. A singular variety of the European; of medium size, with small and almost sessile leaves, crowded into small, dense tufts. $1.50 to $2.00.

**var. heterophylla.** Fern-leaved Beech. A tree of elegant, round habit, and delicately cut fern-like foliage. During the growing season its young shoots are like tendrils, giving a graceful, wavy aspect to the tree. $1.50 to $2.00.

**var. incisa.** Cut-leaved Beech. A fine, erect, free-growing tree, with deeply incised foliage. Like the fern-leaved, a variety of rare beauty and excellence. See cut. $1.50 to $2.00.

**var. macrophylla.** Broad-leaved Beech. A vigorous variety, with very large foliage. Distinct and fine. $1.50 to $2.00.
Fagus s. var. pendula. Weeping Beech. Originated in Belgium. A remarkably vigorous, picturesque tree of large size. Its mode of growth is extremely curious. The trunk or stem is generally straight, with the branches tortuous and spreading; quite ungainly in appearance, divested of their leaves, but when covered with rich, luxuriant foliage, of wonderful grace and beauty. See cut. $1.50 to $3.00.

var. purpurea. Purple-leaved Beech. Discovered in a German forest. An elegant vigorous tree, growing 40 to 50 feet high. The foliage in spring is deep purple, and later in the season changes to crimson, and again to a dull purplish green in the fall. $1.50 to $2.00.

var. purpurea major. An erect, rapid grower; leaves large, shining and very dark purple. $2.00.

var. purpurea Riversii. River's Smooth-leaved Purple Beech. This variety, which we procured of Mr. Rivers, differs from the ordinary Purple-leaved Beech by its compact, symmetrical habit of growth, and crimson foliage early in the spring, changing to a dark purple in summer. The finest of all purple-leaved trees. $1.50 to $3.00. See cut.

var. quercifolia. Oak-leaved Beech. Dwarf habit; distinct, fine foliage. $2.00.
Fraxinus A. var. juglandifolia. Walnut-leaved Ash. A native tree, growing from 30 to 50 feet high; flowers in May. $1.00.

var. pannosa. Cloth-like-leaved Ash. A native of Carolina. Resembles Bosel, but more downy, and foliage much larger. $1.00.

var. quadrangulata. Blue Ash. Stems angular. $1.00.

var. rufa. Rufous-haired Ash. An American variety, of upright habit, with dark green single leaves, occasionally in threes. $1.00.

var. sambucifolia. American Black Ash. A small or medium sized tree, with fine foliage. $1.00.

F. Bungeana. A vigorous grower with large, dark green foliage. $1.00.

F. excelsior. European Ash. A lofty tree, of rapid growth, with spreading head and gray bark, pinnate leaves and black buds.

var. atrovirens. (crispa). Dwarf Crisp-leaved Ash. A variety of dwarf habit, with very dark green curled foliage. $1.00.

var. aurea. Golden-barked Ash. A conspicuous tree at all times, but particularly in winter, on account of its yellow bark and twisted branches. $1.00.

var. concavaeolia fol. var. A charming variety, of compact pyramidal habit; at first the leaves are of a rich green, afterwards becoming spotted, and finally turning almost white. $1.00.

var. cucullata. Hooded-leaved Ash. An odd looking tree, of erect, pyramidal growth, with the foliage twisted and curled in a singular manner; novel and distinct. $1.00.

var. elegantissima. Narrow willow-like foliage. $1.00.

var. globosa. Dwarf Globe-headed Ash. A seedling of ours; of delicate globular growth and small, myrtle-like foliage; worked 6 to 8 feet high it makes a very pretty tree. $1.00.

var. monophylla. Single-leaved Ash. A fine tree with single broad leaves, instead of pinnate foliage such as the ash generally have. $1.00.

var. monophylla laciniata. A very handsome variety, with single leaves, having the margins finely cut; distinct and valuable. $1.00.

var. pendula. The common, well known sort; one of the finest lawn and arbor trees. Covers a great space and grows rapidly. $1.00.

var. salicifolia. Willow-leaved Ash. A beautiful variety, of fine habit, rapid growth, with narrow, wavy leaves. $1.00.

F. longicuspis. Tree a rapid, upright grower, with large downy foliage.

F. Novæ Angliae. Distinct dark green foliage. $1.00.

F. Oregana. Oregon Ash. Forms a large tree in Oregon and Washington Territory. $1.00.

F. Ornus. European Flowering Ash. A native of the south of Europe; grows from 20 to 30 feet high; flowers greenish white, fringe-like, produced early in June in large clusters on the end of the branches. $1.00.

var. rotundifolia. Round-leaved Flowering Ash. Handsome foliage; becomes a distinct beautiful flowering tree. $1.00.

F. potamophila. Of spreading habit, dark green foliage and reddish brown bark. $1.00.
GLEDITSCHIA. Gleditschie, Ger. Fevier, Fr.

G. Sinensis inermis. Globe-headed, elegant foliage, thornless. $1.00.

G. triacanthos. Three-thorned Gleditschia or Honey Locust. A rapid growing, native tree, with powerful spines and delicate foliage. Used for hedges.

var. Bujot pendula. Bujot's Weeping Honey Locust. An elegant tree, with drooping branches; not entirely hardy here until the tree is well established. $2.00.

GLYPTOSTROBUS.

G. Sinensis pendula. Chinese Weeping Deciduous Cypress. A deciduous conifer, of medium size and erect, conical habit. Branches horizontal, slender and drooping, foliage light green and tufted; very distinct, novel and ornamental. $1.00.

GYMNOCLADUS.

G. Canadensis. Kentucky Coffee Tree. A fine native tree, of secondary size, rapid upright growth, with rough bark, stiff, blunt shoots, and feathery foliage, of a bluish green color. 75 cents.

JUGLANS. Walnut. W Alan, Fr. Noyer, Fr.

J. regia. European Walnut or Madeira Nut. A native of Persia. Loftier and larger in its native country than our Butternut is with us. Nut oval and very fine.

var. preparturiens. A dwarf variety that bears when quite small. $1.00.

KÖLREUTERIA. Savonnier, Fr.

K. paniculata. From China. A hardy, small, round-headed tree, with fine lobed leaves and large panicles of showy golden yellow flowers, in the latter end of July; leaves change in autumn to a fine yellow. One of the most desirable trees, particularly valuable for its brilliant, golden blossoms, which are produced so late in the season when few, if any, trees are in bloom. $1.00.

LARIX. Larch. Larche, Ger. Meleze, Fr.

*L. Europaea. European Larch. A native of the Alps of the south of Europe. An elegant, rapid growing, pyramidal tree; valuable for timber; small branches drooping.

var. pendula. Weeping European Larch. One of the most picturesque weeping trees. The branches spread and droop irregularly, assuming curious forms. $2.00.

L. Kämpferi. From Japan. Foliage, when young, of a light green, changing to a fine golden yellow in the fall. $1.00.

L. leptoclada. A slender growing tree, with reddish brown shoots; leaves turn to a golden color in autumn. $1.00.

LIQUIDAMBAR. Amberbaum, Ger. Copalme, Fr.

L. styraciflua. Sweet Gum or Bilsted. One of the finest American trees. Of medium size and moderate growth; form round-headed or tapering; leaves resem-
ble somewhat those of the Maple, but are star-shaped and of a beautiful glossy green color in summer, turning to a deep purplish crimson in autumn; bark corky. Beautiful in all stages of growth, it is particularly handsome and striking in autumn. $1.00.

**LIRODENDRON.** Tulpenbaum, Ger. Tulipier, Fr.

L. tulipifera. Tulip Tree or Whitewood. A magnificent native tree, of tall, pyramidal habit, with broad, glossy, fiddle-shaped leaves of a light green color, and beautiful tulip-like flowers; allied to the Magnolias, and like them, difficult to transplant, unless of small size. 75 cents.

**var. panache.** Variegated-leaved Tulip Tree. One of the finest variegated trees; the margins of the broad, glossy leaves are variegated with a very light green, giving the tree a striking appearance. $1.00.

**MACLURA.** Maclure, Fr.

M. aurantiaca. Orange-like-fruited Maclura or Osage Orange. A native tree of medium size and spreading habit. Leaves bright shining green, broad and sharp-pointed. The fruit resembles an orange. Valuable and very extensively used for farm and garden hedges. For price see "Hedge Plants."

**MAGNOLIA.** Magnolie, Ger. Magnolier, Fr.

Their superior stateliness of form and splendor of growth, the size and richness of their foliage and lavish yield of fragrant flowers, all tend to place them in the foremost rank among hardy ornamental trees and shrubs. Their proper place is on the lawn, where they show to fine advantage in contrast to the green; or they may be planted effectively on the borders of lawns, with an evergreen in the background to heighten the contrast. Planted in groups, they yield to no rival, and their effect in the early spring is grand beyond description, illuminating the whole landscape and filling the atmosphere with their rich perfume.

To insure success in their transplanting, they should be moved in the spring, never in the fall, and the Chinese varieties at that period when they are coming into bloom; and, consequently, before the leaves have made their appearance. Great care should be exercised in their removal, the fibrous roots being preserved as nearly as possible, and carefully guarded from any exposure to wind or sun. While almost any good soil is sufficient to insure their growth, they succeed best in a soil which is warm, rich and dry.

**American Species and Varieties.**

M. acuminata. Cucumber Magnolia. A beautiful, pyramidal growing tree, attaining from 60 to 90 feet in height. Leaves 6 to 9 inches long, and bluish green; flowers yellow, tinted with bluish purple; fruit, when green, resembling a cucumber; hence the name. June.

M. cordata. Heart-leaved Magnolia. A native of the Carolinas. Tree small, of ovate form, with glossy cordate leaves, and yellow, fragrant flowers, three to four inches in diameter, in May and August. $1.00.

M. glauca. Glaucescent-leaved Magnolia or Swamp Laurel, Sweet Bay. A small tree, indigenous to New Jersey; leaves shining above, glaucous or whitish beneath. Flowers white with a very sweet and pleasant odor. May and June. $1.00.

**var. longifolia.** Long-leaved Swamp Laurel. Leaves longer than those of the above. Flowers fragrant. $1.00.

M. macrophylla. Great-leaved Magnolia. A superb species, of medium size. Leaves two feet in length, pubescent and white beneath. Flowers white, of immense size; when fully blown, 8 to 10 inches in diameter, appearing in June. A rare tropical looking tree. $2.00.

M. tripetala. Umbrella Tree. A hardy, medium-sized tree, with immense leaves, and large white flowers, 4 to 6 inches in diameter, appearing in June. $1.00.

M. Thompsoniana. Thompson's Magnolia. A hybrid between M. glauca and M. tripetala. Tree of medium size, spreading habit, with large, fine foliage. The flowers, which appear in June, and continue during the summer, are large, creamy-white and very fragrant. A charming species, requiring some protection in this latitude in winter. $2.00.
Chinese Species and their Hybrids.

(Flowering in May before the leaves appear.)

**Magnolia conspicua.** Chinese White Magnolia. Chandelier, or Yulan Magnolia. A Chinese species of great beauty. The tree is of medium size, shrub-like in growth while young, but attains the size of a tree in time. The flowers are large, pure white, very numerous, and appear before the leaves. $1.50 to $2.00.

**M. Kobus.** Thurber’s Japan Magnolia. A tree of medium size, bushy growth; flowers blush white and fragrant. $1.

**M. Norbertiana.** Norbert’s Magnolia. A hybrid between *M. conspicua* and *M. obovata*. Tree vigorous and of regular outline; foliage showy; flowers reddish purple. One of the best. $2.00.

**M. Soulangeana.** Soulange’s Magnolia. Another hybrid raised from seed, at Fromont, near Paris. In habit it closely resembles *M. conspicua*, shrubby and branching while young, but becoming a fair-sized tree. Flowers white and purple, cup shaped, and 3 to 5 inches in diameter. Foliage large, glossy and massive. It forms a handsome tree worked upon the *M. acuminata*. One of the hardiest and finest of the foreign Magnolias. Blooms later than *conspicua*. $1.50 to $2.00.

**M. speciosa.** Showy-flowered Magnolia. Resembles the *M. Soulangeana* in growth and foliage, but the flowers are a little smaller and of a lighter color, fully a week later, and remain in perfect condition upon the tree longer than those of any other Chinese variety. These qualities combined with its hardiness, render it, in our estimation, one of the most valuable sorts. $1.00. See cut.

**M. superba.** Origin same as that of the preceding varieties; differs little from *Soulangeana*; flowers a trifle darker. $2.00.

**M. Lennei.** Lenné’s Magnolia. A seedling of *M. purpurea*. Foliage large, flowers dark purple. A superb variety. $2.00.

**M. obovata.** (purpurea). Chinese Purple Magnolia. A dwarf species, with showy purple flowers in May and June. Being a little tender, it requires protection. $1.00.
Magnolia o. var. rubra. Chinese Red Magnolia. A variety of the M. obovata. Branches more slender, of more erect habit; flowers much larger and a deep purple. $2.00.

M. stellata, syn. Halleana. Hall’s Japan Magnolia. Introduced by Dr. Hall from Japan. It is of dwarf habit and produces its pure white semi-double fragrant flowers in April, earlier than any other Magnolia. $2.

MORUS. Mulberry. Maulbeere, Gr. Murier, Fr.

M. Downingi. Downing’s Everbearing. A rapid growing tree, which bears fine fruit.

M. fastigiata. A very compact pyramidal grower; leaves large; fruit dark brown; sweet.

M. New American. Fruit large and of fine quality. Tree rapid growing and perfectly hardy here. It bears delicious fruit from middle of July until autumn.
Morus Thorburn. Thorburn's Mulberry. Fruit of medium size; black; of good quality.

M. Trowbridge. Trowbridge's Mulberry. Fruit black; medium size; good.

NEGUNDO. (Acer negundo.) Negundo Maple. Negundo, Fr.

N. fraxinifolium. Ash-leaved Maple. Box Elder. A native tree, maple-like in its seeds, and ash-like in foliage; of irregular spreading habit, and rapid growth.

PAULOWNIA.

P. imperialis. A magnificent tropical looking tree from Japan, of extremely rapid growth, and surpassing all others in the size of its leaves, which are twelve to fourteen inches in diameter. Blossoms trumpet-shaped, formed in large upright panicles, and appearing in May. Quite hardy here, but the flower buds are killed during severe winters. 75 cents.

PAVIA. (Aesculus.) Smooth-fruited Horse Chestnut.

Pavie, Fr.

P. flava. The Big or Ohio Buckeye or Yellow Horse Chestnut. A fine native tree, having pale green, downy leaves and yellow flowers. The tree when it acquires age forms a globular head twenty to forty feet in height. $1.00.

P. Lyonii. Vigorous grower, yellow flowers. $1.00.

P. Michauxii. Racemes of handsome rose colored flowers. $1.00.

P. rubra. The Small Buckeye. Grows wild in Virginia and North Carolina. A small-sized tree, with more slender branches than the flava, and brownish red flowers. $1.00.

var. atrosanguinea. Of dwarf habit; young wood and foliage quite smooth. Flowers dark red. $1.00.

var. carnea pubescens. A variety of the rubra, with flesh colored flowers. $1.00.

var. carnea superba. A very distinct and dwarf variety, with dark flowers. $1.00.

var. purpurea. A variety of the rubra, with purplish red flowers, and of dwarf habit. $1.00.

var. Whitleyi. One of the most beautiful varieties, on account of its handsome foliage and brilliant red flowers. $1.00.

PERSICA. Peach. Pfirsich, Ger. Pecher, Fr.

The double flowering varieties are distinguished for their showy and beautiful blooms. At the blossoming season every branchlet is covered with a mass of beautifully formed, highly colored flowers, rendering the trees a most interesting object and attracting notice from a distance. The double red, double rose, and double white varieties planted in a group, produce a charming effect. We cannot too highly recommend these superb flowering trees.

P. vulgaris fl. camelliaeflora plena. Flowers rose colored.

Persica vulgaris fl. versicolor plena. The most singular of all our flowering trees. Flowers variously white and red or variegated on the tree at the same time. Flowers early, and perfectly hardy.

P. vulgaris folis purpureis. Purple or Blood-leaved Peach. Found on the battlefield of Fort Donelson, in Kentucky. Foliage of a deep blood-red color in spring, fading to a dull green as the season advances, but the young growth preserves its dark color the entire summer. Very valuable on account of its rapid growth and handsome foliage. The tree should be severely cut back every spring.

PHELLODENDRON.

P. Amurense. Chinese Cork Tree. A hardy tree from Manchuria, growing 60 feet high in its native country, with thick corky bark and elegant pinnate foliage three or four feet long. In general appearance and rapidity of growth it resembles the Ailantus. $1.00

PLANERA.

P. acuminata. From Japan. Medium size, resembling the Elm, slender branches and branchlets; leaves medium size, oblong ovate, smooth, bright green. This is the Ulmus Keaki of Siebold. $1.00.

POPULUS. Poplar. Poppel, Ger. Peuplier, Fr.

*P. alba. White or Silver Poplar, or Silver Abele. From Europe. A tree of wonderfully rapid growth, and wide spreading habit. Leaves large, lobed, glossy green above and white as snow beneath. Prefers a moist soil, but flourishes anywhere.

var. Bolleana. Of recent introduction. A very compact upright grower, resembling the Lombardy Poplar, with leaves glossy, green above and silvery beneath.

var. nivea. Foliage larger than that of the species, white and very downy underneath. Produces a fine contrast with the green foliage of other trees.

P. angustifolia. A native tree of medium size, pyramidal habit with narrow leaves.

*P. balsamifera. Balsam Poplar or Tacamahac. A native species of remarkably rapid, luxuriant growth, with large glossy foliage.

P. Canadensis. Cottonwood or Canadian Poplar. A tall native tree growing 80 feet high, with broadly deltoid, glabrous shining serrate leaves.

var. aurea Van Geertii. Has fine golden yellow foliage, retaining its brilliancy throughout the season; effective in masses. 75 cents.

P. Carolina. Carolina Poplar. Pyramidal in form and robust in growth; leaves large, serrated, pale to deep green.

P. certinensis. Asiatic Poplar. A rapid growing tree of pyramidal habit; leaves medium to large, ovate, light green, changing to dark green.

P. crispa. Lindley’s Crisped or Curled-leaved Poplar. A singular variety, the bark on the young wood being raised in furrows.

P. elegans. Of upright growth, brownish wood and fine foliage.

P. Eugenie. Of pyramidal habit, very rapid growth, and handsome yellowish green foliage.

*P. fastigiata or dilatata. Lombardy Poplar. Attains a height from 100 to 150 feet. Well known and remarkable for its erect, rapid growth, and tall, spiry form. Indispensable in landscape gardening, to break the ordinary and monotonous outlines of most other trees.
Populus grandidentata pendula. WEEPING TOOTH-LEAVED POPLAR. A variety of rapid growth, with long, slender branches, drooping gracefully to the ground; foliage large and deeply serrated. A fine weeper. $1.00.

P. Nolestii. Asiatic species. A strong grower, rather spreading; leaves medium to large, cordate and dark green.

P. Parasol de St. Julien. A variety from France, of fine drooping habit. $1.00.

P. pyramidalis suaveolens. A compact pyramidal grower, leaves ovate lanceolate, smooth dark green above, pale green underneath; resembles Lindley’s.

P. rotundifolia. ROUND-LEAVED POPLAR. A distinct species from Japan. Tree of spreading habit, with large, nearly round leaves, dark green above and downy underneath.

PRUNUS. Plum and Cherry.

P. domestica fol. var. VARIEGATED-LEAVED PLUM. A variety with yellow variegated foliage. Bears good fruit.

P. domestica fol. var. (New.) VARIEGATED-LEAVED PLUM. A fine variegated small tree, with very distinct markings, the center of the leaves being deep green, with the margin a pale green. A good companion for Prunus Pissardi. 75 cts.

P. myrobalana flore roseo pleno. (New.) Of vigorous habit. Flowers large, double, fragrant, appearing in early spring, before those of Prunus triflora. $1.

P. Padus. EUROPEAN BIRD CHERRY. A rapid growing, beautiful tree, with glossy foliage and long bunches of white, fragrant flowers in May, succeeded by clusters of fruit like black currants.

var. aucubæfolia. AUCUBA-LEAVED BIRD CHERRY. A variety with large foliage, sprinkled with white blotches.

var. fl. pl. DOUBLE-FLOWERING BIRD CHERRY. A variety with double flowers.

var. variegata. VARIEGATED-LEAVED BIRD CHERRY. A rapid, pyramidal grower, producing double flowers.

P. Simonii. A distinct species from China. Growth erect; flowers small, white, appearing early in spring; fruit large, flattened, of the size and appearance of a nectarine, and of a brick-red color; flesh yellow, with a peculiar aromatic flavor.

P. spinosa flore pleno. DOUBLE-FLOWERING SLOE. A beautiful small tree or large shrub from Japan, covered in spring with small, double daisy-like white flowers, succeeded by small, dark purple fruit.

var. pendula. WEEPING SLOE. A variety of spinosa with pendulous branches. $1.00.

PYRUS. Crab and Mountain Ash.

We invite special attention to the Double-flowering Crabs; their beauty and value seem to have been overlooked and are therefore not appreciated.

Pyrus arbutifolia. CHOKEBERRY. Grafted standard high upon the Mountain Ash, this forms a very pretty ornamental tree. $1.00.

Pyrus communis salicifolia. WILLOW-LEAVED PEAR. Of slow growth, rather spreading habit, leaves lanceolate, silvery. 75 cents.

Pyrus malus baccata var. carnea pleno. A Crab with delicate flesh-colored double flowers; very fine.

P. malus communis aucubæfolia. An Apple with spotted foliage; flowers white, shaded pink.
Pyrus m. coronaria odorata. Fragrant Garland-flowering Crab. Single blush flowers, with the fragrance of sweet violets; blossoms appear about a week after those of the Double Rose-flowering; very desirable. May.

P. m. floribunda. Single flower; beautiful carmine in bud; white when open. May.

P. m. floribunda atrosanguinea. Flowers darker than the preceding. May.

P. m. Kaido. Flowers single, white and pink; produced in great profusion; distinct and fine. May.

Pyrus m. spectabilis var. flore alba pleno. Chinese Double White-flowering Crab. Double white fragrant flowers in clusters. May.

P. m. s. var. flore roseo pleno. Chinese Double Rose-flowering Crab. Has beautiful double, rose-colored, fragrant flowers nearly two inches in diameter in May. The best of all the crabs for ornamental planting; should be in every collection. See cut.
**Pyrus** **m.** **s.** var. **Riversii.** **Rivers’ Semi-Double-Flowering Crab.** Rose-colored, semi-double flowers.

**Sorbus.** Mountain Ash, and their allied species.

Our collection of Mountain Ash is very large and complete, and embraces several sorts of more than ordinary merit.

**P. Americana.** American Mountain Ash. A tree of coarser growth and foliage than the European, and producing larger and lighter colored berries.

**var. nana.** Dwarf Mountain Ash. A dwarf variety, making a handsome small tree. $1.00.

**P. aria.** (vestita). White Beam Tree. A vigorous growing tree, with broad, distinct, fine foliage, young wood downy; fruit grayish brown. One of the best. $1.00.

**var. macrophylla laciniata.** A vigorous grower, with medium to large handsome lobed leaves; a very promising new sort $1.00.

*P. aucuparia.** European Mountain Ash. A fine hardy tree, head dense and regular; covered from July till winter with great clusters of bright scarlet berries.

**var. pendula.** Weeping European Mountain Ash. A beautiful variety of rapid growth and decidedly pendulous and trailing habit. One of the most desirable lawn trees. $1.00.

**var. quercifolia floribunda nana.** Dwarf Profuse-Flowering Mountain Ash. A remarkable dwarf variety, with oak-shaped leaves. When worked 4 to 6 feet high makes a handsome small tree. $1.00.

**var. quercifolia hybrida nana.** Dwarf Hybrid Mountain Ash. A dwarf variety of upright growth, and deep green foliage. Distinct and fine. $1.00.

**P. aurea striata.** Golden-striped Mountain Ash. A slow grower, with medium sized leaves, silvery white on the under side and glossy green above. $1.00.

**P. aurea hybrida.** Golden Hybrid Mountain Ash. A vigorous grower, with large cordate leaves, very white and downy; fruit large, yellowish brown and spotted. One of the most distinct and beautiful of all the Mountain Ash. $1.00.

**P. domestica.** True Sorbo Service Tree. Foliage like the American, but more serrated; large brown fruit.

**P. hybridra.** Hybrid Mountain Ash. A fine tree, with beautiful, large foliage; distinct and valuable. $1.00.

**var. quercifolia or pinnatifida.** Oak-Leaved Mountain Ash. A hardy tree of fine pyramidal habit. Height and breadth from 20 to 30 feet. Foliage simple and deeply lobed, bright green above and downy beneath. One of the finest lawn trees.

**P. sambucifolia.** Elder-Leaved Mountain Ash. An American species, with fine foliage.

**Quercus.** Oak. Eiche, Ger. Chene, Fr.

The Oaks, when they attain size are our most picturesque trees. The species and varieties are numerous, and the majority are adapted to ornament large grounds where they can have an abundance of room. Some kinds, however, are moderate growers, and suitable for small places, especially if kept in good shape by a judicious use of the knife. Our collection embraces a variety of forms and includes the finest.

Those preceded by a + are either new or rare, and only to be had of small size.

**Q. alba.** American White Oak. One of the finest American trees, of large size and spreading branches; leaves lobed, pale green above and glaucous beneath.

**Q. bicolor.** A native species, with handsome, large sinuate toothed leaves, which turn to a bright scarlet in autumn. $1.00.
Quercus cerris. Turkey Oak. A very handsome South European species, of rapid, symmetrical growth; foliage finely lobed and deeply cut; leaves change to brown in autumn, and persist during a great part of the winter. Fine for the lawn. $1.00.

Q. coccinea. Scarlet Oak. A native tree of rapid growth, pyramidal outline, and especially remarkable in autumn, when the foliage changes to a bright scarlet. $1.00.

†Q. Daimio. Japan Oak. A distinct and remarkable tree; foliage very large, leathery, of a glossy dark green color. $1.50.

†Q. dentata. A fine Japanese species. Foliage deeply dentated. $1.00.

Q. ilex var. Fordii fastigiata. Pyramidal Evergreen Oak. A variety of the European Evergreen Oak, of very upright growth. A beautiful tree. $1.00.

Q. macrocarpa. Mossy Cup or Burr Oak. A native tree, of spreading form. Foliage deeply lobed, and the largest and most beautiful among oak leaves. Cup-bearing, acorn-fringed and burr-like. Bark corky. One of the noblest of the family. 75 cents.

†Q. nobilis. A superb, rapid-growing tree, with very large leaves, lobed at the apex, each lobe terminating with a bristle-like point. $1.00.

†Q. prinos. Chestnut-leaved Oak. One of the finest species; leaves resemble those of the chestnut. 75 cents.

†Q. rob. pedunculata argentea pictus. Silver Variegated-leaved Oak. The old leaves are of a shining, dark-green color, and the younger ones are blotched and spotted with silver, making a very pleasing contrast. $1.50.

†Q. rob. ped. var. asplenifolia. Fern-leaved Oak. A handsome variety, of moderate growth, with very pretty, deeply cut leaves. $1.50.

†Q. rob. ped. var. atropurpurea. Purple-leaved Oak. A magnificent variety, with dark purple leaves, which retain their beautiful tint the entire summer. $2.00.

†Q. rob. ped. var. comptoniaefolia. A slender grower, with delicately cut leaves. $1.50.

†Q. rob. ped. var. concordia. Golden Oak. A superb variety, with orange-yellow leaves, which retain their golden tint throughout the season; one of the finest golden leaved trees. $1.50.

†Q. rob. ped. var. contorta. Contorted-leaved Oak. A moderate grower, with curled and twisted leaves. $1.50.

†Q. rob. ped. var. Dauvessei pendula. Dauvesse's Weeping Oak. A vigorous variety, with drooping branches. Forms a fine weeping tree. $1.50.

†Q. rob. ped. var. nigra. A vigorous grower, with large leaves of a purple color when young, changing to a dark green as the season advances. $1.50.

Q. rob. ped. var. pulverulenta. The leaves of the second growth are marbled with silver, and contrast finely with the deep green foliage of the first growth. $1.50.

†Q. rob. sessiliiflora purpurea. Fine purple foliage; good habit. $2.00.

Q. imbricaria. A native species, with laurel-like, oblong leaves, which assume a superb carmine tint in autumn. $1.00.

Q. rubra. Red Oak. An American species, of large size and rapid growth, foliage purplish red in the fall.
ROBINIA. Locust or Acacia. Akazie, Ger. Robinier, Fr.

*R. hispida. Rose or Moss Locust. A native species of spreading, irregular growth, with long, elegant clusters of rose-colored flowers in June, and at intervals all the season.

  var. grandiflora. Has much larger flowers and foliage than the preceding; superb. $1.00.

*R. Pseud-acacia. Black or Yellow Locust. A native tree, of large size, rapid growth, and valuable for timber, as well as quite ornamental. The flowers are disposed in long, pendulous racemes, white or yellowish, very fragrant, and appear in June.

  var. aurea. Golden Locust. A beautiful tree, with bright golden yellow foliage. $1.00.

  var. Bessoniana. A variety of strong growth, without thorns; foliage dark green, heavy and luxuriant. We regard it as the most ornamental of all this family. $1.00.

  var. bella rosea. A vigorous grower, fine dark foliage; no thorns. Flowers flesh-colored, tinged with yellow.

  var. bullata. A variety of Bessoniana, more compact; dark, glossy foliage; hardy.

  var. Decaisneana. A fine variety, with delicate pink flowers. $1.00.

  var. fastigiata. A very distinct sort, of erect habit, like that of the Lombardy Poplar. $1.00.

  var. inermis, or umbraculifera. Globe or Parasol Acacia. Thornless. A remarkable and pretty tree, with a round, regular, dense head, like a ball. $1.00.

  var. inermis rubra monstruosa. Elegant dwarf grower. Flowers blush. $1.00.

  var. inermis rubra. Forms a globe-headed tree; flowers white, slightly shaded with pink. $1.00.

  var. inermis stricta. Another globe-headed variety. $1.00.

  var. semperflorens. Ever-flowering Locust. A vigorous variety that blossoms nearly all summer. $1.00.

  var. spectabilis. A variety producing straight, vigorous, thornless shoots, with large leaves.

  var. splendens. A slender growing variety. $1.00.

SALISBURIA. Maiden-Hair Tree or Gingko.

S. adiantifolia. A remarkable tree from Japan, combining in its habit characteristics of the conifer and deciduous tree. The tree is of medium size, rapid growth, with beautiful, fern-like foliage. Rare and elegant. $1.00 to $2.00.
SALIX. Willow. Weide, Ger. Saule, Fr.

The Willows are a most useful and ornamental class of trees. Of rapid growth, fine habit, hardy, adapted to a great variety of soils, and easily transplanted, they can be used by planters to great advantage. Several sorts are well known; others have not received the attention they deserve. For example, the Royal Willow, with its silvery foliage, is a striking tree, and most effective in landscapes; the Laurel-leaved, with handsome, shining, laurel-like leaves, and bright green bark in winter; the Palm-leaved, with glossy, beautiful leaves, and bright red bark in winter; the Golden, with bright yellow bark in winter, and the Rosemary, with silvery foliage, are all meritorious. The case with which they can be transplanted, and the brief time they require to form good sized trees, are strong arguments in favor of their employment.

var. Salamonii. From France. More vigorous and upright than the species, while it retains its weeping habit.

S. caprea var. pendula. Kilmarnock Weeping Willow. A variety of the Goat Willow or common Sallow. Grafted five to seven feet high upon the Conewell stock, it forms, without any trimming, an exceedingly graceful tree, with glossy foliage and perfect umbrella head, unique in form. Vigorous and thriving in all soils, it is probably more widely disseminated than any of the finer ornamental trees. $1.00.

var. tricolor. Three-colored Goat Willow. Worked four or five feet high it forms a very pretty round-headed tree, with distinct, tri-colored foliage 75 cents.

S. laurifolia. Laurel-leaved Willow. A fine ornamental tree, with very large, shining leaves.

S. palmæfolia. Palm-leaved Willow. A vigorous growing variety, foliage deep green. Young wood reddish purple.

S. pentandra. A distinct and handsome species, with broad, thick, shining foliage.

S. purpurea pendula. American Weeping or Fountain Willow. A dwarf slender species from Europe. Grafted five or six feet high it makes one of the most ornamental of small weeping trees, harder than the Babylonica. $1.00.

S. regalis. Royal Willow. An elegant tree, with rich, silvery foliage. Very effective in groups.

S. rigida pendula. When grafted five or six feet high this makes a fine weeper; the branches are long and slender; the leaves large, glossy, and pale green. $1.00.

S. rosmarinifolia, or petiolaris. Rosemary-leaved Willow. When worked five to seven feet high, a very striking and pretty round-headed small tree. Branches feathery; foliage silvery. 75 cents.

S. vitellina aurantiaca. Golden Willow. A handsome tree. Conspicuous at all seasons, but particularly in winter on account of its yellow bark.

S. Sieboldii. An elegant tree with long graceful branches and long narrow deep green leaves.

S. Wisconsin Weeping. Of drooping habit and harder than Babylonica. Valuable on account of its ability to resist severe cold.

S. Variety from Colorado. Beautiful blue bark in winter.

TAXODIUM. Deciduous Cypress.

T. distichum. Deciduous or Southern Cypress. A beautiful, stately tree, with small, feathery, light green foliage.

var. pendulum. A fine weeping variety, with light green foliage in spring and summer, turning to a reddish brown in autumn. $1.50.
TILIA. Linden or Lime Tree. Linde, Ger. Tilleul, Fr.

The Lindens are all beautiful and merit more notice than they receive. In addition to many other valuable qualities which they possess, their flowers yield a delicate perfume. Of those named below, a few possessing special merit might be mentioned, viz: Gold-barked, Red Fern-leaved, White-leaved, White-leaved weeping and dasystyla.

*T. Americana. American Linden or Basswood. A rapid growing, large-sized, beautiful native tree, with very large leaves and fragrant flowers.

*var. macrophylla. Broad-leaved Basswood. Has immense leaves.

T. Europaea. European Linden. A very fine pyramidal tree of large size, with large leaves and fragrant flowers.

var. alba. (argentea) White-leaved European Linden. From Hungary. A vigorous growing tree, of medium size and pyramidal form, with cordate acuminate leaves, downy beneath and smooth above. It is particularly noticeable among trees by its white appearance. Its handsome form, growth and foliage render it worthy, in our opinion, to be classed among the finest of our ornamental trees. See cut. $1.00.
ORNAMENTAL TREES, SHRUBS, ETC.

ORNAMENTAL TREES, SHRUBS, ETC.

WHITE-LEAVED WEEPING LINDEN.

Tilia E. var. alba pendula. White-leaved Weeping Linden. A beautiful tree with large foliage and slender, drooping shoots. One of the finest of the Lindens. See cut. $1.00.

var. alba, pend. var. variegata. A weeping variety, with its leaves variously blotched with white and greenish yellow. $1.00.

var. alba spectabile. A new and distinct variety of the white-leaved; growth rapid, tree attains large size; form upright, pyramidal; foliage very large, of fine cordate shape, of a shining dark green on the upper side and whitish green underneath. It differs from the white-leaved in having larger leaves, which are not so downy underneath. $1.00.

var. aurea. Golden-barked Linden. A variety of medium size, with golden yellow twigs. Very conspicuous in winter. $1.00.

var. aurea platiphylla. Golden-barked Broad-leaved Linden. A very distinct and handsome variety, remarkable in winter on account of its yellow twigs. $1.00.

var. laciniata. Cut or Fern-leaved Linden. A medium sized tree, of fine habit, with smaller leaves than those of the common, and deeply and irregularly cut and twisted. Very ornamental. $1.00.
Ellwanger & Barry's Catalogue.

_Tilia_ E._var. lacinifolia rubra._ Red Fern-leaved Linden. An elegant tree, of pyramidal compact habit. Bark on young wood rose-colored, and foliage deeply cut. One of the finest trees for the lawn. $1.00.

*var. platyphylla._ Broad-leaved European Linden. A tree of about the same size as _Tilia Europaea_, but readily distinguished from it by its larger and rougher leaves.

*var. pyramidalis._ A rapid pyramidal growing tree, with reddish shoots. $1.00.

*var. rubra._ Red-Twigged European Linden. A fine variety, of medium size, with branches as red as blood. 75 cents.

*var. vitifolia._ Grape-leaved European Linden. A vigorous growing variety, with very large foliage. Young wood bright red.

_T. dasystyla._ A vigorous tree, with cordate, dark green glossy leaves, and bright yellow bark in winter. A superb tree, destined to supersede the _Gold-barked_. $1.00.

_Ulmus._ Elm. Ulme, Ger. Orme, Fr.

Many of the Elms are so well known that it is unnecessary to refer to their beauty and value for ornamental planting. But several very desirable kinds fail to receive due recognition, and we therefore invite the attention of planters to them as follows: *Berardi* and *Viminalis* are unique miniature varieties. The Needle-leaved has beautiful and curious leaves. The Monumental is of dwarf, conical habit, novel and distinct. The Variegated-leaved, Purple-leaved, Pyramidal, Oxoniense and Webbiana, are all choice sorts. *Downs* is a very erect, rapid growing sort, with smooth bark and large, dark-green leaves; valuable for avenue planting. *Belpica* and *Huntingdon* are also suited to the same purpose. We, of course, grow the American, than which there is no finer tree, on an extensive scale, for street and park planting.

*U. Americana._ American White or Weeping Elm. The noble spreading and drooping tree of our own forests. 50 cents to $1.00.

*U. campestris._ English Elm. An erect, lofty tree, of rapid, compact growth, with smaller and more regularly cut leaves than those of the American, and darker colored bark. The branches project from the trunk almost at right angles, giving the tree a noble appearance. $1.00.

*var. Belgica._ A fine variety, of large size, rapid growth, and fine spreading shape. Valuable for street planting. $1.00.

*var. Berardi._ A miniature variety of the Elm. Tree of small size, slender growth, pyramidal habit, with deeply and delicately cut foliage; beautiful and distinct. $1.00.

*var. Clemmeri._ Of medium size, moderate growth and fine form. Much used in Belgium for planting along avenues. $1.00.

*var. cornubiensis._ Cornish Elm. A fine, upright branched variety of the English, of more vigorous growth. $1.00.

*var. corylifolia purpurea._ Purple Filbert-leaved Elm. A fine purple-leaved variety. $1.00.

*var. macrophylla punctata._ Foliage handsomely and distinctly variegated with silvery blotches and stripes. $1.00.

*var. microphylla pendula._ Weeping Small-leaved Elm. A handsome variety, with slender, drooping branches and small foliage; grafted standard high, it becomes an elegant tree, well adapted for small lawns. $1.50.

*var. monumentalis._ Monumental Elm. A slow growing dwarf variety, forming a straight and dense column; distinct and beautiful. $1.00.

*var. myrtifolia purpurea._ Purple Myrtle-leaved Elm. Small, elegant foliage, of beautiful purple color. $1.00.

*var. serratifolia._ Serrated-leaved Elm. A beautiful, compact grower, with dark foliage. $1.00.

*var. stricta purpurea._ Purple-leaved English Elm. A striking variety, with erect branches and purple leaves. $1.00.
**Ulmus c. var. suberosa.** English Cork-barked Elm. A tree of fine habit, young branches very corky; leaves rough on both sides. $1.00.

**var. suberosa pendula.** Weeping Cork-barked Elm. An ornamental drooping variety. $1.00.

**var. urticifolia.** Nettle-Leaved Elm. A rapid-growing, handsome variety, with long serrated and undulating leaves; unique and beautiful. $1.00.

**var. variegata argentea.** Variegated English Elm. Small leaves, sprinkled over with silvery spots; variegation constant. Very fine. $1.00.

**var. viminalis.** A distinct, slender-branched, small-leaved variety; somewhat pendulous. $1.00.

**var. Webbiana.** Webb’s Elm. A handsome variety, of dwarf habit, with small, curled leaves; fine. $1.00.

**var. Wheatleyi.** Compact and upright in habit, with medium to small dark green foliage; beautiful for lawns. $1.00.

**U. Dovæi.** An upright, vigorous-growing variety, remarkably well adapted for street planting. $1.00.

**U. fulva.** Red or Slippery Elm. Of medium size, and straggling open head. 75 cents.
Ulmus f. var. pendula. Weeping Slippery Elm. A variety of luxuriant growth and elegant drooping habit. Its branches shoot upward at first, then bend in graceful curves toward the ground. It also retains its foliage much longer than other Elms. $1.00.

*U. montana. Scotch, or Wych Elm. A fine spreading tree, of rapid growth and large foliage.

var. Camperdown pendula. Camperdown Weeping Elm. Grafted 6 to 8 feet high, this forms one of the most picturesque drooping trees. It is of rank growth, the shoots often making a zigzag growth outward and downward of several feet in a single season. The leaves are large, dark green and glossy, and cover the tree with a luxuriant mass of verdure. See cut. $1.50.

var. pendula. Scotch Weeping Elm. A vigorous, graceful, weeping tree. Branches sometimes marked with a persistent horizontal growth, and again growing perpendicularly downwards. Foliage large and massive. $1.00.

var. pyramidalis de Dampierre. Dampierre's Pyramidal Elm. An elegant pyramidal growing variety. $1.00.

var. rugosa pendula. Rough-leaved Weeping Elm. A fine, pendulous variety, with large rough leaves. $1.00.

var. superba. Blandford Elm. A noble tree, of large size, and quick growth. Foliage large and dark green; bark smooth and grayish. A superb shade tree, and highly ornamental. $1.00.

var. stricta (oxonienae). A dwarf, pyramidal grower, with small leaves, the margins of which are finely cut; distinct and fine. $1.00.

var. Wredei aurea. Golden-leaved Elm. A moderate grower; beautiful golden-yellow foliage; burns somewhat in the sun and should be planted in half shade. $1.50.

U. Siberica. Siberian Evergreen Elm. Erect habit, medium growth; holds its foliage later than any other Elm. $1.00.

U. Vegeta. A rapid grower, of spreading habit, with large, deep-green foliage. $1.00.

XANTHOXYLUM. Prickly Ash.

X. Americana. Also known as Toothache Tree. The branches of this small tree or shrub are armed with strong brown prickles; pinnate leaves, smooth above, downy beneath.
CLASS II.—A LIST OF DECIDUOUS WEEPING OR DROOPING TREES.

Described in their Respective Places in the Catalogue.

For the purpose of enabling purchasers the more readily to make selections, we append the following list, comprising the most graceful drooping trees known:

Acer, (Maple) Dasyacarpum var. Wierii Laciniatum.

Betula, (Birch) Alba pendula.

Cerasus, (Cherry) AcidaSemperflorens pendula.

Cornus, (Dogwood) Florida pendula.

Crataegus, (Thorn) Oxyacantha var. pendula.

Fagus, (Beech) Sylvatica pendula.

Fraxinus, (Ash) Excelsior pendula.

Gleditschia, (Honey Locust) Bujoti pendula.

Glyptostrobus, (Cypress) Sinensis

Larix, (Larch) Europea

Pyrus Sorbus, (Mountain Ash) Aucuparia pendula.

Populus, (Poplar) Grandidentata pendula.

Prunus (Sloe) Spinosa pendula.

Quercus, (Oak) Robur pedunculata var. Dauvessei pendula.

Salix, (Willow) Babylonica.

Taxodium, (Cypress) dis. var. pendulum.

Tilia, (Linden) Alba pendula.

Ulmus, (Elm) Fulva pendula.
CLASS III.—TREES POSSESSING REMARKABLE CHARACTERISTICS OF FOLIAGE.

Described in their Respective Places in the Catalogue.

IN THREE SECTIONS.

SEC. I.—CUT-LEAVED TREES, COMPRISING THOSE WITH CURIOUSLY LOBED OR SERRATED FOLIAGE.

CLASS IV.—CONIFERÆ. (Evergreens.)

NOTE.—Many fine conifers are entirely too tender to be cultivated successfully at the north, and we have therefore dropped them from our list. A few valuable half-hardy evergreens, which can hardly be dispensed with, and which can be grown when planted in sheltered positions, have been retained.

We are now giving special attention to the propagation and culture of perfectly hardy species and varieties, such as are most useful for the general planter.

We recommend Spring planting for Conifers.

PRICE.—50 cents each, [except otherwise noted], for trees of the usual size. Extra-sized specimens charged for in proportion. Those preceded by a * are not quite hardy in this section.

Those preceded by a † are either new or rare, and only to be had of small sizes.
ABIES [including Picea and Tsuga], Spruce, Fir and Hemlock.

Section 1. Abies. Spruce and Hemlock.

Leaves needle shaped, scattered all around the shoots, (including Tsuga—the Hemlocks, with flat leaves mostly two ranked.)

†var. caerulea. The Glaucescent Spruce. A small and beautiful variety; of rather loose spreading habit, with bluish green foliage; very hardy and valuable. $1.00 to $1.50.

†var. nana. A moderate grower, foliage light glaucous green. As the plant increases in age the branches droop. $1.50.

†A. Alcoequiana. Alcock’s Spruce. From Japan. It forms a beautiful tree of close habit. Foliage pale green, silvery underneath and glaucous above. Valuable. $2.00.

A. Canadensis. Hemlock Spruce. A remarkably graceful and beautiful native tree, with drooping branches, and delicate dark foliage, like that of the Yew; distinct from all other trees. It is a handsome lawn tree, and makes a highly ornamental hedge. 50c. to $1.00.

†var. densata. Dense Hemlock Spruce. A handsome green growing dwarf variety. $1.50.

†var. microphylla. Small-leaved Hemlock Spruce. A pretty variety with small foliage. $1.50.

A. excelsa. Norway Spruce. From Europe. An elegant tree, extremely hardy, of lofty, rapid growth, and pyramidal form. The branches assume a graceful, drooping habit, when the tree attains 15 or 20 feet in height. One of the most popular evergreens for planting, either as single specimen trees, or in masses for effect or shelter. It is one of the best evergreen hedge plants. 50 cents to $1.00.

var. Barryi. Barry’s Spruce. A handsome variety of the preceding, which originated in our nurseries some years ago, from seed. To all the desirable and valuable characteristics of its parent, it adds gracefulness of outline, elegance of form, moderate compact growth, and rich deep green foliage. $2.00.

†var. compacta. A dense grower, with light green foliage. $1.00 to $2.00.

†var. conica. Conical Spruce. A dwarf variety, of compact, conical habit; becomes perfectly symmetrical without pruning. One of the best. $1.00 to $2.00.

†var. elegans. A pyramidal growing plant, of moderate size. Fine for the lawn. $1.00 to $2.00.

var. Ellwangerii. Ellwanger’s Spruce. A distinct and novel dwarf variety of Norway Spruce, which originated from seed in our nurseries several years since. It possesses all the desirable and valuable qualities of its parent, such as hardiness, vigor, adaptation to soils generally, and at the same time is a dwarf, compact grower, of handsome form, with rich, deep green foliage, and peculiarly adapted for small grounds. Its leaves are short, stiff, sharp-pointed, and instead of lying closely to the branches, as is the case with the most of Spruces, they project outward, bristle-like, giving the tree quite a novel and distinct appearance.

Price. For plants 12 to 18 inches, $1.00 each; 18 to 24 inches, $2.00 each.

†var. Finnedonensis. The Finedon Spruce. A striking variety of compact habit, having the young leaves on the upper sides of the shoots, first of a pale yellow color, then changing to a bronzy brown, and finally to a light green. The leaves on the underside, green from the first. $2.00.
Abies c. †var. invera. Pendulous-branched Spruce. A pendulous variety of the Norway Spruce, with larger and brighter foliage than that of the species. The lateral branches of the large trees are as drooping as a Willow. $2.00.

†var. parviformis. Small-formed Spruce. An interesting dwarf variety, with small foliage and of slow growth. $1.00 to $2.00.

†var. pumila. Compact dwarf, and perfectly symmetrical. This variety is especially desirable for small lawns or cemeteries. $2.00.

†var. pumila compacta. A dwarf variety, growing 5 to 6 feet in height; foliage dark green; habit compact. $1.00 to $2.00.

var. tortuosa compacta. Tortuous Compact Spruce. A dwarf spreading tree, with the young branches curiously twisted. $1.00 to $2.00.

A. Morinda or Smithiana. Himalayan or Smith's Spruce. A noble and elegant tree, having the character of the Deodar Cedar in foliage, distinguished by a striking and graceful drooping habit in all stages of its growth. Our stock is propagated from a particularly hardy specimen growing on our grounds. $1.00 to $2.00.

A. nigra. Black Spruce. A fine native tree, of compact growth, with smooth, blackish bark and bluish leaves; very hardy.

†var. Doumetti. A handsome dwarf variety of compact growth, with bluish green leaves; very pretty. $2.00.

†var. pumila. Dwarf Black Spruce. A fine variety, growing from 2 to 3 feet in height and 3 to 4 feet in breadth. Foliage dark colored. $1.50.

†A. orientalis. Eastern Spruce. From the shores of the Black Sea. A handsome tree, tall and compact, and remarkable for its graceful habit and slender foliage. Needs protection here while young. $1.00 to $2.00.

†A. polita. A distinct Japanese species. It is of erect habit, and has rigid, sharply pointed leaves of a bright green color; seems to be perfectly hardy. $2.00.

†A. pungens. Colorado Blue Spruce. Known for a time under the following names: Abies Mensiesii, Abies Mensiesii Parryana and Abies Engelmanni. One of the hardiest and most beautiful of all the Spruces; in form and habit similar to the White Spruce; foliage of a rich blue or sage color; an important acquisition. Small plants $2.00.

Section 2. Picea. Silver Fir.

With linear flat leaves, somewhat two ranked.

A. balsamea. Balsam Fir. A very erect, regular pyramidal tree, with dark green sombre foliage. Grows rapidly and is very hardy.

†A. cephalonica. Cephalonian Silver Fir. From Europe. A remarkable and beautiful species, very broad for its height. Leaves silvery and dagger-shaped, with a spine on the point. Quite hardy and vigorous. $1.00 to $2.00.

†var. Reginæ Amalæ. Leaves stiff, sharp pointed, dark green above, glaucous underneath. $2.00.

†A. ciliicica. Cilician Silver Fir. A distinct and beautiful species from the mountains of Asia Minor. It is a compact grower, the branches being thickly set on the stems; foliage dark green; quite hardy. One of the best of the Silver Firs. $1.00 to $2.00.

*†A. nobilis. Noble Fir. A noble tree of symmetrical growth, from Northern California. Branches regular and spreading, and thickly covered with foliage of a rich bluish green color on both sides. Not hardy here. $3.00.
**Abies Nordmanniana.** Nordmann's Silver Fir. This majestic Fir, from the Crimean Mountains, is of symmetrical form, vigorous and quite hardy. Its foliage is massive, dark green, shining above and slightly glaucous below, rendering it a very handsome tree throughout the year. Considered here and in Europe as one of the finest of the Silver Firs. $1.00 to $3.00. See cut.

*A. pectinata.* European, or Comb-like Silver Fir. A noble tree, with spreading horizontal branches and broad, silvery foliage; young shoots somewhat tender, except when well ripened. $1.00.

**A. Pichta.** Pitch Silver Fir. From the mountains of Siberia. A medium sized tree, of compact, conical growth, with dark green foliage. Fine and hardy. $1.00 to $3.00.

**BIOTA. Oriental or Eastern Arbor Vitæ. Thuya, Fr.**

All of the *Biota* are quite tender here, and require to be well protected in winter. On this account we are often tempted to omit the genus from our catalogue. In milder climates they are the most ornamental of evergreens.

*B. orientalis.* Chinese Arbor Vitæ. From China and Japan. A small, elegant tree, with erect branches, and dense, flat, light green foliage; becomes brown in winter. $1.00.

*var. elegantissima. Rollinson's Golden Arbor Vitæ. A beautiful variety, of upright, pyramidal form, with the young foliage prettily tipped with golden yellow, which tint is retained the entire summer. $1.00.

*var. semper aurea. Ever-Golden Arbor Vitæ. A variety of the aurea; of dwarf habit but free growth. It retains its golden tint the year round. One of the best golden variegated Evergreens. $1.00.

CUPRESSUS. Cypress. *Cypres, Fr.

*C. Lawsoniana. Lawson's Cypress. From California, where it forms a very large tree. It has elegant drooping branches, and very slender, feathery branchlets. Leaves dark glossy green, tinged with a glaucous hue. One of the finest Cypresses. Only half-hardy here. $1.00.

*+C. Nutkaensis syn. Thujopsis borealis. Nootka Sound Cypress. A desirable species from Nootka Sound. It is a pyramid in habit, with light, glossy green foliage, sometimes with a bluish hue. $1.50.

*+var. variegata. A most charming variety of C. Nutkaensis, of a deep green hue, with the leaves and branchlets variegated with pale yellow. $2.00.

JUNIPERUS. Juniper. Wachholder, Ger. Genevrier, Fr.

†var. Reevesi. A beautiful form of the Chinese. Tree of fine habit, with the branches somewhat drooping and spreading. Exceedingly hardy and very ornamental. $1.00.

J. c. var. Hibernica. Irish Juniper. A distinct and beautiful variety, of erect, dense conical outline, resembling a pillar of green; very desirable. 75 cents.

J. c. var. Hibernica robusta. Robust Irish Juniper. More vigorous than the preceding, and no doubt hardier, but not quite so regular in form, nevertheless handsome. 75 cents.

J. c. var. suecica. Swedish Juniper. A small-sized, handsome, pyramidal tree, with yellowish green foliage. It is quite hardy. 75 cents.

†var. aurea. Golden Japan Juniper. An attractive variety of moderate growth and spreading habit; foliage of a beautiful golden color which it retains throughout the summer. $1.50.

†var. variegata alba. Silver-variegated Japan Juniper. Similar to species in habit and growth, but foliage of a glaucous green color, interspersed with branchlets of a pure white tint. Very hardy. $1.00.
AUSTRIAN PINE.

†var. Alpina. A low, spreading, trailing shrub, quite unique. $1.00.

†var. tamariscifolia. Tamarisk-leaved Savin. A trailing variety with distinct and handsome foliage. Valuable for rockwork and edges of groups and borders. $1.00.

†J. squamata. Scaled Juniper. A low and spreading species, from the Himalayas, suitable for rockwork. $1.00.

†J. venusta. A rapid grower, of erect habit and fine silvery foliage. Very ornamental and perfectly hardy. $1.00.

**J. Virginiana.** Red Cedar. A well known American tree; varies much in habit and color of foliage, some being quite stiff, regular and conical, and others loose and irregular. It makes a fine ornamental hedge plant.

var. glauca. Glaucous Red Cedar. The compact, conical habit of this variety, combined with its silvery foliage, render it very distinct and desirable. $1.00 to $2.00.

†var. Schottii. Forms a dense bush; foliage of a light green color. Hardy and beautiful. $1.00.
PINUS. Pine. Kiefer, Ger. Pin, Fr.

For this and similar climates, the Pines are of the greatest value.

Sec. I. Usually with two leaves in a sheath.

**P. Austriaca.** syn. nigricans. AUSTRIAN or BLACK PINE. A native of the mountains of Syria. Tree remarkably robust, hardy and spreading; leaves long, stiff and dark green; growth rapid. The most valuable for this country. 50 cents to $1.00. (See cut.)

**Pinus Mugho.** DWARF MUGHO PINE. An upright, small pine, found on the Pyrenees and Alps. Its general form is that of a pine bush, but it has been found growing as high as 40 feet. $1.00. (See cut.)

†var. rotundata. Of more upright growth than the dwarf, and with roundish cones. It is a native of Tyrol, where it forms a small tree. $1.00.

†P. Monspeliensis. SALZMANN’S PINE. From Europe. A noble tree; leaves six to seven inches long and of a bright green color; branches are stout, numerous, and thickly covered with foliage. A vigorous, spreading and picturesque form. $1.50.

**P. Pallasiana.** A large pyramidal tree with shining dark green leaves, perfectly hardy. Valuable. $1.00 to $2.00.

**P. sylvestris.** SCOTCH PINE or FIR. A native of the British Islands. A fine robust rapid growing tree, with stout, erect shoots, and silvery green foliage. Very hardy; valuable for shelter.

Sec. II. Usually with three leaves in a sheath.

**Pinus horizontalis.** A vigorous tree of conical form, with leaves 6 to 8 inches long and of a light green color. $1.00 to $2.00.

†P. Jeffreyi. JEFFREY’S PINE. This is a noble Pine, with deep bluish green leaves. It grows 150 feet high in Northern California. Hardy and very valuable. $1.00 to $2.00.
PINUS PONDEROSA.

†Pinus ponderosa. Heavy-Wooded Pine. This also is a noble tree, attaining the height of 100 feet, found abundantly on the northwest coast of America and California. It is perfectly hardy here. Specimens in our grounds are upwards of 50 feet in height. It is a rapid grower, the leaves 8 to 10 inches in length, and of a silvery green color. $1.00 to $2.00. See cut.

Sec. III. Usually with five leaves in a sheath.

Pinus Cembra Swiss Stone Pine. A handsome and distinct European species, of compact conical form; foliage short and silvery. Grows slowly when young. $1.00 to $2.00.

†P. excelsa. Lofty Bhotan Pine. A native of the mountains of Northern India. A graceful and elegant tree, with drooping silvery foliage, resembling that of the White Pine, but longer and more pendulous. Hardy and vigorous. $1.50.

P. Strobus. White or Weymouth Pine. The most ornamental of all our native Pines; foliage light, delicate or silvery green. Flourishes in the poorest light sandy soil. Very valuable.
PODOCARPUS. Long-stalked Yew.

*†P. Japonica. Native of Japan. An erect, slow-growing shrub, resembling the Irish Yew; requires protection. 75 cents.

RETINISPORA. Japanese Cypress.

A beautiful and valuable genus from Japan; require protection here.

*†R. plumosa. Plume-like Retinispora. A dwarf shrub, with dense, slender, feathery branchlets; very ornamental. $1.00.

*†var. argentea. Silver-spotted Plume-like Retinispora. Soft, silvery, pale green foliage. $1.00.

*†var. aurea. Golden Plume-like Retinispora. Beautiful, golden-tipped foliage; preserves its color throughout the year. $1.00.

TAXUS. Yew. Eibenbaum, Ger. If, Fr.

Nearly all the Yews require protection here.

*†T. adpressa. Japan Yew. Native of the mountains of Japan. A low spreading shrub, with short acute dark green leaves, and pale pink berries. 50 cents to $1.00.

*†T. baccata. English Yew. A large bush or tree; 30 to 40 feet when fully grown. It is densely branched and can be trimmed into any shape. 50 cts. to $1.00.

var. erecta. (stricta.) Erect Yew. An erect, dense growing variety, with small, dark, shining leaves, thickly set on the branches. One of the hardiest and finest. 50 cents to $1.00.

var. elegantissima. Beautiful Variegated Yew. One of the most valuable golden-leaved evergreens which we have. In June and July the leaves of the new growth are of a bright straw color, rendering the plant highly effective, either by itself or in connection with other conifers. One of the hardiest of the Yews. 50 cents to $1.00.

var. Fisherii. Fisher's Variegated Yew. A variety of spreading habit having some of its branches of a deep yellow color; quite hardy. 50 cents to $1.00.

var. fructu luteo. Yellow-fruiting Yew. Only differs from the common in the color of the berries, which are yellow. It is quite hardy. $1.00.

var. glauca. Sea Green Yew. A very distinct variety; foliage dark green on the upper surface, and bluish gray underneath; a vigorous grower; quite hardy. $1.00.

T. cuspidata. One of the hardiest; habit spreading; foliage light green. 50 cents to $1.00.

*†var. brevifolia. Short, petiolate, mucronate leaves. A very handsome variety. $1.00.

THUJA. Western Arbor Vitæ.

T. occidentalis. American Arbor Vitæ. A beautiful native tree, commonly known as the White Cedar; especially valuable for screens and hedges.

†var. aurea. (Douglas' New Golden Arbor Vitæ.) Golden foliage. $1.00.
OEXAMENIAL TREES, SHRUBS, ETC.

**Thuja o. var. Burrowii.** Burrow's Arbor Vitae. Originated on the Hudson River. A handsome variety of fine habit, with golden yellow foliage. 75 cents.

**var. compacta.** Parson's Arbor Vitae. Of dwarf, compact habit, and deep green foliage; fine.

†**var. compacta.** Another dwarf compact form.

†**var. Geo. Peabody.** Of dwarf compact growth, foliage bright golden color, which it retains throughout the summer; the best golden variety. $1.00.

**var. Hoveyi.** Hovey's Golden Arbor Vitae. A seedling from the American; of dwarf habit, globular outline, and bright green foliage. Fine and hardy.

†**var. intermedia.** A perfectly hardy variety of dwarf, compact habit; valuable.

†**var. Little Gem.** (Douglas.) New, very dwarf, and compact; foliage a beautiful dark green. $1.

**var. plicata.** Nee's Plicate Arbor Vitae. A handsome hardy variety from Nootka Sound. Foliage plaited, massive and of a rich, dark green color. $1.00.

†**var. plicata minima.** Plicate Small-leaved Arbor Vitae. Small, plicate foliage; of dwarf habit. $1.00.

†**var. pyramidalis.** Pyramidal Arbor Vitae. Of upright, compact habit, like the Irish Juniper; very desirable. $1.00.

†**var. pyramidalis.** Douglas Pyramidal Arbor Vitae. (New.) Pyramidal in form; foliage distinct, somewhat resembling a Retinispora. $1.00.

**var. sibirica.** Siberian Arbor Vitae. The best of all the genus, for this country; exceedingly hardy, keeping color well in winter; growth compact and pyramidal, makes an elegant lawn tree; of great value for ornament, screens, and hedges. 50 cents to $1. See cut.

**var. Tom Thumb.** A dwarf variety of the American Arbor Vitae, which originated on our grounds. It is remarkable for its slow growth and compact, symmetrical habit. Valuable for the decoration of gardens, lawns or cemeteries, where large trees may not be admissible. Will be found useful for small evergreen hedges.

**var. Vervæneana.** Vervæne's Arbor Vitae. A distinct and handsome yellow marked variety. 75 cents.

†**var. White-tipped.** (Douglas.) (New.) Ends of branches tipped with white from the last of June till the following spring. $1.00.

**THUJOPSIS.** Japan Arbor Vitae.

**T. borealis.** (See Cupressus Nutkensis.)
ORNAMENTAL SHRUBS.

IN FOUR CLASSES.

CLASS I.—Deciduous Shrubs.
CLASS II.—Variegated-leaved Deciduous Shrubs.
CLASS III.—Evergreen Shrubs.
CLASS IV.—Climbing and Trailing Shrubs.

CLASS I.—DECIDUOUS SHRUBS.

Price, 35 cents each, $3 per dozen, except otherwise noted.

AMELANCHIER. Mespilus. AMELANCHIER, Fr.

A. vulgaris Native of Europe. A medium sized shrub, 5 or 6 feet high, with glossy leaves; flowers white, blossoms in May, succeeded by small, purple fruit. 50 cents.

AMORPHA. Bastard Indigo. Unform, Ger. AMORPHE, Fr.

These are fine large shrubs, with small purple or white flowers in dense terminal panicles in July.

ARALIA. Angelica Tree. ARALIA, Ger. ANGELIQUE, Fr.

The following species form small trees, and are very useful to give a tropical appearance to gardens. They require slight protection with straw or evergreen boughs in winter.

A. Japonica. A handsome and distinct shrub, from Japan, with large tripinnate leaves and spiny stems; flowers white, in large spikes in September. 50 cents.

A. Mandshurica. Native of North China. A species with very hairy and prickly bipinnate leaves. $1.00.

A. pentaphylla. A pretty Japanese shrub, of medium size and rapid growth; branches furnished with spines; leaves palmate, five lobed and pale green. 50 cents.

AZALEA. Felsenstrauch, Ger. AZALEE, Fr.

A. mollis. A splendid hardy species from Japan, and one of the most valuable flowering shrubs. Flowers large and showy, like those of the Rhododendron, in fine trusses and of various colors. Choice seedling varieties, $1.50 to $2.00 each.

A. nudiflora. Pink Flowering American Honeysuckle, or Swamp Pink. A native species, with pink flowers. 50 cents.
Azalea Pontica. Pontic Azalea. Ghent Varieties. Native of Asia Minor. A species growing 3 to 4 feet high, with small, hairy leaves, and yellow, orange and red flowers. The Ghent hybrid varieties which we offer combine nearly all colors, and possess a delightful perfume. They rank next to the Rhododendron for the decoration of lawns and pleasure grounds. The blooming season continues through the months of May and June. In this latitude plants are improved by slight protection, but farther south they are perfectly hardy. $1.50.

The Berberries are a most interesting family of shrubs, varying in size from 2 to 6 feet high, rich in variety of leaf, flower and habit. Their showy orange and yellow flowers in May or June are succeeded by bright and various-colored fruit; very ornamental in the autumn and winter.

A native species, forming a shrub, or low tree, with handsome distinct foliage and yellow flowers from April to June, succeeded by red berries.

B. Fortunitii. Of dwarf habit, small, pale green foliage, turning to a beautiful red in autumn. 50 cents.

B. Thunbergii. Thunberg's Berberry. From Japan. A pretty species, of dwarf habit, small foliage, changing to a beautiful red in autumn. 50 cents.

B. vulgaris. European Berberry. A handsome deciduous shrub, with yellow flowers in terminal drooping racemes in May or June, followed with orange scarlet fruit.

var. fructu violacea. Violet-fruited Berberry. This variety produces violet-colored fruit.

var. purpurea. Purple-leaved Berberry. An interesting shrub, growing 3 to 5 feet high, with violet purple foliage and fruit; blossoms and fruit beautiful; very effective in groups and masses, or planted by itself.

The species and varieties of the Calycanthes are very desirable. The wood is fragrant, foliage rich, flowers of a rare chocolate color, having a peculiar, agreeable odor. They blossom in June, and at intervals afterwards.

C. floridus. Carolina Allspice. A native species, growing 6 to 8 feet high, with double purple, very fragrant flowers.

COLUTEA. Bladder Senna. Blasenstrauch, Ger. Baguenaudier, Fr.

C. arborescens. Tree Colutea. Native of the south of Europe. A large shrub, with small, delicate foliage, and yellow, pea-blossom-shaped flowers in June, followed by reddish pods or bladders.
CORNUS. Dogwood. Hartriegel, Ger. Cornouiller, Fr.

Valuable shrubs when planted singly or in groups or masses, some distinguished by their elegantly variegated foliage, others by their bright-colored bark.

C. brachypoda. From the Island of Yesso, Japan. Attains the size of a large tree, the branches forming long, broad arms. Flowers white. $1.00.

C. circinata. Round-Leaved Dogwood. A native species, with round leaves, downy beneath. Flowers small, white, in flat cymes in June and July; fruit light blue. 50 cents.

C. mascula. CORNELIAN CHERRY. A small tree, native of Europe, producing clusters of bright yellow flowers early in spring, before the leaves.

var. variegata. Variegated CORNELIAN CHERRY. Differs only from the preceding in having the foliage beautifully variegated with white; one of the prettiest variegated shrubs in cultivation. 50 cents. See cut.

C. sanguinea. Red-Branched Dogwood. A native species. Very conspicuous and ornamental in winter, when the bark is blood red.

var. elegantissima variegata. One of the finest variegated shrubs, of rapid growth; the leaves are broadly margined with white, while some are entirely white. 50 cents.

C. sibirica folis albo-marginatis. Red Siberian Dogwood. A rare and remarkable variety with silver-margincd foliage and bright red bark in winter. This and sanguinea make a very effective contrast when planted together. It is a shrub destined to rank high in popular estimation as soon as known. 75 cents.

C. Spatethii. A companion of C. elegantissima variegata; while the variegation in elegantissima is white, in this variety it is pale yellow. 75 cents.

C. stolonifera. A native species, with smooth, slender branches, which are usually red in winter.

C. variegata. Variegated-Leaved Dogwood. Desirable for its variegated foliage. This and the sanguinea have white flowers in June, and make large spreading shrubs. 50 cents.

CORYLUS. Filbert.

Haselstaude, Ger. Noisettier, Fr.

C. avellana var. atropurpurea. Purple-Leaved Filbert. A very conspicuous shrub, with large, dark purple leaves. Distinct and fine. 75 cents.

var. laciniata. Cut-Leaved Filbert. A very ornamental shrub, with deeply cut foliage. 75 cents.

COTONEASTER. Mispel, Ger.

C. nummularia. Worked four to six feet high on the Mountain Ash, it makes a very handsome small lawn tree. 50 cents.

CORNUS MASCOLA VARIEGATA.

The flowering varieties of the Japan Quince rank among our choicest shrubs. Although of straggling growth, they bear the knife well, and with proper pruning may be grown in any form. As single shrubs on the lawn they are very attractive, and for the edges of borders or groups of trees they are specially adapted. Their large, brilliant flowers are among the first blossoms in spring, and they appear in great profusion, covering every branch, branchlet and twig, before the leaves are developed. Their foliage is bright green and glossy; and retains its color the entire summer, which renders the plants very ornamental. Special attention is invited to this plant for ornamental hedges. It is sufficiently thorny to form a defense, and at the same time makes one of the most beautiful flowering hedges. See Hedge Plants.
Cyzonia Japonica. Scarlet Japan Quince. Has bright scarlet crimson flowers in great profusion in the early spring. One of the best hardy shrubs in the Catalogue.

var. alba. Blush Japan Quince. A very beautiful variety of the Scarlet, with delicate white and blush flowers.

var. atrosanguinea fl. pl. Double Scarlet Japan Quince. A handsome variety, with semi-double scarlet flowers.

var. grandiflora. Flowers nearly white, very showy; fruit extremely large and almost pear-shaped.

var. Mallardii. A fine variety, with white flowers tinged with rose.

var. rosea pleno. Has semi-double, rose-colored flowers.

var. semi-alba pleno. Flowers nearly white, semi-double.

var. semi-pleno. Semi-double-flowering Japan Quince. A variety of the Scarlet, with semi-double flowers.

var. umbellicata. Flowers brilliant rosy red, succeeded by large, showy fruit; forms a large shrub. One of the finest.

DAPHNE. Daphne.

Seidelbast, Ger. Daphne, Fr.

D. Mezereum. Common Mezereum. A native of Northern Europe. A shrub with small, erect branches, and clusters of pink flowers in March. The earliest flowering shrub we have. 50 cents.

var. alba. White flowers. 50 cents.

DESMODIUM.

D. penduliflorum. A small growing shrub, covered in autumn with a mass of pea-shaped purple flowers at the end of the new shoots. It has a slight tendency to climb, and dies to the ground in winter. A desirable fall-blooming shrub.

DEUTZIA. Deutzia.

Deutzia, Fr.

We are indebted to Japan for this valuable genus of plants. Their hardiness, fine habit, luxuriant foliage, and profusion of attractive flowers, render them the most beautiful and deservedly the most popular of flowering shrubs at the present time. The flowers are produced the latter part of June in racemes four to six inches long.

D. crenata var. flore pleno. Double-flowering Deutzia. Flowers double white, tinged with rose. One of the most desirable flowering shrubs in cultivation. See cut.
Deutzia e. var. flore alba pleno. Similar in habit to the preceding, but pure white and double.

var. Pride of Rochester. A variety raised by us from Deutzia crenata flore pleno, and producing large double white flowers; the back of the petals being slightly tinged with rose. It excels all of the older sorts in size of flower, length of panicle, profuseness of bloom and vigorous habit; blooms nearly a week earlier than Deutzia crenata flore pleno. See cut.

D. gracilis. SLENDER-BRANCHED DEUTZIA. A charming species of dwarf habit, introduced from Japan by Dr. Siebold. Flowers pure white. Fine for pot culture, as it flowers freely in a low temperature in the winter. The first to flower; about the middle of June.

D. parviflora. Of dwarf habit, flowers medium size in short racemes; valuable for forcing. 50 cents.

D. scabra. ROUGH-LEAVED DEUTZIA. One of the most beautiful and profuse white-flowering shrubs; flowers single. June. 50 cents.

DIERVILLA. Weigela. Weigelia, Fr.

Another valuable genus from Japan, introduced as late as 1843. Shrubs of erect habit while young, but gradually spreading and drooping as they acquire age. They produce in June and July superb large trumpet-shaped flowers, of all shades and colors, from pure white to red. In borders and groups the trees are very effective, and for margins the variegated-leaved varieties are admirably suited. Their gay-colored foliage contrasting finely with the green of other shrubs. They flower after the Lilacs in June.

D. arborea grandiflora. A variety of vigorous habit and erect growth; flowers long and tube-shaped; of a sulphur white or pale yellow, changing to pale rose. Flowers about two weeks after the others.

D. candida. WHITE-FLOWERED WEIGELA. A valuable variety. All white varieties heretofore known have been lacking in some important characteristic. Hortensia nivea, the best and only really white sort, is a poor grower and difficult to propagate. Other so-called white sorts have flesh-colored flowers; so that the introduction of candida supplies a long-felt want. It is of vigorous habit, an erect grower, becoming in time a large-sized shrub; flowers pure white and produced in great profusion in June, and the plants continue to bloom through the summer, even until autumn. 50 cents.

D. Chameleon. A variety of robust habit, with flowers of a deep rose color.

D. hortensis nivea. WHITE-FLOWERED WEIGELA. Of dwarf spreading habit and slow growth. Flowers pure white, retaining their purity the whole time of flowering; foliage large. A profuse bloomer; difficult to propagate. 50 cents.

D. hortensis rubra. Flowers deep red when in bud, and rose-colored when in bloom.

D. hortensis A. Carriere. Bright rose; a choice sort. 50 cents.

var. venosa variegata. A dwarf grower, forming a compact bush; the variegation is light yellow, changing to white; flowers deep rose. 50 cents.
Diervilla hybrida Edward Andre. A hybrid between arborea and Lavallei; flowers brownish black. 50 cents.

D. hybrida Hendersoni. Of fine compact habit, rather slender, erect growth; flowers medium size, outside of petals red, interior a lighter shade.

D. hybrida Jean Mace. Flowers large purplish red, maroon in bud. 50 cents.

D. hybrida John Standish. Flowers large, red. 50 cents.

D. hybrida Lavallei. A fine variety, producing dark reddish purple flowers; one of the darkest varieties; habit straggling. 50 cents.

D. hybrida Othello. Flowers erect, carmine. 50 cents.

D. hybrida P. Duchartre. A hybrid between rosea and Lavallei; branches erect, flowers clear amaranth. 50 cents.

D. hybrida Pecheur Fils. Violet-red flowers; profuse bloomer.

D. rosea. Rose-colored Weigela. An elegant shrub, with fine rose-colored flowers, introduced from China by Mr. Fortune, and considered one of the finest plants he has discovered; of erect, compact growth; blossoms in June. See cut.

var. amabilis, or splendens. Of robust habit, large foliage and pink flowers; blooms freely in the autumn; distinct and beautiful.

var. Desboisii. A beautiful variety, with deep, rose-colored flowers, resembling rosea, but flowers much darker. One of the best.

var. Groenewegenii. Has rose-colored flowers, sometimes streaked with a deep red.

var. Gustave Mallet. Flowers deep red; habit good; very free flowering.

var. incarnata. A slender grower; flowers deep red.

var. Kosteriana folis variegatis. Of dwarf, compact growth; leaves bordered with yellow; flowers deep rose; fine.

var. Madame Teillier. Of robust habit, erect growth, foliage tomentose beneath; large pale rose flowers.

var. Monsieur Lemoine. Flowers pale flesh, then rose, then deep red; a superb sort.

var. nana folis variegatis. Variegated-leaved Dwarf Weigela. Of dwarf habit, and possessing clearly defined, silvery variegated leaves; flowers nearly white. It stands the sun well, and is one of the best dwarf variegated-leaved shrubs.

var. nova. A beautiful dwarf, variegated-leaved variety, with rose-colored flowers. 50 cents.
Diervilla r. var. Sieboldii alba marginata. Of upright habit. When the leaves are young the variegation is yellow; when they mature it becomes silvery white; flowers rose-colored.

var. Stelznerii. Flowers dark red; a profuse bloomer.

var. Symondsii. Rose and white flowers, forming a beautiful contrast; a distinct and beautiful variety.

ELÆAGNUS. WILDE OELBAUM, Ger. CHALEF, Fr.

E. argentea. SILVER-LEAVED OLEASTER. A native species of erect growth and beautiful silvery foliage. Flowers small, yellow; July and August. 50 cents.

E. hortensis. GARDEN ELÆAGNUS OR OLEASTER. Native of Southern Europe. A shrub of quite striking appearance on account of the silvery whiteness of its foliage. Fine in masses of trees. 50 cents.

EUONYMUS, Strawberry, or Spindle Tree. SPINDELBAUM, Ger. FUSAIN, Fr.

The Euonymus are all highly ornamental in autumn, when covered with showy fruit.

E. Europæus. EUROPEAN EUONYMUS. Forms a tree sometimes 30 feet in height. Fruit rose colored. 50 cents.

var. fructu albo. WHITE-FRUITED EUONYMUS. A variety with white fruit. 50 cents.

E. latifolius. BROAD-LEAVED EUONYMUS. Forms a tree 10 to 20 feet high, with fine broad, glossy green leaves, which turn to a purplish red in autumn. Fruit large and of a deep blood red color. A very ornamental species. 50 cents.

E. nanus. A pretty shrub of dwarf habit; foliage narrow becoming purple in autumn, fruit red. 50 cents.

EXOCHORDA.

E. grandiflora. From North China. A fine shrub, producing large white flowers in May. Difficult to propagate and always scarce. $1.00.

FORSYTHIA. Golden Bell. Forsythie, Fr.

These are pretty shrubs, of medium size. All natives of China and Japan. The flowers are drooping, yellow, and appear very early in spring before the leaves. The best very early flowering shrubs.

F. Fortuneii. FORTUNE’S FORSYTHIA. Growth upright, foliage deep green, flowers bright yellow. See cut.

F. suspensa. WEEPING FORSYTHIA. A shrub resembling Fortuneii in its flowers, but the growth is somewhat drooping.

F. viridissima. A fine hardy shrub, introduced by Mr. Fortune. Leaves and bark deep green, flowers deep yellow, very early in spring.
HALESIA. Silver Bell. Halesie, Fr.

H. tetraperta. Common Snowdrop Tree. A beautiful large shrub, with pretty white, bell-shaped flowers in May. It is distinguished by its four-winged fruit, which is from one to two inches long. One of the most desirable shrubs. $1.00.

HIBISCUS. Althœa, or Rose of Sharon. Eebisch, Ger. Guimaue, Fr.

The Althœas are fine, free-growing, flowering shrubs, of the easiest cultivation. Very desirable on account of blooming in August and September, when scarcely any other tree or shrub is in blossom.

H. Syriacus var. Boule de Feu. Large, very double, well-formed flowers, of a beautiful violet red color. Plant vigorous; flowers late.

var. Duc de Brabant. Flowers large, very double, and of a reddish lilac. A very free bloomer, and one of the best varieties.

var. flore pleno fol. var. Variegated-leaved Double Purple-flowered Althœa. A conspicuous variety, with the foliage finely marked with light yellow, and producing double purple flowers. One of the finest variegated-leaved shrubs. 50 cents.

var. Leopoldii flore pleno. Large flowers, very double, flesh color shaded rose; leaves lacinated; fine.

var. pœoniflora. Rosy purple flowers; a dwarf grower and very free flowering.

var. purpurea. Single Purple Althœa.

var. purpurea flore pleno. Double Purple Althœa.

var. rubra pleno. Double Red Althœa. Clear color; one of the best.

var. totus albus. Single, pure white; very fine.

var. variegata flore pleno. Double Variegated, or Painted Lady Althœa. White, with purple outside; petals shaded pink.

var. violacea flore pleno. Flowers medium size, double, of violet lilac color, free flowering; one of the best.

HYDRANGEA. Hortensie, Ger. Hydrangee, Fr.

The native species are handsome shrubs of medium size, with fine large leaves, generally of a light green color, and perfectly hardy. The introductions from Japan and China, are particularly interesting and valuable. H. paniculata grandiflora is remarkable in foliage and flower, and being perfectly hardy, is of great value. The other Japanese varieties, like the H. Hortensia, require protection in winter. They should be grown in pots or boxes and wintered in the cellar, and in summer placed along walks under the shade of trees. H. Otaksa is especially adapted for this purpose. Those marked with a † require to be wintered in the greenhouse.

H. japonica. †var. alba variegata. Leaves margined with white; fine. 50 cents.

†var. elegantissima. A variety with large spotted leaves like the Aucuba, some spots being white and others a pale green; fine. 50 cents.

†var. Hortensia. Garden, or Changeable Hydrangea. Native of Japan, introduced in 1790. An elegant, well-known plant, with large leaves and large globular heads of rose-colored flowers; usually grown in pots or boxes; in the north requires protection out of doors in winter.
ELLWANGER & BARRY'S CATALOGUE.

Hydrangea j. ♀var. Otaksa.—Foliage a beautiful deep green color. The plant produces immense trusses of rose-colored flowers in profusion in July; free blooming. 50 cents. See cut.

♀var. ramulus coccineis. A novelty with reddish branches and flowers. 75 cents.

♀var. rosea. A red flowering variety of Thos. Hogg. Possesses some freedom of growth and flowering. 50 cents.

♀var. speciosa. This differs from alba variegata by having the silvery variegation along the center of the leaf, with an occasional spot towards the edge; very pretty. 50 cents.

♀var. Thomas Hogg. This belongs to the Hortensia section of the family, but it is a far more free and abundant bloomer than any other; for the florist, and for all decorative purposes it is invaluable; the flowers are of the purest white, of very firm texture, and are produced from July to September. It is as hardy as the old Hortensia; requires some protection in winter.

H. paniculata grandiflora. Large Panicle-flowered Hydrangea. A fine shrub, growing from 8 to 10 feet high; flowers white, in great pyramidal panicles a foot long, and produced in August and September, when very few shrubs are in flower; one of the finest flowering shrubs. This is the Hydrangea Deutziafolia of some nurseries. 50 cents. See cut on next page.

H. quercifolia. Oak-leaved Hydrangea. A hardy native shrub, remarkable for its large leaves, which are lobed like those of the Oak, and downy beneath; flowers cream-colored in medium sized panicles; August; very desirable. 50 cents.

H. aureum. From Tennessee. One of the finest in flower and foliage; continues in bloom from August to October. 75 cents.

KERRIA. Corchorus. Corete, Fr.

K. Japonica. Japan Corchorus. A slender, green branched shrub, 5 or 6 feet high, with globular, yellow flowers from July to October.

♀var. flòre pleno. Double-flowering Corchorus. Of medium size; double yellow flowers.

♀var. argentea variegata. Silver Variegated-leaved Corchorus. A dwarf variety from Japan, with small, green foliage, edged with white; very slender grower. One of the prettiest and most valuable of dwarf shrubs. 50 cents.

♀var. ramulis var. aureis. A curious dwarf variety, having its stem striped with yellow and green; very pretty in winter when the plant is divested of its leaves. 50 cents.
ORNAMENTAL TREES, SHRUBS, ETC.

HYDRANGEA PANICULATA GRANDIFLORA.

LIGUSTRUM. Privet. Rainweide, Ger. Troene, Fr.

The Privet in all its varieties, deserves attention as an ornamental plant. It is almost an evergreen, and grows freely in all soils; is compact and regular in its form, and bears shearing to any extent. The whole collection which we offer makes a very interesting group on the lawn; the flowers appear in June and July.

var. buxifolium. Box-leaved Privet. A variety of erect habit, with short, thick, dark green leaves, which remain upon the plant till very late in the autumn. One of the best. 25 cents.

var. fructu albo. White-berried Privet. A variety with white berries. 25 cents.

var. glaucum fol. albo marginatum. White-edged Leaved Privet. Of upright habit, the leaves are of a glaucous green, margined with white. Should it prove hardy it will be an acquisition.

L. ovalifolium aureum. California Privet. A vigorous, hardy variety, of fine habit and foliage; valuable for hedges. 25 cents.

L. Pekinensis. The leaves resemble the Lilac, smooth, shining green and spikes of white flowers.
Chamecerisier, Fr.

The following species and varieties are of erect, shrubby habit. The climbing sorts will be found under the head of Climbing Shrubs.

L. caerulea Of shrubby growth; flowers cream colored, fragrant. May.

L. fragrantissima. Fragrant Upright Honeysuckle. A spreading shrub, with deep green foliage and very fragrant small flowers, which appear before the leaves; foliage almost evergreen; most desirable.

L. Ledebouri. Ledebour's Honeysuckle. From California. A distinct species with red flowers in May.

L. Standishii. Standish's Honeysuckle. Native of China. Flowers creamy white, fragrant, appearing in May before the leaves; one of the earliest flowering shrubs.

L. Tartarica. Tartarian Honeysuckle. Pink flowers which contrast beautifully with the foliage. This and grandiflora appear to fine advantage planted together. June.

var. alba. White Tartarian Honeysuckle. Forms a high bush, with creamy-white, fragrant flowers. May and June.

var. grandiflora. Pink-flowering Honeysuckle. A beautiful shrub, very vigorous, and producing large, bright red flowers striped with white, in June.

var. grandiflora alba. A variety of upright habit, with very large pure white flowers.

Pavia. Smooth-fruited Horse Chestnut. Pavier, Fr.

P. macrostachya. Dwarf White Horse Chestnut. A beautiful spreading shrub producing numerous large showy spikes of flowers late in June; very valuable. $1.00.
ORNAMENTAL TREES, SHRUBS, ETC. 73

PHIADHELPHUS GORDONIANUS.
(1/4 NATURAL SIZE.)

PHIADHELPHUS. Syringa, or Mock Orange. Wilder Jasmin, Ger. Seringat, Fr.

The Syringa is an invaluable shrub. Of vigorous habit, very hardy, with large handsome foliage, and beautiful white flowers, produced in the greatest profusion at the blossoming season, it merits a prominent place in all collections of shrubbery. Most of the varieties, except those of dwarf habit, form large sized shrubs, twelve to fifteen feet high. They can of course be kept smaller by pruning. The dwarf sorts do not yield many flowers, but are such pretty, compact plants as to be very useful where small shrubs are desired. All of the varieties flower in June, after the Weigela. By planting the late flowering sorts, the season may be considerably extended.

Ph. coronarius. Garland Syringa. A well-known shrub, with pure white, highly-scented flowers. One of the first to flower.

var. flore pleno. Double-flowering Syringa. A variety with partially double, very fragrant flowers.

var. nanus. Dwarf Syringa. Of low habit; makes a dense, compact bush, rarely produces flowers; useful as a dwarf shrub.

var. Zeyheri. Zeyhe’s Syringa. A large-flowered, odorless variety, flowers very late.

Ph. dianthiflorus flore pleno. A dwarf variety, with double cream-colored fragrant flowers; forms a handsome low shrub; does not flower much.

Ph. foliis aureis. Golden-leaved Syringa. A very pretty plant of medium size with golden yellow foliage. It keeps its color the entire season, and will be found valuable for creating pleasing and striking contrasts with purple-leaved shrubs. 50 cents. (See cut.)

Ph. Gordonianus. Gordon's Syringa. A vigorous grower and profuse bloomer; flowers slightly fragrant, and blooms late, and valuable on that account. See cut.

Ph. grandiflorus. Large-flowered Syringa. Has very showy, large flowers, slightly fragrant; branches somewhat straggling.
Philadelphus g. var. speciosissimus. Of dwarf habit, forming bushes about 3 feet in height and covered with very large white, sweet-scented flowers. Distinct and fine. 50 cents. See cut.

Ph. laxus. Very large, white fragrant flowers, upright habit, free flowering; a valuable sort.

Ph. microphylla. Recently introduced. Of dwarf habit, slender growth, and small white flowers. A very pretty small shrub. 75 cents.

Ph. multiflorus plenus. Flowers almost double, fragrant, creamy white, in long racemes; habit elegant; a profuse bloomer. 50 cents.

Ph. nivalis. The stamens of this variety are cream-colored, thus rendering the whole flower snowy white. Flowers inodorous.

Ph. Pekinensis. Flowers creamy white, fragrant, distinct. 50 cents.

Ph. primuleflorus. Flowers almost double; pure white. 50 cents.

Ph. pubescens. Hoary-leaved Syringa. A beautiful shrub, with large, downy leaves and large, white flowers; late flowering.

Ph. salicifolia. Leaves curled at the edges, giving the plant a peculiar appearance. Dwarf habit. 50 cents.

Ph. speciosus. Very showy flowers; late; distinct habit.

Ph. Yokohama. A white and very fragrant species from Japan, of upright, compact habit; foliage plaited. Makes a beautiful shrub.
PRUNUS TRILIOBA.

PRUNUS. Plum.

Under this heading are embraced some of the most charming early spring flowering shrubs. *Prunus triloba*, or the Double-flowered Plum, as it is commonly called, and the Double-flowered Almonds, produce in remarkable profusion, perfectly double finely formed flowers of most attractive colors. At the blossoming season each little tree appears like one mass of bloom, forming a most beautiful and interesting object, whether planted singly upon the lawn or in groups. As the Almond and Plum flower at the same time, they can be massed very effectively. Both are hardy and of fine habit.

**P. japonica flore albo pleno.** (Erroneously *Amygdalus pumila alba.*) Dwarf Double White-flowering Almond. Produces beautiful double white flowers in May. 50 cents.

**P. japonica flore rubro pleno.** (Erroneously *Amygdalus pumila.*) Dwarf Double Red-flowering Almond. A beautiful small shrub, bearing in May, before the leaves appear, an abundance of small, double, rose-like flowers, closely set upon the twigs. 50 cents.

**P. Pissardi.** The finest purple-leaved small tree or shrub of recent introduction. The young branches are a very dark purple; the leaves when young are lustrous crimson, changing to a dark purple, and retain this beautiful tint till they drop late in Autumn; no other purple-leaved tree or shrub retains its color like this. It transplants easily and is worthy of wide dissemination. Flowers small, white, single. 50 cents.

**P. tomentosa.** A very pretty species from Japan. It has beautifully plaited leaves, and bears in May, small, inconspicuous flowers, which are followed by small red fruits resembling currants. Forms a very handsome dwarf shrub. 50 cents.

**P. triloba.** Double-flowering Plum. Native of China. A highly interesting and desirable addition to hardy shrubs; flowers double, of a delicate pink, upwards of an inch in diameter, thickly set on the long slender branches; flowers in May. 50 cents. See cut.

**P. virgata flore roseo pleno.** Flowers double, rose-colored; not so full as those of *P. triloba*, but they appear three or four days earlier. 50 cents.

**P. trifoliata.** A large shrub or small tree, of rapid growth and robust habit. Fruit winged, and in clusters; flowers in June. 50 cents.
RHAMNUS. Buckthorn. Wegedorn, Ger. Nerprun, Fr.

R. catharticus. Purging Buckthorn. The popular hedge plant. A fine robust, hardy shrub of European origin, with dark green foliage, white flowers and small black fruit.

RHODOTYPUS.

Rh. kerrioides. From Japan. A very ornamental shrub of medium size, with handsome foliage and large, single, white flowers in the latter part of May, succeeded by numerous small fruits. 50 cents. See cut.

RHUS. Sumach. Essigbaum, Ger. Sumach, Fr.

R. Cotinus. Purple-Fringe, or Smoke Tree. From the South of Europe. A much admired shrub for its curious fringe or hair-like flowers, that cover the whole surface of the plant in mid-summer. It grows 10 to 12 feet high, and spreads so as to require considerable space. 50 cents.

R. glabra var. laciniata. Cut-Leaved Sumach. A very striking plant, of moderate size, with deeply cut leaves resembling fern leaves; dark green above and glaucous below, and turning to a rich red in autumn. 75 cents. See cut.

R. Osbeckii. A beautiful species from China, of large size, with remarkable and very ornamental foliage, assuming a beautiful autumnal color. 50 cents.
ORNAMENTAL TREES, SHRUBS, ETC.

RHUS GLABRA VAR. LACINIATA—CUT-LEAVED SUMACH.

The flowering currants are gay, beautiful shrubs in early spring, and of the easiest culture.

R. aureum. YELLOW-FLOWERING Currant. A native species, with glabrous, shining leaves, and yellow flowers.

R. sanguineum. CRIMSON-FLOWERING Currant. An American species, with deep red flowers, produced in great abundance in early spring. 50 cents.

var. albidum. This is a beautiful variety, with pinkish white flowers; contrasts well with the type. 50 cents.

var. flore pleno. DOUBLE CRIMSON-FLOWERING Currant. A variety of the Crimson, with double flowers in July; a most beautiful flowering shrub. $1.00.

RUBUS. Bramble. Brombeere, Ger. Ronce, Fr.

These are rather coarse looking shrubs, but can often be employed to great advantage, especially in the wild garden to produce certain effects.

R. cratægiformis. An ornamental species introduced from Manchuria; habit robust and erect, foliage large, deep green turning to a dark red color in autumn. In July the plant is covered with bright red fruit of an agreeable flavor.

R. fruticosus laciniatus. CUT-LEAVED, or PARSLEY-LEAVED Bramble. Of low trailing habit, foliage deeply cut and quite ornamental; produces palatable fruit.

R. phœnicolasius. A species with foliage resembling that of the Raspberry; leaves downy and of a silvery white color underneath; flowers followed by a hairy fruit of a scarlet color.
CUT-LEAVED ELDER.

SAMBUCUS. Elder. Hollunder, Ger. Sureau, Fr.

These are showy large shrubs, quite ornamental in flowers, fruit and foliage. They blossom in June.

var. aurea. Golden Elder. A handsome variety, with golden yellow foliage. A valuable plant for enlivening shrubberies. 75 cents.

var. heterophylla. Fern-leaved Elder. Luxuriant in growth, with deep and delicately cut foliage; fine. 50 cents.

var. laciniata. A valuable variety, with elegantly divided leaves; one of the best cut-leaved shrubs. 50 cents.

var. pulvcrulenta. In spring the foliage is marbled with silver which continues the greater part of the summer. 50 cents.

var. pyramidalis. An upright grower with peculiar foliage turned back so as to conceal the stem. 50 cents.

var. variegata. Variegated-leaved Elder. Of strong healthy growth; foliage mottled with yellow and white. One of the best variegated-leaved shrubs. 50 cents.

SPIRÆA. Meadow-Sweet. Spierstrauch, Ger. Spiree, Fr.

The Spiræas are all elegant, low shrubs, of the easiest culture, and their blooming extends over a period of three months.

S. ariefolia. White-beam Leaved Spiræa. An elegant species from North West America; habit dense and bushy; plant entirely covered with greenish white blossoms in July. 50 cents.

S. Blumei. Has large panicles of deep rose-colored flowers. June and July.

S. callosa. Fortune's Spiræa. Has large panicles of deep rosy blossoms; grows freely and blooms nearly all summer; fine.

**Spiraea c. var. atrosanguinea.** In growth and habit this is similar to *callosa*; flowers a shade darker. June and July.

**var. superba.** Of dwarf habit, greenish white flowers, in August.

**var. semperflorens.** Habit dwarf; red flowers in coryms. A continuous bloomer.

**S. chamaedrifolia.** **Germander-leaved Spiraea.** A beautiful species, with small wiry branches, covered in June with clusters of white flowers.

**S. corymbosa.** An upright grower and profuse bloomer, with pale green flowers changing to white. May.

**S. crispifolia.** From Japan. Very dwarf, about 12 inches; rounded form, leaves crisped, flowers pink. Blooms nearly all summer.

**S. crataegifolia.** **Hawthorn-leaved Spiraea.** A handsome sort, resembling somewhat the lance leaved, but hardier and distinct. Flowers white in great profusion. June.

**S. Douglasii.** **Douglas' Spiraea.** Has spikes of beautiful deep rose-colored flowers in July and August.

**S. eximia.** Of dwarf habit; flowers bright rose color. July.

**S. floribunda.** **Free-blooming Spiraea.** Flowers white; an abundant bloomer.

**S. Fontenaysii.** Vigorous, and a very free bloomer. Large panicles of greenish white flowers. Latter part of June.

**var. rosea.** A slender grower, with panicles of rose-colored flowers.

**S. luxuriosa.** A strong grower, pretty foliage, white flowers.
Spiraea Niconderti. Nicondert's Spiraea. Small, smooth, soft leaves; small spikes; greenish white flowers in great profusion; one of the first to flower. May.

S. prunifolia flore pleno. Double-flowering Plum-leaved Spiraea. A beautiful shrub from Japan, with pure white flowers like white daisies, in May. Keeps in flower a long time and justly merits to be placed in the front rank among flowering shrubs. See cut.

S. Reevesii, or lanceolata. Lance-leaved Spiraea. A charming shrub with narrow, pointed leaves, and large, round clusters of white flowers that cover the whole plant, and render it exceedingly effective. Blooms in June. See cut.

var. flore pleno, or lanceolata flore pleno. Lance-leaved Double Spiraea. A beautiful double-flowering variety.

var. robusta. A superior variety of the lanceolata. Of more vigorous growth, harder, and flowers much larger. Blooms in June and September. See cut.

S. rotundifolia alba. Leaves roundish; flowers white. A distinct variety.

S. rupestris. Dwarf in growth, with white flowers. May and June.

S. salicifolia. Willow-leaved Spiraea. Long, narrow, pointed leaves, and rose-colored flowers in June and July.

S. sorbifolia. Sorb-leaved Spiraea. A vigorous species, with leaves like those of the Mountain Ash, and long, elegant spikes of white flowers in July.

S. species japonica. (Bumalda.) A very handsome new species from Japan. Habit dwarf but vigorous, foliage narrow, flowers rose-colored, appearing in great profusion during midsummer and autumn. 50 cents. See cut.
Spiræa syringæflora. Of dwarf habit; large clusters of rose-colored flowers. 60 cents.

S. Thunbergii. Thunberg's Spiræa. Of dwarf habit and rounded, graceful form; branches slender and somewhat drooping; foliage narrow and yellowish green; flowers small, white, appearing early in spring, being the first Spiræa to flower. Esteemed on account of its neat, graceful habit. Forces well in winter.

S. ulmifolia. Elm-leaved Spiræa. Leaves somewhat resembling those of the elm, and large, round clusters of white flowers in June. See cut.

S. Van Houttei. Large white flowers; free blooming; hardy. A splendid variety.

The Spiræas flower in the following order, from the middle of May to the middle of August: (1.) prunifolia fl. pl., Thunbergii. (2.) Niederneri. (3.) chamaedrifolia. (4.) crataegifolia, lanceolata, lanceolata fl. pl., lanceolata robusta. (5.) ulmifolia. (6.) opulifolia virga, crenata. (7.) Fontenayesii, salicifolia, sorbifolia. (8.) Billardi. (9.) araturifolia. (10.) callosa, callosa alba, callosa superb, species japonica.

S. colchica. One of the finest early flowering shrubs. Flowers white, fragrant, disposed in clusters. Flowers at the same time as the Lilacs. 50 cents.

SYMPHORICARPUS. St. Peter’s Wort, or Waxberry. Schneebeere, Ger. Symphorine, Fr.

S. racemosus. Snowberry. A well-known shrub, with small, pink flowers, and large white berries that hang on the plant through part of the winter.

S. vulgaris. Red-fruited or Indian Currant. A shrub of very pretty habit. Foliage, flowers and fruit small; fruit purple; hangs all winter.

var. variegatis. Variegated St. Peter’s Wort. A variegated form of the above.

SYRINGA. Lilac. Flieder, Ger. Lilas, Fr.

Well-known, beautiful shrubs, indispensable in every collection. They flower in May.

S. Josikae. Josika’s or Chionanthus-leaved Lilac. From Transylvania. A fine, distinct species, of tree-like growth, with dark, shining leaves and purple flowers in June, after the other Lilacs have done flowering. Esteemed particularly for its fine habit and foliage.

S. Persica. Persian Lilac. Native of Persia. From 4 to 6 feet high, with small foliage and bright purple flowers. 50 cents.

var. laciniata. Persian Cut-leaved Lilac. A variety with deeply cut leaves and reddish purple flowers. 50 cents.

S. rothomagensis var. rubra. Rouen Lilac. A distinct hybrid variety, with reddish flowers; panicles of great size and very abundant. One of the finest Lilacs. 50 cents. See cut.

S. Sibirica alba. Siberian White Lilac. A vigorous grower; foliage small and narrow; flowers white with a bluish tint. Fragrant and free flowering. 50 cents. See cut.
LILAC—ROTHOMAGENSIS.  LILAC—SIBERIAN WHITE.

Syringa Verschaffeltii. Verschaffelt's Lilac. Dark red in bud lilac when open; large, compact panicle; distinct. 50 cents.

var. alba grandiflora. Large-flowered White Lilac. Very large, pure white trusses of flowers. 50 cents.

var. Albert the Good. (New.) An erect, vigorous grower, with large spikes of reddish purple flowers; the best of its color. Raised by Jas. Dougall, Windsor, Canada, who also originated Prince of Wales and Princess Alexandria. $1.

var. Beranger. A seedling from Gloire de Moulins. Has large panicles of a purplish lilac red color; fine. 50 cents.

var. Chariemberg. A distinct variety; flowers very small, light purple, shaded with pink. Compact truss. 50 cents.

var. Charles X. A strong, rapid-growing variety, with large, shining leaves; trusses large, rather loose, reddish purple. 50 cents.

var. Croix de Brahy. Flowers red in bud, becoming almost pink; beautiful; panicles compact. 50 cents.

var. Dr. Lindley. Large, compact panicles of purplish lilac flowers. Very fine. 50 cents.
LILAC—CÆRULEA SUPERBA.

Syringa v. var. cærulea superba. E. & B. Seedling. Flowers light purple in bud, but when fully open a clear blue; truss very large. A splendid variety. 50 cents.

var. de Croncels. Carmine red in bud, lilac when open; truss large; fine. 50 cents.

var. flore pleno. Double Purple Lilac. Has a double row of petals; valuable for cut flowers; very neat and pretty. 50 cents.

var. gigantea. Giant Lilac. A vigorous, erect grower, with large leaves and spikes. Flowers blue.

var. Gloire de Lorraine. Individual flowers large, red in bud, lilac when open. 50 cents.

var. Gloire de Moulins. Long panicle; individual flowers very large, rosy lilac in color and very fragrant. 50 cents.

var. Jacques Calot. One of the finest Lilacs; very large panicles of delicate rosy pink flowers, the individual flowers unusually large; distinct. $1.

var. Lemoinei flore pleno. Lemoine's Double-Flowered Lilac. Panicles large; flowers reddish purple, semi-double; fine. 50 cents.

var. Louis Van Houtte. (New.) Large panicles of red flowers. 50 cents.

var. Marie Legraye. (New.) Large panicles of white flowers. $1
Syringa v. var. nana. Dwarf Lilac. Distinct, large and compact spike of dark reddish purple fragrant flowers. 50 cents.

var. Noisettiana alba. Large trusses of white flowers. $1.

var. President Massart. Red in bud, purple when open; large panicle; fine. 50 cents.

var. Princess Alexandria. (New.) A variety with pure white flowers; panicles medium to large; fine. $1.

var. Prince of Wales. (New.) Panicles medium to large; flowers purplish lilac, the petals slightly curling near the edge, giving the flowers the appearance of being striped. $1.

var. Prof. E. Stockhardt. Lavender-colored flowers, large truss; fine. 50 cents.

var. rubra insignis. Dark red in bud, purple or lilac when open; large truss; superb. 50 cents.

var. Ville de Troyes. A fine variety, with large panicles of dark purple flowers. 50 cents.

var. virginalis. Flowers pure white; large, compact panicle; more delicate than the common. $1.

S. villosa. A new species from Japan. Large branching panicles; flowers light purple in bud, white when open; fragrant; foliage resembles that of the White Fringe. Especially valuable, as its flowers appear two weeks after those of other Lilies. $1.50.

TAMARIX. Tamarisk. TAMARISKE, Ger. TAMARISC, Fr.

These are very beautiful shrubs, with small leaves, somewhat like those of the Juniper, and delicate small flowers in spikes. They are invaluable for planting by the seaside, where scarcely anything else will grow.

T. Africana. Handsome foliage, upright habit; flowers in May.

T. Chinensis. A vigorous, upright grower, with delicate foliage of a lively green color; flowers rose-colored, in September.

T. Narbonne. Of straggling habit. Foliage glaucous green; flowers in May before the leaves appear.

VIBURNUM. Arrow Root. SCHLINGE, or SHINEBALL, Ger. VIORE, Fr.

V. Japonicum. Resembles plicatum in foliage and habit; the cymes are bordered with a circle of large white barren flowers. 50 cents.

V. lantanoides. EARLY WHITE LANTANA-LEAVED VIBURNUM. A large, robust shrub, with soft, heavy leaves, and large clusters of white flowers in May, succeeded with red fruit; retains its foliage very late.

V. nepalense. A robust growing shrub, with cymes of white flowers, which appear later than those of the other Viburnums. 75 cents.

V. Opulus. HIGH, OR BUSH CRANBERRY. Both ornamental and useful. Its red berries, resembling cranberries, esteemed by many, hang until destroyed by frost late in the fall; resembles the Snowball in wood and foliage.

var. nanum. A very dwarf variety, forming a small bush two feet in height; does not produce any flowers. A pretty dwarf plant. 75 cents.
**Viburnum O. var. sterilis.** Guelder Rose. Snowball Tree. A well known, favorite shrub, of large size, with globular clusters of pure white, sterile flowers the latter part of May. See cut.

**V. plicatum.** Plicate Viburnum. From North China. Of moderate growth; handsome, plicated leaves, globular heads of pure white neutral flowers early in June. It surpasses the common variety in several respects. Its habit is better, foliage much handsomer, flowers whiter and more delicate. One of the most valuable flowering shrubs. 75 cents. See cut.
**Viburnum prunifolium.** Plum-leaved Viburnum. Has smooth, glossy foliage, and white flowers in May and June. 50 cents.

**V. pyrifolium.** Pear-leaved Viburnum. A native shrub. Flowers white; fragrant; the last of all to flower, being about ten days later than the others. 50 cents.

**V. ruginosum.** Rough-leaved Viburnum. Has larger and rougher leaves than lantanoides, and terminal cymes of white flowers in May. Very ornamental in foliage and fruit.

**XANTHOCERAS.**

**X. sorbifolia.** From Central China. One of the most important introductions of the last few years; forms a shrub or small tree, foliage resembling that of the Service tree or Mountain Ash; flowers five-petaled, white, reddish copper-colored at base, disposed in racemes about 8 inches long; flowers expand in April or May with the leaves. It is very floriferous, young plants flowering freely. Requires protection until established. $1.

**CLASS II.—FLOWERING SHRUBS WITH VARIEGATED OR COLORED FOLIAGE.**

Described in their Respective Places in the Catalogue.

**Berberis,** (*Berberry*) vulgaris var. purpurea.

Cissus variegata.

**Cornus,** (*Dogwood*) mascula variegata.

- sibirica foliis albo marginatis.
- variegata.
- elegantissima variegata.
- Spethii.

**Diervilla,** (*Weigela*) hortensis var. venosa variegata.

- rosea var. Kosteriana fol. var.
- " " " nana fol. var.
- " " " nova.
- " " " Sieboldii alba marginata.

**Hibiscus,** (*Althaea*) syriacus var. fl. pl. fol. variegatis.

**Kerria,** (*Corchorus*) japonica argentea variegata.

**Ligustrum,** (*Privet*) var. glaucum marginatum.

**Philadelphus,** (*Syringa*) foliis aureis.

**Prunus,** (*Plum*) Pissardi.

**Sambucus,** (*Elder*) nigra variegata.

- " var. aurea.

**Symphoricarpus,** (*St. Peter's Wort*) vulgaris variegatis.
FLOWERING SHRUBS.

Named in the order in which they flower, embracing some of the choicest species.

APRIL.
Daphne Mezereon.

MAY.
Forsythia, in variety.

ORNAMENTAL TREES, SHRUBS, ETC.

CLASS III.—EVERGREEN SHRUBS.

Price, 35 cents each, $3.00 per dozen, except where noted.

ANDROMEDA.

A. floribunda. A very pretty evergreen plant, of dwarf compact habit, with rich dark green foliage and pure white flowers in great abundance in spring; requires same treatment as the Rhododendron. $1.50.

The species and varieties of the Tree Box are beautiful lawn shrubs or small trees, well adapted to small places. They flourish best when partially shaded. In this climate they require protection.

B. japonica nova. One of the handsomest dwarf evergreen shrubs. Leaves small, pale green, striped white. Not quite hardy. 50 cents.

var. argentea. Silver Striped-Leaved Box.

var. aurea. Gold Striped-Leaved Box.

var. Handsworthii. Handsworth's Box. An upright, vigorous variety, with oval leaves; very hardy and ornamental.

var. latifolia. Broad-Leaved Box. Broad foliage; distinct.

var. rosamarinifolia. Forms a beautiful small bush; foliage glauous.

var. nana. Dwarf Box. The well-known sort used for edging. 30 cents per yard.

CRATÆGUS. Thorn.

C. Pyracantha. Evergreen Thorn, or Burning Bush. Native of South of Europe. A low, bushy plant, retaining its foliage all winter. Has pinkish or white flowers, succeeded by dense clusters of orange-scarlet berries. 50 cents.

var. alba. White-Fruited Pyracantha. A variety with pure white fruit. Used for hedges. 50 cents.

var. Lalandii. A variety with larger leaves than the type. 50 cents.

KALMIA. Leeffelbaum, Ger.

K. latifolia. Mountain Laurel, or Calico Bush. A beautiful native evergreen shrub, with shining foliage and dense clusters of pink or nearly white flowers in spring. Requires same treatment as the Rhododendron. $1.00.

MAHONIA. Ashberry. Mahonie, Fr.

M. Aquifolium. Holly-Leaved Mahonia. A native species of medium size, with purplish, shining, prickly leaves, and showy, bright yellow flowers in May, succeeded by bluish berries. Its handsome, deep green, glossy foliage and neat habit, render it very popular for decorative planting.
RHODODENDRON. Rosebay.

The Rhododendrons are magnificent flowering Evergreen Shrubs. All prefer a peaty soil and a somewhat shaded situation. The Catawbiense varieties are the most hardy, and succeed in our climate better than any other. In this latitude they require to be protected in winter.

Rh. Catawbiense. CATAWBA ROSEBAY. A bushy shrub, with broadly oval leaves, and compact, round clusters of lilac and violet flowers in June. We have a large collection, embracing the best varieties of this hardy species. Plants with flowering buds, about 18 to 24 inches, $1.50 to $2.00 each.

CLASS IV.—CLIMBING AND TRAILING SHRUBS.

Price, 35 cents each, except otherwise noted.

A most useful class of plants for this country, for covering cottages, verandas, walls, lattices, etc.

ACTINIDIA.

A. polygama. A climbing plant from Japan. The flowers are white with a purple center, and sometimes cover the whole vine. The fruit is round, edible, and has a fine flavor.

A. var. polygama. A variety of the above with long fruit.

AKEBIA. Akebie, Fr.

A. quinata. A singular Japanese climbing shrub, with fine foliage, purple flowers and ornamental fruit.

AMPELOPSIS. Jungfernwein, Ger. Vigne-vierge, Fr.

A. dissecta. A very pretty variety, with finely cut leaves. 50 cents.

A. quinquefolia. American Ivy, or Virginian Creeper. Has beautiful digitate leaves that become rich crimson in autumn; a very rapid grower. Like the Bignonia and Ivy, it throws out tendrils and roots at the joints, by which it fastens itself to anything it touches. One of the finest vines for covering walls, verandas or trunks of trees; affords shade quickly.

var. aconitifolia. Leaves digitate and leaflets much cut. A slender grower. 50 cents.

var. dissecta. A cut-leaved variety of American Ivy. 50 cents.

var. muralis. Resembles the American, but is more slender in growth and shorter jointed, with smaller leaves. 50 cents.

A. Roylei. From Japan. Resembles the American, but is more vigorous; foliage larger, and remarkably high-colored in autumn.

A. tricuspidata. Leaves deeply three-lobed; lobes long and pointed; hardy and distinct.

A. Veitchii. Japan Creeper. Leaves smaller than those of the American, and overlap one another, forming a dense sheet of green. The plant is a little tender while young and requires protection the first winter; but once established, there is no further risk. It grows rapidly and clings to wall or fence with the tenacity of Ivy; the foliage is very handsome in summer, and changes to crimson scarlet in autumn. For covering walls, stumps of trees, rockeries, etc., no plant is so useful. For the ornamentation of brick and stone structures, it can be specially recommended.
ORNAMENTAL TREES, SHRUBS, ETC.

ARISTOLOCHIA. OSTERLUZEI, Ger. ARISTOLOCHE, Fr.

A. Sipho. Dutchman's Pipe. A native species of climbing habit and rapid growth, with magnificent light green foliage; 10 to 12 inches in diameter, and curious pipe-shaped, yellowish brown flowers. 75 cents.

A. tomentosa. A slender grower; leaves glaucous and downy beneath; purple flowers in July. 75 cents.

BOUSSINGAULTIA.

B. baselloides. Madeira Vine. A rapid climber, suitable for screens, arbors, etc., with white flowers; blooms profusely; fragrant. Not being hardy, it should be wintered in the greenhouse.

CELASTRUS. Staff Tree. CELASTRE, Fr.

C. scandens. Climbing Celastrus. A native climbing or twining plant, with fine large leaves, yellow flowers, and clusters of orange-capsuled fruit. It grows 10 to 12 feet in a season.

CISSUS.

C. variegata. Variegated-leaved Cissus. A handsome running vine like a grape, with handsomely variegated three-lobed leaves, and small clusters of dark colored fruit.

CLEMATIS. Virgin's Bower. WALDRÊBE, Ger. CLEMATITE, Fr.

None among hardy perennials exceed in beauty and effectiveness the finer sorts of Clematis. As a climber for the veranda, a screen for fences, for pillars along the garden walks, for training on walls or arbors, in masses on rockwork, or cultivation in pots, it has no rival among strong-growing blossoming plants. The Clematis should be grown in rich, deep, sandy loam, and be well mulched with rotten manure in winter. The richest sheets of bloom and largest flowers are obtained where it has partial shade and a liberal supply of water at the roots.

After many years' experience we have come to the conclusion to grow only a few varieties which have proved worthy of general cultivation. The leading and best varieties are Jackmanni, Alexandra and Henryi.

Lanuginosa Type.

C. Henryi. (Anderson-Henry.) Very large, fine form; free grower and bloomer; creamy white. $1.00.

Viticella Type.

Varieties which flower in the summer and autumn successionally, in masses, on summer shoots.

C. Viticella modesta. (Modeste Guerin.) Large reddish violet, changing to blue; free-growing and free-flowering. $1.00.

C. Viticella venosa. Reddish purple, veined; one of the finest. $1.00.
Jackmanni Type.

Varieties flowering during the summer and autumn in continuous masses on summer shoots.

Clematis Alexandra. (Jackman.) Flowers large, of a pale reddish violet; a very strong grower, and a most floriferous and valuable variety. 75 cents.

C. Flammula. European Sweet Clematis. Flowers small, white and very fragrant. 50 cents.
Clematis Jackmanni. *Jackman.*) Large, intense violet purple; remarkable for its velvety richness; free in growth and an abundant and successive bloomer. 75 cents to $1.00!

C. Virginiana. American White Clematis. A remarkably rapid climbing plant, growing to the height of twenty feet, producing an immense profusion of flowers in August.

The Ivies are evergreens and frequently suffer from exposure to the sun in winter. For this reason, the north side of a wall or building is a better situation than the south.

H. canariensis, or hibernica. Irish Ivy. The well-known old sort.

H. rhombea variegata. Small leaves, prettily variegated.

H. Roeiigeriana, or colchica. Giant Ivy. A very hardy sort, with very large, thick, leathery leaves.
LONICERA. Honeysuckle, or Woodbine. Geisblatt, Ger. Chevrefeuille, Fr.

L. brachypoda aureo reticulata. Japan Golden-leaved Honeysuckle. A handsome and very desirable variety, with the foliage beautifully netted or variegated with yellow.

L. Canadensis. Canadian Honeysuckle. A very robust, rapid grower, with large glaucous leaves and yellow flowers.

L. flava. Yellow Trumpet Honeysuckle. A well-known native vine, with yellow trumpet flowers.

L. Halleana. Hall’s Japan Honeysuckle. A strong, vigorous, almost evergreen sort, with pure white flowers, changing to yellow. Very fragrant, and covered with flowers from July to December; holds its leaves till January. The best bloomer of all. See cut.

L. Japonica. Chinese Twining Honeysuckle. A well-known vine, holding its foliage nearly all winter. Blooms in July and September, and is very sweet.

L. pallida. White and straw-colored fragrant flowers; shining, deep-green leaves.

L. Periclymenum. Common Woodbine. A strong, rapid grower, with very showy flowers, red outside, buff within. June and July.

L. sempervirens. Scarlet Trumpet Honeysuckle. This and its varieties are the handsomest in cultivation. It is a strong, rapid grower, and produces scarlet inodorous flowers all summer.

var. fuchsiaoides. Scarlet coral-like flowers in June; fine. 50 cents.

MENISPERMUM. Moonseed. Menisperme, Fr.

M. Canadense. Canadian Moonseed. A pretty, native, twining, slender-branched shrub, with small yellow flowers and black berries.

PERIPLOCA. Silk Vine, Schlinge, Ger.

P. Graeca. Native of Southern Europe. A rapid-growing, beautiful climber. Will twine around a tree or other support to the height of 30 or 40 feet. Foliage glossy, and purple brown axillary clusters of flowers.
TECOMA. Trumpet Flower. Bignone, Fr.

var. atrosanguinea. Dark Red, or Purple Trumpet-Flower. A vigorous shrub with purplish crimson flowers. 50 cents.

WISTARIA. Glycine, Fr.

W. brachybotrys. From Japan. Flowers light blue and fragrant; clusters short. 50 cents.

W. Sinensis. Chinese Wistaria. One of the most elegant and rapid growing of all climbing plants; attains an immense size, growing at the rate of 15 or 20 feet in a season. Has long, pendulous clusters of pale blue flowers in May and June and in autumn. 50 cents. See cut.

CHINESE WISTARIA.

(var. alba. Chinese White Wistaria. Pure white flowers. Introduced by Mr. Fortune, from China, and regarded as one of his greatest acquisitions—$1.00.

var. flore pleno. A strong grower when established; flowers in racemes; purple, very double; rather a shy bloomer. $1.00.

var. alba. White American Wistaria. Flowers clear white; bunches short; free bloomer. $1.00.

W. magnifica. Flowers in dense drooping racemes of the same size as the Chinese, and of a pale lilac color; vigorous and perfectly hardy.

W. multijuga. From Japan. Said to produce dark blue double flowers. $1.00.
HEDGE PLANTS.

WHICH MAY BE EMPLOYED

FOR ORNAMENT, SHELTER, SCREENS AND DEFENSE.

For these purposes we recommend Evergreens like the American and Siberian Arbor Vitae, Norway Spruce, Hemlock, Austrian and Scotch Pines, and many of the Deciduous and Evergreen shrubs, such as the Japan Quince, Tamarix, Deutzias, Spiraeas, Mahonia, &c., and for defensive hedges, the Honey Locust and Osage Orange.

FOR ORNAMENT.

The Siberian Arbor Vitae, in our opinion, takes the precedence among Evergreens as an Ornamental Evergreen Hedge Plant. Its thrifty, compact growth, fine form, great hardihood and deep green color, which its foliage retains throughout the year, adapt it specially for dividing lines between lawns or gardens, or for hedges along streets or avenues.

The American Arbor Vitae, though not quite so ornamental in character, being less dense in growth and spreading in habit, forms a handsome hedge. It may be obtained at less cost than any other Evergreen hedge plant.

For a low, ornamental hedge, the Tom Thumb Arbor Vitae is useful.

With careful pruning the Norway Spruce may be kept low and in good shape and grown in this manner is highly ornamental.

The Hemlock, being of extremely graceful habit and fine foliage, is very popular though not so hardy nor so well adapted to all soils as the Arbor Vitae.

The flowering shrubs are ornamental hedge plants par excellence; among them the Japan Quince is particularly desirable, on account of its good habit and handsome foliage. We are growing it largely for hedges.

FOR SHELTER AND SCREENS.

For planting in belts to afford shelter from violent winds, or for concealing unsightly objects or views, or for boundary lines, we recommend the Norway Spruce and Austrian and Scotch Pines. Their robust habit, rapid, dense growth, and entire hardiness, are characteristics not easily to be found in other Evergreens.

The American Arbor Vitae also is particularly valuable, either for shelter or screens.

DEFENSIVE HEDGES.

For turning cattle and as a farm hedge for general purposes, the Honey Locust, in this locality and farther north; is the most valuable. It is of vigorous growth, perfectly hardy, and thrives with ordinary care, and is sufficiently thorny to be impenetrable. It bears the shears with impunity, and can be grown in any desired form. South of us, the Osage Orange is in great favor, but it is not hardy enough to be serviceable here.
ORNAMENTAL TREES, SHRUBS, ETC. 97

DIRECTIONS FOR SETTING.

Evergreens must be handled with care, so as not to allow the roots to become dried by the wind. Plants for hedges being generally set when quite small, should be placed about nine inches apart; larger sized plants will require more space.

*Honey Locust* and *Osage Orange* are generally planted in double rows, about nine inches apart.

PRUNING.

Evergreens should be pruned in spring, just before they commence growing. Summer pruning may be practiced on the *Arbor Vitae* should the growth be too rapid.

EVERGREEN.

PÆONIA.

Pæony. Pivoine, Fr.

Class I.—PÆONIA MOUTAN. TREE PÆONIES.

*P. Moutan*, the parent species, is a native of China. The varieties are handsome flowering shrubs, attaining from 6 to 8 feet in height in about ten years, with proper care. The flowers are remarkably striking, of gorgeous colors, very numerous, and enormous in size, often measuring 6 to 9 inches across, and appearing in May. All are very effective amongst shrubs, or on the margins of borders. Although hardy, the plants are greatly improved by a slight protection in winter.

PRICE, $1.00 each; extra size, $2.00.

*P. Banksii*. CHINESE DOUBLE BLUSH PÆONY. Very large, fragrant flowers; rosy blush, with purple center. One of the finest.
Select Varieties of Pæonia Moutan.
12 varieties, our choice, $12.00.

P. alba plena. Double white, shaded with purple at the center. $1.50.
P. Arctusa. Light rose, shaded with purple; large and fragrant, $1.00.
P. Bijou de Chusan. Flesh white; beautiful. $1.00.
P. Blanche Noisette. Superb; flowers very double, and white. $3.00.
P. Cornelie. Semi-double flowers, brilliant light red, back of petals marked with white; fragrant. $1.00.
P. Extensa. Very large; rose, clouded with purple. $1.00.
P. Josephine Imperatrice. Dark rose, with purple shade; distinct. $1.00.
P. Kochlerii. Dark rose, turning to purple. $1.00.
P. Pride of Hong Kong. Cherry red, with purple center; semi-double, large and distinct. $1.00.
P. Reine Elizabeth. Rosy crimson in center, shaded off to a light rose towards the margin; full and of immense size; extra. $2.00.
P. Roi des Cerises. Pink or flesh-colored, changing to creamy white, purple at base of petals; full and fine. $1.00.
P. rosea fl. pl. minor. Deep rose, becoming purple; medium size; compact and fine. $1.00.
P. rosea superba plena. Dark rosy-violet; fine. $1.50.
P. rubra plena. Bright rose, almost single but fine. $1.00.
P. Zenobia. Double purple; distinct and fine. $1.50.

Class II.—HERBACEOUS PÆONIES.

It is surprising that so noble a flower, almost rivalling the Rose in brilliancy of color and perfection of bloom, and the Rhododendron in stately growth, should be so neglected. Amateurs seem to have lost sight of the many improved varieties introduced within the last few years, and our finest gardens, perfect in other respects, are singularly deficient in specimens of the newer kinds. The first point in their favor is hardiness. It may be truly said of them that they are " hardy as an oak." In the severest climates the plants require no other protection than that which they afford themselves. Then their vigorous habit and healthy growth, freedom from all diseases and insects are important arguments in favor of their cultivation. Growers of roses know well that their flowers are obtained by great vigilance and care. Not so with the Peony, which, when once planted, all is done. Each succeeding year adds to their size and beauty. The foliage is rich and glossy and of a beautiful deep green color, thus rendering the plants very ornamental even when out of flower. The newer varieties produce very large, handsome, regularly-formed cupped blooms resembling large roses. No other flower is so well adapted for large, showy bouquets. The Peony may be planted either singly on the lawn or in borders. Where the lawn is extensive a large bed makes a grand show, surpassing a bed of Rhododendrons. It is really a flower for the million. We place them in three divisions: first, the Officinalis and its hybrids; second, Paradoxa. These are European, and bloom from the middle to the end of May. The third is Chinensis, and blooms through June and July. A selection from the three divisions will give a fine display of flowers during three months. Our collection has been made with great care and includes the best and most distinct varieties.

FIRST DIVISION—PÆONY OFFICINALIS.

P. maxima. Double red, changing to blush; large and double. 50 cents.
P. rosea. Double crimson, changing to rose; fragrant; fine. 50 cents.
P. rubra. Double crimson; of large size; fragrant. 50 cents.
P. tenuifolia. Single, dark crimson; very rich fern-like foliage, and flowers distinct; the earliest flowering. 35 cents.
P. tenuifolia flore pleno. Double, fennel-leaved; flowers of a bright scarlet crimson and quite double and globular; rare and fine. $1.00.
SECOND DIVISION—PARADOX P.ÉONIES.

**P. amaranthescens spherica.** Dark crimson, very double. 50c.

**P. pulcherrima plena.** Crimson, with purple shade; center petals small and compact. 50 cents.

---

CHINESE P.ÉONY.

THIRD DIVISION—CHINESE P.ÉONIES.

Price 50 cents each except otherwise noted. 12 varieties, our choice, $4.00.

**P. Ambroise Verschaffelt.** (*Calot.*) Purplish crimson; very full flower fragrant.

**P. Artemise.** Rose of several tints. $1.00.

**P. atrosanguinea.** Purplish red, tinted with violet, $1.00.

**P. Auguste Lemonnier.** (*Calot.*) Velvety red; large, full and beautiful. $1.00.

**P. Baron James Rothschild.** Outside petals rose, center salmon; very large and fine.

**P. carnea elegans.** Flesh color, with a few carmine marks in the center.
Paeonia carne striata. (E. & B.) Flesh color, striped with red; very fine.

P. Charles Morel. Violet purple. $1.00.

P. Charles Verdier. Light lilac rose; very large, and of perfect form; a superb variety. $1.00.

P. Constant Devred. Soft clear purple, imbricated like a rose.

P. Daniel d'Albert. Deep rose, shaded purple; large globular flower. $1.00.

P. delicatissima. Delicate fine rose; very large, full and sweet.

P. Delachii. Dark purplish crimson, shaded violet.

P. Dr. Bretonneau. (Verdier.) Eosy violet; very large and fine; fragrant.

P. Duchess d'Amaule. Light rose, center straw color, tipped with red; beautiful.

P. edulis, or fragrans. Violet rose, all of one color; very full and sweet.

P. Eugene Verdier. Blush, shaded with pink; large, very full. $1.00.

P. festiva. Pure white, with a few marks of carmine in the center; perfectly globular, beautiful and sweet. 75 cents.

P. festiva maxima. Resembles the preceding, but flowers are much larger, and in clusters. 75 cents.

P. fulgida. Crimson; profuse flowering; extra fine.

P. Gen. Bertrand. (Guerin.) Rosy violet, center salmon; large and showy; very fine.

P. globosa. Pure white; full, globular and large; beautiful.

P. globosa grandiflora. White, large globular flowers; sweet.

P. grandiflora carne plena. (Lemon.) Very large; outside petals delicate blush; center fringed, yellowish; sweet and fine.

P. Henri Demay. (Calot.) Violet purple; very large and full. $1.00.

P. Henri Laurent. Rosy pink; large and fine. $1.00.

P. Hericartiana, or Reine Hortense. Outside petals rose, inside rose and salmon; fine.

P. Humei. Purplish rose; very full and double; has no stigma, and never produces seed; very large and showy, and one of the latest in bloom; as much as three weeks later than the earliest of the Paeonies.

P. Jeanne d'Arc. Outside petals rose colored, inside straw colored, with crimson spots. $1.00.

P. Jules Lebon. (Calot.) Bright carmine red. $1.00.

P. latipetela. Outside petals flesh color; center ones yellowish white; very large and fine.

P. L'Esperance. Salmon, spotted and striped with rose; a novelty in color. $1.00.

P. Louis Van Houtte. Dark crimson; very compact.
Paeonia Louis Van Houtte. (Calot.) Bright purple cherry; large, globular and full. $1.00.

P. Madame Geissler. Silvery rose, shaded with crimson; very large and full. $1.00.

P. Madame Lebon. Very large; bright cherry, some petals white. $1.00.

P. Madame Lemoine. Large; pure white; fine dwarf habit. $1.00.

P. Mad. Victor Verdier. Crimson rose, with light violet; very large and full. $1.00.

P. Marechal Vaillant. Dazzling purple violet. fine form. $1.00.

P. Modeste. (Guerin.) Deep rose; bright, showy; very large, distinct and fine-shaped; fragrant; superb variety.

P. Monsieur Boucharlat. Bright rose lilac; large and full flower, imbricated like a rose; very late; fragrant; superb. $1.00.

P. multicolore. White, rose and flesh color; fragrant. $1.00.

P. papaverifiora. White, lightly tinged with yellow and marked with red in center; very fine.

P. papilionacea. Outside petals rose, center ones yellow, changing to white; superb.

P. purpurea superba. Very large, purplish-crimson flower; outside petals large; center small and compact; tall and showy.

P. President Wilder. (E. & B.) Flowers large and double; color delicate blush, with an occasional red spot; of dwarf habit; best of its color.

P. Rosa Barry. (E. & B.) Flowers pure white, with red stripes; large and double; a profuse bloomer; sweet.

P. rubra triumphans. (Delachi.) Dark purplish crimson; petals large; very sweet.

P. Stanley. Rosy lilac, with crimson stripes; large, full, imbricated; fragrant. $1.00.

P. Triomphe de l'Exposition de Lille. Delicate rose. $1.00.

P. Triomphe du Nord. Violet rose, shaded with lilac; beautiful.

P. Van Dyck. Outside petals rosy lilac; inside salmon, shaded with rose, with an occasional crimson spot and stripe. $1.00.

P. Victoria tricolor. Outer petals pale rose, mottled with pink; center ones yellowish white, with a few red marks; very large and full; sweet.

P. Vicomtesse de Belleval. Blush; center creamy white, beautifully fringed; fragrant.

P. violacea. Deep violet purple; very large and full; beautiful.

P. Virgo Maria. White. $1.00.

P. Whittleji. White; center slightly yellowish; very large; clusters large; sweet.
PHLOX.

This, when properly grown, is unquestionably one of the finest autumn flowers—like the Psony, a flower for the million. It is of vigorous habit, easy culture, and produces in great profusion during a long season, flowers of fine form and substance, and of bright and varied colors. Just as the Roses are fading, the Phlox puts forth her first flowers, producing a fine succession of bloom, and prolonging an interesting season at least six weeks. As regards their culture, it may be briefly stated that they succeed in any good garden soil, but they are greatly improved by being liberally manured, and an occasional supply of liquid manure during the growing season will greatly increase the size of their trusses. When in flower they should be watered freely every evening. The Phlox usually flowers in July and August, and in order to render it autumnal flowering, it is necessary to pinch the shoots about the first of June, and again in July. The plants will then flower in September. For early flowers some of the plants may be left unpinched. When two years old the finest trusses are produced. The third year the plants flower tolerably well, but they will not keep thrifty and healthy after that. The old plants should then be lifted in the fall, divided and transplanted. But the better plan is to keep up a succession of young plants from cuttings by securing a fresh collection every year. We annually introduce all new and desirable varieties of home and foreign production.

PHLOX DECUSSATA.

With erect flower stems growing 3 to 4 feet high. Price 25 cents each; $2.00 per dozen.

Choice, distinct varieties selected from among 100 sorts.

Andre Leroy. (Lemoine). Clear rose, with a lively red center, covering half of the flower; panicle large; distinct and fine; tall.

Darwin. (Lemoine). Large, perfect flowers; reddish violet.

Francois Coppee. (Lemoine, '76). Large, creamy white flower, with a carmine rose center; tall.

Gambetta. (Lemoine). Rose; vivid red eye; a splendid sort; tall.

L'Avenir. (Fontaine) Salmon red; very fine; tall.

La Vague. Silvery rose.

L'eclair. Bright red.

Lothair. Rich salmon color; crimson eye; large flower and spreading spike; the finest variety we have seen.

Madame Kæmpler. Red; large truss; fine.

Madame Lechurval. Silvery rose; crimson eye; very fine.

Monsieur Gardner Brewer. Bright red.

Oberon. (Malet). Coppery red; superb.

Phoecon. (Malet, '74). Lilac rose, with carmine eye; large panicles and large flowers; a superb variety.

Premier Ministre. (Lemoine). Rosy white, center deep rose; very fine.

Princess Louise. White, suffused with crimson; carmine eye.

Queen. Pure white; fine; medium height.

Reve d'Or. (Fontaine). Brilliant cerise salmon; cerise eye; tall; extra fine.

Richard Wallace. White, with violet center; very large flower; tall.

Vierge Marie. (Debauvais). Pure white; very large, and of a beautiful waxy texture; tall.
ALTHÆA ROSEA.
HOLLYHOCK.

HOLLYHOCK FLOWERS.

Considerable attention is now given to this superb flower. We can furnish a collection of fine double sorts, of several colors. 30 cents each: $3.00 per dozen.

HARDY HERBACEOUS FLOWER-ING PLANTS.

The following collection embraces the most desirable species and varieties. They are all showy and beautiful plants, of easy cultivation, and of various seasons of flowering, from May to November. By a judicious selection, a continuous display of flowers may be obtained from early spring to the end of autumn.

ACHILLEA. Yarrow, or Milfoil.

The various species grow from 18 to 24 inches high. Flowers red, white and yellow, in flattish or corymbose heads, from June to August.

A. aurea. Of low habit, with delicate foliage and golden yellow flowers.
A. Ægyptica. Silvery, fern-like foliage; yellow flowers. 12 to 18 inches.
A. filipendula. Hoary-leaved; bright yellow flowers; 2 feet. July.
A. macrophylla. White; attractive foliage.
A. Millefolium rosea. ROSE-FLOWERED YARROW. Rosy lilac flowers; 15 inches. June to August.
A. Millefolium rubra. RED-FLOWERED YARROW. Deep red flowers; ornamental foliage; 2 feet. June to August.
A. Ptarmica var. fl. pl. DOUBLE-FLOWERING SNEEZEWORT. Of dwarf spreading habit, with small, pure white, double, daisy-like flowers; profuse bloomer; invaluable for cutting. One of the most useful border plants. August.
ACONITUM. Monkshood, or Wolfsbane.

Erect growing plants, with palmately divided foliage. Flowers in racemes, blue, purple, yellowish or white.

**A. Californicum.** California Monkshood. Pale blue, veined with purple; robust; 2 to 3 feet. Valuable for its fall flowers. September to October.

ACORUS. Sword-Grass.

Marshy plants of easy culture.

**A. graminea variegata.** Variegated Sword-Grass. Foliage distinctly striped with white.

ADONIS.

**A. vernalis.** One of the finest early spring-flowering plants, with finely divided leaves, and growing about six inches high. Flowers bright yellow, about two inches in diameter. May. 50 cents.

AIRA.

**A. foliis variegatis.** A distinct yellow striped grass. One of the finest hardy grasses; useful for edging.

AJUGA. Bugle.

Pretty dwarf plants, with flowers in whorls in the axils of the leaves.

**A. reptans var. rubra.** Red-leaved Bugle. Flowers blue, foliage purple; spreading. May.

**A. reptans var. fl. alba.** White flowers. May.

ALSTROEMERIA. Peruvian Lily.

**A. aurantiaca.** A vigorous species, flowering in summer and autumn, in umbels. Flowers lily-like, orange; 2 to 4 feet.

AMSONIA.

**A. salicifolia.** Willow-leaved Amsonia. Large, smooth foliage; fine blue flowers. May. 2 feet.

ANCHUSA. Alkanet.

**A. Italica.** A fine species, with rough leaves and stems, and fine blue flowers; 4 to 5 feet. June, July and August.

ANEMONE. Wind-flower.

**A. Japonica.** A distinct and beautiful species; flowers 2½ inches in diameter; bright purplish rose, with golden yellow centers, borne in great profusion from September to November. Height, 2½ feet; habit neat and compact; very desirable and effective as a pot plant, and in lines or masses in beds or mixed borders. 30 cents.

**var. alba.** (Honorine Jobert). A distinct and beautiful variety of the preceding; flowers 2½ inches in diameter; pure white, center golden yellow, borne in great profusion from September to November; very desirable and effective as a pot plant, and in lines or masses in beds or mixed borders. 30 cents.

**A. multifida.** A small flowered species from the Rocky Mountains. Flowers varying in color; distinct and rather pleasing.
ANTENNARIA. Cat's-Ear.

A. dioica. Mountain Everlasting. A dwarf plant with creeping stems, and silvery foliage, producing small white flowers in summer, on stems six inches high.

ANTHEMIS.

A. tinctoria. Yellow Chamomile. Flowers golden yellow, one to two inches across, from July till November; valuable. 12 to 18 inches.

ANTHERICUM. St. Bruno's Lily.

AQUILEGIA. Columbine.

A. alpina. A native of the higher parts of the European Alps. Stems 9 to 18 inches high, bearing showy blue flowers. 50 cents.

A. Canadensis. Our well-known native species, with scarlet sepals and bright yellow petals; easily cultivated.

A. Olympica. Flowers red and yellow.

ARABIS. Rock-Cress.

Dwarf, early, free-flowering perennials.

A. alpina. Alpine Rock-Cress. Flowers white, in small racemes in early spring; 6 to 8 inches.

var. variegata. Of low habit and finely variegated foliage. Very ornamental in rockwork; blooms in early spring.

ARMERIA. Thrift, Sea Pink.

A. dianthoides. White; fine.

A. formosa. Narrow, grass-like leaves; white flowers in heads on long stems.

ARTEMISIA. Wormwood.

A. pontica. An interesting plant, with handsome silvery foliage.

ARUM. Cuckoo Plant.

Erect or dwarf perennials, with tuber-like roots, and pedate or hastate leaves. Flowers clustered on a spadix, surrounded by a large spathe, as in the Caladium, Calla, etc.

A. Dracunculus. Stems covered with dark purplish blotches. Spathe green outside, and purplish within. May. 1 foot. 50 cents.

A. Italicum. Attains 12 to 18 inches in height; leaves saggitate, striped with yellow; June. 50 cents.

ARUNDINARIA. Ribbon-Grass.

A. folis variegatis. Variegated Ribbon-Grass. One of the prettiest hardy grasses, with handsomely striped foliage.

ARUNDO. The Reed.

Invaluable for creating tropical aspects in a garden.

A. Donax. A handsome Reed, growing from 10 to 15 feet high. Its attractive foliage renders it very effective on lawns.

var. folis variegatis. Variegated Arundo. A magnificent variety of the preceding; leaves beautifully striped with white; 6 to 8 feet. $1.00.
ASCLEPIAS. Milkweed.

Fine native plants; flowers in terminal umbels of various colors.

A. incarnata. Flowers flesh-colored; 3 to 4 feet. July.

ASPERULA. Woodruff.

A. odorata. A very pretty dwarf plant, with whorled leaves and small, white, fragrant flowers in summer. May be used for edgings. The Germans use it in their Maitrank.

ASTER. Starwort.

Tall, leafy perennials, blooming in the fall when flowers are scarce.

A. Amellus. Italian Starwort. Light blue; 3 feet. September.
A. coccineus Nevadensis.
A. floribundus. Light blue; 2 feet.
A. Himalayensis. Small white flowers; 2 feet. September.
A. horizontalis. 2 feet.
A. lancifolium Californicum. Azure blue; 3 to 4 feet. September.
A. lilacinus Nevadensis. Lilac; 4 feet. September.
A. longifolius var. formosus. A distinct sort; suitable for borders; 2 to 3 feet.
A. Novæ-Belgii. Blue; 3 to 5 feet.
A. novæ caeruleus. Bluish purple; 4 to 5 feet.

A. oblongifolius. Purple; 2 to 3 feet. September.

ASTILBE. Japan Spiræa.

A. Japonica. Known generally as Spiræa Japonica or Holco Japonica. A handsome plant, with small, pure white flowers, in large, branching panicles. Blooms in May, in the open air, but is cultivated chiefly for forcing in winter. 30 cents to 50 cents.

AUBRETIA. Purple Rock-Cress.

A. deltoidea. Of dwarf habit; purple flowers, produced very abundantly; 3 inches. April or May.
BAPRISIA. False Indigo.

B. australis. Blue False Indigo. Lupin-like flowers in racemes; 2 to 5 feet.

B. cærulea. Fine blue Lupin-shaped flowers; 2 feet. June and July.

BELLIS. Daisy.

Very popular spring flowers. The handsome, double-flowered varieties are very effective plants, and suitable for edging.

B. perennis. Red, white and pink; double. 15 cents each; $1.00 per dozen.

BETONICA. Betony.

B. officinalis. Flowers purple; spikes crowded; 2 feet. July.

BOCCONIA. Plume-Poppy.

Beautiful hardy plants, with large foliage which produces a picturesque effect.

B. cordata. An attractive plant, growing 6 to 8 feet high, with large foliage and long spikes of white flowers in August. Well adapted for single lawn specimens, or for the sub-tropical garden.

BUPThALMUM.

B. cordifolium. Very showy and ornamental; large foliage and yellow flowers; 4 feet. June and July.

CAMPANULA. Bellflower. Harebell.

An elegant genus of plants, rich in color, profuse in bloom, and of easy culture.

C. barbata. Bearded Harebell. An Alpine sort, with a beard at the mouth of its pretty, pale, sky-blue flowers, nearly 1 1/2 inch long. 50 cents.

C. grandis. Forms a bush 2 to 3 feet high, composed of a number of spikes thickly set with large blue salver-shaped flowers. June and July.

C. Grosseki. Purplish blue; 3 feet. July.

C. Lamarqueii. Pale azure; 3 feet. June and July.

C. latifolia. Purplish blue; large leaved; 1 foot 6 inches. July and August.

C. Medium rosea. A pleasing variety of the Canterbury Bell.

C. nobilis. Purple, semi-double; 2 to 2 1/2 feet. June.

C. nobilis fl. alba. A large-flowered, tall-stemmed Chinese kind, with creamy white blossoms. May.

C. persicifolia alba. Single white; 2 to 3 feet. June.

C. persicifolia cærulea pleua. Double blue; valuable; 2 feet. June.

C. pyramidalis. Erect stalk, pyramid-shaped; flowers large and of a handsome blue.
Campanula rutanica. Blue; 3 feet. June.

C. sarmatica. Bluish purple; compact; 2 to 3 feet. July.

C. Trachelium. Large, heart-shaped foliage, and double blue flowers; 2 feet. July and August.

C. turbinata. A compact growing native of Transylvania, which blooms in profusion throughout the summer. Excellent for either the border or rockwork.

C. urticifolia alba. White; 2 to 3 feet. June.

CALTHA.

C. flore plena. Bright golden yellow flowers, blossoming in spring. 50 cents.

CASSIA.

C. Schraderii. Yellow, dark spotted flowers in racemes; 2 to 3 feet. July and August.

CENTAUREA. Knapweed.

Very showy border plants.

C. macrocephala. Large, bright yellow flowers; 3 feet. June.

C. montana. A handsome border plant; flowers blue; 12 inches. June.

CENTRANTHUS. Valerian.

Very showy, free-flowering perennials, with flowers in handsome corymbose panicles.

C. r. var. albo. A variety with white flowers; 2 feet. June.

CLEMATIS.

C. erecta. Large panicles of small, fragrant, white flowers, on long stalks; 3 to 4 feet. June. 50 cents.

C. integrifolia. Fine blue, bordered with white; 2 feet. June. 50 cents.

C. tubulosa. Erect species, small purple flowers. 50 cents.

CONVALLARIA. Lily of the Valley.

C. majalis. Lily of the Valley. Large, luxuriant foliage; flowers small, bell-shaped, in pretty racemes, and very fragrant.
COREOPSIS. Tickseed.

C. auriculata. A showy perennial; flowers solitary, on long stalks; yellow; 2 to 3 feet. June.

C. lanceolata. Large golden yellow flowers; profuse bloomer; 1 to 3 feet; very handsome. June.

C. frereox. Yellow flowers; makes a showy plant; 3 to 4 feet. August.

CORONILLA. Wild Pea.

C. varia. A handsome perennial, of trailing habit; flowers blush and white, often varying from deep rose to white; 2 to 3 feet. June.

DACTYLIS. Cocksfoot.

D. glomerata var. A striped-leaved grass.

DAPHNE.

D. Cneorum. GARLAND-Flower. A pretty dwarf, evergreen shrub, bearing a profusion of rosy lilac flowers in May; fine for rockwork. 50 cents.

DELPHINIUM. Larkspur.

A remarkably showy class of plants, producing magnificent spikes of flowers in midsummer. We know of no plants which will afford greater satisfaction than these.

Pyramidal, or Tall Growers.

D. azureum plenum. Dark blue, purple center, double; four to five feet. June.

D. bicolor semi-plenum. Blue with white center; single; five feet. June.

D. cælestinium. Very pale blue, lavender center; four to five feet; superb. June.

D. elatum. Blue, buff center, single; two to three feet. June.

D. Flora. Very light blue, lavender center, semi-double; attractive and beautiful; five feet.

D. formosum. Rich, dark blue, tinged with purple; white eye; single.

D. hyacinthiflorum. Light blue, hyacinth flowers.

D. Ivanhoe. Bright blue; double; very fine; four feet. June.

D. Louis Agassiz. Rich blue with purple center; striking and beautiful; semi-double; four to five feet; one of the finest. June. 50 cents.

D. mesoleucon. Blue with pale yellow center; single; five feet. July. 50 cents.

D. Mrs. Lyman. A beautiful shade of light blue. 50 cents.
Delphinium Prof. Goodell. Dark blue, purple center; double; three feet. July.
D. pyramidalis. Blue; four to five feet. June.
D. Vicomte de Pulligny. Flowers double, rich blue, with purple center, striped white; distinct and fine. 50 cents.
D. Wheelerii. Light blue, buff center; single; most striking; five feet; one of the best. July.

DIANTHUS. Pink.
D. caryophyllus. In variety. The well-known lovely border carnation.
D. White-Fringed. A fine variety. May and June.

DICENTRA, or DIELYTRA. Bleeding-Heart.
D. eximea. Rose color; foliage fern-like; flowers all summer; valuable; twelve inches.
D. spéctabilis. A handsome, most curiously formed, rosy-crimson flower, with white and blue tinged protruding stamen; one of the finest border plants; is quite hardy; well adapted for blooming in the winter; one to two feet. May and June.

DICTAMNUS, or FRAXINELLA.
A choice perennial, forming a bush about two feet high, and bearing spikes of curious red and white flowers, which are fragrant.
D. alba. White; twelve to eighteen inches. June. 30 cents.
D. rubra. Red; twelve to eighteen inches. June. 30 cents.

DORONICUM. Leopard's Bane.
D. caucasicum. A fine perennial, about eighteen inches high; flowers yellow, 1½ inches across; solitary, in early spring.
D. Clusii. Similar in habit to the preceding, with large flowers; two feet. May.

ECHINACEA. Hedgehog Cone-Flower.
E. intermedia. Very pretty pink flowers; a showy plant; three to four feet. August.

ELYMUS. Lyme-Grass.
E. arenarius. A long, narrow, gray-colored grass; quite ornamental; eighteen inches.

ERIANTHUS.
E. Ravennæ. Resembles the Pampas Grass, but blooms more abundantly. Attains a height of from nine to twelve feet. Being perfectly hardy, is a valuable grass for the decoration of lawns. 30 cents.

ERYNGIUM. Sea-Holly.
E. amethystinum. Flowers in heads, amethystine blue; foliage spiny and laciniated; three feet. July and August.
EULALIA.

E. japonica. The type; a vigorous grower with large plumes; three feet. 50 cents.

var. variegata. Handsomely variegated leaves. 50 cents.

var. Zebrina. ZEBRINA. One of the most beautiful of ornamental grasses; foliage marked crosswise with bands of white and green. 50 cents. See cut.

FUNKIA. Day Lily.

A very interesting and beautiful genus, with luxuriant foliage and handsome lily-like flowers.

F. caerulea. Light blue, with dark green, glossy foliage; one foot. June and July.

F. Fortunei maculata. Foliage broadly marked with golden yellow; distinct and fine; six to nine inches. 50 cents.

F. grandiflora.

var. alba. Pure white, fragrant flowers in summer. 50 cents.

var. fol. aureo var. Leaves variegated with yellow.

F. japonica. Lavender; 2 feet. August and September.

var. alba marginata. Foliage edged with white; pretty.

F. Sieboldiana. Silver-gray foliage; one of the most distinct; light purple flowers.

F. undulata media picta. One of the best variegated-leaved plants; fine for edgings; lavender flowers.

GENISTA. Rock-Broom.

G. sagittalis. ARROW-POINTED BROOM. A fine dwarf perennial; flowers pea-shaped, yellow in a terminal spike. 50 cents.

GERANIUM. Crane’s Bill. (Not Pelargonium or Scarlet Geranium.)

G. pratense. Lilac purple; crow-foot leaved; one foot. July and August.

var. flore-pleno. Crow-foot leaved; double flowering; one foot. July and August.

G. sanguineum. Purplish red; spreading; 6 inches. June.
GILLENIA. Indian Physic.

_**G. trifoliata.**_ BOWMAN'S Root. White, rosy-tinged; bell-shaped flowers; two to three feet. July.

GYNERIUM.

_**G. argenteum.**_ Pampas Grass. The finest ornamental grass in cultivation; superb on the lawn as a single specimen, or in the center of a bed; requires protection in this latitude. 50 cents.

GYPSOPHILA. Stitchwort.

_**G. acutifolia.**_ Small white flowers, in large panicles; four feet. July.

_**G. paniculata.**_ A fine herbaceous plant, forming a compact bush about four feet high; flowers small, white, in large, loose panicles. Valuable for bouquets. July.

HARPALIUM.

_**H. rigidum.**_ Prairie Sunflower. (Helianthus.) Flowers large, golden yellow, produced abundantly; a showy plant; three to five feet. August. 50 cents.

HELENIUM.

_**H. Hoopesii.**_ Hoope's Sneezewort. Large, bright orange, showy flowers in summer; three to five feet.

HELIANTHUS. Sunflower.

_**H. orgyalis.**_ Graceful Sunflower. Tall and graceful; flowers three to four inches in diameter, produced abundantly in September; six to eight feet.

_**H. multiflorus fl. pl.**_ Double Sunflower. A blaze of gold in late summer and early autumn, and altogether one of the showiest of hardy perennials. 50 cents.

HELEBORUS. Christmas Rose.

The following are all evergreens, and bloom in March or April.

_**H. albus.**_ Greenish white. 50 cents.

_**H. atrorubens.**_ Flowers purplish red, in clusters. April. 50 cents.

_**H. olympicus.**_ A handsome species, twelve to fifteen inches high; flowers purple. April. 50 cents.

_**H. purpurascens.**_ A dwarf species, with purplish red flowers. April. 50 cents.

HEMEROCALLIS. Day Lily.

Fine tall-growing plants, with large, lily-shaped, sweet-scented flowers.

_**H. flava.**_ YELLOW DAY LILY. One of the finest hardy plants; flowers large, golden yellow, and very fragrant; plant vigorous; three feet. July. 50 cents.

_**H. fulva.**_ Orange flowers in large clusters; two feet. July.

_**var. fl. pl.**_ Double flowers.

_**H. graminea.**_ Deep yellow; narrow foliage; fine; two feet. June. 50 cents.

_**H. Kwanso fl. pl.**_ Double flowers, of a rich, orange-copper color.
ORNAMENTAL TREES, SHRUBS, ETC.

HEPATICA. Liver Leaf.

Very effective and charming spring flowering perennials.

H. triloba. ROUND-LOBED HEPATICA. Flowers blue, purple, or almost white.

HESPERIS.

H. matronalis fl. albo plena. DOUBLE-FLOWERING Rocket. One of the finest hardy herbaceous plants, with spikes of clear white flowers from 10 to 18 inches long; very fragrant. June. 30 cents.

HIERACIUM. Hawkweed.

HIBISCUS. Rose Marrow.

H. grandiflorus albus. Large, showy, white flowers in August; 4 to 5 feet.

H. grandiflorus roseus. Large, showy, rose flowers in August; 4 to 5 feet.

HYPERICUM. St. John’s Wort.

H. calycinum. A very showy, trailing shrub; flowers bright yellow; all summer; 12 inches. 50 cents.

HYSSOPUS. Hyssop.

H. officinalis. Blue flowers in a terminal spike.

var. alba. White flowers in a terminal spike.

IBERIS. Perennial Candytuft.

Profuse blooming little plants, well suited for rockeries, stumps, edgings, etc.

I. corraefolia. A dwarf form; compact heads of pure white flowers in early spring; later than the others. 30 cents.

I. Gibraltarica. Flowers large, white tinted with red; fine. 30 cents.

I. Jucunda. The smallest of its family, growing only about 2½ inches high. The leaves are minute, and the flowers are in tiny clusters, of a pleasing flesh color, and veined with rose in early summer. 30 cents.

I. sempervirens. Evergreen Candy-tuft. Of spreading habit; flowers pure white, completely covering the plant with bloom; one of the finest border plants. Valuable for forcing. April or May. 30 cents.

I. Tenoreana. A neat species, of dwarf growth, that produce in summer a profusion of white flowers, changing to purple.
**IRIS. Iris, or Fleur de Lis.**

I. **Apollon.** Golden yellow, striped with plum color; 18 inches June.

I. **atropurpurea.** Purple.

I. **Bougere.** Lilac and velvety purple; distinct. 18 inches. June.

I. **Deloismison.** Lavender and purple; 2 feet. June.

I. **Eugene Sue.** Creamy white, with purple spots and stripes; 18 inches. June.

I. **falcata.** Yellow, striped with plum color; 2 feet. June.

I. **florentina.** White, tinged with blue and yellow; 2 feet. June.

I. **Jacquesiano.** Deep maroon velvet, tinged with bronze and crimson; a rare and remarkable color; 2 feet. June.

I. **Kaempferi.** JAPAN IRIS. Flowers differ from the ordinary kinds, in being broad and flat. They exhibit a wonderful variety of colors and shades and appear later than the others. They rank among the most desirable of hardy plants; succeed best in a moist soil; 3 to 4 feet. 50 cents.

I. **La Pactole.** Purple and golden yellow; fine; 18 inches. June.

I. **Louis Van Houtte.** Salmon, tinged and striped with purple; 2 feet. June.

I. **Lemon.** White, spotted with purple, and deep purple stripes; fine; 2 feet. June.

I. **ochroleuca.** Golden yellow; 2 feet. June.

I. **pumila.** Bluish purple; first to flower; 3 to 6 inches. April and May.

I. **reticulata superba.** Center lavender, outer purple; fine. June.

I. **susiana.** (Mourning I.) More like a tropical orchid or a night butterfly than a hardy perennial is this weird Iris of the Orient. The flowers, which are produced in early summer, are very large and profusely flecked with dark purple on a rich gray ground. Perfectly hardy on a free soil and a dry bottom; 1½ to 2 feet. 50 cents.

**Mixed Varieties,** 20 cents each.

**LAMIUM. Dead Nettle.**

Excellent for rock-work.

L. **album.** fol. var. White flowers; variegated foliage; spreading. May.

L. **purpureum.** fol. var. Purple flowers. May.

**LATHYRUS, Perennial Pea.**

L. **latifolius albilflorus.** Pure white flowers, in clusters; valuable for cut flowers all summer. 50 cents.

L. **grandiflorus.** EVER-BLOOMING Pea. Clusters of rose-colored flowers; trailing; three to four feet; a charming plant; valuable for cut flowers. June to September. 30 cents.
ORNAMENTAL TREES, SHRUBS, ETC.

LIATRIS. Button-Snake Root or Blazing Star.
Showy plants with long spikes of purple and pink flowers.

L. elegans. Bluish purple; in habit like pumila; 1 foot. August.

L. spicata. Large purple spikes. Very compact.

LINOSYRIS. Goldilocks.
L. vulgaris. A showy perennial; flowers pale yellow in terminal panicles, in autumn. 3 feet.

LINUM. Flax,

LOPHANTHUS. Giant Hyssop.
L. anisatus. Lavender blue-flowers; anise-scented leaves; 2 feet. June.

LOTUS. Bird’s Foot Trefoil.
L. corniculatus. A trailing plant, with bright yellow pea-shaped flowers; very pretty.

LYCHNIS. Campion.
Very effective plants in the mixed border.
L. Chalcedonica. SCARLET LYCHNIS. Brilliant scarlet; large truss; 3 feet. July and August.

LYSIMACHIA. Loosestrife.
L. nummularia. MONEYWORT. Creeping habit; small, yellow, bell-shaped flowers in June; fine for hanging baskets and covering rock-work.

L. thyrsiflora. Yellow flowers, smaller than those of L. vulgaris; 3 feet. July.

L. vulgaris. Yellow, bell-shaped flowers; 2 to 3 feet. June.

LYTHRUM. Purple Loosestrife.
L. roseum. Long, branching spikes of pink flowers; 2 to 3 feet. July and August.

L. Salicaria. SPIKED LOOSESTRIFE. Reddish purple flowers; very showy; 2 to 3 feet. July and August.
MALVA. Mallow.

M. Morenii. Rosy blush flowers, two and one-half inches across; leaves resemble those of the Oak; two to three feet. June or July.

M. multifida alba. White flowers; two feet. July.

MONARDA. Horse-mint, or Balm.

Pretty plants producing bright red flowers.

M. didyma. Bee-balm, or Oswego Tea. Scarlet flowers; two to three feet; a very showy plant in the garden. June to August.

NEPETA.

N. Mussini. Small, azure-blue flowers; plant downy, and having a powerful aromatic odor; one foot. June.

OROBOUS. Bitter-Vetch.

O. vernus. Spring Bitter-Vetch. Dark purple flowers; early; the most beautiful of its family.

PAPAVER. Poppy.

Showy perennials with large flowers, of rich and striking colors.

P. bracteatum. Scarlet; eighteen inches. June. 30 cents.

P. involucratum. 30 cents.

var. nanum. 30 cents.

P. nudicaule. A fine dwarf kind, with deeply lobed and cut leaves, and pretty yellow flowers on hirsute stems. Excellent for the rockery. 30 cents.

var. album. A pretty white variety of the preceding, and equally as free-flowering. 30 cents.

P. orientale. Deep scarlet; large; very showy; eighteen inches. June 30 cents.

PENTSTEMON.

Very ornamental plants, producing long spikes of flowers in great abundance.

P. gracilis. Fine white, from the Rocky Mountains; three feet. June.

P. pubescens. Pale lilac or white flowers; two to three feet.

PHLOX.

Regarded as among the finest of herbaceous plants.

P. amoen. LOVELY PHLOX. Flowers pinkish purple, completely covering the plant in spring. One of the best early-flowering species.

P. procumbens. Lilac, with violet marks near the eye; three inches. May.
**ORNAMENTAL TREES, SHRUBS, ETC.**

**Phlox subulata.** Moss Pink. Spreading stems and narrow, moss-like leaves; flowers pinkish purple, with a darker center, and produced in wonderful profusion in April or May.

*var. alba.* A white flowering variety of the above. Very showy when in flower, presenting to the eye masses of bloom like sheets of snow.

**PLATYCODON.** Campanula.

Ornamental showy plants.

**P. grandiflorum.** Large, fine blue flowers; one to two feet. June and July.

**P. grandiflorum album semi-pleno.** White; eighteen inches to two feet.

**POLEMONIUM.** Greek Valerian.

**P. reptans.** A low, spreading plant; blue; twelve inches. May.

**POLYGONUM.** Knotweed.

**P. Sieboldii.** Bunches of white flowers in July and August.

**POTENTILLA.** Cinquefoil.

**P. insignis.** Pale yellowish; eighteen inches. June.

**P. O'Briana.** Blush and salmon; fine; two feet. July and August.

**P. pyrenaica.** Yellow; dwarf. May.

**P. Russelliana.** Deep red, shaded with maroon; two feet. July and August.

**PRIMULA.** Primrose.

**P. acaulis.** Common European Primrose. A fine collection.

**P. auricula.** All colors, mixed.

**P. cortusoides.** A pretty little plant, six to nine inches high, with lilac flowers.

**P. elatior.** Ox-Lip Primrose.

**P. veris.** Cowslip. Flowers bright yellow in terminal umbels, in spring and early summer.

**PULMONARIA.** Lungwort.

**P. angustifolia.** Fine violet flowers; one foot. April.

**P. maculata.** Distinct, blotched foliage; a very fine border plant.

**PYRETHRUM.**

A most valuable class of hardy plants. Flowers of good size and form, double like an aster; very useful for bouquets or cut flowers. The plants make showy specimens in the garden. May or June.

**P. Beaute de Laken.** Dark velvety scarlet; fine.

**P. Emile Lemoine.** Crimson, spotted with copper-red.
Pyrethrum fulgens plenissimum. Purple carmine.

P. Gustave Hietz. Dull brick.

P. Herman Stenger. Rosy blush.

P. Iveryanum. Rosy carmine; fine.

P. J. N. Tiordy. Amaranth, shaded yellow.

P. Madame Billiard. White, yellow center; fine.

P. Madame M. Lowitz. Pale rose or flesh color; fine.

P. Michael Buckner. Rosy crimson.

P. Mr. Pell. Dark crimson.

P. Rose Pompone. Fine rose.

P. Wilhelm Kempler. Purplish rose.

RANUNCULUS. Crowfoot.

R. aconitifolius luteo pleno. Double orange yellow Crowfoot; 2 feet. May and June.

R. bulbosus. Yellow; double; handsome foliage; 15 inches. May.

RHEUM, Rhubarb.

R. officinale. Leaves large and quite ornamental; stems branching, flowers greenish; 5 to 6 feet.

RUDBECKIA, Cone-flower.

R. hirta. Large yellow flowers, with dark center; 1 to 2 feet; a valuable summer flowering plant. June and July.

R. nitida. Large light yellow flowers; a splendid late flowering plant; 3 to 4 feet. Sept. 50 cents.

SALVIA. Sage.

S. afasea. Fine blue; 2 feet; July and August.

S. bicolor. Blue and white.

SAPONARIA. Soapwort.

SANGUINARIA. Bloodroot.

S. Canandensis. A handsome native plant, with roundish, palmate-lobed leaves; flowers pure white in April or May.
ORNAMENTAL TREES, SHRUBS, ETC.

119

SAXIFRAGA. Saxifrage.

These are all of luxuriant foliage, frequently used for rock-work.

S. cordifolia. Blush, heart-shaped foliage; 6 inches. April and May.
S. cuneifolia. Rose-colored. May.
S. lingulata rubra. Red, with dark red foliage; earliest; 6 inches. April and May.
S. Sibirica. 6 inches. April and May.
S. Schmidtii. Red; fine. May. 50 cents.

SCABIOSA. Scabious.

S. caucasica. The finest of the tribe, forming a large, spreading plant, growing from 1½ to 3 feet high. Flowers pale lilac-blue, on long, slender stalks. 50 cents.

SEDUM. Stone-Crop.

The Sedums are of spreading habit, and are valuable for rockeries, baskets, etc. The collection embraces the finest varieties.

S. acre. Good for edging; yellow flowers; 3 inches.
S. Aizoon. Flat heads of yellow flowers; long, narrow leaves; 18 to 24 inches.
S. album. White, with small foliage; 3 inches; very pretty.
S. anacampseros. Purple flowers.
S. atropurpureum. Dark red foliage and flowers.
S. cruceatum. White, cross-shaped foliage; 6 inches. July.
Sedum Maximowiczii. Yellow; one foot. July.

S. populifolium. Poplar-leaved, creamy white; 6 inches. August.

S. purpurascens. Purple; coarse habit; 1 foot. July.

S. robustum, or monstrosum. Young growth, sometimes flattened, giving it a fan-shaped appearance; curious; 3 inches. June.

S. Rodigasi. Dark and luxuriant foliage.

S. Sieboldii. Trailing; flowers rose-purple, late in autumn.

var. medium pictum. Leaves distinctly margined with yellow, very effective for edgings of beds, baskets and vases.

S. spectabile. Showy Sedum. A splendid fall flowering species; 2 to 3 feet high, and bearing showy clusters of rosy purple flowers.

S. spurium. White; 6 inches. July.

S. Telephium hybridum. Dark purple foliage, contrasting finely with album; distinct.

S. Telephium purpureum. Purple flowers and foliage; 1 foot. August.

S. villosum. White; very dwarf; 2 inches. June.

SEMPERVIVUM. House-Leek.

S. tectorum. A splendid rock plant.

SEMPERVIVUM TECTORUM.

SILENE. Catchfly.

S. alpestris. ALPINE CATCHFLY. Flowers large, white, in panicles; 3 to 6 inches. June.

S. maritima. SEA-CATCHFLY. A dwarf plant, 2 to 4 inches high; flowers white, about 1 inch across. June.

S. Vallesii. SWISS-CATCHFLY. White flowers in summer; 6 to 8 inches. June.

S. viscosa plena. Bright rose and double; one of the best perennials; 1 foot. June.

SILPHIUM. Rosin-Plant.

S. perfoliatum. CUP-PLANT. Tall growing plants with large, showy yellow flowers; suitable for large gardens.
ORNAMENTAL TREES, SHRUBS, ETC. 121

SPIREA. Meadow-Sweet.

Among the most ornamental and valuable of Herbaceous Plants.

S. Aruncus. Slender spikes of greenish white flowers; one of the best border plants. June.

S. Filipendula. White; fine foliage; 1 to 2 feet. June.

var. fl. pl. Dropwort. Double white flowers; fern-like foliage; 2 to 3 feet. One of the best and most showy perennials.

S. lobata. Flowers deep rose; of a robust habit; contrasts finely with ulmaria fl. pl.; 1 foot. June.

var. fol. var. Golden variegated foliage; a remarkably handsome plant, not appreciated as it should be.

S. venusta. Branching, feathery plumes of soft rose color; one of the finest of the Spireas. July.

STACHYS. Woundwort.

S. lanata. Purple spikes with soft and silvery foliage; 1 foot. July.

STATICE. Sea-Lavender.

S. alba. 50 cents.

S. grandiflora.

S. latifolia. Broad, luxuriant foliage; large trusses of lilac flowers; very fine for bouquets when dried. See cut.

S. maritima, Sea-Pink or Thrift. Rosy lilac; one of the best for edging; 6 inches. June and July.

S. undulata: Wavy-leaved; large trusses of pale lilac flowers; 10 inches. August and September. 30 cents.

STATICE LATIFOLIA.

SYMPHYTUM. Comfrey.

S. asperrimum. A tall, vigorous species with rough leaves, and covered with prickles; flowers blue, in terminal racemes; two to three feet. May.

S. officinale. Comfrey. A branching, rough-leaved plant, one to two feet high; flowers yellowish white. May.

var. fol. var. One of the finest variegated-leaved plants, enduring the hottest suns. 30 cents.
TANACETUM. Tansy.

**T. Balsamita.** Small, pale yellow flowers in autumn; foliage pleasantly scented.

THYMUS. Thyme.

**T. vulgaris.** Common Thyme. Small lilac flowers, with a robust habit, of exceedingly aromatic flavor and fragrance; six inches. June and July.

TRADESCANTIA. Spiderwort.

Showy native plants, forming erect bushes eighteen to twenty-four inches in height; flowers produced in the greatest profusion all summer.

**T. Virginica.** Blue; eighteen to twenty-four inches. May.

var. *alba.* White; eighteen to twenty-four inches. May.

TRICYRTIS.

**T. grandiflora.** Flowers resemble those of an orchid; are quite fragrant, and being produced in October and November, make the plant valuable.

TRILLIUM. Wake-Robin.

Very effective and showy early flowering native plants, deserving a place in every garden.

**T. erectum.** Maroon; six to nine inches. April.

**T. grandiflorum.** White; six to nine inches. April.

TRITOMA. (Kniphofia.) Flame-flower.

Splendid late blooming plants; flower stems three to five feet in height, with racemes a foot or more in length of rich, pendent, orange red and scarlet tubulous flowers. Require a slight covering in winter. 30 cents each; $3.00 per dozen. See cut.

**T. Uvaria glauca.**

**T. Uvaria grandis.**

TUNICA.

**T. saxifraga.** Small rose-colored flowers; blooms all the summer; of dwarf habit; delicate foliage; fine for edging.

UVULARIA. Bellwort.

**U. grandiflora.** Pale yellow, bell-shaped flowers, from the axils of the leaves. April.
ORNAMENTAL TREES, SHRUBS, ETC.

VALERIANA. Valerian.

V. officinalis. Blush white, in large trusses; three feet. June.

VERATRUM.

V. viride. Handsome foliage; flowers in long clusters; green. 50 cents.

VERONICA. Speedwell.

V. amethystina. Amethyst blue; twelve to eighteen inches. June.

V. gentianoides. Pale blue, with azure; one to two feet. May and June.

V. verbenacea. A trailing species; blue flowers.

V. Virginica. White spikes; three to five feet. August and September.

VINCA. Periwinkle.

V. caerulea minor. A blue flowering, trailing evergreen.

V. elegantissima alba. White flowers and glossy green oval foliage.

V. herbacea. Blue flowers; early; narrow foliage; very pretty.

V. major variegata. Trailing habit; leaves broadly margined with yellow. A fine basket plant.

V. minor aurea variegata. Golden variegation.

V. purpurea pleno. Double purple flowers.

PANSY.—NATURAL SIZE.

VIOLA TRICOLOR. Heart's-Ease, or Pansy.

A large collection of the most approved varieties. $1.00 per dozen.
VIOLA ODORATA. Sweet Violet.

V. Belle de Chatenay. Flowers large, double, very fragrant; pure white, tinted with lavender.

V. Covent Garden. Single light lilac.

V. cornuta. Large flowers.

V. de Parme. Large and sweet; slaty lavender color; free blooming.

V. Marie Louise. Very large, double, fragrant flowers, lavender blue and white; forces well.

VIOLA ODORATA—SWEET VIOLET.

V. Marie de Savoie. Flowers very large, double; blue; very fragrant.

V. Neapolitan. Lavender blue; large, double, fragrant flowers; a fine winter bloomer.

V. odoratissima. Single, dark blue.

V. obliqua striata. Flowers single, dark blue, striped with white; scentless; plant bushy and free blooming.

V. Queen Victoria. Large, violet-blue flowers, single; very fragrant; quite hardy.

V. Schoenbrun. Single, dark blue; large, fragrant, very free blooming.

YUCCA. Spanish Bayonet.

Has a fine appearance; the stem is two feet above the ground, covered with large, bell-shaped flowers on laterals, forming a perfect pyramid; valuable for rockwork.

Y. filamentosa. Adam's Needle. Thread-leaved, creamy white; three to four feet. July. 50 cents.
SUMMER AND AUTUMN FLOWER-ING BULBS.

To be planted in spring, taken up in autumn, and kept from freezing, in a dry cellar.

AMARYLLIS.

A. longiflora alba. White, of medium size, in clusters. 50 cents.

A. longiflora rosca. Rose-colored. 50 cents.

GLADIOLI.

Fine Hybrid Varieties. 15 cents each, $2.00 per dozen and upwards.

POLIANTHES TUBEROsa. Double Tuberose.

One of the choicest summer flowering bulbs. The flowers are white, very fragrant and produced on spikes 2 to 4 feet high; indispensable for making bouquets. Plant about first of May. 10 cents each, $1.00 per dozen.

TRITONIA.

T. aurea. A pretty flowering bulb from the Cape. 10 cents each, $1.00 per dozen.

BULBOUS FLOWER-ING ROOTS.

HARDY.

The following should be planted in the fall. They can be planted in the spring, but are not so certain to bloom.

LILIUM, Lily.

L. auratum, or Golden-Banded Lily. Universally acknowledged to be the finest of all Lilies. 30 cents to 50 cents.

L. candidum, The well-known white Lily; beautiful in the garden; forces well. 25 cents.

L. excelsum. Delicate buff color, very fragrant; grows 5 to 6 feet high. $1.00.

L. eximeum, From Japan. Flowers snowy white. 75 cents.

L. Harrisii, Easter Lily of Bermuda. Pure white, trumpet-shaped flowers, very fragrant. 25 cents to 50 cents.

L. Japonicum longiflorum. From Japan. Snowy white, trumpet-shaped flowers; fragrant. 25 cents.

L. lancifolium album. Pure white. 50 cents.
Lilium lancifolium rubrum. White, spotted with crimson. 25 cents.

L. tigrinum. Tiger Lily. Orange-salmon, spotted black. 20 cents.

L. tigrinum flore pleno. Flowers double, orange-red, spotted with black. 25 cents.

L. tigrinum splendens. Larger and finer than those of the type. 25 cents.

L. umbellatum. Vivid orange, spotted. 15 cents.

Lilium Longiflorum. var. atrosanguineum. 15 cents.

MISCELLANEOUS BULBS. FOR FALL PLANTING.

ALLIUM.

A. Moly. Golden Garlic. Fine yellow flowers in large clusters; six inches in June. 10 cents each, $1.00 per dozen.

A. Moly alba. Fine white flowers, large and conspicuous truss. 10 cents each, $1.00 per dozen.

C. a. var. album. White flowering. $1.50 per doz.

C. a. var. roseum. Rose flowers. $1.50 per doz.

C. a. var. variegatum. Variegated flowers. $1.50 per dozen.

CROCUS.

In 25 named varieties, 35 cents per dozen, $2.50 per 100.

Unnamed, but colors separate, blue, white, striped and yellow, 20 cents per dozen, $1.25 per 100.

FRITILLARIA. Crown-Imperial.

F. imperialis. Four fine varieties, 60 cents to $1.00 each.

T. Parrots. Named varieties, 5 cents each, 50 cents per dozen.

T. Tournesol. Orange and red; double; early. 8 cents each, 75 cents per dozen.

CHRYSANTHEMUMS.

PRICES:

For Plants in Spring.............................. 20 cents each, $2.00 per doz.
" Large Plants in Autumn.......................... 50 " " 4.00 "

It is needless to enlarge upon the beauties of the Chrysanthemum, a flower which, of late years, has become nearly as popular as the rose. Lovely in all of its many forms, some of the varieties are marvels of fantastic shapes and colors. The following collection includes the most distinct and valuable varieties in the various types.

JAPANESE VARIETIES.

This class presents the greatest diversity of form and coloring. The petals are as much varied as the flowers, being either tubular, curved, plaited or fringed.

Abd-el-Kader. Rich deep maroon-crimson; petals twisted; large, beautiful and distinct.
Belle Valantinan.  Deep pink, shaded rose and white; a beauty.
Blanche Neige.  One of the largest and purest of the whites.
Bras Rouge.  Velvety crimson-maroon, with reverse of petals deep bronze.
Brunette.  Red, with long shaggy petals; very good.
Buttercup.  Deep yellow; a very good showy kind.
Elaine.  Pure white, with broad petals, very full; one of the best.
Fantaisie.  Flowers blush-white, good size; each petal has a convex surface and slightly twisted.
F. L. Harris.  Bright cinnamon-red; a fine color.
Hiver fleuri.  Large creamy white and blush flowers, much fringed; early and very free.
Jessica.  A snowy white variety, having large flowers 5 inches in diameter, with rich yellow centers; one of the most prolific bloomers.
Julius Caesar.  Reddish orange, large flowers; distinct.
Kata Kauka.  Bronze, tinted brown; golden tips; dwarf and free; one of the best for specimens.
Moonlight.  Large, pure white; fine.
Mrs. R. Brett.  Distinct, with golden plume-like flowers.
Orange Cup.  Deep orange and gold, with reflex of lighter shade.
Peter the Great.  A most showy bright lemon-yellow variety, with beautiful foliage, and of fine habit.
Vallee d'Andone.  Deep red, with bronze shading.

CHINESE VARIETIES.

In this class are included the varieties that are smooth in outline and of regular shape. It represents two distinct forms,—the Incurved, or those with the petals merging to a conical or globe-shaped whole, and the Reflexed, where the petals overlap each other in their flat disposition.

Dr. Sharpe.  Magenta-crimson; one of the finest for specimens.
Golden Beverley.  Flowers large and perfectly incurved.
Jardin des Plantes.  Bright golden yellow; splendid color; incurved.
Jeanne d'Arc.  White, tipped rosy lilac; a superb flower, finely incurved.
Lady St. Clair.  One of the most beautiful of all white Chrysanthemums; incurved.
Madame Teziens.  Reflexed; very fine late white.
Mr. Bunn.  Magnificent yellow, incurved; large.
Prince Alfred.  Rose-crimson, shaded silvery purple, incurved; very fine.
Queen of England.  Very large, fine blush; partially incurved.
White Venus.  White; beautifully incurved.

POMPON VARIETIES.

The smallest and most floriferous of Chrysanthemums.

Captain Nemo.  Rich plum-purple, medium size; early, free and fine.
Crimson Perfection.  Bright crimson; one of the richest colors.
Mlle. Darnaud.

---

**Notes:**
- The page numbers indicate the page where each plant or genus is listed in the index.
- The indexing covers a wide range of plants from A to Z, including both flowering and non-flowering plants.
- The index is useful for quick reference when looking up specific plant names.

---

**General Information:**
- The index is organized alphabetically, making it easy to find specific entries.
- It includes a variety of plant types, from flowering plants to vegetables.
- The index also lists the plant's family, if applicable, and occasionally provides additional information such as part of the plant used or its latin name.

---

**Further Resources:**
- For a more detailed study of plants, consult a botanical reference book or online database.
- Local gardens or plant nurseries can also provide guidance and further information on plant variety and care.

CATALOGUES.

The following Catalogues are published, some annually, and some at intervals of two or three years, as becomes necessary, and are sent to all customers whose names are on our books, as soon as issued, free of charge, and to all new applicants who remit the amounts named below, to cover postage and labor.

No. 1.—DESCRIPTIVE PRICED CATALOGUE OF FRUITS, EMBRACING SMALL FRUITS, except Strawberries, containing brief hints on transplanting, distances for planting the various classes of trees, and descriptions of all the most valuable varieties of fruits in cultivation; 10 cents.

No. 2.—DESCRIPTIVE AND ILLUSTRATED PRICED CATALOGUE OF ORNAMENTAL TREES, containing descriptions of all the most desirable Ornamental Deciduous Trees, Weeping or Drooping Trees, Trees with Ornamental or Remarkable Foliage, Evergreen Trees, Flowering Shrubs, Climbing Shrubs, Paonies, Phloxes, Hardy Herbaceous Flowering Plants, Hedge Plants, etc., illustrated with numerous wood cuts of the most popular and valuable trees, etc.; 15 cents.

No. 3.—CATALOGUE OF STRAWBERRIES. Free.

No. 4.—WHOLESALE CATALOGUE, semi-annually. Free.

No. 5.—DESCRIPTIVE PRICED CATALOGUE OF ROSES. Free.
BARRY'S FRUIT GARDEN.

By P. BARRY.

A Treatise intended to illustrate and explain the Physiology of Fruit Trees; the Theory and Practice of all operations connected with the Propagation, Transplanting, Pruning and Training of Orchard and Garden Trees, as Standards, Dwarfs, Pyramids, Espaliers, &c.; the laying out and arranging different kinds of Orchards and Gardens; the selection of suitable varieties for different purposes and localities; Gathering and Preserving Fruits; Treatment of Diseases and Destruction of Insects; Description and Use of Implements, &c., illustrated with numerous wood-cuts, representing different parts of trees, practical operations, forms of trees, designs for plantations, implements, &c. Price, post-paid, $2.00.

THE ROSE

A TREATISE ON THE CULTIVATION, FAMILY CHARACTERISTICS, ETC., OF THE VARIOUS GROUPS OF ROSES, WITH ACCURATE DESCRIPTIONS OF THE VARIETIES NOW GENERALLY GROWN.

By the late H. B. ELLWANGER,

OF MOUNT HOPE NURSERIES, ROCHESTER, N. Y.

One handsome volume, 16mo., cloth, $1.25. Sent post-paid on receipt of price.

PRESS OPINIONS.

"A writer who has a thorough knowledge of his subject and knows how to convey it to others."—New York Evening Post.

"It contains 300 pages of most useful information, the results of the experience and observation of many years, of an enthusiastic and most successful cultivator."—Canadian Horticulturist.

"Ce livre nous paraît être un des meilleurs qui aient été publiés jusqu'à ce jour; écrit par un rosier éminent, toutes les questions y sont traitées à fond et en véritable connoisseur."—Journal des Roses—France.

"Chapters packed with practical directions and information to the amateur."—New York Examiner.
