Kansas City Nurseries,

BLAIR & KAUFMAN, PROPRIETORS,

OFFICE:

RIALTO BUILDING,

Southwest Cor. Ninth Street
and Grand Avenue.

Kansas City, Mo.

GREETING.

A List of Our Supplies is Herewith Presented.

Twenty-eight Springs have awakened into life the great laboratory of nature, with its bursting bud and opening bloom. Twenty-eight Summers have developed and matured plant, seed and fruit. Twenty-eight Autumns have burnished both fruit and leaf with yellow and crimson, and for twenty-eight years has winter returned with her snowy protecting mantle since we began to develop into growth, propagate and mature that which has rendered so much to the happiness of mankind. Fruit trees, vines and plants, beautiful ornamental trees, evergreens and flowering shrubs, roses, vines and creepers, have been sent out yearly by the thousands, not only in this vicinity but into many other States and Territories, from our Nurseries, which are located on Twelfth Street, three miles east of the post office.

Our general stock of Fruit Trees, Vines and Plants; Ornamental, Deciduous and Evergreen Trees; Flowering Shrubs, etc., has never been so extensive and complete in every department as at this time. Everything has been well and carefully grown.

It will be found on examining our list that we have a very extensive assortment. Our long experience in the business has led us to realize what is required to supply the wants of a city and country trade like this demands, and with a view of filling all orders from our own grounds we have not made a specialty of a few things, but have a general assortment of all the new and leading varieties growing in these nurseries that are worthy the attention of the planter.

Gentlemen making extensive improvements or adding to their collection, Landscape Gardners; Superintendents of Public Parks, Lawns, Cemeteries, etc., etc., will find it to their advantage to examine our stock.

It has been acknowledged by all who have visited our Nurseries that we have the largest and finest collection of Evergreens and Ornamentals that can be found anywhere west of the State of New York, and the advantage of having trees acclimated and grown here, where they are exempt from long shipments and exposure, is no small matter to the purchaser.

BLAIR & KAUFMAN.

THE following is a list of our assortments and varieties which we are able to supply in large or small quantities. Prices given here are for first-class stock.

Fifty at one hundred rates; five hundred at one thousand rates.

When an order amounts to \$50.00 and over we will give the purchaser the lowest rates named on list regardless of quantity of any article taken.

FRUIT TREES.

	Each.	100.	1000.
APPLES—5 to 7 feet.....	\$.20	\$18.75	\$150.00
“ 4½ to 6 feet.....	.15	14.00	100.00
“ 4 to 5 feet.....	.14	12.50	80.00

“ Wisconsin, 8 to 10 feet.....	.75	50.00
“ Babylonica, Common Weeping Willow, 6 to 7 feet.....	.50	

EVERGREENS.

Many failures occur in transplanting evergreens, because of exposing the roots to the atmosphere, causing the sap to cease to flow, and it being of a rosinous nature the pores of the roots and branches become clogged, when nothing will restore them again to life. Our evergreens have been several times transplanted in the nursery, and in taking them up when sold or for shipment, we handle them with the greatest of care to avoid exposure of the roots, and when desired by the purchaser we take them up, leaving a ball of earth to the roots, and sack it. In this way the success in transplanting is made as certain as the transplanting of a willow. Evergreens should have some shading the first year to protect them from the hot sun and winds.

The prices given here are for Sacked Evergreens.

	Each	100
ARBOR VITÆ—American, 12 to 15 inches.....	\$.50	\$40.00
“ American, 2 to 2½ feet.....	1.00	75.00
