ROOT GRAFTS.

Prepare the ground well, and plant as soon as the frost is out in the Spring.

During the Winter we put up a large assortment of Apple and Crab root grafts of all the leading varieties. Being large growers of Apple Seedlings, and having a large stock of scions, we are well prepared to furnish good grafts at low prices.

After our grafts are made we assort them into No. 1 and 2 grades. Those that are small or inferior in any respect we put in the No. 2, leaving the first class strictly No. 1. Orders should be sent in early. No extra charge for packing. Samples sent, if desired, at the proper season, also a list of varieties. Special prices on large early orders.
