PRICES in this catalog cancel all previous lists and quotations, and are subject to change without notice.

"3 TO 4 FEET" means that the tree or plant will be 3 feet or over, but under 4 feet; and throughout the list the same.

STOCK SPECIALLY SELECTED by customers at the Nurseries will be charged according to the value of the stock chosen, irrespective of catalog price.

VISITORS WELCOME. You are invited not only to visit the office, but to go over the extensive grounds as well. There are more than 500 acres in the farm.

OUR LOCATION. Now on Friendly Road, via Guilford College school, 6 miles west of city limits, $\frac{1}{2}$ mile east of highway 421 to Winston-Salem. Our shipping point is Guilford College, N. C.

PRICES INCLUDE PACKING, EXCEPT ON SPECIAL BULKY PIECES, for which cost of packing will be extra, and f.o.b. our shipping station, or for local delivery on our regular routes.

TERMS, CASH WITH ORDER, except to persons who satisfy us as to their responsibility, when for their convenience accounts will be opened, due in 30 days from date of invoice.

AUTO-TRUCK DELIVERIES, based on actual cost, if no Government regulations to interfere, are made within a reasonable distance of our Nurseries. The advantages of truck delivery are many. Boxing is eliminated, stock arrives in much better condition, and the goods are landed on the ground within a short time after being dug.

GUARANTEE: When stock has been properly cared for, and the account paid promptly as agreed, any plants that fail to grow the first season will be resupplied once at half list price at our warehouse; transportation and planting costs, if any, extra.

Lindley Nurseries, Inc., exercise the greatest care possible to keep their varieties true, and hold themselves in readiness to reship any tree or plant that may prove otherwise, or refund the original sum of money paid therefor, if reported to them within five years from date of order. It is mutually agreed that they are not further responsible in any case. However, we can give no warranty as to productiveness of fruit, flower or berry of plants we sell.

OFFICIAL INSPECTION. We furnish with each shipment a certificate that our Nurseries have been examined by the State Entomologist of North Carolina and found free from contagious diseases.

CONIFEROUS EVERGREENS

Some locations around the home grounds just seem to call for coniferous evergreens, in some form, either upright, medium or spreading growth, as they lend richness and dignity as no other class of plants can. The varieties offered here are tried and true and will give good results when planted in suitable locations. Most of the sorts require almost full sun, though a few will do very well in partial shade.

BROAD-LEAF EVERGREENS

This class of plant material is suited to the Piedmont section better than almost anything else, as you can have plants that are evergreen, and many of them bloom and berry, while some lend themselves to formal pruning. We are very fortunate in being privileged to live with such plants around us. They almost all stand shearing well.

Dug with ball of earth unless otherwise specified.
N. R. means that it will be handled naked rooted.

FLOWERING SHRUBS

There is a multitude of ways that flowering shrubs may be used to advantage, as individual specimens, group plantings, hedges, etc. Shrubbery borders are now much more in vogue than formal clipped hedges; they can be so arranged as to give almost continuous bloom or berry the year 'round, thus adding interest to your home grounds. The descriptions are as plain and accurate as we know how to make them, but if you need advice, write us and our Landscape Department will help you decide what best to use.

These plants are dug and handled without balling; if balling is desired, double the price.

GRAPE VINES

BUNCH SORTS, 2-year75

Moore Early. Medium size; black. Very similar to Concord except earlier.

Fredonia. Very fine quality, black, and should be planted in every collection.

Portland. Another new sort with us, white, and of the best quality.

Lutie. Small bunches, medium to large berries; skin brownish red; flesh pale green, juicy.

Delaware. Berries light red, small; fine flavor, juicy, tender, aromatic, refreshing, sweet.

Niagara. Bunches medium, berries large; skin light green; juicy, tender; mid-season; keeps well.

Concord. Large bunches and berries; light glossy black; flesh solid, juicy, fine grained.

Catawba. Coppery red; large bunches, medium size berries; juicy, sprightly, sweet and rich.

SCUPPERNONG or MUSCADINE FAMILY.

2-year 1.50

Scuppernong. Bronze colored skin; large size; flesh juicy, musky, sweet, sprightly, of excellent quality.

James. Largest berries of the family; black; flesh meaty, quality medium. Latest to ripen.

Male Muscadine. To pollinate only, but should be planted wherever the Scuppernong and James sorts are used, as a much better crop will be attained, unless you plant one of the new double-purpose sorts.

Double Purpose. There has been originated by the Test Farm new varieties of this family of grape,—sorts that not only bear fruit without a male, but they themselves pollenize the other fruiting varieties. PRICE 2.00 each

STRAWBERRIES

Blakemore. A rank, vigorous grower. Very productive. Early ripening. Rather tart. Very popular.

Dorsett. Vigorous grower; berries of large size, fine quality; excellent for home use. Early.

Fairfax. Very fine quality; berries large, firm, good keeper. Good grower, and moderately productive. Mid-season.

Premier or Howard 17. Early, large, bright red; prolific, a sure cropper.

Spring fruiting sorts:

50 for \$3.00

100 for \$4.00

Mastodon Everbearing. A consistent producer of good berries, particularly if given extra care, fertilization and cultivation.

50 for \$4.00

100 for \$6.00

THE BRAMBLES

After the plant has fruited in the spring, the old canes should be removed, cutting off at the ground, and burning. The canes that fruit another season will then come up and be ready to bear the following spring. When first planted, cut back to within 4 or 5 inches of the ground.

Quantities quoted on items below are the smallest lots we can supply—not less than 10 of a variety.

Prices on all as follows:

Per 10, \$3.00; 25, \$6.00.

Blackberry Plants

These require but little attention, producing good crops of fine berries. They are native to the Piedmont section, and will give excellent results with but little care except keeping the weeds and grass out, in addition to removing the old canes. No staking required. **Alfred.** One of the best sorts; the berries are large and nearly coreless. Productive.

Eldorado. A strong, upright grower; large juicy berries.

Boysenberry Plants

The berries are very large, delicious flavor. The plant is a very vigorous grower, and for this reason should be planted on medium to rather poor soil, well drained; tie up to a wire fence of about three strands, handling carefully. **Thornless type.**

Dewberry Plants

Lucretia. Berries usually larger than Blackberries, some weeks earlier; soft, sweet, luscious!

Raspberry Plants

More difficult to grow in Piedmont section, and of but little value in eastern section unless given special attention. The plants do much better if kept mulched. The soil must be good, and the deeper the better.

Cumberland is the standard black sort, and is a favorite where black raspberries are desired.

Latham is recommended as being one of the good ones; a thrifty grower, bright red berries.

Note. Not less than 10 of a kind sold in any one order

ROSE BUSHES

In offering the following varieties of rose plants, we believe they are the best for this section; the list has been gotten together after much thought and effort. You will be pleased with them.

105 Years Is A Long Time

THE LINDLEY NURSERIES

have been in business since 1842, and within a few miles of the original location. Now starting well into the second century.

Experienced

Progressive

Dependable

Beginning in a small way in 1842, with a select list of fruit trees, it has grown till today there are more than five hundred acres in the nursery farm. Almost all types of trees and plants are now produced, as well as our doing extensive landscape work.

With our facilities and experience, we are in a position to handle your business along this line in a manner satisfactory to you, and shall be glad to hear from you. Write, telephone, call in person; we are here to serve you, and our representatives travel widely.

We now have, we believe, the most modern warehouse, storage cellar, and office of any nursery in the South, and we invite your inspection.
