INSTRUCTIONS TO AGENTS.

The prices given in this price list are for first-class stock, home grown and true to name. We reserve the right, where we are out of stock ordered, to substitute something equally as good, same season maturing. You are expected to maintain the prices given you here. We want everything sold on its own merits and the price put opposite each thing sold, as it is stated on the back of the order. We don't want to do this skinning business of "averaging up," selling some things under value, and making it up on something else. We shall expect, in fact, to require, from our agents, a report and all orders they have, sent in at least once a week. Every Monday you will make a report of the previous week's work and send in what orders you have. Sell no goods on time; our business is a cash business. Make no promises or agreements only what you place upon the order. Sell only to good and responsible persons. We pay no commissions to agents on orders taken from doubtful or worthless persons. Be particular to state the size of stock sold, write names at the top of the order plainly, write one of the given names in full, see that all the blanks at the bottom of the order is filled. Be particular to give location distinctly, both direction and distance from place of delivery.
