SEEDS AND PLANTS

— FOR —

SPRING, 1894

ROBERT VEITCH & SON,

IMPORTERS, GROWERS AND DEALERS IN

SEEDS, PLANTS, BULBS AND FLOWERS

974 CHAPEL STREET,

NEW HAVEN, CONN.
NOTICE.

Though we thoroughly test our seeds before sending them out, many seeds of the best possible quality will fail through improper treatment. More failures result from this than from any other cause. The necessary conditions are, a proper temperature, sufficient moisture, and free access of air; if the surface of the soil gets baked by heavy rains it will be impossible for the young seedling plants to force their way through, and the Seedsman is blamed in consequence. For these reasons we explicitly state that while we exercise the greatest care to have all seeds pure and reliable, we do not give any warranty expressed or implied.

If the purchaser does not accept the seeds on these conditions they must be returned at once.

Seeds by Mail.—All seed, in packages and by the ounce, will be sent by mail at Catalogue prices, postage prepaid, but seeds by the pound require an extra payment of eight cents per pound. Corn, peas and beans required an extra payment of fifteen cents per quart to prepay postage.

Plants by Mail.—All plants will be sent by Mail, postage prepaid, at the prices quoted for single plants, but at dozen rates ten per cent. addition to the price must be sent to prepay postage.

No charge for baskets, boxes, or packing on any order exceeding $1.00 in value. Bags charged at cost price, and credited on account if returned in good condition within thirty days after date of purchase.

All orders from unknown correspondents must be accompanied with a remittance or satisfactory reference. To regular customers accounts are payable July 1, 1894.

Address,

ROBERT VEITCH & SON,
