FALL

1894.

TRADE LIST

OF

WATER LILIES.

AND

AQATICS.

GEO. B. MOULDER, LILY PARK,
SMITH'S GROVE, KY.

TO THE TRADE.

FOLLOWING we submit wholesale prices on such Water Lilies and Aquatics as are in greatest demand by the trade. This season our stock is exceptionally large and fine, and we have reduced the prices to a minimum in order to meet the cries of general hard times.

Order Now for Spring delivery. Our stock of some varieties is limited, and orders will be filled in strict rotation until stock is exhausted. The hardy sorts cannot be dug in mid-winter and to insure their delivery much before May 1st., they should be engaged this fall when they will be taken up and stored away in mud in our greenhouses and shipped as ordered. Parties not knowing exactly how many they will need should state the probable quantity of each and we will allow slight changes in the order at any time before shipment.

Terms; 30 days from date of delivery, with satisfactory reference from unknown parties; all accounts due July 1st. Five per cent discount for cash with order.

Our Catalogue for 1895, ready in November, with new accurate and original descriptions and illustrations throughout and containing much valuable information never before published, free to all applicants. Special descriptions furnished customers free of charge.
