John Gardiner
Philadelphia
FOR
Florists

Bulbs, Seeds, Etc.

**GARDINER'S
BULBS**

DIRECT
CONSIGNMENTS FROM FRANCE,
ENGLAND, HOLLAND,
GERMANY, ETC.

THE PRICES QUOTED IN THIS CATALOGUE are net for Bulbs delivered at our Warehouse, or to any express or freight station in Philadelphia. We pack securely, make no charge for or barrels, but we do not pay for transportation.

BEST QUALITY. In bulbs, as in seeds, much depends on the purity of the stock. A poor stock of bulbs is a bad investment for any grower, however low the price may be. We aim to supply the very best and purest stocks, sound, well ripened and in condition to produce good crops and the fact that our old customers stay with us, year after year, is sufficient evidence that our care in this direction is fully appreciated and rewarded.

OUR FACILITIES for the growing and handling of bulbs are unsurpassed, and our business in this line is now one of the largest in the country. Our extensive knowledge of the best sources of supply in all parts of the world enables us not only to offer our customers stock of unsurpassed quality, but to sell the same at the lowest possible prices.

TERMS OF SALE. The prices quoted in this list, being based on present stocks, are liable to change without notice, and are binding only for **prompt orders**. All quotations are made subject to stock being unsold on receipt of order.

SHIPMENT. Early ripening bulbs, such as Freesias, Lilium Harrisii and Roman Hyacinths, can generally be shipped from August on. Hyacinths, Tulips, Daffodils and the general line of bulbs are ready for shipment in September. Lily of the Valley, Spirea and other late-arriving sorts are shipped in November. All shipments are made in good order, and proper bills of lading taken therefor, after which our responsibility ceases.

PAYMENT. All bulb bills are due net cash January 1, irrespective of date of purchase.

DISCOUNT. For prompt cash on receipt of goods, we allow a discount of one per cent. per month for prepayment before due.

WARRANTY. While we use every safeguard that experience has suggested in the growing and handling of our bulbs, it is manifestly impossible to **warrant a crop**, and we, in common with all other responsible houses, give no warranty, either expressed or implied, as the flowering, etc., depends to a large extent on the growing and other circumstances entirely beyond our control.

EARLY ORDERS SOLICITED. The prices quoted herein are based on receiving your orders **early in the season**, and we would earnestly solicit a list of your wants as soon after receipt of this as possible.

ORDER SHEET. Please use the order sheet, as it greatly facilitates the correct filling and shipment of your order.

Lilium Harrisi.

Our Bermuda Lily Bulbs are pure and unmixed—our stock having earned an enviable reputation for these qualities amongst the most reputable growers.

We take the utmost care in the culture and ripening of the bulbs, as well as in the selection of the different grades, and we can honestly claim our stock to be second to none and superior to most. Lilies grown from our stock have carried the honors at

the exhibitions and brought top-notch prices in nearly every instance.

We are offering the best stock that *care* and *experience* can produce, and feel sure that we can give our customers entire satisfaction.

Lilium Longiflorum.

Bermuda Grown.

The Longiflorum is an old stand-by for Easter forcing, and by many is preferred to the Harrisi. It is not so large a flower as the Harrisi, but has better substance, and the habit is all that can be desired. For Christmas forcing the Harrisi “holds the fort,” but for Easter the honors are even. No establishment is complete without a good supply of Longiflorum for the Easter trade. Ripens its bulbs about a month later than Harrisi.

Choice Named Dutch Hyacinths.

Now that the choicest selected Dutch Hyacinths are being offered at considerably lower figures than formerly, they are coming into more general use for pot plants. The superior size and fine quality of the spikes command for them ready sale at good prices, and most florists who have a pot-plant trade will find it will pay them eventually if they make an effort to work up a trade on a **higher quality** basis in the Hyacinth line. The varieties offered on page 3 are the result of a special selection made for us while in flower, by our grower in Holland. Only the best sorts have been included, and those which we offer may be depended on to produce good spikes and clear, distinct colors.

Second Size Named Hyacinths.

We would also call special attention to the "second size named" Hyacinths. Although not quite so large bulbs as those described above, they are superior to the **common mixtures** for forcing purposes, and are recommended for use to those who cannot use the **highest grade** of "named" bulbs, but who would still like something better than the **cheapest mixtures**.

Early White Roman Hyacinths.

Our stock of Early White Roman Hyacinth Bulbs is extra selected and will give the greatest satisfaction, each bulb producing several graceful spikes. There are few subjects more useful than the Roman Hyacinths for bouquets, corsage flowers, designs and floral work generally, and a good supply is indispensable. We advise **early planting**, so as to have the bulbs well-rooted before commencing to force them. **Early delivery** can best be secured by sending in your orders at once, so that shipments may be made from the first arrivals.

Gardiner's XX Berlin Lily of the Valley.

(NOVEMBER DELIVERY.)

To have good success with forcing Lily of the Valley it is absolutely necessary that only the best three-year Berlin pips be used. Gardiner's XX Berlin pips are acknowledged to be unsurpassed by any other, and are confidently recommended for forcing. They are guaranteed to be the **true Berlin variety** and much superior for early forcing to the Hamburg sort.

Our XX Berlin pips are packed in cases containing 2500 each, and are offered in unbroken cases as follows :

2500 (1 case)	5000 (2 cases)	10,000 (4 cases)

VON SION DOUBLE TRUMPET DAFFODIL.

SILVER & GOLD DOUBLE TRUMPET DAFFODIL.

(*Narcissus Pseudo Plenus.*)

This is the "Double Lent Lily" of the old authors, a very beautiful variety; silvery white and rich yellow. \$7.00 per 100.

BUTTER AND EGGS DOUBLE DAFFODIL.

(*Narcissus Incomp. Plenus.*)

The double yellow "Non-such" Daffodil; yellow with darker centre; effective in clumps or masses, and good for pots. This form frequently passes from a rose-like double to almost single. \$1.00 per 100; \$7.50 per 1000.

COCLINS AND CREAM OR SULPHUR PHENIX DOUBLE DAFFODIL

(*Narcissus Albus Plenus Sulphureus.*)

Creamy white; very large and double; a most chaste and charming flower; the largest of all the double "Non-such" Daffodils. In great demand for cutting. \$10.00 per 100.

COCLINS AND CREAM DOUBLE DAFFODIL.

DOUBLE WHITE POET'S DAFFODIL.

Narcissus Poeticus Plenus. (Alba Plena Odorato.)

Pure white gardenia-like double flowers; a beautiful variety and delightfully fragrant; largely used for forcing, and one of the very best for naturalizing in clumps or masses. \$1.00 per 100; \$7.50 per 1000

DOUBLE SWEET-SCENTED JONQUIL.

(*N. Jonquilla Plenus.*)

Rich yellow, full double flowers; small and most elegant in form; exquisitely fragrant. One of the very best for pot culture, the cut blooms being charming for bouquets, etc. Requires a liberal covering of leaves or litter when planted outside. \$2.75 per 100; \$25.00 per 1000.

DOUBLE DAFFODILS.

No establishment is complete without plenty of Double Daffodils. They are unsurpassed for growing in quantity, being exceedingly showy and perfectly adapted either for a cut flower or a pot plant. The low-priced sorts should be used in quantity, and will well repay a liberal outlay by their wealth of fragrant blossoms, which are always popular and find ready sale.

All the varieties are grand for growing in pots, 3 to 5 bulbs in a 5-inch pot. The cut blooms are in great demand for vases, bouquet and personal wear.

DOUBLE TRUMPET DAFFODIL VON SION.

(*Narcissus Telamonius Plenus.*)

The old-fashioned, double yellow Daffodil is in great demand everywhere for forcing. Grand for cutting. Our bulbs are the genuine Von Sion, and must not be confounded with the cheap and spurious stocks on the market. Selected bulbs, \$2.00 per 100; \$18.00 per 1000.

EGGS AND BACON OR ORANGE PHENIX DAFFODIL.

(*Narcissus Albus Plenus Aurantius.*)

Soft sulphur with orange centre, a large and finely formed flower, one of the best double Daffodils; perfectly hardy and very effective. Fine for pot culture. \$3.00 per 100.

DOUBLE ROMAN POLYANTHUS NARCISSUS.

Double white flowers with orange centre, fragrant and excellent for forcing. This variety is much grown for cutting at Christmas, being very early and free flowering. Requires protection if planted out. Selected bulbs. \$1.25 per 100; \$9.00 per 1000. First size bulbs, \$1.00 per 100; \$7.50 per 1000.

BUTTER AND EGGS DOUBLE DAFFODIL.

TULIPS.

For Forcing and Open Ground.

Tulips, both single and double, are fine for pot culture; but preference must be given to the former as the most distinct and beautiful, and the earlier flowering varieties especially are invaluable for forcing.

Among the best varieties for forcing purposes may be mentioned.

Artus, brilliant dark scarlet, a large, handsome and effective flower; **Belle Alliance**, crimson scarlet, a dwarf and early variety and a good lasting sort; **Canary Bird**, clear rich yellow, early; **Chrysolora**, deep yellow, large and handsome, one of the best; **Cottage Maid**, rose-pink and white, flaked, very pretty variety; **Coleur Cardinal**, crimson scarlet, very showy and effective, extra fine; **Crimson King**, bright crimson, very showy; **Duc Van Thol Scarlet**, very early and one of the best for forcing; **Joost Van Vondel**, crimson, flaked with white, a magnificent sort; **Kaizers Kroon**, intense scarlet, bordered with gold, a large, bold flower, splendid variety, very lasting; **Potte-**

bakker, white, yellow and scarlet, all three distinct, self-colors, and large handsome flowers, early; **Vermilion Brilliant**, dazzling scarlet, one of the finest forcing varieties; **Yellow Prince**, fine golden yellow, dwarf, sweet scented, grand for forcing; **Murillo**, rosy white, and **Tournesol Yellow**.

Freesia Refracta Alba.

This is one of the easiest and simplest bulbs to flower, and produces more blooms for the size of the bulb than any other bulb we know of. The flowers are pure white, very graceful and delightfully fragrant. They are of wonderful durability, and the buds that have not expanded when cut will come to full bloom if placed in water. It is one of the indispensables for cutting, and should be grown largely by all who need cut flowers.

(¼ dozens at dozen rates.)

These patent vases are now used by the principal florists in all the large cities and are giving the greatest satisfaction.

Gardiner's Celebrated English Mushroom Spawn.

Mushrooms may be grown in cellars, under benches of greenhouses or in sheds, wherever the temperature of 50 degrees can be kept up through the winter. The beds should be made from November to February, according to the time the mushrooms are wanted, and it requires about two months for them to begin bearing. Secure fresh stable manure, free from straw and litter, and mix in an equal bulk of loam from an old pasture with it. Keep this undercover, taking care to turn it every day to prevent heating, until the pile is large enough to make a bed of the required size. Three or four feet wide, eight inches deep, and any length desired, are the proper proportions for a bed; but these may be varied. Prepare the mixture of loam and manure, making the bed in layers, and pounding down each with the back of the spade. Leave this to heat through for a few days, and as soon as the heat subsides to 80 degrees, make holes in the bed nine inches apart each way, into which put pieces of the spawn two inches in diameter; fill up the holes with the compost, and at the expiration of a week or ten days the spawn will have thoroughly diffused itself through the bed. Spread a layer of fresh soil over the heap to the depth of

two inches, and cover with three or four inches of hay, straw or litter. Examine the bed often to see that it does not get dry. Take special care, however, when water is given, that it be at a temperature of 80 degrees.

English Spawn.—Per lb., 12c.; 10 lbs., \$1.00; 100 lbs., \$7.00. Mailing, 8c per lb.

French Spawn.—Per 2-lb. box, 70c.; in bulk, per lb., 30c. Mailing, 8c. per lb.

"Mushrooms: How to grow them," by Mr. Wm. Falconer, price \$1.35, postpaid.

"Mushroom Culture." By Mr. Robinson, price 50c., postpaid.

A sixteen-page treatise entitled "Mushrooms for the Million" may be had free on application.

Realizing the unsuitableness of most materials used for stringing Smilax and other trailing plants, we are much pleased to inform our customers that we have at last obtained an article that is the thing so long needed.

Green Silkline is fast color and will not fade; is very strong and will not break down. Tearing and annoyance of removing the string saved, as Silkline is so near the color of the vines as to be practically invisible, and does not need to be removed; in fact, is valuable for fastening the vines when decorating.

Made in three sizes, F, FF and FFF and put up on 2 oz. spools, 8 in a box, 16 oz. of Silkline guaranteed.

Silkline is also used for Bouquet and general florist work. 2-oz. spool, 25c.; 8 spools, \$1.60.
