PRICES in this catalog cancel all previous lists and quotations, and are subject to change without notice.

"3 TO 4 FEET" means that the tree or plant will be 3 feet or over, but under 4 feet; and throughout the list the same.

STOCK SPECIALLY SELECTED by customers at the Nurseries will be charged according to the value of the stock chosen, irrespective of catalog price.

VISITORS WELCOME. You are invited not only to visit the office, but go over the extensive grounds as well. There are more than 500 acres in the farm.

PRICES INCLUDE PACKING, EXCEPT ON SPECIAL BULKY PIECES, for which cost of packing will be extra, and f.o.b. our shipping station, or for local delivery on our regular routes.

TERMS, CASH WITH ORDER, except to persons who satisfy us as to their responsibility, when for their convenience accounts will be opened, due in 30 days from date of invoice.

AUTO-TRUCK DELIVERIES, based on actual cost, if no Government regulations to interfere, are made within a reasonable distance of our Nurseries. The advantages of truck delivery are many. Boxing is eliminated, stock arrives in much better condition, and the goods are landed on the ground within a short time after being dug.

GUARANTEE: When stock has been properly cared for, and the account paid promptly as agreed, any plants that fail to grow the first season will be resupplied once at half list price at our warehouse; transportation and planting costs, if any extra.

Lindley Nurseries, Inc., exercise the greatest care possible to keep their varieties true, and hold themselves in readiness to reship any tree or plant that may prove otherwise, or refund the original sum of money paid therefor, if reported to them within five years from date of order. It is mutually agreed that they are not further responsible in any case. However, we can give no warranty as to productiveness of fruit, flower or berry of plants we sell.

OFFICIAL INSPECTION. We furnish with each shipment a certificate that our Nurseries have been examined by the State Entomologist of North Carolina and found free from contagious diseases.

BROAD-LEAF EVERGREENS

This class of plant material is suited to the Piedmont section better than almost anything else, as you can have plants that are evergreen, and many of them bloom and berry, while some lend themselves to formal pruning. We are very fortunate in being privileged to live with such plants around us. They almost all stand shearing well.

LANDSCAPE DEPARTMENT: We are prepared to render you every help needed to make your place outstanding in appearance. Our landscape architects are men of training and experience, and know Southern plant material and what to do with it to get the best artistic results for you in improvement of your place. Not only do we offer plans and plants, but actually set the plants on your lawn within a reasonable distance. All at lowest cost possible for the class of work done.

CONIFEROUS EVERGREENS

Some locations around the home grounds just seem to call for coniferous evergreens, in some form, either upright, medium or spreading growth, as they lend richness and dignity as no other class of plants can. The varieties offered here are tried and true and will give good results when planted in suitable locations. Most of the sorts require almost full sun, though a few will do very well in partial shade.

Stuart. Produces a strong tree. Nuts are large, medium thin, good quality. Stands cold better than most Southern varieties.

Schley. Medium to large, with very thin shell and highest quality, often referred to as "Paper Shell."

GRAPE VINES

The returns in fruit and pleasure from a moderate grape vineyard should induce every one to have a vineyard, even if not more than half a dozen vines.

BUNCH SORTS, 2-year ..... .75

Moore Early. Medium size; black. Very similar to Concord except earlier.

Fredonia. Very fine quality, black, and should be planted in every collection.

Portland. Another new sort with us, white, and of the best quality.

Lutie. Small bunches, medium to large berries; skin brownish red; flesh pale green, juicy.

Delaware. Berries light red, small; fine flavor, juicy, tender, aromatic, refreshing, sweet.

Niagara. Bunches medium, berries large; skin light green; juicy, tender; mid-season; keeps well.

Concord. Large bunches and berries; light glossy black; flesh solid, juicy, fine grained.

Catawba. Coppery red; large bunches, medium size berries; juicy, sprightly; sweet and rich.

SCUPPERNONG or MUSCADINE FAMILY

2 year 1.50

The following varieties of muscadine grapes are among the best of this group, which is native to the southeastern United States. This type of grape is particularly well adapted for home plantings, and vineyard plantings of this type have been on the increase in recent years. The list below will provide fruit ripening in succession over the entire muscadine grape season. At least one of the double purpose sort should be included in every home planting. In vineyards one of this type to every eight Scuppernong plants, and other similar pistillate varieties, is recommended.

Morrison. Very early; large berries with a pinkish tinge; very fine flavor. (The vine will need liberal applications of fertilizers.)

Thomas. Color reddish purple; sweet, tender; early; vine vigorous, prolific. Best for unfermented grape juice and preserves.

Hunt. Earlier than Scuppernong. One of the best black varieties; large berries of excellent flavor.

Scuppernong. Bronze colored skin; flesh juicy, musky, sweet, sprightly; excellent quality.

Topsail. Rated as being better quality than Scuppernong; crisp, fine sweet flavor; pearly green color. Vine vigorous and productive; should not be pruned too heavily.

Creswell. Fruit is large, black when fully ripe, with a reddish cast; hangs on till frost, getting sweeter all the time,—a choice eating variety; vigorous, productive.

Double Purnose. There has been originated at the Willard Test Farm new varieties of this family of grape,—sorts that not only bear fruit without a male, but they themselves pollenize the other fruiting varieties. Select either a black or white, as listed below. Price \$2.00 each.

Tarheel. Highly productive; black shiny berries of fine quality; one of the best of its class.

Willard. White; very productive, same season as Scuppernong, not quite so good in quality. Vigorous.

SPECIAL OFFER ON SCUPPERNONGS

Believing that the above eight Grape Vines will prove beneficial and satisfactory to every land owner, we offer to furnish one each of the several varieties for just \$10.00.

FIG BUSHES

2 to 3 ft. 1.25

Brown Turkey. Size medium to large; color coppery-brown; flesh white or slightly amber colored, shading to pink about the seed; flesh solid, excellent.

Celeste. Small to medium; skin violet color; flesh light to rose at center; juicy, sweet, excellent.

BLACKBERRY PLANTS

These require but little attention, producing good crops of fine berries. They are native to the Piedmont section, and will give excellent results with but little care except keeping the weeds and grass out, in addition to removing the old canes.

Per 10, \$3.00; 25, \$6.00

Alfred. One of the best sorts; the berries are large and nearly coreless. Productive.

Eldorado. A strong, upright grower; large juicy berries.

BOYSENBERRY PLANTS

The berries are very large, delicious flavor. The plant is a very vigorous grower, and for this reason should be planted on medium to rather poor soil, well drained; tie up to a wire fence of about three strands, handling carefully. Thornless type.

Per 10, \$3.00; 25, \$6.00

DEWBERRY PLANTS

Lucretia. Berries usually larger than Blackberries, some weeks earlier; soft, sweet, luscious!

RASPBERRY PLANTS

More difficult to grow in Piedmont section, and of but little value in eastern section unless given special attention. The plants do much better if kept mulched. The soil must be good.

Per 10, \$3.00; 25, \$6.00

Cumberland is the standard black sort, and is a favorite where black raspberries are desired.

Latham is recommended as being one of the good ones; a thrifty grower, bright red berries.

STRAWBERRIES

Blakemore. A rank, vigorous grower. Very productive. Early ripening. Rather tart. Very popular.

Dorsett. Vigorous grower; berries of large size, fine quality; excellent for home use. Early.

Fairfax. Very fine quality; berries large, firm, good keeper. Good grower, and moderately productive. Mid-season.

Premier or Howard 17. Early, large, bright red; prolific, a sure cropper.
Spring fruiting sorts:

50 for .....\$3.00 | 100 for \$4.00

Mastodon Everbearing. A consistent producer of good berries, particularly if given extra care, fertilization and cultivation.

50 for .....\$4.00 | 100 for \$6.00

In addition to the trees and plants mentioned in the foregoing pages, we have quite a lot of other varieties in small quantities, and in a number of cases larger sizes than quoted herein. So if you have special items or sizes different from this list, let us know your needs and the chances are that we can supply. If we do not have it, perhaps we can locate with some of our connections. Write us about any trees or plants that you have in mind.
