BOX 30,

ESTABLISHED 1888.

CORRESPONDENCE SOLICITED.

Wholesale and Retail Grower and
Dealer in FRUIT TREES

OF ALL DESCRIPTIONS.

NUT TREES, NURSERY SEEDLINGS,

SMALL FRUITS, ETC., ETC.

New Varieties Tested and Introduced if Found Worthy.

TERMS.

Cash with order or satisfactory security must be made before goods are shipped.

Goods sent C.O.D. only when one-fourth of the amount is sent with the order, with charges for returning the money added to the bill.

Remittances can be made at my risk by Post Office orders drawn on Portland or by Registered Letter to Gresham.

Prices in this catalogue abrogate previous quotations. The prices affixed are for the quotations specified, but five and fifty of EACH VARIETY will be supplied at ten and hundred rates respectively.

CONDITIONS OF SALE.

How to Order—Be sure to write your name and address plainly—give Post Office, County and State—and do this every time you write us. Always state distinctly the size and grade of articles ordered, as quoted in the catalogue; also be particular to say always how the goods are to be sent, whether by express or freight. When these conditions are not complied with, we use our judgment as to size and ship by the way we deem best. Keep a correct copy of the order, and check off the stock when it arrives. People often forget what they order and make unjust complaint.

Guarantee.—We warrant our stock true to name, with the express understanding that should any not prove so, we will refund the money paid or replace it with other stock, but are not liable for damages beyond this. A sure indication of the purity of our stock is the fact that customers of former years continue to favor us with their orders.

Packing is executed with the utmost care. Special pains are taken to pack lightly, thereby reducing the expense of transportation to a minimum. All goods at prices quoted in this catalogue are packed free. Everything is labelled.

Substitution.—It is our custom, should the supply of a variety be exhausted (which will occasionally occur in all nurseries), to substitute in its stead a sort of the same season of ripening, and similar in other respects, or to give the value of another grade of the variety named. When it is desired that we shall not do this, it must be so stated in the order. To simply affix the words "No substitution" is all that is necessary.

To My Patrons and Friends :

I again present to the public my Second Annual Retail Price List and Catalogue for 1893-94. Thanking you for your favors of the past season, I hope to merit a continuance of the same for the present season.

With an increased acreage over last year and improved methods of growing and handling stock, I am prepared to offer a better grade of Trees to the public than heretofore.

Special pains are taken to have my trees free from injurious insects, are dug in the most careful manner, and every precaution taken to have them reach the planter in the best possible condition.

Yours Respectfully,

E. P. SMITH,

Proprietor of The Gresham Nurseries.

The Original Oregon Peach.

The original OREGON PEACH TREE was grown near here, and is now four years old. It has borne three crops of fruit, and has a great tendency to overbear, and must be thinned to give the best results. The tree seems to be perfectly hardy, and has never been affected with the curl leaf, although it has stood in an orchard where other varieties have been entirely denuded of their leaves.

Fruit large, averaging three to four inches in diameter; yellow, with dark red blush on the sunny side; free-stone, with a rich, sprightly, delicious flavor.

Mr. E. P. SMITH, Gresham, Oregon.

If there is a Nurseryman that deserve the patronage and support of the settlers in the Eastern part of Multnomah county and other parts of the State it is Mr. E. P. Smith. He has labored hard to introduce nothing but the best kinds of fruit trees, thus giving his patrons the benefit of much careful study as to the varieties that do best in this climate. Those who have purchased trees from Mr. Smith realise now the benefit of having their orchards bearing fruit of the finest quality that bring the highest price in the market. It is the very best trees in the market that should be planted in Oregon, and these can be had in large quantities at the Gresham Nurseries. I hope that, for the fruit industry, Mr. Smith will sell every tree he is going to put on the market this year, for they will be exactly what he represent them. I have great pleasure in recommending Mr. Smith as a gentleman and his Fruit Trees as the best that the market afford.

Yours, etc.
