TO THE TRADE.

WE HOPE that all Florists, Seedsmen and Market-Gardeners into whose hands this issue of our Wholesale List falls will find it useful, and that it will be referred to whenever they are in want of stock in our line. Included will be found those plants most in demand by florists at this season of the year, all healthy, well-grown, and offered at prices which will be found as low, or lower, than goods of equal quality can be obtained for elsewhere. The seeds are all of 1893 crop, of the highest standard of quality, true to name, and offered at prices which speak for themselves.

We ask a careful reading of the following

TERMS.

All orders from unknown correspondents must be accompanied with remittance or satisfactory reference. Otherwise, goods will only be sent C. O. D.

No perishable goods are sent C. O. D., unless a sufficient remittance accompanies order to guarantee acceptance on arrival.

Remittances should be made by Post-Office or Express Money Order, Bank Draft on New York, or Money in Registered Letter. Checks on local or inland banks often entail delay, and are subject to a small charge for collection.

Complaints, if any, must be made within ten days after receipt of goods to receive recognition.

No charge is made for cases or packing, nor for delivery to freight or express depot. We guarantee the safe arrival of all goods sent by express, but in the case of freight shipments our responsibility ceases when the goods are receipted for in good order by the railroad company.

Our pots are all "standard" sizes, and measurements of height are from the bottom of the pot.

Extra Large Specimen Plants FOR EMERGENCIES.

Every florist has, from time to time, large decorations, making demands which his stock is not able to fill. For such purposes our large, unequaled stock of fine decorative plants in large sizes can be drawn upon. We have in stock at all times specimens and large specimens of Palms, Tree Ferns, Anthuriums, Alocasias, Bromeliads, Dracænas, Pitcher Plants, Araticarias, etc., as well as Orchid plants in bloom, and in their season specimens of Azaleas, Genistas, Chrysanthemums, etc., etc.; also, at all seasons,

Cut Orchid Flowers,

including Cattleyas, Cypripediums, Odontoglossums, Dendrobiums, etc., etc., in great variety.

Prices and particulars of such stock will be sent on application, and telegraph orders will always receive our best attention.

SEEDS.

OUR retail trade being so extensive, we, of course, grow and dispose of very large quantities of Vegetable and Flower Seeds, enabling us to purchase at lowest contract prices, although we are not what may be considered wholesale dealers in Seeds.

The following list names the chief varieties of Seeds we are carrying in quantity, and as the crops, both in this country and Europe, were very short the past season, all dealers have advanced their prices on the leading Flower and Vegetable Seeds, while most prices contained herein will be found to compare favorably with those of former years, and in many cases are less. The Seeds are identical with those we send to our own trade, and are offered until sold at the following prices.

All Seeds are thoroughly tested before leaving our establishment, but while we exercise the greatest care to have them pure and reliable, we do not give any warranty, express or implied.

Tuberose.

This is a article, of which the florist should force a good supply. Owing to the enormous quantities of this bulb we have had grown for us this year, we have on hand at present rather more than we wish to carry, and to reduce the stock somewhat will book orders, if sent in immediately upon receipt of this circular, for present delivery, at the following exceeding low prices:

Double Dwarf American Pearl, well cleaned and perfectly cured, bulbs measuring 4 to 6 inches in circumference.
\$8 per 1,000; in 5,000 lots, \$7.50 per 1,000;
in 10,000 lots, \$7 per 1,000.

"Albino." New; pure white. \$3.50 per 100.

Palm Seeds.

We import large quantities of Palm seeds throughout the year at different times, which must be planted immediately upon arrival, as they lose their vitality very quickly. We would ask all florists interested in growing Palms from seed to send us their name and address, that we may quote the different varieties as they are received from their native forests.

A large consignment of the following is due here about the time mentioned below, and will be offered until sold, at the prices named. Our Palm seeds in past seasons have given every satisfaction wherever sent, and the florist may be assured of receiving the best in the market.
