PRICES in this catalog cancel all previous lists and quotations, and are subject to change without notice.

"3 TO 4 FEET" means that the tree or plant will be 3 feet or over, but under 4 feet; and throughout the list the same.

STOCK SPECIALLY SELECTED by customers at the Nurseries will be charged according to the value of the stock chosen, irrespective of catalog price.

VISITORS WELCOME. You are invited not only to visit the office, but to go over the extensive grounds as well. There are more than 500 acres in the farm.

OUR LOCATION. Now on Friendly Road, via Guilford College school, 6 miles west of city limits, $\frac{1}{2}$ mile east of highway 421 to Winston-Salem. Our shipping point is Guilford College, N. C.

PRICES INCLUDE PACKING, EXCEPT ON SPECIAL BULKY PIECES, for which cost of packing will be extra, and f.o.b. our shipping station, or for local delivery on our regular routes.

TERMS, CASH WITH ORDER, except to persons who satisfy us as to their responsibility, when for their convenience accounts will be opened, due in 30 days from date of invoice.

AUTO-TRUCK DELIVERIES, based on actual cost, if no Government regulations to interfere, are made within a reasonable distance of our Nurseries. The advantages of truck delivery are many. Boxing is eliminated, stock arrives in much better condition, and the goods are landed on the ground within a short time after being dug.

GUARANTEE: When stock has been properly cared for, and the account paid promptly as agreed, any plants that fail to grow the first season will be resupplied once at half list price at our warehouse; transportation and planting costs, if any, extra.

Lindley Nurseries, Inc., exercise the greatest care possible to keep their varieties true, and hold themselves in readiness to reship any tree or plant that may prove otherwise, or refund the original sum of money paid therefor, if reported to them within five years from date of order. It is mutually agreed that they are not further responsible in any case.

OFFICIAL INSPECTION. We furnish with each shipment a certificate that our Nurseries have been examined by the State Entomologist of North Carolina and found free from contagious diseases.

BROAD-LEAF EVERGREENS

This class of plant material is suited to the Piedmont section better than almost anything else, as you can have plants that are evergreen, and many of them bloom and berry, while some lend themselves to formal pruning. We are very fortunate in being privileged to live with such plants around us. They almost all stand shearing well.

Dug with ball of earth unless otherwise specified.
N. R. means that it will be handled naked rooted.

CONIFEROUS EVERGREENS

Some locations around the home grounds just seem to call for this type of plant, in some of its forms, either upright, medium or spreading growth. The varieties offered here are tried and true and will give good results when planted in suitable locations. Most of the sorts require almost full sun, though a few will do very well in partial shade.

THE CHINESE ARBORVITAE. *Biota*.

BIOTA is used here to designate the Chinese type of conifers, to clearly distinguish from the American *Arborvitae* family, listed under the name of *Thuja occidentalis* further on in this book.

***Biota aurea conspicua* ..GOLDSPIRE ARBORVITAE**

Bright golden foliage. A good grower and will make a large plant if unpruned.

102 Years Is A Long Time

The LINDLEY NURSERIES HAVE BEEN IN

Business Since 1842, and Within A Few Miles of the Original Location.

NOW STARTING WELL INTO THE SECOND CENTURY

A CONCERN HAS TO LIVE A CLEAN, HONORABLE LIFE

TO STAY IN BUSINESS THAT LONG!

Beginning in a small way in 1842, with a select list of fruit trees, it has grown till today there are more than five hundred acres in the nursery farm. Almost all types of trees and plants are now produced, as well as our doing extensive landscape work.

With our facilities and experience, we are in a position to handle your business along this line in a manner satisfactory to you, and shall be glad to hear from you. Write, telephone, call in person; we are here to serve you, and our representatives travel widely.

We are now building, we believe, the most modern warehouse, storage cellar, and office of any nursery in the South. See cut below. (Of course it will be landscaped when completed.)

FLOWERING AND ORNAMENTAL TREES

This list of trees has been gotten together after much effort and study, and we know you will find the descriptions interesting. We call your special attention to the comprehensive list of Flowering Crabs (*Malus*), in various sizes and varied descriptions.

Usually dug and handled without balling; where that is desired, double the prices.

LANDSCAPE DEPARTMENT: We are prepared to render you every help needed to make your place outstanding in appearance. Our landscape architects are men of training and experience, and know Southern plant material and what to do with it to get the best artistic results for you in improvement of your place. Not only do we offer plans and plants, but actually set the plants on your lawn within a reasonable distance. All at lowest cost possible for the class of work done.

FLOWERING SHRUBS

There is a multitude of ways that flowering shrubs may be used to advantage, as individual specimens, group plantings, hedges, etc. Shrubbery borders are now much more in vogue than formal clipped hedges; they can be so arranged as to give almost continuous bloom or berry the year 'round, thus adding interest to your home grounds. The descriptions are as plain and accurate as we know how to make them, but if you need advice, write us and our Landscape Department will help you decide what best to use.

These plants are dug and handled without balling; if balling is desired, double the price.

Spring fruiting sorts:

50 for \$3.00 100 for \$4.00 300 for \$12.00

Mastodon Everbearing. A consistent producer of good berries, particularly if given extra care, fertilization and cultivation.

50 for \$4.00 100 for \$6.00

THE BRAMBLES

After the plant has fruited in the spring, the old canes should be removed, cutting off at the ground, and burning. The canes that fruit another season will then come up and be ready to bear the following spring. When first planted, cut back to within 4 or 5 inches of the ground.

Quantities quoted are the smallest lots we can supply—not less than 10 of a variety.

BLACKBERRY PLANTS

Per 10, \$3.00; 25, \$6.00; 100, \$20.00

These require but little attention, producing good crops of fine berries. They are native to the Piedmont section, and will give excellent results with but little care except keeping the weeds and grass out, in addition to removing the old canes. No staking required.

Alfred. One of the best sorts; the berries are large and nearly coreless. Productive.

Eldorado. A strong, upright grower; large juicy berries.

BOYSENBERRY PLANTS

Per 10, \$3.50; 25, \$7.50

The berries are very large, delicious flavor. The plant is a very vigorous grower, and for this reason should be planted on medium to rather poor soil, well drained; tie up to a wire fence of about three strands, handling carefully. **Thornless type.**

RASPBERRY PLANTS

Per 10, \$3.00; 25, \$6.00; 100, \$20.00

More difficult to grow in Piedmont section, and of but little value in eastern section unless given special attention. The plants do much better if kept mulched. The soil must be good, and the deeper the better.

Cumberland is the standard black sort, and is a favorite where black raspberries are desired.

Latham is recommended as being one of the good ones; a thrifty grower, bright red berries.

Note. Not less than 10 of a kind sold in any one order
