THE NURSERY THAT HELPED MAKE
THE WENATCHEE VALLEY FAMOUS

NUMBER OF TREES OR PLANTS REQUIRED PER ACRE—HOW TO ESTIMATE

Rule—Divide 43560 (the number of square feet in an acre) by the number of square feet for each plant. The result is the number required for an acre.

Example—Trees 20x25 ft. apart; 20x25 equals 500 square feet; 43,560 divided by 500 equals 87 trees per acre.

If trees are planted on the equilateral triangular system, 15 per cent more trees will be required.

Usual Distances for Planting

Apple	25 to 35 feet apart
Pear	20 to 30 feet apart
Sweet Cherry	30 to 40 feet apart
Sour Cherry	} 20 to 25 feet apart
Plum	
Prune	
Apriicot	
Peach	
Grapes	7 to 10 feet apart
Currant	4 to 6 feet apart
Gooseberry	4 to 6 feet apart
Raspberry	3 to 4 ft. by 5 to 7 ft.
Blackberry	3 to 4 ft. by 5 to 7 ft.
Strawberry—Field culture, 1 to 1½ by 2½ to 3 ft. Garden culture, 1 to 2 ft.	

We recommend fall delivery of fruit trees whenever possible. The trees are then entirely dormant, while in the spring the dormant period is over, and the trees must be handled carefully and kept well protected. We do not recommend fall planting in regions where the winter is severe, but advise "healing in" the trees, and thus having them on hand for as early planting as may be desired. In healing in trees in the fall, dig a trench about one and one-half feet deep in loose, moist earth, throwing out earth on one side of the trench, then place roots well spread apart in the trench and lay tops of trees on an incline against the loose earth that has been removed from the trench. Cover roots and at least three-fourths of the tops with earth, packing it firmly about both. Mound up earth so that water from rain or melted snow will drain away. If the trees are handled in this manner they will come out in the spring in excellent condition.

500--1000	2¢	"

We thank our friends and customers for their patronage, and assure them that we were never better prepared to supply their requirements in nursery stock.

We are ever mindful of the fact that starting an orchard is a very serious business, and we spare no pains to grow the best. Important details of growing, digging, packing, delivering, the selection of scions and buds, are given the personal attention of an officer of our company. We have no ambition to have the largest nursery. We prefer quality and dependability, and compete with other nurseries on quality rather than on price basis. Experienced orchard planters consider price carefully, but place more emphasis on quality.

Our stock is free from insect pest or disease. Every shipment bears the inspection certificate of a Deputy State Inspector.

We stand back of every tree or plant, and customers always know where to find us. As to our responsibility, we refer you to any bank or other business establishment in Wenatchee. Correspondence solicited.

Instructions

1. We begin shipping in the fall about Oct. 25th, and in the spring about March 1st. In the spring our cool basement holds stock practically dormant into the month of May, when trees outside are in full leaf.

2. Any one not acquainted with the different varieties would do well to leave the selection to us, as we shall send only those best adapted to their particular locality.

3. We hold ourselves in readiness promptly to rectify any mistakes that may occur. Stock should be carefully examined and counted as soon as received. If anything is wrong, notify our office at once, stating what the trouble is, and do not plant until you hear from us.

We pay freight charges to customer's shipping point, and guarantee arrival in good condition

Fruit Department

All fruit trees listed in approximate order of ripening. For prices, where not given, see slip attached to inside of front cover.

Apples

SUMMER

- Liveland Raspberry—Earliest summer apple, pink blush, striped, white flesh.
 Yellow Transparent—Medium size, clear pale yellow, tart, good eating.
 Early Harvest—Medium size, pale yellow, fine flavor.
 Red Astrachan—Large, deep crimson, acid, juicy.
 Red June—Small, brilliant red, tart and juicy.

FALL

- Duchess—Large, streaked, juicy and sweet.
 Jeffries—Medium size, striped, juicy and sweet.
 Red Gravenstein—Large, bright red, excellent quality.
 Wealthy—Large, bright red, tart, very good.
 Wolf River—Very large, red, spicy, juicy.
 Wagner—Medium size, deep red, high flavor, juicy.
 Snow (Fameuse)—Medium size, deep crimson, tart, good eating.

WINTER

- Winter Banana—Large, yellow with blush, rich, tart flavor.
 Yellow Bellflower—Very large, yellow with blush, tart, juicy.
 Grimes Golden—Medium size, golden yellow, good flavor.
 King David—Medium, wine red, delicious flavor.
 McIntosh Red—Medium size, yellow with blush, rich, tart flavor.
 Jonathan—Medium size, red striped, rich flavor, very good.
 Delicious—Large, dark red, excellent dessert apple.
 "Richared" Delicious—Improved Delicious, see pages 7, 8, 9 and 10.. Write for booklet.
 Rhode Island Greening—Large, greenish yellow, juicy, excellent.
 Baldwin—Large, deep red, juicy, tart.
 Northern Spy—Large, yellow striped with red, rich and juicy.
 Golden Russett—Medium size, dull russett, juicy and highly flavored.
 King—Very large, yellow splashed with crimson, good in Western Washington.
 Rome Beauty—Large, yellow striped with red, fine, juicy.
 Red Rome Beauty—Darker color than Rome Beauty.
 Spitzenberg—Medium size, deep red, excellent flavor.
 White Winter Permain—Large, pale yellow, fine flavor.
 Newtown Pippin—Large, golden yellow, good quality.
 Arkansas Black—Large, dark red, fair flavor, long keeper.
 Stayman Winesap—Large, yellow splashed with red, tart, good quality.

We pay freight charges to customer's shipping point, and guarantee arrival in good condition

Mammoth Black Twig—Large, dark red, good keeper.

Winesap—Medium size, dark red, good keeper.
producer.

Black Ben—Medium size, deep red, productive.

Ben Davis—Yellow streaked red, productive and good keeper.

SPECIAL SORTS

	Each	Dozen
3 to 4 feet	\$1.00	\$10.00
4 to 6 feet	1.25	12.50
Spokane Beauty —Largest apple grown.		
Chelan —Wonderful golden winter apple. Long keeper.		

CRABAPPLES

Transcendent—Large, red and yellow striped, good eating and cooking.

Hyslop—Largest crab, deep red, good keeper.

Red Siberian—Large, Copper red.

Whitney No. 20—Large, glossy, striped with carmen, juicy pleasant flavor.

Yenow Siberian—Small, golden yellow.

Pears

Sugar—Small, sweet, good.

Clapp's Favorite—Large, resembles Bartlett, excellent flavor.

Bartlett—Large, golden yellow, juicy, buttery.

Flemish Beauty—Large, juicy, rich, heavy bearer.

Beurre d'Anjou—Large, yellow with blush, good keeper

Doyenne du Comice—Large, yellowish red, rich and juicy.

Seckle—Small, brownish green, highly flavored.

Beurre Bosc—Large, cinnamon russett, rich and juicy.
productive.

Keiffer—Large, golden yellow, blight resistant.

Idaho—Large, rich, yellow.

Beurre Easter—Large, yellow with red cheek, juicy and sweet.

Winter Nellis—Medium size, yellow covered with russett, very fine.

Winter Bartlett—Large, resembles Bartlett.

Old Home—Blight resistant, for top working.

Cherries

SWEET VARIETIES

Early Purple—Small to medium, purple, juicy and sweet.

Black Tartarian—Large, purplish black, juicy and rich, pollenizer.

Governor Wood—Yellow, pollenizer.

Royal Ann—Large, pale yellow with red cheek, firm, juicy and sweet. In demand by canneries.

Centennial—Large, yellow, good pollenizer.

Long Stem Waterhouse—Medium, resembles Royal Ann, pollenizer.

Bing—Large, black, fine flavor, good shipper.

We pay freight charges to customer's shipping point, and guarantee arrival in good condition

Black Republican—Large, shining black, good keeper and shipper, pollenizer.

Lambert—Large, dark purplish black, sweet, rich, fine flavor.

DUKES AND MORELLOS (Sour)

Early Richmond—Medium size, dark red, acid.

May Duke—Large, red, juicy and rich.

Montmorency—Large, red, "the kind the canneries want."

Late Duke—Large, light red, late and fine.

English Moreno—Large, dark red, rich, juicy, acid, good canner.

Cherry Pollenation

It is no longer a theory, but a recognized fact, that sweet cherries, especially Bing, Lambert, and Royal Ann require pollenation from other varieties. Plant every tenth tree with some such variety as Black Tartarian, Black Republican, Waterhouse, Governor Wood, Centennial. Proper pollenation has been known to double production.

Plums

Climax—Very large, heart-shaped, deep red, good shipper.

Shiro (Early Gold)—Very early, large, golden yellow, good.

Yellow Egg—Large, egg-shaped, yellow, good canner.

Burbank—Large, cherry red mottled with yellow, sweet, good shipper.

Maynard—Very large, nearly round, dull red, sweet.

Bradshaw—Large, dark red, flesh green, fine.

Simon—Shape and color like tomato.

Peach Plum—Very large, roundish, purple.

Damson—Small, roundish oval, dark purple, fine canner.

Imperial Gage—Small, round, greenish yellow, good canner.

Wickson—Large, dark red, sugary, fine shipper.

Satsuma—Large, nearly round, dark red flesh, small pit.

Opata, Sapa, Hanska, Compass—Hybrids, hardy, excellent flavors.

Prunes

Tragedy—Medium size, dark purple, very rich and sweet, fine shipper.

Sugar—Large, dark purple, fine drier, contains almost 24 per cent sugar.

Hungarian—Large, dark red, juicy and sweet, good shipper.

Petite (French)—Medium size, egg shaped, purple, very sweet and fine.

Double X French—Larger than Petite.

Silver—Very large, late, green

Italian—Medium size, oval, dark purple, sweet.

We pay freight charges to customer's shipping point, and guarantee arrival in good condition

Peaches

"F" denotes free-stone; "C" denotes cling-stone; "S. C." denotes semi-cling-stone.

May Flower S. C.—Red all over, white flesh.

Alexander C.—Medium size, greenish white with red blush.

Hales Early S. C.—Medium size, greenish white with red cheek.

Triumph F.—Large, dark orange yellow.

Arp. Beauty, F.—Large, yellow with blush, delicious.

Rochester F.—Hardy, good quality.

Foster F.—Large, yellow with red cheek.

Champion F.—Large, creamy with red cheek, very hardy.

Early Elberta F.—Large, golden yellow, fine shipper.

Early Crawford F.—Large, yellow, good quality.

Slappy F.—Large, deep yellow, good home canner.

Muir F.—Large, pale yellow, very firm, best for drying.

J. H. Hale F.—Very large, golden yellow, fine shipper.

Elberta F.—Very large, bright yellow, good shipper.

Late Crawford F.—Very large, yellow with dark red cheek, very good.

Tuscan Cling C.—Very large, earliest cling, commercial canner.

Heath Cling C.—Large, white flesh, canner.

Lemon Cling C.—Large, light yellow, rich vinous flavor.

Orange Cling C.—Large, yellow with red cheek, rich vinous flavor, fine shipper.

Miller Cling C.—Very large, excellent.

Indian Cling C.—Large, deep claret colored flesh.

Phillips Cling C.—Large, yellow, small pit, fine commercial canner.

Simmons F.—Large, firm, best late variety.

Salway F.—Large, yellow with red cheek, excellent.

Nectarines

Boston Red—Large size, deep yellow with bright blush, sweet.

New White—Large, white with blush, good quality.

Apricots

Gilbert—Medium size, very early, good quality.

Yakimene—A Japanese apricot. Large, early, handsome.

Wenatchee Moorpark—Very large, leading apricot of Wenatchee Valley.

Peach—Large, deep orange, highly flavored.

Royal—Medium size, dull yellow with orange cheek, good canner and drier.

Blenheim—Medium, oval, deep yellow, good canner.

Moorpark—Large, deep yellow blushed red, fine commercial variety.

Tilton—Medium, oval, fine flavor, fine for canning.

J. L. Budd—Russian, very hardy, delicious kernel.

We pay freight charges to customer's shipping point, and guarantee arrival in good condition

Quince

Champion—Large, flesh cooks very tender.

Orange—Large, roundish, bright yellow, old favorite.

Pineapple—Large, apple shaped, flavor resembles pineapple.

Grapes

AMERICAN VARIETIES (Hardy)

Concord (Black)—General favorite, hardy, productive.

Agawam (Red)—One of the best reds.

Campbells Early (Black)—Large, sweet, juicy, good.

Delaware (Red)—Small compact bunches, very sweet.

Niagara (White)—Good, called "White Concord."

Worden (Black)—Earlier and larger than Concord.

Moore's Early (Black)—Earlier than Concord, hardy.

Island Belle (Black)—Large, early, good west of Cascades.

Catawba (Red)—Large, the wine grape of Ohio.

EUROPEAN VARIETIES (Medium Hardy)

Black Hamburg (Black)—Large, a great favorite.

Muscat (White)—Muscat flavor, a raisin grape.

White Sweetwater (White)—Medium size, sweet, rich flavor.

Rose of Peru (Black)—Large bunch, firm flesh.

Thompson Seedless (White)—Small, sweet, seedless, good drier.

Malaga (White)—Very large bunches, good shipper.

Flame Tokay (Red)—Large, favorite.

Zinfandel (Black)—For making claret.

Feyer Zagos (White)—Fine for sherry.

Nut Trees

Almonds

I. X. L.—Large, soft shell, bears heavily.

Nonpareil—Large, thin shell, one of the best.

	Each	Dozen
Black Walnut—3 to 4 feet	\$1.25	\$12.50

All Red & "August Color" Still Green

Reproduced from Fruit and Photograph

This is not a picture of two mature Delicious Apples, but shows the contrast between a "Richared" and an ordinary Delicious, both picked same day, same orchard, from adjoining trees in late August.

While "Richared" Delicious colors solid red (no stripes) weeks earlier than common (striped) Delicious, and can be picked while "hard ripe," it is identical with the common Delicious in shape, size, texture, flavor and ripening period.

Do not confuse this "Wonder" apple with other so called Red Delicious. This is the original and only "Richared" Delicious, the Apple Supreme, and was discovered, tested and introduced by us.

COLUMBIA & OKANOGAN NURSERY COMPANY

Office in Plough Building

(C. & O.)

WENATCHEE, WASHINGTON

Plant for Profit, Make Your Orchard Pay Every Year

You can do it with Richared Delicious.

Ever since the original Delicious was placed on the market, the fruit has brought top prices, every season. When other apples sold at a loss to the grower the Delicious always brought a good price, that is if the fruit was in good condition. Think what it means to now get an apple with all the good qualities of the old Delicious and in addition get all the added color and an apple that can be picked earlier and one that will stay in prime condition so much longer. Those who plant now are sure to be rewarded with wonderful profits.

Lewis Richardson, at right (owner of original "Richared" Delicious tree) and O. T. Clawson, former president, Washington State Horticultural Association, now field man with American Fruit Growers, inspecting apples on third generation "Richared" Delicious tree.

Berries

Blackberries

- Evergreen—Large, delicious, bears from July to November.
 Lawton—Well known market variety.
 Mercereau—Exceedingly hardy.
 Mammoth—Rampant grower, trailing on ground, large.
 Himalaya Giant—Vigorous grower, must be trained on trellis.
 Snyder—Very hardy, an old favorite.
 Rathbun—Strong, erect grower, compact bush, good.
 Thornless—No thorns, good quality.

Raspberries

- Cumberland (Black Cap)—Very large, one of the best.
 Gregg (Black Cap)—Good, old favorite.
 Kansas (Black Cap)—Very hardy, good quality.
 Cuthbert (Red)—Standard market variety.
 Loudan (Red)—Mid-season, large fruit, good.
 Columbian (Purple Cap)—Dark red, unexcelled for canning, jelly, jam.
 St. Regis (Red)—Bears continuously, fine quality.

Loganberry

- Loganberry—Transplants, very large fruit, strong grower, trailing vines.

Dewberry

- Lucretia—Low growing, trailing, very large.

Gooseberry

- Josslyn—Red.
 Oregon Champion—Large, best commercial variety, free from mildew.
 Pearl—Medium size, productive, hardy.

Currants

- Cherry—Red, large, good.
 London Market—Dark red, hardy.
 White Grape—Golden green, large.
 Victoria Red (English)—Pale red, large.
 Perfection—Finest and largest known.

Strawberries

(For spring delivery only)

25 per cent with order, balance C. O. D., express or parcel post. No order accepted for less than 25 of a variety.

We pay freight charges to customer's shipping point, and guarantee arrival in good condition

STANDARD VARIETIES

Clark Seedling (Hood River)—Large, firm, good shipper.
 Magoon—Hardy, good.
 Marshall—Large, good canner.
 Premier—Early, good quality, productive.

Shade and Ornamental Trees

You have often noticed that some home looked unusually inviting and pleasing. Had you analysed the cause, you would no doubt have found that there was an effective planting of shrubs to "half conceal, half reveal" the house. It is not difficult or mysterious knowledge which enables the landscape artist to completely change the appearance of a home. The house must, of course, be in the focus of the picture. It can be made to blend gracefully with its surroundings by planting dwarf shrubs around the foundation, breaking the sharp angles and corners. The monotony may be relieved by planting higher shrubs between the windows and using shrubs which flower at different times. Even a small lawn may be made very attractive by leaving the lawn itself clean, but massing shrubbery around the border. Eyesores may be covered with vines or climbing roses, or screened by tall bushes. Send for our free illustrated booklet.

CHOICE TWO-YEAR-OLD FIELD GROWN ROSES

Not Hothouse Grown

Our large field-grown rose bushes should not be compared with small, tender hothouse plants offered by the mail-order houses at low prices. Such plants are always disappointing, not blooming until the second season.

Our bushes are hardy, field-grown, well rooted, and will bloom the first season.

Prices: All varieties not specially priced, 75c each; \$7.50 per dozen.

HYBRID PERPETUAL (Very Hardy)

American Beauty (red)
 Captain Hayward (bright scarlet)
 Frau Karl Druschki (Snow Queen) (white).

PANORAMIC VIEW OF NURSERY

Windbreaks

Too many farm yards in the grain-growing and stock-raising districts of the Northwest are without windbreaks.

In the states east of the Rocky Mountains a tree windbreak has long been recognized as a necessary protection and but few farms are without them. They not only furnish protection and shelter from severe winds, but give shade to the family, live stock and poultry during the hot summer weather.

Many farmers have the mistaken idea that windbreak trees cannot be grown in the drier regions, but it is a proven fact that certain varieties can be grown wherever farming can be carried on. A little care in planting, followed by frequent cultivation during the first season is all that is required. Where rainfall is very light, Black Locust, Russian Mulberry and Box Elder do well. Where moisture is more plentiful, in addition to the above mentioned varieties, plant Carolina Poplar, Lombardy Poplar and Silver Maple. All of the above varieties are rapid growers and hardy.

500 trees take 5 per cent discount from 100 rate

1000 trees take 10 per cent discount from 100 rate

Ask for special prices on larger quantities

The quantity rate applies on total number of trees of a class, not in total number ordered of different classes. Example: 6 Apple, 4 Peach, 2 Pear, do not take "dozen" rate, but "each" rate; or 50 Apple, 50 Pear, take "50" rate and not "100" rate.

However all trees in an order take same rate as highest number of any one item. Example, 12 apple, 2 cherry, 1 peach, the peach and cherry take dozen rate same as the apple, or 100 Pear, 2 Cherry, 1 Peach, the Cherry and Peach take 100 rate same as the Pear.
