FALL SEASON 1946 -- SPRING 1947

Columbia & Okanogan

NURSERY COMPANY

("The Wenatchee Nurseries")

WENATCHEE, WASHINGTON

400 ACRES -- ESTABLISHED 1906

CEDAR RIVER PARK HOUSING PROJECT

Located at Renton, Washington

Landscaped by Columbia & Okanogan Nursery Co.

Our **FRUIT TREES** are propagated from carefully selected, vigorous and healthy stock.

We are working with both the Federal and Washington State Departments of Horticulture in the selection of trees from which bud wood is obtained to assure you of the very best productive healthy stock.

41 YRS. of GROWING DEPENDABLE NURSERY STOCK

PLEASE Read Carefully !!

GENERAL INFORMATION

Shipping Season — Our shipping season begins about October 25th and continues until late spring. Where planting conditions are favorable, and if customers request, we can make shipments in mid-winter.

Planting Instructions — Planting instructions are given on the back of a shipping tag attached to every box or bale. **BE SURE TO FOLLOW THEM.**

WE PAY FREIGHT AND SHIPPING CHARGES (Except As Noted)

We pay freight charges (except on Evergreens and certain other items as specified in our price list) to any shipping point within the United States on shipments that weigh 100 pounds or over.

Small shipments \$5.00 or over we pay express or mail charges (except Evergreens and other items noted) to points in the Pacific Northwest, and one-half the Express or Mail charges to points elsewhere in the United States.

PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

Sales Tax — If you live in the State of Washington, add 3 per cent Sales Tax on all Flowering Shrubs, Roses, Evergreens, Shade Trees, or other Landscape Material. No tax on Fruit Trees.

NUMBER OF TREES OR PLANTS REQUIRED PER ACRE — HOW TO ESTIMATE

Rule — Divide 43,560 (the number of square feet in an acre) by the number of square feet for each plant. The result is the number of trees or plants required for an acre.

Example — (Square system) Trees 20 by 25 feet apart: Multiply 20 by 25, equals 500 square feet; 43,560 divided by 500, equals 87 trees per acre.

If trees are planted on the Triangular system, 15 per cent more than for the Square system will be required.

Strawberries — Field culture: 1 to 1½ by 2½ to 3½ feet. Garden culture: 1 to 2 feet.

USUAL DISTANCES FOR PLANTING

Apple	25 to 35 feet apart
Pear	20 to 35 feet apart
Sweet Cherry	25 to 40 feet apart
Sour Cherry	} 16 to 24 feet apart
Plum	
Prune	
Apricot	
Peach

Loganberries	
Youngberries	

GUARANTEE

WE GUARANTEE all nursery stock sold by us to be true to name, otherwise we will replace free or refund the purchase price, at the option of the purchaser.

We guarantee all stock to be free from insect pests or plant disease.

We guarantee all nursery stock shipped by us to be of first quality and in good, live, growing condition

Our stock is carefully handled, has good vitality, and under ordinary conditions will grow.

Any complaint about failure to start growth must be made in writing, direct to our office, within thirty days after planting.

**TRADEMARKED and PLANT PATENTED VARIETIES
5c PER TREE HIGHER THAN ABOVE**

This applies to some varieties of Apples listed on Page 2, Riland Apricots Page 3 and some varieties of Peaches listed on Page 5. Cherries priced on Page 4.

APPLES

APPLES (Common Varieties)

For our better Trade-Marked and Plant-Patented

varieties of Apples, see Page 2.

Varieties marked with an asterisk (*), do
well west of the Cascade mountains.

All fruit trees listed in order of ripening.

SUMMER VARIETIES

- *Crimson Beauty — Very best early apple. Ripens week earlier than Yellow Transparent—has sold for double the price; flaming red, good quality and size. TREE very hardy, vigorous, bears young, produces heavy annual crop.
- *Yellow Transparent—Medium, clear pale yellow, waxy, tart, unexcelled for apple sauce.
- *Lodi—An improved Yellow Transparent that bears every year.
- *Early Harvest — Medium, pale yellow, fine flavor, dessert and cooking.
- Red June (Wilson's) — Medium, brilliant red, tart and juicy.

FALL VARIETIES

- *Red Duchess — Bud sport of Duchess, dark red, more color than Duchess, stands up well when baked.
- *Red Gravenstein — Large, bright red, excellent quality, originated as a bud sport from common Gravenstein.
- *Gravenstein — Large, yellow striped red, tender, juicy, highly flavored.
- *Wealthy — Large, bright red, tart, very good.
- Snow (Fauces) — Medium to small, deep red striped, tart, good dessert.

WINTER VARIETIES

- *Winter Banana — Large, clear waxy yellow with blush, tart flavor, good cooking.
- *McIntosh Red — Large, bright red, striped, white flesh, excellent, very aromatic, dessert and cooking. Good pollenizer for Richared, Shotwell, common Delicious.
- Jonathan — Medium, red striped, rich flavor, unexcelled for pies, good dessert.
- Spokane Beauty — Largest apple grown.

BE SURE TO FOLLOW PLANTING INSTRUCTIONS—

Most stock that fails to grow is lost from improper planting and lack of care.

APPLES — (Continued)

For Prices See Page 1

Delicious (Red or Common) — Large, red, striped, excellent flavor, fragrant aroma, fine eating, best for salads.

***Northern Spy** — Large, yellow striped with red, rich and juicy. Old favorite in north and New England.

Golden Russet — Medium, dull russet, juicy and highly flavored.

***King** — Very large, yellow, splashed with crimson, excellent dessert, good baker.

Rome Beauty — Large, yellow, striped with red, fine, juicy, unexcelled for baking.

Chelan — Large, golden, winter apple, excellent dessert and cooking, long keeper.

Spitzenberg — Medium to large, deep red, excellent flavor, an old favorite.

White Winter Pearmain — Large, pale yellow, fine flavor.

Newtown Pippin (Yellow Newtown) — Medium to large, light yellow, excellent for both dessert and cooking.

Stayman Winesap — Large, striped and splashed with dark crimson, splendid quality, heavy bearer.

Winesap (Common) — Medium, dark red, good keeper and producer.

*Trade Marked & Plant Patented Varieties

Prices on any of these varieties 5c per tree higher than for regular varieties. See prices on Page 1.

*SeeandO Red Rome—Trade Mark Reg.

*SeeandO Winesap—Trade Mark Reg.

Richared Delicious—Trade Mark Reg.

Shotwell Delicious—Plant Pat. No. 90

Blackjon—Trade Mark Reg.

Blaxtayman—Trade Mark Reg.

Blackmack—Trade Mark Reg.

***Blackmack (T. M. Reg.)** — Sport of McIntosh Red and a more profitable variety.

Blackjon (T. M. Reg.) — A bud sport or mutation of Jonathan, earlier and more color, deep red.

Richared (T. M. Reg.) Delicious — Probably the best known bud sport or mutation of the Delicious.

***Shotwell Delicious (U. S. Plant Pat. No. 90)** — Another improved Delicious; colors earlier and darker than Richared.

***Yellow Delicious** — Resembles Grimes Golden somewhat in shape, color and quality. Excellent cooker, fine dessert. 5 cents per tree extra.

SeeandO (T. M. Reg.) Red Rome — Darker color than Rome Beauty. Nearly all color Extra Fancy grade.

Blaxtayman (T.M. Reg.) — New all-red Stayman Winesap.

SeeandO (T. M. Reg.) Winesap — An improved all-red Winesap.

CRAB APPLES

***Transcendent** — Large, red and yellow striped, good eating and cooking.

***Hyslop** — Large, dark red, or purplish, good keeper.

***Whitney No. 20** — Large, glossy, striped with carmine, juicy, pleasant flavor.

FOLLOW PLANTING INSTRUCTIONS CAREFULLY

PEARS

For Prices See Page 1

Varieties marked with an asterisk (*) do well west of the Cascade mountains in Washington and Oregon. Pears are listed in their order of ripening.

- *Sugar — Small, light yellow, sweet, good.
- *Bartlett — Large, clear yellow, sometimes slightly blushed, occasionally flecked with russet. Juicy, buttery, dessert, cooking and canning.
- *Flemish Beauty — Large, green to yellow, red cheeked, juicy, rich, very productive.
- Gorham — Of Bartlett type, same high quality and attractive appearance. Ripens two weeks later than Bartlett, keeps month longer. Good quality, rich flavor, good canner.
- Beurre D'Anjou ("Anjou")—A firm pear, rather large, flesh yellowish white, rich buttery flavor, good keeper. One of the leading commercial pears.
- Cayuga — Average large as Bartlett with delectable flavor, shape and color of Seckel.
- *Doyenne Du Comice — Large, yellowish red, rich, juicy.
- *Seckel — Small, brownish green, red cheek, sweet, juicy, excellent.
- *Burr Bosc — Large, cinnamon russet, long neck, juicy, excellent.
- *Kieffer — Large, golden yellow, hardy, blight resistant. Vigorous and fruitful.
- *Winter Nellis — Medium size, yellow covered with russet, very fine, good producer.
- *Old Home — Blight resistant; good for top working to other varieties.

APRICOTS

For Prices See Page 1

- Yakimene (Acme) — A Japanese apricot. Large, early, handsome, distinctive flavor. Excellent dessert.
- Riland (U. S. Plant Pat. No. 74)—Discovered and introduced by "C. & O". The earliest commercial apricot. Excellent shipper, good canner; brings top prices. Takes on beautiful red color, very attractive. Price on Riland apricots 5c per tree higher than regular varieties. See Page 1.
- Perfection—Very large. Ripens same time as Wenatchee. Promising new variety.
- Phelps—Largest cot grown, ripens week ahead of Wenatchee, good shipper.

(For Other Varieties of Apricots

See Next Page)

GIVE YOUR TREES PROPER CARE AFTER PLANTING

APRICOTS (continued)

- SUN GLO**—(Trade Mark Reg., Plant Pat. applied for) Our newest C. & O. introduction. Large, fine quality Apricot Beautiful glossy finish. Fine shipper, bears heavily. Prices on Sun Glo 5c per tree higher than other varieties.—See Page 1.
- Wenatchee** — Very large: leading apricot of Wenatchee valley, Washington. Very productive — a desert apricot. (Formerly called Wenatchee Moorpark.)
- Royal** — Medium size — dull yellow with orange cheek — good canner and dryer.
- Blenheim** — Medium size, oval, deep yellow. Good canner — productive — excellent quality.
- Tilton** — Larger than Blenheim, oval — fine flavor. Considered one of the best commercial canners.
- Moorpark** — Large, but not as large as Wenatchee — deep yellow blushed with red. A standard variety — good canner.
- J. L. Budd** — A small Russian apricot — very hardy, will grow where other apricots fail. Delicious kernel.

CHERRIES

SWEET CHERRIES

SIZES—	Each	25 lots	50 or more
3 to 4 foot	\$1.25	\$1.10	\$1.00
4 to 6 foot	1.40	1.25	1.10
{ 5 to 7 foot	1.65	1.40	1.25
{ Extra Select Grade			

- Black Tartarian** — Large, purplish black, juicy and rich, certified pollenizer.
- Royal Ann** — Large, pale yellow with red cheek, firm juicy and sweet. In demand by canneries.
- Centennial** — Large, yellow, certified pollenizer.
- Deacon** — Black, resembles Bing, not quite as large, very resistant to cracking. Certified pollenizer.
- Bing** — Large, black, fine flavor, good shipper.
- Black Republican** — Large, shining black, good keeper and shipper, certified pollenizer.
- Lambert** — Large, dark purplish black, sweet, rich, fine flavor.

SOUR CHERRIES

Same prices as Sweet Cherries but sizes 3 ft. up, 3½ to 5, and 4 to 6 ft. (Extra select).

- Early Richmond** — Medium size, dark red, acid.
- May Duke** — Large, red, juicy and rich.
- Montmorency**—Large, red, “the kind the canneries want.”
- Late Duke** — Large, light red, late and fine.
- English Morello** — Large, dark red, rich, juicy, acid, good canner.

PEACHES

For Prices See Page 1

Varieties listed in order of ripening. "F" denotes freestone; "C" clingstone; "S. C." semi - cling.

Trade Marked & Plant Patented Varieties

Candoka -- Plant Patent No. 51.
 Herb Hale — Plant Patent No. 588.
 Redelberta -- Plant Patent No. 232.
 Rio Oso Gem — Plant Patent No. 84.
 Early Rochester — Plant Patent No. 351.

Price 5c per tree higher than regular varieties. See Page 1.

-
-
- *May Flower, S. C. — Earliest of all peaches, medium, red, white flesh.
 - *Early Rochester (U. S. Plant Patent No. 351) F.—New development from the famous Rochester; ripens approximately three weeks earlier. Has all characteristics of Rochester in fruit, size and tree, but much earlier. Available for profitable early markets.
 - *Red Haven, F.—New. Highly colored, good quality, yellow flesh, freestone. Ripens month ahead of Elberta.
 - *Golden Jubilee, F.—Early, good yellow freestone.
 - *Triumph, F.—Large, dark orange yellow.
 - *Rochester, F.—Very hardy, thrifty grower. Medium size, deep yellow and red, excellent quality. Especially good west of the Cascade mountains.
 - *Herb Hale (U. S. Plant Patent No. 588)
 F. — New, early shipping peach of outstanding quality. Originated in H. W. Donahey orchard, Yakima valley. Large size, excellent quality, yellow meated, free-stone, ripens right after Rochester.
 - Valiant, F.—Resembles Elberta but more globular in shape and of better quality. Considered best canner in Ontario, Canada.
 - Slappy, F.—Large, deep yellow—excellent home canner.
 - Early Crawford, F.—Large, yellow — good quality. A good home garden peach.
 - *Champion, F.—White-fleshed peach. Firm, sweet, delicious flavor. Tree hardy, and good bearer.
 - Hale Haven, F. — Promising commercial possibilities; earliness, excellence of fruit, good shipping and bearing qualities, vigorous tree growth, resistance to low temperatures.
 - *Veteran, F.—Elberta type peach. Tree vigorous grower early production.
 - Redelberta (U. S. Plant Pat. No. 232) F.—A bud sport of the Elberta. A true Elberta in all respects except that it matures about 10 days earlier and has double the red color.

PEACHES — (Continued)

- Early Elberta, F.**—Also known as Improved Elberta—Large golden yellow. Excellent quality, good shipper and commercial canner.
- Elberta, F.**—Very large, bright yellow—good shipper.
- J. H. Hale, F.**—Very large, golden yellow—fine shipper. The commercial peach by which all other peaches are measured for standards of excellency.
- Candoka (U. S. Plant Pat. No. 51) F.**—The “fuzzless” peach. Most beautiful peach grown, very large.
- Late Crawford, F.**—Very large, yellow with dark red cheek.
- Indian Blood, C.**—Large, red flesh, ideal for pickling and preserving.
- Miller (Orange) Cling, C.**—Large, good flavor, excellent for home canning.
- Rio Oso Gem, F. (U. S. Plant Pat. No. 84)** — Best late variety. Profitable commercial variety.
- October Krummel, F.**—Large size, deep yellow, colored carmine. One of the very latest ripening varieties.

PLUMS

For Prices See Page 1

Asterisk (*) denotes varieties which do well west of the Cascade mountains.

Varities listed in order of ripening

- Beauty** — Similar in quality and appearance to Climax, two weeks earlier. Excellent pollenizer for Santa Rosa.
- Climax** — Very large, heart-shaped, deep red, good shipper.
- Shiro (Early Gold)** — Very early, large, golden yellow, good quality. A Burbank introduction.
- *Yellow Egg** — Large, egg-shaped, yellow, good canner.
- Burbank** — Large, cherry red, mottled with yellow, sweet, good shipper.
- Maynard** — Very large, nearly round, dull red, sweet.
- Santa Rosa** — One of the largest, most beautiful, of all cling plums. Dark crimson, almost round, excellent shipper.
- Limonii** — Shape and color like tomato.
- *Yakima** — Very large, egg-shaped, red, good shipper.
- *Peach Plum** — Very large, roundish, purple. Excellent for eating fresh.
- Wild Plum** — This is the popular old wild plum native to the Mid-West and East. Round, bright red. Famous for jams and plum butter.
- *Damson** — Small, roundish oval, dark purple, fine canner.
- *Imperial Gage** — Small, round, greenish yellow, good canner.
- President** — Late ripening shipping variety, popular and profitable. Fruit large, dark blue, flesh yellow.
- Onarte** — Japanese blood plum, juicy, sweet, red flesh, earlier, hardier and better than Satsuma.
- Satsuma** — Large, nearly round, dark red flesh, small pit.

**PROPERLY PLANTED and CARED FOR STOCK WILL
MAKE SATISFACTORY GROWTH**

PRUNES

For Prices See Page 1

Asterisk (*) denotes varieties which do well west of the Cascade mountains.

Varities listed in order of ripening.

- *Early Italian — Resembles Italian, slightly larger and sweeter. Two weeks earlier. Good commercial variety. Origin: A bud sport of the Italian.
- *Sugar — Very large, oval, dark purple, tender, sweet; particularly fine for home drying and canning. Contains almost 24 per cent sugar.
- *Hungarian — Very large, dark red, juicy and sweet. Its bright color, productiveness and shipping qualities make it profitable for home or market.
- *Double X French — Larger than Petite, just as sweet. Bud sport of Petite.
- Italian — Medium size, oval tapering at both ends; dark purple, flesh greenish yellow; separates freely from pit; excellent for eating fresh, and the best for drying.

NECTARINES

For Prices See Page 1

The tree of the Nectarine to all appearances can be called a peach tree. In growth, habit, and soils required it is similar to the peach. The fruit differs from the peach in that the skin is smooth, and the rich, aromatic flesh has a flavor all its own. The Nectarine is an exceedingly delicious dessert fruit.

- Boston Red — Large size — deep yellow with bright blush, sweet.
- Quetta — Large, yellow green, rich, delightful aroma, excellent quality.
- *Sure Crop F. — New. From New Zealand. Firm flesh, large, pleasing flavor, freestone. White skin with attractive red coloring.

QUINCES

For Prices See Page 1

- Orange — Large, roundish, bright yellow, an old favorite, finest quality.
- Pineapple — Very large, apple-shaped, flavor resembles pineapple, delightfully fragrant when fresh and delicious when cooked.

SEE THAT STOCK IS PROPERLY WATERED AND
CULTIVATED—IT WILL PAY

NUT TREES

The undersigned agrees in case of disposition of the property on which any of the above trees are planted, or scions or buds set, to make this agreement a condition of transfer. The above agreement also applies to any other of above trees, scions or buds that may be furnished in the future to the undersigned by the Columbia & Okanogan Nursery Company.

PLANT PATENT NOTICE—Under the United States plant patent law reproduction of patented varieties is prohibited . . . either for personal use, or for sale, except by license or consent of the Plant Patent owner.

Any unauthorized reproduction, sale, or distribution of reproducing propagating material of patented varieties is prohibited by the patent under the variety name or trade mark, or under any other name or names, and will subject the reproducer, seller, or distributor thereof to prosecution for infringement under the United States patent laws.

CONDITIONS OF SALE

I agree to call or send for the stock purchased herein at which time it is to be in good condition and I agree to receive shipment promptly on being notified of its arrival, after which time it will be at purchaser's risk. If through want of stock, any part of this order cannot be filled, this contract holds good for whatever part may be delivered, the price of omitted articles to be deducted from amount of bill. If any unavoidable cause prevents Fall Delivery of Fall orders, this contract to hold good for the delivery of this order the following Spring. Non-delivery of stock is excused in case of fire, frost, floods, drouth, strikes, shortage of nursery stock or other causes beyond the seller's control.

Upon receipt of stock, I will inspect it carefully and if it is not satisfactory, I will notify the Nursery office, and not the agent, immediately and will not plant it until I hear from the Nursery. If stock does not grow satisfactorily, I will notify the Nursery office, and not the agent, within thirty days after planting except on Fall delivery orders complaint must be made by April 15 following delivery. The Nursery assumes no responsibility unless any complaints are received as specified above. It is mutually agreed that in case any stock sold on this order prove untrue to name, the Nursery shall either refund the purchase price or replace free, at the option of the purchaser and shall in no case be held further responsible.

In case suit is brought to collect for this purchase or any portion thereof it is agreed that at the option of the nursery the venue of said suit may be laid in Chelan County, Washington. Interest rate of 8% charged on any unpaid balance.

It is agreed that the entire contract is written and printed herein and no agreement or outside bargain by the salesman shall in any way affect this contract.

PURCHASE AGREEMENT FOR TRADE MARKED OR PATENTED VARIETIES

The following agreement between the undersigned and the Columbia & Okanogan Nursery company refers to the purchase by the undersigned of

Trademark Registered:	}	Shotwell Delicious (U.S. Plant Pat. No. 90)
Richard Delicious Apple		Candoka Peach (U.S. Plant Pat. No. 51)
Blackjon Apple		Rio Oso Gem Peach (U.S. Plant Pat. No. 89)
Blaxtayman Apple		HerbHale Peach (U.S. Plant Pat. No. 588)
SeeandO Winesap Apple		Redelberta Peach (T.M.Reg.) (U.S. Pat. 232)
SeeandO Red Rome Apple		Early Rochester Peach (T.M.Reg.) (U. S. Plant Pat. No. 351)
Blackmack Apple		Riland Apricot (U.S. Plant Pat. No. 74)
SeeandO English Walnut		

If order contains any of above trees, scions, or buds, the following agreement becomes a part of the terms and conditions of sale applying to this order. In consideration of the agreement of the undersigned not to give away or sell or permit any one else to give away or take any of the above (trees) (scions) (buds) or any cuttings therefrom or any progeny thereof, and the further consideration specified on the reverse of this order, the Columbia & Okanogan Nursery Company agrees to furnish varieties herein referred to. The undersigned agrees in case of disposition of the property on which any of the above trees are planted, or scions or buds set, to make this agreement a condition of transfer. The above agreement also applies to any other of above trees, scions or buds that may be furnished in the future to the undersigned by the Columbia & Okanogan Nursery Company.

WENATCHEE, WASHINGTON

"THE WENATCHEE NURSERIES"

WASHINGTON'S OLDEST...LARGEST NURSERY

Columbia & Kanogan

NURSERY COMPANY

("The Wenatchee Nurseries")

2nd and Mission Sts.,

Phone 294

WENATCHEE, WASHINGTON

ESTABLISHED IN 1906

Owners and Management of "C & O"

W. D. Plough and J. A. Snyder have been with the C & O for a combined total of 56 years.

Some of Our Large Plantings

of ornamentals, shade trees and lawns include Grand Coulee Dam, the world's largest man-made structure, Farragut Naval station, Farragut, Idaho, Washington State Capitol, at Olympia, government housing projects at Bremerton, Seattle and Renton, Washington.

We Grow Lots of Fruit

in connection with our nursery we operate more than 100 acres and this season (1946) we will ship from these orchards many tons of choice fruit, including Riland Apricots, Bing and Lambert Cherries, Redelberta, Candoka and Herb Hale Peaches—500 tons of Bartlett and early bearing Anjou Pears—5,000 boxes of Blackjon Apples, 10,000 boxes of Richared and Shotwell Delicious Apples, also SeeandO Red Romes, SeeandO Winesap and many other varieties.

An Ideal Climate for Nursery Stock

is found in the fertile Wenatchee valley, where stock grows rapidly. The warm, dry summers, together with controlled irrigation and moderately cold winters, combine to make an unsurpassed finished product. Many Eastern Nurseries know this and have a large part of their stock grown in the state of Washington.

"C & O" Orchards from Coast to Coast

We grow thousands of fruit trees for planters from California to Maine, and some of the country's largest orchards are "C & O" grown. You will be pleased with our Northern grown hardy stock.
