NURSERY COMPANY

"The Wenatchee Nurseries"

WENATCHEE, WASHINGTON

Renton, Washington. Landscaped by C & O. mpany during 1943, housing about 12,500 persons.

PRICE LIST -- 1943

Fall Season

Established 1906 --- 300 Acres in Cultivation

Fruit, Shade and Ornamental Trees, Flowering Shrubs,
Roses, Vines, Evergreens, Small Fruits, Etc.

C & O orchards have produced enough fruit
in the past 38 years to feed the entire world.

GENERAL INFORMATION

Shipping Season — Our shipping season begins about October 25th and continues until late spring. Where planting conditions are favorable, and if customers request, we can make shipments in mid-winter.

Planting Instructions — Planting instructions are given on the back of a shipping tag attached to every box or bale.

Parcel Post Shipments — It is sometimes necessary to cut back tops of trees to comply with parcel post regulations for maximum measurement of parcels. This does not injure the trees, as tops should be pruned back when planting.

WE PAY FREIGHT AND SHIPPING CHARGES (Except As Noted)

We pay freight charges (except on Evergreens and certain other items as specified in our price list) to any shipping point within the United States.

Small shipments \$3.00 or over we pay express or mail charges (except Evergreens and other items noted) to points in the Pacific Northwest, and one-half the Express or Mail charges to points elsewhere in the United States.

PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

Sales Tax — If you live in the State of Washington, add 3 per cent Sales Tax on all Flowering Shrubs, Roses, Evergreens, Shade Trees, or other Landscape Material. No tax on Fruit Trees.

NUMBER OF TREES OR PLANTS REQUIRED PER ACRE — HOW TO ESTIMATE

Rule — Divide 43,560 (the number of square feet in an acre) by the number of square feet for each plant. The result is the number of trees or plants required for an acre.

Example — (Square system) Trees 20 by 25 feet apart: Multiply 20 by 25, equals 500 square feet; 43,560 divided by 500, equals 87 trees per acre.

If trees are planted on the Triangular system, 15 per cent more than for the Square system will be required.

Strawberries — Field culture: 1 to 1½ by 2½ to 3½ feet. Garden culture: 1 to 2 feet.

USUAL DISTANCES FOR PLANTING

Apple 25 to 35 feet apart
Pear 20 to 35 feet apart
Sweet Cherry 25 to 40 feet apart

Sour Cherry
Plum
Prune
Apricot
Peach
} 16 to 24 feet apart

Grapes 7 to 10 feet apart
Currants 4 to 6 feet apart
Gooseberries 4 to 6 feet apart
Raspberries 3 to 4 ft. x 5 to 7 ft.
Blackberries 3 to 4 ft. x 5 to 7 ft.

Boysenberries
Loganberries
Youngberries
} 7 x 7 or 7 x 8 ft.

GUARANTEE

WE GUARANTEE all nursery stock sold by us to be true to name, otherwise we will replace free or refund the purchase price, at the option of the purchaser.

We guarantee all stock to be free from insect pests or plant disease.

We guarantee all nursery stock shipped by us to be of first quality and in good, live, growing condition when it reaches you.

Our stock is carefully handled, has good vitality, and under ordinary conditions will grow. However, any complaint about failure to start growth must be made in writing, direct to our office, within thirty days after planting.

APPLES

APPLES (Common Varieties)

For our better Trade-Marked and Plant-Patented varieties of Apples, see Page 2.

Size —	Each	Dozen Lots Each	25 Lots Each	50 or More Lots Each
3 to 4 foot.....	\$.95	\$.85	\$.75	\$.65
4 to 6 foot.....	1.00	.90	.80	.70
{ 5 to 7 foot.....	1.10	.95	.85	.75
{ Extra Select Grade				

Varieties marked with an asterisk (*), do well west of the Cascade mountains.

All fruit trees listed in order of ripening.

SUMMER VARIETIES

- *Crimson Beauty — Very best early apple. Ripens week earlier than Yellow Transparent — has sold for double the price; flaming red, good quality and size. TREE very hardy, vigorous, bears young, produces heavy annual crop.
- *Yellow Transparent — Medium, clear pale yellow, waxy, tart, unexcelled for apple sauce.
- *Early Harvest — Medium, pale yellow, fine flavor, dessert and cooking.
- Red June (Wilson's) — Medium, brilliant red, tart and juicy.

FALL VARIETIES

- *Red Duchess — Bud sport of Duchess, dark red, more color than Duchess, stands up well when baked.
- *Red Gravenstein — Large, bright red, excellent quality, originated as a bud sport from common Gravenstein.
- *Gravenstein — Large, yellow striped red, tender, juicy, highly flavored.
- *Wealthy — Large, bright red, tart, very good.
- Snow (Famense) — Medium to small, deep red striped, tart, good dessert.
- *Winter Banana — Large, clear waxy yellow with blush, tart flavor, good cooking.
- *McIntosh Red — Large, bright red, striped, white flesh, excellent, very aromatic, dessert and cooking. Good pollenizer for Richared, Shotwell, common Delicious.
- Jonathan — Medium, red striped, rich flavor, unexcelled for pies, good dessert.
- Delicious (Red or Common) — Large, red, striped, excellent flavor, fragrant aroma, fine eating, best for salads.
- Spokane Beauty — Largest apple grown.
- *Northern Spy — Large, yellow striped with red, rich and juicy. Old favorite in north and New England.
- Golden Russet — Medium, dull russet, juicy and highly flavored.
- *King — Very large, yellow, splashed with crimson, excellent dessert, good baker.

WINTER VARIETIES

- Rome Beauty — Large, yellow, striped with red, fine, juicy, unexcelled for baking.

APPLES — (Continued)

Chelan — Large, golden, winter apple, excellent dessert and cooking, long keeper.

Spitzenberg — Medium to large, deep red, excellent flavor, an old favorite.

White Winter Pearmain — Large, pale yellow, fine flavor.

Newtown Pippin (Yellow Newtown) — Medium to large, light yellow, excellent for both dessert and cooking.

Stayman Winesap — Large, striped and splashed with dark crimson, splendid quality, heavy bearer.

Winesap (Common) — Medium, dark red, good keeper and producer.

***Trade Marked & Plant Patented Varieties take the following prices—**

Blackjon—Trade Mark Reg.

Blaxtayman—Trade Mark Reg.

Blackmack—Trade Mark Reg.

Size —	Each	Dozen	25	50 or More
		Lots Each	Lots Each	Lots Each
3 to 4 foot.....	\$1.00	\$.90	\$.80	\$.70
4 to 6 foot.....	1.10	.95	.85	.75
{ 5 to 7 foot.....	1.25	1.00	.90	.80
{ Extra Select Grade				

***Blackmack (T. M. Reg.)** — Sport of McIntosh Red and a more profitable variety.

Blackjon (T. M. Reg.) — A bud sport or mutation of Jonathan, earlier and more color, deep red.

Richared (T. M. Reg.) Delicious — Probably the best known bud sport or mutation of the Delicious.

***Shotwell Delicious (U. S. Plant Pat. No. 90)** — Another improved Delicious; colors earlier and darker than Richared.

***Yellow Delicious**—Resembles Grimes Golden somewhat in shape, color and quality. Excellent cooker, fine dessert.

SecandO (T. M. Reg.) Red Rome — Darker color than Rome Beauty. Nearly all color Extra Fancy grade.

Blaxtayman (T.M. Reg.)—New all-red Stayman Winesap.

SecandO (T. M. Reg.) Winesap — An improved all-red Winesap.

CRAB APPLES

***Transcendent** — Large, red and yellow striped, good eating and cooking.

***Hyslop** — Large, dark red, or purplish, good keeper.

***Whitney No. 20** — Large, glossy, striped with carmine, juicy, pleasant flavor.

PEARS

	Each	Dozen Lots Each	25 Lots Each	50 or More Lots Each
3 to 4 foot.....	\$.95	\$.85	\$.75	\$.65
4 to 6 foot.....	1.00	.90	.80	.70
{ 5 to 7 foot.....	1.10	.95	.85	.75
{ Extra Select Grade				

Varieties marked with an asterisk (*) do well west of the Cascade mountains in Washington and Oregon. Pears are listed in their order of ripening.

*Sugar — Small, light yellow, sweet, good.

*Bartlett — Large, clear yellow, sometimes slightly blushed, occasionally flecked with russet. Juicy, buttery, dessert, cooking and canning.

*Flemish Beauty — Large, green to yellow, red cheeked, juicy, rich, very productive.

Gorham — Of Bartlett type, same high quality and attractive appearance. Ripens two weeks later than Bartlett, keeps month longer. Good quality, rich flavor, good canner.

*Beurre D'Anjou ("Anjou") — A firm pear, rather large, flesh yellowish white, rich buttery flavor, good keeper. One of the leading commercial pears.

Cayuga — Average large as Bartlett with delectable flavor, shape and color of Seckel.

*Doyenne Du Comice — Large, yellowish red, rich, juicy.

*Seckel — Small, brownish green, red cheek, sweet, juicy, excellent.

*Beurre Bosc — Large, cinnamon russet, long neck, juicy, excellent.

*Kieffer — Large, golden yellow, hardy, blight resistant. Vigorous and fruitful.

*Winter Nellis — Medium size, yellow covered with russet, very fine, good producer.

*Old Home — Blight resistant; good for top working to other varieties.

RILAND APRICOTS

(U. S. Plant Patent No. 74)

The only plant-patented apricot in the world.

	Each	Dozen Lots Each	25 Lots Each	50 or More Lots Each
Size —				
3 to 4 foot.....	\$1.00	\$.90	\$.80	\$.70
4 to 6 foot.....	1.10	.95	.85	.75
{ 5 to 7 foot.....	1.25	1.00	.90	.80
{ Extra Select Grade				

Riland (U. S. Plant Pat. No. 74)—The only "patented" apricot. Discovered and introduced by "C. & O." The earliest commercial apricot. Excellent shipper, good canner; brings top prices. Growers netted \$200.00 per ton for Riland apricots last season.

(For Other Varieties of Apricots

See Next Page)

APRICOTS (continued)

Common Varieties

(See Page 3 for Prices on Riland Apricots)

Size —	Each	Dozen Lots Each	25 Lots Each	50 or More Lots Each
3 to 4 foot.....	\$.95	\$.85	\$.75	\$.65
4 to 6 foot.....	1.00	.90	.80	.70
{ 5 to 7 foot.....	1.10	.95	.85	.75
{ Extra Select Grade				

Yakimene (Acme) — A Japanese apricot. Large, early, handsome, distinctive flavor. Excellent dessert.

Phelps — Large, ripens week ahead Wenatchee, good shipper.

Wenatchee — Very large: leading apricot of Wenatchee valley, Washington. Very productive — a desert apricot. (Formerly called Wenatchee Moorpark.)

Royal — Medium size — dull yellow with orange cheek — good canner and dryer.

Blenheim — Medium size, oval, deep yellow. Good canner — productive — excellent quality.

Tilton — Larger than Blenheim, oval — fine flavor. Considered one of the best commercial canners.

Moorpark — Large, but not as large as Wenatchee — deep yellow blushed with red. A standard variety — good canner.

J. L. Budd — A small Russian apricot — very hardy, will grow where other apricots fail. Delicious kernel.

CHERRIES

SWEET CHERRIES

Size —	Each	Dozen Lots Each	25 Lots Each	50 or More Lots Each
3 to 4 foot.....	\$1.00	\$.90	\$.80	\$.70

{ Extra Select Grade				

Black Tartarian — Large, purplish black, juicy and rich, certified pollenizer.

Royal Ann — Large, pale yellow with red cheek, firm juicy and sweet. In demand by canneries.

Centennial — Large, yellow, certified pollenizer.

Deacon — Black, resembles Bing, not quite as large, very resistant to cracking. Certified pollenizer.

Bing — Large, black, fine flavor, good shipper.

Black Republican — Large, shining black, good keeper and shipper, certified pollenizer.

Lambert — Large, dark purplish black, sweet, rich, fine flavor.

SOUR CHERRIES

Size —	Each	Dozen Lots Each	25 Lots Each	50 or More Lots Each
3 foot, up.....	\$1.00	\$.90	\$.80	\$.70
3½ to 5 foot.....	1.10	.95	.85	.75
{ 4 to 6 foot.....	1.25	1.00	.90	.80
{ Extra Select Grade				

Early Richmond — Medium size, dark red, acid.

May Duke — Large, red, juicy and rich.

Montmorency — Large, red, "the kind the canneries want."

Late Duke — Large, light red, late and fine.

English Morello — Large, dark red, rich, juicy, acid, good canner.

PEACHES

Varieties listed in order of ripening. "F" denotes freestone; "C" clingstone; "S. C." semi-cling.

{ Extra Select Grade				

- *May Flower, S. C. — Earliest of all peaches, medium, red, white flesh.
- *Early Rochester (U. S. Plant Patent No. 351) F.—New development from the famous Rochester; ripens approximately three weeks earlier. Has all characteristics of Rochester in fruit, size and tree, but much earlier. Available for profitable early markets.
- Red Haven, F.—New. Highly colored, good quality, yellow flesh, freestone. Ripens month ahead of Elberta. Ask for Special Prices.
- *Golden Jubilee, F.—The earliest good yellow freestone.
- *Triumph, F.—Large, dark orange yellow.
- *Rochester, F.—Very hardy, thrifty grower. Medium size, deep yellow and red, excellent quality. Especially good west of the Cascade mountains.
- Herb Hale (United States Plant Patent No. 588) F. — New, early shipping peach of outstanding quality. Originated in H. W. Donahey orchard, Yakima valley. Large size, excellent quality, yellow meated, free-stone, ripens right after Rochester. Netted growers \$60.00 per ton last season.
- Valiant, F.—Resembles Elberta but more globular in shape and of better quality. Considered best canner in Ontario, Canada.
- Slappy, F.—Large, deep yellow—excellent home canner.
- Early Crawford, F.—Large, yellow — good quality. A good home garden peach.
- *Champion, F.—White-fleshed peach. Firm, sweet, delicious flavor. Tree hardy, and good bearer.
- Hale Haven, F. — Promising commercial possibilities; earliness, excellence of fruit, good shipping and bearing qualities, vigorous tree growth, resistance to low temperatures.
- *Veteran, F.—Elberta type peach. Tree vigorous grower early production. Season just after Valiant.
- Redelberta (U. S. Plant Pat. No. 232) F.—A bud sport of the Elberta. A true Elberta in all respects except that it matures about 10 days earlier and has double the red color.

PEACHES — (Continued)

- Early Elberta, F.**— Large, golden yellow — excellent quality, good shipper.
- Elberta, F.**— Very large, bright yellow — good shipper.
- J. H. Hale, F.**— Very large, golden yellow — fine shipper. The commercial peach by which all other peaches are measured for standards of excellency.
- Candoka (U. S. Plant Pat. No. 51) F.**— The “fuzzless” peach.
- Late Crawford, F.**— Very large, yellow with dark red cheek.
- Indian Blood, C.**— Large, red flesh, ideal for pickling and preserving.
- Phillips Cling, C.**— Large, yellow, small pit, fine commercial canner.
- Simmons, F.**— Large, firm, good late variety.
- Miller Cling, C.**— Large, good flavor, excellent for home canning.
- Rio Oso Gem, F. (U. S. Plant Pat. No. 89)**— Best late variety. Profitable commercial shipper.
- October Krummel, F.**— Large size, deep yellow, colored carmine. One of the very latest ripening varieties.

PLUMS

Asterisk (*) denotes varieties which do well west of the Cascade mountains.
Varieties listed in order of ripening

Size —	Each	Dozen Lots Each	25 Lots Each	50 or More Lots Each
3 to 4 foot.....	\$.95	\$.85	\$.75	\$.65
4 to 6 foot.....	1.00	.90	.80	.70
{ 5 to 7 foot.....	1.10	.95	.85	.75
{ Extra Select Grade				

- Beauty** — Similar in quality and appearance to Climax, two weeks earlier. Excellent pollenizer for Santa Rosa.
- Climax** — Very large, heart-shaped, deep red, good shipper.
- Shiro (Early Gold)** — Very early, large, golden yellow, good quality. A Burbank introduction.
- *Yellow Egg** — Large, egg-shaped, yellow, good canner.
- Burbank** — Large, cherry red, mottled with yellow, sweet, good shipper.
- Maynard** — Very large, nearly round, dull red, sweet.
- Santa Rosa** — One of the largest, most beautiful, of all cling plums. Dark crimson, almost round, excellent shipper.
- Simoni** — Shape and color like tomato.
- *Yakima** — Very large, egg-shaped, red, good shipper.
- *Peach Plum** — Very large, roundish, purple. Excellent for eating fresh.
- Wild Plum** — This is the popular old wild plum native to the Mid-West and East. Round, bright red. Famous for jams and plum butter.
- *Damson** — Small, roundish oval, dark purple, fine canner.
- *Imperial Gage** — Small, round, greenish yellow, good canner.
- President** — Late ripening shipping variety, popular and profitable. Fruit large, dark blue, flesh yellow.
- Duart** — Japanese blood plum, juicy, sweet, red flesh, earlier, hardier and better than Satsuma.
- Satsuma** — Large, nearly round, dark red flesh, small pit.

PRUNES

Asterisk (*) denotes varieties which do well west of the Cascade mountains. Varieties listed in order of ripening.

Size —	Each	Dozen Lots Each	25 Lots Each	50 or More Lots Each
3 to 4 foot.....	\$.95	\$.85	\$.75	\$.65
4 to 6 foot.....	1.00	.90	.80	.70
5 to 7 foot.....	1.10	.95	.85	.75

} Extra Select Grade

Early Italian add 5c per tree to above price.

*Early Italian — Resembles Italian, slightly larger and sweeter. Two weeks earlier. Good commercial variety. Origin: A bud sport of the Italian.

*Sugar — Very large, oval, dark purple, tender, sweet; particularly fine for home drying and canning. Contains almost 24 per cent sugar.

*Hungarian — Very large, dark red, juicy and sweet. Its bright color, productiveness and shipping qualities make it profitable for home or market.

*Petite (French) — Medium size, egg-shaped, purple, very sweet and fine.

*Double X French — Larger than Petite.

*Italian — Medium size, oval tapering at both ends; dark purple, flesh greenish yellow; separates freely from pit; excellent for eating fresh, and the best for drying.

NECTARINES

The tree of the Nectarine to all appearances can be called a peach tree. In growth, habit, and soils required it is similar to the peach. The fruit differs from the peach in that the skin is smooth, and the rich, aromatic flesh has a flavor all its own. The Nectarine is an exceedingly delicious dessert fruit.

NECTARINES -- Same Price as Prunes.

Boston Red — Large size — deep yellow with bright blush, sweet.

Quetta — Large, yellow green, rich, delightful aroma, excellent quality.

*Sure Crop F. — New. From New Zealand. Firm flesh, large, pleasing flavor, freestone. White skin with attractive red coloring.

QUINCES

Size —	Each	Dozen Lots Each	25 Lots Each	50 or More Lots Each
3 to 4 foot.....	\$1.00	\$.90	\$.80	\$.70
4 to 6 foot.....	1.10	.95	.85	.75

Orange — Large, roundish, bright yellow, an old favorite, finest quality.

Pineapple — Very large, apple-shaped, flavor resembles pineapple, delightfully fragrant when fresh and delicious when cooked.

NUT TREES

I. X. I. — Large, soft shell.

Nonpareil — Thin "paper-shell." Good cropper.

Texas Prolific — Popular variety, rather small nuts. Excellent pollenizer.

Write for special prices on quantity lots. Grapes sold for spring delivery only.

AMERICAN VARIETIES (Hardy)

(Varieties are listed in order of ripening.)

Fredonia (Black) — New early grape. Berries large, round, hang well, fine flavor.

Portland (White) — Berries sweet, juicy, fine flavor. Productive and hardy.

Campbell's Early (Black) — Large, sweet, juicy, good.

Island Belle (Black) — Large, early, good west of the Cascade mountains.

Niagara (White) — Large bunches and berries, the standard white grape, called "White Concord."

Worden (Black) — Earlier, sweeter and larger than Concord.

Caco (Red) — New, exceptional merit. Wine-red, compact bunch, good size, hardy, thrifty grower.

Concord (Black) — The standard black, everywhere; very productive.

Agawam (Red) — Large, thick skin, sweet.

EUROPEAN VARIETIES (Medium Hardy)

Csaba (Pearl of Csaba) — Hardy, north European grape, white, small seeds, excellent table grape, good wine grape. Ripens early. New introduction. Has withstood over 30 degrees below zero without winter damage.

Malaga (White) — Very large bunches, good shipper.

Ribier (Black) — Largest, new, very fine.

Black Hamburg (Black) — A great favorite, large.

Muscat (White) — Muscat flavor; excellent.

White Sweetwater (White) — Medium size, sweet, rich flavor, early.

Thompson Seedless (White) — Seedless, small, sweet, good drier.

Flame Tokay (Red) — Large, a favorite, one of the best.

Zinfandel (Black) — The most famous wine grape, enormous quantity of compact bunches, very juicy, sweet.

Alecante Bouschet (Red) — Sweet, bright red juice. A wonderful wine grape — even the leaves turn brilliant red in the fall.

BERRIES

(Spring Delivery Only)

No home garden is complete without berry plants. Easily grown and profitable as well.
