PRICE-LIST FOR SPRING OF 1895,

CENTRAL NURSERIES

WAUKEE, IOWA.

FRUIT AND ORNAMENTAL TREES,

GRAPE VINES, SMALL FRUITS, ETC.

TO OUR FRIENDS AND PATRONS, BOTH OLD AND NEW:

We have taken into consideration the depression of the times, and have dropped our prices to the bed-rock notch.

These prices abrogate previous quotations.

All goods ordered from this list are No. 1, and our perfect packing admits of a long journey without injury to the trees. We only offer the cream of Standard varieties, and do not give chromos or prize packages as an inducement to buy our stock; but we give our patrons more than their value in quality of goods.

In the extensive collection of nursery stock that we offer, we call your attention to the "Wragg Cherry" and the "Stoddard Plum," these two being among the varieties of stock that we have had the honor of introducing to the public. The "Wragg" is a late cherry and much larger than the English Morello. It is extensively propagated throughout the East and South, and is now one of the Standard varieties in all markets.

The "Stoddard" stands above all our native plums. The points in favor of this plum are, that it is the largest, most prolific, finest flavor, and less liable to injury from curculio as it has a heavy skin. We have only a limited supply of these on hand in surplus and those wishing some should order early.

We shall always be pleased to quote prices to any one desiring different sizes of stock in larger quantities than herein offered. In sending list state definitely the number of each variety and size wanted.

Always give full and explicit shipping directions, so that goods can be shipped with **dispatch**.

No charge for packing, or delivery at express office or railway station.

TERMS:

Cash with order, or before shipment of stock. Five at 10 rates and 50 at 100 rates; but if remittances amount to \$25.00 and up **everything** at **lowest rate** quoted in this Price-List, both Fruit and Ornamental.

Small amounts of \$1.00 and less may be sent in stamps if preferred.

Money can be sent safely by Postoffice Money order, Registered Letter, Draft or Express Money order, directed to

J. WRAGG & SONS,
Waukee, Dallas County, Iowa.

TESTIMONIALS.

MARSHALLTOWN, IOWA, Nov. 12, 1892.

Dear Sirs—I received your bill of goods in the best of order, and your charges were not enough for such good goods. Your truly,

J. H. RODGERS.

SHEFFIELD, IOWA, Feb. 9, 1892.

Gentlemen—I bought 300 Evergreens of you last year, and I only lost two out of the lot.

Yours truly,

ADAM HOLM.

SAC CITY, IOWA, April 16, 1894.

Dear Sirs—It affords me pleasure to say that I am abundantly satisfied with everything you have sent me. It certainly is the best lot of nursery stock that I ever received from a nursery. The Evergreens are better than I expected for the money. Rest assured you will hear from me next spring again. Very respectfully,

C. W. CONNOR.

CORRECTIONVILLE, IOWA, Oct. 10, 1894.

Dear Sirs—The grapes I purchased of you last spring were No. 1, and I was well pleased with them. They were in good condition and grew fine, notwithstanding the dry season, and I shall want more next spring. Yours respectfully,

B. SHONTZ.

IDA GROVE, IOWA, Nov. 7, 1892.

Dear Sirs—Accept my sincere thanks for the grapes which I received to-day. They are the finest, I think, that I ever saw, and I can truthfully say you have sent me the best and cheapest bill of trees and shrubs I have ever received in Iowa.

Yours truly,

ALEX HARTLEY.

ATLANTIC, IOWA, July 13, 1894.

Dear Sir—I have ten "Wragg Cherry" trees (five years planted) that I got of Mr. Wilson, and they are loaded with cherries nearly ripe, which is about all the fruit I will have this year.

Yours truly,

R. D. MCGEEHON.

COLFAX, IOWA, Aug. 23, 1893.

Gentlemen—The stock I bought of you three years ago has done well, and I am well pleased with the goods.

Yours truly,

STEPHEN H. DANIELS.

ELMWOOD, WIS., Jan. 30, 1893.

Dear Sirs—Mr. J. S. Havenstrite, of Waukeesh, has a "Wragg Cherry" from your nursery (three years planted) which is a marvel of beauty and attracting the attention of every one—people coming for miles to see it—as it was supposed that tame cherries would not stand this climate. The tree seems perfectly hardy, and has not suffered from the cold winters. Yours truly,

L. E. VLEIT.

J. Wragg & Sons are first-class nurserymen at Waukeesh, Iowa, which is almost a suburb of Des Moines, the way our city of late is spreading itself. J. Wragg & Sons do their own grafting and budding with their own hand and run no risk of having their stock mixed or misnamed by careless or irresponsible hired help. We feel very sure that Wragg & Sons grow their own stock, and that the readers of the *Register* and their neighbors are safe in dealing with them.—*Father Clarkson in The Iowa State Register.*

Messrs. Wragg & Sons sent us last week, fine specimens of what is now called the "Wragg Cherry." They are the largest cherries we have ever seen except in California, Oregon and Washington Territory, it is being extensively distributed and is making a grand success, being hardy, a regular and prolific bearer.—*Agricultural Department State Register.*

The WRAGG is a little larger, later and more productive than Eng. Morello and one tree of the Wragg, six years old, will produce more cherries than fifty Ey. Richmonds of the same age. You may think this is putting it pretty strong, but I have the trees all growing in the same soil and conditions and speak from experience.—*M. Graham in Hort. Art Journal.*
