The California Rose Grown in the Open Field

Attains a greater vigor, is more hardy and a freer bloomer than the hot-house-grown roses of the east.

A Glimpse of Our Rose Block, Showing Three Months' Growth from Bud.

Choice Budded Roses

TO THE TRADE:

Our Roses are all grown in our General Fruit Tree Nursery, in Kings River Bottom, about eighteen miles east of Fresno, where the soil is of a deep, alluvial nature, which is conducive to giving the plants a fine, vigorous root system, and also heavy strong tops, well suited for retail trade. The plants on June First averaged two feet in height throughout, with the exception of such varieties, which are not strong growers, viz: Ivory, Baroness Rothschild, Catherine Mermet, Improved Rainbow, Madam Cecile Brunner, Marchioness of Londonderry, Marechal Niel, Niphetos, and these we are obliged to grade somewhat lighter.

The quotations named are net for stock at Fresno, California, with an additional charge to cover cost of material used in packing.

Plants will be supplied in lots of fifty and over, in not less than five of any one variety, at the quotations named below. Five per cent discount on orders of five hundred plants or over. Standard or Tree Roses, fine strong heads, regardless of quantity, at the prices indicated. Five per cent discount on orders of fifty plants and over, and ten per cent discount on orders for one hundred plants or over. The roses are tied in bundles of ten, with the exception of the Standards, and we would appreciate it, if orders were made as far as possible in multiples of this number.

Sales will be made subject to stock being unsold when order is received, with the understanding that if stock should become injured by frost, hail, fire or other causes beyond our control, the order will be void.

We exercise the greatest care to keep all varieties true to name, but it is mutually agreed to, between the purchaser and ourselves that we shall not at any time be liable for any amount greater than the original price of the stock.

Orders from unknown correspondents must be accompanied by remittance or satisfactory references.

California Live Oak

Wherever the live oak luxuriates and attains majestic proportions, are afforded ideal conditions of soil and climate for the production of strong and thrifty roses. This fine specimen is situated at the south end of our plot of California field grown roses.
