United States Nurseries,

SHORT HILLS, NEW JERSEY.

TO THE TRADE.

WE HEREWITH submit our fourth Trade Quarterly for the year, and hope it will receive careful perusal. We need not repeat our former statement regarding the superiority of our stock, as it is equal to any, and has never been better than at the present time. We invite personal inspection at all times at our Nurseries, which are only about three minutes' walk from the station, and open any day in the year. Intending purchasers would do well, before placing their orders, to take a run out to our place and inspect our stock. We are only eighteen miles from New York City, on Delaware, Lackawanna & Western R. R., and trains leave every hour from Hoboken. Take Christopher or Barclay Street ferries from New York.

As in the past, we will endeavor to serve customers with clean, healthy Plants, Seeds of the latest crop and highest vitality, and Bulbs true to name, up to measurement, and procured from the most reliable growers. Our unequaled facilities in the way of large modern greenhouses, perfect in every detail; extensive herbaceous grounds, seed warehouses, bulb cellars, and old and experienced growers, practical in every branch of the business, make it possible for us to guarantee satisfaction with every order shipped.

TERMS:

(This list cancels all previous quotations.)

All orders from unknown correspondents must be accompanied by remittance or satisfactory reference. Otherwise, goods will only be sent C. O. D.

No perishable goods are sent C. O. D., unless a sufficient remittance accompanies the order to guarantee acceptance on arrival.

Remittances should be made by Post Office or Express Money Order on Short Hills, Bank Draft on New York, or Money in Registered Letter. Checks on local or inland banks often necessitate delay, and are subject to a small charge for collection.

Orders are solicited at as early a date as possible, that we may have ample time for their execution. **Please write plainly name, post office, express office,** and any other necessary information as to the best method of forwarding.

Prices are quoted subject to short crops, to change without notice, and to the goods being unsold upon receipt of order. We would advise Florists to place their orders early. All imported and domestic bulbs that we offer are direct from the most reliable growers, and can be depended upon as being first-class in every respect.

25 bulbs or plants furnished at 100 rate, 250 at 1,000 rate.

Complaints, if any, must be made within **five days after receipt of goods**, to receive recognition.

No charge is made for cases or packing, or for delivery to freight and express depots. On all plants shipped by express, Florists receive the benefit of the 20 per cent. reduction in express charges, if packed in closed boxes.

Decorative Plants.

(ALL PLANTS ARE MEASURED FROM TOP OF POT.)

PALMS.

Few plants are more useful to the Florist for decorative work, the sale being constant and at all times profitable. Our stock of these plants, it is well known, is second to none in the country, and our prices are the lowest that can be made for first-class stock, and will be found as favorable as any. Our Palms have always given very satisfactory results to all our patrons; being grown in a low temperature, they are very sturdy and hardy, making them much more useful for house culture than those grown in heat. Below we give a list of varieties most in demand. Prices on other varieties not herein mentioned, and on large specimens, will be furnished on application.

SPIRAEA ASTILBOIDES.

NEW.

THIS new type of *Spiraea* is handsome and distinct, and cannot be too highly appreciated by Florists as a decorative plant for early forcing. It is dwarfer and much more graceful than *S. japonica*. The flowers are produced in greatest profusion, on branching spikes terminated by elegant dense plumes of pure white, well displayed above the foliage. It is perfectly hardy, and is certain to become the leading variety for market purposes. Certificated both by the Royal Horticultural and Royal Botanical Societies of London. Owing to the recent introduction of this variety, only a limited quantity was grown the past season, but wherever offered it was quickly taken up at much higher prices than the standard sorts.

15 cts. each ; \$1.00 per doz.; \$6.50 per 100 ; \$60 per 1000.
