Selected Dutch and Other Flower Bulb List.

WE import **Bulbous Roots** direct from the most reliable growers in Holland, Japan and China, and they should not be confounded with those frequently sent to this market in "cases" on speculation. We shall be happy to make judicious selections for parties unacquainted with the different varieties, if they will state, with orders, the number of bulbs required, and the average price. Our this year's importation of **Hyacinths, Tulips, Crocus, Narcissus, Lilies** and other **Flower Bulbs**, is the Finest and Largest ever made, and our customers and all lovers of Flowers in want of Choice Bulbs, are respectfully informed that they can be supplied at home by us in every way as well, as cheaply and reliably, as by sending their orders to Eastern and other far-off dealers.

THE HYACINTH

Is one of the most universally admired, both for its perfect and chaste flowers and its delicate and fragrant perfume. Perhaps it is not too much to assert, writes an author on "Bulbs and Bulb Culture," that the Hyacinth is at once the most useful and popular bulb at the present day. It affords support to thousands, pleasure and delight to millions of the human race. From its Eastern home it has spread West, South and North, until its beauty and fragrance enrich all civilized people. They succeed equally well in the house and garden, adorning both with the varied colors and delicious fragrance of their showy flowers. They can be had in bloom most every day during winter in the house, and by planting them outside in beds any time until the ground freezes too hard, will give you the finest show on earth early in the spring.

FREESIA.—A beautiful Cape bulb of recent introduction. It is a decided acquisition, both for parlor culture and for forcing for cut flowers. The flowers are tube-shaped, pure white, blotched with yellow on the lower petal, and are borne on a slender branch, from 12 to 20 inches high. It has a very delicate, sweet perfume, is easily forced and remains fresh for a long time. *Refracta Alba*, pure white, with small yellow blotch on lower petal, each 3c., 6 for 10c., 12 for 15c., 100 for \$1.00.

PANSIES.—Pansy Seed has to be sown in the Fall for winter and spring bloomers, and have imported our stock of seeds from the best growers in Germany and England. We have the finest giant varieties, mixed and separate. Price, pkt., 10c., oz. from \$1.00 upwards. Have also other choice Flower Seeds.

The Tulip is perfectly hardy, and as it flourishes under the most ordinary care, it can justly lay claim to being the popular flower for the millions; yet so varied and brilliant are its blooms that it captures the heart of all flower lovers. It is adapted to open air culture in nearly every country and locality; also for window culture it is unsurpassed. Tulips are dashing and showy, of the most brilliant and varied coloring. The finest effect is produced by massing in beds. We sell the bulbs so cheaply that no garden should be without a fine assortment.

NARCISSUS-DAFFODILS

Narcissus bulbs are indispensable for winter and early spring flowering. They are varied and beautiful in form and color, and their delicious fragrance is unexcelled. Their season of blooming continues about two months from the earliest to the latest varieties. Many varieties are so cheap they should be planted extensively. Narcissus, when once planted, will increase from year to year; always hardy and profuse bloomers. For blooming in the house during winter, all varieties are well adapted. Try a few Narcissus in the house this winter and a bed of them in the garden and you will be delighted.

CROCUS.—The hardiest and earliest of all spring flowers, sending up its bright little flowers before the snow has fairly disappeared. They should be planted about 2½ inches deep and covered slightly during severe weather. Planted before the snow has fairly disappeared. They will flower easily in the house in moss, water or earth, with the same treatment as Hyacinths. Crocus bulbs should be planted as soon as received. Try them on the lawn, where they bloom before the grass can be cut.

PANSY.

LILIES for Forcing in Fall, Winter and Early Spring Bedding.

BERMUDA EASTER LILY.

AURATUM. THE GOLD-BANDED LILY OF JAPAN.

Considered by Many the Finest Lily in Cultivation.

The flowers are pure white, thickly studded with crimson spots while through the centre of each petal runs a clear golden band. Fully expanded, the flowers measure nearly a foot across, are produced abundantly from June to October and possess a most delicious fragrance. 3 to 5 feet. Price, 9 to 11 inch, large bulbs, 15c. each; \$1.25 doz. Extra large bulbs, 20c. each; \$1.75 doz.

CANDIDUM. (Annunciation, Madonna or St. Joseph Lily.) The well-known Garden Lily; snow-white fragrant blossoms; it is also one of the best forcing lilies for florists; 3 to 4 feet, blooms in the open ground about June. 10c. each; 75c. doz.; \$5.00 per 100. Very hardy.

LONGIFLORUM. The well-known, beautiful, snow-white, fragrant, hardy garden Lily; flowers trumpet-shaped, 6 to 8 inches long. This is also a splendid variety for forcing for winter flowers, and is also known as the "Easter or St. Joseph Lily." Height 2½ to 5 feet. In the open ground it blooms in June and July. 15c. each; \$1.50 doz.

LILY SPECIOSUM MELPOMENE. Flowers very large and very abundant, of rich blood crimson, heavily spotted (new). Price, 20c. each; \$2.00 per dozen.

LILY SPECIOSUM RUBRUM. Flowers very large, white, shaded with deep rose and spotted red. Price, 15c. each; \$1.50 doz.

LILY ELEGANS, ATROSANGUINEUM. Flower large; rich blood crimson, spotted with black; 1½ to 2 feet high. Price, 15c. each; \$1.50 doz.

THE TRUE BERMUDA EASTER LILY.

(LILIUM HARISII.)

This is one of the most important and grandest bulbs introduced in many years, immense quantities being planted yearly to be forced into bloom for Thanksgiving Day, Christmas, New Year's and Easter. They are most charming pot plants and easily forced. A succession of bloom can be kept up all through the winter by bringing the pots of rooted bulbs in from the cold frames or cellar at intervals. Can also be planted out-doors and covered with Coarse Manure which must be removed in the spring. Extra sized bulbs, measuring 7 to 9 inches in circumference and which should produce from 8 to 15 flowers—each, 10c; dozen, \$1. By express, \$6.00 per 100.

Chinese Sacred Lilies.

CHINESE SACRED LILIES.

freely and can be planted at any time from October until March. It seldom fails even with the most careless cultivators, and take all in all, the bulb is like the nation from which it comes—a remarkable one. Price, each, 10c. and 15c.; 75c. and \$1 per dozen as to size.

The Chinese Sacred Lily, or Sacred Lily of Japan, which is the Chinese Emblem of Good Luck, is really a Narcissus of the Polyanthus type, but unlike the varieties known in this group, the Chinese Sacred Lily produces very large bulbs measuring from 12 to 18 inches in circumference, which throw up from 5 to 10 flower spikes, bearing clusters of large perfect, waxy white blossoms, with yellow centre of most delicious fragrance. They grow well in pots in a light and sandy soil but the most successful way of cultivating is as the Chinese do—in water, as follows: Fill a glass or any kind of bowl with pebbles, small stones or coarse gravel, in which place the bulb, setting it about one-half its depth so that it will be held firmly, then fill with water to the top of the pebbles, and place it in a warm sunny window. The bulb will at once commence a rapid growth, and bloom in 3 to 5 weeks. The bulbs are so large and have so much vitality they can be kept perfectly dry all winter, and be planted at any time when the flowers are desired. Bulbs are hardy and bloom well in the open ground, but their greatest value is for winter blooming. After blooming during winter, they should be planted in the open ground as early as possible in the spring. It is the most easily grown and satisfactory bulb for house or window culture that we know of; flowers freely and can be planted at any time from October until March. It seldom fails even with the most careless cultivators, and take all in all, the bulb is like the nation from which it comes—a remarkable one. Price, each, 10c. and 15c.; 75c. and \$1 per dozen as to size.

Lily of the Valley.

So universally known as to require no description. For planting outdoors clumps should be ordered; for winter-blooming in the house choose pips. Put 6 pips in a 4 inch pot, cultivate same as Hyacinths. Flowering Pips, 6 for 30c; doz., 50c., postpaid. By express, at buyers expense, \$1.00, \$1.50. Clumps, for outdoor planting, 25c. each; \$2.50 per doz.
