SUMMIT, NEW JERSEY.

GREETING:—To My Many Friends and Patrons and the
Florist Trade in General :

AGAIN I beg to hand you my Trade List for the season, and feel sure that the new things enumerated therein will be interesting to you. They are all of them of exceptional merit, and I can with every confidence recommend them to you. Should you need anything in my line I trust to be favored with your esteemed orders, assuring you that I shall use every effort to retain your confidence in the future as in the past.

Thanking you all for your very liberal patronage in the past, and respectfully soliciting a continuance of the same,

Yours very truly,

JOHN N. MAY.

THE WAY I PREFER TO CONDUCT MY BUSINESS

IS IN

SHIPPING GOODS we try to ship every order, weather, etc., permitting, as early as possible after receiving it, and in strict rotation, unless instructed otherwise.

CASES AND PACKING are furnished free of charge, except in unusual cases. Every order is selected and packed by experienced packers in the best manner possible, and delivered to the forwarders at Summit in sound condition in tight cases as long as the weather permits, then in cases securely covered at top with slats, etc., to secure the lowest rates possible.

DELAYS. To avoid these please write every order legibly, sign the same in full, giving Post Office, County and State, also name of Express Company, if any are preferred, by which the goods are to be forwarded; failing this we use the best information obtainable for shipping.

ERRORS AND DAMAGES. Where such occur patrons will confer a favor by advising me by mail immediately on receipt of goods, and if the fault is ours we will correct it at once, if possible, but I cannot guarantee against damages in transportation.

REMITTANCES. All orders from unknown correspondents must be accompanied with remittance for same, or satisfactory references. Money can be sent either by Bank draft, Post Office or Express Money Orders, or by Registered letter.

C. O. D. orders will **positively** not be sent unless half the money be sent with the order as a guarantee of good faith. I will make no exception to this rule.

SIZE OF STOCK. I grow everything offered from pots in standard sizes and each size quoted is as fine stock as is possible to produce, and at prices as low as such stock can be produced. 6 at dozen rates, 50 at 100 rates, and 500 at 1000 rates except the new varieties otherwise quoted.

INVOICES are sent with each shipment of goods. The prices are for net cash within 30 days, or 5 per cent. discount for cash with orders. All orders subject to these conditions unless otherwise agreed upon before booking the same.

LARGER SIZE PLANTS. When possible I prepare these for later planting; if orders are placed early enough I can always supply them.

VISITORS are always welcome to inspect our stock.

NEW ROSE FOR 1895.

MRS. PIERPONT MORGAN. I do not hesitate to say that this is one of the very finest Roses ever introduced in America. It is a sport from Madame Cusin and is in every way very much superior to that variety, being a much more robust grower, the flowers are very much larger and very double; many of the flowers here measure $4\frac{1}{2}$ inches through when in perfection; with much larger foliage than its parent, it is also much more prolific; the petals are broad and massive. The color is intensely bright cerise, or rose pink. It has received special certificates of merit wherever exhibited. **Dean Hole**, of **Rochester, England**, the **King of Rosarians** says it is the finest and most perfect **Tea Rose** he has ever seen.

Mr. Thorley, the leading New York Florist, says: "It is the most beautiful Rose in form, color and fragrance I have ever seen."

Messrs. J. H. Small & Sons, the leading Washington Florists, write: "Your new Rose, '**Mrs. Pierpont Morgan**,' arrived in splendid condition. I never saw anything like them."

Mr. Battles, the leading Philadelphia Florist, writes: "I am very much pleased with your new Rose, **Mrs. Pierpont Morgan**. I do not recall any rose that has the lasting quality. Those you sent me a week ago are still in very good condition."

Mrs. M. J. Thomas, one of Baltimore's leading Florists, says of it: "I predict for this most beautiful Rose a very bright future."

NEW ROSE OF 1894.

MRS. W. C. WHITNEY. Last season I offered this grand new American Seedling Rose for the first time, and the many flattering testimonials I have received from those who have grown it the past season fully endorse it as one of the most valuable roses we now have on the market. Many of the flowers here now measure $3\frac{1}{4}$ inches, with broad petals nicely interlaced, forming a bold, handsome flower. While it is not as free-blooming as Wm. CARNATIONS—New Varieties for 1895—Continued.

Wm. Scott. Deep pink and one of the very freest blooming varieties ever introduced. For the general florist this is one of the best carnations on the market. It always commands a good price. \$3.00 per 100; \$25.00 per 1,000.

The above prices are for good, strong, well-rooted cuttings, either from the sand or from flats transplanted. Of most of the above I can furnish strong potted plants from 2-inch pots at \$2.00 per 100; from 3-inch at \$4.00 per 100 advance over prices quoted above.

For summer blooming in open air the large plants will give a fine crop of flowers nearly all summer.

Special prices for large quantities.

CHRYSANTHEMUM NOVELTIES FOR 1895.

DEAN HOLE. Very large, incurved, massive flower, with broad petals of exquisite form. White, with a beautiful soft shade of pink on the outside when in perfection, changing to pearly white with age. Undoubtedly one of the best varieties of this year's introduction. Good, stout stem and fine foliage. Best on crown buds. In season about 6th to 10th November. $3\frac{1}{2}$ feet high. This variety received certificate of merit from the American Chrysanthemum Society in Philadelphia.

NEMESIS (DAYBREAK). Very early and almost identical in color to Day-break carnation; a fine, bold, well-built flower, with straight broad petals. Average height, $2\frac{1}{2}$ feet. In season 10th to 15th October; crown buds. This variety was too early to exhibit, but was the admiration of all who saw it in bloom. *See cut.*

OLYMPUS. A very bold, round flower. When in perfection blooms measured $7\frac{1}{2}$ inches through and 7 inches deep here last season. Base of petals white, with delicate shade of pink on outside, making it a very beautiful and attractive flower. Should be grown on crown buds, otherwise the stem will hardly support the immense flower. In season November 1st. Average 4 feet. *See cut.*

SUNRISE. This is by far the best very early red on the market. Inside of petals (which are very broad) bright terra cotta, reverse old gold, semi-incurved but full to the center. Average 7 to 8 inches through, and fine build, with good, stout stem and handsome oak-like foliage. This variety commanded the highest price in New York market the past season—12th to 20th October. A fine acquisition. Average 3 feet; crown buds. To place this fine variety within the reach of all who want a good early red, we have made the price very low, feeling sure it will fill a long-felt want. *See cut.*

TRILBY. Very clear white and superior to Niveus in every way. The petals are slightly twisted, but stand out straight, forming a bold, round, handsome flower in the way of Fascination; extra fine stem and handsome foliage. In perfection November 20th to 30th. Average $3\frac{1}{2}$ feet. Best as crown buds. Really one of the very best of this season's introductions. *See cut.*

ZULINDA. Very large, incurved, close-built flower; ray petals drooping, forming a bold, handsome flower in the way of Mayflower. Inside of petals clear rose pink, reverse silvery or satin-like glossy pink; fine stiff stem, with large, handsome foliage close up to flower. Average $2\frac{1}{2}$ to 3 feet. Crown buds. In season November 20th to 30th. An extra good late-keeping variety. *See cut.*

CANNAS.

The new varieties enumerated below are the result of very careful selection from many thousands of seedlings, grown and very carefully tested against all the newer introductions, by Mr. James Dean, of Bay Ridge, Brooklyn, who is well-known as a Canna expert, and one of the most extensive growers in America. Having secured these from Mr. Dean, I need hardly say anything more regarding their merits, but feel assured they will win their way to popular favor at once.

Strong plants, from four inch pots, ready April 1st.

APONOGETON DISTACHYON (or Cape Pond Lily), often called "Winter Hawthorn," from its delicious fragrance and pure whiteness. Where white orchids are in demand this plant will fill a long felt want. With very little care it can be had in bloom every day from September to July. All that is required is a half barrel placing six inches of rich soil in the bottom, in which plant the bulb, placing in a light, airy part of the greenhouse. Fill up the tub with water and keep the same quite full at all times, and the plant will never be out of flower.

Good, strong flowering bulbs, \$3.00, \$4.50 and \$6.00 per dozen, according to size and age.

MIGNONETTE SEED. My own selection, which is conceded to be the finest Mignonette in the market. Pkt., 25 cts.; oz., \$3.00. Owing to the great demand for seed, I will not be able to supply any more until next July, as I am sold out, but orders booked now will be filled promptly then, and in strict rotation.

GALVANIZED WIRE STAKES for tying, made from No. 6, 8 or 10 wire in 3, 3½, 4 ½ and 5 feet lengths. These are the very best stakes for the purpose, being always clean, durable, light and cheap. They make but very slight shade in the house, are always in position if stayed with fine wire on top, are more easily removed when required than any other and much easier placed in position again.

Prices, which vary according to lengths and number required, will be gladly furnished on application.
