CITRUS TREES

We have in our nurseries the finest assortment of Oranges, Lemons and Pomelos we have ever grown. Our trees are grown in a favored location in Orange County where the soil and climatic conditions are ideal for growing this class of stock.

Our customers to whom we have shipped this stock this season are unanimous in their praise of our stock, on account of its fine, dark green foliage, uniformity of grading, and being in first class condition when received. Our assortment is complete and we are making attractive prices. We have an especially fine block of VALENCIA LATE Oranges. If you are in the market let us figure on your list of wants.

OLIVES

We anticipated a heavy demand this season for the leading varieties of pickling olives.. We can still furnish them in all grades at low quotations.

You should arrange to border your place with these profit bearing trees,—a big income on land that is usually wasted. Get our special quotations.

30 Percent Discount To The

EVERGREEN TREES AND SHRUBS

The following list of specimen evergreen trees and plants is brought to attention from the fact that purchasers of nursery stock do not as a rule know that these fine specimen plants can be secured any time from the Nursery, established in wooden tubs, boxes or cement pots and used for porch and office or store decoration.

These plants are specially selected for this purpose from the nurseries and are established in these containers. We also offer some of them "balled" which can be planted as specimens for lawns and parking trees any time during April and May. In order to dispose of a quantity of this stock we are making special offering in prices as noted. If you want suggestions as to what you should order don't hesitate to write us.
