NATIVE PLANTS, BULBS
AND SEEDS

Dicentra cucullaria.

~~~~~  
JUNE, JULY and AUGUST, 1895  
~~~~~

WM. F. BASSETT & SON

Hammonton, New Jersey
U. S. A.

THE Plants and Bulbs listed here are mostly such as are dormant in summer, and can be handled better at this season than either fall or spring, and also some varieties that cannot be collected after the foliage dies.

Orders should be sent in at once, on receipt of this list, as we commence collecting in latter part of June.

TERMS.—Bills will be due in 30 days from date. Satisfactory reference required from customers.

SAFE ARRIVAL guaranteed on all plants shipped by express. For full list of native plants, see our Catalogue, issued in September.

Hardy Perennial Bulbs and Plants.

	Per doz.	100	1,000
ANEMONELLA Thalictroides. 6 inches high, with pure white anemone-like flowers. Root a cluster of small tubers	\$0 50	\$3 00	
AQUILEGIA Canadensis. Flowers coral-red, with yellow throat	50	3 00	\$25 00
ASARUM Canadense. Fine rock plant for complete shade	50	3 50	
ARISÆMA triphyllum. Flowers resembling calla lilies, but deep purple. Brilliant red berries in late summer	50	2 50	18 00
A. dracontium. Similar to the above, except the foliage is 5 to 7-parted. Rare	1 00	6 00	
BOTRYCHIUM Virginicum. An elegant Fern, with large, spreading fronds, exquisitely cut and divided	75	5 00	
CLAYTONIA Virginica. The lovely "Spring Beauty." Flowers one-half inch across, pale pink. Blooms in April	50	2 00	15 00
DICENTRA cucullaria. One of the earliest and most beautiful of our spring flowers. Fern-like foliage, with an abundance of white flowers in April. (See first cover page)	50	2 00	15 00
DENTARIA laciniata. 6 to 8 inches high, bearing clusters of pale pink flowers in April. Root a tuber	50	3 00	
ERYTHRONIUM Americanum. Flowers 2 inches across, pure yellow. Foliage marbled and mottled with brown	50	2 00	15 00

Houstonia cœrulea.

	Per doz.	100	1,000
HOUSTONIA cœrulea. An elegant little plant, with small pale blue flowers in early spring. It is an elegant plant for forcing under glass	\$0 40	\$1 80	\$15 00
LIPARIS liliifolia. A very interesting Orchid, with lovely chocolate-brown flowers in large clusters. It will succeed perfectly in pots or under shrubbery . . .	1 50	8 00	
ORCHIS spectabilis. Flowers white and purple; in clusters	1 00	5 00	
ORNITHOGALUM umbellatum. Elegant pure white flowers in clusters. Very showy		50	2 00
PODOPHYLLUM peltatum. Very rich, tropical foliage, and large, waxy white flowers	40	2 00	15 00
SAXIFRAGA Virginica. An elegant rock plant. Flowers in clusters; pure white, opening in March and April	40	2 00	15 00
SEDUM ternatum. Makes a complete carpet over rocks or under shrubbery. Flowers white, in three-parted sprays	40	2 00	15 00
SANGUINARIA Canadensis. Flowers 2 inches across, pure waxy white. A grand plant	40	2 00	15 00
TRILLIUM erectum. Foliage very large and showy. Flowers large; dark red	50	3 00	
T. erectum album. Similar to the last, but has pure white flowers. Rare	75	4 00	
T. grandiflorum. The most beautiful of all the Trilliums. Flowers pure white, and from 3 to 4 inches across	50	2 50	20 00
T. cernuum. Flowers of medium size, white and pink	50	3 00	
MERTENSIA Virginica. Very showy. Flowers bright blue, in large clusters. Blooms in March and April. Very easy to manage. (See cut on back of this circular)	40	2 00	18 00

Seeds.

(HARDY PERENNIALS.)

The following seeds will be collected to order, and it will be necessary to place orders in advance of the collecting season, which begins in July. As it occasionally happens that the seed of some varieties does not mature, we are sometimes unable to furnish everything ordered.

Lobelia Cardinalis.

	Per 1/8 oz.	Oz.	1/4 lb.
Apios tuberosa	\$0 15	\$1 00	\$3 00
Arenaria squar- rosa	25	1 50	
Aquilegia Cana- densis	10	50	1 50
Asclepias tuber- osa	15	1 00	3 00

" acerifolium	10	30	75	
" dentatum	10	30	75	5 00
" prunifolium		15	50

Mertensia virginica.

Mertensia virginica.

We wish to call special attention to this beautiful spring-blooming bulb. Its great beauty and ease of management at once recommend it to all plant lovers. Some have been led to believe that it requires a long time to recuperate after moving. This is only the case when it is moved in late spring. If planted any time from July to December, every bulb will bloom freely the following spring. We had 3,000 of them in bloom this spring in our nursery, making a magnificent display.

STRONG TUBERS, 40 cts. per doz., \$2 per 100, \$18 per 1,000.
