THE LARGEST ROSE GROWERS IN THE WORLD.

TO OUR PATRONS.

We make the growing of Roses a specialty, and carry an immense stock of them, having ONE MILLION now on hand. You are invited to inspect this stock. Our aim is to give value for value. We wish to merit the full confidence of every customer we have. It is this method of dealing that has built our trade up in the nine years we have been in business, until to-day we handle more Roses and Plants than any firm in the United States.

CONDITIONS OF SALE OF PLANTS.—The plants named are offered at the rates quoted, provided that not less than **FIVE** of each class or variety are taken. No order will be filled from Plant List for a less amount than three dollars. All goods are sent by express, unless specially ordered otherwise.

PLANTS BY MAIL.—At the rate per single plant, we will send by mail, postage paid. At per dozen and one hundred one-fifth additional must be added to pay postage. At prices given, bulbs cannot be sent by mail. No charges for boxing, baskets or packing.

REMEMBER. we make the mailing of plants a specialty, so that parties in California and other far-off points who wish to avoid express charges can add one-fifth additional to their order and have them sent by mail. This does not apply to bulbs. We guarantee the safe arrival of all plants by mail.

We can send to California by express, where we prepay expressage in four-pound packages at eight cents per pound. Patrons so desiring, not wishing to risk the mail, can have goods sent by express where they send one-fifth the amount of their order additional to pay expressage with.

REMITTANCE should be made either in the form of Money Order, Bank Draft, Express Order or Registered Letter. Remittances in any other way are entirely at the sender's risk.

VASE OF GENERAL ROBERT E. LEE ROSES.

C. O. D.—Orders from unknown correspondents must be accompanied by the cash, or satisfactory reference. If ordered sent C. O. D., one-fourth the value of the stock called for must be remitted with the order. We can make no deviation from this rule, as at the very low rate offered we cannot afford to run any risk.

NEW EXPRESS RATE.—Remember, on plants Florists have the benefit of the new special plant rate, *i. e.*, 20% discount from the general merchandise rate. Our agents are glad to bill out all our boxes at this new rate. See that no mistake is made at your end of the line. Goods do **NOT** need to be prepaid to secure this reduction.

WE STILL LEAD THE WORLD IN ROSES.

Some of the Newer Roses.

Beaute Inconstante.—A wonderful Rose. Ranges in color from yellow to crimson. This new ever-blooming Rose from France is very remarkable in many respects, but the most notable is its ability to change its color. We have seen bushes of this wonderful variety bearing at the same time coppery-yellow, deep rose, bluish pink, mottled yellow and apricot, light and dark crimson Roses. These beautiful colors will sometimes be mottled in a single flower. Price, 10 cents each; 75 cents per dozen; \$5.00 per hundred.

Crimson Rambler.—Imported from Japan, the land of wonders. This Rose has proved an acquisition of the highest order. It is a rapid grower, and very quickly makes heavy canes of great length, covered with peculiar shining foliage. The blooms are produced in great bouquets, and are of a most peculiar and lovely shade of crimson. The small flowers are little more than semi-double, and of the shape of tiny cups. The blooms last and keep their color a long time, either on or off the plants. It has proved perfectly hardy, even in our trying Ohio climate. A bed of this pegged down and requiring little attention would be very useful to the general florist at blooming time. It also makes a fine pot plant, treated and brought on like the early blooming H. P.'s, and forms a perfect bouquet of bloom. Price, 10 cents each; 50 cents per dozen; \$4.00 per hundred.

General Robert E. Lee.—This is the first Rose that we have introduced, and we are sure it will please all who try it. It is in color an orange-yellow, after the style of Ma Capucine, only richer and better. It is a good grower, has elegant, long buds, borne on long stems, and will produce more buds than any Rose we know of. It forces easily, being at its best in mid-winter. It colors up much deeper and richer in cloudy weather, which will make it a useful Rose for winter forcing. There is no variety that will compare with it in all the qualities that go to make up the ideal Rose. The color is so peculiar and rich that it attracts attention wherever seen. Try it. Price, 10 cents each; 50 cents per dozen; \$4.00 per hundred.

Empress of China.—This is a new, hardy climber that possesses great merit. It is a strong, rampant grower, and a very free bloomer. Flowers of good size, from pointed buds, soft red, turning lighter as it opens. It blooms from May to December in the open ground. It will, in our estimation, become a standard variety for florists' use to bloom in pots for market purposes, as it is such a free and persistent bloomer. Introduced from China. Price, 10 cents each; 75 cents per dozen; \$5.00 per hundred.

Duke of York.—Award of merit Royal Horticultural Society. Flowers vary between rosy-pink and white, usually white, tipped with deep, rosy-pink, in the way of "Homer," but the pink shade is deeper than in that variety, and the contrast of colors, therefore, more striking. Flowers large for a China Rose, of vigorous growth and good habit. A splendid constantly-flowering decorative Rose of fine substance. Much more like a fine Tea than a China in character of bloom. Price, 15 cents each; 75 cents per dozen; \$8.00 per hundred.

Climbing Malmaison.—This is identical with the old Malmaison, except that it is a vigorous climber. Indeed, it is the most rampant of all the ever-blooming climbers. This is already a fixture in our list of climbing Roses, from its decided merits. Price, 20 cents each; \$1.25 per dozen; \$10.00 per hundred.

Princess May.—Award of merit at Temple Show of Royal Horticultural Society; certificate of merit International Horticultural Exhibition. This variety is of the Gloire de Dijon race, but is not quite so vigorous in growth as the majority of its class, being only semi-climbing in habit. It is quite distinct, the color of the flowers being a very clear, opaque pink, large, full, and globular. It is an excellent pot Rose, as it produces plenty of handsome foliage, which sets off the flowers to advantage. Out of doors it is a good autumnal bloomer. Price, 20 cents each; \$1.50 per dozen; \$10.00 per hundred.

Madame Bessonneau.—Flowers large, full, clear yellow, passing to creamy-white. A very close resemblance to Gloire de Dijon. This is a Rose of very decided merits in many ways. Price, 15 cents each; \$1.00 per dozen; \$8.00 per hundred.

Pink Souper.—A very fine Polyantha, in the way of Clothilde Souper, except color, which is a bright clear pink. Price, 15 cents each; \$1.00 per dozen; \$8.00 per hundred.

Rosa Wichuriana.—(The Memorial Rose.) This is a new and distinct class of trailing Rose, making a perfect carpet with its creeping habit. It is very useful for permanent planting in cemetery plots, or on slopes or rockeries, as it is entirely hardy, and produces its charming white flowers in the greatest profusion during the entire Summer. This Rose has come to stay, and is, without question, a decided acquisition. There are several colors distinct from this that will be offered the coming season. Try this Rose. Price, 10 cents each; 75 cents per dozen; \$5.00 per hundred.

NEW POLYANTHAS.

Price, 10 cents each; 75 cents per dozen; \$5.00 per hundred.

Etoile de Mai.—Blooms in clusters, quite full, nankin-yellow in bud, passing to pale yellow on opening. Very free.

Leonie Osterrieth.—Pure porcelain-white, with bright center.

Mme. A. E. Nolte.—Flower small, full, of perfect Rose form, color deep yellow, passing to rosy-white. A true "Fairy Rose."

Petite Leonie.—Flower small, full, and imbricated, the outer petals porcelain-white, center carmine-lake. An extra fine variety.

Princess Lancelotti.—A large-flowering Polyantha, like Clothilde Souper. Blooms full and flat, clear creamy-white, with canary center, very free, blooming in clusters, and very sweet.

ROSES! ROSES! ROSES!

ALL CLASSES AND KINDS,
BOTH OLD AND NEW.

OUR LEADING SPECIALTY IS STILL THE ROSE.

Our Stock is specially grown for florists' and nurserymen's use, and the young plants bought of us will be found clean, vigorous and healthy, with good roots, ready for immediate growth.

NONE BETTER EVER OFFERED.

Augustine Guinnoiseau, or White La France.—Here we have a splendid beauty indeed; one we can recommend to all. It is bound to take high rank as a forcing Rose. All who tried it for cut flowers last Winter will plant largely for the coming season, as it is their most profitable Rose. If you were to ask us to select six of the very finest Roses for you, we should be sure to include it in the six. It is identical with La France except the color. It is pearly-white, sometimes tinted with fawn. Don't fail to get this new Rose. Price, 10 cents each; 50 cents per dozen; \$4.00 per hundred.

Arch Duchess Marie Immaculata.—The coloring is an intermingling of bronze, orange-yellow, pink and crimson. An intensely brilliant flower of novel shades. Price, 10 cents each; 50 cents per dozen, \$3.50 per hundred.

Bon Glane.—Grown by every florist for its highly-colored buds, Dark crimson-rose, often changing to crimson. Price, 10 cents each; 50 cents per dozen; \$3.50 per hundred.

Bridesmaid.—The pink sport from Catherine Mermet. It is a stronger grower than its parent, has handsome foliage, is shorter jointed, and the flowers are a much livelier pink. A grand variety, and the most popular pink Rose ever introduced, and the best seller. Price, 10 cents each; 50 cents per dozen; \$4.00 per hundred.

Berthe Clavel.—New. A striped sport from old Souvenir de Malmaison. Color a creamy-white, with rose center, reverse of the petals striped violet and light rose. The above is the raiser's description. We have had blooms answering the description, and we think this a novel and useful new Rose. Price, 10 cents each; 50 cents per dozen; \$4.00 per hundred.

Beauty of Stapleford.—Color a clear, bright pink, shading to a bright, rosy-crimson. It makes large and beautiful buds, and is a constant and profuse bloomer. Price, 10 cents each; 50 cents per dozen; \$3.50 per hundred.

MAMAN COCHET.

New. This Rose attracted our attention from the very first time we saw it in flower. It comes from France—the country that has produced nearly all of our best Roses. We are not alone in our admiration of it, as all the visitors to our establishment the past season have been un- stinted in its praise. It is a vigorous grower, with beautiful, pretty foliage. In bud it resembles the *Mermet* family, being long and shapely, borne on long, stiff stems. It is of the largest size, and the flower is built up or rounded, and very double. The color is a deep rose-pink, the inner side of the petals being a silver-rose, shaded and touched with golden-yellow. We pronounce this the finest Rose by far that has been introduced from France in the past five years. We can with full confidence recommend this Rose. Price, 10 cents each; 50 cents per dozen; \$4.00 per hundred.

Belle Siebrecht.—A true self pink in color of the liveliest shade, and as sweet as a "June Rose." Buds long and elegantly pointed, and delightfully plump. A grand Rose that will rank high with all growers. Habit excellent, cane fine, growth quite first-rate. Price, 15 cents each; \$1.25 per dozen; \$10.00 per hundred.

Climbing Perle des Jardins.—Identical with *Perle des Jardins*, except that it is a vigorous climber. A grand addition to our Roses. It will rank with the very best. Price, 10 cents each; 75 cents per dozen; \$5.00 per hundred.

Christine de Nove, or Double Papa Gontier.—(New Forcing Rose.) A constant and free bloomer. The flowers are well borne upon strong stems, and are unusually large and handsome. The buds are long and finely pointed, the color a clear, rich maroon or deep purplish-red, passing to lake, center sometimes streaked silvery-white. Petals finely imbricated and the flowers deliciously sweet. More valuable than *Papa Gontier*, as fine a color, forces as well, has a larger bud, and is perfectly double. Price, 10 cents each; 50 cents per dozen; \$4.00 per hundred.

Clothilde Soupert.—Its color is a pearl-white, with a vivid carmine-rose center, which fades after a little, leaving the Rose almost white. It resembles the Hybrid *Noisette Boule de Neige* in form, and is almost as large when well grown. It is a constant bloomer, quite fragrant, and cannot fail to be a splendid market plant for growing in pots for Spring sales. In addition to its suitability for market purposes, it will be very useful to the cut flower worker, forming, as it does, nice sprays of open flowers and half-open buds. Price, 10 cents each; 50 cents per dozen; \$3.50 per hundred.

Catherine Mernet.—A beautiful clear flesh color, with the same silver lustre seen in *La France*. Large, full, well formed, very beautiful in bud. Still one of the finest and best forcing Roses. Price, 10 cents each; 50 cents per dozen; \$3.50 per hundred.

Crown Princess Victoria.—(White *Malmaison*.) New. The color is a pure waxy snow-white, sometimes has a lemon tint, and to those who desire a fine double flower when fully expanded, this will meet your wants, as it is very beautiful when full blown. Resembles that grand old Rose "*Malmaison*" in shape and fullness. Price, 10 cents each; 60 cents per dozen; \$4.00 per hundred.

Cloth of Gold, or Chromatella.—A clear golden-yellow, large, very full and double, highly fragrant. Highly prized in the South for pillars and verandas. We have the true variety. *Solfaterre* is sometimes sold for *Cloth of Gold*. Price, 10 cents each; 50 cents per dozen; \$3.50 per hundred.

Charles de Franclosi.—Color a rich, creamy-yellow or white, delicately tinged with salmon and fine peachy-red, reverse of petals a delicate salmon-rose. Price, 10 cents each; 50 cents per dozen; \$4.00 per hundred.

Comtesse de Frignense.—The color is a deep golden-yellow, with a soft shade inside of petal. As a yellow Rose this takes rank next to *Marechal Neil*. Price, 10 cents each; 50 cents per dozen; \$4.00 per hundred.

Countess Eva Starhemberg.—The bud is long in form, opening into a fine double flower of great beauty and heavy texture. Color creamy-yellow, shading to ochre at the center, borders of the petals touched with rose. Price, 10 cents each; 50 cents per dozen; \$4.00 per hundred.

Champion of the World.—This Rose possesses all the good qualities of an ever-bloomer. At this date, January 10, both young and old plants are budding for bloom, which is proof of its merits as a Winter bloomer. It is quite hardy, and possesses that delicious, old-fashioned Rose fragrance so much sought after in an ever-blooming variety. For a pot Rose it has no equal. Price, 10 cents each; 50 cents per dozen; \$4.00 per hundred.

Charles Legrand.—Color a fine chamois red, richly shaded with violet-crimson, very sweet, and a constant bloomer. Extra fine. Price, 10 cents each; 50 cents per dozen; \$3.50 per hundred.

VASE OF MAMAN COCHET

A soft, light rose, with a heavy shading of amber and salmon. Price, 10 cents each; 50 cents per dozen; \$3.50 per hundred.

Duchess of Albany.—It is identical with *La France*, excepting in three points. Those are, a more vigorous growth, a larger and more expanded flower, and a deep, even pink in color; not shaded, but what is called a solid color. Ladies prefer it on account of its beautiful color to any other Rose for personal adornment, as it shows up well against either light or dark dress goods to a charming advantage. The growth of the plant is exceedingly vigorous, being covered with handsome flowers. You will make no mistake to plant this Rose largely. Price, 10 cents each; 60 cents per dozen; \$4.00 per hundred.

A grand garden Rose on account of its vigorous growth and hardiness. Price, 10 cents each; 50 cents per dozen; \$5.00 per hundred.

The flowers are of the same form and size, while the color is an ivory-white of great purity. This variety will prove invaluable to Rose growers, for it is of the same easy management as Perle, requiring the same temperature and treatment. And if there is a difference in freedom of bloom it is in favor of Senator McNaughton. Price, 10 cents each; 60 cents per dozen; \$5.00 per hundred.
- Sunset.**—The color is a remarkable shade of rich, golden amber, elegantly tinged and shaded with dark, ruddy copper, intensely beautiful, and resembling in color a splendid "after-glow." Price, 10 cents each; 60 cents per dozen; \$4.00 per hundred.

- The Bride.**—A lovely pure white, very fragrant Rose, admirably adapted for forcing. The buds have more substance than Niphetos, are very full and double, and possess the good characteristics of Catherine Mermet. Price, 10 cents each; 50 cents per dozen; \$3.50 per hundred.
- Viscountess Folkestone.**—The flower is delicately tinted flesh, almost white, and lustrous as satin. When in full bloom it is like a fine white Pæony, but without a suggestion of stiffness. Price, 10 cents each; 50 cents per dozen; \$4.00 per hundred.
- Waban.**—This very valuable Rose is a sport from Catherine Mermet, and identical with that variety in every characteristic excepting color, which is a rich, deep, bright pink. Price, 10 cents each; 50 cents per dozen; \$3.50 per hundred.
- Waltham Queen.**—Nothing can compare with this for beauty of bud and foliage, and it literally lavishes in the greatest profusion its beautiful, rich, red flowers of magnificent size. This Rose has been awarded first premium wherever exhibited. Price, 10 cents each; 75 cents per dozen; \$5.00 per hundred.
- White Perle des Jardins.**—We think that every lover of white Tea Roses will be delighted with white Perle. It will be found totally distinct from Bride or any other White Rose. A great Rose. Price, 10 cents each; 60 cents per dozen; \$4.00 per hundred.

GENERAL COLLECTION OF HARDY ROSES.

PRICE. 50 CENTS PER DOZEN: \$4.00 PER HUNDRED.

Our Hybrid Roses are Fine, Strong Plants, with Healthy Foliage and Bright Roots.

Anni de Diesbach.—(*Glory of Paris.*) A brilliant crimson, sometimes shaded with bright maroon, long, pointed buds, and large, finely-formed, compact flowers, very full and sweet. One of the best.

Alfred Colomb.—A bright carmine crimson, very large, full, and of fine, globular form.

Ball of Snow. (*Boul de Neige.*) A fine-formed, pure white Rose occasionally shows light flesh when first opening. Beautiful shell-shaped petals, evenly arranged; flower of good size.

Cocquette des Alps.—A lovely pure white Rose. Very full and free in flower. Delicious fragrance.

Cocquette des Blancches.—One of the finest white Hybrid Perpetuals. Flowers large, pure snow white, very double, full and fragrant. A constant bloomer. One of the best.

Captain Christy.—The flowers are of more magnificent form, very double, and stand erect in their martial bearing. The color is a fresh, delicate pink, with deeper shading in the center of the flower; the whole flower possessing a bright, satiny appearance. A desirable variety. Certainly the most beautiful Rose of this color we grow. It is a free bloomer.

Comte de Paris.—A new Rose of great promise; bright, vivid, poppy crimson when first opening, becoming darker and delicately shaded with violet as the flowers expand. Very large and full, petals of good substance and very sweet. A magnificent Rose.

Countess of Roseberry.—We have in this charming variety probably the most beautiful Rose grown. No other Hybrid can approach it in its exquisite coloring. Indeed, no one would take it for a Hybrid, as it is as delicate and beautiful in its tints as the most gorgeous of the Teas. The color is satin-pink in the center, and deepens to the outer petals to a bright rose. The feather shading gives it the appearance of two distinct colors. It has completely captivated us. Very free flowering, and a good grower. Be sure and try it.

Dinsmore.—We quote the introducer's description: "For years we have been looking for a variety which had all the desirable qualities of a bedding Rose—that is, one which was of good color, fine form, profuse bloomer, and which would stand the rigors of our Northern Winters without protection; and we can conscientiously say that, until the Dinsmore was produced, there was none, to our knowledge, which combined all these qualities. It is a vigorous, healthy Rose, of dwarf, branching habit, and is simply loaded with flowers all Summer long, being even more profuse than most of the tender, 'ever-blooming' Roses. The flowers are large, perfectly double, and of a dazzling scarlet-crimson color, and have the rich, spicy fragrance peculiar to the best Hybrid Roses." We have proved the Dinsmore to be entirely hardy, and can recommend it as being the finest garden Rose ever offered. Remember, it is entirely hardy, blooms incessantly, and is one of the most beautiful of all bedding Roses.

Doctor Hogg.—Deep violet crimson, richly shaded with maroon, shell-shaped petals, full, compact form, very double and desirable.

Fisher Holmes.—Dark, rich scarlet, elegantly shaded with deep velvety crimson, beautiful, extra large, full flowers, fragrant.

Francois Levet.—A very beautiful Rose. Soft, china pink, delicately-shaded carmine and blush, large, finely-formed flowers, delightfully fragrant.

General Washington.—This magnificent Rose is one of the best for general planting. Color a brilliant, shining crimson, very rich and beautiful, flowers are large and perfectly double. A free and regular bloomer.

Giant of Battles.—This is still esteemed as the very best rich red Rose. Very large, double, full and sweet. Excellent.

Gustave Piganeau.—Flowers extra large, equaling Paul Neyron in size, double and of cup form. Color a beautiful shade of bright red and brilliant carmine. Received four medals, and was illustrated in the *Journal des Roses*. This is the finest Hybrid of recent introduction. The bud is very large and full. We believe this to be the very best crimson Hybrid Rose grown.

Gloire de Margottin.—This grand new Hybrid Perpetual Rose originated in Europe, and is believed to be one of the very finest varieties of recent years. The flowers are very large and of symmetrical form, somewhat globular, very full and deliciously scented. The color is a clear, dazzling red. Certainly one of the most brilliant Roses ever seen. It is a free bloomer and vigorous grower, and is recommended for its great beauty and most wonderful color.

General Jacquemont.—A rich, velvety crimson changing to a scarlet crimson. A magnificent Rose, equally beautiful in the bud state or open. This is the best known of all Hybrid Perpetuals, and is without a rival in fragrance and richness of color. It is, moreover, as easy of cultivation as many of the more common varieties, and perfectly hardy.

Gloire de l'Exposition Bruxelles.—Flowers finely formed, large and perfectly double. Color a bright crimson of velvety texture. A Rose of unusual merit. We are pleased with it.

Glory of Cheshunt.—An elegant Rose of the deepest fiery crimson. The flowers are large, full, and double to the center, and very symmetrical. The fragrance is most delicious. A Rose we highly recommend.

Jean Llaband.—Fiery crimson, shaded with black, very dark flowers, large, full and very beautifully formed.

John Hopper.—One of the most reliable and satisfactory Hybrid Perpetuals ever grown. Flowers are large, very regular, and full. Color a brilliant rose, changing to a bright, glowing pink, shaded with rich scarlet. Very sweet and a profuse bloomer.

Jules Margottin.—A bright, clear cherry red, large and very double. A general favorite. One of the best Roses.

La Reine.—A beautiful, clear, bright rose, fine, full form, very fragrant. It is well named "The Queen."

Lady Emily Peel.—Very sweet, color white, sometimes tinged and shaded with blush.

Louis Van Houtte.—A rich crimson heavily shaded with maroon, beautifully formed, double flowers.

Lady Helen Stewart.—A bright scarlet crimson, flowers fully rounded out, petals large and thick, highly perfumed, very beautiful.

Marchioness of Lorne.—This fine new English Hybrid Perpetual was introduced by Messrs. Wm. Paul & Son, of London, who say: "This beautiful Rose, dedicated by special permission to Her Royal Highness, the Princess Louise, Marchioness of Lorne, produces flowers of an exceedingly rich, fulgent rose color, slightly shaded in the center with vivid carmine. They are large and very sweet, full and finely cup-shaped. Petals large and buds long and handsome. It is especially remarkable for its truly perpetual habit, every shoot being crowned with a flower bud."

Madame Masson.—An excellent Hybrid Perpetual, noted for its constant and profuse bloom. The flowers are large. Color a clear, bright rose, highly perfumed. One of the best for planting. This Rose is a very superb variety, and should be more generally known. You should try this variety.

Mademoiselle Marie Rady.—A clear, bright red, finely penciled with rich maroon, very large, full flowers, fragrant and beautiful.

Magna Charta.—A bright, clear pink, flushed with crimson, very sweet, flowers extra large, with fine form and very double.

Monseigneur E. Y. Teas.—A very beautiful and satisfactory Rose. Color a rich, glowing crimson, very bright and striking. Large, round flowers, of perfect form, full and sweet. Highly recommended.

Madame Plantier.—The iron-clad white cemetery Rose. This is the old standby, and is unequalled where a hardy white Rose is needed. It bears thousands of beautiful, snowy-white fragrant Roses. It is as hardy as an oak.

Madame Alfred de Rougemont.—A strong, vigorous grower, begins to bloom at once, and continues until stopped by severe freezing. Pure snow-white flowers, finely-tinted and clouded with pale rosy blush. Large, full, and double, and borne in large clusters. Fragrant and good.

President Lincoln.—A bright red Rose of the richest hues, large, full and fragrant. Excellent.

Perfection des Blancches.—A finely-formed, pure white Rose. Occasionally shows light flesh when first opening. Beautiful shell-shaped petals, evenly arranged. Flowers of good size, perfect and of fine form and finish. One of the finest, freest, and most beautiful of the White Hybrids. Almost as free a bloomer as the Teas. Very suitable for cemetery planting and for hedges, as it makes a beautiful bush.

Paul Neyron.—Deep, shining rose, very fresh and pretty. Flowers large, often measuring five inches in diameter. Without doubt the largest flower of all Roses, and it has this merit—though very large, the buds always develop fine, perfect Roses. It is, moreover, a good, strong grower, with nice, almost thornless stems, which often attain six to seven feet in a single season. We know of no Rose possessing so many good points to recommend itself as the Paul Neyron. Grown by thousands in the eastern cities for its good, free-blooming qualities.

Silver Queen.—Silvery-blush, shaded in the center with a delicate rosy-pink, very distinct, large and full, of beautiful cupped form, and produced in great profusion, every shoot being crowded with a flower bud, foliage handsome, and habit unusually good, the flowers standing well above the foliage.

Vick's Caprice.—This is the only hardy Rose that has any variegation. It is a vigorous grower, and bears large and fragrant flowers of bright rose, distinctly striped a rich crimson. It is altogether a most unique and pretty variety. A Rose that is sure to attract attention. We always have a large sale for this Rose. Vick's Caprice is growing in favor very fast, as its true worth is being found out. It is a Rose we can cheerfully recommend.

NEW

CHRYSANTHEMUMS.

Price, 50 cents per dozen; \$4.00 per hundred.

Our Chrysanthemums are all in three-inch pots, and are fine plants. : : :

CHRYSANTHEMUM,

EUGENE DAILLEDOUZE.

This beautiful variety captivated all who saw it at the World's Fair. There is nothing brighter or clearer among the yellows. The center of the flower is folded close, the outer petals broad and incurving, and of great substance. It is full to the last degree, of great depth, and of the most perfect form. We consider this the crowning glory of the year in new Chrysanthemums. It is the winner of twenty first premiums and gold medals.

Beau Ideal.—Beau Ideal is a bright, rosy-pink, without touch of lavender shadings. The form is a somewhat flat, incurved shape, the outer petals horizontal, showing the bright pink, the incurving center showing a lighter shade. We know of no variety that will compare with it in purity and brightness of tone. It is very free-blooming and of the largest size. It captured eight first prizes.

Challenge.—Challenge is a late variety, being in full perfection November 25th to 30th. Before that time the center florets have not taken on their true character, although it is in grand condition throughout the month. The flower is a perfect globe of gold, which finally shows a pointed center. Color bright yellow, the form quite as deep as wide, the stem very strong, foliage extra good, and a somewhat dwarf grower. Needs hardly any tying up. The long-looked for ideal yellow, both for exhibition and commercial purposes.

Enfant des Mondes.—The white sport from Louis Bachmer. This variety will displace Mrs. Alpheus Hardy. It is a strong, free grower. It perfects its flowers readily, while the bloom is of grand size and build. The color is a creamy-white, shading to pure white. It is heavily plumed.

George W. Childs.—The flowers are of massive size, reflexed, with broad, stiff petals, color a deep, rich, velvety-crimson, with no shade of brown or chestnut. It is a fine, strong, clear grower. It captured the first prize at Chicago for best red. It was awarded the J. R. Pitcher, Esq., gold medal at Orange, N. J., for the best seedling; the silver medal by the Pennsylvania Horticultural Society; the medal of excellence, American Institute; certificate of merit at Indianapolis. It was exhibited at Indianapolis this year over eight inches in diameter. No Chrysanthemum can compare with it for color, size of flower and growth.

Inter-Ocean.—It is an ivory-white, very massive in build, recurving, and petals interlacing. This variety was cut twelve days before the Chicago show, and reached there in fine condition, being awarded a special Columbian medal. Our friends can depend upon its being the very finest and most distinct white Chrysanthemum of the year. Winner of ten first prizes.

Mutual Friend.—A reflexed pure white, from seven to eleven inches in diameter, great depth, stiff stems, heavy foliage within six inches of the flower, blooms a week later than Ivory, of medium height.

Mrs. E. G. Hill.—This beautiful variety is one of the very earliest to bloom, which makes it decidedly meritorious. It is of vigorous growth and fine form, the blooms are eight to ten inches in diameter, the color is a delicate lavender-pink, petals incurved. The display of this variety at the World's Fair attracted all passers-by, and was admired greatly. It was the winner of twelve first prizes.

Mrs. J. George Hs.—It is an ivory-white, very massive in build, recurving and petals interlacing. This variety was cut twelve days before the Chicago show, and reached there in fine condition, being awarded a special Columbian medal.

Pitcher & Manda.—This is the most wonderful Chrysanthemum ever introduced. There is nothing that has ever been offered that in any way approaches it. Who ever heard of Chrysanthemums having two distinct colors in one flower? But that is just what Pitcher & Manda is. The outer five or six rows of petals are pure white, and of Dahlia-like form, while the center is a bright, deep yellow, the two colors being sharply defined.

PHLOX.

Hardy Perennial.—The new French varieties all carry very fine, distinct, pure colors, in great trusses, many of them beautifully shaded and marked with very distinct, clear, bright eyes. They require no care but dividing and resetting every second year. Their vigorous growth and freedom of bloom make them very useful plants, while they are unexcelled in beauty. The improvement made in this beautiful class of plants is, perhaps, more marked than in any other section of the hardy, herbaceous family. Instead of the thin flowers, which were limited to lilac and white colors, we now have gorgeous flowers, combining all the different tints of rose, carmine, red and purple, to say nothing of the pure whites and salmon, with their distinct eyes. Perfectly hardy everywhere. Ten sorts of the most elegant varieties. Price, 40 cents per dozen; \$3.00 per hundred.

OTAHEITE ORANGE.

This valuable and distinct variety of the Orange family is a dwarf, compact grower, with glossy, deep-green foliage, which has a decided odor of the orange trees of Florida, and is exceedingly floriferous, producing a wonderful profusion of pure white flowers of the most delicious fragrance, identical with the much-sought-for blooms of Southern orange groves. Otaheite fruits immediately after flowering, bearing fruit about one-half the size of the ordinary orange, retaining in a marked degree their sweetness. This unique Orange cannot be equaled as a winter-blooming pot plant for house culture and is of the easiest culture. Requires but little sunlight and flowers and fruits when but twelve to fifteen inches high. As a pot plant, this lovely dwarf orange is one of the most novel and beautiful that can be grown. With a couple of plants of it you can have an abundance of the far-famed delicate and fragrant orange blossoms. We have grown a large stock of clean, vigorous plants that will bloom and fruit at once of this beautiful Orange, and commend it to our friends as a novelty of sterling worth and merit. Price, 40 cents per dozen; \$3.00 per hundred; \$25.00 per thousand; three-inch pots, 75 cents per dozen; \$5.00 per hundred; five-inch pots, \$2.50 per dozen.

SWAINSONIA ALBA.

Something new and valuable.
It blooms both Winter and Summer.

A beautiful, continuous-flowering, new plant with pure white, sweet pea like flowers, produced in sprays of from twelve to twenty blossoms each. Nothing surpasses it as a decorative plant for the window or conservatory. The pinnated, feathery, fern-like foliage is a cheerful light green, and has always a neat and clean appearance. It is of easy culture, growing in almost any light position. Its great freedom of bloom, being seldom without flowers, the grace, purity and beauty of its flowers, and the neat habit and fine appearance of the whole plant will undoubtedly make it one of the most popular plants in cultivation. Especially valuable for cutting. Owing to its ease of culture and beauty of both plant and flower, it is one of the most valuable and desirable home plants that has yet appeared. Price, 10 cents each; 40 cents per dozen; \$2.50 per hundred.

ROYAL PURPLE.

(*Strobilanthes Dyerianus*.)

A new and very beautiful foliage plant from Singapore, which will become universally popular on account of the brilliant and exquisite coloring of its leaves, the beauty of its flowers and its extraordinarily easy growth and usefulness as a decorative plant. It surpasses the finest Coleus in exquisite coloring of the leaves, besides which the long racemes of lovely violet blossoms with which the plant is covered in midwinter greatly enhance its value and beauty. The undulation on the surface of the foliage is furnished with a bluish metallic hue, shading into bright rosy-purple in the center, with light green or grayish green edges. Each flower is an irregular tube, nearly an inch long and colored dark blue. If the leaves had no attractions whatever the plant would still be well worth growing for the sake of its flowers. Price, 10 cents each; 50 cents per dozen; \$3.00 per hundred.

GREVILLEA ROBUSTA. (The Silk Oak.)

A magnificent plant for decorative purposes. Of rapid, easy growth, finely cut foliage, rivaling a rare Fern. The young, growing leaves are a light, bronze color, the tips being covered with a soft down, closely resembling raw silk, hence the name of "Silk Oak." In its native place it attains magnificent proportions, and produces an abundance of bright, orange-colored flowers. The leaves are fine for designs, so fern-like and not liable to wilt. Price, 40 cents per dozen; \$2.50 per hundred.

SANSEVERIA ZEALANICA.

A New Decorative Plant of Great Beauty and Value.

A beautiful plant, splendidly adapted for the decoration of drawing rooms and halls, as it stands drouth and dust with impunity, and requires scarcely any water. The leaves, as shown in cut, grow to a

SANSEVERIA ZEALANICA.

ARTIGONUM LEPTOPHUS.*(The Queen's Wreath.)*

A splendid climbing plant from Central Mexico, producing rose-colored flowers in racemes two feet long. The profusion of bloom is such as to give the resemblance of Roses at a distance, hence its name, *Rosa de Montana*, or Mountain Rose. Price, 50 cents per dozen; \$4.00 per hundred.

Three inch pots. Price, 40 cents per dozen; \$2.50 per hundred.

PLUMBAGOS.

Capensis Flora Alba.—This is a splendid novelty. The exact counterpart of Plumbago Capensis except in color, which in this beautiful novelty is a clear white. Price, 50 cents per dozen; \$3.50 per hundred.

Capensis.—This produces large heads of light blue flowers. Has the most peculiar shade of blue of any flower in cultivation. Always in bloom and an elegant bedder. Price, 50 cents per dozen; \$3.50 per hundred.

Lady Larpent.—(*P. Larpentii*.) This beautiful variety of Plumbago was first popularly introduced in 1890. Since that time it has so thoroughly pleased all who have planted it, achieved such great popularity, which, coupled with our own thorough tests and observations, demonstrate that it is unquestionably the most distinct and valuable hardy herbaceous plant now in cultivation. Price, 50 cents per dozen; \$3.50 per hundred.

New Pink Plumbago Sanguinea.—The Plumbagos are very desirable plants for bedding or house culture, and are admired by all for their elegant trusses of bloom and the delicate colors of their flowers. The light blue, deep blue and white varieties are well known favorites, but with the new variety Sanguinea we have something that is entirely distinct and the prettiest of all Plumbagos. The trusses of bloom are larger than in the older varieties, often measuring ten inches in length, and of the loveliest bright pink or deep rose. Price, strong plants, 75 cents per dozen; \$5.00 per hundred.

THE HARDY CHINESE MATRIMONY VINE.

The old-fashioned Matrimony Vine was a general favorite more than fifty years ago, but in beauty of flower, fruit and foliage it cannot compare with this superb variety. A most vigorous, hardy climbing plant when trained to an arbor, fastened to

a fence, attached to a tree, to the side of a house, the pillars of a piazza, or in any location where a hardy, vigorous climber is desired. It sends out numerous side branches, so that it covers a great amount of space in a short time, and every new growth is at once covered with bright purple flowers, which are succeeded by brilliant scarlet berries nearly an inch long, every branch being loaded with them. Price, 50 cents per dozen; \$3.00 per hundred.
