Bulletin No. 2.

Shipments from St. Louis AT ONE DAY'S NOTICE.

—* **SURPLUS STOCK** *

—FROM THE—

Huntsville Wholesale Nurseries.

HUNTSVILLE, ALA.

We have for the past sixteen years offered in assorted lots, at St. Louis, in Spring, such stock as we had in surplus. The plan has been satisfactory to our customers and ourselves. Herein is a schedule of what we now have in St. Louis for immediate shipment. This stock is exclusively our own growing at Huntsville, Alabama, fresh dug this Spring, and packed in the best manner, in moss, and warranted in fine condition. Everything is fine of the grade, with full fibrous roots, and not culled, as we adhere to a strict system of grading.

Below the Blizzard Line.

Our Nurseries are far enough south to escape the severe freezing weather. Everything is bright, green and fresh—sound to the tips. Nearly all the sorts offered are standard sorts, such as most nurserymen can use in assortment with their own growing. Orders should be sent in as early as possible; but the stock need not be shipped until wanted, as we are prepared to hold it here in good condition. We have nothing for sale not offered on this list.

It will be noticed by some of our correspondents that we have refused orders the past season for several articles listed. Our fear of overselling, and some countermands, account for this. We ask attention to the small-sized trees offered, for transplanting into nursery rows. All of the small trees, as well as the large ones, are very nicely rooted, and everything is young, smooth and bright.

We can refer to nurserymen who have bought of us in nearly every State and Territory. We have given satisfaction, and guarantee it for these shipments.

Terms—Cash with order, or 30 to 60 days from date of shipment to responsible, prompt-paying parties. Address W. F. HEIKES, Manager, 2018 Chouteau Ave., St. Louis, Mo., until May 1st.

For convenience in telegraphing for assorted lots, a cipher is given. The cipher word stands only for one box in cases where there are more than one in the same assortment.

Address **W. F. HEIKES, Manager,**

2018 Chouteau Avenue, ST. LOUIS, Mo.

ST. LOUIS, MO., March 14th, 1896.

For usual conditions concerning risk of transportation, claims, etc., see Huntsville Wholesale Nurseries pages in *The Practical Nurseryman*.

ASSORTED LOTS.

We offer the following assortments, in box lots, at very low prices, to insure quick sales, as we do not open or repack anything in St. Louis. The stock is of the same quality as that sent out by us heretofore. Each box contains an assortment as shown. In ordering one or more boxes, should the particular lots desired be sold, state what substitution will be allowed. The prices quoted include the cost of boxes and the freight from Huntsville to St. Louis—the transfer charges at this point are to be paid by the purchaser. When the post-office address and the railroad station differ, always give explicit marks for the boxes when ordering.

PERFECT DORMANT CONDITION.

The spring has been very favorable for digging and shipping, and everything is in fine dormant condition. The cold storage plants here have been greatly extended and improved, and the new system of refrigeration enables us to hold our trees in a low temperature. This will insure a perfect dormant condition until the close of the season. We have brought to St. Louis this spring fifty-two car-loads, including packed orders and surplus stock.

See page 11 for Surplus Stock in Rochester, N. Y., and Philadelphia, Pa.

STANDARD PEARS, TWO YEARS.

KEIFFER PEARS, TWO YEARS, Root Grafts—Own Roots.

These are very handsome trees, with good roots, but not as well distributed as budded trees. We have sold large numbers of these trees the past Fall and this Spring, and they have given good satisfaction.

FREQUENT BULLETINS.

We will issue Bulletins from St. Louis weekly during March and April. Any one not receiving them regularly will please write for copies.

SMALL TREES FOR TRANSPLANTING.

We ask particular attention to our quotations on small trees, which we recommend for transplanting into nursery rows. They should make saleable trees in the Fall of 1896 and Spring of 1897. We will sell for this purpose, any of the trees offered in this list of the following sizes: Standard Pears, ½ to 9-16, 3 to 4 ft.; Dwarf Pears, 1 year, 3 to 4 ft. and under; Plums, Cherries and Peaches, 1 to 2 ft., 2 to 3 ft. and 3 to 4 ft.—and take note, bearing the maximum legal rate of interest from date of shipment, payable May 1st, 1897, from parties in good commercial standing.

Boxes for transplanting may be ordered at any time, but not to be shipped before April 15th.

TREES FOR FALL OF 1896.

We are always ready to make prices. We have over 800 acres covered with nursery stock, one and two years old, and nothing older. Large stocks of Standard Pears, one and two years old; Plums and Cherries, one and two years old; Peaches, Apricots, Quinces, Roses, Mulberries and Figs, one year-old.

Heikes—Huntsville—Trees.

Terms and Conditions Governing Quotations in the Price List of the Huntsville Wholesale Nurseries.

RATES.—As we send this list to the trade only, we make the difference in prices between the 10, 100 and the 1,000 rates very slight—simply sufficient, as a rule, to cover the difference in the expense of handling in the smaller numbers. We uniformly tie in bunches of 10, when consistent with the order, and we suggest to our customers to make their orders for varieties in multiples of ten as far as practicable. Orders for 50 and not over 300 trees, if for not less than 10 of a variety, will be charged at the rate per hundred. Orders requiring 300 trees or more, and not less than 10 of a variety, will be filled at the lowest quoted prices. Orders for less than 10 trees of one variety, will be charged at the rate per ten.

SEASON.—Our packing and shipping season begins by the 20th of September, and continues until about the 1st of March.

We have great advantages to offer here in early shipments for the North in Spring. We do not accept orders for trees we do not grow, as we never buy trees to sell again. You can depend upon us for fresh dug trees. Each order is taken up separately, and not until it is wanted for shipment.

SHIPPING DIRECTIONS.—We respectfully beg our patrons to furnish us with explicit directions as to shipping, and the mode of conveyance by which they desire trees forwarded. When no particular directions are given, we forward according to the best of our judgment. *But in no case do we assume any responsibility as to safe delivery and condition of Trees and Plants after a proper shipment by us.*

RELEASE.—When pre-payment of freight is not required, we will Release and Guarantee, and take forwarder's receipt and mail to consignee. It is left to the option of the shipper of trees over some railroads, whether he will release them or not under the clause, "Value less than \$5.00 per 100 lbs." If released under this clause, the freight is less on roads governed by this classification, and we will assume it to be proper to make this release, without reference to the value of the trees, unless instructed to the contrary. This clause does not apply upon roads under some of the district classifications, and because of this confusion we will not be held responsible for any oversight to release, unless instructed by our customers. Claims for delay or loss must be made to the forwarders.

PACKAGES. The cost of package must be added to the prices quoted in this list, as follows: Boxes 30 inches square, from 7½ to 9 feet long, as the trees may require, each \$2.00; boxes 24 inches, 12 by 12, each \$1.00; boxes from 25 to 7½ feet each. This does not apply to trees offered in box lots.

PACKING. Goods will be packed in moss, and especially are taken to insure their arrival in the best condition.

ASSORTMENTS.—We do not require customers to take an assortment they do not wish; but will sell one variety a one if desired. If any substitution can be allowed, either in grade or variety, it should be so stated when making the order. As a rule we do not substitute without permission.

CATION. We accept all orders upon the condition that they shall be void, should any injury befall the trees from frost, hail, storm, fire, or other causes over which we have no control.

TERMS.—Cash. When desired we will allow 10 to 60 days from date of shipment, to responsible, prompt-paying customers. Parties

with whom we have had no business transactions, will save time by sending reference. Bank, if possible, with order. We wish it expressly understood that payment is expected from the first collection made, and the time named is only intended as so many days of grace in which to make returns. To northern customers, who wish to lay in stock for Spring trade, we will ship late in Fall or early in Spring, and allow time for payment till May 15th. If shipment is required in the Fall for Spring use, a note is to be given upon receipt of the trees. We do not allow any discount for cash, but we make our prices low to command cash, or prompt returns. In orders when the time is not mentioned, 30 days is to be understood. Interest at the maximum legal rate must be paid on over-due accounts. Should prices be changed, either higher or lower during the season, the prices ruling at the time the order is made are expected to stand.

FORMS OF PAYMENTS.—All bills are payable at the office of the seller, and remittances should be made by drafts on New York, Chicago or St. Louis, or by money orders on some Express Company, or by postal orders. We will, however, accept checks from those of our customers who may be located at places having no banking, express or postal facilities, provided they make them in every case payable "in full exchange," or add 1% of one per cent to the amount of the draft for the cost of collection.

GRADES.—We grade very carefully, to secure grades by volume, rather than by height. When graded by both height and height, the rule must govern, as the height then entered is only to be considered approximately. When graded by height or caliber, we include the lower number, and exclude the higher. Instance: in a grade of 4 to 5 feet trees, the 4 feet trees are included, but not the 5 feet trees. If 5 feet trees are wanted, the 5 and 6 feet grade must be ordered.

GUARANTEE OF GENUINENESS. While we exercise the greatest diligence and care to have all our Trees, etc., true to label, and hold ourselves in reputation, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or to find the amount paid, it is tantamount and issued and agreed to, between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that shall prove untrue.

NOTICE.—If, by telegraph, or otherwise, if there is any cause of complaint, or should the trees be refused, stating reasons. If, for any reason, from whatever cause, will receive consideration only when made promptly upon the receipt of the trees. If trees show any signs of shrivel (due upon arrival, they can usually be restored by being thoroughly watered and buried entirely under the ground for two or three days. Should there be any frost to the trees upon arrival, they should not be removed from the box until the frost is all out. The box should be placed in a place that is protected in some other way. The presence of frost to the boxes is not to be considered an influence or bad condition, as we pack to secure the trees against damage. If the frost is allowed to come out to the natural way, goods will be considered accepted if removed from the boxes in which they are packed, without notice of complaint to us, and without our orders for their disbursement.
