OF

STRAWBERRY PLANTS

FRUIT, SHADE AND
ORNAMENTAL

TREES.

Accomack Nurseries

A. J. McMATH,

(Successor to McMath Bros.)

ONLEY,

VIRGINIA.

LOCATION.

Our nurseries are located about the centre of the peninsula of the Eastern Shore of Virginia on the line of the New York, Philadelphia and Norfolk Railroad—the great through route from North to South, connecting at Philadelphia and New York for all points North and West, and at Norfolk for all points South. Our office is within a few yards of the railroad depot, Adams Express, Western Union Telegraph and Post Office, so that we have every facility for quick despatch of business.

TERMS AND ADVICE.

Cash With Order, unless by special agreement. Nursery stock bought on time seldom does well! Then, you should not expect us to know who are good and who are not. We cannot afford to take any risk at these low prices.

Money can be sent by registered Letter, draft on New York or Philadelphia, or Postoffice Money Order.

Very Important. In every letter always write your name, postoffice, county and state very plainly, and give explicit shipping directions, whether by freight or express.

Packing is done in the best manner, free of charge, except in cases where large boxes are required, then only a sufficient charge is made to cover cost of material.

Reference. First National Bank of Onancock, Virginia.

Guarantee. We guarantee our stock true to name, and will replace the same free of charge if it should prove the contrary: but it is mutually agreed between the purchaser and ourselves that we will not be held responsible for any amount greater than the original cost of stock.

STRAWBERRIES.

The strawberry is our specialty. In fact we are the largest growers of plants in the state, and our stock has gone to every section of the Union, and to foreign countries.

Our soil is especially adapted to the growth of strong well rooted plants, which are dug from new beds, cleaned of dead leaves and vines, roots straightened, tied in bunches of 50 each, and packed in moss in light boxes or baskets, to carry safely by freight or express to any part of the country. We do a large mailing business and small quantities can generally be sent cheaper and in better condition by mail than in any other way.

The blossoms of all varieties are bi-sexual or perfect, except those marked **P**, which are destitute of stamens, and are termed pistillate, or imperfect, and need every fourth or fifth row to be planted with some perfect sort.

GENERAL LIST OF STRAWBERRIES.

Those marked **P** have pistillate or imperfect blossoms, and must be planted near some variety with perfect flowers, to fruit them. If to go by mail add 20 cents per 100 to pay postage: at dozen rates mailed free.
