ONION SEED.

Upon no other crop does the quality of the seed have a greater influence than upon onions. Special care should be exercised by all dealers to obtain pure stocks.

LEONARD'S ONION SEED is endorsed by market gardeners everywhere. Each succeeding year adds to its popularity with them. This is the surest indication of merit.

ONION—LEONARD'S YELLOW GLOBE.

This stock gives better satisfaction for general use than any other. It forms a large sound bulb; has a small neck and dries down uniformly, which makes the harvesting easy. It is a fine keeper, does not split and get unshapely, but winters over splendidly and keeps until new onions come in prime condition always. We think it is the best onion for ordinary purposes. We have recommended it as the best for the past five years. For price see below.
