PRICE LIST OF BULK SEEDS

FRANK FORD & SON, Seedsmen.

RAVENNA, OHIO.

JUL 21 1923

U. S. Department of Agriculture.

Terms, Cash with the Order. The only exception to this is, if it is any accommodation, our patrons may send not less than ONE-FOURTH of the amount with the order and the balance before shipment.

For Further Directions in regard to Remitting Money, Shipping, Postage, Special Offer of Seeds in Packets, etc., see pages 2, 3 and 4 of our Retail Catalogue, and following pages for accurate descriptions of Vegetables.

These Prices Do Not Include Postage. If seeds are to be sent by mail, add eight cents per pound; fifteen cents per quart for Pop Corn, Peas and Beans; twelve cents per quart for Sweet Corn.

Our Seeds Are All Tested as to Vitality, and knowing the source from which they come we can confidently recommend them as to purity of strain and fine quality in every respect, and yet in common with all other seedsmen we do not warrant the crop, or any given result, as there are so many elements to produce a partial or total failure; such as frosts, the season too wet or too dry, insects, etc., etc. However, in justice to our patrons, we are ready to refill, gratis, any part of an order that through mistake or otherwise should prove untrue to name. Those who boast the most of warranting their seeds offer to do nothing more.

Order Early. We have anticipated a large trade by securing a large stock of the best seeds to be had, and our price cannot fail to be popular. We may run short of some kinds of seed before the season is over, and if orders are in early it will enable us to fill them in full before it is too late for planting, and not disappoint any one. We will fill orders at the low prices quoted in this list as long as our present stock lasts, and through the season if we can without actual loss; otherwise these quotations are not binding.

Our ambition to build up a large trade with *Market Gardeners* makes it absolutely necessary that we secure for this trade the very best of all varieties that can be grown, and no effort on our part has been spared to this end. The very large increase of this class of trade the past year is evidence that our seeds have given satisfactory results, and that our prices are right; and we shall relax no effort in the future to merit the confidence and patronage of all who place their orders with us. We greatly appreciate and are very thankful for the trade of *Market Gardeners* in the past, and especially do we extend our hearty thanks to quite a number who have given us their orders every year since we have been in the seed business. This list will bear comparison as to prices with any others that can be made for *first-class* stocks. In fact, we have made prices as low as it is possible on the class of seeds we handle. We hope all who receive this list will carefully examine our claims to their patronage, and will at least give us a small trial order, by so doing learn that no seedsmen can serve their patrons better, and save *good money* by placing future orders with us.

Seeds in Packets, Both Vegetable and Flower, in small lots taken by market gardeners, one-third discount. In larger lots advantage can be taken of our popular special offer, page 4 of Retail Catalogue. Half peck, half bushel or half pound will be put up at half price of peck, bushel or pound; but we cannot put up $\frac{1}{2}$ ozs. (except cauliflower seed), or $\frac{1}{2}$ quarts at these low prices.

No Charge for barrels, boxes, bags or delivery to Forwarders.

POTATOES. *Kartoffel.*

MARKET PRICE. We will accept orders until March first, from Market Gardeners, at 25 cts. per barrel less than Retail Catalogue prices, unless the stock we have on hand is previously sold out.

POTATO SEED FROM THE BALL. Pkt. 15c.

PEAS. *Erbse.*

We fill orders for peas on a very close margin at all times. These quotations will hold good so long as we can fill orders without actual loss. The price of some varieties will very likely rule higher later in the season on account of a short crop.

As we are assured from the large number of testimonials we have received that our seeds gave the utmost satisfaction the past season, we look forward to largely increased orders from our former patrons as well as a large number of orders from those who as yet have never tested the quality of our seeds and learned how they can—as well as others have—save "Big Money" by placing their orders with us, at the same time get as good stock as can possibly be had from any source.

In advance accept thanks for 1896 orders. We are prepared to handle two or three times the trade of any former year. Shall we have it? Orders will answer, awaiting which we are yours to command.

FRANK FORD & SON.
