JAPANESE PLANTS and SHRUBS

PRIDE OF JAPAN

Roses, Chrysanthemums, Pelargoniums, Palms, Ferns
TREE PEONIES, ETC., ETC.

DOMOTO BROS., Proprietors

Central Ave. and E. 14th St.,

EAST OAKLAND, CAL.

How to Reach Our Nursery.

OUR Nursery is located on Central Avenue, next to East Fourteenth Street, called the San Leandro Road. People who are on the other side of the bay and in San Francisco should take the Broad or Narrow Gauge (Oakland and San Francisco Railroad) Ferry at the foot of Market Street, which runs every quarter of an hour to Oakland, and every half an hour to Fruitvale. If the Broad Gauge is taken, get off at Broadway, at East Oakland, Twenty-third Avenue or Fruitvale Station. If you get off at Broadway take the Haywards electric car at Washington Street, then ride out to Central Avenue. If you get off at East Oakland, Twenty-third Avenue or Fruitvale, take the Haywards electric car and ride out to Central Avenue. If the Narrow Gauge is taken, get off at the last station and take the Haywards electric car at Thirteenth Street, and ride out to Central Avenue. People who come from Berkeley should take the Oakland and Berkeley electric car, ride out to Thirteenth Street, Oakland, and transfer to the Haywards electric car on Thirteenth Street. People who come on the overland train should get off at the Sixteenth Street Station, take the Sixteenth Street electric car at the depot and ride out to Thirteenth Street and transfer to the Haywards electric car and ride out to our nursery.

INTRODUCTORY

THE Japanese Nursery takes great pleasure in presenting this catalogue to our customers and friends. Those who favor us with their orders may feel secure that every endeavor will be made to fill their demand in such a prompt and satisfactory manner as to insure a succession of their great favors. We call attention to the many kinds of Ornamental Plants, Chrysanthemums, Roses, Pelargoniums, also Japanese Fruit Trees. All the trees and plants imported by us which we offer are strong and healthy, true to the label and are positively free from insect pests; each invoice is examined by the State Inspector, and is not permitted to land unless entirely free from pests. We are able to fill all our orders, single or many, with fine and clean trees, both imported from Australia and native at very low rates on this coast. We hope to hear from our patrons, by the means of our catalogue, at once, and that we will receive liberal orders, with your favor.

HOW TO SEND ORDERS

ORDERS should be written separate from the letter, and sign your full name and address plainly to avoid mistakes. All orders from unknown parties must be strictly cash, or satisfactory reference given, and parties who want their goods sent C. O. D. must send one-half of the amount in cash with their orders, unless well known to us. State by what mode of conveyance you wish your goods shipped. When no route is designated, we select to the best of our judgment. We take great care in packing and shipping, having had several years' experience, and we pack plants so they will arrive in good condition, but at customers' risk. We pack in tulle boxes, and deliver to freight depot or express office in Oakland, San Leandro, or Berkeley.

REMITTANCES

By bank draft payable to us at Oakland or San Francisco, Post Office orders, W. F. & Co.'s money order and registered letter. Do not send money loose in letters; sometimes they are lost, and we cannot be held responsible in such cases.

Address all communications to . . .

ALAMEDA COUNTY, CAL.

Novelties of 1896

The following novelties are all our seedlings with the exception of the "Governor Budd."

They are of grand size, double and solid forms, and have been awarded certificates of merit by the California State Floral Society. Price 50 cents each, \$5.00 per dozen, \$35 per hundred.

Pride of Japan—A most striking flower of great size and equal depth forming a perfect ball of a beautiful deep pink, of dwarf habit with strong stiff stem; a free bloomer; first class foliage; petals, slightly quilled; fine for all purposes.

Golden Coronet—Of immense size and depth with broad incurved petals; color, the richest bright intense yellow; the grandest of yellow varieties.

Mrs. J. Seulberger—Style of "Ivory," but with perfectly incurved petals, full and double, and slightly hairy; as large in size as the "Queen;" a perfectly formed flower of spherical shape; a fine compact grower, of easy management.

Mrs. Marguerite Carbone—Undoubtedly the finest of all hairy varieties, surpassing all in formation and habit; produces a fine compact bloom of large size with broad petals, perfectly and evenly incurved; flowers are full, double to the center, and covered with glandular hair; of an excellent lasting quality, and retains its shape; a fine dwarf habit; a free bloomer and grower.

Mrs. Hunter—A magnificent incurved flower, style of "Lady Playfair," but of larger size, with petals immensely broad and solid; color of outside petals, a glistening pearl.

Vernal Beauty—A flower of grand size and depth, full and double to the center with incurved petals, slightly whirled. One of the largest blooms, with excellent stem and habit. Color, a beautiful combination of odd salmon yellow and buff.

The King—Of enormous size and depth, and of great substance; petals broad and incurved, full to the center. Color of inner petals, deep red; outer a bronze gold. A short grower; very early.

F. T. Domoto—An early variety, of deep cherry pink, with broad, solid petals, incurving and folding alternately, one after another, in a most graceful manner; forming a perfect globe of grand size.

Mrs. Helen Cross—A grand exhibition variety; flower, large in size, full and double towards center, with petals medium broad, and incurved, color of "Mrs. F. L. Ames."

Alameda—One of the loveliest blooms in general appearance; flower, large and full, loosely incurved, and with crispy petals, a few lower petals, remarkably broad, and suffused with a rosy pink, pure white in center.

Alaska—A pure, snow white flower, with broad, incurved and pointed petals; a magnificent variety for all purposes.

San Pablo—A large, incurved flower, with high, built-up center; very double; a fine short grower of good habit; color, ivory white, shaded with pink.

Golden Globe—A very large flower, of great substance, with broad petals, gracefully reflexed; full and double to the center, forming a perfect globe. Color, the richest buff yellow shaded with amber; a strong grower of best habit.

Mrs. Rosseter—Tubular petals, spreading straight, and deeply spathed at tips, notched and forked, showing a beautiful surface of feathery appearance. Color, chesnut brown, shaded with amber.

Governor Budd—The Queen is justly pronounced, the queen among chrysanthemums. Governor Budd is identical in shape, size and fine finish of bloom; in growth it is also very similar, if anything more vigorous, and with stronger flower stems. It is only in color it differs from its parent, the Queen, being of a lovely shade, of lemon yellow. Certificated by the California State Floral Society. 50 cents each; \$5.00 per dozen.

NEW CHRYSANTHEMUMS OF 1895.

Price 20 cents each. \$2.00 per dozen.

Admiral Ito—An enormous spreading flower, of great substance, and depth; petals flat, and slightly twisted. Color, a rich, brilliant yellow, shaded with amber on the margin of the petals. A grand variety, for all purposes.

Akagi—One of the finest show flowers, with long, tubular petals, spreading straight from the centre. Color, a deep chestnut red, shaded with gold. Very distinct.

Admiral Gervais—An immense reflexed flower, petals rosy pink, topped with white, and pointed. Superb color. Very fine.

Buff Globe—An immense, globe-shaped flower, sport from Princess of Chrysanthemums. Color, pale chrome yellow, shaded with buff.

Corea—A magnificent bold flower, with broad, incurved petals, of whirling form. Color, deep bronze yellow, shaded with buff.

Count Yamagata—One of the largest incurved flowers, with high built centre. Color, a glistening white, shaded with pink.

Capt. Torrns—A globular, Japanese flower, with massive petals, broad, and incurving at the tips. Color, a deep golden yellow.

C. Darville—A large, white bloom, with upright, dahlia like petals. On first opening, tinted salmon, like the "Silver Cloud."

Count De Gilbert—A charming pale rose pink, a most delicate shade. Globular in shape, with incurved petals. A splendid variety.

Dragon Fire—A large flower, with broad flat petals, slightly reflexed. Color, a deep brownish red, with gold on tips of petals. Very distinct.

Dragon Blood—A wonderful variety, with long, flat petals, curiously curling in the centre. Color, dark blood red, slightly touched with gold on reverse.

Deuil De Jules Ferry—A large, round incurved Japanese bloom; full and massive. Color, silvery mauve.

De Hoy—An immense reflexed flower, very full. Color, delicate rose pink.

Devoniensis—A very large bloom, with horizontal, or recurving petals. Color, paper white.

Diavola—An immense Japanese bloom, with high, built up, centre. Color, a strange combination of delicate lemon, white and red. One of the largest and best varieties, for exhibition purposes.

Esther Hancock—A large, full, solid bloom of a perfect round form. Color, clear bright yellow.

Elma H. Crosby—A large, full, solid bloom with lower petals, reflexing close to the stem, forming a perfect globe. Color, a bright and deep, pure golden yellow.

Fred Bastow—A large, incurved flower, with high built centre, and broad, slightly hairy, petals. Color, a pleasing shade of white, suffused with pinkish yellow.

Grace Yoshiike—A seedling from "The Queen" surpasses its parent in form; large full flower, double and deep; lower petals horizontal, while the others, are elegantly incurved, and whirled, forming a perfect, beautiful, satin rosette. Color, pure white.

- Glory of Pacific**—A splendid flower of large size and depth, with broad, reflexing petals. Color, a light, delicate rose pink. One of the earliest and best varieties.
- General Nodzu**—A grand flower, with long, broad petals, every one of which, is elegantly incurved, forming a beautiful ball, of golden ribbon.
- Golden Harvest**—A splendid bloom of pearly appearance; long incurved petals showing a large rounded surface; immense size. Color, a clear, glistening, bright golden yellow.
- Golden Palace**—A perfect ball, of immense size, with petals, gracefully incurved. Color, clear golden yellow. One of the grandest, of spherical yellow forms.
- Green Emerald**—The best green chrysanthemum yet introduced; in size as large, as other standard varieties; full and double, with incurved, pointed petals. A wonderful variety.
- H. W. Rieman**—Very massive in build, perfectly round, and crowded with petals. Color, a bright, deep, golden yellow. Very fine, for exhibition purposes.
- Imperial Crown**—A grand bloom, of spherical shape; petals incurved, and whirled, like "Princess of Chrysanthemums." Color, bright golden yellow, shaded with rich chrome yellow, on lower part of flower. Distinct and valuable.
- J. H. Runchman**—An extra fine, large, solid Japanese bloom, of gobular form, with interlacing petals. Color, a rich golden yellow.
- J. H. Troy**—A very early, incurving, Japanese bloom, of good size. Color, pure white.
- J. E. Lager**—A very early, Japanese reflexed bloom, with flower of good size. Color, yellow. A lasting quality.
- Jennie Falconer**—An immense flower, of bright lemon yellow, with broad petals cupping and incurving.
- J. H. Small**—A fine, good sized flower, full and double; incurved petals. Color, pure white.
- Le Rhone**—A grand form, showing bloom, of golden yellow.
- L'Isere**—A grand flower, with long drooping florets, gracefully curling at tips. Color, pale straw yellow, changing to white.
- Mars**—A flower, compact, and perfectly gobular, with large cupped, petals. Color, a rich brilliant bronze, and terra cotta, with gold, on tips of petals. One of the rarest varieties.
- Mabel Clare**—In form like the "H. E. Widner," but, in color, a pure glistening white. A grand flower of solid build.
- Mrs. P. Rothenbush**—A grand flower of the "Kioto" form, with board, incurved petals, nicely covered with hair. Color, clear rose pink.
- Mrs. McNear**—A very large flower, same form as the "Etoile de Lion," but, with more substance, and better lasting qualities. Color, a deep rose lilac, with silvery shading.
- Mrs. Lieutenant Tom Phelps**—An elegant flower, of perfect shape, with broad petals, beautifully incurved. Color, a pure glistening white. One of the loveliest varieties.
- Mrs. F. J. Farrington**—A fine reflexed flower of feathery appearance, similar in style to the "Viviant Morel." Color, a most pleasing shade, of beautiful salmon pink. Very distinct.
- Marshal Oyama**—An immense flower, with high built centre; long, broad petals gracefully incurving. Color, a pure glistening white. One of the grandest introductions of 1895.
- Morning Crow**—A full double flower, of spherical form, with slightly reflexed petals. Color, a dark purplish crimson, with reverse of silvery white.
- Miss Georgie Compton**—Broad, flat petals which incurve with age, forming a large; solid round ball. Color, a deep golden yellow.

- Mrs. Higginbotham**—An enormous, broad spreading, Japanese variety, of bright pink; extremely wide, cupping and incurving petals, which are covered, with glandular hair. The largest of the pink, hairy varieties. .
- Mrs. M. R. Parker, Jr.**—Early, and very large, with broad incurved petals. Color of inner surface, a rich deep pink, with reverse, of light, silvery shade.
- Mrs. George Byron**—Style, similar to the "Viviant Morel," but, in color, maroon crimson, with amber reverse.
- M. Panckoucke**—A grand, fancy built flower, with long drooping petals. Color, a bright clear yellow.
- Marie Valteau**—A very large flower, nearly spherical in form, with broad, thick petals, heavy, cup-shaped and finely incurving. Color, cameo pink, shading towards the centre.
- Mlle. Lea Leveque**—One of the finest flowers of the pink variety; of grand size, full and double. An exquisite bright shade.
- Marshal Wulfred**—An incurved Japanese flower; broad incurved petals, with pointed tips. Color, lemon yellow.
- Miss Gladys Spaulding**—One of the finest white varieties, of Chinese origin. A fine compact flower, of great depth.
- M. B. Nicolle**—A large full, incurving flower. Color, lilac shaded with crimson.
- M. Richard Dean**—A flower of great substance and depth, with horizontal or recurved petals. Color, very bright, clear pink, of a beautiful shade.
- Mrs. Geo. Addison**—A grand, incurving, Japanese bloom; color, white, very faintly tinted. One of the very finest and a grand variety, in every respect.
- Mrs. Chas. Molin**—A very large sized flower of reflexed form. Color, rich orange yellow, striped and speckled with red. A valuable variety.
- Mlle. M. A. de Galbert**—A grand white flower, with board, incurving petals, very deep but still not globular; will prove a formidable rival to "The Queen." A very fine variety.
- Mrs. R. W. E. Murray**—A magnificent pure white flower, of the largest size and grandest build. One of the best.
- Mme. Chas. Molin**—This variety is termed in Europe, the "White Viviant Morel," is 11 inches across, a tall grower, and sturdy. An unequalled exhibition variety.
- Mrs. W. A. Bryant**—A magnificent flower with broad petals. Color, a fine chrome yellow.
- Mrs. W. H. Rand**—A distinct Japanese type, with long, fine petals, twisted and irregularly reflexed, forming like a tangled mass of golden thread. Color, a remarkably rich yellow. A distinct and valuable variety.
- Mrs. J. G. Beer**—An immense Japanese flower, full and deep. Color, a rosy purple, lighter towards centre. One of the largest and fullest varieties.
- Mrs. S. P. Murdock**—One of the finest introductions of 1895. A flower, of very large size, and substance, formed into a fine globular shape, with incurved petals. Color, a soft glistening pink.
- Miss M. M. Johnson**—An early golden yellow flower; full and double with incurved petals. A fine form.
- Millbrook**—A very large, reflexed exhibition flower; similar in style to the "Viviant Morel." Color, a bronzy salmon, shaded with red.
- Nemesis**—A fine bold flower, well built, with broad, straight petals. Color, a delicate soft pink.
- Nyanza**—A seedling from the "Geo. W. Child," with same brilliancy of color; resembling in form the "Robt. McInness"; only larger, and not so closely incurved; also, showing less of gold on reverse side.

Oriental Glory—An enormous flower of great substance, with outer petals narrow and tubular; flat and incurved towards centre; color, a light, delicate, shrimp pink. An exquisite shade and form.

Oakland—An ideal bloom, full and deep; a clear shade of even terra cotta. A magnificent variety.

Paul L. Miller—A magnificent incurved flower, with large, graceful petals. Color, rich brilliant yellow. One of the most notable varieties.

Pearl Palace—A perfect ball, of pure glistening white; broad, incurved petals; an early bloomer and a gem among white chrysanthemums.

Parting Guest—A late Japanese bloom large and full, with incurved petals. Color, white, tinted with a most delicate lilac on lower petals.

Rose Yoshiike—A magnificent flower of fine build, remarkable size and great substance; broad, reflexed petals. Color, a beautiful pink, bordered with rose, on the edge.

Richard Jones—An incurved Japanese bloom with broad petals; color of inside, crimson scarlet, old gold outside. One of the best varieties.

Rose Wynne—A very large, incurved bloom with broad, slightly fluted petals. Color, paper white. A very fine form.

Radiance—Resembling the "Miss M. M. Johnson." A very large, full and deep flower with broad, incurved petals of fine size. Color, a bright intense yellow.

Robert Petfield—A silvery mauve flower of great depth and substance; broad, incurved petals; a very remarkable form.

Richard Jean—A very large bloom with incurved petals, full and double. Color inside, a rich, bright crimson, and reverse of old gold. A fine variety.

Rosy Imperatrice—One of the best 1895 introductions; an immense flower of perfect, incurved, spherical form, showing a large, rounded surface; of great substance. Color, light, delicate rose pink; a grand acquisition.

Snow Capped—A pure white, hairy flower with broad, incurved petals and rounded form.

Sunrise—A very early flower, semi-incurved and very full, inside petals, bright terra cotta; reverse, old gold.

T. P. Wilkins—Long, broad spreading petals. Color, a deep chrome yellow, sometimes apricot.

Urania—Bright glowing purple, slightly spotted with white.

White Swan—One of the finest of 1895 introductions; a large, incurved flower with perfect form; of high-built center; beautifully covered with glandular hair. Color, an elegant pure white.

Western Pride—An elegant, rare-formed flower with broad, long petals, incurving and rolling towards the center in a most graceful manner. Color, a rich bronzy yellow shaded with old gold.

W. S. Davis—A mammoth flower with unusually broad petals, cupped and incurved. Color, a rich chrome yellow.

Yellow Superior—A mammoth, incurved Japanese flower of great substance and texture; full and double. Color, a deep yellow without shading; a grand yellow.

Yoshino—A massive flower with long, ribbon-like petals slightly twisted. Color, a creamy white.

Yellow Model—Of enormous size, perfect form, and great substance; broad petals, long and incurved. Color, clear, bright yellow. One of the finest varieties and a valuable yellow.

HAIRY VARIETIES OR OSTRICH PLUMES

Price 10 cents each, except where noted.

Elder Down—A perfect double and incurved flower; petals, covered with glandular hair. Color, snow white.

Enfant des Deux Mondes—A sport from "Louise Boehmer," possessing same habit and form of flower; color, pure white. Price 15 cents.

Golden Hairs—A fine deep, round flower, with broad, incurved petals.

Improved Louise Boehmer—A sport from "Louise Boehmer," flowers, immense in size, with high-built center; petals, slightly incurved and whirling; color, a beautiful deep rose.

Monarch Ostrich Plume—A large incurved flower, very beautiful. Color, bright chrome yellow shaded with buff and amber.

Mrs. Wm. Freese—A very large, double, deep flower, of brilliant rich pink.

Mrs. A. Hardy—The white Ostrich plume.

Oriental Beauty—A solid, compact flower of pyramidal shape; color, pearl white shaded with delicate pink. 15 cents each.

Robert M. Gray—One of the largest and best of the hairy varieties for exhibition; flower, large and full, with petals covered with a capillary growth. Color, terra cotta. Distinct in its class. 15 cents each.

Snow Capped—New, under New Chrysanthemums of 1895, 20 cts.

White Swan— " " " " 25 cts.

Virginia—A fine globular flower of rich, brilliant purple.

Wm. Falconer—A sport from the "Louise Boehmer," color, an exquisite rosy blush, changing to delicate flesh pink.

ANEMONE VARIETIES.

Price ten cents each except where noted.

Condor—Large tubular rays of rose-purple, with close-crowded center, yellow tipped.

Enterprise—A magnificent flower with guard petals of tubular form. Color, light rose; disk, creamy white.

Falcon—A pure white flower with center of pale strawberry.

Garza—A large flower with broad, white ray petals; center, white tipped with yellow.

Carbone—A Japanese anemone with central disk, yellow; guard petals a deep lavender pink. 15 cents each.

Mrs. F. Gordon Dexter—The largest anemone flower with pink guard petals and long, immensely deep, round disk of deep rose, shaded with amber. 15 cents each.

Partridge—Terra cotta, shaded with yellowish pink; broad, slightly twisted petals of double purplish red. Odd and peculiar.

Red Robin—Medium size, with tubular rays; whole flower of rose-purple.

Rhodia—A fine Chinese anemone of deep, silvery pink. A very short, stout grower, and exceedingly free bloomer.

Satisfaction—An enormous anemone of the flowered variety with large, semi-spherical disc, of wide-opened, trumpet-shaped florets, broad, flat guard petals, spreading boldly around the disc. Color, a deep chrome yellow, suffused with gold and amber. 15 cents each.

San Joaquin—One of the largest anemones with light florets; guard petals, pure white. Very distinct and of fine habit. 15 cents each.

Thorp Jr.—One of the finest anemones. Ray petals and central disc a rich golden yellow.

- The Cathedral**—A waxen white flower, large and deep; petals incurved, broad and solid.
- The Queen**—One of the grandest white blooms in every respect with petals broad and incurving; flower double and deep; 15 cts. each.
- Viviant Morel**—A grand variety of mammoth size with full showy flowers; color, deep pink; a very popular variety.
- White Lotus**—A handsome incurved flower of delicate pearl pink. 15 cents each.
- Wallace Bastow**—A magnificent incurved flower, perfect double form. Color, deep maroon shaded with bright scarlet, reverse, reddish bronze.
- White Elkhorn**—A beautiful snow white flower with flat petals branched like elk's horns.

- W. H. Lincoln**—An immense] double flower, slightly incurved. Color, clear, bright yellow.
- W. W. Cole**—A large reflexed flower of reddish terra cotta.
- White Eagle**—An immense flower with high built center; petals broad and reflexed; color, creamy white; flower as large in diameter as in depth.
- Yellow Queen**—Large, bright yellow flower with broad, incurved petals.
- Yellow Elkhorn**—Rich bright yellow flower with notched petals like the elk's horn. Very showy.
- Yosemite Falls**—A large, showy, pure white flower with thin, thread-like petals slightly spathe at the tips.
- Yellowstone Park**—A very large showy flower of feathery appearance. Color, a bright golden yellow.

CHRYSANTHEMUMS.

The well-known beauty for the garden in the fall is the chrysanthemum. It is called the "Queen of Autumn," and blooms at a time of the year when all flowers, even the roses, are scarce; and continues blooming through the winter. These large, beautiful and interesting flowers last a long time, whether left on the bush or cut, they are finely expanded, and no garden is complete without them. Our display at the nursery is very gorgeous; we have taken care to obtain the true names, and to dismiss the worthless sorts.

How to Cultivate.

There are many methods employed in raising these flowers, but our experience is that to grow the finest and largest chrysanthemum flowers the plants should be planted in rich soil and be kept in a sunny sheltered location, with fences or trees to keep off the heavy wind. They then grow nicely, producing clear, large flowers, although they grow and bloom beautifully in almost any kind of soil or location, under good cultivation and careful tending.

The plants must be grown from cuttings every year; they root quicker in sand, but are easily grown in any soil. In April and May is the best time to set them out; always plant them in the shade, where the sun does not strike them, until they are rooted, then transplant into pots or beds, digging quite deep and fertilizing with well-rotted manure.

Pinch the tops off any time from June 15th to July 15th, and select the most strong and perfect shoots which break out from the stem, removing all side shoots and suckers; give plenty of water whenever needed, and careful and regular attention. As soon as they commence showing buds about the size of peas, strip the shoots of all but one bud on each shoot, selecting the most vigorous and perfect one. When the flowers are about half open, regular applications of manure water every seven days are very beneficial.

If large show flowers are desired, the cuttings may be selected from the close of May to the middle of June, then let grow only one or two shoots, attending to the cultivation in the same manner as the above.

PELARGONIUMS (Lady Washington).

- A. Najadierviez**—Flower bright crimson to rose; upper petals blotched with maroon; large, white center petals, edged with white.
- Alexander Crow**—Of the type of Madam Thibaud, but double, with petals much more fimbriated or crisp, and of a deeper and more brilliant coloring, with a lighter center; of excellent habits of growth. 35 cents each.
- Anna Pflitzer**—Brilliant carmine; maroon center; upper petals feathered with crimson.
- Agatha**—A fine, well-formed flower; upper petals of bright crimson; maroon spotted, with white margin; under petals of flush white, feathered with bright crimson.
- Anita**—A lovely shade of brightest rosy pink; upper petals grandly feathered with dark velvety crimson, with center almost white. 35 cents each.
- Beauty of Oxtou**—Upper petals a very rich maroon, darkly speckled; under petals a very dark crimson; petals all margined with white; all with light centers.
- Brush Hill Beauty**—One of the darkest varieties; undulating petals dark red in color, spotted with white.
- Black Prince**—One of the darkest variety; undulating petals, dark red in color; spotted with white.
- Champion**—Extra large delicately shaded, blush white flower; small lake spots in lower petals; upper petals feathered with maroon and red; immense trusses. 25 cents.
- Carl Klein**—Deep orange scarlet, with black spot in each petal; beautifully fimbriated.
- Capt. Rakes**—Very large and full flower; dark, fiery crimson in color; petals crispy and of great size. 25 cents.
- Dr. Masters**—Very rich shade of dark red; upper petals beautifully spotted with black, and lower petals also shaded black.
- Duchess of Albany**—Rich, deep crimson maroon, with rosy-lake margin; center lighter, surrounded by shading of violet rose; a grand, dark variety, presenting a very full appearance.
- Duchess of Teck**—Trusses of extra large, semi-double, white flowers; petals undulated and frilled. 25 cents.
- Duchess of Bedford**—A fine, pure white flower, prettily fringed with feathered spots of delicate rose on upper petals; dwarf growth. 25 cents.
- Dorothy**—Fine, large flower, a soft shade of carmine rose, the white center fringed with lilac; all the petals elegantly frilled and having white margins; The upper petals are spotted with maroon.
- Duchess of Fife**—A large, fine, blush white flower, with deep maroon spots on upper petals.
- Dr. Andre**—An elegantly fringed, delicate pink flower, the upper petals being feathered with maroon.
- David Neely**—Of a rich, glowing vermilion; white center, edged with light rose.
- Empress of India**—A very large, shiny, salmon-scarlet flower, with light center, two upper petals being blotched with dark crimson. 25 cents.
- Emperor of Russia**—An extra large flower; dark maroon center, crimson purple surrounding and with a blush white margin. 25 cents.
- Emp. Frederic**—A beautiful variety, bearing a pure white, double flower, with elegantly crisped petals, which blooms round and full, resembling in appearance a double azalia flower. 25 cents.

- Edward Perkin**—Bright orange scarlet flower, the beautifully fringed and undulating upper petals being blotched with maroon.
- Edna**—Fine trusses of large fringed flowers of very light pink color, with feathered petals which are veined almost throughout with maroon.
- Elaine**—Pure white, upper petals blotched and feathered with a purple crimson. 25 cents.
- Empassy**—Large, round, white flower, faintly tinged with violet; the upper petals blotched with deep, violet maroon.
- Gloire de Tours**—Large, dark scarlet flower, the center of upper petals being a distinct shade of violet, though blotched with velvety black. 25 cents.
- Gloria Patria**—A very fine, white flower; the upper petals feathered with violet crimson.
- Golden Gate**—Large, magnificent trusses, of deep, salmon pink flowers; shaded in the center with light violet, edged with blush white; the upper petals are feathered with bright crimson.
- Jubilée**—Large trusses of finely-fringed flowers, blush pink in color; the upper petals are blotched with maroon.
- La Belle**—An extra large-sized and beautiful round flower of a lovely shade of bright salmon pink; the upper petals are of a slightly darker shade. 25 cents.
- Lord Clyde**—A white flower, suffused with violet; each petal gaudily blotched with deep, violet crimson.
- Louise Arner**—A fringed, white flower; the upper petals blotched and feathered with maroon.
- Milton**—The upper petals are beautifully blotched with dark maroon surrounded by bright crimson, and have rose-colored edges; the lower petals are of soft pink, feathered with crimson; shading lighter toward center.
- Mad. Thiebaud**—A grand flower, blotched and marbled rose on white ground; upper petals marked with crimson maroon; center large and white; edge of petals also white.
- Maud Hooper**—Delicate rose-blush color, deepening toward the center; the upper petals are feathered deep rose; beautifully fringed.
- Mr. Worthington**—A large flower, with beautifully fringed margins of orange scarlet; center light maroon; upper petals are blotched with intense black.
- Maid of Kent**—A pure white flower, with bright, rose-colored spots on all the petals, which are beautifully fringed and undulating. 25 cents.
- Mrs. E. G. Britton**—An extra large-sized flower, fringed and undulated, and of most imposing appearance; upper petals of velvety carmine and handsomely feathered.
- Mrs. O. W. Child**—An entirely new and exquisite shade of rose pink, without a blemish, therein being distinct from all other species; grows and blooms full and freely; with large trusses. 35 cents.
- Mrs. Harrison**—A large maroon and crimson flower, with a well-defined white margin and center, being a flower with all the good points of the parent, Mad. Thiebaud. 25 cents.
- Miss L. Connell**—Maroon and crimson, with a well-defined white center and margin.
- Mad. Vibert**—Color a rose ground almost covered with a brilliant black, spotted with maroon; center and edges of a light hue.
- Mrs. John Soal**—Rich, glowing vermilion, with a lighter center; petal with a light margin; the upper petals feathered with crimson.
- Mabel**—A dark narrow flower, with white center; brilliant upper petals with soft, rosy, pink under sides.
- Neptune**—A rosy, purple flower; petals all spotted with maroon; the upper petals also feathered with the same color. ■

- Prince Charles**—Dwarfed growth; earliest variety; colored white; tipped elegantly with rose; spotted violet.
- Prince Henry**—A bold flower of great substance, being one of the best of the Mad. Thiebaud type; colored a soft rosy red, shaded with orange and chocolate tints; broad white margin and white center. 25 cents.
- Princess Beatrice**—A grand variety, occasionally semi-double; of a blush white shade, with a deep crimson spot in each petal. 25 cents.
- Prince George**—Large trusses of finely fringed, subdued white flowers, all the petals being spotted with purplish lake, the upper ones distinctly so.
- President Harriscn**—A very effective variety of Mad. Thiebaud, being a sport therefrom, though deeper in color. 25 cents.
- Princess Maud**—Light carmine flower, with a broad edge and a large center of white; the upper petals being feathered with maroon. 25 cents.
- Prince of Wales**—A velvety, scarlet flower, marbled and reticulated with white, having a large, clear and distinct white center, the upper petals being spotted with maroon, giving a double effect. 25 cents.
- Prince of Teck**—Deep crimson, both ground and center shaded with violet; upper petals spotted and feathered with a dark maroon.
- Prince Victoria**—A very charming, delicate, blush pink variety, of medium size, producing large trusses of double flowers. 25 cents.
- Prince of Pelargoniums**—A profuse bloomer, bearing large trusses of elegantly fringed, brilliant vermillion flowers, with centers of a lighter hue, and upper petals of blush crimson.
- Queen Victoria**—A flower of great substance, whose crispy petals are of a rich vermillion, broadly margined with pure white, the upper ones having a white center spotted with maroon.
- Starlight**—A compact, handsome flower, with an extra number of rosy pink petals, the upper ones spotted with maroon; the lower ones spotted and surrounded with fiery crimson.
- Striega**—A large flower and free bloomer; of magenta color, spotted with a beautiful blue mauve. The upper petals have a feather-like spot.
- Triumphe de St. Maude**—A large, carmine pink flower, with upper petals the color of blush crimson.
- Volante National Album**—A large, full, crispy, pure white flower of moderate growth, but bearing flowers in great profusion. 25 cents.
- Volante National**—A large well-shaped, light rose-colored flower, having a white center surrounded by violet. The upper petals are feathered with maroon. Of dwarfed growth, but a very free bloomer.
- Variegata**—An elegantly striped flower, deep rose and white. 25 cts.
- Zenoba**—A blackish maroon flower, whose light center is spotted with maroon; upper petals, fiery crimson, edged with light rose; rosy carmine, spotted with maroon under the petals.
- Price on above lots, 20 cents, except where noted.

CARNATIONS.

- AMERICAN FLAG**—White, with scarlet stripe.
ANGELUS—A fine shade of bright pink.
AURORA—One of the finest of pink shades.
BLANCH—A fine, white flower.
BLIZZARD—A light yellow flower, streaked with carmine.
DAYBREAK—A fine pink flower.
DR. BRINGHAM—A very rich scarlet.
E. A. WOOD—Light pink, striped with deep shade of same.
GRACE BATTLES—A beautiful pink flower.
HINTZE'S WHITE—A white flower.
J. R. FREEMAN—A fine variety of very dark red.
LOUISL PORCH—A flower of fine yellow color.
LIZZIE McGOWAN—A magnificent pure white.
MRS. CLEVELAND—Of a beautiful pink shade.
MRS. REYNOLDS—One of the finest carnations; bright pink in color.
NANCY HANKS—A shade of beautiful, soft pink.
PORTIA—A bright scarlet flower, very free.
PRIDE OF PENHURST—A yellow flower.
PURITAN—A fine, white color.
ROBERT CRAIG—An intensely brilliant scarlet flower.
RICHMOND—A flower of brilliant carmine.
STARLIGHT—A very light yellow flower.
SPRINGFIELD—A very fine shade of pink.
THE STUART—A bright scarlet flower.
WHITE DOVE—A pure white flower.

PRICE 10c. EACH, \$1.00 PER DOZEN

ROSES.

- Belle Siebrecht** — New American rose, of "1895" introduction; a superb rose of rare color; a true solid pink of the richest shade; the flowers have a sweet perfume and are large and beautifully formed, high in the center and tapering gradually away; when in half-bloom the petals reflex in graceful order; a strange growing plant, with firm flower stems. 35 cents each; \$4.00 per dozen.
- Roses**—All other goods and standard varieties, 25 cents each; \$2.50 per dozen.

FERNS.

Plants of great value for decorating purposes; have graceful fronds and comes in great variety of shapes. Are always in great demand both for conservatories and parlors, and, when cut, for decorations.

Adiantum Corneatum—(Maiden Hair.) A pretty plant. 35 to 75 cents.

Adiantum Principes—A magnificent variety, with large fronds. 50 cents to \$1.00 each.

“ *Weigandti*—A very handsome variety with tufted fronds. 35 cents to \$1.00 each.

“ *Senelium*—Large and wide fronds; also large segments, 50 cents each.

“ *Spec*—Of very short growth, with curiously crispy and upright fronds. 25 to 50 cents.

Adiantum Bellum—A fine, handsome variety, with tufted fronds. 50 cents to \$1.00 each.

Adiantum Monochlamy—Resembles maiden hair, but has stiffer fronds, with reddish stems. 50 cents each.

“ *Williamsii*—Very large and wide fronds, of beautiful light green. 50 cents each.

“ *Gracillimum*—One of the most graceful and beautiful of greenhouse ferns; the segments are very small and numerous, with large fronds, giving to the plant a charming appearance. 35 to 75 cents.

“ *Anetium*—A fine fern with very small segment, similar to the Asplenium. 50 to 75 cents each.

“ *Mandulum*—Bears strong resemblance to maiden hair, but smaller segment; makes a fine pot plant, and is well adapted for hanging baskets. 50 to 75 cents.

Acrostium Unifolium—Long, wide and beautiful fronds; very effective. 50 to 75 cents.

Asplenium Cordifolium—A fine fern. 25 to 35 cents.

Aspidium Filixmas—Has large, thick leaves. 25 to 35 cents.

Asplenium Nidus—(Bird's Nest Fern.) One of the finest ferns in cultivation; has long, wide and thick fronds, of an elegant, glossy green color; very distinct. 50 cents to \$1.00. Large plants, \$1.50.

“ *Virdescens*—A splendid variety with long, wide fronds of beautiful glossy green; adapted either for outdoor or house plant. 35 to 75 cents.

Bratium Occidentalis—Has a short, stiff, fern-like leaf, suitable for the lawn. 25 to 35 cents.

Davallia Bullata—A beautiful and hardy fern, well adapted for artificial model work. We have them on hand with the roots bent to form a house, ball, ship or ring, all ready to hang in the parlor or porch. Price, in ship or ball form, 50 to 75 cents each. In round, ring form, 75 cents to \$1.00 each.

Davallia Pennifolia—Thick, straight leaves. 50 cents each.

“ *Canariensis*—A fine form of *Davallia*. 50 to 75 cents.

“ *Moreana*—Very large fronds. 75 cents to \$1.00 each.

Davallia Stricta—One of the finest ferns in cultivation; a fine decorative or clinging plant, in the house or outdoors; the fronds are beautiful, long, wide and of close texture, with finely colored, reddish pink stems, which spread out gracefully; the fronds are of a wonderful variety and present the same beautiful appearance always; very rare and desirable. 25 to 50 cents.

Onychium Japonica—A fern much used for table decoration; its

light green fronds are very ornamental when so used; one of the best plants for general cultivation. 25 to 50 cents.

Lamaria Nipponica—A fine plant, with very heavy leaves gracefully curled on top. 50 cents.

Lastorea Aristata—With straight, wide leaves. 35 cents.

“ “ **Variegata**—Same as above, with showy variegations. 35 cents.

Nephloopsis Exaltata—(Sword Fern.) A splendid species, with sword-like fronds growing to a length of from two to three feet; presents a noble appearance on a stand in the house, or is suitable for baskets or jardinières; thrives well in the California climate and experiences no harm from planting among rocks, etc. A very desirable species, always in great demand and sure to give satisfaction. We always have a large stock on hand and can supply all sizes. 15 cents to \$1.00 each.

Nephloopsis Rufescens Tripinatifida—A giant form of the above; the fronds droop more; should be grown inside. 35 cents to \$1.00.

Nephloopsis Duffii—A dwarf of fancy formation. 35 to 50 cents.

Nephloopsis Amazonica—Beautiful fronds, long and wide and fancily crested on the edges; very rare. 75 cents to \$1.00.

Osmunda Segalis—Large, beautiful fronds; is very hardy and will grow almost anywhere. 35 to 50 cents.

Osmunda Claytoniana Cristata—A very handsome fern of dwarf habit; the fronds are fancily crested along the edge. 50 cents each.

Polypodium Fraxinellifolia—A very distinct variety. 50 cents.

Polypodium Aureum—Very large fronds, distinct in shape and greenish blue in color. 75 cents to \$1.00.

Polypodium Lingua—A very hardy fern with large, thick leaves, colored brown on reverse side.

Pteris Alba Lineata—A pretty, variegated fern; very useful. 25 to 50 cents.

“ **Adiantoides**—A beautiful fern of upright growth; is very hardy and grows splendidly outdoors. 25 to 35 cents.

“ **Adiantoides Eretica**—Same as above; nicely crested. 50 cents each.

“ **Tremura**—A very hardy, graceful fern, with large fronds; similar to those of tree fern. 35 cents each.

“ **Tremura Smithiana**—Same as above, but of dwarf habit; the edges of the fronds are nicely crested. 50 to 75 cents.

“ **Serulata**—A very pretty basket fern and beautiful decorative plant; also grows well outdoors; well liked and always in great demand. 25 to 35 cents.

“ **Serulata Cristata**—Same as above, but nicely crested. 35 to 50 cents.

“ **Cret, Alba Linata Cristata**—A beautiful fern, with crested and variegated fronds. 35 to 50 cents.

“ **Magii**—Very short and extremely showy; beautifully variegated. 35 to 50 cents.

WOODWARDIA ORIENTALIS—A very hardy fern. 25 to 35 cents.

SELAGMELLA—25 to 35 cents.

Tree Ferns.

Of all decorative plants none can compare with the noble Tree Fern, with its large, rich and majestic form. It is essentially a conservatory plant, though some varieties will grow in warm and sheltered spots in the open air.

Alsophilla Grande—An elegant species. \$3.50 to \$5.00.

“ **Australis**—One of the best and most rapid growing species. Fine plants, from \$1.00 to \$1.50 each.

Cyathea Spinulosa—Black stem, long fronds. 75 cents to \$1.50 each.

Cyathea Dealbata—A fine, very hardy species, that will thrive in the open air. Fine plants, \$1.00 to \$2.50 each.

Cyathia Medularis—An elegant species; very hardy; will thrive in the open air. Fine plants, \$1.00 to \$2.50 each.

Dicksonia Antarctica—A very hardy tree fern. \$1.00 to \$2.50.

“ **Squarrosa**—\$2.50 to \$5.00.

“ **Hemeteria Smithii**—\$1.50 to \$2.50.

Large collection of *Dicksonia Antarctica*, *Dicksonia Squarrosa*, *Alsophilla Australis*, *Alsophilla Cooperii*, *Alsophilla Excelsa*, *Cyathea Dealbata*, *Cyathea Medularis* and *Dicksonia Hemetelia Smithii*.

Prices furnished on application.

PALMS AND DRACEANA.

Upon application we will send prices for large plants or specimens. We are the largest importers of these elegant palms and can supply you at any time with well grown plants of any sizes.

Areca Bourii—A fine rapid-growing palm with dark green leaves, resembling the “Kentia.” 35 cents to \$1.00 each.

Chrypha Australis—A hardy palm with fan-like foliage. 25 cents to 50 cents each.

Cycus Revoluta—A very hardy palm with elegant fronds and stem; grows rather slowly. An excellent species for house or lawn 35 cents to \$1.00 each.

Camelopsis Excelsa—A very hardy fan palm with erect stem; a rapid growing and very strong plant. 25 to 75 cents each; large plants \$2.50 each.

Camelopsis Fortuni—A handsome fan palm; of dwarf habit attaining a height of from 10 to 12 feet; the foliage is small with shorter leaf stalk, and grows at almost a right angle to the trunk. It is hardy; has a fine and interesting appearance and its leaves are not affected by the wind; it is a distinct variety, and an excellent species for a jardinier on the porch or front steps.

Dracana Indivisa—A palm-like tree with dark green leaves from 2 to 4 feet long and 1 to 2 inches wide; valuable for use in landscape gardening or as a sidewalk tree. 25 cents each.

Draceana Magnifica--A very fine variety for use as a house plant. 25 and 50 cents each.

Kentia Canterburyana--The gigantic palm of Hous Island; large leaves of light green. 50 cents to \$1.00 each.

Kentia Fosteriana--A graceful palm with light green foliage; one of the finest of palms, and will stand gas-light well. 35 cents to \$1.00 each; prices for large size mailed upon application.

Kentia Belmoreana--A beautiful crispy palm similar to the above, only more recurving and of dwarf habit. 35 cents to \$1.00 each.

Latania Borbonica--(Chinese fan palm) The most desirable palm for general decorative purposes; also fine for vases or jardinier. 50 cents to \$1.50 each.

LIVISTONIA ROTUNDIFOLIA.

Livistonia Rotundifolia---(A new species). An elegant species of pyramidal form with leaves exceedingly recurved and dwarfed. very hardy and a fast grower. The well grown specimen of this palm is very dense, and presents a beautifully rounded appearance. A grand new palm. 50 cents to \$1.00 each.

Raphis Filabelliformis---(Bamboo palm). Of handsome, upright habit, with small bamboo-like stems and divided leaves of very rich, glossy green; very effective for decorating, or in parlor; will thrive in the open air if sheltered where the wind does not strike very hard. 50 cents to \$1.50 each; prices for large plants mailed on application.

Raphis Filabelliformis Variegata—A very rare variety. \$3.00 per each shoot.

Raphis Kuwannon—Similar to *Filabelliformis*, but of dwarf habit, with stiff, broader leaves. 35 cents to \$1.25 each. Extra large plants \$2.00 to \$2.50.

Raphis Kuwannon Variegata—Beautifully variegated with creamy white and green. \$2.50 per shoot.

Seaforthea Elegans—A most graceful palm with light green leaves; Very attractive for general decorative purposes. Small plant 35 cents; fine large plant \$1.00 to \$1.50.

RAPHIS FILABELIFORMIS. (See page 21.)

***Phoenix* (Date Palm)**—One of the best palms for the lawn, and an exceedingly rapid grower; is very hardy, standing well the heavy frosts and requires but little care; produces a graceful, lance-shaped frond and green pinnet leaves. Attains a height of from 5 to 10 feet. A beautiful and desirable palm for the lawn, and produces a fine contrast with other plants for the front yard or gate.

Phoenix Canariensis—The hardiest of the date palm family. 25 cents to \$1.00 each according to size. Large plants in boxes priced on application.

Phoenix Leonansis—25 cents to \$1.00 each.

Phoenix Reclinata—25 cents to \$1.00 each.

Phoenix Seegalensis—25 cents to \$1.00 each.

Phoenix Tennis—25 to 75 cents each.

Prichardia Filifera or **Brafes Flamentosa**—A California fan palm. This fan is a native of Southern California, and has large fan-like leaves. Grows rapidly and attains a great height. Very ornamental. 50 cents to \$1.00 each.

Yucca Aloefolia Variegata—Handsome ornamental plants, of easy growth and quite hardy; the leaves are sharply pointed and beautifully striped with white sometimes changing to pink. Gives a delicate creamy white flower. 50 cents to \$1.00 each.

Yucca Flacida—Very hardy and of the dwarf variety with long narrow leaves. In summer bears a delicious white flower. \$1.00 to \$1.50 each.

Phormium Tenax Variegata. (The New Zealand Flag Lily)—A valuable, hardy ornamental and fiber plant, has long, narrow, elegantly variegated leaves producing tall spikes; bears flowers similar to the "Canna." 50 cents to \$1.00.

EVERGREEN TREES AND SHRUBS.

Abutilons—All easy growing and free flowering shrubs, of great beauty, bearing bell-shaped flowers in white, yellow or red. 25 cents each. Large plants, 50 cents, according to size and variety.

Andromeda Japonica—A handsome, rapid-growing shrub, bearing pendulous, clustered, white flowers. 35 cents each.

Ardisia Crispa—(Christmas-berry Tree.) Of large, deep-green foliage, bearing clusters of fine, red berries; suitable for pot plant. Bearing berries, 50 cents each.

Ardisia Crispa Alba—Bearing white berries, 50 cents each.

" " Grafted, bearing berries of two colors, 75 cents each.

Acacia—A rapid-growing tree of beautiful foliage; the most suitable for avenues and sidewalks. 25 to 35 cents each.

Acuba Japonica—(Gold Dust Tree.) Very large leaves, speckled with golden yellow. 25 to 35 cents each.

Acuba Lanceolata—Glossy green foliage; produces an abundance of large, scarlet berries. 25 to 50 cents each.

Acuba Masculata—Large, curled, drooping leaves: speckled or blotched with yellow in the center; one of the finest varieties. 40 to 50 cents.

Acuba Variegata—A new variety recently introduced; of dense growth: large, deep-green foliage with yellow borders. 50 cents each.

Agave Variegata—(Century Plants.) 25 to 35 cents each.

Berberis Darwinnii—Has narrow, pointed leaves, like holly, and is covered with bright, yellow flowers. 35 cents each.

Boxwood Aurea—Variegated, with creamy-white flowers. 35 to 50 cents each.

Camphor Tree—A valuable tree, both for ornamental or useful purposes, the young shoots appearing in a pretty, red color. From this tree is extricated the camphor of commerce.

Cinnamon Tree—Resembles the above, but is more highly ornamental. From this tree the cinnamon of commerce is extracted. 50 cents to \$1.00 each.

Cinnamon Sericeum—Of compact growth, with round foliage of light green color. 40 cents each.

Cleyera Variegata—A fine, ornamental shrub, with variegated white foliage. 25 cents each.

Daphne Odora—Has a grassy-green foliage and very sweet-scented, clustered pink flowers.

“ **Odora**—Bearing fragrant white flower.

“ “ **Variegated**—Has variegated foliage, with whitish-pink flower. 25 to 50 cents each.

“ **Genkina**—Bears yellowish flower. 50 cents each.

“ **Phyllum Macropadum**—A fine, deciduous, evergreen tree, with large, grassy-green leaves, similar to those of the rubber tree. 35 cents each.

“ **Phyllum Macropadum, Variegated**—Creamy white, variegated leaves. 50 cents to \$1.00 each.

Dentzia Siebaldiana—A profuse blooming shrub, with white flowers. 25 cents each.

Dieruilla Grandiflora—Blooms abundantly, with bell-shaped flowers of white and rosy red. 25 to 40 cents each.

Diosma Alba—(Breath of Heaven.) A well-known and handsome shrub of great beauty; is covered with small, white blossoms. 25 cents each.

Eleagnus (*Variegata*)—A dwarf, compact-growing shrub, with variegated leaves.

Euonymus Japonica, Variegated—A large, round shrub, with variegated foliage; fine for the garden; five varieties. 25 to 35 cents each.

Eurya Japonica—A large-foliaged, ornamental tree 35 cents each.

“ “ **Variegata**—40 cents each.

Ficus Elastica—(Rubber Tree.) A noble, decorative plant of symmetrical growth, with glossy green foliage, extra large and thick. 60 cents to \$1.00 each.

“ **Macrophylla**—Similar to the above, but more hardy and of rapid growth; rich, glossy, green leaves. 35 to 75 cents each.

Fuschia—A well-known flower and an old favorite; has a delicate coloring and exquisitely graceful shape; blooms profusely all through the summer; requires a rich soil and shady location; best standard varieties. 15 to 25 cents each.

Gardenia Grandiflora—A large, white, wheel-shaped flower; very fragrant; has a lustrous, green foliage. 50 cents.

“ **Grandiflora**—Variegated foliage. 25 to 35 cents each.

“ “ **Florepleno**—Same as above, with large, double, flower like the camelia. 35 to 50 cents each.

“ **Radicans Florepleno**—Same as above, with flower a little smaller in size. 35 to 50 cents each.

“ **Radicans Sinensis**—Bears single flower. 35 to 50 cents each.

Ginkgo Biloba—(Maidenhair Tree.) A fan-like, handsomely foliaged and highly ornamental tree, yielding edible nuts; its leaves change in the autumn to a deep, lemon yellow. 25 cents each.

“ **Biloba** (*Variegata*)—Handsomely variegated with white. 50 to 75 cents each.

Grevillea Robusta—A beautiful and rapid-growing tree, with fern-like foliage of deep green. 50 cents each.

Hamamelis Japonica—An ornamental plant with golden yellow blossoms. 40 cents each.

Heliotrope—A well-known garden plant; valued for its exquisite, sweet scent. 15 to 25 cents each.

Hibiscus Rosa Sinensis—Bears an extra large-sized red flower, with glossy, green foliage. 35 cents each.

“ **Cooperii**—Has a finely variegated foliage of red, white and green; a fine plant for the greenhouse. 35 cents each.

“ **Syriacus**—A beautiful flower of pure white and delicate pink; a free bloomer and hardy plant. 35 to 50 cents each.

“ **Mutabilis**—A new variety from Japan; produces flowers of two colors—white and pink—and similar to the double Hollyhock. 35 to 50 cents each.

Hydrangea Hortensis—An immense-sized pink flower. 25 cents each.

“ **Variegata**—With fine, variegated foliage. 25 cents each.

“ **Otakisa**—Pink and blue flower. 25 cents each.

“ **Thomas Hong**—Pure white flower. 25 cents each.

“ **Ramis Pictus**—Same as the above, excepting the stem, which is perfectly black. 25 cents each.

“ **Paniculata Grandiflora**—Large, pyramidal, white flowers of panicle style; of hardy and upright growth. 50 cents each.

Hypericum Moseranim—A new species very lately introduced; a small evergreen shrub of great beauty; the plant is literally covered nearly the entire year with bright, golden yellow flowers. 35 to 50 cents each.

Ilex Aquifolium—The Holy Tree. 35 cents each.

“ With variegated foliage. 50 cents each.

“ **Integra**—(Bird Limb Tree.) Heavy, thick foliage of shining green. 40 cents each.

“ **Integra**—Variegated foliage. 75 cents each.

“ **Latifolia**—A large-leaved, evergreen tree; highly ornamental. 40 cents each.

“ **Latifolia**—Variegated foliage. 75 cents each.

Illicium Religiosum—A fine, glossy green foliaged plant. 40 cents each.

Justicia—Has fine, velvet-like leaves and graceful, pyramidal, pink flowers; grows easy.

“ **Rosea**—Has large, pink-colored foliage, with rose-red flowers. 15 to 25 cents each.

Kerria Japanica—A fine, double-flowering shrub of bright, golden yellow; will thrive in any location. 20 to 35 cents.

Luntana—Has a lovely blossom of many shades and blooms profusely all through the summer. 15 to 25 cents.

Lagerstroemia Indica—A striking and elegantly flowering shrub; the flower is borne in immense pyramidal trusses; and remains on the plants for a long time. 50 cents each.

Lespedeza Bicolor—A white and pink, pea-like flower, in long trusses; blooms in September. 35 cents each.

Lindera Serica—Black-stemmed shrubs, with fine foliage. 35 cents each.

Laurustinus—A plant most suitable for hedges; during the winter produces a white flower. 25 cents each. Small plants, \$6.00 per hundred.

Ligustrum Japanica—A hardy evergreen shrub, with glossy-green foliage; bears large, pyramidal, white flowers. 50 cents each.

“ **Japanica**—Variegated foliage. 50 cents each.

Lilac—A well-known flower and an old favorite; white and blue in color, with large panicles. 25 to 50 cents.

- Loquat**—(*Mispilus Japanica*.) A fragrant, white-flowered and beautifully ornamental evergreen tree; has large leaves, and, when of good size, yields a golden yellow, edible fruit. 25 to 50 cents each.
- Magnolia Grandiflora**—The queen of all flowering evergreen trees; a highly ornamental and hardy plant, of fine foliage; bears a large white flower of great beauty and fragrance. Our plants are grafted magnolia and bear flowers before they are a foot high. 35 cents to \$1.00.
- Magnolia Stellata**—Bears a medium-sized, white flower, shaded with very light pink. 50 cents each.
- Magnolia Hypeleuca**—Bears a large, fragrant, white flower. 50 cents each.
- “ (*Michelia Champaca*)—Has a magnificent foliage, and bears a very fragrant, white flower. 75 cents each.
- “ **Oborata**—Bears a very beautiful, red flower—reddish purple on outside with pearl gray inside; distinct from any other variety. 50 cents each.
- “ **Purplea**—Same flower as above, excepting color, which is almost black. 65 cents to \$1.00.
- “ **Parviflora**—An early-blooming variety, with large, white flower. 50 to 75 cents each.
- Parviflora Glokuscei**—Bears a round, globular-formed, white flower, with very sweet scent. 50 cents each.
- Melia Azedaruch**—(Umbrella Tree.) An umbrella-shaped tree of upright growth; suitable for avenue or sidewalk. 35 to 75 cents each.
- Musa Enset**—(Banana Tree)—From Abyssinia; grows very tall, often attaining a height of twenty feet; grows rapidly and has large handsome leaves; in appearance a typical tropical growth. 35 to 50 cents. Extra large plants, \$1.50 to \$4.00 each.
- Oleander** (*Nerium*)—A profusely blooming shrub that requires a warm and sunny location to develop its great beauty; foliage of three kinds, white, red and variegated. 35 to 75 cents each.
- Olea Frangrance**—A finely foliated, evergreen plant with yellow flowers of very sweet scent; noted for its strong perfume, which will suffice for the whole garden. 35 to 50 cents.
- Nandina Domestica**—A beautiful, ornamental, evergreen shrub, with large, lanceolated, fern-like foliage; attains a height of three feet, and resembles the *Spirea Japanica*; bears large trusses of white flowers and also a graceful, coral-like, red berry; well adapted either for the house or as an outside plant. 15 to 50 cents each. Old plants of handsome shape. 75 cents to \$1.50 each.
- Nandina Domestica Alba**—Same as the above, but with white foliage and berries. 15 to 50 cents.
- “ **Domestica**—A new species from Japan; the stems are gathered half way, as if tied by string; very curious. 75 cents to \$1.00.
- “ **Aquifolium** (*Holly Japanica*)—Very similar in appearance to English holly. 35 to 50 cents each.
- “ **Aquifolium** (*Variegata*)—Foliage variegated with white. 35 cents each.
- Paulownea Imperialis**—A rapid grower, with extra large, heart-shaped leaves. 35 to 50 cents each.
- Prunis**—(Flowing Apricot.) Bears both single and double flowers of white and red. 35 cents each.
- “ (Flowing Peach.) A rapid-growing tree, covered with beautiful, large, double flowers, either white, red or variegated. 25 to 50 cents each.
- “ **Prunedo Cerasus**—Similar to the common cherry tree, but bears large, beautiful double flowers in many colors. 35 to 65 cents each.

- Pepper Tree**—(*Schinus Mollie*)—A well-known tree; has a fine foliage, and in autumn bears berries of a red color. 15 to 35 cents each.
- Pomegranate**—A handsome shrub of dense growth, with pretty, bell-shaped flower of scarlet and white; very hardy. 40 to 75 cents each.
- Pyrus Japonica**—(Japanese Flowering Quince.) Fine ornamental shrubs with bright scarlet flowers; very showy. 35 to 50 cents each.
- “ **Spectabilis**—One of the prettiest flowering shrubs for the garden; bears beautiful, semi-double flowers of delicate pink, drooping in clusters from slender stems. 50 to 75 cents each.
- “ **Spectabilis Alba**—Of stronger growth than the above, with pearl-white flowers. 50 to 75 cents each.
- Quercus Caspidata** (*Variegata*)—The latest introduction from Japan; of compact growth and very hardy; beautifully variegated with creamy white; a fine plant for decorative or garden purposes. 75 cents to \$1.00 each.
- Raphialepsis Japonica**—A handsome, compact-growing shrub, of dark green, leathery foliage, and bearing large, graceful branches of white flowers. 25 to 50 cents each.
- Rhodea Japonica**—A house plant with large leaves of dark, glossy green, bordered with white; bears beautiful red berries and is fine for decorating purposes. 35 to 50 cents each.
- Rhododendron Japonica**—A good garden plant; very hardy; bears large, beautiful bunches of bluish-colored flowers, shaded with pink and resembling the Azalea. 30 to 65 cents each.
- Rhodotypus Kerrioides**—Bears a handsome, white blossom of medium size, similar to the single white rose. 35 to 50 cents each.
- Skimmia Japonica**—A hardy and ornamental evergreen tree, with fragrant white flowers. 35 to 50 cents each.
- “ **Japonica** (*Variegata*)—Finely variegated with white and pink. 40 cents each.
- Spirea Contoniensis**—Bears small, white flowers resembling snowballs on slender stems; very beautiful. 25 cents each.
- “ **Prunefolia**—(Bridal Wreath.) Bears small, white flowers which entirely cover the bush; very pretty. 25 to 50 cents each.
- Sturculia Platanifolia**—Very large, smooth, luxurious foliage, with green wood (similar to the Azalea). 35 cents each.
- Ternstroemia Japonica**—A fine-foliaged plant of pyramidal growth; bearing berries. 35 cents each.
- “ **Japonica** (*Variegata*)—White and pink variegated foliage; very fine. 25 to 50 cents.
- Viburnum Odoratissimum**—An ornamental, evergreen plant, with very large foliage; bears red berries. 35 cents each.
- “ **Odoratissimum** (*Variegata*)—A fancy variegation of white. 35 cents each.
- “ **Tomentasum Plitacum**—(Japanese Snowball.) A handsome, compact growth; very hardy and blooms abundantly. 25 to 50 cents each.
- “ **Sterilis**—The well-known snowball tree. 25 to 50 cents each.
- Veranica Imperialis**—Has large spikes of amaranth-red flowers. 25 cents each.
- “ Variegated foliage, with blue flowers. 25 cents each.
- Wigelia**—A rapid-growing shrub, covered with bell-shaped, rose-red flowers. 25 to 35 cents each.
- “ **Alba**—With white flower. 35 cents each.
- “ (*Variegata*)—Variegated foliage, with rosy pink flower. 25 to 35 cents each.
- Zanthoxylum Piperitum**—(Japanese Pepper Tree.) 40 cents each

FLOWERING SHRUBS AND ORNAMENTAL PLANTS.

Asparagus Pennissimis — A beautiful species of climbing plant, with foliage of extreme delicacy; grows freely in the house and contrasts most advantageously with other decorative plants. 25 to 50 cents.

Asparagus Plumosas Nanus—Of habit and growth almost same as above, but different in formation of foliage, being flat and large, gracefully branching in lace-like form, spreading out beautifully, forming into an elegant shape; one of the finest decorative plants and in great demand. 30 to 75 cents each.

Aspidistra Lurida—An easily cultured, remarkable plant, growing wherever planted, either in house or in open air, though producing the best results in shaded spots. The leaves are of a dark glossy-green, from two to three feet long and five to six inches wide; highly recommended for decorative purposes, and certainly the best growing species of house plant we know of. In strong, 6-inch pots, 50 cents each.

Aspidistra Lurida (Variegata) — Same as above, but variegated with creamy white color, being very showy and a distinct species. In strong 6-inch pots. 50 to 75 cents each.

Acer Polymorphum — (Japanese Maple Trees.) No other ornamental trees excel this plant for graceful foliage of beautiful colors, varying in spring and autumn from green to reddish scarlet tints. Some varieties have fancy variegated foliage of yellow, red and green tints. Well adapted for garden or decoration purposes. 35 cents to \$1.00. Specimen plants and prices on application.

Acer Polymorphum—Grafted; three to six varieties in stock; very fine for pot plant. 50 cents to \$1.50.

Azalea Japonica—A very hardy, flowering shrub that will thrive in almost any location and soil; its growth is very strong, in habit dwarf, bushy and spreading; it bears a great profusion of beautiful flowers; a most desirable shrub for general cultivation; especially adapted for rocky or garden.

Azalea Indicum—Bears a very large, single flower of salmon-red color. 35 to 50 cents.

“ *Ledefolium Narcissiflorum (Variegated)* — Bears a double flower of pale, rosy purple. 35 to 50 cents.

“ *Ledefolium Lencanthum (Variegated)*—A large, single flower, pure white. 50 cents to \$1.00.

“ *Royal Purple*—A large, single flower; purple. 50 cents to \$1.00.

“ *Himodegiri*—A profuse-blooming plant, with bright, intense red flowers. 35 to 50 cents.

“ *Indicum Macranthum (Variegated)*—Bears a large, single flower of rosy pink color. 35 to 75 cents.

“ *Alba Pleno*—Bears a double, white flower. 25 to 50 cents.

“ *Hakata*—Bears large, beautiful, white flowers. 35 to 50 cents.

“ *Molis*—Quite distinct from any other species of Azalea; the leaves drop off in the fall, and the flowers bloom before the return of the leaves; very strong and upright in growth and of bushy habit; produces clear, bright, glowing flowers in immense clusters, which cover the entire plant; a very remarkable shrub.

Azalea Molis—Yellow flowers. 50 cents to \$1.00

“ “ Bright, glowing, salmon scarlet flowers. 50 cents to \$1.00

Bamboo—An elegant plant and very effective for grouping on account of its lightness and gracefulness. Some varieties make a splendid fence hedge, others are valuable for use in making baskets and

ornamental furniture. Is easily adapted to a great many purposes, especially for hop poles, plant sticks, etc. 40 to 75 cents each.

Bamboos—True giant varieties; large leaves, with elegant green stem. \$1.00 to \$1.50.

“ **Black stem**, \$1.00 to \$1.50.

“ **Stricta**—Striped with green and yellow; very handsome in the garden. 50 to 75 cents.

“ **Marliacea**—Makes a splendid umbrella handle. 50 cents.

“ **Milis**—A rapid-growing species, extensively used in manufacturing various articles of furniture. 50 to 75 cents.

CAMELIAS

“ **Variegated foliage**, with stem of medium size. 50 cents.

“ **Taimen**—Stem fancily variegated with vellum and green; foliage small and dense. 50 cents.

“ **Agristic**—A dwarf growth, with handsome shape. 35 cents.

“ **Communis**—Has a very large, glossy-green foliage; easily cultivated and fine for ornamental purposes. 35 to 50 cents.

Camellia—A beautiful, flowering, hardy shrub, with glossy-green foliage; well adapted to California climate; will bloom in almost any situation in garden; during winter months produces beautiful flowers of solid form and of various shades, white, red and variegated;

either single or double. We have the largest collection and stock on the Pacific Coast, and can supply plants from six inches to twenty feet in height, all in either pot or box.

Well set plants, budding.....30 cents to \$1.00.

2½ to 4 feet high.....\$1.00 to \$4.00.

Extra large plants priced on application.

Camelia Fragrance—Similar to former, with flowers smaller in size but abundant; early bloomers in season; perfectly hardy and fast growers. 40 to 75 cents each.

Tree Peony—(The Queen of Flowers.) The finest and largest of all in cultivation; very hardy and noted for their great beauty and variety of colors, which range from snow-white to brightest scarlet. The flowers are magnificent in appearance, opening in the day time into a perfect form and closing at night. They last from ten to fourteen days after being cut; the plant has large, elegant foliage, and never fails to create a sensation when seen in bloom. Very valuable both for garden plants and commercial purposes. Requires a rich, heavy soil. We have the largest stock and choicest collection on the Coast. 50 cents to \$1.00 each. 50 best varieties, \$27.50. 100, \$50.00.

CLIMBING PLANTS

AKEBIA QUINATA—A beautiful climbing plant. Bears a purple flower and yields edible fruit. 25 to 50 cents.

AKEBIA LOBATA—An extremely hardy evergreen tree; neat foliage. 50 cents each.

CAMPSIDIUM FILLICIFOLIA—A fernlike foliaged plant. 50 cts.

CLIANTHIUS PUNICIUS—A graceful evergreen shrub, with large clusters of scarlet pendant flowers. 35 to 50 cents each.

CLEAMATISE FLORIDA—A profuse bloomer; flowers greenish white, with blue center. 35 cents each.

“ **DUCHESS OF EDINBURGH**—A double white flower. 50 cents each.

“ **GEM**—A lavender blue flower. 35 cents each.

“ **JACKMANII**—A deep lavender flower. 50 cts. each.

“ **PALENS OF PLENO**—A double flower of lavender blue. 50 cents each.

JASMINUM AFFICINALIS—Bears a white flower. 30 cts. each.

HOYA CARNOSA (Wax plant)—A climbing plant, with very thick leaves. bears a curious flower. 15 to 25 cents.

HOYA CARNOSA VAR.—With very fine variegated foliage. 25c.

HEDERA (Ivies)—Beautiful plants for covering the naked trunks of trees, walls, etc.

IVY AUREA VAR.—Variegated with golden yellow. 20 cts. each.

“ **ARGENTEA**—Variegated with white. 20 cents each.

“ **MINOR**—Handsome small leaves, finely variegated; one of the best of this species. 15 to 25 cents.

KADSURA JAPANICA—A strong growing vine, bearing bunches of beautiful red berries; a fine vine to cover trellis and walls. 25 to 35 cents.

KADSURA JAPANICA VAR.—Elegantly variegated with white and pink. 25 to 50 cents.

BIGNONIA VENUSTA—Bears large clusters of trumpet-shaped flowers; in color, orange scarlet.

TACOMA JASMINOIDES GRANDIFLORA—A beautiful large trumpet-shaped flower; color, white, with rose-colored throat. 20c to 35c.

PLUMBAGO COPENSIS—A light blue flower blooms profusely on this shrub throughout the summer. 20 cents each.

“ **ALBA**—Similar to the above, only with white flower. 15 to 25 cents.

SOLARNUM JASMINOIDES GRANDIFLORA—A rapid growing vine, covered with white flowers. 15 to 25 cents.

SMILAX—A graceful climbing plant, very extensively used in floral decorations. 15 to 25 cents each.

WISTARIA MAGNIFICA—A plant with fine foliage and dense short racemes, bearing a drooping flower of pale lilac color. 35 to 60 cents.

“ **WHITE**—An elegant and rapid growing climber, spreading in all directions; bears long racemes, covered with buds and white flowers, handsomely arranged. 50 to 75 cents.

“ **PURPLE**—Same as the above, but with blue flowers. 50 to 75 cents.

“ **PURPLEA LONGFLORA**—A strong growing plant, with long racemes drooping from 2 to 3 feet, and covered with pale lilac flowers of great beauty. 65 cents to \$1.00 each.

“ **ALBA LONGFLORA**—Same as the above, but covered with white scented flowers. 65 cents to \$1.00 each. Extra large plants, \$1.50 to \$3.00 each.

“ **DOUBLE PURPLE (True)**—Long racemes, with beautiful double flowers of light purple, shaded with lilac. \$1.00 to \$1.25 each.

“ **NEW PINK**—The most elegant blooming species of all Wistaria; will make a sensation when seen in bloom; the racemes over 2 feet long, of perfect form, are covered with fine pink flowers. We recommend this plant as a wonderful new variety, and the finest ever produced in this country. Strong grafted plants, with flower buds, 75 cents to \$1.25 each.

HARDY PERENNIAL and BULBOUS FLOWERING PLANTS.

ACHILLEA SIBIRICA—Grows white, clustered flowers, fine for bedding purposes, bearing seeds. 15 cents.

AMMANIA JAPANICA—A fine plant to grow at the shores of ponds or water. 15 cents.

ANEMONE JAPANICA—A fine flower, with large leaves; looks very handsome in flower beds. 15 cents each.

ANTHERCUM PICTURATUM—A handsome plant for baskets and vases. Has long leaves, with edges of pea green and cream yellow stripes through center. 15 to 25 cents.

“ **Vittatum**—Has narrow green leaves, striped with white. 15 to 25 cents.

“ **Yedoense**—One of the finest and best varieties; of compact growth; has dark glistening green leaves, with a bright pearl white stripe, running through the center. 20 to 30 cents.

AQUILEGIA ATROPURPUREA—A handsome bell shaped flower, of blue and white; a plant suitable for flower beds. 15 to 25 cents.

- ASTILBE JAPANICA**—A hardy garden plant, very handsome when in bloom; attains a growth of from 12 to 18 inches, and bears a white flower on long feathery spikes. Is valuable to florists, as it can readily be forced to bloom in the winter months. 20 to 30 cents.
- ASTILBE PALMATA**—Bears flowers similar to the above, but of deep pink and larger; has beautiful palmate foliage. 25 to 30 cents.
- ASTILBE ARUNCUS**—Very similar to above, with graceful white flowers. 25 to 30 cents.
- ASARUM SIELDII**—Has large round heart-shaped foliage, spotted or variegated, in beautiful colors; thrives well in a shady location, or in the house. 25 to 35 cents.
- AMARILLIS BELLADONA MAJOR**—Bears a large beautiful pink flower. 25 to 35 cents.
- “ *Johnsonii*—A plant of odd growth; bears an elegant brilliant red flower, each petal of which is striped with white; very fragrant. 30 to 50 cents.
- AMARILLIS EQUESTRE**—Bears flowers of bright Salmon pink; very fine. 40 cents each.
- CALLA LILY**—A well known white flower. 10 cents each.
- “ “ *Richardia*—Spotted, white leaves. 20 cents each.
- CALTHA PALUSTRIS**—A fine plant for baskets or vases; bears yellow flowers on long stalks. 25 cents each.
- CAREX (Variegata) JAPANICA**—An extensively graceful variegated grass; is very hardy and has long slender green leaves; a pearl white line runs along the edge of the leaves; a very fine plant for flower pots, or out-of-doors. 5 inches high, 30 cents.
- CAREX VARIEGATA JAPANICA**—Similar to the above, but with light green foliage; the leaves have a broad border of bright pearl white, and are very beautiful. 35 cents each.
- CAREX PICTURATUM (Variegata)**—Also of the same species, but much handsomer than the *Carex Japanica*; having dark glistening green leaves, with a bright pearl white line running through the centre; a tall growing plant of delicate texture; invaluable for decorative purposes and in vases. 35 cents each.
- CRIMUM ASIATICUM**—(Giant Spider Lily.) A grand evergreen bulbous plant, of very large size and dark green foliage; attains a height of 4 to 5 feet and produces magnificent flower stalks, each one bearing from 15 to 25 white flowers, making an umbrella-like appearance when in full bloom; a fine plant either for the house or garden. Small plants, 15 to 25 cents; large, 35 to 50 cents.
- CLIVIA MINIATUM IMANTOPHYELUM**—A pretty plant easily cultivated, and of lilv like appearance; the flowers are of fine orange red, shading to buff, and are borne in dense clusters, with many flowers on each; a most desirable house plant. 35 to 50 cents.
- CAMPANULA JAPANICA**—Bears a pretty well-shaped flower of dark blue and white. 25 cents.
- ELSHOLTZIA SUBLANCIOLATA**—A handsome plant of pyramidal form; bears graceful light green foliage, and resembles the *Asparagus* plant, but is quite dwarfed; well adapted for bordering gardens or for vases. 25 cents each.
- ECHEVERIA**—Well adapted for rocky or carpet beds. 25 cents per dozen.
- FUNKIA OVATA**—(Day Lily.) Has a beautiful very large foliage of dark green, and produces long spikes covered with light purple flowers in great abundance. 25 to 50 cents.

- Funkia Ovata**—Has light green foliage and pure white flowers. 25 cents.
- Funkia Ovata**—Has large purplish green foliage, with large purple flowers of great beauty; very rare. 35 cents.
- “ **Ovata**—A small leaved variety, with light lavender flower in great abundance. 20 cents.
- “ **Ovata (Variegata)**—Very beautiful foliage, variegated with bright pearl white; suitable for flowerpots. 35 to 50 cents.
- Farfugium Grande**—A very ornamental plant, either for pot or bordering garden; the leaves are of thick leathery texture from 8 to 12 inches in diameter and dark green in color, with bright pearl-white and yellow spots; some varieties not spotted; the flowers are bright yellow, similar to Marguerites. 25 to 40 cents.
- Geranium**—A well known plant. 15 cents.
- Geranium Ivy**—An invaluable trailing and vase plant; thrives anywhere and will stand the hottest weather without injury; requires little care and blooms almost the entire year, producing large flowers of many colors. 12 of the best varieties, \$2.00 20 cents each.
- Hemorocallis Flava**—Has graceful light green foliage, with handsome yellow flowers similar to the Amaryllis; very ornamental. 25 to 40 cents.
- Iris Kempferii**—(Japanese Iris.) A beautiful flowering summer plant, with flowers of various colors, ranging from purest white to deepest blue and variegated; these flowers measure from 8 to 12 inches in diameter; some of them almost rivaling the Orchids in their beauty of form and marking. 25 cents each. 50 of the best varieties \$10.00
- Iris Laevigata**—Bears handsome violet colored flowers. 25 cents each.
- Iris Gracilipes**—A hardy evergreen Iris, bearing lovely white flowers shaded with lavender and with yellow center. 25 cents.
- “ **Tectorium**—Handsome flowers. 25 cents each.
- “ **Germanica**—Grows freely in any location and bears flowers of lovely form in whitish, purple and lavender yellow, five varieties. 20 cents each. 5 varieties 75 cents.
- Nerine Japanica**—(Pink Spider Lily.) An easy growing bulbous plant; produces a large number of spikes, covered with scarlet flowers; very beautiful when in bloom. 5 cents each. 50 cents per dozen.
- Ophiopogon Argentea (Variegata)**—Has long, narrow leaves, with pearl white stripe through the end. 50 cents to \$1.00.
- “ **Japanica**—A handsome and hardy evergreen plant for baskets and vases; has light green foliage, edged with cream yellow, and produces pretty lavender blue flowers; thrives easily. 25 to 35 cents.
- Primula Japanica**—A fine plant for flower beds. 20 cents each.
- “ **Chinense**—We have assorted varieties, in white and pink, double and single. 25 cents each.
- Petunia**—Bears fine double flowers; varieties. 25 cents each.
- Peaonia Habecious**—Bear large and very showing flowers of various colors; white, pink, red and striped; is very hardy and will thrive in any location or soil, but the flower grows larger and finer in rich soil. 25 cents each. \$2.50 per dozen.
- Saxifraga Sarmentosa**—One of the finest plants for hanging baskets and vases; a creeping variety with small leaves, and resembling the Begonia in its foliage. 15 cents each.
- Vabena**—The plant used most extensively for flower beds; a great many varieties. 10 cents each. 75 cents per dozen.

CONIFEROUS PLANTS.

- Abies Firma**—(Japan white spruce.) A magnificent evergreen from Japan; of upright, strong growth and symmetrical, pyramidal shape; an effective tree for the lawn. 35 cents to \$1.00
- Abies Excelsia**—A symmetrical tree and compact grower, with graceful and drooping branches. 50 and 75 cents.
- “ **Normaniana**—A beautiful, symmetrical form of slow growth, with dark green, massive foliage, silvery white underneath. 50 cents to \$1.00.
- Araucari Excelsia**—(Norfolk Island Pine.) A remarkably ornamental tree for the lawn; of stately, upright growth, and symmetrical, pyramidal form. \$1.50 to \$3.00.
- “ **Bidwillii**—Same form as the above, but of compact growth and much larger; pointed leaves; very hardy. 75 cents to \$1.50.
- Araucaria Imbricata**—(The Monkey Puzzle.) A most valuable ornamental tree for the garden; of beautiful pyramidal form, with stiff sharply-pointed leaves of deep, shining green. Small plant, 35 cents. Large plant, \$3.50 to \$4.00.
- Chamaecyparis Ericoides** (*Variegated*)—A handsome, symmetrical tree, of compact growth, handsomely variegated, with cream, yellow and white; one of the finest variegations of this species. 25 to 50 cents.
- Cryptomeria Japonica**—A fast-growing tree of graceful appearance: grows with age from 60 to 150 feet high.
- Cryptomeria Daffic**—A quaint dwarf variety recently introduced from Japan; its form of growth is round: foliage deep green, 25 to 40 cents each.
- Cryptomeria Verldis**—A curious and slow-growing tree, with long, straggling branches; when grown, has a fine, lace shape. 25 to 35 cents each.
- Cryptomeria Kusari**—A slow-growing tree with drooping branches; its foliage is cored, regularly, like cord; very interesting. 75 cents to \$1.00 each.
- Cryptomeria Aya**—Has a very fine, soft foliage, of whitish green. 35 to 50 cents each.
- Cryptomeria Japonica** (*Variegated*)—A compact growth, finely variegated with creamy white. 35 cents.
- Cunninghamii Sinensis**—A magnificent tree of upright growth, resembling in its pyramidal form like the A. Bidwillii. 35 to 75 cents each.
- Cupressus Lawsoniana**—A very fine evergreen for the garden. 50 cents each.
- Juniperus Variegata**—An elegant species, with yellow variegations and of dense, compact growth. 40 cents each.
- Juniperus Sabina**—A low, creeping species of dense growth; well adapted for rockeries and terrace walks. 45 cents each.
- Juniperus Sabina Variegata**—Same as the above, but with variegated foliage of creamy white.
- Juniperus Sinensis Aurea**—The finest spreading variety; of a dense, compact growth. There are two kinds—one, a deep, golden yellow; the other, silvered with white. 40 and 50 cents each.
- Lurix Leptolepis**—A beautiful, ornamental and rapid-growing tree, with fine foliage, 45 cents each.
- Cupressus Suirin**—Distinct in habit from any other variety, with a foliage like thread, and finely drooping. 50 to 75 cents each.
- Cupressus Sulrin, var.**—Same as the above, but with golden yellow variegations. A very rare tree.

Sciadopitys Verticillata—(Umbrella Pine.) Of slow growth when young, eventually reaching a large size; foliage of shining green, arranged in fine form; an exceedingly ornamental and beautiful conifer. Small plants, 35 cents each. 1½ to 2 feet, \$1.50 each. 4 to 6 feet \$4.00 to \$6.00 each.

Taxus Tardiva—An ornamental tree of bushy growth. 50 cents each.

Taxus Cuspidata—(Japanese Yew.) Resembles the Irish Yew, but of larger foliage and compact growth. 35 to 50 cents.

SCIADOPITYS VERTICILLATA

Thuya Dolobrata—A strong grower, with horizontal branches of pendulous foliage; well adapted for the lawn. 35 cents each. Large sizes, 75 cents to \$1.00 each.

Thuya Dolobrata, var.—Same as above, but foliage is variegated with white. 35 cents to \$1.00 each.

Thuya Gigantea—Has an elegant, upright growth, with foliage of a fine, dark-green color. 35 cents each.

Thuya Obtusa—One of the prettiest in this variety; a fern-like foliaged evergreen tree. 50 cents each.

Thuya Obtusa Aurea, var.—Same as the above, but with yellow, variegated foliage. 75 cents to \$1.00 each.

Thuya Orientalis—An upright, pyramidal growth, with dense branches. 35 to 50 cents

Podocarpus Macrophela—A variety distinct from any other; its foliage is of dense growth, large and symmetrical; very hardy. 40 cents each.

Podocarpus Macrophela, var.—Same as the above, variegated with creamy-white foliage. 50 cents each.

JAPANESE LILY BULBS.

Lilium Auratum—(Golden Band Lily.) Flowers of immense size, of pale, ivory-white color, spotted with rich chocolate crimson, banded on rays with yellow; has a strong, delicious fragrance. 15 cents each. \$1.25 per dozen.

Lilium Speciosum Rubrum—Rosy pink, spotted with darker crimson. 10 cents each. \$1.00 per dozen.

“ *Speciosum Melpomene*—Same as above; richer in color; round leaves. 15 cents each. \$1.25 per dozen.

“ *Speciosum Albam*—Same as above; white, spotted with creamy white. 15 cents each. \$1.25 per dozen.

“ *Longiflorum*—Pure white, trumpet-shaped flowers; very fragrant. 10 cents each. 75 cents per dozen.

“ *Tigrinum Splendens*—Orange salmon, spotted with black; very large bulb. 10 cents each. 75 cents per dozen.

“ *Tigrinum Pleno*—Same as above, but double. 15 cents each. \$1.25 per dozen.

Rare Varieties of Japanese Lily Bulbs.

The following varieties may be ordered until October for delivery in January.

Lilium Auratum Rubro (Vittatum)—A rare style of Lily Auratum, and of same size; broadly striped in center of petals and spotted; distinct and showy. 50 cents each. \$5.00 per dozen.

Lilium Auratum Witteii—Magnificent, white flower, broadly banded with yellow; very rare and distinct. 50 cents each. \$5.00 per dozen.

Lilium Auratum—Virginal Album. Large, white flower, with center of each petal yellow, spotted with distinct shade of white. 40 cents each. \$4.00 per dozen.

Lilium Pictum—Similar to the Auratum, but tipped with crimson at end of yellow rays. 40 cents each. \$4.00 per dozen.

Lilium Auratum Platiphyllum—Larger and much prettier flower, resembling the Auratum in general appearance, but with broader petals and almost round leaves. 25 cents each. \$2.50 per dozen.

“ *Brownii*—Beautiful, trumpet-shaped flower, of fine shade of brownish purple; inside of petals creamy white. 50 cents each. \$5.00 per dozen.

“ *Krameri*—A fine shade of light pink; sometimes pure white. 25 cents each. \$2.00 per dozen.

“ *Longiflorum Folis Albomarginatis*—Pure white, trumpet-shaped flower; leaves margined with white. 25 cents each. \$2.50 per dozen.

“ *Dahuricum*—Superb variety of the Elegans type; orange red. 20 cents each. \$2.00 per dozen.

- " *Elegans—Alice Wilson*. Large flower; canary yellow; erect very rare. 75 cents each. \$7.00 per dozen.
- " *Elegans Altrosanguineum*—Erect; dark blood red; very distinct. 10 cents each. \$1.00 per dozen.
- " *Elegans Orange*—Earliest summer variety; of orange color. 10 cents each. \$1.00 per dozen.
- " *Elegans Semipleno*—Has a double appearance; produces small-fringed petals with white tips in central way. 15 cents each. \$1.25 per dozen.
- " *Elegans Florepleno*—Orange scarlet; very double, very rare, 75 cents each. \$7.00 per dozen.

THE JAPANESE FRUIT TREES.

Persimmon—(or Japan Date Plum) is a valuable fruit tree introduced from Japan. Of late there are a great many varieties of them, but we naturally divide the sort into two kinds. One of the sort naturally ripens with very sweet and fine taste, and are among the delicious table fruits, which can be eaten fresh. [Ripen from August.] The other sort never loses the astringent taste on the tree, unless subject to drying, by which it is much improved, especially if hanging in a place where there is very free changing of air. Afterwards peel off the skin or do some other way to keep them in the barrel or box with very little straw; after packing the fruit cover. They are then ripened in three or four weeks. Another method is very complex; it is unnecessary to give directions here but any who wish to know about it may inquire at once of us. Three to four feet high; per dozen, \$1.50; per 100, \$8.00.

Plum Botankia [Japan Plum]—Fruits very large, heart-shaped, with small pits; in color greenish red; very juicy. Three feet high; per dozen, \$2.00; per 100, \$12.

Plum Hatankio—Fruits form same as the above, but color greenish yellow overspread with bright cherry. Three feet high; per dozen, \$2.00; per 100, \$12.

Mammoth Chestnut, Giant Chestnut—The nut is remarkable for its large size and of better flavor than the Spanish chestnut; it is quite hardy almost anywhere in this country, also very early; bears fruit at three or four years after planted: one of the most valuable fruit trees which can be grown. Four to five feet high; per dozen, \$2.75; per 100, \$15.

Japan Walnuts—The native of northern Japan and perfectly hardy as the oak, the shapes growing in cluster with large leaves, producing the nut in extreme abundance; have a hard shell, but is not as hard as the black walnut; the meat is sweet and early bearers, with very easy culture. 40 cents each; per dozen, \$4.00.

Japan Quince—Very large fruit with fine flavor. 25 cents each; per dozen, \$3.00.

Laquat Japonia—A useful tree both for ornament and fruit; its foliage is very large and thick, dark green, with cream white flower; make handsome lawn trees, blooming in October and November; bear bunches of yellow fruits; ripen in May and June. Fruits agreeably vinous and producing profusely. 25 cents each; per dozen, \$2.40.

The Giant Loquat—Same as the above, but bears larger fruit.

Punis Tomentosa—A cherry-like sweet fruit; a valuable tree both for fruit and ornament. A dwarf habit of bush formed grower, attaining eight to ten feet in height; can be trained in any shape; covered with beautiful white flower, and greenish yellow overspread with light red fruits, which are produced in extra abundance; it is extra nice table fruit, with sweet and subacid flavor. 50 cents each; \$6.00 per dozen.

Prunus Japonica—A small, eatable fruit, almost same as the above, but red overspread with black and pretty pink flower; ripens in June. 25 cents each; \$3.00 per dozen.

Torreya Nucifera [Strangest or New Nut]—A very valuable tree both for nuts and ornament; the shape as handsome as *Abies Firma*, with same habit; the nut shells form of a heart, sharp-pointed at base. The nut falls off in September and October when fully ripe. After letting it boil about five to seven minutes, with a slight blow on the shells the kernel can be extracted. Has fine flavor, and yields very useful oil. 50 cents each; per dozen, \$5.00.

JAPAN ORANGE TREES.

Manderien Oranges—Of the many good things introduced from Japan none are more valuable than this tree. It attains a standard growth in the bush of fifteen to twenty feet; dwarf and reclined habit and perfectly hardy; is also earliest and prolific bearer of superior quality of fruit. The fruit is three inches in diameter. Oblate; the form flattened, of a deep orange color, with smooth and very thin skin detached easily from the pulp; the color of the pulp deep yellow; it is remarkable for its fine flavor; very juicy and seedless. Also very early, ripening in October, and has long keeping quality. One of the deciduous and best table fruits. Three to 3½ feet high, \$4.00 per dozen; \$25 per 100. Two to 2½ feet high, \$17 per 100.

Tangurine [French Kid Glove]—A sweet, flattened, medium-sized fruit; pulp easily separated to section or the rind; very tender skin; rich, melting and spicy. 50 cents each; \$5.00 per dozen.

Citrus Japonica—A very handsome, rather small orange, with bright golden yellow color, of very thin skin; a profuse bearing capacity; covered with fruit and good flavor; the fruit can be eaten fresh from the trees; the trees of dwarf habit and standard bush-growers; very beautiful table decoration plant. 35 cents each; \$3.25 per dozen.

Citrus Bigordia [The Bitter Orange]—A beautiful large orange; profuse bearer; its fruit can be held two or three years on the tree, and changes from green to yellow; when new oranges are on, the fruit becomes nearly worthless. Trees of rapid growth and perfectly hardy. Very beautiful and ornamental. 75 cents each; \$6.00 per dozen.

Citrus Aurantium—Large orange, used as limes in Japan. 50 cents each.

Citrus Media (Two kinds)—The fruit same as a lemon, but thicker rind; one of them has a very curious form; has a very thick, finger-like, lumpy protuberance, with aromatic skin; makes a valuable preserve jam. 50 cents each; \$4.50 per dozen.

Citrus Nobilis (The Shaddock)—A valuable tree both for fruit and ornament; has large to extra large fruit, of very thick skin, with fine flavor, the meat of which can be eaten with sugar sprinkled on; it is delicious and fine for table use. The trees are of rapid growth

and perfectly hardy; have large leaves; the flower is pure white, very fragrant, and extra large; fine for florists' use. 75 cents each; \$7.00 per dozen.

Citrus Trifolia—Perfectly hardy and of dwarf habit; of a close, compact growth, with large thorn. Covered in spring with white, scented flowers before the fruit appears. Well adapted for grafting stock or hedge plants; very beautiful. 15 cents each; \$1.25 per dozen; \$7.00 per 100.

JAPANESE BERRY

Japan Wineberry—A native of Southern State in Japan; it belongs to the raspberry family; a very strong grower and entirely hardy; rich, wine-colored berries, thickly covered with purplish red hairs; it appears somewhat like a moss rose; flavor sweet and juicy; one of the fine new berries. 25 cents each; \$2.50 per dozen.

Rubus Incisus (Yellow Berry)—Of same habit as the above, but larger, better berries, and sweeter than Wineberry. 35 cents each; \$3.00 per dozen.

Rubus Pictuellus—The berries same as the Wineberry, but grow to the vine and ripen a little earlier; evergreen. 20 cents each; \$1.75 per dozen.

All kinds of Domestic Fruit Trees, 20 cents each; \$2.00 per dozen; \$15.00 per 100.
