TWENTY-SECOND ANNUAL

PRICE LIST

SEASON OF 1912

Descriptive Catalogs exhausted for this season. Will issue New Book in Summer.

MAIN OFFICE AND SALES YARD

FRESNO, CALIFORNIA

Address All Communications to the Firm, FRESNO, CALIFORNIA

Send us an exact list of your wants for quotations

INSTRUCTIONS

Correspondents will please observe as far as possible the following regulations:

1. The name of varieties should be plainly written on a separate sheet of paper in order to prevent mistakes.
2. It is always advisable to send in orders as early as possible, as they are usually filled in the order in which they are received.
3. Persons not acquainted with the different varieties would do well to leave the selection to us, as we shall send only such as give general satisfaction.
4. State distinctly how you wish to ship—by freight or express; also designate the route; otherwise we will use our own discretion in forwarding; but in all cases the articles are at the risk of the purchaser after being shipped.
5. When contracts are made to deliver trees to any particular place, our responsibility ceases the day on which the purchaser was notified to receive the shipment.
6. Orders from unknown correspondents must be accompanied by a remittance or satisfactory reference. Remittances may be made by draft on San Francisco, or postal or express money order on Fresno, Cal.
7. Customers are requested to notify us at once if errors occur in filling orders, as we endeavor to make satisfactory amends.
8. Prospective buyers are requested to send us an exact list of their wants, for in some instances, where quantities of trees are wanted we can make special prices.

GUARANTEE

Our trees are all budded or grafted from bearing trees. Our nursery stock is handled by experienced and careful men; nevertheless, with all our caution, mistakes of minor importance may occur.

Long experience has shown us the urgency of keeping our varieties true to name, and hence we are at all times anxious and willing to replace, on good and sufficient evidence, all trees that may prove otherwise; nevertheless, it is mutually understood and agreed between purchasers and ourselves that we shall not at any time be liable for any amount greater or in excess of the original price of the stock at date of sale. We solicit your patronage, but in justice to ourselves cannot accept your orders on any other terms.

Address all communications to Main Office.

ROSES

We can supply Roses in every color and of the best and latest sorts, also old standard well known varieties. What we do not grow ourselves we can procure for our patrons:

Price: GENERAL COLLECTION: 25 cts each, \$2.00 per 10.

All Roses offered are Strong, Field Grown Plants. We would advise our patrons to leave the selection of roses to us as we know through experience what varieties do well in the different localities. You can specify colors wanted, quantity of each, also state whether Bush or Climbing.

UNROOTED GRAPE CUTTINGS

We are prepared to supply unrooted Grape Cuttings of all leading varieties of Grape Vines in quantities to all those wishing to root their own Vines. No orders for less than 5,000 of any one kind, however, accepted, and parties ordering Cuttings from us must send in their orders so as to reach us before February 1st, 1912.

We make our Cuttings from established Vineyards, and those entirely free from disease, insuring healthy stock in every particular.

Send in a list of your wants for quotations.

THE WILLSON WONDER WALNUT

This Walnut is the largest Commercial Nut of the Walnut family grown.

Trees of this variety two years old grafted on California Black Walnut, produce under proper conditions from 8 to 36 nuts to the tree. As a money maker there is nothing in the tree line, especially of the nut family that will bring such early returns. The Tree produces its nuts in clusters and the foliage is very large and dense affording shade and preventing sunburning so common among other varieties of walnuts. The Tree is a Strong Grower. The Nut in addition to its large size is of the very best quality and experts have pronounced it the King of all Walnuts.

PRICES: \$4.00 each, \$7.00 for 2 trees, \$30.00 for 10 trees, \$250.00 for 100 trees.

Intending purchasers will please send us a list of their exact wants in the event that a quantity of stock is wanted. In case we do not list the particular stock wanted advise us as we can procure same in many instances from other concerns at prices one would have to pay in dealing direct.

Address all communications to:

THE FRESNO NURSERY CO., Inc.

BOX 615

FRESNO, CAL.

The Dattier de Beyrouth Grape

We are prepared to supply Number One Rooted Vines of a new variety of Grape, which we have thoroughly tested and which has proven a money maker in every sense of the term. The new Grape was imported from France by us, and is known as the DATTIER DE BEYROUTH. It has been bearing with us for two seasons and fulfills every expectation as a shipping or table Grape. It also makes a high class raisin Grape. It is about two weeks earlier in ripening than the Malaga and its large size makes it very attractive and a ready seller. Bunches large, berries loose, never compact, this point being in its favor, rendering the packing of same easily performed. A more minute description of this Grape is about as follows:

Berries very large, oval in form, one inch and over long by three-quarters of an inch across in diameter; skin thin but tough, greenish at first, but as the Grape ripens it turns to a beautiful amber, covered with white bloom; very meaty, juicy and sweet, possessing little or no acidity. Its keeping qualities are of the best and even when allowed to remain on the vines until over-ripe shows no inclination to drop. We cannot do this Grape justice by describing it; it must be seen and eaten before it can be fully appreciated.

To give you an idea of its productiveness, we will add that we have 15 acres of the DATTIER DE BEYROUTH which were sold when marketed alongside of the Thompson Seedless, the latter bringing 90 cents a crate while the former brought \$2.00 to \$2.25 per crate. The DATTIER DE BEYROUTH requires a heavy or sub-irrigated soil to reach perfection. In light soil no phenomenal showing can be made.

As a money maker we predict for this Grape a great future. We have several thousand of these vines in Number One rooted stock, which we are selling to introduce same at the following prices:

\$3.00 per 100; \$20.00 per 1000.

Let us have your order before our stock is exhausted.
