TO CATALOGUE SEEDSMEN.

THREE GRAND NEW CABBAGES,

That should be in every Catalogue and become better known. They have proved to be all that is claimed for them by the introducers, Peter Henderson & Co., who describe them as follows:

Henderson's Succession.--"A second early variety, a few days later than "Early Summer," but it is immeasurably superior to that variety; it being nearly double the size and absolutely true to its type, under all conditions. In addition to this it has no tendency whatever to run to seed. We can say without exaggeration that it is the **FINEST CABBAGE IN EXISTENCE TODAY**, whether for medium early, main crop or late use, IT HAS NO EQUAL. It is so finely bred and so true to type, that in a field of 20 acres every head appears alike. We can recommend it either for the market gardens, trucker or private planters, as it is a **PERFECT CABBAGE IN EVERY RESPECT**, not only being of the largest size, but of handsome color and of the finest quality. It is probably the safest variety for an amateur to plant as it does well at all seasons and one is almost sure of getting a crop, no matter when it is planted. Our stocks of cabbage, of all varieties, have for years been the acknowledged standard of excellence in this country, and when we state that we consider "**SUCCESSION**" TO BE THE MOST VALUABLE VARIETY THAT WE HAVE INTRODUCED, our opinion of its great merit will be apparent to all."

Henderson's Autumn King or World-Beater.

"This peerless variety we introduced, and we say without hesitation that it is the **FINEST LATE CABBAGE** in this country today, entirely distinct and the **BEST KEEPER**. It produces enormous solid heads, of that dark shade of green that is most desirable in a Cabbage, and has such small outer leaves that it CAN BE PLANTED MUCH CLOSER TOGETHER THAN THE ORDINARY LATE SORTS, and can be relied upon to produce a greater weight of crop per acre than any other variety from the fact of its producing so few outer leaves, and going all to head. A distinctive feature of the "**AUTUMN KING**" is the peculiarly crimped leaves, which not only adds to its appearance, but enables it to be distinguished anywhere. We are sorry to find that some other seedsmen are offering this same stock of Cabbage under the name of "**WORLD BEATER**." In our trial grounds during the past two seasons we had samples of "Autumn King" and "World Beater" side by side and they prove to be identical. As we sent the "Autumn King" out seven years ago and the "World-Beater" was offered three years later, we claim the credit of the introduction of this **GRANDEST OF ALL WINTER CABBAGE**."—Henderson & Co.

Henderson's Netted Savoy.--"This is the finest of the Savoy class, and a great favorite. Heads large, very solid and compact, of a yellowish-green color, and like all other of the Savoy varieties, is of excellent flavor, far surpassing that of any other late Cabbage."

With us the above three Cabbages have proved to be all that is claimed for them. Our Seed is grown from **SOLID, SELECTED HEADS**, from Henderson's own Stock Seed, and is **PURE, TRUE and GENUINE**. We can offer it at the following reasonable
