OUR NEW MUSK MELON

THE KINSMAN QUEEN.

THE MOST
VALUABLE
NOVELTY IN
MUSK MELONS
EVER INTRODUCED

The first to ripen (ten days earlier than any other kind). The best in quality. Of large size. The greatest producer.

EVERY SEEDSMAN should catalogue this novelty for 1898. Get your orders in at once, as we offer only a limited stock of this seed to the trade this season.

Wherever we have offered this new melon in market it has been taken in preference to all others.

THE KINSMAN QUEEN

Is the result of a cross between the "Emerald Gem" and an old variety of large size and excellent quality, followed by a careful selection for many years of finest early fruit for seed stock. It is first to ripen, being ten days earlier than the earliest musk melon we have ever tested. Is very large in size for an early melon. Will average three times as large as the "Emerald Gem." Nearly round in shape. Color yellowish green outside, and is slightly ribbed and netted. Flesh deep salmon color, and, like its parent the "Emerald Gem," is rich, juicy and delicious, being in every way equal in quality to this old favorite. Is reasonably firm and stands shipping fairly well. It is an excessive producer—holds up well throughout the season.

The Kinsman Queen is bound to be very popular everywhere as it not only heads the list in quality but is also the greatest MONEY GETTER ever introduced.

We offer this seed in blank packets of $\frac{1}{4}$ oz. each at \$3.00 per 100 packets; also a limited quantity of the seed in bulk at \$1.00 per pound.

PHILADELPHIA, Oct. 21, 1897.
MR. FRANK BANNING,
Kinsman, O.,

Your favor of the 18th inst. duly received. In reply would say we think quite well of The Kinsman Queen Musk Mellon.

W. ATLEE BURPEE & Co.

KEARNEY, NEB., Nov. 3, 1897.
MR. FRANK BANNING,
Kinsman, O.,

Your new melon The Kinsman Queen is all O. K.

F. M. GREEN SEED CO.

(The largest growers of vine seeds in the U. S.)

FRANK BANNING,
Seedsman and Florist.
