GEO. J. KELLOGG & SON'S,

Price List For 1898.

NURSERY, ONE MILE SOUTH OF IRON BRIDGE,

P. O. Box 888,

Janesville, Wis.

Thankful for past favors we solicit your further orders. We are in the business for life; we want to give value received; your success is our success; we have only local agents. You cannot afford to pay hotel bills, livery rigs and irresponsible traveling men. We warrant everything true to name; we cannot replace at these prices, you must take care that the roots are not exposed to sun and wind. Plant with care, pack the earth tight about the roots, mulch, wrap the bodies of all trees when set, this keeps from sun-scald, borers and mice. If dry, wet down thoroughly, especially before freezing up, this will pay for bearing trees.

We charge for material used in packing, at cost. We deliver free to the American or the United States Express and to C. & N. W. Ry. Co., or C. M. & St. P. Ry. Co., then our responsibility ceases. If any mistakes occur we will correct or refund the value of purchase money but are not holden for further damage. We advise Farmers and Amateurs to plant only perfect flowering kinds of strawberries, because there are so many beds that become all pistillates and no fruit. We have plenty of perfect kinds that are as productive as pistillates.

A stamp and inquiry will often save the writer \$5.00. The senior member of this firm has been in the business for forty-five years and will aid you in selection of kinds, location, soil and adaption; such letters must enclose a stamp. Our terms are cash with the order, we cannot afford to run any risks or look up references. We are free from San Jose Scale, as we hope to be always.

LOUDON—is considered by all the **BEST RED RASPBERRY**. Hardy as any, better size, as good quality, more productive, longer in season, attractive color and the report of the Mass. Experiment Station says, "The Leading Red Raspberry." There is not a word of complaint from any source. Ten cents each; 75 cents per dozen; \$3 per 100; \$25.00 per 1,000. We have the finest stock east or west, the supply is limited, early paid orders take the preference.

COLUMBIAN RASPBERRY—is the best of the purple. The most vigorous grower, abundant bearer, excellent for canning, the best red non-suckering variety; this has the habits of the black and very valuable for gardens where a suckering variety will not answer. Prices the same as for **LOUDON**.

Plant Raspberries or Grapes in fall or spring, if fall protect by a forkful of manure. Set Red Raspberries 6x3 ft. Black and Purple 8x3 ft. Strawberries are best planted in spring 3 or 4 ft. x 2. Currants, Gooseberries, Shade trees, Herbaceous plants and hardy shrubs are best planted in fall, but everything set in fall must be thoroughly wet down before winter.

Six at dozen, 50 at hundred, and 500 at thousand rates.

Special kinds will be charged at single rates, except in collection, and if a variety is exhausted we reserve the right to substitute or put in smaller trees at the same price unless otherwise agreed.

Prices On Seed Potatoes
Seed Corn on Application,

		EACH.	DOZ.	100.

APPLES, Avista, green, above medium, January, March, origin Wis.

Antonovka, large, yellow, October and Nov. Russian.

Eureka, green medium to large sweet, January to March; Wis.

Fall Spitzenburg, medium to large, late fall, a good grower, vigorous, Vermont.

Fameuse or Snow, medium, the best of the season, Oct. Jan. France or Canada.

Hibernal, large best cooking, more hardy than Oldenburg. Oct. Nov. Russian.

Longfield, med. wonderfully prod. quality good, Oct. to Dec. one of the best Rus.

McMahan, large, white, the best cooking, very hardy, Oct. Wis.

Newell, large, yellow, quality very good, Nov. to January, Wis.

N. W. Greening, large, one of the best long keepers, vig. hardy, Jan. Apl. Wis.

Oldenburg. (Duchess,) the Aug. and Sept. cooking, ahead of all others, Russian.

Patten's Greening, large yellow, good, hardy, Iowa.

Peerless, medium size, color little like Duchess, best growing tree of 100 kinds, claims to be "the best apple on earth." Minn. This will be sold at special prices.

Plumb's Cider, medium to large, prod. good eating and cooking, Sept. Jan. Wis.

Wealthy, medium to large, deep red, best eating and cooking, Sept. Minn.

Windsor, medium size, January to March, one of the best winter, Wis.

Wolf River, large red, pride of Wis. best of big apples, cook and eat, Oct. Wis.

CRAB APPLES, TRANSCENDENT, earliest for jell, hardy, prod. but blights badly.

HYSLOP, large dark red, excellent for jell, and sweet pickles, prod. and sells.

SWEET RUSSET, yellow choice, mid-season, prod. eating and culinary. Wis.

WHITNEY NO. 20, best eating, sweet pickling and very large, Illinois.

MARTHA, medium red, choice; mid-season one of the best. Minn.

VIRGINIA, medium red and yellow, the best stock for top work 2 to 4 feet 10c each.

SHIELD'S med. red and yellow choice for jell and preserving good stock for top work.

We have 25 other standard apples and crabs and still 25 new varieties on trial many of which we will furnish at special rates. To parties leaving the selection to us we will give them the benefit of 45 years in the business. Tell us your soil, location, and what you have got.

STRAWBERRIES.

Of these we make a SPECIALTY growing new beds; on new ground every year; to dig up clean. Owing to the drouth, plants will not be as cheap as last spring. We offer at 25c per dozen; \$1.00 per 100 \$5.00 per 1000, the following eight choice perfect flowering kinds the best proven; best paying standard varieties; any one of them can be set by the acre by themselves and no risk for want of pollen.

BEDER WOOD, Early, a splendid family berry, hardly firm enough to ship.

BRANDYWINE, Late, very firm much like Gandy, not as productive as some.

CYCLONE, Early, this proves a money getter and is very satisfactory.

ENHANCE, Late, a little rough but it brings more dollars than any other late berry.

JESSIE, Medium early, large, choice, but does not do well on all soils.

LOVETT, Medium early, very satisfactory every way, should be in all collections.

SPLENDID, Medium early, this gave us most of any to the acre in '97 you must have it.

TENN. PROLIFIC, Mid-season, very productive, worthy of trial on all soils.

The following perfect kinds are among the best, more recently introduced and are offered at 50c per dozen; \$2.00 per hundred; \$10 per thousand—BEVERLY, BRUNETTE, SPARTA, CLYDE, GLEN MARY, MARSHALL, extra large and WM. BELT perhaps the best of all. These last four are unsurpassed in all good points.

Of Pistillates we offer the following at 25c per dozen, \$1.00 per hundred; \$5.00 per thousand. BUBACH, extra large, medium early; CRESENT, early and reliable; ECLIPSE, late; HAVERLAND, early and very productive; WARFIELD, early, productive. The pistillates must be set beside the perfect flowering kinds or you get no fruit. Two rows of each is best.

The following Pistillates of great size and promise we offer at 50c per dozen; \$2.00 per 100; \$10 per thousand. EDITH, ENORMOUS, MARY and SHUSTER'S GEM.

We have thirty-two other kinds fruiting and will furnish at low rates. Some of these are new and choice. Last and best we offer,

The NICK OHMER, this is claimed by the King of Strawberry growers, M. Crawford, of Ohio, as the best perfect variety, very large, and all perfect shape. This is \$2.00 per dozen; \$10 per hundred.

We have ten acres in strawberries but when any variety is exhausted we shall substitute unless otherwise agreed.

Marshall, if I could have but one variety, this is the one for extra large fine fruit. Splendid, is one for bushels and very satisfactory, the color is a little light.

Clyde, made wonderful promise but the frost hurt it worst of any in '97.

For show berries Marshall, Jessie, Bubach, Clyde, Glen Mary, Wm. Belt, Warfield, Edith, Enormous, Mary and Shusters' Gem.

Notes February 1898.

We offer the following kinds our selection in proportion to supply at \$3.00 per thousand—Warfield, Enhance, Splendid, Haverland, Lovett, Tenn. Prolific and Brandywine. We have at this writing some other kinds upon which we will make special rates on all large orders.

Strawberry plants will be furnished in summer and fall, at dozen and hundred rates only.
