ESTABLISHED 1853.

COMMONWEALTH OF PENNSYLVANIA,
DEPARTMENT OF AGRICULTURE,
Harrisburg, Pa.

THIS IS TO CERTIFY, That I have carefully inspected all the stock of the Maple Avenue Nurseries, Hoopes, Brother & Thomas, West Chester, Chester Co., Pa., and I feel quite sure that it is not infested with the San Jose Scale, or with any other injurious insect or disease. I have been familiar with this scale since 1890, and know it at sight. There are no indications of the presence of San Jose Scale, Peach Yellows, Rosette, or other dangerous insects or plant diseases that might be transferred on nursery stock from the nursery to the orchard.

GEO. G. GROFF,
Special Agent.

October 26, 1896.

Allow me to corroborate what I have previously stated. If your nursery contained San Jose Scale, it is almost impossible that I should not have found it, considering the careful inspection I have given to thousands of your trees.

Yours sincerely,

S. C. SCHMUCKER,

January 16, 1897.

Special Agent for the State, Department of Agriculture.

Maple... Nurseries
Avenue

WEST CHESTER, PA.

.....SEMI-ANNUAL TRADE LIST.....
SPRING, 1897.

WHILE we exercise the greatest care to have all our trees and plants genuine and reliable, and hold ourselves prepared to replace, on proper proof, all that may prove untrue, we do not give any warranty, expressed or implied, and, in case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not, at any time, be held responsible for a greater amount than the original price of the trees.

TWO MEDALS AND DIPLOMAS,

AWARDED BY

UNITED STATES CENTENNIAL COMMISSION.

MACCALLA & COMPANY, PAB., 527 9 OOCK ST., PHILA.

NOTICE TO PURCHASERS.

THIS list is intended for Nurserymen, Florists and Dealers only, and supersedes all previous editions. The prices are for the quantities named. Five Hundred, Fifty, and Five, will be furnished at the Thousand, Hundred, and Ten rates, respectively. On smaller quantities a discount from our retail prices will be made to the trade. Dealers will be furnished at the lowest rates, when their bills for stock purchased at one time exceed two hundred dollars.

Our Nurseries,

Covering 600 Acres, with a large amount of glass, are in the immediate vicinity of West Chester, which is situated twenty-seven miles west of Philadelphia, and with which we have nearly hourly communication by two railroads—one a direct road, the other a branch of the Pennsylvania Central, and from which we have a siding to our packing-house. By the latter route we are enabled to ship to all parts of the country, without transfer in Philadelphia, and at very low rates to distant points.

Our Office,

Situated at Maple Avenue Station, is ten minutes' walk from the Main Station in West Chester. Trains leave Broad Street Station, Philadelphia, for Maple Avenue, 6.15, 7.15, 8.30, 9.45, 11.45 A.M.; 12.45, 2.40, 4.20, 4.45, 5.40, 6.45, 8.15 and 11.45 P.M. Return, 5.55, 6.25, 6.41, 7.41, 8.48, 9.15, 10.23, 11.55 A.M.; 1.58, 4.43, 6.25 and 10.25 P.M. Leave Broad Street Station for West Chester, 6.15, 6.49, 7.15, 7.17, 8.30, 8.46, 9.45, 11.12, 11.45 A.M.; 12.45, 1.28, 2.40, 2.53, 3.48, 4.20, 4.32, 4.45, 4.55, 5.40, 5.44, 6.19, 6.45, 8.15, 8.23, 10.32, 11.43, and 11.45 P.M. Return, 5.15, 5.54, 6.00, 6.22, 6.40, 6.47, 7.35, 7.40, 8.25, 8.47, 9.10, 9.14, 10.22, 11.25, 11.54 A.M.; 1.05, 1.57, 3.00, 4.42, 4.50, 6.05, 6.24, 7.15, 10.20 and 10.24 P.M.

The Packing Season

Generally commences from the first to the middle of March in the Spring, and about the first of October in the Autumn. The season is not regulated, however, by any definite date, nor by the state of vegetation at the locality of the planter, but by the condition of the trees when received. Parties south of us may receive our trees some weeks after their season has opened, yet when planted they will give entire satisfaction.

Packing.

All orders for forwarding by freight or express except in car-load lots are carefully packed in bales or boxes, for which a charge is made sufficient to remunerate for the cost of material and time.

Shipping.

Our shipping facilities to the West by fast freight lines, and to New England and the South by various steamship lines, are unexcelled in rapidity of transit and low rates of freight charges.

Purchasers are requested to name the mode of conveyance by which they desire their shipments, OTHERWISE WE WILL DESPATCH TO THE BEST OF OUR JUDGMENT. AFTER DELIVERING TO THE FORWARDERS, ALL ARTICLES ARE ENTIRELY AT THE RISK OF THE PURCHASER; AND SHOULD ANY LOSS OR DELAY OCCUR, THE FORWARDERS ALONE MUST BE HELD RESPONSIBLE.

All packages delivered free of cartage at the Freight and Express Offices in West Chester.

Parties desiring stock shipped per express C. O. D., MUST accompany their order with cash to one-half the amount, otherwise no attention will be paid to the same.

Claims.

All claims for errors and deficiencies must be made within TEN DAYS after receipt of the stock. We desire to be notified of mistakes as early as possible, so that we may rectify the same without delay.

Terms, Cash.

The following Catalogues will be mailed on application, viz.:

- No. 1. Descriptive Catalogue of Fruits, three 2-cent stamps.
- No. 2. Illustrated and Descriptive Catalogue of Ornamental Trees, etc., 10 cents.
- No. 3. Wholesale Trade List, free.

Hoopes, Brother & Thomas.

WEST CHESTER, Pa., February, 1897.

FRUIT DEPARTMENT.

THESE prices are for our selection of varieties, but we will adhere as closely as possible to the wish of the purchaser. In no case will we supply long lists of selected varieties of either Fruit or Ornamental Trees at wholesale rates, but will allow a discount on our retail prices proportionate to the amount of the order.

ROUGE DE MARLY, 2 to 3 feet.....	1 25		
JOSIKEA (Chionanthus-leaved Lilac). A very distinct and beautiful species. We offer strong one-year-old budded plants, 18 to 30 inches.....	1 50		
WEeping (Pekinensis pendula), <i>new</i> , grafted on straight single stems, a decidedly pendulous and graceful form. The flowers resemble the ordinary Persian Lilac. 3 to 4 feet stems, one and two-year buds.....	4 00	30 00	
NEW VARIETIES, strong two and three-year buds (de- scribed below). Price, except otherwise noted.....	1 25	10 00	
Having tested a large number of the most popular and highly recommended foreign varieties as they were annually in- troduced, and selected only those for propagation that pos- sessed a high order of merit, we confidently believe the fol- lowing list embraces all the finest qualities known to this charming shrub.			
ALPHONSE LAVALLÉE, new, very large, pale blue, in fine, compact trusses of double flowers, 18 to 30 inches			
AMBROISE VERSCHAFFELT, very pretty pale pink, with large trusses. Good grower and distinct, 12 to 18 inches.			
BERTHA DAMMANN, immense trusses of pure white flowers, very profuse bloomer, 12 to 18 inches.....	1 50		
FLORA PLENA, one of the oldest of the double Lilacs, and an excellent kind. Simply a double VULGARIS, 18 to 30 inches.			
GLOIRE DE LORRAINE, very fine large purplish lilac. Dis- tinct and valuable, 12 to 18 inches.			
GÉANT DES BATAILLES, bright reddish lilac, in large attract- ive trusses, fine, 12 to 18 inches.			
LA TOUR D'AUVERGNE, another promising new double lilac, of strong growth, 2 to 3 feet.....	1 50		

	Per 10.	Per 100.	Per 1000.
LILAC — LE GAULOIS , this elegant novelty blooms in large thyrsi of double bright red flowers, 12 to 18 inches.....	\$1 50		
LÉON SIMON , one of the best of recent introductions, very double bluish flowers in large trusses, 18 to 24 inches.....	1 50		
MATHIEU DE DOMBASLE , one of the very best. Large truss of double rich reddish lilac, 18 to 30 inches.			
MADAME LEMOINE , large spikes of pure white double flowers, decidedly one of the finest novelties of recent introduction, 18 to 30 inches.....	1 50		
NIGRICANS , trusses large and compact, very deep reddish lilac. Foliage dark green, 18 to 30 inches.			
PYRAMIDALIS , an exceedingly fine novelty with large full semi-double flowers. Rose colored, 2 to 3 feet.			
PROFESSEUR STOCKART , dwarf grower, with large trusses of reddish-lilac flowers. Free bloomer, 18 to 30 inches.			
RENONCULE , exceedingly double, short compact truss. Pale reddish lilac, 2 to 3 feet.			
ROTHOMAGENSIS METENSIS , pale reddish lilac, in long panicles. Growth very vigorous, 3 to 4 feet.			
SÉNATEUR VOLLAND , one of the finest double novelties of the season. Large and distinct, 2 to 3 feet.....	1 50		
SOUVENIR DE LA SPATH , the most distinct and beautiful variety in the collection, trusses immense, very compact, florets very large, deep purplish red, 18 to 30 inches.	1 50	\$12 00	
SAUGEANA , a member of the Persian group, with reddish-purple flowers. Fine strong grower, 2 to 3 feet.			
VILLE DE TROYES , one of the finest, trusses and florets very large. Rosy or reddish lilac, 18 to 30 inches.			
VIOLACEA , strong growth, very double and fine. Pale blue color in short compact trusses, 18 to 30 inches.			
VIRGINAL , very distinct, large pure white flower and truss. Growth strong, free bloomer, 2 to 3 feet.			
VIRGINITÉ , a beautiful new lilac with the same tint as the rose "Souvenir de la Malmaison." Very double and striking flowers, 18 to 24 inches.....	1 50		
JAPONICA , a new and unique species from Japan, attaining the size of a tree, with large panicles of white flowers. Foliage very large, thick, and deep green color. Strong two-year-old plants, 2 to 3 feet.....	1 50	12 00	
VILLOSA , another new Japanese species with foliage resembling the White Fringe (<i>Chionanthus</i>), and producing immense panicles of white flowers late in the season, 2 to 3 feet, two years from bud.....	1 50	12 00	
LONICERA (Upright Honeysuckles)— FRAGRANTISSIMA , a very early sweet-scented species, 18 to 30 inches.....	1 25		
GRANDIFLORA , large, red bloom, 2 to 3 feet.....	1 00	8 00

<p>“ANTHONY WATERER.” A beautiful novelty introduced last season into our collections. The <i>Garden and Forest</i> thus alludes to it in a recent issue: “This is a seedling of that variety of Spirea Japonica, which is known in gardens as S. Bumalda, and which is distinguished by its dwarf compact habit, its persistent flowering and bright red flowers. Spirea Anthony Waterer originated in the Knap-hill Nurseries at Woking, in England, a few years ago, and differs from its parent in the deeper, brighter and more intense color of the flowers. As it begins to flower freely, when only a few inches high, and continues to produce its large flat corymbs from July until frost appears, this shrub promises to be a capital addition to the rather short list of autumn-flowering hardy shrubs. It has received a first-class certificate from the Royal Horticultural Society.”</p> <p>We offer nice young plants grown in the open ground, 2 years, 12 inches, bushy.....</p>

STANDARD SHRUBS.

The practice of training shrubs in tree form is comparatively new, and has proven unsurpassed for the pleasing effect produced in formal gardening work. As centres for beds, groups, etc., or for straight lines bordering walks, they are especially appropriate. A collection of assorted colors of the *Althea* will prove much more reliable and satisfactory than Tree Roses, whilst being equally as attractive when in bloom. The following heights annexed to each are intended for the stem only, measuring from the ground to the lowermost branch in the head.....

	Per 10.	Per 100.

ROSES.

We desire to call attention to our stock of high-grade Roses the present season, as we confidently believe they cannot be surpassed for health and vigor. Especially is this the case with the Hybrid Perpetuals and Mosses, individual plants of which measure as high as *six* feet, and all are well branched and strictly true to name. We are now prepared to supply in quantity the following deservedly popular pink or rose-colored varieties: *Baronne Prévost*, *Climbing Jules Margottin*, *Climbing Victor Verdier*, *François Levet* and *Magna Charta*. Our stock of the meritorious white Rose, *Gloire Lyonnaise*, is very extensive and of the highest quality. These prices are intended for a regular assortment of varieties, subject to our approval. Should special kinds be desired in quantity, we will quote rates on application.

CLASS 1.—GROWN IN THE OPEN GROUND.

All on their own roots except otherwise noted.

	Per 10.	Per 100.	Per 1000.
HYBRID PERPETUAL—Two years, strong and very healthy. Mainly of the following kinds— <i>ANNA ALEXIEFF</i> , <i>BARONNE PRÉVOST</i> , <i>BLANCHE LAFITTE</i> , <i>CHAS. LEFÈVRE</i> , <i>CHAS. MARGOTTIN</i> , <i>CLIMBING JULES MARGOTTIN</i> , <i>CLIMBING VICTOR VERDIER</i> , <i>COQUETTE DES ALPES</i> , <i>COQUETTE DES BLANCHES</i> , <i>FRANÇOIS LEVET</i> , <i>GÉANT DES BATAILLES</i> , <i>JOHN HOPPER</i> , <i>JULES MARGOTTIN</i> , <i>LA REINE</i> , <i>LORD BACON</i> , <i>MME. GLOIRE LYONNAISE, the grand hardy white Rose which is affording so much pleasure to florists all over the country. In a brief summary of its many excellencies we may say it is quite hardy; of the very strongest growth; foliage a peculiar dark glossy green, which it retains longer in Autumn than others of its class; habit very branching; blooming qualities of the highest order, showing occasional flowers during the late Summer months; color almost pure white, relieved by a slight lemon tint at base of petals; of very large size when fully open, but especially beautiful in bud, reminding one of a fine <i>Kaiserin Augusta Victoria</i> , that queen of Hybrid Teas. The plants we offer are all strong, two years old, on their own roots, most of which will measure from 4 to 5 feet in height....	1 50	12 00	100 00
CLIMBING—Strong, one and two years. <i>BALTIMORE BELLE</i> , <i>GREVILLE</i> and <i>PRAIRIE QUEEN</i>	1 00	8 00	
GEM of the PRAIRIES. Both on its own roots, and fine, strong, budded plants, 2 years.....	1 50	12 00	
MOSES—2 years. In the following varieties, fine, <i>COMTESSE DE MURINAIS</i> , <i>BLANCHE MOREAU</i> , <i>GLOIRE DES MOUSSEUSES</i> , <i>PRINCESSE ADÉLAÏDE</i> , <i>LUXEMBOURG</i> , <i>RAPHAEL</i> and <i>SALET</i> ; own roots.....	1 25	10 00

THE YELLOW RAMBLER

ROSE,

Also known as "AGLAI," is now being offered for the first time, and all who have grown the CRIMSON RAMBLER will want one plant at least of this very pretty novelty. In manner of growth and arrangement of flower clusters the two varieties are singularly alike, but the color of this new candidate for popular favor is decidedly yellow. It is also said to be quite fragrant. We can offer well-established plants, in 2½-inch pots, at 35 cents each, \$4.00 per ten, \$25 per hundred.

Hardy Border Plants.

FINE assortments of the following, exclusively our selection, can be furnished at \$6 per 100, \$50 per 1000.

	Per 10.	Per 100.

TWO VALUABLE SHRUBS.

The modern landscape gardener desires something more effective for clumps than mere masses of flowers. Shrubbery in the Autumn, when clothed with bright-colored berries of various tints, is far more attractive than blooming plants, and for this reason the two native species of *Symphoricarpos*—the Snowberry (*S. racemosus*), with an abundance of snow-white berries, and the Indian Currant (*S. vulgaris*), with dense masses of bright red coral-like fruit—are unsurpassed for the purpose. We are offering strong, bushy plants of these at very low rates, especially when ordered in large lots.

ANOTHER FINE NATIVE.

The increasing demand for what is popularly known as "White Alder," or "Sweet Pepperbush" (*Clethra alnifolia*), has induced us to grow a heavy stock of plants. These are far superior to the cheap shrubs dug from the swamps, and will not only transplant with perfect safety, but will make an immediate effect in grouping. The racemes of white, highly fragrant flowers are also of great importance to the apiarist as furnishing a large amount of food for bees. We can supply this species in quantity at very low rates, all nicely furnished plants, 2 to 3 feet high.

ORNAMENTAL TREES, ETC.

Having one of the most extensive assortments in the country of high-grade shade trees, we wish to invite the attention of purchasers to our stock, in the belief that we can meet their wants in every respect. For the same quality of stock we are not afraid of any honorable competition.
