WEeping LANTANA

A New Weeping Plant
of Great Beauty.

One of the grandest
basket plants grown.
The plant has a most
graceful drooping
habit, grows very rap-
idly and blooms con-
tinually Summer and
Winter, producing
large clusters of flowers
of the most delicate
lilac or rosy pink, foli-
age a beautiful dark
green. A single plant
on August 1st, this past
Summer, had 690 clus-
ters of flowers on it. The
same plant, December
1st, had 350 clusters of
flowers on, which proves
it one of the most per-
sistent bloomers, and
does equally well Win-
ter and Summer. We
know of nothing of re-
cent introduction that
is as easily grown and
gives so much pleasure
and satisfaction as this

CHINESE LANTERN PLANT

Physalis Francheti.

A most magnificent plant for the garden during Summer, or for pots both Summer and Winter, and a useful fruit. Not in years has so unique and novel a plant been introduced, or one which combines so thoroughly great beauty and usefulness. It blooms early and produces the same season a great number of balloon like husks, 3 to 3½ inches across. At first these are bright green, then change to a bright yellow and finally to a bright scarlet, and as they hang suspended among the green foliage they very much resemble "miniature Chinese lanterns" when lighted. Frost does not effect them as they last long after other flowers are gone. Plants are perfectly hardy. In these husks or "lanterns" a fruit is borne much like a Winter Cherry or Husk Tomato, except that in color it is a deep ruby-red and is in every way superior to the Winter Cherry, either for cooking, preserving or eating raw, and keeps well into the Winter. The branches, covered with husks, are used with great effect as parlor ornaments, as they remain bright and fresh for over a year. As a Christmas decoration it has no equal.

Strong Plants, 20c. each, 3 for 50c.

Seed. Plants grow and bloom first year from seed. Pkt, 5c., 3 for 15c.

ASTERS.—IT is unnecessary to dwell on the great beauty of these popular favorites, as they are loved by everyone. We recommend our friends to plant a number of varieties, as no other annuals afford so grand a display of flowers during the summer and fall months.

LARGE FLOWERING ASTER—DWARF QUEEN.

**NEW, LARGE-FLOWERING,
DWARF QUEEN ASTER.**

It is impossible to say too much in praise of this new strain.

The dwarf, bushy plants grow only ten to twelve inches high, and while branching very freely, the branches are upright (not loose in habit), make a dense, compact bush—excellent for pot culture as for bedding. The flowers are of *extraordinary* size, perfectly double, and resemble the finest Victoria Asters in form—*excellent for cutting*. On a single plant we counted forty flowers and large buds, while many small buds were appearing.

White Queen. Spotless white, pkt. 5c.

Crimson Queen. Rosy-crimson, pkt. 5c.

Dark-Blue Queen, = = = pkt. 5c.

Light-Blue Queen, = - - pkt. 5c.

All Four, finest mixed, - = pkt. 5c.

Any three packets for 10c., or the set of five packets for 20c.

ASTER—LADY IN WHITE.

An Everbloomer. From its parent, the Mignon, it has its branching and free blooming brings less than 40 buds, while as many as 70 have been counted on a single bush. The flowers are of pure snowy whiteness, and are produced in succession and so prolong the blooming period into the late autumn; a most useful variety for pots and beds and especially for cut flowers; pkt. 7c., 3 for 15c.

NEW JAPANESE GIANT ASTER.

Entirely distinct from all other Asters. The flowers are of immense size, measuring from 5 to 6 inches in diameter, with long petals curiously waved and curled, so as to give them a striking resemblance to a Japanese Chrysanthemum. This new Aster has been awarded a first-class certificate by the French National Horticultural Society. So far, only two colors, a lovely pink and a delicate flesh, have been obtained.

Two Colors, mixed, pkt. 7c., 3 for 15c.

Truffaut's Pæony-Flowered Perfection Asters.

Among the most popular of all Asters; very double, large and beautiful flowers, with incurved petals; height 18 inches to two feet; nearly thirty colors mixed; pkt. 5c.

Perfection. Snow white.....pkt. 5c.

Perfection. Blue.....pkt. 5c.

Perfection. Dark Red.....pkt. 5c.

The Three Colors Mixed.....pkt. 5c.

FIRE BALL. A most dazzling scarlet.....pkt. 4c.

CHRYSANTHEMUM FLOWERED.

Most beautiful, looks like a Chrysanthemum; per pkt., mixed colors, 4c.

PÆONY-FLOWERED PERFECTION ASTER.

NEW WHITE-BRANCHING ASTER. A new variety of American origin. Of double white flowers, quite four inches in diameter, are borne upon long stems, making them excellent for cutting. The long, broad petals are frequently twisted and curled in such a manner as to give the blossom the appearance of a large, graceful Chrysanthemum. *We cannot recommend this distinct New White Aster too highly for cut flowers.* Per pkt. 5c.; 3 pkts. for 10c.

CROWN ASTER.

CROWN ASTER.

A very unique and striking variety. Center pure white. Surrounded by dark colors. Per pkt. 5c; 3 for 10c.

Victoria. This is a great favorite. Flowers very large, 4 inches and over across. Used a great deal by florists for cutting or where pure white flowers are needed. Our packet of mixed contains 20 bright and lovely colors; pkt. 5c.

Pure White, pkt. 5c; Pink, 5c; Scarlet, 5c.

One Packet Each of the Three Colors, 10 cents.

New Comet. This new kind is an immense favorite wherever it is known. Flowers 3 to 4½ inches across. Petals grow in the most artistic manner, curved and twisted most beautifully. Extra fine mixed; pkt. 5c.

ASTER VICTORIA

MIXED ASTERS.

Our mixture contains all the new as well as the old sorts, and cannot be surpassed. Pkt. 3c; 2 for 5c; 4 for 10c.

ALYSSUM—LITTLE GEM.

ALYSSUM.

The Sweet Alyssum is one of the most fragrant, and useful, of all annuals for bouquets and floral work. Sow seed very early in open ground and it will soon bloom.

SWEET. Pure white; pkt. 3c.

LITTLE GEM. New and exceedingly pretty.

The plants are very dwarf, spreading, and remarkably uniform in growth; pkt. 3c.

YELLOW ALYSSUM (NEW). Will bloom first year, perfectly hardy; pkt. 5c.

Alyssum, all colors mixed, 3c per pkt.

Double Mixed.

Pkt., 10c.

Single Mixed

Pkt., 10c.

CALENDULA.

The name of this flower is derived from the fact that it will bloom every calendar month of the year. If seed is sown early in open ground, plants will be in bloom by June, and will bloom continuously.

Calendula, Oriole. Extra large, double and brilliant yellow; pkt., 3c.

Calendula, Pot Marigold. Large and d'ble; rich golden yellow flowers; pkt., 3c.

Mixed. All the fine double sorts; pkt., 3c.

CALENDULA.

NEW YELLOW COSMOS.

COSMOS.

These beautiful flowers are the only rivals of the Dahlia and Chrysanthemum. They bloom from one to two months sooner than the ordinary kinds.

New Golden Yellow.

Very dwarf, forms a solid mass of golden yellow flowers, bloom from June until Nov.; pkt. for 15c.

Black Cosmos.

bushy grower, velvet, black; pkt. 5c.

Pink Cosmos.

Rosy-pink; pkt. 3c.

White Cosmos.

Pure white, large, pkt. 3c.

Hybrid Cosmos. We offer a new giant strain of wonderful beauty and size. The individual flowers measure from 4 to 5 inches; borne on long graceful stems, the colors are pink, crimson, white striped, black, etc. Some are star-shaped, others fringed, making a beautiful show. *All colors, mixed*; pkt. 5c., 3 for 12c.

HYBRID COSMOS.

CELOSIA.

Celosia (COCK'S COMB).

GLASGOW PRIZE. Large heads of bright scarlet and a sure grower; pkt. 3c.

NEW VARIEGATED. Comb variegated with bright red and yellow, forming a most striking contrast; pkt. 3c.

CANDYTUFT—SNOW QUEEN.

CANDYTUFT. A BEAUTIFUL HARDY ANNUAL.

SNOW QUEEN. A mass of white, bloom as early as May; pkt. 3c.

ROCKET. Flowers borne on spikes; looks like a pyramid of snow; pkt. 3c.

TOM THUMB. Very dwarf, mixed colors, grows from 4 to 6 inches; pkt. 3c.

HARDY CANDYTUFT. One of the very best early perennials, and extra fine for cemetery use, as the plants are a solid mass of white at just the time when flowers are most scarce, and as the plants are perfectly hardy they need no fussing with. Those who have never grown it have missed a floral treat; pkt. 5c.

CENTRANTHUS.

Centranthus.

A pretty annual with a beautiful, almost transparent, foliage and stems. The flowers are small and borne in large clusters. *All colors, mixed*; pkt. 3c.

JAPANESE CHRYSANTHEMUMS.

Chrysanthemums.

TOKIO MIXTURE. Composed of the best of all Japanese and Chinese sorts and imported from Japan. Beautiful colors, twisted and curved. Sow seed as late as March, and they bloom in October and November. Give little protection the first winter if left out of doors. Pkt. 5c.

CHRYSANTHEMUM,
GOLDEN FEATHER.

GOLDEN FEATHER.

A very beautiful annual variety, having golden yellow foliage with flowers like large single Chrysanthemums. Known as "Painted Daisies;" white border or edge with crimson circle near center, with an inner circle of yellow. Flowers one and one-half inches across. Pkt. 5c.

New Dwarf French Cannas

are fast becoming great favorites. They are easily grown and give you flowers all summer, and when once grown, roots can be kept from year to year by putting in cellar in winter. The very best French MIXED. Pkt. 5c.

CANARY-BIRD FLOWER.

Canary-Bird Flower.

A dainty vine with beautiful cut leaves and delicate flowers of clear yellow. An elegant window vine. Pkt. 4c.

CYCLAMEN.

Cyclamen.

One of the very best plants for pot culture. Flowers are beautiful and the foliage very attractive. Bulbs will live from year to year. Pkt. 10c.

New Centaurea—Marguerite.

Named after Queen Marguerite of Italy, who is so well beloved by the people of that sunny land. This novelty is entirely distinct from all other Centaureas and undoubtedly the most beautiful variety known. The plants grow about eighteen inches high and are of the easiest culture. The large flowers are of purest white, deliciously scented and freely produced on long stems, which render them valuable for cutting. We recommend it as a highly decorative and particularly valuable white-flowering plant. In unique beauty it is entirely unlike any other flowering plant and sure to excite admiration wherever grown. Pkt. 7c., 3 for 15c.

CENTAUREA MARGUERITE.

CAMPANULA.

CAMPANULA

(CANTERBURY BELL).

This beautiful plant is elegant for either house or out-door culture. Plants live from year to year and are always covered with bloom.

All Colors, Single and Double Mixed.

Pkt., 3c.

COBEA SCANDENS.

COBEA SCANDENS.

The finest of all Climbers; beautiful bell shaped

flowers that open a clear green, and turn

to a purple blue. Plants grow from 35 to 50 feet in a season. Seed germinates very rapidly and by starting in the house flowers can be had very early. Pkt., 4c.

DATURA CORNUCOPIA.

DATURA CORNUCOPIA.

Very much like the Double Brugmansia except much more dwarf in habit and a beautiful lilac and white color spotted. A very showy plant; blooms quickly from seed. Pkt., 5c.

Sweet Nightingale. Large white trumpet flowers deliciously sweet. Very quick bloomer. Pkt., 3c.

FOX GLOVE

(DIGITALIS).

One of our old favorites. This with the Delphinium form a beautiful combination of tall growing plants for back-grounds. Plenty of rich flowers. Pkt., 3c.

FOX GLOVE (DIGITALIS).

DELPHINIUM.

One of the best perennials known. It increases in beauty from year to year.

SINGLE DAHLIAS.

Euphorbia HETROPHYLLA.

Plants grow from 3 to 4 feet, and about midsummer become a mass of rich foliage and color. Small white flowers are in the centre of each orange scarlet bract. The leaves become a vivid carmine or red, with green tips. The plant is commonly known as "Painted Lady." Pkt. 5c.

EUPHORBIA HETROPHYLLA.

Dahlias from Seed.

Few are aware that Dahlia plants from seeds sown in the spring will bloom beautifully the first summer, and give quite as good satisfaction as roots. They will be of the greatest variety of colors.

ZIMPANI. A dwarf, low growing variety, producing a great profusion of black flowers. Pkt. 3c.

DOUBLE LARGE FLOWERING, MIXED. Extra choice, from select seed only. Pkt. 3c.

NEW SINGLE, MIXED COLORS. The flowers are large, perfectly star-shaped, formed of broad petals, which are gay and beautiful in color. Pkt. 3c.

DIANTHUS—BRIDE.

Dianthus

OR JAPANESE PINKS.

The Dianthus, which is closely allied to the Carnation and Picotee, has long been a great favorite. They live out over winter.

MORNING CLOAK. Very dark, almost black. Pkt. 3c.

SNOW BALL. Double, pure white. Pkt. 3c.

THE BRIDE. Richest white with dark crimson centre, very striking. Pkt. 3c.

Mixed all colors, Pkt. 3c.

Fever Few.

These annuals bloom early and continue in bloom all summer. Elegant for pot culture. Flowers double as Roses covering the entire plant. Mixed colors, Pkt. 3c.

DIANTHUS (Morning Cloak).

Gypsophila

PANICULATA.

A most lovely plant with delicate, misty white flowers in beautiful loose panicles. For use as a decoration in bouquets or vases of cut flowers it has no superior. Blooms first year, and continues to bloom from year to year. Grand pot plant. Pkt. 3c.

New Weeping Palm.

One of the most beautiful of window Palms, requires no great attention, stands dust, and lack of sunshine. It is a compact grower well adapted for pot culture; it makes a grand ornament for winter, and is suitable for veranda or lawn purposes in summer, or can be used for a centre in a vase, basket or flower bed.

SEED of this beautiful Palm is easily grown; sure to give satisfaction. Pkt. 5c.

PHLOX—STAR OF QUEDLINBURGH.

PHLOX.

PHLOX DRUMMONDI, Grandiflora. A bed in bloom dazzles the eye with its brilliancy, and the different colors produce a beautiful effect. Sow seed in the open ground early. Pkt., mixed colors, 4c.

Star of Quedlinburgh, Cuspidata. Flowers curiously formed; more than 20 colors, mixed. Pkt. 5c.

Alba. Pure white. Pkt. 5c.

Mixed Varieties. The very finest of all colors. Pkt. 3c.

CHINESE LANTERN.

(PHYSALIS FRANCHETI.)

A GREAT NOVELTY.

The **Chinese Lantern** plant produces bright red fruits like a cherry, inclosed in transparent husks, globular shape, which makes a plant in bloom and fruit look like a bush covered with small Chinese lanterns. Fruit is most delicious for eating, and when preserved is one of the most delicate desserts. For ornamental purposes when cut and dried it is truly novel, it retains its brilliancy for months. Elegant for pot plants as well as out of doors. Fresh seed, pkt. 5c.

PICOTEE PINKS.

These Pinks are extremely fragrant and hardy. They are frequently called **Hardy Carnations**.
Mixed Colors. Large flowering. Pkt. 5c.

POPPY—FAIRY BLUSH.

POPPIES.

There is nothing more graceful than the silky blooms of Poppies, and few flowers easier to grow.

FAIRY BLUSH. A lovely feathery variety, double, with fringed edges. Pure white with rose cream edge. Pkt. 4c.

GIANT SNOWDRIFT. Pure snow white flowers. Pkt. 3c.

GIANT CARNATION FLOWERED. Double flowers, brightest colors, perfectly grand. Pkt. 3c.

SHIRLEY. A lovely single Poppy with petals that seem stamped out of the most lustrous silk, and of the softest most delicate colors or of the most brilliant hues, each flower widely margined with some other shade. No one can help admiring these beauties. Pkt. 4c.

Double and Single, all colors mixed. 50 colors. Pkt. 3c.

POPPY—SHIRLEY.

FANCY NASTURTIUMS.

NASTURTIUMS NAMED.

LADY BIRD. Very fine bright yellow, marked with stripes and blotches of ruby-crimson; pkt. 3c.

EMPERESS OF INDIA. Very dwarf and compact in habit, the leaves being of a dark purplish color, while the flowers are of a deep brilliant crimson. Grand thing for edging or massing; pkt. 3c.

TOM THUMB BEAUTY. Yellow and scarlet, pkt. 3c.

NEW CLIMBING NASTURTIUMS.

MADAME GUNTHER'S HYBRIDS. For richness and variety of colors these new hybrids have no equals among Nasturtiums. There are shades of rose, salmon, brightest red, pale yellow, either as self colors, or spotted and striped. The foliage is mostly dark, and contrasts very effectively with the rich colors. They are climbers and are free and continuous bloomers; pkt. 6c.

DWARF NASTURTIUMS.

NASTURTIUMS.

Nothing more gorgeous in flower and foliage, easy to cultivate; they grow without attention or care.

DWARF NASTURTIUMS. Made up of all the best named kinds and colors. 30 kinds; pkt. 4c., oz. 10c.

TALL NASTURTIUMS MIXED. 20 kinds and colors; pkt. 3c., oz. 10c.

MIXED TALL AND DWARF. Our own mixture, which contains all the colors, habit and character of the Nasturtium family; pkt. 3c., oz. 10c.

TROPÆOLUM LOBIANUM.

This variety has finer and more brilliant flowers than the climbing Nasturtium. This elegant climber is growing in favor each year. On trellises, over doors and porch, or trailing over the ground they are equally lovely. Large, bright flowers among the deep green foliage; pkt. 4c., oz. 12c.

A Single Plant, exactly engraved from a Photograph of

Dwarf Sweet Pea—Burpee's PINK Cupid.

THIS little wonder hails from California, having been discovered by C. C. Morse & Co. It is not a sport from the original **White Cupid**, but an actual departure from its parent, **Blanche Ferry**. In habit and manner of growth it is strictly a **Cupid**, spreading from the root, from a foot to 18 inches around, growing from 6 to 8 inches high, shooting up stems about 6 inches long which bear at once from 3 to 4 blossoms each, all borne close to the end of stem. Color, bright rosy pink, with pure white or light pink wings, which are very large and beautifully formed, and when flowers are cut will remain fresh in a glass of water for a long time. The plant itself is vigorous and hardy, and those who had poor success with **White Cupid** will find **Pink Cupid** easy to grow and bloom anywhere. Though flowering early it continues to bloom very late, bearing a profusion of blossoms so thickly as to completely hide the plant. It is without a rival as a border or bedding annual, its color and fragrance making it a rare novelty. Pkt. 12c., 3 for 30c.

White Cupid.

THE FIRST FORM OF A DWARF SWEET PEA.

This is a novelty of unusual importance. It is a Dwarf Sweet Pea, the plant growing only five inches high, yet spreading out and forming a solid mat of foliage and flowers one and one-half feet across. The blossoms are pure milk white, very sweet, of largest size and great substance, and borne on stems 4 inches long, three flowers on each stem. It begins to bloom as early as May, and, unlike the climbing Sweet Peas, continues in profusion until killed by frost. Pkt. 5c., 3 for 12c.

1 Packet Each of Pink Cupid and White Cupid, 15 cents.

Named Seed Peas.

AMERICA. The most distinct blood red and striped Sweet Pea of all. No collection is complete without it. Pkt. 5c.

BLANCHE FERRY. Earlier than most others, largest flowered, most perfect in form, most beautiful, most fragrant, compact and bushlike in habit. The plant throws up innumerable flower stems, each bearing three or four immense pink and white flowers. Pkt. 3c.

BRILLIANT. Bright scarlet flowers, borne three on a stem. The flowers retain their full brilliancy of color under the hottest sun. Pkt. 5c.

STANLEY. The very best dark variety. Color rich dark maroon. Pkt. 3c.

FAIRY QUEEN. White and rose. Pkt. 3c.

VIOLET QUEEN. Lovely shade of violet. Pkt. 3c.

PURE WHITE. The old white favorite. Pkt. 3c.

BLANCHE BURPEE. The largest white known. Pkt. 5c.

"RED RIDING-HOOD." This is an entirely new departure in form, and might be called the "freak" Sweet Pea. It is named appropriately "Red Riding-Hood," for it is as close an imitation of a diminutive hood as could be made. The standard forms a perfect back, ruffled into the wings which form the sides, from between which peeps a bit of the white keel, quite like a face. The standard and wings are a rosy-pink, shading to bluish white. Pkt. 4c.

ECKSFORD'S FINEST MIXED. Contains all the very best varieties yet introduced. Both double and single. Pkt. 3c., ounce 10c.

One Packet each of all the Sweet Peas named on this page, 11 varieties in all, 35 cents.

PERENNIAL PEA.

Perennial Pea.

No praise can be too high for this lovely iron-clad vine, that blooms constantly from early summer until late autumn. Plants a picture of vigor and healthfulness, bearing a profusion of long-stalked clustered flowers, white, pink and deep rose in color, each flower an inch or more across. It is strange that they are so rarely seen, for they are easily grown, perfectly hardy, and so beautiful that we have never yet seen a person who did not admire their cheerful flowers. Four to six feet high; **mixed, all colors, 5c.**

Pure white, superb, 5c.

Schizanthus

(BUTTERFLY ORCHID).

SCHIZANTHUS.

These beautiful "Butterfly flowers" are extremely easy to grow, and are among the most continuous bloomers we have. The flowers are large and brilliant and very unique in form and color. The shape resembling the orchid very much. Colors, crimson, yellow, violet, white, etc. A grand pot plant. Pkt. 4c.

Scabiosa.

Many of the flowers are pure coal-black, others black tipped with white, pink, maroon, etc. **Morning Bride, or Sweet Scabiosa.** A beautiful border plant.

Mixed colors, pkt. 3c.

Double Mixed Colors. Dwarf habit; pkt. 3c.

Snow Ball. The plant is a strong grower, and the flowers are very large, perfectly double, and as white as snow; pkt. 3c.

Golden Dwarf. Golden foliage; very showy as a foliage plant, as well as the flower; pkt. 3c.

SCABIOSA.

Ten Weeks Stock.

TEN WEEKS' STOCK.

The most popular of German flowers; noted for their fragrance and range of color from snow-white to dark maroon brown.

Early Ten Weeks. 12 finest colors, mixed; pkt. 3c.

Early Ten Weeks. Pure white; pkt. 3c.

Ten Weeks. Crimson; pkt. 3c.

Giant Perfection. **Mixed.** Long spikes of large double flowers; pkt. 3c.

Scarlet Sage (Salvia Splendens).

One of the grandest plants in cultivation—a bed of them surpassing the finest scarlet geraniums in brilliancy and continuous bloom, the flower spikes measuring 10 to 12 inches in length, and there are as many as 200 spikes on a plant; pkt. 3c.

Salvia Farinacea.

The plants form dwarf, compact bushes, with long spikes of beautiful blue flowers, which make a charming contrast when grown with the scarlet described above; pkt. 4c.

SALVIA SPLENDENS.

VERBENA ODORATA.

FAIRY ROSES.

FAIRY ROSES.

In Bloom Two Months
After Planting . . .

These may well be called "Fairy Roses," for they bloom when scarcely two months old. They flower on little shoots from 3 to 5 inches high, and with age they increase in number until a plant a foot and a half tall is covered with these beautiful little midgets. Colors, white, pink, crimson, etc. A grand plant for pot culture and perfectly hardy outside, increasing from year to year. Start seed early in house for out-door blooming. Pkt. 5c.

VERBENA ODORATA.

This lovely Verbena possesses great merit over other varieties, and they are such important ones that it will become a necessity to every garden. It is so hardy seed can be sown in the open ground early in the Spring, where they will quickly germinate, grow rapidly, and in a few weeks be in bloom and give a great profusion of beautiful blossoms all Summer. No garden flower is easier grown, for it is as sure to thrive as a poppy or pig-weed. The blossoms instead of being in clusters like other sorts, run up into spikes, usually 3 or 4 inches long, as shown in the cut. It is very sweet scented. Color is pure white. Pkt. 5c.

VERBENA HYBRIDA, mixed. A splendid collection of best named varieties and colors. Free flowering. Pkt. 4c.

NEW YELLOW. A beautiful pale yellow; blooms in short time; the only yellow in cultivation. Pkt. 6c.

LEMON VERBENA. Everybody's favorite, leaves very fragrant, and lives from year to year. Seed germinates quickly. Pkt. 5c.

CALIFORNIA VIOLET,

New California Violet.

This grand new violet was first introduced two years ago, and immediately eclipsed all others in popularity. Plant vigorous and absolutely free from disease; flowers single, immense in size, covering a silver dollar; color violet-purple (does not fade); fragrance intense; flowers borne on strong stems ten to twelve inches in length. Last season several hundred flowers were picked from a single plant. Seed germinates quickly and will bloom first year. Pkt. 5c.

VIOLET, PERPETUAL WHITE. Free bloomer, pure white and very fragrant. Pkt. 3c.

SWEET WILLIAM.

Sweet William.

The favorite flower of our grandmothers. One of the best edging plants for the border, bearing in early summer large heads of the richest and most varied colors. Very fragrant and a favorite with everyone for vases and bouquets. **Improved Mixed Colors**—Perfect in form, large in size, brilliant and varied in colors. Pkt. 5c.

MAMMOTH ZINNIAS.

Red, White and Blue Water Lilies.

Few plants are much more attractive than these beautiful pond lilies; very fragrant and sweet. Grand combination of colors.

Three colors mixed, red, white, blue. Pkt. 5c.

Zinnias

are very free and robust growers and produce all summer an abundance of rich bloom, and each flower remains perfect for weeks. Weather conditions make no difference to them.

Mammoth Zinnias. A great improvement over all others. Flowers double and single. Colors dazzling. Pkt. 5c.

Fairy Zinnias. Named so because the flowers are so small, also the plants. Pkt. 5c.

Double Mixed, extra large double flowers. Pkt. 3c.

Zebra or Striped Zinnias.

Very curiously marked. Many colors on each flower. Pkt. 5c.

Wallflower.

A favorite English flower somewhat like Ten-weeks Stocks. A half-hardy perennial; very fragrant and fine for cutting or for pots. Where winters are not very severe the Wallflower will live with protection and will bloom very early in spring.

Double Mixed Colors. Pkt. 5 and 10c.

BULBS.

GLADIOLUS.

New Gladiolus Snow White.

The famous and long-looked-for Snow White Gladiolus. For an accurate description of this superb novelty we quote from the notes of the grower and introducer: "It is the only really pure white Gladiolus known; the spikes are of large size, set solidly with flowers from bottom to top; the flowers are of the most beautiful shape, exquisitely recurved and crisped; the superb spikes of bloom remain the same pure color week after week, withstanding hot sun and wet weather. The large bulbs send up vigorous and healthy plants, each bulb producing a number of spikes." 15c. each, 2 for 25c., 6 for 50c.

Antonius. Cherry red, white throat, 5c.

Brenchleyensis. Bright deep scarlet, 5c.

Ceres. White, blotched with red, 10c.

Eugene Scribe. Light pink, 10c.

Galathea. Carnation Striped, 5c.

Golden Sceptre. Pure yellow, 10c.

Le Poussin. Light red, white throat, 10c.

Martha Washington. Lemon, 25c.

Lord Byron. Bright scarlet, white throat, 10c.

Shakespeare. White and red, 20c.

Blue Bird. A beautiful blue with white throat, the only one that has yet come into favor, 50c.

BLUE SPIREA, CARYOPTERIS.

RED SPIREA, ANTHONY WATERER.

3 GRAND SPIREAS,

Red, White, Blue.

Red Spirea, Anthony Waterer,

is of Japanese origin, and when scarcely three inches high begins to bloom and thereafter is seldom out of flower; as a house plant nothing can equal it. In the garden it will make a plant 3 feet high and wide and will be covered with heads 6 inches across of brilliant crimson flowers, and is of easiest growth. Price, 15c., 2 for 25c.

FUCHSIA STORM KING.

FUCHSIA Storm King,

The most
charming and
profuse bloomer
of all the Fuch-
sias, exceed-
ingly large
flowers and
very double.

Its graceful, weeping habit, and its superlatively beautiful flowers, more freely borne than those of any other sort, make it the most valuable of Fuchsias. It is always in bloom, often as many as 200 buds and blossoms on a plant at once. The branches droop most gracefully, and the blossoms are frequently as large as tea cups. The buds, for two weeks before they expand, are balls of glowing scarlet-crimson. When expanded the enormous double flowers are almost pure white, capped by a calyx of glowing scarlet. Strong plants, 15c. each, 2 for 25c.

White Spirea, Van Houttei,

Solid wreaths of snow white flowers that cannot be counted in numbers, perfectly hardy and in the spring it is a weeping fountain of white. Price, 15c. each, 2 for 25c.

Blue Spirea, Caryopteris.

One of the best new plants introduced from Japan, perfectly hardy and grows about 2 feet high. Is covered until November with dense clusters of blue flowers, elegant for cutting. Price, 15c., 2 for 25c.

1 each of the 3 named Spireas, 30c.

Filifera Palm.

(WASHINGTON FILIFERA.)

This plant needs no petting or skill to grow. It flourishes with any treatment in any location in the house, porch or outside. The leaves are fan-shaped, beautifully cut and draped with a silk-like filament. Plants 15c.

The set of 4 Palms, 50c.

NEW CALIFORNIA VIOLET.**SWEET VIOLETS,**

THE CALIFORNIA. (New.) Plants vigorous and absolutely free from disease; flowers immense in size; color clear violet-purple (does not fade out); fragrance intense; flowers borne on strong stems 10 to 14 inches long, 10c. each; 3 for 25c.

LADY CAMPBELL. New double, deep purple; very fine; each 10c.

SWANLEY WHITE. In pots it grows luxuriantly and is loaded with flowers. In the garden it is hardy with slight protection, and greets us in early spring with a profusion of its large, snowy, sweet-scented blossoms. The growth of the plant is vigorous and healthy, bearing in great numbers very large, perfectly double flowers of pure snowy whiteness and unexcelled fragrance. 10c. each. 1 each of the 3 Violets. 20c.

Palms.**ARECA LUTESCENS**

is an easy plant to manage and always looks well in every stage of its growth. Its recurved glossy green fronds make it a most pleasing object. Price, 15c. each.

ARECA LUTESCENS.

LATANIA BORBONICA. The well known Fan Palm, from which the leaves are taken for our Fans. This variety is always in great demand, having a very tropical effect and at the same time being quite hardy. Strong plants, 15c. each.

COCOS WEDDELIANA. This beautiful palm is unquestionably the most elegant and graceful in cultivation. It is admirably adapted for the centers of jardinières and fern dishes, as it retains its freshness for a long time, while for dinner-table decoration it is unexcelled, and should be in every collection; large plants, 12 to 16 inches, 30c. each.

DWARF CALLA LILY—LITTLE GEM.**CALLAS.**

DWARF CALLA LILY, Little Gem. Dwarf habit and freedom of bloom. It rarely exceeds 12 inches in height. Flowers about half the size of the common variety, making it fine for bouquets. Strong blooming plants from pots, 15c.; 2 for 25c.

NEW YELLOW CALLA. Golden yellow flower with jet black throat, very rare; and expensive. Same nature and habit as other callas. Good blooming bulbs, 50c. each.

SPOTTED CALLA. Leaves deep green with white spots; flowers pure white with black centre; 15c. each. The 3 Callas for 65c.

NEW
CANNAS\$1.00
Postpaid. ALSACE
(NEW CANNAS).

The most popular and most magnificent of all Summer flowering plants for massing and bedding, and are among the very finest pot plants either for Summer or Winter blooming.

ALSACE. Its color is unique among Cannas; upon opening, the flowers are a pale sulphur yellow, changing very soon, however, to a creamy white, and in warm weather to a pure white without spots. The flowers can be seen clearly at night. It is a vigorous grower, with clear, green foliage, 4 feet high, produces 12 to 18 shoots in a season from a single eye, and a profuse bloomer, 25c., 3 for 50c.

ITALIA. Flowers very large, each petal 4 or 5 inches, and most beautifully colored. Brightest scarlet with a broad yellow border, irregularly blotched and spotted, flowers rise from 5 to 7 feet above the foliage, 25c. each.

AUSTRIA. Enormous flowers, beautiful canary yellow with silvery hue, inside slightly dotted with red, same habit of growth as Italia, 25c. each.

EHEMANN! Flowers dark red and droop like a lily, tall grower, 15c.

FLORENCE VAUGHAN. Yellow flowers spotted with red, beautiful, 20c.

CANNAS

FLAMINGO. Deep blood red, 15c.

BURBANK. Giant yellow flowers like orchids, 15 to 20 spikes of flowers on a plant, 25c.

CLIMBING ROSE, CRIMSON RAMBLER.

SOUV. DU PRES. CARNOT.

The New French Hybrid Tea.

With all our admiration for the hosts of beautiful Roses, this variety is so fascinating that we believe it to be one of the greatest introductions. It is superb in every way. The flowers are large, full and double, exquisitely shaped, with heavy, thick shell-like petals. The buds are wonderfully beautiful—long and pointed, like Niphetos—perfection in every line. The color is new—delicate, rosy blush, shaded a trifle deeper at centre of flower. Fragrance delicious; strong grower and free bloomer; will become one of the most popular of all Roses. Strong plant, 20c., 3 for 50c.

NEW TREE STRAWBERRY.

This is one of the most beautiful Fruits ever seen; berries the size and shape of the largest strawberries; bright, rich, shining scarlet, with an exquisite bloom; makes lovely jams, jellies and tarts, having a delicious flavor entirely different from any other fruit; bears the first season and gets larger and stronger every year. It came from Japan and was tested for two years here; the bush grows from eighteen inches to two feet high, is entirely hardy and will do well everywhere, regardless of heat and drought. All lovers of new fruits should give it a trial. Strong plants, fruit first year, 15c., 5 for 50c.

TREE STRAWBERRY SEED. Plants will grow and fruit first year from seed. Pkt., 10c., 3 for 25c.

NEW ROSES.

CRIMSON RAMBLER. It is undoubtedly the grandest rose ever introduced. Vigorous in growth, often growing 10 feet the first year; beautiful in foliage, which remains fresh and green until December. Immensely profuse in flowering, being covered with innumerable and immense clusters of glowing crimson flowers. Perfectly hardy, 15c., 2 for 25c.

NEW GOLDEN RAMBLER ROSE.

Allster Stella Gray.

A grand companion to Crimson Rambler, equally strong in growth, beautiful in foliage, magnificent in bloom—the raisers stating: "We had no idea of its perfectly continuous flowering habit. Our plants have, the whole Summer through, been positively laden with bunches of miniature Polyantha-like buds of straw and orange yellow, 15c., 3 for 25c.

NEW WHITE RAMBLER ROSE. To the above two valuable novelties we are now able to add a third. A strong, vigorous grower, like Crimson Rambler, if anything, more hardy, and having the advantage of blooming throughout the entire season. Flowers in large clusters and pure white, 15c., 2 for 25c.

One Each of the Above Ramblers, 30c.

The New Polyantha or Fairy Rose.

MINIATURE. Is truly a wonder; their very small and perfectly double flowers seem to be the work of fairies. The edges of petals are finely fringed and on opening, the color is a delicate rose, soon changing to pure white. Flowers are produced in great clusters. Elegant for pot culture, 10c., 3 for 25c.

TREE STRAWBERRY.

SWAINSONIA=WHITE AND PINK.

SWAINSONIA GALEGIFOLIA ALBA. A wonderful plant, producing spikes of white flowers resembling Sweet Pea, trusses, 4 to 6 inches long in the greatest abundance the entire year. It is a free climber and makes a very decorative window plant. Succeeds with the easiest of culture—as easily grown as a Geranium or Heliotrope; each 15c.; 2 for 25c.

PINK SWAINSONIA. Flowers rose color, produced in sprays of from 12 to 20 flowers each, the individual blooms resembling the flower of a sweet pea; leaves small, acacia like; a most desirable ever-blooming plant; 15c. each. The two Swainsonias, 25c.

TOBACCO INSECTICIDE SOAP.

The most valuable insect destroyer known.

This soap is the most effectual to kill all insects. It is made from a powerful form of tobacco gum, absolutely safe to handle, and will not injure the tenderest growth of plants. It is used by dissolving in hot water at the rate of one ounce to two quarts of water. With this water, plants are sprinkled, syringed or sponged, and one or two applications will exterminate any kind of insect. Sure death to green or black fly, scale, mealy bug, red spider, etc. If used once or twice a month on plants they will never be troubled with insects. Sold only in seven ounce cans at 30c. each, by mail, postpaid.

EXCELSIOR FERTILIZER.

A new Odorless Fertilizer for Pot Plants, makes them grow and bloom luxuriantly and drives insects from the soil.

This excellent Fertilizer is the only thing of the sort which can be used with good results for pot plants. It is used by dissolving a teaspoonful in a pint of water, and applying to the soil every week or two. It starts the plants at once into a healthy and vigorous growth and abundant bloom. It drives the worms and other troublesome insects from the soil; has no disagreeable odor, and is the only artificial Fertilizer that can be used without danger or injury to the plants. Trial package of 8 ounces, 20c. each, postpaid; pound 35c.

PHRYNIUM VARIEGATUM.

PHRYNIUM VARIEGATUM.

(Variegated Leaved Canna.)

This is without doubt the grandest ornamental foliage plant in cultivation; its habit of growth is precisely like the Canna; it grows from a bulb or tuber, and may be wintered dry, like a gladiolus, or kept growing the year round as a pot plant. The Canna-like shoots grow from 18 inches to 2½ feet high, and the leaves, which are spreading and oblong in shape, are from 6 to 10 inches long and from 2 to 5 inches broad, they are a bright green, beautifully variegated with pure white, the variegations being extremely diversified. It is almost impossible to find two leaves exactly alike; in some leaves the whole area is pure white, while in others only half and in some one-third, and in others again only a few faint stripes or lines, and all these leaves on one plant. It is a very free grower and a grand plant for bordering Canna beds, standing the hottest sun; in fact, the fiercer the sun the more perfect are the colorings; it is also a grand pot plant. Price, 15c. each, 3 for 30c., 6 for 50c., 80c. per dozen.

BEGONIAS.

For pot culture nothing surpasses this favorite.

Rubra—One of the best of all Begonias for house culture. They will commence to bloom when but six inches high, and will continue to bloom without ever missing a day, for five or six years at a time. 15c. each, 2 for 25c.

BEGONIA.

THURSTONI,

Large beautiful flowers of light pink. 15c. each, 2 for 25c.

BEGONIA,

Vernon.

Pure white flowers, large leaves, 15c. each, 2 for 25c.

YUCCA FILAMENTOSA.

A tropical looking plant with long narrow leaves that remain green all the year round; flower stems 3 to 4 feet high, creamy white, bell shaped flowers. 8c. each, 4 for 25c.

HYACINTHUS CANDICANS.

A new blooming Hyacinth which flowers during August and September. Spikes of pure white flowers 2 feet long. 5c. each, 6 for 25c.

APIOS TUBEROSA.

APIOS TUBEROSA,

Or the Tuberous-rooted Wistara.

A valuable hardy tuberous-rooted climber, closely resembling the common Wistaria in vine and foliage, and having clusters of rich, deep purple flowers, which have a strong, delicious violet fragrance. Plant the bulbs near a trellis, fence, tree or any place where you may wish a climber. They grow to a great height and bloom profusely; perfectly hardy. 5c. each, 6 for 25c., 12 for 40c.

PANSY GERANIUM.

GERANIUMS.

Pansy Geranium. This new and beautiful Geranium is of easiest growth, dwarf in habit and literally covered with flowers all the time, and as it requires little or no attention it is invaluable as a window plant. The coloring and marking of the flowers are most extraordinary, light pink, white, dark purple and black, etc., almost rivaling the pansy in uniqueness of flower. It is this combination of coloring which obtained for it the popular name of Pansy Geranium. Strong plants, 20c. each, 3 for 50c.

DOUBLE NEW LIFE.

Double New Life Geranium. One of the sensations of the year, a very vigorous grower and easy culture. The outer florets are large and a bright-scarlet; in the center of these appears another semi-double floret, pure white in color, making a most beautiful contrast of colors, having the appearance of being produced artificially; must be seen to be realized. Plants of this new geranium have sold lately at \$2.50 each; our price, strong plants, 20c. each, 3 for 50c.

Geranium Mme Bruant. No other Geranium on our grounds has ever attracted so much attention, or been so much admired as this beautiful new auricle flowered variety. It is entirely distinct from any Geranium in cultivation. It might with propriety be called the Pansy flowered Geranium, so distinct is it from the ordinary style. The plant is a vigorous grower, making nice compact plants, and very free flowering, producing fine large trusses of blooms in great profusion; individual flowers large, of fine shape, center of flower white veined with carmine lake, the five petals regularly and distinctly bordered with bright solferino. The arrangement of color is exquisite and entirely new in Geraniums. An excellent variety for pot culture, being a continuous bloomer winter and summer. 20c. each, 3 for 50c.

MRS. PARKER.

Mrs. Parker. (Silver Leaves.) A beautiful double-flowering, ivy-leaved, in which we have the only double-flowering variety in the silver-leaved section. While the foliage is deep green, with a broad border and margin of pure snow-white, the flower is perfectly double, and of a clear bright pink, a combination at once novel and beautiful in the extreme. 20c. each, 2 for 30c.

Alphonse Ricard. (Semi-Double Scarlet.) Color deep vermilion scarlet; compact habit; strong vigorous grower. Broad, deeply zoned foliage which stands the sun well. Enormous trusses of flowers borne on exceptionally heavy stalks. Individual florets large, 1½ to 2 ins. and more in diameter. Profuse bloomer, resembling double Gen. Grant in that respect. The most promising of the recent introductions for bedding purposes and will also prove a splendid plant for house culture. Price, 35c. each, 2 for 55c.

1 Each of the 5 Geraniums, 90c. postpaid.

ASPARAGUS SPRENGERI.

used extensively by florists for cut-flower work, but it is decidedly a useful and decorative parlor, table and window plant. It is harder than any other asparagus, can even be grown in open ground, and under good treatment will make specimens 4 to 5 feet across in one year—plants which have sold at \$5. We have so much faith in it that we are growing 10,000 plants of it now. Strong plants, 20c., 4 for 50c. **ASPARAGUS SPRENGERI** grows very quickly from seed; pkt. 10c., 3 for 25c.

NEW ASPARAGUS SPRENGERI.

When introduced, at a high price, a little over a year ago, this plant was received with some hesitation as to its desirability, but after only a limited trial it has come forward with such prominence that the supply will be inadequate to the demand for some time to come. Not only is it useful for cutting in sprays for cut-flower work, but grown in suspended pots it makes one of the prettiest decorative house plants we know of. It is really handsomest seen drooping gracefully from a pot or basket. Sprays from 4 to 5 feet long, of a bright green feathery foliage, and as it will withstand dry atmosphere and grow well in shade or sunlight it is decidedly the most useful and suitable parlor plant. The flowers are white and very fragrant, followed by bright red berries. Mr. H. H. Battles, the well-known floral artist, says: "Grow all you possibly can of it; it's a grand thing." It is not only a plant that will be

BOSTON FERN.

(*NEPHROLEPIS EXALTATA BOSTONIENSIS*).

This grand new Fern has become the most popular decorative plant of the year. In and around Boston no other plant is so extensively used for table or window decoration as this graceful Fern. It is one of the very few plants that will thrive under ordinary house care; it grows and improves in size where most all other Ferns go back. The fronds droop and arch gracefully over the edge of pot or basket, and as it is a very rapid grower it is not long before they reach the floor from an ordinary parlor table. The color is a rich green, which contrasts beautifully with all other window or pot plants. It thrives well in a shady position, but must never be allowed to get too dry, and frequent showerings of the foliage by means of a plant syringe or a watering can are essential. To give an idea of the magnificent proportions of this fern it may be stated that a single specimen plant, exhibited at the recent American Institute Fair in Madison Square Garden, New York, measured ten feet in diameter, some of the fronds being over four feet in length. Large plants, with fronds 1½ feet long, 20c., 3 for 50c.
