IN presenting our Price-List for the Fall of 1897, we wish to thank all our patrons for past favors, and solicit a careful consideration of our very low prices and the completeness of our assortment of Nursery and Greenhouse Stock.

All orders received by us have our personal and prompt attention, and we guarantee reasonable satisfaction in every case, as thousands of unsolicited testimonials now on file fully attest.

We are prepared to offer special inducements to Nurserymen and Dealers buying in large quantities.

With our large storage cellars and packing houses, and a complete system of water works, distributing water to all parts of our packing grounds, we feel that our facilities for the careful and proper handling of Nursery Stock are not excelled by any nursery establishment in the country.

Our shipping facilities are unexcelled. Bloomington being an important railroad center we are able to forward promptly to all sections. With the Illinois Central R. R., Chicago & Alton R. R., Lake Erie & Western R. R., and the C. C. C. & St. L. R. R. (Big Four), and their branches, we have direct communication with Chicago, St. Louis, Cincinnati, Kansas City, Indianapolis, Dubuque, Cairo, and La Fayette, by daily freight trains without transfer. On account of our unusual facilities we are also enabled to obtain very low freight rates to all points. We ship with flattering results to Australia, Mexico, New Zealand, Nova Scotia, Oregon, Washington, California, Maine, and all the other states in the Union.

We exercise great care to have all articles true to name.

PHOENIX NURSERY COMPANY.

TERMS AND CONDITIONS.

Terms of Payment.—Cash or satisfactory security, before shipment of stock. All orders to be sent by Express, "C. O. D.," must be accompanied by ONE-HALF THE AMOUNT IN CASH.

Remit by Postal or Express Money Orders, Bank Drafts on New York, Chicago, or St. Louis, payable to order of PHOENIX NURSERY COMPANY, or currency by express prepaid.

Orders and Conditions of Sale.—Please order EARLY, with order legible and separate from body of the letter, with name of Postoffice, County, and State, and how you wish packages directed on the ORDER.

Long specified lists are subject to special prices. Needed specifications as to age, size, style, etc., state *on the order*, to save the trouble of referring to previous correspondence.

On all wholesale bills, the choice of varieties must be left to us. Particular varieties named in order furnished as far as practicable. Orders forbidding substitution we fill so far only as we can supply the sorts specified.

Prices.—Prices herein are strictly limited to the Fall of 1897 and rule only when the number specified is taken, but when the order amounts to \$10 or more, 5 will be furnished at 10 rates; 50 at 100 rates; 500 at 1,000 rates.

Packing.—Prices do not include packing. Packing carefully done, in boxes, mostly, sometimes in bales or parcels, for which we charge moderately; for large boxes, 8 or 9 feet by 2½, three of which usually hold 1000 5 to 6 feet apple—\$2.50 each, and in proportion for larger or smaller boxes. NO CHARGE FOR DELIVERING AT RAILROAD, EXPRESS, OR POSTOFFICE HERE. On lots by mail, postage and packing extra. Trees per car load, when loaded in bulk in box cars, no additional charge for loading and packing in car. When flat cars are used and boarded up we charge for additional labor, lumber, and material used.

Shipping.—We usually commence shipping in the Fall about October 1.

We prefer parties ordering should indicate the route by which they wish stock sent. In the absence of particular directions, we forward to the best of our judgment; but in no case do we assume any responsibility after consignment to purchaser, unless for our own mistakes. When losses occur by detention en route, claims should be made on the carriers immediately.

It is our custom, when sufficient time is given, to obtain through Freight or Express Rates on all Shipments.

To our customers at a distance we would also state that the postal rate on Trees and Plants has been reduced from 16 cents to 8 cents per pound, and can be shipped in any number of four pound packages to one address. We ship a great many root grafts, seedlings, clones, greenhouse plants, etc., in this way.

Direct all letters to PHOENIX NURSERY COMPANY, P. O. Box 625, BLOOMINGTON, ILL.

Delaware Red Winter Apple.

This variety is now fruiting in this section of the State, and it is with much pleasure that we again call attention to it, and trust it will become justly popular in all parts of the country; except, perhaps, in the extreme north, where it may not prove sufficiently hardy to withstand their severe winters. Mr. P. H. Storm, the veteran horticulturist and fruit grower, says of it.

“Having had about fifty years experience in the cultivation of fruit, particularly apples, I have no hesitation in saying the DELAWARE WINTER heads the list. It is a vigorous grower as well as a prolific bearer. It also possesses excellent cooking qualities. Last, but not least, its keeping qualities are far beyond anything else of which I have any knowledge.

“I have eaten them the last of August, ten months after they were gathered. No special care had been taken in their preservation. I have known them exposed to climatic influences through the spring and summer, and yet they were well preserved.

They are attractive in appearance, being highly colored, red all over, of large and uniform size. It is without doubt the coming winter apple, for both North and South, as it supplies a long felt need to both nurserymen and consumers.”

*ROOT GRAFTS—[Order Early.]

LARGEST STOCK AND ASSORTMENT IN THE UNITED STATES.

Our Season for Making Root Grafts Closes March 1st.

Root Grafts are Cions and Roots grafted and tied together, ready for planting in nursery rows. Orders for special lists of sorts PLEASE SEND EARLY, with one-fourth cash with order, balance before shipment. This is very important to secure best grafts and your selection of sorts, as we take special pains in cutting and putting up cions for early orders. *Please don't forget this.* No extra charge for packing. Even 50's or 100's of each sort will be put up at the following prices. For smaller or broken lists, prices will be given on application.

Duchess of Edinburgh —Double white, of vigorous habit, free bloomer, very fragrant. 2 years.....				.50	\$ 4.00	
General Grant —This excellent new Clematis originated in this city. It is supposed to be a hybrid of <i>Velutina Purpurea</i> , and <i>Gem</i> . Growth very strong and vigorous. Very hardy. Large flowers of the <i>Henryii</i> type. Petals well rounded. Of the brightest velvety reddish purple, shaded with bright red. This is the first new American Clematis, of extra fine merit, and undoubtedly new shades of color, in large flowering Clematis. It has been tried here for six years, and has proved to be unusually hardy and free blooming. 2 years.....				1.00	7.50

John Gould Veitch —Imported from Japan in 1892. The flowers are very handsome, distinct, large, double, and of a light blue or lavender color. It is like <i>Fortunei</i> , except in the color of the flowers. June and July. 2 years.....				.60		
Jackmanii —Deep violet purple, flowers produced in masses; one of the best, especially for bedding. 2 years.....				.50	4.00	35.00
Jackmanii Alba —Without exception this is the best hardy climbing plant that has been sent out for many years. It has all the characteristics of <i>Jackmanii</i> , being free blooming and as vigorous. The flowers are nearly pure white, and make a fine contrast when planted near <i>Jackmanii</i> . It has been tested for years and has always won favor wherever shown. Strong plants, 2 years.....				.50	4.00	35.00

Madame Edouard Andre —A new French variety, entirely distinct and most novel. The nearest approach to a bright red yet produced. This Clematis was exhibited at the World's Fair, Chicago, in the French Department, and attracted great attention, owing to the brilliancy of its flowers. The plant is a strong, vigorous grower, being a hybrid of the popular <i>Jackmanii</i> variety, which it resembles in freedom of bloom, strong, vigorous growth, shape, and size of flowers. 2 years.....				1.00	9.00

GREENHOUSE AND BEDDING PLANTS.**ROSES, HARDY AND TENDER BULBS, ETC.**

Thirteen Houses for plants and propagating purposes, give us unusual facilities; so we can truly say our plants are in most splendid health and vigor, of the best size and shape for packing, and put up in the most approved style for safe transit. They are usually sent by express, for which there are excellent facilities at this point.

Where practicable, small plants will be sent by mail, cost of postage added; we shall, however, send all packages by express at purchaser's expense, unless specially ordered otherwise. The advantages are obvious. Larger and better plants can be shipped, and they usually arrive in better order, with fibrous roots intact, ready at once to sustain life. By mail, more or less soil is removed, unavoidably breaking roots, compelling the plant to make new roots, which it does quickly if conditions are favorable, or lingers for days or even weeks before it starts, much to the annoyance of the purchaser, who, no doubt, frequently exclaims, "I wish I had taken their advice and had them sent by express." With our many years of experience, we claim to be as successful in sending by mail as any. It is, however, the unanimous verdict of all florists, that expressing has many advantages over plants sent by mail. Plants or bulbs of a bulky nature will, in all cases, be sent by express or freight. Extra plants will be added to cover expressage.

Purchaser's selections gladly allowed, and the choice new varieties usually included in sets of tens, as far as practicable, without extra charge.

We cannot afford to fill orders for less than \$1.00 at the prices named herein.

ROSES.

50 at 100 rates. Not less than 5 of a variety.

We make the growing of roses a specialty. Our list of varieties has been carefully selected so as to include only the very best. We are constantly buying the newer varieties, and after giving them a fair trial, discard such as are not found worthy of cultivation and of distinct character.

OUR ROSES are all grown on their own roots, either from cuttings or layers. We do not consider budded roses good for permanent out-door planting, the difference being the Manetti or stock on which roses are budded makes such a strong growth and sends up so many suckers that it usually kills out the variety to which it is budded the first year, and takes its place, and nothing is left but the common or stock rose, unless of course the grower is very familiar with the cultivation of roses, and knows the difference between the stock and the bud and when to prune and pinch back.

Belle Siebrecht —A truly superb Rose, the result of a cross between "La France" and "Lady Mary Fitzwilliams." Color, imperial pink. The flowers, which are sweetly perfumed, are large, beautifully formed, and of that long, tapering shape, with high center, and when half blown, the petals reflex in a graceful manner. The buds, which are borne on strong, erect stems 1½ to 2 feet long, are 2½ to 3 inches in length, and when fully open the flowers are 5½ to 6 inches in diameter, without showing the center. The flowers are of great substance. The petals which are of a heavy texture, do not easily bruise or tarnish. It is a free and vigorous bloomer, with large and glossy foliage of leathery texture, entirely free from mildew. A most prolific bloomer, every growth producing a perfect flower. We have fully tested this Rose since spring, 1895, and can truly say that we are fully satisfied with it. One of its best qualities is that it holds its color after cutting. From 2½-inch pots.....	.15	1.00	6.00

Hermosa —(Bourbon.) Always in bloom and always beautiful. The flower is cupped, finely formed, and full; color, the most pleasing shade of pink; very fragrant. A favorite with every one. From 2½ inch pots10 .60 3.50 From 4 inch pots25 2.00 10.00			
Hippolyte Barreau —A grand new perpetual flowering dark red Hybrid Tea. The color is particularly bright and attractive, bright carmine red shaded velvety crimson. Flowers very large and full, of handsome shape, with beautiful long pointed buds. Excellent for cut flower purposes; very fragrant. The plant is a vigorous grower with stiff, erect stem, and a remarkably free and constant bloomer. One of the best new roses; a valuable addition to our limited list of bright red, ever-blooming roses. From 2½ inch pots25 2.00 12.00			
Kaiserin Augusta Victoria —New Forcing Rose—This beautiful rose has not only a royal name, but is a royal rose as well. We have white roses that have elegant buds, but when full blown are not all that is desired. Then again, we have white roses that are elegant when full blown, but have poor buds. This rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open. Color, a pure snowy white. From 2½ inch pots10 .60 3.50 From 4 inch pots25 2.00 10.00

Maman Cochet —(New Tea Rose)—One of the best new roses for 1895. The growth is vigorous, with rich, healthy foliage. The extra large flowers are produced on long stems, are very double, and the buds and half-expanded flowers are simply exquisite in their graceful form, delicate color, and rich fragrance. The color is deep rose pink, the inner side of petals silvery-gray. This variety was illustrated and described in the "Journal des Roses" two years ago, and one thousand dollars was refused for the stock by the originator, Mons. Cochet.

From 4 inch pots.....	.25	2.00	10.00
Paul Neyron —(Hybrid Perpetual)—A beautiful shade of deep rose, occasionally lightening to satiny pink in the center. One of the very largest, if not the largest, rose in existence. The branches are long and the foliage is superb, in keeping with the flowers: few thorns. Full, double, fragrant flowers. No collection complete without it.			
From 2½ inch pots.....	.15	1.00	5.00
Perle de Jardin —(Tea)—Without doubt the finest yellow rose in cultivation. Canary or golden yellow flowers. Large and beautiful form.

New Hardy Climbing Roses.

	Each.	10	100
Crimson Rambler —A grand new Rose from Japan. The plant is of very vigorous growth, making shoots of from six to ten feet during the season, rendering it a charming pillar Rose. It is also magnificent in bush form. The flowers are of a glowing crimson, and are produced in great pyramidal panicles or trusses, each carrying from thirty to forty blooms, the individual flowers measuring about one to one and a half inches in diameter, and remain perfect on the plant for upwards of two weeks. The foliage is bright green and glossy and perfectly healthy. We find this Rose perfectly hardy here.			
From 2½-inch pots	\$0.20	\$1.50	\$ 7.00
From 4-inch pots	.30	2.50	15.00
Empress of China —We have thoroughly tested this valuable new rose for several years, and we guarantee it to be of great worth. Its distinct quality is its habit of true perpetual blooming, which is possessed by no other climbing rose in any where near the same degree. It commences to bloom about the first week in May in this latitude, and from that time, except under some special trying circumstances such as protracted drouth, it will bloom continuously until late in the fall. It is perfectly hardy, having withstood our severe winters here, unprotected and without injury. The vigor of growth is unsurpassed. The flowers are small, but very delicate, waxy and fragrant, and are borne profusely. The color is a soft dark red in bud, and changes as the flower opens or grows older, to a lighter shade or pink.			
2 years, dormant	.25	2.00	10.00
Yellow Rambler —(Aglais)—This rose is, we are confident, an even more valuable introduction than the Crimson Rambler, for it is the <i>hardest yellow climbing rose</i> yet introduced, and quality of hardiness has been an extremely difficult one to combine with yellow color. It has withstood unprotected and without injury prolonged temperature of from zero to two degrees below and we believe that, with very slight attention, it can be grown everywhere that other roses succeed. The Yellow Rambler is a cross between the "Japanese Polyantha Sarmentosa" and Noisette "Reve d'Or," and Yellow Rambler is a <i>blood relation to the Crimson Rambler</i> , which it much resembles in growth and foliage. It also <i>blooms after the same manner as Crimson Rambler</i> , in large trusses, often as many as 120 to 150 flowers in a bunch. The flowers are very sweetly fragrant, and last three to four weeks without fading.

STATE OF ILLINOIS,

Office of the State Entomologist.

Urbana, August 24, 1897.

This is to certify that on August 13, 1897, an assistant of this office, acting under my direction, examined the growing stock of the Phoenix Nursery Company, at Bloomington, Ill., and found no indication of the presence of the San Jose scale either then or at any previous time.

This statement is invalid after July 1, 1898.

S. A. Forbes,
