Three Plans for obtaining anything you want.

North Western Seed Co.,

A. A. Richardson, Mgr.,

Faribault, Minnesota.

...Greeting = Best Wishes...

After another year we again come before the public with thankfulness for past favors and hopefulness for future orders. We are trying our best to furnish only good seeds. How well we are succeeding is proved by our increasing trade and by the testimonials from our customers herein.

While it is our duty to try to please you, it is more for we consider it a pleasure also. Then on the grounds of simple, selfish, business policy it is best to be square, for it is the only way to keep customers.

"Good seeds in large packets at low prices," is our motto. We aim to sell good seeds as cheap as is consistent with good quality, for cheap seeds we do not want—nor do you.

Don't think for a moment that the only firms selling good seeds are those expensively located in the heart of great metropolises, issuing bulky catalogues in rainbow colors with exaggerated descriptions and pictures. Our business is conducted at small expense on "Richardson's Gardens" (the largest market garden in this vicinity and planted with the same seeds we sell you.) We even do all our own printing, except this inexpensive catalogue; so we can sell you good seeds and not charge a double profit.

The advantage of our location at this fine county city of Faribault (population 8,000) will be seen as you examine the prices of our grasses and farm seeds, a large part of which are grown here in this good soil and climate of ours by intelligent farmers and you buy them at almost first hand. Faribault is well provided with shipping facilities having two roads (C. M. & St. P. and M. & St. L.) and being but 52 miles south of the great railroad centers of the Northwest, Minneapolis and St. Paul.

If we should make any mistakes (everyone is apt to) in filling your order tell us (not some one else) at once that we may make it right.

We want Northwestern seeds known and tried everywhere and offer several plans as inducements for their further introduction. Please read A, B, C, D, E and F plans and the other offers that these pages contain.

We have no connection with any other catalogue seed firm. We think it but just to ourselves to say that, for some might otherwise infer that we were connected with a firm who are fast gaining an unenviable reputation for adulterated seeds.

Awaiting your favors, which shall have as prompt and careful attention as possible, we remain,

Cordially yours for good seeds,

NORTHWESTERN SEED CO.

A. A. RICHARDSON, Mgr.

As to our reliability we beg to refer to the following firms. Always enclose stamp for reply.

H. A. BOLLES, Dealer in Crockery & Glassware

State Fair Premium—"A" Plan.

Last year we made the following offer in the premium list of the Minnesota State Fair:—"We will give a special premium of \$5 for the best display of products (and so labeled) of Northwestern Seed Co's. seeds; products may be entered either for individual premiums or in farm or county exhibits."

We duplicate that offer for the State Fair of 1899, and in addition will give, according to merit, further prizes of seeds to all those competitors who fail to win the cash prize. We will be at the state fair and furnish the labels required.

Send to us for your seeds and win that \$5. Be sure and tell us when you order that you will compete for the State Fair Premium and we will add some extras especially adapted to the case.

To our knowledge, products of our seeds last season were in the Isanti Co., Steven's Co., Steele Co. and Rice Co. exhibits and in the farm exhibits of John and Albert Prescott.

The following is from the man that won the \$5 last fall: "My brother and I took \$166.50 in premiums on truck mostly raised from your seed and exhibited at only two fairs. I will never use any seed but "Richardson's" as long as I run a garden." John Prescott, Ex-Pres. Isanti Co. Agr'l. Society, Princeton, Minn.

D. T. Wheaton, Co. Surveyor of Stevens Co., Morris, Minn. writes: "I purchased most of my garden seeds from you last year and I would not ask for better seeds. The beets and carrots were fine—had some of them in Steven's Co. exhibit at the State Fair."

Mrs. G. F. Cardoff, Owatonna, Minn. says: We were well pleased with your seeds. The Watted Hubbard Squash was especially fine, they took 1st. premium at the Steele Co. Fair and were in the Steele Co. exhibit at the State Fair, where they got special mention."

County Fairs Premiums—"B" Plan.

We make the following offers for products of our seeds entered at the Rice County Fair at Northfield or the Faribault Street Fair—Products of our seeds (and so labeled) which take first premiums will take an extra premium of \$1 worth of seeds in packets; products of our seeds which take 2nd, 3rd, or 4th. premiums will take 25c. worth extra. We will supply the labels wanted. We hope our Rice County friends will win a lot of these premiums and make it as expensive for us as possible.

LIGHT WORK—GOOD PAY.

Men, women, boys and girls you can earn almost anything you want by spending a little time selling Northwestern seeds to your friends and neighbors.

Everyone must buy seeds. Most people will buy Northwestern if you gently urge them to do so. Tell them they are sure of getting good seeds; while it helps you earn a handsome present. Show them the testimonials from our customers; show them our warranty; show them our low prices; show them "A" and "C" plans and our other offers to customers.

How Can We Do It? We want Northwestern seeds introduced and sold everywhere. It would take hundreds of thousands of dollars to reach everybody through the newspapers, and then the results of such advertising are more or less uncertain. It is results we are paying for in these premium offers, D, E and F plans, and hence we can make our pay quite liberal. The more people you see, the more will Northwestern seeds be advertised and the larger will be your order and the better your premiums.

Many firms offer premiums for the sale of their goods. Our work, methods and motives differ from some. If you sell bluing, ink, jewelry, etc. you can usually make but one sale to a family and that a small one, so that you can't earn large premiums. In seeds you should nearly average half dollar sales and will often have \$1 orders and larger, so you will really be surprised to find how quickly you can make up a large club order. Then too, you could hardly sell bluing, etc. to any but friends while North Western seeds you can sell anywhere, either in your own neighborhood, or 10 or 100 miles away. If the firms of the first class disappoint or cheat you in the goods you sell or earn for premium it is no matter—they can hardly expect more than one order. We want your orders and your customers orders every year, and so dare not cheat

CLUBBING LIST—"C" Plan.

By special arrangement with the publishers, we are able to offer yearly subscriptions to these popular journals at small prices in combination with \$1 worth of any goods in our catalogue.

Column A gives the regular price of each journal and column B its price with \$1 worth of goods. If you order an amt. more than \$1 or if you want two papers, you can find the amount to send for each paper by taking \$1 from the combination price in column B and adding the balance to your remittance.

A short description of each journal will be found in our advertising pages. These offers apply to new subscribers or renewals.

No subscription will be accepted at less than the regular rate except in combination with our goods.

Light Work—Good Pay—continued.

you if we wanted to—which we assure you we certainly do not.

Now, dear friends, try selling "Good seeds in large packets"—North Western seeds. We had a number of agents and club raisers last year. One young man we know of who has sold lots of our seeds through the country for several years was told by more than one of his customers when he visited them last spring that they were waiting for him. He also had a letter from a smaller town which he had once canvassed, saying: "Are you coming over here to sell seeds this year? I heard some say they liked your seeds and looked for you last year."

So you see that if you start this year you may have if you like, a nice business opening up for you.

The earlier you start the larger orders you can average, but you can keep on right along until after May 1st.

No limit to the number of premiums you may secure.

Those who may prefer may have cash for their work, but you will readily see that we can afford to give you better value in these premiums which are bought for cash at wholesale and will be standing advertisements for us.

When you write (and will you not let it be soon?) please tell us what premiums you will work for. You can work under either "D" or "E" plan, or both combined as stated later and in any case do not fail to take advantage of "F" plan.

"D" Plan. Send us a dime for postage and we'll send you a few sample packets of our vegetable and flower seeds, together with extra catalogues, order blanks, etc., then go among your relatives and special friends first where you can easily get orders, after which go to other friends and neighbors. Give everyone a catalogue and get as large orders as possible. Send us the orders and money, and we'll send the seeds and the premium you want. You may send orders as fast as you get them and we will give you credit and send premium when your orders foot up to the required amount.

If you should not be able to send cash with your orders (which is the best way) send to us for a blank to be filled out so that you can get the seeds and deliver them and send us the money. We have to ask this as a matter of business, as we cannot be acquainted with each of the thousands who may work our premiums.

"E" Plan is especially for boys and girls though anyone may work it. Fill out the agreement below send it to us and we will mail you a \$1 collection of vegetable and flower seeds or both combined (say which you want). As soon as sold you send us the money and we will send you the premium you select.

In either collection we put only our choice of varieties—those we think you can sell. If you find parties who want other varieties or larger quantities, take their orders and send to us for the seeds and we will give you credit as under D Plan.

No second collection sent to anyone until the first is paid for and seeds belong to us until paid for.

The following list mentions some of our most popular

You can work "E" plan with this also, by sending for one collection so that you will have a few seeds to sell as you go along and take orders for varieties and quantities not in the collection.

Please send us the name and address of each party in your club order, that we may send them our next Calendar and Garden Guide.

If you can't possibly make your club order large enough to get the premium you want, you can still get the article by paying a small cash difference.

The amounts of club orders stated are the amounts of seeds in packets for which the premiums will be given. Vegetable and flower seeds in ounces count one-half, and in other quantities one-fifth, as much as seeds in packets towards the premiums. Such as bulbs, potatoes, farm seeds, grass seeds, tools, etc., take what orders you can for them and we will give you as much credit towards the premium as the case will allow.

How to earn money talking or writing.

"F" Plan. You have friends over whom you have influence—everyone has. We would like to pay you for your influence to help introduce North Western seeds. If you will speak to your nearby friends or write to those farther away explaining the case to them about as requested below, and send us the name and address of each on attached blank, we will keep a careful record and will send you in June 25c. in cash for each \$1 worth of seeds in packets or ounces bought of us by all parties whose names you send us who are not old customers of ours.

In addition, at any time during the season you may order of us an Acme Seed Drill for 60c, a Dexter Riveter for 75c, an Economy Cobbler for 5c, a Home Repairing Outfit for \$1.50 or a Cyclone Camera at 10 per cent less than prices catalogued. You can order any one or more or all of the articles at prices mentioned, same to be shipped by freight.

All lists as we receive them will be dated. In case of two lists giving the same name the first one re-

ceived will have credit. Send as large or as many lists as you please. The more names you send the more 25c. pieces you stand to get.

Don't neglect to fill this out because you work "D" or "E" plans. Write to some friends that you will not be able to see.

You are to tell, by word of mouth or letter, the parties whose names you send, about as follows:

"Dear Friend:—If you are going to need any seeds this spring please send a postal to North Western Seed Co., Faribault, Minn., for their free "Calendar and Garden Guide" and catalogue mentioning my name. Their seeds are very highly spoken of by many who have used them, and their prices are quite reasonable. They want to get new customers and have made me an offer so that I will slightly profit by any order you may send them, and they promise to try to treat you so as to make you a steady customer. Please let me know how large an order you get of them."

Select Vegetable List.

Our list is not so long as to confuse though a choice selection is offered and of only varieties as will give you satisfaction.

Warranty. Our rule is to test all seeds before sending them out. We have so much confidence in our vegetable and flower seeds that we warrant them to grow or we will replace the seeds or refund your money. Of course we cannot guarantee a crop of anything, for that depends on so many conditions beyond our control, but we give a better warranty than most seedmen and will stand by it.

Free Premiums. If you order \$1 worth of seeds in packets or ounces you may select 25c. worth extra free. The Northwestern Agriculturist 6 months free with a 25c. order. The Acme Seed Drill only \$1 with your order.

Postpaid. All seeds in this list are sent charges p. d. If to go by freight or express at your expense deduct 8c. a pound; or 15c. a qt. on peas and beans and 10c. a quart on corn.

SUMMER FLOWERING BULBS.

These produce some of the most beautiful flowers with less care than flowers from seeds. All (except tuberoses) are good for many years and most multiply rapidly. Directions for growing free with orders. Prices include postage.

"Golden Glow" Rudbeckia. There are so few satisfactory new hardy plants that we offer this with pleasure. Of easy growth, 6 to 8 feet the first season. Bears hundreds of yellow blossoms on long stems; fine for cut flowers. Prof. Green of the State Experiment Station, writes us, "has been growing in this state for four or five years and seems to be exceedingly hardy and it is a really desirable thing. It increases very rapidly and it's bright double flowers are of a good color and attractive. I think you would do well to list it." Good plants, each 20c; 3 for 50c.

Dahlia: There is a growing popularity for this old flower, which has lately been greatly improved. Double white, yellow, pink or red; each 20c; 3 for 50c. Mixed colors; each, 15c; 4 for 50c.

Tuberose: Double Dwarf Pearl, each 4c; doz, 35c.

CLOVER GRASS MIXTURES and FARM SEEDS.

The clover grass mixtures are this year a new departure for us. We have made fortunate arrangements with a gentleman who has had over fifteen years experience in mixing thousands of pounds of grass seeds, and we get the benefit of his long experience for our customers in this department and we can assure them of satisfaction.

Our prices on m.s.g. grass and farm seeds will be found very low: there are two reasons for this: first, the small margin on which we do business, and 2nd., a large part of the seeds grow to perfection in this vicinity and have to pass through few hands to add profits.

Seamless bags 15c. extra. These seeds are shipped by freight. If to go by mail, add 10c. a pound for postage. Prices subject to market changes.

Clover Grass Mixtures.—For two clear reasons authorities say that best results are obtained from grass seeds in mixture: first, different grasses live on different elements in the soil, so several species sown together are less exhausting to the soil and give a denser growth; 2nd., weather unfavorable to some varieties is just right for others, so a failure is impossible when a mixture is sown.

The "lbs per acre" given is as little as you should sow. A larger quantity might be often used to advantage. 25lbs supplied at 100 lb rate.

We can make any special mixture to your order. Can make cheaper mixtures, but the "cheap" clover grass mixtures have brought, and are bringing, discredit to themselves and their sellers.

Mrs. T. W. Scanlan, Lanesboro, Minn. writes: "I liked your garden and flower seeds very much."

On many of these grain and farm seeds the market price fluctuates. If you want a quantity write us before you place your order anywhere. Late in the season if not otherwise ordered we will ship seeds to amount of remittance should prices be higher or lower. No drayage will ever be charged.

Mrs. Geo. W. Whipps, Peone, Wash., writes:— "The seeds we got of you last year, as well as other years, proved highly satisfactory. The Prizetaker Onions were especially fine in size, flavor and yield. The Jumbo Pumpkins were the largest I ever saw, and all of the other seeds came up good and did well. We will want seeds of you this spring and I will recommend you to others."

SWEET POTATOES.

Many do not know that these may be raised here. One was grown in Faribault from our plants which was 14 in. long. The Northfield Independent told of a man who raised 15 bushels and thought that they were as easily raised as Irish potatoes. Mrs. I. G. Ross, of Northfield, said that they raised last summer from 50 of our plants, part of which died, as many potatoes as would have cost \$5 or \$6 at the grocery. Mr. Ross never liked the ones that were shipped in, but he did like the ones that they raised.

Plants ready about May 1st, and after.

Yellow Nansemond is one of the best varieties for this section as it is early and of good quality. Plants only 45c per hundred.

VINELESS GOLD COIN PROLIFIC SWEET POTATO.

VINELESS GOLD COIN PROLIFIC SWEET POTATO.

Vineless Gold Coin Prolific is claimed to be much earlier and a better yielder than others. Plants 75c per hundred.

If you want several hundred or thousand plants, write for prices, stating quantity wanted.

POTATOES.

One potato grower says that of these varieties the Acme was the earliest of all, closely followed by the Early Michigan. Uncle Sam was of large size, good yielder, eyes shallow, No. 1 quality; Country Gentleman is a big yielder, splendid eating, cooks dry; World's Fair, no better potato for eating, good cropper. We quote descriptions given by introducers and others:

Acme: "will eat in 7 weeks from planting; is earlier and a little larger than the Ohio and is in general very desirable; produces as largely as late, strong-growing kinds."

Early Michigan: "Snow white, extra in table quality and way ahead in productiveness."

Uncle Sam, the "People's Potato." "Destined to become the most popular late market potato; heaviest cropper grown but superb cooking qualities—white dry and floury."

Country Gentleman: Resembles Beauty of Hebron; "large cropper and a strictly first class late or winter market potato."

World's Fair: Resembles Snowflake in appearance and quality but better yielder.

Mrs. Jas. Bell, Lakeville, Minn., writes: "We were well pleased with the seeds we got from you. Your onion seed (Yellow Danvers) was fine, would like to have more of it; would like to know how you sell it this spring; also my tomatoes were fine."

M. J. French, St. Peter, Minn., writes: "The seeds that I received of you were all good and gave good results. The sweet potato plants were all right with the exception of some which were bruised."

Harry Sargeant, Sargeant, Minn., sends the following report: "Potatoes excellent; peas and beans fine; beets and salsify good; squash, good yield, good quality, vine peach also. On the whole we were well pleased with our purchase from the N. W. Seed Co."

..Cyclone Cameras..

These have deservedly attained a wide popularity. They are made on honor and are as low priced as high quality will permit. Very simple of operation. Shutter always set—no levers to turn—"press the button" that's all. Only tested lenses are used. Instruction book free with camera.

Rec. W. E. Thompson, Alden, Minn., writes:—Seeds were very satisfactory. The peas were particularly good—so were the coffee beans. I had a splendid crop of corn, beans and beets—I think all were from your seeds. Wishing you success.

Mrs. L. O. Whitcomb, Winona, Minn., wrote on Feb. 28, '98: "I was about to send for some cheap seeds I have seen advertised when I happened to think that you had seeds I could depend on, as I know from experience."

Mrs. H. M. Davis, Faribault, Minn., wrote May 4, '98: "I want a few garden seeds and I had rather buy them of you for the reason that I have tried your garden seeds and they always did well."

Miss Ella B. Lathrop, Hastings, Minn., wrote: "The bulbs (gladioli) grew finely; the flowers were large and of fine shades; the frost took the last one. The border of sweet alyssum was fine."
