Flambeau. A new everblooming Begonia of the semperflorens type. Plant a dwarf, compact grower with glossy deep green foliage slightly ruffled and toothed on edge. Exceedingly free flowering, color deep rosy pink, changing to delicate light pink. Excellent for either bedding or pot culture. \$2.00 per doz.

Gilsoni. A strong upright grower. Large racemes of double, rosy white flowers. \$6.00 per 100.

Goliath. A remarkably strong grower, of fine branching habit, making large showy plants 2½ to 3 feet high in a single season. Leaves large, round, glossy green, slightly serrated. Flowers in large clusters on stiff stems, carrying them well above the foliage. Color, rosy white. A beautiful pot plant for the window or conservatory. \$1.25 per doz.

Haageana Erecta. Of strong erect habit, making very symmetrical plants that are in flower the year round; foliage large, bronzy green on upper side and red below. Flowers very large, creamy white tinted pink. \$1.00 per doz.

Mastodonte. A very strong growing variety of the Gigantea Rosea type; flower large on long, rigid stems; color a delicate tender rose. Makes a fine large specimen plant for decoration in a very short time. \$1.25 per doz.

Paul Bruant. A free-growing variety. Leaf of heavy texture, and of deep olive green color. The flowers are produced very freely, on long, graceful stems. Color delicate rose changing to white. \$8.00 per 100.

Rubra. Flowers rich coral red, in large pendant panicles. One of the best. \$5.00 per 100.

One of the most useful and brilliant flowering plants that has been introduced in years and will when it becomes known be very popular as a pot plant. \$2.00 per doz.

NEW CARNATIONS.

The descriptions are those given by the originators.

E. G. HILL & CO.'S TWO STERLING NOVELTIES.

Psyche. White, flaked scarlet; flower of extra size, but not crowded with petals; long stiff stem; a very profuse bloomer; may be described as an improved and easily managed Helen Keller, bringing a much greater number of blooms to the plant; grass medium in size and weight; perfectly clean and healthy; have never seen rust, bacteria, nor any other disease upon it. This is a great producer of flowers: in fact, it promises, on account of its great freedom of bloom, to be a desirable variety from the money or commercial point of view. \$10.00 per 100; \$75.00 per 1,000.

Painted Lady. A large, very full flower, with perfect calyx and extra stiff stems; a model grower, with firm curling grass; color brilliant cherry pink, at times laced lighter pink about the edge. One of the most profuse bloomers in the family. We believe this variety possesses all the requisites of a good commercial Carnation, being very free in bloom; a variety that must be seen to be appreciated. \$10.00 per 100; \$75.00 per 1,000.

DORNER & SON'S NOVELTIES FOR 1898.

White Cloud. A cross between Daybreak and E. A. Wood, possessing all the meritorious characteristics of the former, but greatly enhanced and strengthened, an inheritance of the latter. Strong growth, free blooming from early to late, long strong stems, large fragrant flowers of a full pleasing form without bursting, and of good substance, make it a most desirable acquisition to the rather small list of good white varieties. Received A. C. S. Certificate of Merit at Cincinnati, February, 1897. \$10.00 per 100. \$75.00 per 1,000.

Gold Nugget. The first yellow that can be pitted against Buttercup in point of color, and is in all other points far ahead of that celebrated variety. Strong growth, free blooming from early to late, long strong stems, large flowers of pleasing form and not bursting, center petals standing erect, apparently diminishing the actual circumference, and is of excellent keeping qualities. Missed Certificate of Merit at Cincinnati by one point, on account of lack of fragrance. \$10.00 per 100. \$75.00 per 1,000.

W. P. SIMMONS & CO.'S

New Carnation, Mrs. S. A. Northway. Soft shell pink, shading to flesh, white at edge of petals. An extra strong grower with long stiff stems. Entirely free from disease. A fine high built flower with finely serrated petals, very fragrant. \$10.00 per 100. \$75.00 per 1,000.

CARNATIONS.

Armazinda. White, lightly penciled with scarlet.

Daybreak. Delicate salmon flesh.

Flora Hill. Flowers of enormous size, of nice rounded form, highly clove scented all on very long stems. The finest white to date. \$4.00 per 100.

Lizzie McGowen. Pure white.

Puritan. Large, pure white.

Peachblow. Deep satiny pink.

Rose Queen. Soft pure rose.

Tidal Wave. Rosy pink.

Triumph. Clear bright pink.

Victor. Bright salmon pink.

Wm. Scott. Light pink.

Unless noted \$3.00 per 100.

CANNAS.**SIX SPLENDID VARIETIES OF AMERICAN ORIGIN. NOVELTIES FOR 1898.**

President Cleveland. The finest bright scarlet Canna to date. A strong, healthy grower, four to five feet high, with an abundance of glossy deep green foliage and a most prolific and constant bloomer, being a mass of bright rich scarlet from early to late. The flowers are of immense size, often $4\frac{1}{2}$ to 5 inches across, with heavy, broad overlapping petals, borne in mon-

strous trusses and many of the shoots by their branching habit bear two and three very large trusses. The color is an intense bright orange scarlet, very much brighter than any other variety in our collection. For producing a mass of deep glowing color no other *Canna* will compare with it. 40c. each. 12 for \$4.00.

SURPRISE.

Surprise. A gem among the cannas; plant very dwarf, rarely growing over two feet high, of compact habit, throwing up numerous branching flower stalks. While the plant is very dwarf the flowers are of the largest size, of nice rounded form. Bright crimson scarlet, distinctly and evenly bordered deep golden yellow. As a pot plant it has no equal among cannas, blooming freely in small pots when not over 12 to 15 inches high. 12 for \$2.50.

Duchess of Marlborough. A pure clear pink, an entirely new color in Cannas, of the exact shade shown as pure pink in the Mathews Color Chart. Fine large flowers four inches and over across. Plant grows four to five feet high, with fine large foliage; entirely distinct from any other variety and adds a new color to this useful class of bedding plants. 12 for \$4.00.

Duke of Marlborough. A superb variety with dark velvety crimson maroon flowers, the darkest of all cannas. A sturdy erect grower, with bluish, metallic green foliage; fine large compact truss. 12 for \$4.00.

Robt. Christie. Brilliant orange scarlet. This is a particularly strong grower, throwing up tremendous heads of bloom, and an exceptionally free bloomer. Grown alongside of some of the freest bloomers of the older varieties it showed nearly twice as much flower. 12 for \$2.50.

Tarrytown. This variety comes very near the ideal for a bedding canna. In color it is very distinct, being a brilliant cherry red. It is an exceedingly dwarf, compact grower and a very profuse bloomer. The spikes of flowers are in dense masses, as even as if sheared, and one of its valuable characteristics is the fact that wind and rain seem to have little or no effect on the flowers. It comes into bloom very early and makes a grand show until cut by frost. 12 for \$6.00, 100 for \$40.00.

NEW ORCHID-FLOWERED CANNA—AMERICA.

The first of this class with bronze foliage; it has beautiful glossy leaves that shine as if varnished; color dark purplish maroon with a glossy metallic luster. Flowers very large, deep orange red, flamed and striped with deeper shades, entirely distinct both in flower and foliage from any other *Canna*. 12 for \$3.50.

All prices quoted on following sorts are for pot plants ready April 15th. Dormant roots until May 1st at \$1.00 per 100 less.

GIANT ORCHID-FLOWERED CANNAS.

Growth very strong with handsome large musa-like foliage. The flowers are distinct in shape from all other Cannas, having a short throat and spread out into a flat bloom 6 to 7 inches across. The petals are very broad and finely ruffled.

Austria. Remarkable for its sturdy, rank growth, forming massive clumps six to seven feet high, covered from the ground up with large deep green musa-like foliage, surmounted by tall spikes of golden yellow flowers standing upright like immense lilies. \$4.00 per 100.

Italia. Bright orange scarlet with a very broad golden yellow border; a beautiful large flower with nicely ruffled petals. It is a remarkably strong grower with large, heavy foliage. \$8.00 per 100.

Burbank. The new California Hybrid with giant orchid-like flowers. The plant is a very strong grower, five to six feet high, with leaves of a texture like rubber; flowers of gigantic size. Color rich canary with a few carmine spots in throat. \$1.25 per doz.

A SELECT LIST OF TESTED STANDARD VARIETIES.

Admiral Avellan. One of the best of the dark-leaved varieties and a decided advancement in this section. Color rich orange scarlet, overlaid with salmon, giving the whole flower a rich luminous appearance. 100 for \$4.00.

Alphonse Bouvier. Begins to bloom very early and is one continuous mass of crimson the entire season. 100 for \$4.00.

Flamingo. A superb variety with trusses of immense size. The individual flowers are very large, nearly four inches across, and of fine, even rounded form. Color deep glowing crimson, exceedingly bright and attractive. \$15.00 per 100.

Florence Vaughan. This is the finest variety of its color; flowers very large, of the most perfect form, with broad overlapping petals, nicely rounded at the ends. Color brilliant yellow, spotted with bright red. 100 for \$5.00.

Madam Crozy. Flowers of a dazzling crimson scarlet, bordered with golden yellow. Remarkably free flowering. 100 for \$4.00.

Chicago. Grand vermilion scarlet; flowers very large and flat, petals broad and five in number, composing a magnificent flower in a very large truss; erect in growth; foliage bright green. 100 for \$8.00.

Edward Mieg. One of the best of the high-colored varieties, bearing very large flowers in immense trusses of rich vermilion scarlet; a strong, robust grower with dark green foliage, attaining a height of 3½ feet. 100 for \$5.00.

Philadelphia. This is an ideal bedding variety of medium height, an early and constant bloomer. It has the habit to a remarkable degree of shedding its old flowers as soon as withered, leaving the fresh blossoms to shine out clear and bright at all times; color a deep glowing red, very rich and velvety. 100 for \$15.00.

Mrs. Fairman Rogers. One of the finest of all the gilt-edged varieties and a splendid bedder of the Mad. Crozy type; in fact, it might be called an improved Mad. Crozy, clear crimson scarlet, each petal banded clear canary yellow. 100 for \$12.00.

President Carnot. Orange scarlet, slightly shaded pink. Foliage deep chocolate maroon, one of the best of the dark-leaved sorts. 100 for \$5.00.

Queen Charlotte. The flowers, which are very large, with broad rounded petals slightly recurved, are borne in immense heads well above the foliage, and are most striking in color—a bright orange scarlet, deeply edged with bright canary yellow. 100 for \$4.00.

Souvenir Antoine Crozy. A magnificent gilt-edged variety. The flowers are very large, of the most intense scarlet crimson, bordered with a broad band of rich golden yellow; trusses very large and erect, carrying an immense number of large flowers. Very free bloomer. 100 for \$8.00.

Papa Canna. Very free flowering, producing a mass of bloom in immense sized spikes. Color pure red; a sturdy dwarf grower, 3 to 3½ feet. 100 for \$6.00.

GENERAL COLLECTION OF LARGE FLOWERED DWARF CANNAS.

Antoine Chantin. Bright orange scarlet overlaid with crimson.

Alsace. In this variety we have the nearest approach to a pure white Canna. A grand variety for contrasting with darker colored sorts. \$6.00 per 100.

Acme. A fine yellow with broad overlapping petals and splendid trusses of large flowers. \$8.00 per 100.

Beauty of Poitevine. Bright rich crimson, with erect flower spikes, growing 3 to 3½ feet high. It comes into bloom very early and flowers continually throughout the season. \$8.00 per 100.

Charles Henderson. Bright crimson; this is one of the very handsomest varieties, and where a mass of bright crimson is wanted, we know of nothing better.

Comte Horace de Choiseul. Deep crimson with carmine shades.

Col. Dodds. Rich velvety red.

Eldorado. The nearest approach to a clear yellow, being but very finely speckled with light red. Spikes of bloom very compact. \$8.00 per 100.

E. G. Hill. Clear scarlet marbled with carmine. \$8.00 per 100.

Francois Crozy. Bright orange, bordered with a narrow edge of gold.

Felix Crouse. Deep scarlet.

Geoffrey St. Hillaire. Rich bronzy purple foliage, flowers rich glowing scarlet overlaid with orange.

J. D. Cabos. Dark greenish maroon foliage, with a bronze, metallic luster; flowers bright orange or apricot, sometimes brightened with a pinkish tinge. \$6.00 per 100.

L. E. Bally. Light canary yellow, spotted with orange.

Mad. Alphonse Bouvier. Color light, bright scarlet, laced on the edge with gold, and also marked in the throat of the flower. \$6.00 per 100.

Octave Mirbeau. Flower large, with broad petals. Color deep scarlet, marbled with orange. \$6.00 per 100.

Progression. Deep golden yellow, heavily spotted and splashed crimson. A continuous bloomer.

Paul Marquant. A beautiful shade of bright salmon with a carmine tint.

Sophie Buchner. Flowers very large, in close compact trusses. Deep crimson with vermilion shadings.

Sunbeams. Plant remarkably dwarf and compact; flowers very large, color bright golden yellow, very faintly marked orange.

Souv. de Asa Gray. Large orange crimson flowers.

Victor Hugo. Bright, dazzling scarlet.

Unless noted \$4.00 per 100.

COBEA SCANDENS.

A beautiful climber of rapid growth, large purple, bell-shaped flowers. \$4.00 per 100.

CHRYSANTHEMUMS.

Description as given by originators.

F. DORNER & SONS' NOVELTIES.

Mrs. C. H. Pierce. A soft deep yellow. Of robust habit, model strength of stem, heavy beautiful cut foliage up to the flower, its even growth, uniform size of flowers that are made up of well-developed leathery petals, giving it the greatest substance. Its proof against burning and its excellent shipping qualities will rank it with the best of commercial varieties. Height, 3½ feet. The large full flowers of globular form with straight petals curved in at the tip, produce an equal to Major Bonnaillon, of a deeper yellow and a nearly reverse in style of petal. Take first bud. At its best November 6th to 25th. Recommended for N. C. S. Certificate by committees at Boston, Philadelphia, Cincinnati and Chicago. 35c. each. \$3.50 per doz. \$25.00 per 100.

Snow Queen. A first-class commercial variety, a large, nicely finished snow white flower of rounded form, full to center, slightly curved pointed petals and of great substance, good strong stem with foliage nearly up to the flower, good keeper and shipper. Height, 3 to 3½ feet. At its best October 20th to November 5th. Received N. C. S. Certificate. 50c. each. \$5.00 per doz. \$35.00 per 100.

Merry Christmas. The best and latest of all whites. Height, 4½ feet. Good stiff stem. A well formed flower of purest white, in style of Mutual Friend, but far greater in substance and full to the center. The latest of all chrysanthemums, being at its best December 20th to January 1st. 35c. each. \$3.50 per doz. \$25.00 per 100.

NATHAN SMITH & SON.

Thornden. (Jap.) A bright yellow under all conditions, even surpassing Modesto in this respect. This variety possesses so many good points that it will at once take first place among the many yellows. Height, 3 feet, short stout stem, form reflexed with center petals somewhat erect; color the most intense yellow we have seen. Midseason. C. S. A. Certificate, also Certificate from Central New York Horticultural Society. 50c. each. \$5.00 per doz. \$35.00 per 100.

Merza. (Jap. Inc.) In habit more dwarf than Ivory, yet in no way weak in constitution, producing pure white flowers of the largest size, which rest upon its foliage. For single stem pot plants this will make a record breaker. Those benched July 20th only attained 10 to 12 inches in height. A seedling from H. L. Sundbruch and Mrs. H. McK. Twambly. The flower is a white Sundbruch, only higher built and more closely incurved, with nearly twice the number of petals. Midseason. C. S. A. Certificate. 50c. each. \$5.00 per doz. \$35.00 per 100.

E. G. HILL & CO.

All of the following were awarded the Society's certificate.

Autumn Glory. A grand commercial pink, and unsurpassed as an exhibition variety. There is nothing like it in color, which is a deep reddish salmon upon opening, and gradually changes to a soft shrimp pink when fully finished; the flower is of the general shape of V. Morel, is

of the largest size, and takes on great depth. A very easy doer; has no troublesome peculiarities. Has attracted marked attention wherever shown. This variety has no touch of lavender in its color, but is a decided and new shade that is very beautiful. 4½ to 5 feet. Nov. 5. Terminal bud. 50c. each. \$5.00 per doz. \$35.00 per 100.

Black Hawk. Largest and most beautiful dark crimson-scarlet yet raised; looks like crimson velvet and does not show a trace of the reverse color, being of V. Morel form; the very color long desired among reds, and of grand size: it is a tall grower, but on stiff stems; as with all the reds, beware of late feeding, and use a quantity of charcoal in the soil. Use late cuttings—either bud. 5 feet. Nov. 5. 50c. each. \$5.00 per doz. \$35.00 per 100.

Boundless Snow. Requires no staking, very large and of Inter-Ocean type; color white flushed pink, gradually becoming pure white. Comes in about same date as Mrs. Robinson. Scant 3 feet. Oct. 15. 1st crown. 35c. each. \$3.50 per doz. \$25.00 per 100.

Quito. Very valuable as a late dwarf pink; foliage very beautiful, carried close up to the flower; the color is deep pink within, lighter pink without. In form and style much like Maud Dean. Promises to be very valuable, from its height, foliage and color, coming, as it does, after other pink varieties are gone, and being quite first-class. Scant 3 feet. Nov. 20. 2d bud. 50c. each. \$5.00 per doz. \$35.00 per 100.

Solar Queen. Heavily foliaged from the ground up to the flower; an extra fine variety for "single stem pot plant;" brings a very large bloom, with a height of 20 inches; color golden yellow, shading lighter; flower of extra size, averaging 10 inches across by 3 inches in depth. Very valuable as an early yellow, and can be had in grand shape for the early exhibition. 3 feet. Oct. 15. 1st crown. 50c. each. \$5.00 per doz. \$35.00 per 100.

Souvenir de Sale. An entirely new shade in hardy pinks, being a delicate soft rosy pink with exceptionally large flowers, which are beautifully formed, very double and exceedingly useful for cutting. \$4.00 per 100.

Variabilis. White, deep maroon center.

Unless noted, \$3.00 per 100.

RUDBECKIA
GOLDEN GLOW

NEW DOUBLE RUDBECKIA. (Golden Glow.)

One of the most distinct and beautiful large growing hardy perennials; a strong grower, of fine branching habit, bearing by the hundred, on long graceful stems, beautiful double blossoms of the brightest golden yellow and as large as a Cactus Dahlia. Excellent for cut flowers, lasting well when cut. \$5.00 per 100.

ROSES.

NEW HYBRID TEA—MRS. ROBERT GARRETT.

A beautiful large Rose of exquisite shape, finish and blending of colors. It was raised by Mr. John Cook of Baltimore, Md., the result of a cross between Sombreuil and Mad. Caroline Testout. It partakes largely of the latter variety in habit of growth, in foliage, spines and stems, and in shape of flowers shows a complete blending of both parents. The flowers are very large, on strong stems, clothed with clean heavy foliage and strong spines. The buds are long and pointed in shape, and open up beautifully into a full rounded flower. In shape of bud and half-open flower, it very much resembles Souv. President Carnot, but is very much larger; color a glowing shell pink, very deep in the center; the fragrance is delicate and pleasing. A correspondent of the American Florist, in commenting on this Rose last March, says: "The exhibit of Mr. Cook was a departure from the rest, as it was a vase of Roses; but such Roses! They towered above the carnations, on strong stems clothed with heavy foliage, and were as large as American Beauties, but of a beautiful clear pink, almost light enough to be called a shell pink." \$4.00 per doz. \$25.00 per 100.

NEW HYBRID WICHURIANA ROSES.

The habit of these new Hybrids is the same as the Wichuriana or Memorial Rose. The growth is creeping and can be used with telling effect in covering embankments, terraces, stems of trees, pillars, trellises or for any other purpose where a strong rapid growing vine is desired. Perfectly hardy.

Universal Favorite. A most vigorous grower, with long branching shoots. The flowers are very double, 2 inches and over in diameter, of a beautiful rose color, similar to Bridesmaid; very fragrant.

South Orange Perfection. Remarkably free flowering; when in bloom is a mass of the most perfectly formed double flowers, about 1½ inches in diameter; soft blush pink at the tips, changing to white.

Pink Roamer. A hybrid of the sweet briar, which it somewhat resembles in character of bloom, while the growth, which is very rampant, partakes more of the Wichuriana type. The single flowers are over 2 inches in diameter, a bright rich pink, with large silvery white center and orange red stamens.

Manda's Triumph. This is a grand variety. The flowers are pure white and very double, in clusters of from 10 to 12 on each cluster on small side shoots literally covering the plant.
\$6 00 per 100.

POLYANTHA ROSES.

Climbing White Pet. A strong, rampant climbing Polyantha; pure white, in large clusters.

Clotilde Soupert. The most vigorous grower and prolific in bloom of any of the Polyantha class. Flowers large, very full, and finely imbricated.

Mosella. (Yellow Soupert). Flower equally as large as Clotilde Soupert; very double, of fine Camellia shape when fully open. Color light yellow shading to white at edge of petals; plant dwarf, bushy and very free flowering, in clusters, three to five flowers in a cluster. A beautiful variety for summer cut flowers, being a mass of bloom from early June until stopped by frost in fall. \$4.00 per 100.

Pink Soupert. This is a remarkably free flowering variety, surpassing even Clotilde Soupert in this respect.
