VEGETABLE GARDEN SEEDS

FOR THE TRADE
ONLY

OFFICE AND FARMS AT

South Wethersfield, Conn.

TO THE TRADE.

In placing this list before you we wish to state the fact that this firm has been in the seed business for the past fifty-two years. The business was established in 1845 by Thomas Griswold, senior, (now deceased) and has since been carried on by his sons, who were brought up on their father's seed farm making the growing of seeds their life study and by their pains-taking and fair dealings have built up an extensive and growing business. We are situated in the seed growing section of Connecticut, where tons of Garden seeds are grown annually, not only by ourselves, but also by experienced growers near by who grow for us and under our observation, and we feel confident that the seed we place on the Market will give good satisfaction. We give our personal attention to the business, both in the selection and care of our stocks; also in the execution of every order. We make specialties of Onion seed and Sweet Corn.

Our stocks are very carefully selected and the seed thoroughly cleaned and prepared for market, and none offered that we do not think is true and reliable; but as good results from the planting of seed depend so largely upon the time and manner of planting, also condition of the soil, weather, etc., which are beyond our control, we do not give warranty expressed or implied and will not be responsible for the crop. If anyone will consider for a moment they will see that it would not be for our own interest to place inferior seeds on the market, for if we did our business would soon be ruined.

Our office and warehouses are situated on our seed farms near a shipping station, making our expenses very light compared with the amount of business we do and we place our seeds on the market at very low prices for first-class goods.

Trusting that you will favor us with your orders, which will receive our best attention, we are

Yours respectfully,

THOS. GRISWOLD & CO.,

This is one of the best Varieties of Onion grown for the market. It is nearly round in shape, having a bright red color, Medium Early, (ripening about two weeks before the Southport Red Globe,) very productive and a good keeper.

This Onion has been thoroughly tried and gives excellent satisfaction.
