E. A. POPENOE, A. M.

PROFESSOR OF ENTOMOLOGY AND ZOOLOGY

Manhattan, Kas., 26 Aug. 1897.

This is to certify that I have this day examined the stock growing on the grounds of F. W. Watson and Company at Topeka, Kansas and find thereon no indication of the San Jose Scale or of its former presence, and further, that the stock is apparently in excellent condition as to growth, health, and freedom from noxious insects.

E. A. Popenoe.

Entomologist of the
Kansas Experiment Station
and of the
State Board of Agriculture.

TO THE TRADE.

WE present herewith our Wholesale Price List for the Fall of 1897. We would call attention to the fact that we give the age to all the trees we list. An apple tree, for instance, three, four or five years old and only 3 to 4, 4 to 5 or 5 to 6 feet high must be either *sick* or transplanted and carried over from one season to another; an undesirable tree in either case. All our apple trees not sold at two years old are burned.

Certificate of Inspection.—We have no San Jose Scale or trace of it, nor never had. Its unfortunate spread through many of the Eastern States threatens grave consequences. Trading with nurseries that have been inspected and found clean, or with nurseries outside of infected districts, is the only safe plan. Demanding a Certificate of Inspection is really the surest plan.

Terms of Payment.—Cash or Security, before shipment, or one-fourth Cash with order, and balance on delivery, with return charges added.

Packing mostly done in boxes, sometimes bales, for which a moderate charge is made—sufficient to cover cost. We make no charges for the delivery of packages to the railroad or express office, or for loading cars in bulk.

While we exercise the greatest care to have all Trees and Plants true to name, and hold ourselves prepared to replace, on proper proof, all that may prove untrue, we do not give any warranty, expressed or implied; and in case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the goods.

Purchasers will please name the route by which they wish goods shipped, otherwise we forward to the best of our judgment. After shipment goods are at purchaser's risk.

We have hydrants over the grounds, plenty of water, moss, straw, etc., and dealers who wish to pack here will get liberal treatment.

F. W. WATSON & CO.

PLEASE LET US PRICE YOUR WANTS.
