U. S. Department of Agriculture.

Six Days Earlier Than Any Other.

NOW BEING INTRODUCED
AND FOR SALE BY

J. H. LINDSLEY,

NURSERYMAN,

HUNTERDON CO.

White House, N. J.

Hunterdon Nurseries.

ESTABLISHED 1837.

THE NEW HARVEST KING PEAR, (NATURAL SIZE.)

The Earliest Large and
the Largest Early Pear.

The New HARVEST KING PEAR.

The Earliest of the Earlies

WITH A FEELING OF GREAT PLEASURE AND SATISFACTION we offer this new Pear **Harvest King** to the fruit growing public. The **Harvest King** Pear originated in Hunterdon County, New Jersey, and is a seedling of Early Harvest, which it somewhat resembles, but is much larger, earlier and better quality. The tree is entirely hardy, and a shapely grower, resembling Keiffer in this respect, and is absolutely **Blight Proof**. Very Prolific, begins bearing young, and never fails to produce a full crop of fruit. The original tree has never been affected with any disease, and has never failed a crop since old enough to bear, in the 35 years of its existence.

It is an old saying that "the **Early Bird** catches the **worm**," so with the Pear, the **Early Pears catch the dollars**. Considered from this standpoint **Harvest King** fills the bill. In size it is fully as large as Clapp's Favorite, handsome golden yellow, with beautiful carmine cheek, quality very good for an early Pear; does not rot at core. The cardinal merits we claim for **Harvest King** are, its extreme earliness, being six days earlier than any other Pear known; freedom from all disease, early bearing, large size of fruit, and great productiveness. All other early Pears are lacking in one or more of these essential qualities.

It is a well known fact that the first shipments of Pears, early in the season, bring extremely high prices, \$5.00 per barrel being usually obtained, the market quickly declining fully one-half. The **Harvest King** can all be marketed before other early sorts are fit. Add to this its entire freedom from blight, or any other disease, its great value must at once be recognized.

Everything considered, **Harvest King** is the most desirable and profitable Pear known at this time, and we offer it with full confidence as the best very early Pear yet produced.

Price, first-class trees, 5 to 6 feet, each \$5.00.

Positively no reduction will be made on larger lots.

We are the only firm owning or introducing the **HARVEST KING PEAR**. Any stock offered by others is spurious.

We take pleasure in referring in full confidence to the following as to our standing and reliability:

R. G. DUN & CO., MERCANTILE AGENCY, Trenton, N. J.
FIRST NATIONAL BANK, Somerville, N. J.

READ CAREFULLY SPECIAL OFFER BELOW.

SPECIAL OFFER. In order that **HARVEST KING** may be tested at once, and absolutely without cost by everyone, we will include **FREE** one first-class tree of **HARVEST KING PEAR** with all orders of **\$5.00** or over, with **CASH ENCLOSED**, received by **APRIL 1, 1899**. Such a liberal offer we believe has never before been given on any **new fruit** by any one. Orders may be made up of any nursery stock we offer.
