Book No. 16

H. A. ALLARD

FIELD COLLECTION NUMBERS

20360-21707

3000 7th. N. Arlington

Allard, H. A. Virginia and 1952-1953.
 Maryland
Book 16.

Field Notes nos. 20360 - 21707.
(Journal notes in back pocket.)

(These Nos. were duplicated in moss collections
in Peru. See two field books in moss lab.
Sept. 1967.)

50174

Manufactured by
U. S. Government Printing Office

Panicum Buzzard Mt., Va
Culpeper Co.
6/8/52
H.A. Allard
20360 on rocky
ledges in
thin soil

20361 *Tephrosia*
In dry, thin soil
on top, near # 20360
diabase ditto

20362 Roadside - manzanita
sand stones, shales
near stone house.
route 211 *Rosa carolina* L.
f. *glandulosa* (Crispin) Fernald ditto

20363 Near # 20362
Thalictrum
In low woods. Near # 20362
diabase ditto

20364 ~~*Thalictrum*~~ *Oenothera*
with # 20363
top of Buzzard Mt.
thin woods, diabase ditto

20365 *Quercus stellata*
with # 20363
diabase ditto

20366 *Thalasspi*
By Railroad near
Mitchell - diabase ditto

20367 *Lepidium*
Near # 20366 ditto

20368 *Silene*.
By railroad near
Mitchell, Culpeper Co., Va
diabase 6/8/52
H.A.A. }

20369 *Achillea millefolium*
Roadside near Stone house route 211 ditto
shales & sandstones. Common
Fauquier Co.

20370 *Carex*.
with # 20369 - roadside ditto

20371 *Senecio smallii*
with # 20369 ditto

20372 *Verbascum blattaria*
fl. white
with # 20369 ditto

20373 *Pentstemon*; fl. white
Large patch near # 20369 ditto
in low pasture meadow
2 mi. beyond Stone house, route 211

20374 *Pinus echinata*?
Rocky soil near top Buzzard Mt ditto

20375 *Clematis*
Thin woods slope
Buzzard Mt. Va
diabase ditto

20376 *Hamamelis virginiana*
Rocky woods near top Buzzard Mt.
Culpeper Co.
diabase ditto

Pentstemon; fl. white 6/8/52
in old pasture, damp soil foot H.A.A.
20377 Buzzard Mt.
Culpeper Co., Va
diabase

20378 *Prunus*
Slope Buzzard Mt ditto
rocky soil - diabase -
first peak.

20379 *Polypodium vulgare* L. var. *virginianum* ditto
in crevices of ledge on Buzzard Mt near top. diabase

20380 *Carex*
Near # 20379 ditto

20381 *Houstonia*
Top near # 20379, in
woods; diabase ditto

20382 *Fragaria*
Near # 20379
diabase.
at top Buzzard Mt -
first peak ditto

20383 *Fragaria*
Near # 20382 ditto
Both very large trees

Finaspinus
X Top Buzzard Knob
Culpeper Co.,
diabase.
large tree
6/8/52
H.A.

20384
20385 *Chimaphila maculata*
Top Buzzard Mt.,
in woods -
frequent diabase ditto

20386 *Vitis*
Top Buzzard Mt.,
near # 20384 ditto

20387 *Scleria*
Top Buzzard Mt. in
rocky woods near # 20384 ditto

20388 *Asplenium*
in crevices of ledge
near # 20384; frequent ditto

20389 *Panicum*
in rocky soil in woods
near # 20384 ditto

20390 *Euphorbia*
Foot Buzzard Mt.,
diabase
in cut-over woods of
pasture ditto

✓ *Apocynum*
in opening in woods near foot
Buzzard Mt.,
diabase.
6/8/52
H.A.

20391
20392 *Carex*
with # 20391 -
open woods, damp soil
diabase ditto

20393 *Cyperus*
foot Buzzard Mt., Va
wet soil, near # 20392 ditto

20394 *Bromus*
Foot Buzzard
near # 20392 ditto
abundant

20395 *Vicia*
foot Buzzard Mt. - open
waste ground by roadside
frequent diabase ditto

20396 *Eleocharis*
wet soil foot Buzzard Mt.
in woods near # 20393 ditto
diabase

20397 *Lepidium*
foot Buzzard Mt. in
waste ground
diabase ditto

Panicum
in open ground along road
road, foot Buzzard Mt.
20398 diabase
6/8/52
H.A. Allard

20399 in wet soil
foot Buzzard near
20398
diabase

20400 *Galium*
with # 20399
diabase

20401 *Lonicera japonica*,
foot Buzzard Mt.,
in open waste ground
Exceedingly common. Very fragrant

20402 *Spicularia perfoliata*
foot Buzzard in opening in
woods. diabase

20403 *Lathyrus latifolius*
Near old sawmill in open
ground; abundant here.
diabase - foot Buzzard Mt.

20404 *Quercus prinus*
Top Buzzard Mt
diabase
6/8/52

ditto

ditto

ditto

ditto

ditto

grass
Top Buzzard Mt.
in thin, dry, rocky soil
20405 diabase
6/8/52
H.A.9

20406 grass.
with # 20405

20407 *Parthenocissus*
Near # 20405
diabase
Common.

20408 *Pyrola rotundifolia*
var. *americana*
wooded slope
Buzzard Mt.
diabase

20409 wooded slope - top
Buzzard Mt.
diabase. By railroad
near # 20405 on bank
near Mitchell - infrequent

20410 *Viburnum recognitum*
In Allard's yard
3000-7th St., north, Arlington 1, Va
6/12/52. Very floriferous, fragrant

20411 *Ligustrum* - growing at
Perkins Drive and Darfield St., Arlington
Lyon Park, Va. 6/13/52.
In park full flower. (see printing specimens)

ditto

ditto

ditto

ditto

Liparis liliiflora -
Buzgard Mt in woods at
20412 foot - 6/8/52

several plants here.
diabase 6/8/52
infrequent here H.A.A.
and elsewhere in area.

20413 *Opuntia humifusa*
on rocks and ledges top of
Buzgard; diabase ditto
Local here; infrequent in
area.

20414 *Commelina*
On rocks on top of Buzgard - ditto
with # 20413

20415 *Brassica* 2
Allard's garden 6/14/52

20416 Floating in dense mats
in Limestone Branch near
highway #15 6/15/52
border cong. H.A.A.
Loudoun Co.

20417 *Crataegus*
On cong. ledges in pasture
near Limestone Branch 1 mi ditto
Near # 20416

20418 *Fragaria*
Long Limestone Branch ditto
1 mile. Limestone cong.

Brown
along Limestone Branch near
20419 highway 15 6/15/52
cong. H.A.A.
Loudoun Co.

20420 *Medicago (alfalfa)*
Near # 1 mi. down Limestone Br.
in old pasture. ditto

20421 *Hedeoma* 3
Near # 20417 - on
cong. cliffs. ditto

20422 *Malva*
On cong. ledges
along Limestone Br. ditto
near # 20417

20423 *Diodia*
pasture on cong. ledges
1 mi. down Limestone Br. ditto
from #15 highway

20424 *Leonurus cardiaca*
Near # 20417 ditto

20425 *Geranium*
On cong. ledges near
20417. ditto

Pellaea atropurpurea (L.) Link
On cong. ledges in crevices
20426 1 mi down Limestone Br.
Rare in area - confined
to limestone ledges 6/15/52
H.A.A.

20427 *Fraxinus* - 1-1 1/2 mi.
down Limestone Br. from
route 15. In recent soil
on cong. ditto

20428 *Staphylea trifolia*
with # 20427
along stream of Limestone Br. ditto

20429 *Nerandera*
on cong. ledges near
Limestone Br. 1-1 1/2 mi down
stream from # 15. Locally abundant
here. ditto

20430 *Ruellia strepera*
fl. purple, in shaded
wooded bottom foot of cong. cliffs
where abundant; full bloom. ditto

20431 *Ruellia strepera*
fl. white; several in a
scattered colony; near # 20430 ditto
Rare.

20432 *Sabip*
along Limestone Br.
1 mi down stream from # 15.
cong.

Ranunculus
wet soil along Limestone Br.
20433 1 mi. down from # 15. 6/15/52
Frequent here. H.A.A.
cong.

20434 *Carex*
On cong. soil on
cong. cliffs near # 20433 ditto

20435 *Acalypha*
on cong. ledges 1 mi. down
Limestone Br. from # 15 ditto

20436 *Ailanthus*
with # 20417. ditto

20437 *Verbascum blattaria*
fl. yellow.
In old field 2 mi. down
Limestone Br. frequent. ditto

20438 *Carpinus*
1 mi. down Limestone Br.
cong. from # 15 ditto

20439 *Albizia*
Near # 20438
cong. ditto

In pasture - along Limestone Br.,
1 mi. down from #15
20440 *Cong.* 6/15/52
H.A. a

20441 Large tree
on bank - near # 20440
Cong. ditto

20442 *Fraxinus*
near # 20440
Cong. ditto

20443 *Carex*
In wet soil along
Limestone Br., near #15 ditto

20444 *Solanum ~~nigra~~ dulcamara*
In damp thickets near
20443 ditto
Cong.

20445 *Sambucus canadensis*
On limestone ledges 1 mi.
down Limestone Br. from #15 ditto

20446 Grass
In old pasture 1 mi.
down Limestone Br. from
#15 *Cong.* ditto

✓ *Nasturtium officinale*.
fl. white.
In wet soil on banks of
20447 Limestone Br., near #15 6/15/52
Local. H.A. a
Cong.

20448 Bush form of poison Rhus.
near # 20447 - along
Limestone Br., near #15 ditto
abundant here.

20449 *Fraxinus*.
along Limestone Br. on
bank - near #15, ditto
Cong.

20450 *Panicum*
In damp soil, near
20449 *Cong.* ditto

20451 *Bromus*
near # 20450 ditto
Cong.

20452 *Carex*.
In wet soil near
20448 ditto
Cong.

20453 *Cyperus*.
In wet soil near # 20448 ditto

Carex.
In wet soil near #15 near
Limestone Br.
20454 Cong. 6/15/52
H.A.G.

11
20455 Silene
fl. white
along bank Limestone Br.
near #15 Cong.

20456 Sissymbrium
On cong. ledge near
Limestone Br. and
near #15 Cong.

20457 Arenaria
on thin soil on cong. ledges
near #20456 - common
here. Cong. ditto

20458 Aquilegia
on cong. cliffs 1 mi.
down Limestone Br. from #15
Cong. ditto

20459 Trifolium
On cong. ledges 2 mi.
down Limestone Br. from #15
Cong. ditto

20460 Polygonum
In damp soil on bank
Limestone Br. 1 mi. down from
#15 Cong. ditto

Verbascum Thapsus

On cong. cliff 1 mi. down
20461 Limestone Br. from #15
Cong. ditto
Common.

20462 Oxalis
On bank on route 15
at Limestone Br.
Common
Cong. ditto

20463 Pentstemon
fl. white, along
Limestone Br. 2 mi. down
from #15 Cong. ditto
Near Goose Creek, roadside

20464 Plantago lanceolata
Roadside with #20463
diabase ditto

20465 Melilotus alba
Roadside with #20463
Near Goose Creek - diabase ditto

20466 Erigeron annuus
with #20463
diabase ditto
Common everywhere.

20467 Gratiola
In muddy soil and water
1 mi. down Limestone Br. from
route 15 Cong. ditto

Pentstemon
fl. white 1 1/2 mi. down
Limestone Br. from route 15
20468 frequent in area
Cong. 6/15/52
H.A.A.

20469 Lanius purpureum
On cong. ledge near ditto
#20468. frequent in area
and locally abundant.

20470 Papaver
In pasture on cong. ledges ditto
fl. orange-red. 1 1/2 mi. down
Cong. Limestone Br.
Occasional, from #15

20471 Elymus
Near #20470 in old field. ditto
cong.

20472 Urtica fulva.
Near Limestone Br. 1 mi. ditto
down from #15
Cong.

20473 Dianthus armeria
old field near #20470 ditto
cong.
Common everywhere
in field.

20474 Pileum pratense.
In pasture - common ditto
near #20470
Cong.

Grass
In old field near #20470 6/15/52
H.A.A.

20475

20476 Diodia
In old field, 2 mi. down
Limestone Br. from #15 ditto
Common in old fields & pastures

20477 Juncus
In old field near #20476 ditto
Common in area.
Cong.

20478 Juncus.
In old field near #20476 ditto
Cong.
Common in old fields etc

20479 Quercus alba (enormous tree)
In fence row - ditto
Cong. near #20478
Common in area.

20480 Allium commun
In old field with #20477 ditto
Very common in area.
Cong.

20481 Rumex acetosella
In old field with #20477. ditto
Very common throughout.
Cong.

Carex in old field 2 mi. down
Limestone Br. from #15 6/15/52
H.A.A.
20482 Common in dry pastures
etc. Cong.

20483 Carex
Near # 20482
In old field.
Common. Cong.

20484 Carex
In old field near # 20482
Frequent.
Cong. ditto

20485 Rubus - plant A. primo
Floricaue and veg. same
In fence row near # 20482
Common in area ditto

20486 Smilax. plant A
Near # 20482. at foot
cong. ledge. ditto

20487 Haulkera
On cong. ledge
near # 20482 ditto

20488 Acalypha
On cong. ledge
near # 20482 ditto

Menispermium canadense
Foot cong cliffs in shaded
20489 woody bottom. 2 mi. down
Limestone Br. from #15 6/15/52
H.A.A.
Cong.
Local -

20490 Celtis.
2 mi. down Limestone Br.
on cong. ledge near # 20489. ditto
Frequent.

20491 Fern asplenium ruta-muraria L.
on cong. ledges in var. dignis
verices near # 20489 (Fini) Whung ditto
In frequent

20492 Viola
In moist bottom (wooded)
at foot ledges with # 20489 ditto

20493 Asplenium
on ledges (cong) with # 20489 ditto
Frequent.

20494 Asplenium
with # 20489 - in verices
of cong. ledge. ditto
Infrequent.

20495 Carex.
On cong. shelf near
20489. ditto

Aquilegia canadensis 6/15/52
✓ on cong. ledge 2 mi. down
Limestone Br. from #15 H.A.A.
20496 occasional,
cong.

20497 *Pellaea atropurpurea* ditto
on cong. ledge with
20491, 20493, 20494
2 mi. down Limestone Br. from #15
infrequent.

20498 *Ruellia strepens* ditto
fl. purple. Large colonies
in moist bottom foot cong. cliffs
near #20496. Locally abundant here,
very showy.

20499 *Asimina triloba* ditto
Near #20498
Frequent in moist bottom
land etc.

20500 *Ruellia strepens* ditto
fl. white -
near #20498
infrequent cong.

20501 *Oxalis* ditto
In old field near #20498

20502 *Fraxinus* ditto
Near #20498
cong.

? *Dioclea*
✓ In old field 2 mi. down
20503 Limestone Br. from #15
cong. 6/15/52
common in old fields. H.A.A.

20504 *Crataegus*
On cong. ledge
2 mi. down Limestone Br. from #15 ditto
20505 *Verbascum blattaria* bl. yellow ditto
Near #20503 - frequent in
old fields. cong.

20506 *Carya*
On cong. cliffs
2 mi. down Limestone Br. from #15 ditto
cong.

20507 *Nepeta cataria* ditto
on limestone cong. ledge
near #20506
frequent.

20508 *Tilia*
In ground of Henry School,
corner of 7th and Garfield N.,
Arlington, Va. 6/19/52
H.A.A.

20509 *Ligustrum*
In park corner of Pershing
Drive and Garfield St. N.,
Arlington, Va. 6/19/52
(See 20411 also. H.A.A.)

20510 *Cornus*
On left bank Cub Run 6/22/52
near #route 211. H.A.A.
Diabase.
Frequent.

Liquidambar styraciflua 6/22/52
On Cub Run near #211
20511 Frequent here and
along this stream.
diabase.

20512 *Heuchera*
1 mi. down Cub Run from 211
right bank; frequent ditto
diabase

20513 *Gonolobus decipiens* ³
In waste ground thickets
on Cub Run near #211 ditto
diabase. Rare in area. ^{small} red
turns contra-depressi

20514 *Allium canadense*
On flood plain (alluvial soil)
Reel/ - 2 mi down Cub Run ditto
frequent.

20515 *Platanus occidentalis*
on Cub Run at #211
diabase ditto
common in flood plain areas
throughout

20516 *Apocynum*
In waste ground on Cub Run ditto
at #211. diabase

20517 *Vitis*
Near #20515 ditto
diabase
Frequent in area.

Dioscorea quaternata
In woods left bank Cub Run 6/22/52
20518 1 1/2 mi. down stream.
Frequent in woods in H.A.A.
area diabase

20519 *Heuchera*
1 mi. down Cub Run on
rocks on bank (left) ditto
diabase.

20520 *Heuchera cornuta*
On rocks 1 mi down Cub Run ditto
diabase right bank.
6/22/52 Frequent.

20521 *Graminaceae*
1 1/2 mi. down Cub Run ditto
on bank - near #20520
diabase

20522 *Clay*
On bank Cub Run ditto
near #20520. frequent.
diabase
(full flower)

20523 *Hypoxis*
1 1/2 mi. down Cub Run ditto
on bank of flood plain
near #20520; frequent

20524 *Viburnum recognitum* ditto
Near #20520
Frequent -
diabase. (last fl.)

Pedicularis canadensis 6/22/52
On blood plain soil H.A. a }
20525 1 1/2 mi. down Cut Run
from #211
- diabase - and recent.
Infrequent in area.

20526 *Celtis*
Near #20525 - ditto
on bank - diabase & frequent

20527 *Polystichum acrostichoides* (Michx.) Sch. #1
on wooded bank - ditto
diabase 1 1/2 mi. down Cut Run
from #211
Common.

20528 *Nyctrip patula*
In open woods on bank Cut
Run near #20527. ditto
Frequent. diabase

20529 *Ulmus fulva*
on bank near #20526 - ditto
frequent diabase

20530 *Scutellaria*
In rich decid. woods ditto
1 1/2 mi. down Cut Run
diabase. Frequent. scattered
bl. purplish blue.

20531 wet spot in woods *Carex*
1 1/2 mi. down Cut Run from ditto
#211 diabase

✓ *Carex* - in dry-deciduous 6/22/52
woods 1 1/2 mi. down Cut Run. H.A. a }
20532 diabase from #211.

20533 *Galium*. In dry woods
near #20532 - ditto
Frequent
diabase.

20534 *Pure white barn*
Scutellaria
In rich decid. woods 1 1/2 mi.
down Cut Run from #211 ditto
Infrequent - small colony. diabase

20535 *Viola*.
In wet spot near ditto
#20534 - occasional
diabase.

20536 Umbellifer
In rich woods ditto
near #20534
Frequent - diabase.

20537 *Gramineae*
In woods right bank ditto
Cut Run 1 1/2 mi. down stream
from #211 diabase.

20538 *Rhus aromatica*
In rich woods 1 mi. down ditto
Cut Run - right bank - from #211
diabase -
Local.

in rich woods ^{Liliaceae}
1 mi. down Cub Run - right bank 6/22/52
from #211 - past fl. H.A.A.
20539 *diabase*
infrequent.

20540 *Grass*
Near #20539
diabase.

20541 *Botrychium virginicum* (L.) Sm.
in rich woods near #20539
Frequent
diabase.

20542 *Viola*
in moist woods 1 mi.
down Cub Run from #211
Petioles glabrous.
diabase.

20543 *Erigeron strigosus*
in woods 1 mi. down Cub Run
from #211 *diabase*
Common throughout area

20544 in waste ground on
Cub Run at #211.
Common.
diabase *Trifolium*
bl. pink

20545 *Eleocharis*
in wet spot soil near Cub Run
at #211 *diabase*

✓ *Juncus* 6/22/52
with #20545 H.A.A.
20546 *diabase*.

20547 *Cichorium intybus*
bl. blue.
along Cub Run along #211
Very common
bull bl. *ditto*

20548 *Rubus serotina*
in waste ground thickset
along Cub Run, near #211.
Very abundant, showy, here
diabase.

20549 *Oxalis europaea* *forma*
agrosa along #211
Near #20547. at Cub Run.
Very common. *diabase*.

20550 *Triticum aestivum*
common wheat
along 211 - at Cub Run.
occasional. int. *ditto*

20551 *Speularia perfoliata*
Thicket with #20548
Common.
bl. blue. *diabase*.

20552 *Scutellaria*
Damp soil, waste ground
with #20548 - Considerable
colony here; bl. blue.
diabase *ditto*

yellow *Trifolium*
on bank along #211
at Cut Run.
Common.

6/22/52
H.A.A.

20553

20554 *Scirpus*
wet soil along Cut Run
at bridge #211 diabase

ditto

20555 *Carex*
with #20554 - large
clumps in wet soil
diabase

ditto

20556 *Labiatae*
In waste ground on Cut Run
at #211
diabase.
Common.

ditto

20557 *Plantago aristata*
Dry soil along Cut Run
at #211 diabase
Common (det.)

ditto.

20558 *Spergularia rubra*
with #20557.
Frequent.
fl. waxy colored

ditto

20559 *Rosa*
In thickets along Cut Run
near #211
diabase
Frequent

ditto

Quercus bicolor
on flood plain Cut Run
near #211.
Frequent in damp
low ground recent

6/22/52
H.A.A.

20561 *Agrimonia*
In moist flood plain
woods on Cut Run near
#211 Frequent.

ditto

20562 *Carpinus*
1 1/2 mi down Cut Run
from #211
Frequent
along streams. diabase

ditto

20563 *Fern*
On diabase ledge
1 mi. down Cut Run from
#211. Local

ditto

20564 *Woodsia obtusa* Tong
moist soil on banks
diabase - and recent soil
1 1/2 mi. down Cut Run from
#211. Recent.

ditto

20565 *Vaccinium* Edge Cut
Run - on wooded banks 1 1/2 mi.
down from #211.
Infrequent.
diabase.

ditto

20566 *Carpinus*
Near #20562
along stream
diabase.

ditto

Juncus
Recent soil - on bank of Cut Run
1 1/2 mi down from #211. 6/22/52
H.A.A.

20567

20568 *Panicum*
Recent soil on bank
near #20567

20569 *Quercus palustris*
Bank Cut Run
1 1/2 mi. down from #211
Scattered in usually
moist soil - diabase

20570 *Alnus*
1 1/2 mi. down Cut Run -
diabase - moist soil
Common in such situations
throughout -

20571 *Salix*
In flood plain soil -
near #20570
Frequent along streams in
area.

20572 *Asplenium platyneuron* (L.) Oakes
On diabase rock 1 mi.
down Cut Run from #211
frequent.

20573 *Galium*
In decid. woods
bank Cut Run 1 mi. down stream
from #211 frequent.
diabase.

Coreopsis verticillata
In woods (rich) - diabase, 6/22/52
H.A.A.
20574 down Cut Run 1 mi. from
#211

20575 *Baptisia tinctoria*
In recent soil 1 1/2 mi. down
Cut Run from #211
Common etc

20576 *Panicum*
Near #20575 - recent soil

Recent soil - near #20576

20578 *Panicum*
Recent soil - near #20576

20579 *Panicum*
Recent soil. Near #20576

20580 *Hypoxis hirsuta*
Recent soil. Near #20576

20 *Panicum*
1 mi. down Cub Run from #211 6/22/52
Recent, alluvial soil H.A.G.

20 20582 *Carpinus*
1 1/2 mi. down Cub Run from #211, on bank - recent, flood plain soil. ditto

2 20583 *Polygonaceae*
In water and mud in almost dry stream bed of Cub Run 1/2 mi. down from #211. Very abundant here; not in fl. on recent, alluvial soil ditto

2 20584 *Fraxinus*
Near #20582 - on bank - diabase frequent ditto

2 20585 *Cephalanthus occidentalis*
In wet, recent flood-plain soil near #20582 ditto
Frequent in such situations. Not in flower

20586 *Tiny Scirpus*
Forming dense green, grass-like mats on mud of recent, alluvial soil 1 mi. down Cub Run from #211 ditto
Rare. My first find.

20587 *Scutellaria*
In woods 1 mi. down Cub Run from #211 ditto
diabase. fl. blue frequent.

20588 *Rufus*
Trailing in decid. woods - plant A. florivane and primocane 6/22/52
infrequent. H.A.G.
diabase

20589 *Trailing Rufus*
near #20588 ditto
In decid. woods; diabase Plant C. primo - and florivane

20590 *Desmodium rotundifolium*
In dry woods near #20588 ditto
Frequent. Diabase. Not in fl.

20591 *Vaccinium*
In woods 1 mi. down Cub Run from #211. ditto
diabase.

20592 *Ilex*
1 mi. down - on bank (diabase) near #20591 ditto

20593 *Gerardia*
In dry woods near #20589. frequent. ditto
diabase. Not in fl.

20594 *Panicum*
In woods in same 1 mi. down Cub Run from #211. ditto
diabase.

Frequent. 7/27/52
H.A.A.

20743 *Lobelia cardinalis*
In wet soil along same
branch of Broad Run near
R.R. station at Haymarket.
Locally frequent.

20744 *Sparganium*
In mud and water
near # 20743.
Recent.

20745 water plant -
Podostemaceae.
In water of branch of Broad Run
near # 20741

20746 *Muhlenbergia scandens*
In low ground thick along
branch of Broad Run, near
20743, frequent in similar
situations in area. Recent

20747 *Quercus velutina*
1 mi. up Young's Branch from
211. Red shales & S.S.
Frequent in area.

20748 *Saxifraga*
In swampy woods
with # 20742. Recent
Common.

Microstylum dubia

On Va. side of Potomac River
20749 at Conrad's Ferry off route #15
beyond Leesburg. In mud and
wet soil at river's edge. Conglomerate
frequent. (H.A. Allard)
London Co. Aug. 3, '52

20750 *Equisetum arvense* L. ditto
with #20749

20751 *Mollugo verticillata*
with #20749 ditto
common.
In wet soil.

20752 *Lindernia dubia*
Near #20749 ditto

20753 *Echinochloa*
In wet, moist soil at
big spring on route #15 beyond
Leesburg. Conglomerate ditto

20754 Grass.
just above #20749 ditto
on Potomac on moist bank
forming mats.

20755 *Lemma minor*
a single root. Very abundant
in big spring on route #15 just
above Leesburg. Floating. ditto

✓ On bank of Potomac, Virginia side
near Conrad's Ferry off #15, from
Leesburg, Loudoun Co. Va. 8/3/52
H.A.A.

20756 frequent
Conglomerate
Aporhynchus cannabinum

20757 *Chenopodium ambrosioides*
var.
strong turpentine odor; not in fl.
Near #20756. 8/3/52

20758 *Galinsoga ciliata*
Near #20756 ditto
Frequent.

20759 *Rorippa*
fl. yellow. ditto
on river bank near Conrad's
Ferry near #20756 frequent.

20760 *Lippia lanceolata*
fl. whitish to pinkish
frequent ditto
In moist soil of bank near
#20756.

20761 *Celtis*
1/2 mile above Conrad's Ferry ditto
on Va side.

20762 *Staphylea trifolia*
on edge of thicket of field ditto
just above Conrad's ferry.
Conglomerate
frequent.

Celtis
near Conrad's ferry along Va
side of Potomac River along
20763 old field. 8/3/52
conglomerate ledges
outcropping. H.A.9

20764 *Impatiens biflora*
corolla orange with some
spattering within
on banks of Potomac River just
above Conrad's ferry off #15 ditto

20765 *Echinosyris lobata*
High climbing over thicket
near #20764. Occasional
monoecious. ditto

20766 *Eupatorium*
fl. pale lilac;
stem hollow, very glaucous.
Common. with #20765 ditto

20767 *Cryptotalia canadensis*
In rich woods 1 mi north of
Conrad's ferry on high ground along Potomac.
Frequent. Conglomerate. ditto

20768 *Convolvulus sepium*
fl. white.
High climbing over thickets
near #20766. Common. ditto

20769 *Laportea canadensis*.
In thicket 1 mile above Conrad's
ferry on Va. side of Potomac River.
Common; very prickly and
irritant when touched. ditto

Scutellaria lateriflora. 8/3/52
along Va bank of Potomac River H.A.9
1 mi above Conrad's ferry.
20770 off route #15. Conglomerate
Frequent. fl. blue.

20771 *Asclepias rubra*
In damp soil in thicket
on bank near #20770 ditto
Frequent.

20772 *Euphorbia repens*.
In moist soil, bank of Va. side of Potomac above
Conrad's ferry. Common ditto

20773 *Aralypha rhomboides*
On bank just above
Conrad's ferry, Va. side of Potomac.
Frequent. Conglomerate. ditto

20774 *Humulus japonicus*
Climbing over thickets near
#20770. ditto

20775 *Brassicaceae*
fl. yellow.
At Conrad's ferry, Va. side Potomac
off route 15 from Leesburg.
Conglomerate. ditto

20776 *Ambrosia trifida*.
1 mi above Conrad's ferry on
Va side of Potomac; common; just
in flower. Conglomerate ditto

Urtica

8-3/52
H.A.A.

20777 1 mi. up Va. side of Potomac river
in thicket from Conrad's ferry,
off route #15 from Leesburg, Va.
Conglomerate
Common

20778 Mentha pernum canadense
with # 20777

20779 Hydrocotyle americana
Near Conrad's ferry, Va. side
Pot. river, off route #15 from Leesburg
Conglomerate.
Frequent.

20780 Physalis subglabrata bl. with yellowish center
1/2 mi. up Potomac river from
Conrad's ferry off route #15 from Leesburg,
Va. Common. Conglomerate

20781 Apocynum cannabinum
Near Conrad's ferry on Va. side
of Potomac river off #15 from Leesburg, Va.
Conglomerate -
Common.

20782 Labiatae - Tenarium canadense L.
fl. lilac. var. virgicum (L.) Eat.
on bank Potomac river, 1 mi.
above Conrad's river, Va. side, off #15
from Leesburg. Occasional
Conglomerate.

20783 Salix (tree)
near # 20777. Salix nigra
Frequent.
Leaves falcate.

ampelamus albidus

20784 High climbing vine everywhere
around Conrad's ferry, Va. side
Potomac river, off #15 from
Leesburg, Va. Conglomerate
abundant here; fl. white

20785 Acer negundo
above Conrad's ferry, Va. side
of Potomac river, off route #15 from
Leesburg. Frequent.

20786 Articaceae
Near # 20785 - in thicket
Frequent - along bank Potomac.
Conglomerate

20787 Broussonetia
Near # 20785 -
Frequent.

20788 Ruellia strepera
Near 20781 in moist soil
Frequent - Numerous cleistogamies
(whitish) in upper leaf axils.

20789 Perilla frutescens
with # 20781
Common.

20790 Eupatorium fistulosum
Plant 13 - sections top - middle
and low. fl. pale pinkish-lavender
Frequent -
Near # 20777. Conglomerate.

Hibiscus militaris -
+ near Conrad's ferry off
20791 route 15 from Leesburg, 8/3/52
on Va side Potomac river, Va.
Conglomerate; shony,
flowers pink with dark center
Frequent

20792 *Phytolacca americana*
Near # 20791
Common

20793 *Vitis vulpina*
above Conrad's ferry
1/2 mile, Va. shore of Potomac
Conglomerate.

20794 *Eupatorium* - Plant A.
Near # 20792
In thicket on bank of Potomac

20795 *Sedum ternatum*
on conglomerate ledges near
Conrad's ferry -
Conglomerate; frequent

20796 wet soil by quarry pool
Buzzard Mt. 8/19/52

hirsuta
in dry soil near # 21029
frequent ditto

21042 Quercus stellata
just west of Goose Creek
and near route #7.
frequent ditto

Hypoxis hirsuta (9/7/52)
Diabase
H. & A.
In pine woods.
21043 near route #7 just west
of Goose Creek
Frequent

21044 *Bidens aristosa*
typical
anthers upwardly barbed ditto

21045 *Bidens aristosa*
var. *mutica*
anthers rudimentary or wanting.
intermingled with # 21044 ditto
Frequent

21046 *Quercus falcata*
In pines near # 21043 ditto
Frequent

21047 *Bidens aristosa*
var. *Fritcheyi*. ditto
In same colony with # 21044
anthers retrose, barbed

21048 *Panicum* ditto
In open pine wood near
21043 Frequent.

21049 *Hypericum gertianoides* ditto
In dry soil in open
deciduous woods near
route #7 just west of Goose Creek
Frequent.

Trichostema dichotomum 9/7/52
Diabase
Loudoun Co.,
H. & A.
In dry soil
21050 near 21049
Frequent.

21051 In dry soil
near # 21049 ditto
Frequent

21052 *Eupatorium coelestinum* ditto
In open pine woods
near 21043.
Frequent.

21053 *Stylosanthes biflora* ditto
In dry soil near route 7
just west of Goose Creek
Frequent

21054 *Sorghastrum nutans* ditto
On dry bank near 21053
Common.

21055 *Santhus brachiatus* ditto
In dry pasture near
route #7 just above Goose
Creek.
Frequent.
In dry soil

21056 *Lepedeza* ditto
In open pine woods on bank
near route 7, just west of Goose Creek
Frequent
O-L almost oval leaves.

Empatorium altissimum 9/17/52
In dry soil in open pine
21057 wood near white
just west of Goose Creek,
frequent. Diabase
H.A.A.

21058 *Cladonia*
Red apothecia - very ditto
shamy
In pine woods near
21057 frequent.

21059 *Aristida*
In dry, sterile soil near ditto
21057 frequent.

21060 Grass
In dry soil near # 21059 ditto
frequent

21061 *Polygonum punctatum* W. ditto
fl. white var.
In moist spot in pines
near # 21057 Common

21062 *Lepedogon*
Tall - narrow based ditto
In pines, dry soil near
21057 Common

21063 *Prenanthes serpentaria*
In dry soil in pine woods ditto
near # 21057
frequent
Pappus - cream.

Paspalum 9/14-52
In wet spot on Limestone H.A.A.
Branch near route 15
21064 conglomerate.

21065 *Panicum cruz-galli* ditto
with # 21064.
On limestone Branch near
21064 Conglomerate
Common.

21066 *Cirsium* ditto
Conglomerate

21067 *Oxalis* ditto
On Limestone Branch
near route 15
Near # 21064 Common

21068 On undifferentiated
Cambrian - or up to 15
Va side at Point of Rocks, in
ledge, outcrop and talus. ditto
(later) frequent

21069 *Eupatorium* ditto
rays white
with # 21068
Not frequent in area.

21070 *Euphorbia* ditto
On Limestone Branch
1/2 or more down stream from
route 15. frequent
Conglomerate

Leersia
On Limestone Branch
near route 15 in
21071 wet spot.
Conglomerate
Frequent.

21072 *Chenopodium album*
along Limestone Branch ditto
near # 21071 Conglomerate
Common

21073 *Chenopodium anthracinum*
near # 21071
Common
Conglomerate ditto

21074 *Perilla*
in waste ground near
21071 Frequent

21300 In damp soil in open
woods north of route 7, and
east of Goose Creek -

Barbarea verna (mill.) Aschers.

ditto

21301 *Deutaria heterophylla* Michx.

Down Goose Creek below route 7,
left bank in red sandstone soil.
Colony in full bloom - much later
than *D. laciniata* and less common

also *Viola cucullata*
ditto

4/22/53

Ligustrum vulgare L.

Frequent along Goose Creek
left bank down stream

21302 from route 7. Escape

4/22/53

21303 *Luzula echinata* (immature) *var. virginica*

2 miles down Goose Creek
from route 7. On dry wooded
slope red sandstone

ditto

also an immature sedge *Carex*: *Oxalis*.

21304 *Carex communis* Dewey

Near #21303 -
same locale.

ditto

Common
Red sandstone

21305 *Lilium rubra* in

fruit. On red sandstone
knob near #21303

ditto

Frequent

21306 Green alga *Scenedesmus* 2

In shallow pool at quarry
at bridge over Goose Creek
on route 7. Diabase quarry.

ditto

21307 *arabis*

along Goose Creek down stream
from route 7; frequent; full flower.

ditto

21308 *Arabis laevigata* (mill.) Poir.

along Goose Creek down from
route 7, left bank - alluvial
soil. Frequent.
Full bloom.

ditto

Senecio aureus L.
Left bank down Goose Creek
from route 7. Alluvial 4/22/53
21309 or recent
Frequent; full bloom.

21310 *Oxalis filipes* Salisb.
In crevice at diabase quarry ditto
on Goose Creek at bridge on
route 7. Occasional. Very showy

21311 *Phacelia rannunculaea* (Nutt.)
In Allard's garden, appearing
spontaneously year ago. Full flower
4/23/53

21312 *Marek* - In moist upland deciduous
woods east of Goose Creek
and 1-1 1/2 mi. north of route 7. 4/26/53
Very common on flood plain here
also in deciduous woods. H.A. Allard.

21313 Mature plants of
Cardamine hirsuta L. 4/29/53
In Allard's garden in front yard.
Spontaneously appeared in numbers for first
time in 1953.

21314 *Veronica* in Allard's front yard
with # 21313

21315 *Lithospermum canescens* (Michx.)
In dry soil on bank on
route 7 in pines on route 7 to
Leaburg on diabase knof 4/26/53
Lam.

Grass on diabase knof - 1/2 - 1 mile
east of Goose Creek - in moist
soil 4/26/53
21316 H.A. Allard
In deciduous woods,
Melica umbellata Walt.

21317 *Arabis*, ² *Cardamine bulbosa* ditto
In alluvial soil along G. Creek / R.S.P.
brook 3-3 1/2 mi. from route 7.
On diabase soil - fl. white

21318 *Chacrophyllum procumbens* (L.) ditto
In alluvial soil along brook (C) near # 21317

21319 *Utricularia perfoliata*.
In moist soil 1/2 - 1 mile east of
Goose Creek and 1/2 mile north ditto
of route 7. Diabase common
Near Doctheon, copiously (see notes)
6.5-7 ph, soil sticky black clay.

21320 Small blomed *Ranunculus* ~~hispidus~~
with # 21319 - same soil, ph, etc. ditto
6.5-7. Common. *Ranunculus* L.

21321 Large-flowered *Ranunculus* ^{R. hispidus}
with # 21319 - Common in
colonies. ph. 6.5-7. Same soil ditto
above. Common.

21322 *Arisaema atrorubens* (L.) Blume
Tama zebrium, *Jama zebrium* ditto
with 21319, 21320, 21321 - (Sess.) Lam.
Common
ph - 6.5-7 (see notes)

Carex torta Boott
In wet soil along creek (boggy) 4/26/53
diabase $\frac{1}{2}$ -1 mi. East of Goose Creek - H.A.A.
21323 $\frac{1}{2}$ mi. N of route 7.
In clumps.

21324 In woods near Balls
Bluff Cemetery; host fl.
conglomerate 5/3/53
Viburnum prunifolium L. H.A.A.
Common.

21325 Viola pedata L.
Bi-colored: two petals
deep purple and pale yellow
on red sandstone, about 2 mi.
down Potomac from Balls Bluff
common in dry woods.

21326 Polygonatum biflorum (Walt.) Ell.
In woods near # 21325 ditto
Common. Just in fl.
on red sandstone & shale.

21327 Grass. Poa angustata Nutt.
On slope from Cemetery ditto
at Balls Bluff to River below.
Frequent in deciduous woods
Conglomerate.

21328 Fungus on leaves of
Claytonia virginica L. on
top bluff (cong) 2 miles down
Potomac from Cemetery (Balls
Bluff). Rust: Puccinia mariae - wilsoni G.W. Diet.
ditto

21329 Orobanche uniflora L.
Occasional. Near # 21328 ditto
5/3/53

In dry open woods - top
cong. cliffs 2-2 $\frac{1}{2}$ mi down
Potomac from Balls Bluff 5/3/53
21330 Cemetery. Frequent H.A.A.
Carex willdenowii Schb.

21331 Acer saccharum ^{march}
forma glaucum (Schmidt) Pax ditto
On cliffs near # 21330
In frequent or occasional
in area.

21332 Grass. Poa sylvestris a. gray
Near # 21331 ditto
Frequent
on top cong. bluffs (Bickler) Smith.
Also Schenopodium hibernicum

21333 Smilacina racemosa (L.) Desf.
Top of cliffs in woods near
21331 - Red sandstone & shale ditto

21334 Dicentra canadensis (Goldie) Walp.
On cong. cliffs (top) $\frac{1}{2}$ mi
down Pot. R. from Balls Bluff ditto
cemetery. Abundant here -
but very local - (woods)

21335 Viola sororia (Mill.) Willd.
In rich woods with # 21334
Frequent. H. of soil level
7.00-8.00. moist, st. dark brown ditto
loam - rich.

21336 Oxalis violacea L.
with # 21335. ditto
Common. H. 7.00-8.00

Veronica. In woods on top
Cong. bluffs 1 1/2 mi down Pot. R.
21337 from Balls Bluff cemetery 5/3/53
Common *V. hedbergia* L.
fls - 7.00 - 8.00

Near # 21334 - 21336

21338 Carex
with # 21337.
Soil fls 7-8.00

ditto

21339. In same soil
near # 21337.
Frequent. *Carex laxiflora* Lam.

ditto

21340 Trailing Rubus. Plant A.
with tip rooting habit.
Just in flower. In decid.
woods near 21337 - occasional
fls 7.00 - 8.00.

ditto

21341 Root tip of Rubus A above
or 21340 -

ditto

See also 21340

21341 = *Jeffersonia diphylla* (L.) P. R. L. L.

21342 *Asarum canadense*
In dark brown, moist, rich
loam soil at foot Cong. bluffs
1-1 1/2 mi. down Pot. R. from
Balls Bluff cemetery. Common; in large
colonies; full fl.

ditto

21343 *Arabis laevis* (Michx.) S. 5/3/53
on conglomerate cliff. fls. H.A.A.
1 1/2 mi down Pot. R. from
Balls Bluff Cemetery. Frequent

Chelidonium majus L. 5/3/53

On Cong. bluffs with # 21343; strong
21344 Supergent, local. Rare
seen only here on Triassic.

21345 Grass. On alluvial flood
plain 1 1/2 mi. down Pot. R.
from Balls Bluff Cemetery
Frequent. *Poa patens* L.

ditto

21346 *Salix aparinia* L.
with # 21345 - recent,
alluvial; common.

ditto

21347 *Veronica polita*
On dry bank at Balls Bluff
Cemetery - Frequent.
= *V. serpyllifolia* L.

ditto

21348 *Sedum ternatum* Michx.
On rocks in wooded slope
down to Potomac River flood plain
from Balls Bluff Cemetery
Common - on rocks; bluffs.

ditto

21349 *Houstonia purpurea* L.
On dry wooded hillside
down rocky slope to flood plain
of Pot. R. from Balls Bluff
Cemetery. Common.

ditto

21350 *Ranunculus*
of alluvial flood plain
of Pot. R. 1/2 mi. down from
Balls Bluff Cemetery.
Common.

ditto

Glechoma hederacea L. var. { 5/3/53
on flood plain of Pot. R. near Pot. River, near Balls Bluff Cemetery
21351 Bluff Cemetery
Very common.
Recent. H.A.A. *micrantha* *Amund.*

21352 *Cardamine hirsuta* ditto
In waste ground at
Balls Bluff Cemetery = *Arabis lyrata* v.
conglomerate
Occasional.

21353 *Ayalea* ditto
Rhododendron nudiflorum (L.)
In dry woods near Balls Bluff
Cemetery - conglomerate
Occasional - local.

21354 *Crataegus pruinosa* (Walt.) K. Koch ditto
Near # 21353; full flower
As frequent.
Conglomerate

21355 *Crataegus pruinosa* (Walt.) K. Koch 5/4/53
In Allard's yard. H.A.A.
Stamens 20.
Full flower 5-1-53

21356 Fungus on dead log of sycamore
along Potomac R., below Balls
Bluff. Very abundant. May 10, 1953
H.A. Allard.

21357 *Equisetum arvense* L. typical 5/10/53
on bank on route 7, 1 mi
east of Leesburg. (conglomerate?)
Common.

Nasturtium officinale R.A. 5/10/53
In wet meadow and track near
21358 # 21357. Frequent. H.A.A.
conglomerate(?)

21359 *Hydrophyllum canadense* T. ditto
along Pot. River below
Balls Bluff in rich loam
below shale (red) cliffs and conglomerate
Common - abundant here just above flood plain
ph = 8.00

21360 *Caryophyllus* ditto
Thalictrifolius *Amund.*
In same soil, locality etc
with # 21359. Abundant here.
ph = 8.00. Part fl.

21361 strictly on or near flood plain.
Cyatopteris fragilis (L.) Presl. In same
soil, locality etc with # 21360 ditto
Frequent. ph 8.00.

21362 *Arabis laevis* (Muhl.) R. & S. ditto
one mile of Pot. River from
Balls Bluff Cemetery in talus
dark brown heavy soil (rich) at foot
of cliffs - red shale and Cong. Frequent
part fl. Soil ph = 8.00 at roots.

21363 *Asplenium trichomanes* L. in crevices ditto
of cliffs near # 21362; Frequent.
Soil at roots - dark brown loam
ph = 8.00 showing Calcium present.

21364 *Viburnum acerifolium* L. ditto
on edge at foot of red shale cliffs 1 1/2
mi. north of Balls Bluff Cemetery.
Common; in talus: ph = 5.00 - very acid
owing to slope and leaching - a dark brown
gravelly loam

Parthenocissus quinquefolia (L.) 5/10/53
forma tiruta (Dum.) Fern.
with # 21364. at edge of Ha. a
21365 red shale cliffs - same
soil etc. Common. ph. soil = 5.00
= very acid

21366 *Dioscorea quaternata* (Wall.) J. F. Muel.
In same soil and locality ditto
on red shale knof near # 21365
Common. Soil dark brown loam
with ph 5.00 = very acid

21367 *Salvia lyrata* (L.) (bl. blue)
just in fl. Common. In thin
open woods on slope of red shale
knof. Soil rather thin, dark brown
= ph. 5.00 (very acid) ditto

21368 *Dewberry* (*Rubus*) (L.)
arching, but freely tip rooting,
producing long, prostrate vines -
In open thickets with # 21367. Abundant
here. Soil ph. as above = 5.00. ditto

21369 *Aster* - large leaves and big colony
at foot of red shale knof near # 21368. ditto
Native fl. Soil usually acid, with *Halimolobos*
present. Near brook. Infrequent

21370 *Vaccinium stamineum* L. ditto
with # 21368. Common. Abundant
here. Soil ph = 5.00. full flower.

21371 *Crataegus crus-galli* L. ditto
with # 21370 and 21368.
Red shale. Common
Part fl.

Veronica In damp soil
by brook, at foot red shale knof 5/10/53
1 1/2 mi. north of Balls Bluff Ha. a
21372 Cemetery. Frequent.
Near # 21369.
V. serpyllifolia L.

21373 *Gizgia aurea* ditto
In woods on red shale
knof 1/2 mile north of Balls Bluff
Cemetery. Frequent. Soil acid. ph 5.00
= *Thaspium barbinode* (Michx.) Nutt.

21374 Cultivated onion set 5/2/53
Allard's garden.
Full flower May 2; much
visited by honey bees.
Allium cepa L.

21375 *Rubus flagellaris* 5/3/53
In rich woods 1 1/2 mi.
down from Balls Bluff
Cemetery. Frequent
Just in flower; tip rooting, long trailing
= *Medicago lupulina* L.

21376 Same as 21337-38-39. ph. soil = 8.00
Trifolium procumbens L. ph = 6.5
Near Limestone Branch near 5/17/53
route 15 - on conglomerate soil

near cong. boulders overlaid with red shale
and sandstone
21377 Common. ph = 6.5

Salvia lyrata - in pasture on limestone
conglomerate outcrops. 1 mile down 5/17/53
Limestone Branch from route 15
full flower; showy; frequent. ph = 6.5
21378 at roots.

Geranium carolinianum L. var. *confertiflorum* ditto
Near 21377. frequent.
In limestone conglomerate soil
ph = 6.5

~~Triostema angustifolium~~ 5/17/53
On limestone cong. soil, 1 mi.
down Limestone Branch from
21379 route 15. frequent.
ph 6.5-7. Hybanthus concolor
Near cong. boulders. (T. F. Torst.) Spring.
= Cubelium concolor.

21380 Carex amphibola (Hend. & S. W.) Turgida F. var.
growing in crevice on limestone cong. ledge (H. A. G.)
near # 21379; ph at root -
in rich black humus soil = 8.00

21381 Arenaria serpyllifolia L.
on thin soil on limestone
conglomerate near # 21379
at edge of red shale and sandstone
conglomerate. Common.
ph. 6.5.

21382 Grape growing on limestone
conglomerate ledge near # 21379
frequent. Vitis vulpina L.

21383 Henckera americana L.
growing on limestone ledges
near # 21379. Common,
abundant here; just in fl.
black humus soil at roots = ph 8.00.

21384 Oxalis stricta L.
in rich limestone cong.
soil near # 21379
common

21385 Bromus commutatus Schum.
in limestone cong. soil
near # 21379.
ph. 6.5-7.00

~~Genus veronica~~ 5/17/53
At edge of limestone conglomerate
1 mi. down limestone branch
21386 from route 15. a number of
plants of this Genus here; my
first found in Triassic area
Rare. ph in rich, dark
brown soil = ph 8.00

21387 Scutellaria nervosa. Pursh ditto
In grassy, damp meadow soil,
dark red brown soil, near # 21379
ph = 7.00. Infrequent.

21388 Arisaema atrorubens (L.) Blume ditto
forma viride (Engelm.) F. var.
In rich, red brown loam soil
at edge of coarse limestone boulder
ph = 8.00

21389 Carex ditto
on cong. cliffs near # 21386
ph = 6.5-7.00

21390 Grass. ditto
Near # 21385 -
ph = 6.5-7.00
Frequent. Poa trivialis L.

21391 Large colony ditto
near # 21388 close to
limestone cong. boulder.
Infrequent. ph. 7.00-8.00
Arunca ? Aruncus dioicus (Walt.) Fern.

21392 Rhus - growing from soil
at foot limestone boulders
of conglomerate
ph. = 7.00-8.00
Rhus copallina L.

Rubus - in dense thickets; 5/17/53
full flower. These on soil on limestone
conglomerate, 1 mi. down limestone
21393 branch - 3-4 ft arching to erect.
plant A

21394 Carex amphibola stem in ~~terre~~ ^{terre} ~~Fun.~~
at foot of limestone cong. boulder ditto
near # 21393 - ph 8.00
soil dark red brown.

21395 Rubus ditto
In dense thickets on limestone
cong. soil 1 1/2 mi down from route 15
on limestone branch. flor. cane.
Common. pinnocane of plant A. ~~cyliculata~~ ^{Fun.}

21396 Smilacina racemosa (L.) Desf. var. ^{ditto}
growing beside # 21386 - ph = 8.00
same dark brown soil beside
large limestone - Cong. boulder. Common
very vigorous clump here

21397 Carex. Beside # 21396 ditto
ph. soil 8.00

Cave Blanche Dam

21398 Crataegus virga-galli. ditto
1 1/2 mi. down Goose Creek from
route 7. Common. Very large, round-
headed tree 15-20 ft. tall. Full flower
showing. ph. 6.5-7.00 around.

21399 Ellisia myrtalea L. ditto
growing beside or near # 21396
ph - here 7-8.00
Common.

Carex. On limestone cong.
shelf of ledge, 1 mile down
21400 Limestone Branch from
route 15, 1 mile. May 17, 53
Common H.A.A.

Carex conizans Br. & S.
21401 Lepidium campestre (L.) R. Br. ditto
on limestone conglomerate
outcrop near # 21400
Very common.
ph. = 7.00 soil dark brown.

(21402) ~~Carex~~ ^{Carex} ditto
growing near Smilacina racemosa (21396)
Common
ph. = 8.00

21402 Carex in pasture on
conglomerate outcrops 1 mi. down ditto
Limestone Branch - ph = 6.5-7.00
Common. In lush greenish blue
grass and white dross. C. modesta Mack.

21403 Ellisia myrtalea. Growing ditto
near 21398. ph soil = 6.5-7.00
Tiny white fl. growing at edge of red sandstone
and shale thin overlay upon outcrop of
limestone cong. soil red brown like (L) Poll. ditto
ph = 6.5. - with also 21376 etc. Valleriella olitoria

21405 Ranunculus carolinianus Y. var. confertus
growing with # 21404 - flower Fem.
common. same soil, location etc. ditto
soil ph 6.5

21406 Liparis lilifolia (W) Richard May 24/53
Rich woods 1/2 mile from route 7
1/2 mile east of Goose Creek -
Diabase hill. Several colonies
in full fl. ph. at roots 5.5-6
Dark clay - soam

Grass-

1 1/2 mi N. of route 7
29407 east of Goose Creek
In heavy woods,
Loudoun Co.
Festuca obtusa Bickler

29408 *Veronica officinalis* L.
In moist woods near
21407 Common.

29409 *Hieracium venosum* L.
In woods near # 21407
Common.

29410 *Lobelia spicata* Lam. var. *sapora*
fl. white
In woods near # 21407
Frequent
Diabase.

29411 - Grass -
In moist woods near
21407 Frequent
Bromus pulegius L.

29412 Grass
In wet woods 1 1/2 north
of route 7. Frequent
Diabase.
Near # 21407 *Sphenopholis intermedia*
Rydb.

29413 *Carex squarrosa* L.
In woods by brook in
damp soil 1 1/2 mi N. of route 7
In woods
Frequent.

5/24/53
H.A.A.

ditto

ditto

ditto

ditto

Chimaphila umbellata (L.) Rend. 5/24/53

In dry woods 2 1/2 mi. N.
29414 of route 7 east of Goose Creek.
Diabase. Rare in area.

var. *cisatlantica* Bickler

29415 Grass. *Agrostis hiemalis* (Walt.) R. & P.
In low woods 2 mi. N. of
route 7 - east of Goose Creek.
Frequent.

29416 Grass. *Festuca obtusa* Bickler
In field 2 1/2 mi. N. of route 7
east of Goose Creek 1 1/2 mi.
Common.

29417 *Oenothera fruticosa* L. var. *linearis* (Mill.)
at edge of field near # 21416 S. Wats.
Frequent.
Diabase.

29418 *Panicum linearifolium* Scribn.
In field with # 21417.
Common.
Diabase.

29419 *Juncus secundus* Beauv.
In field near # 21417
Common.
Diabase

29420 *Houstonia* (fl. bluish) *purpurea* Vahl.
On dry bank - near # 7
1 mi. east of Goose Creek.
Common.
fl. bluish.

ditto

Common.

24422 *Pentstemon digitalis*
Near # 21421
pl. white or whitish to bluish.
On edge of field in thickets
Frequent. Diabase. = *P. canescens* Britt.

24423 *Trifolium agrarium* L.
Edge of field near # 21422
Diabase.
Common.

24424 *Sutcleria parula* Michx. ex. Kunze
On dry wooded bank just
N. of route 7, east of Goose Creek
1 mile. Infrequent.
Diabase su

24425 *Carex hirtella* Michx.
with # 21424
Diabase
Common

24426 *Dianthus armeria* L.
Near # 21424
Common
Diabase

24427 *Panicum lincifolium* Sully.
Near # 21424
Common
Diabase.

Hypoxis hirsuta (L.) Coville
In dry woods near # 21424

24428 *Cornus*
Diabase.

24429 *Sonchella* *smallii* Britt.
with # 21424.
Common; full fl.
Diabase.
In colonies.

24430 *Houstonia missouriensis* L.
bl. white (pure)
Near # 21424.
Common
Diabase.

24431 *Andropogon quadrifolius* Jacq.
In rich damp woods (oak)
1/2 mi. N. of route 7; east of
Goose Creek 1 mi. Common.
Full fl; showy. Diabase

24432 *Botrychium virginianum* (L.) Swartz
In rich woods 1/2 mi N. of 7
east of Goose Creek 1 mi.
Frequent.
Diabase.

24433 *Carex*
wet soil in woods just N. of
route 7, east of Goose Creek
1 mi. Diabase.
Common

24434 *Carex hirsutella* Michx.
Near # 21433
Common
wet soil
Diabase.

Carex hirsutella Nutt. 5/24/53
In wet spodiopetal
pasture near route 7 (north)
21435 1 mi. east of Goose Creek.
Common
Diabase.

21436 In rich woods $\frac{1}{2}$ mi. N.
of route 7 (near 21406)
Common.
Diabase *Carex hirsutella* Nutt. ditto

21437 *Hieracium*
Edge of field with 21421
Diabase
Common ditto

21438 Grass
Near 21437
Edge of field
Diabase *Poa compressa* L. ditto
Common

21439 *Rubus*
Low arching, top rooting,
trailing, edge of field.
Frequent
East of Goose Creek 1 mile
Diabase ditto

21440 *Carex glaucoidea* Tuckerm.
Edge of field with 21439 ditto
Dry. Frequent
Diabase

21441 *Oxalis europaea* Jord var. *cymosa*
with 21439 (Small) Wieg. ditto
Common
Diabase.

Rumex crispus L. 5/24/53
Near 21439
Common.
21442 Edge of field
Diabase.

21443 *Rhus toxicodendron*
with 21439 *Rhus radicans* L. ditto
Common
4-4 $\frac{1}{2}$ ft tall var. *rydbergii* (Small)
Diabase (Small) Rehd

21444 Moss on bog in pool in
woods near 21442 ditto

Cong. soil

ditto

21496 *Heuchera*
On cong. ledges
near # 21491
Frequent

ditto

21497 *Vitis*
Near # 21496
Common.
Cong. soil.

ditto

Leaves off
Eromyrum atropurpureum (6/14/53
H.A.A.)
21498 Near # 21491
Low shrubs; not in fl.

21499 *Ruellia*
Near # 21491
Just in fl.
fl. purple

ditto

On cong. soil. Frequent here.
21500 *Brassicaceae*
In pasture near
21491.
Frequent.

ditto

21501 *Acalypha*
Near 21491
Frequent

ditto

21502 *Physalis*
In pasture by limestone
cong. ledges near (1/2 mi.) from
route 7, and near Limestone Branch
Frequent.

ditto

21503 *Polygonum*
fl. pink.
In wet soil along Limestone
Branch, near route 7
Frequent. Cong. soil

ditto

21504 *Saribus*
In wet soil beside route 7
1 mi east of Leesburg.
Occasional.

ditto

Oenothera

Near # 21504

6/14/53
H.A.A.

21505 Frequent.
Roadside thicket
Diabase soil.

21506 Carex
Near Limestone Branch ditto
near route 7-in red soil
cong. soil
Frequent.

21507 Salix large tree ditto
Near # 21506
Along Limestone Branch.
Frequent.

21508 Rumex crispus 6/22/53
In Attard's garden, H.A.A.
3000-7th St. N.
Arlington, Va
Plant A

21509 Geum canadense Jacq. 6/28/53
Along Cub Run just N. of H.A.A.,
route 50 1/2 to 1 mi. fl. white
In damp woods along Cub Run
in alluvial soil. Common.

21510 Scirpus atrovirens Willd. var. georgianus (Hayden) Fernald
Near # 21509
Damp soil - on red shales
and sandstones

21511 Umbelliferae fl. white ditto
In damp soil near
21510 - 4-5 ft. tall.
Frequent Cicuta maculata L

Carex

with # 21510
Frequent.

6/28/53
H.A.A.

21512

Carex tribuloides Wall.

21513 Salix
In same locality as
21510. ditto

21514 Carex buchari Mak.
In moist meadow ditto
near # 21510
Scattered - not in clumps.
Shattering.

21515 Saururus cernuus L.
In large areas in mud ditto
along Cub Run just N. of
route 50. Leaves nodding
with fragrant, white flowers;
very attractive. Common

21516 Brassicaceae ditto
fl. yellow Rorippa islandica
with # 21510 (Oeder) Barb. var. fernaldiana
Occasional 2-3 ft. Butt. & abbe

21517 Santellaria integrifolia
In old field along Cub Run ditto
N. of route 50 1 mile.
Frequent. Nearly past fl.
Red shale & sandstone.

21518 Quercus bicolor Willd.
In old field with # 21517 ditto
Frequent.
Small trees.

Rumex crispus
In damp soil along Cub Run
21519 V. route 50-mile.
In alluvial soil
Fairfax Co
Frequent.

= *Rumex obtusifolius* L.
21520 *Oenothera fruticosa* L. var. *linearis* (Michx.) S. Wats.
In old dry field ditto
1 mi. N. of route 50, near
Cub Run. Common. *Pycnanthemum flexuosum* (Walt.) R. S. P.
On Red shales and sandstone

21521 *Allium vineale* L.
forma *capituliferum* (W.D.S. Michx.) S. Wats.
with numerous flowers. ditto
In meadow just N. of route 50
near Cub Run. Frequent
Red shale and sandstone

21522 *Hypericum spathulatum* (Spach) Steud.
In dry old field N. of route 50 ditto
1 mile and near Cub Run
with # 21520 2 1/2 - 3 ft. tall.
Frequent

21523 *Cornus amomum* Mill. ditto
In same old field with
21520. Large shrub
Frequent. Most past bl.

21524 *Hypericum punctatum* Lam. ditto
with # 21520
Common.

21525 *Labatiae*
In same old field with
21520 ditto
Common. Narrow, linear
leaves. = *P. flexuosum* (Walt.) R. S. P.
Pycnanthemum tenuifolium R. S. P.

Oenothera fruticosa L. var. *linearis* (Michx.) S. Wats. 6/28/53
with very narrow leaves (Michx.) S. Wats.
In old field with # 21520
21526 Frequent.

21527 *Juncus* (tall) *effusus* L. var. *solutus* (Fernald) Wieg.
In damp soil near N. of route 50 ditto
and near Cub Run
Frequent.

21527a *Juncus platyphyllus* (Wieg.) Fernald.
Red shale and sandstone.

21528 *Lysimachia ciliata* L.
In moist soil 1 mi. N. of route 50 ditto
along Cub Run - Recent or
alluvial soil. Common

21529 *Cryptotaenia canadensis*
with # 21528 (L.) DC. ditto
Common
alluvial soil

21530 *Pycnanthemum tenuifolium* R. S. P. ditto
with 21520 - Fairfax Co
old, dry field. Red shales and
Common. sandstone. *Cornus amomum* Mill.

21531 *Oenothera fruticosa* L. var. *linearis* (Michx.) S. Wats. ditto
with # 21520

21532 *Rubus*
2 - 2 1/2 ft or 3 ft ditto
arching, not tip rooting
with # 21520
Common or frequent here

Rosa carolina L.
In old, dry field 1 mi. N. of Fairfax
route 50, near Cub Run
21533 with # 21520

Frequent

2-3 ft. fragrant.
Red shale and sandstone

21534 *Trifolium agrarium* L. ditto
In old dry field with
21533.

Common. 1-1.5 ft. tall

21535 *Carex* in dense oval
heads. In moist soil 1 mi. N. of
route 50, near Cub Run.
Red shale and sandstone
Frequent. *Carex squarrosa* L.

21536 *Derby* - long running.
with # 21533. ditto

Plant E - primocane
Occasional

21537 *Potamogeton diversifolius* Raf.
In Cub Run at bridge
of route 50
Fairfax Co. ditto

21538 *Apocynum cannabinum*
Near Cub Run at route
50. Red shale and sandstone
Frequent. ditto

21539 *Scirpus atrovirens* Willd
var. *georgianus* (Hayn)
In wet soil near (N) of
route 50 near Cub Run
Occasional
Red shale and sandstone ditto

Galium obtusum Bigel.
In moist soil near route 50
at Cub Run
6/28/53
Fairfax Co
H.A.A.

21540 *Trifolium* smooth.
In dense colonies
Red shale and sandstone
Frequent.

21541 *Gratiola neglecta* Torr.
Mud and wet soil at
junction Cub Run and
route 50 ditto

Frequent. Red shale and
sandstone
21542 *Nuphar advena* (L.) Ad. f. ditto
In mud and in Cub Run
at route 50, above and below bridge.
Stigmatic disk greenish or yellowish.
Anthers longer than connective.

21543 *Blub* Run 1 mile. Full flower.
ditto

Pontederia cordata L.
In Cub Run at bridge of route 50
In frequent on Triassic full fl.

21544 *Cornus* below route 50
at Cub Run. *Cornus amomum* Mill.
alluvial soil. ditto
Large shrub. Dense.

21545 *Plantago* *ragelii* Loudon July 5, 1953
Old field along Potomac
at junction with Broad Run
Red shale and sandstone.
Common

21546 In same field with # 21545 ditto
Amelanchier albidus (Mill.) Britt.

Ostrya virginiana (Mill.) Koch
along Potomac at junction
with Broad Run
21547 Common.
7/5/53
H.A.A.

21548 *Rhus typhina* L.
radicans
Bushy form
near # 21547. (Finger) R. A. H.
Common fruit glabrous.
ditto

21549 *Plantago aristata* Michx.
with # 21545.
Common in dry soil
ditto

21550 *Consolida sepium* L.
fraterniflora
In old dry field with
21545. Common
ditto

21551 *Apocynum cannabinum* L.
Near # 21547 var. *nemorale* (L.) Mill.
ditto

21552 *Potentilla norvegica* L.
In same field with
21545
Common
ditto

21553 *Trifolium arvense* L.
In old field with 21545
Common in dry, poor soil
ditto

Hypericum perforatum L.
along Broad Run near
junction with Potomac
21554 Common.
Red shales and sandstone
7/5/53
H.A.A.

21555 *Hypericum spathulatum* (Spach)
(shrubby)
along Potomac near # 21547
Common
ditto

21556 *Rudbeckia serotina* Nutt.
along Broad Run near
junction with Potomac
Near # 21554
ditto

21557 *Pleypocarpus opulifolius* (L.) Maxim.
with # 21547
Common
ditto

21558 *Hystrix patula* Moench.
On bank near # 21547
Common
Near # 21547
ditto

21559 *Justicia americana* (L.) Walt.
In water of Potomac
near # 21547
Common in Cub Run, Broad Run
etc.
ditto

21560 *Verbena officinalis* L.
In thicket along Pot.
near # 21547
Common.
ditto

Lysimachia nummularia 7/5/53
In deep soil in meadow along H.A.
21561 Brood Run at near junction
with Potomac
Recent.
Common. fl. yellow.

21562 *Trifolium americana* L.
Near # 21561
Common. ditto

21563 *Brassicaceae*
fl. yellow.
with # 21561. prostrate
infrequent
Rorippa sylvestris (L.) Bess. ditto

21564 Grass
with # 21561
Common *Agrostis stolonifera* L. ditto

21565 *Celtis occidentalis* L.
Near # 21561
Common ditto

21566 *Potentilla norvegica* L.
with # 21561
Common
Recent. ditto

21567 *Pentstemon sedoides* F.
with # 21561
Common. ditto

Umbellifer Plant A 7/5/53
fl. white H.A.
Near # 21561
21568 In meadow.
Common.
Cicuta maculata L.

21569 *Lactuca* plant B ditto
4-5 feet tall
fl. yellow
Lactuca canadensis L. var. *latifolia* Retz.

21570 *Lactuca* plant C ditto
5-6 ft tall
fl. yellow
Lactuca canadensis L.

21571 *Carex lupulina* Muhl. ditto
Large clumps
2 1/2 - 3 ft.
with # 21561
infrequent

21572 *Lactuca* plant A ditto
Stem very hairy. fl. yellow
plant A.
with # 21569

21573 *Lippia lanceolata* Michx. ditto
with # 21561

21574 *Galium triflorum* Michx. ditto
along Brood Run near
junction with Potomac
Red shales and sandstones
Common.

Boehmeria cylindrica (L.) Sw. 7/5/53
On bank Broad Run near
junction with Potomac
21575 Common.
Recent.
No stinging hairs.

21576 *Sabip*
with # 21575
Common

21577 *Rubus*
Plant A
near # 21575, on edge of
field. 3-4 ft tall, erect,
arching. Common sp.
Not lip rooting.

21578 *Hypericum spathulatum* (Walt) Steud.
Near # 21575
Common. (shrub)
Recent.

21579 *Gerardia virginica* (L.) B&P.
On roadside bank near
Broad Run near route 7.
Red shales and sandstones
Common.

21580 *Viburnum prunifolium* L.
Near # 21577.
Common

21581 *Pyrenanthemum tenuifolium*
On dry bank with # 21579
Common.
= *P. flexuosum* (Walt) B&P

Umbellifer
Tall 4-4 1/2 ft
21582 On bank with # 21579
Frequent.

Angelica villosa (Walt.) B&P.

21583 *Hypericum punctatum* Lam
On same bank with # 21579
Common

21584 *Scutellaria integrifolia*
with # 21579 = *S. elliptica* Mill.
Frequent. var. *hirsuta* (Chitt) Fern.

21585 *Ruellia carolinensis* (Walt) Steud.
On bank with # 21579
Frequent var. *membranacea*
Fern

Vaccinium
21586 *Rubus vaillans* Torr.
In dry soil with # 21579
Common.

21587 *Cnacuta pentagona* Engelm
On *Lespedeza*
On roadside of near Broad Run
and near # 7 highway
Common

21588 *Prunella*
vulgaris L.
var. *lanceolata* (Bart) Fern.
Near Road to Girl
Scout Camp east
of Luckett's near
Potomac River.
Red shales
and sandstone
Common
7/12/53

Boehmeria cylindrica (L.) Sw
On flood plain of Potomac near
Girl Scout Camp east of Lucketts
21589 Recent
Common,
Red shale

21590 Mint.
Near Potomac, near # 21589. ditto
Frequent. *Teucrium canadense* L.
Recent. var. *virginicum*
(L.) Cel.

21591 *Impatiens pallida* Nutt. ditto
Near # 21589
Common.
Recent.

21592 water plant.
In limestone Branch
at route 15 N. of Leesburg.
Lemna minor L.
See # 20755 - ditto

21593 *Salix*
Near # 21592
Common ditto

21594 *Houstonia longifolia* Griseb. ditto
Dry soil in opening in
woods near 21595

21595 *Vinea minor* L.
In woods near
Near Potomac near Girl Scout Camp
east of Lucketts. Red shale and
sandstone. ditto

Cornus amomum Mill. 7/12/53
Beside # 21593
Common

21596

21597 *Corallorhiza spina* L. ditto
fl. white
Near # 21593
Common

21598 *Physalis subglobata* Michx. & Benth. ditto
In damp meadow
near route 15, near
Limestone Branch and near
Common # 21592

21599 *Congelomera* te
Mint. *Teucrium canadense* L. var.
In damp soil, near # 21592 ditto
Frequent. *virginicum* (L.) Cel.
Congelomera te. Est.

21600 *Justicia americana* (L.) Vahl ditto
with # 21592
Common.

21601 *Fraxinus pennsylvanica* Michx. & Benth. ditto
Near # 21593
Common

21602 *Artium minus* (Hill) Benth. ditto
Near # 21593
Common

Rudbeckia serotina Nutt.
Near route 15 north of
Liesburg along Limestone Branch
21603 Common
conglomerate 7/12/53

21604 *Fraxinus pennsylvanica*
Marsh. ditto
Near 21601
Common
Stems pubescent.

21605 *Campsis radicans* (L.) Thunb. ditto
along road near Luckette
on route of Girl Scout Camp.
Common.

21606 *Celtis occidentalis* L. ditto
Large tree near 21601
Common

21607 *Celtis occidentalis* L. ditto
Near 21601
Frequent.

21608 *Carex frankii* Steud. ditto
Near 21593
Indurated soil
Frequent

21609 *Asclepias incarnata* L. ditto
with 21593 var. *pulchra*
Common. (Chh.) Pers.

Saponaria officinalis L. 7/12/53
at bridge of route 15 over
21610 Limestone Branch.
Conglomerate.
Common

21611 *Heimerocallis fulva* ditto
double flowers. = var. *kuranso* Regel
Near 21610.
Double form infrequent
Single " common.

21612 *Petroselinum hortense* Hoffm. ditto
Petroselinum crispum
2nd year plants going to seed
from Allard's garden. 7/11/53

21613 *Mentha spicata* L. 7/11/53
Allard's garden

21614 East of Goose Creek 1 mi., 7/26/53
north of route 7 2 mi. (H.A.C.,
at middle pond hole in woods
Carex squarrosa L.

21615 *Celastrus scandens* L. ditto
along fence row near 21614
Occasional.

21616 *Setaria glauca* (L.) Beauv. in grass?
Near straw stack in field
near 21614. Common.
= *Setaria lutescens* Weigl
Det. S. M. Chase

Anagallis arvensis L. (7/26/53 H.A.G.)

21617 1 mile east of Goose Creek,
2 mi. N. of route 7.
at straw stack in field.
Common. fl. coppery red,
Diacase.

21618 *Acalypha gracilens*
with # 21616. Gray ditto
Common.

21619 *Xanthus brachiatus*
with # 21616 - around
old straw stack in field ditto
Common.

= *Hedera pulegioides* (L.) Pers.
21620 *Diodia teres* (typical) ditto
with # 21616 var. *hirsutior*
Common. Fam. *Epilob.*

21621 *Cyperus petiolata*
with # 21616 (L.) Volume ditto
Common

21622 *Carex lupulina* Michx.
at pool in woods - damp ditto
soil - near # 21614.
Frequent.

also *Plantago aristata* Michx.
21623 *Sparanium americanum* Nutt. ditto
In mud and water with
21614. Common.

Dalium tinctorium L. (7/26/53 H.A.G.)

21624 # 21614
Common.

21625 *Vaccinium atrococcum* (Gray) Heller ditto
Tall 10-12 feet in bog
with # 21614.

Occasional.
fruit blue black,
21626 *Sphagnum* ditto
In bog with # 21614

21627 *Scutellaria lateriflora* L. ditto
In bog with # 21614
Infrequent.

(Note very glandular foliage.
This not mentioned in bot. works)
21628 Edge of field 1 mi. N. of
route 7, 1 mi. east of
Goose Creek. (Aug. 2, 53 H.A.G.)
Carya tomentosa Nutt. ditto
Common. Diabase.

21629 *Cassia fasciculata* Michx. ditto
In old field near # 21628
Common.
Diabase.

21630 *Euphorbia corollata* L.
var. *paniculata* (Ell.) Boiss. ditto
In old field near # 21628
Common. Diabase.

- 1 mi. N. of route 7 7/26/53
1 mi. east of Goose Creek H.A.A.
In field
21631 Common
Diabase
Hypericum perforatum L.
- 21632 *Prunus mahaleb* ditto

In dark soil
Diabase *Cinna arundinacea* X
- 21639 *Lactuca plant A.*
Bl. blue = *floridana* (L.) Quin. ditto
In thicket near Broad Run
and along route 7. var. *villosa*
Common 5-6 ft tall (Aug) Aug.
Diabase
- 21640 *Lactuca floridana* (Plant A) ditto
Near Broad Run and
near route 7. Diabase.
Common
5-6 ft. tall. bl. blue.
- 21641 *Hypericum punctatum* Lam. ditto
In old field near 21628
Common
Diabase.
- 21642 *Parthenium integrifolium* 8/9/53
In open ^{dry} woods 1/4 mile N. of (Diabase)
route 7, and 1 mi. east of Goose Creek.
Rare in area east of Alleghames and
Blue Ridge, Not in Bull Run area.
- 21643 *Euphorbia corollata* L. ditto
var. *paniculata* (Ell.) Boies.
In old field 2 mi. north of
route 7, 1 mi. east of Goose Creek. (Sept) Wild.
Common. Diabase
- 21644 *Liatris graminifolia* L. 8/16/53
Near route 7 on country
side road - in thin woods
by roadside. Occasional.
Diabase. 1 mi. east of Goose
Creek.

Asclepias verticillata L. 8/16/53
along route 7, 1 mi. east of H.A. 9
21645 Goose Creek. Frequent
Diabase. fl. greenish-white

21646 *Euphorbia corollata* L.
var. *paniculata* (L.) Sims. ditto
Field 2 mi. N. of route 7 and
1 mi. east of Goose Creek
frequent. Diabase

21647 *Euphorbia petiolata* (L.) ditto
In same field with # 21646 Rodney

21648 Dodder on *Louragued*
Ambrosia artemisiifolia ditto
with # 21646. Common
Diabase *Cuscuta pentagona* Engelm.

 $1\frac{3}{4}$ mi. N. of same oil line
Common near #21666

= *D. ciliare* (Muhl.) DC.

21668 *Lespedeza repens* ditto
On same shaley oil line
2 mi. from Petersburg highway.
Common = *L. procumbens* Michx.

21669 *Aster pilosus* Willd. ditto
On same pipe line $\frac{3}{4}$ mi.
N. of from highway, on dry shales.
Common.

21670 *Pycnanthemum incanum* (L.) Michx. ditto
1 mi. N. of pipe line on
dry shales, - on 45° angle
at least. Frequent.

21671 *Salix* ditto
along ditch above Harman,
W. Va. Common

21672 *Polygala curtisii* Gray ditto
along roadside bank above
Harman. Common

Antennaria dioica 8/23/53

var. *argillicola* Stebbins H.A.A.

21673 On same pipe line as 21664
1 mi. N. from Petersburg highway
Common. Gray 8 has *A. virginica* Stebbins

On barren shales, steep
slope at least 45° angle, *argillicola* Stebbins

21674 *Spiranthes gracilis* (Pursh) Nutt ditto
On bank above Harman
along roadside. Frequent.

21675 *Lupinus* Tall, erect. p. cream with
purple spot
on same barren shales
near # 21673. Common.

21676 *Helopsis helianthoides* ditto
along roadside above
Harman.
Very common, showy
everywhere.

21677 *Salix discolor* 8/24/53
on Blackwater River W. Va.
at route 32. Common

21678 *Solidago juncea* = *S. rigida* Nutt. ditto
S. serotina
along Dry Fork below Dry Fork
incorporated. Common
along Blackwater River
near # 21677

21679 *Solidago graminifolia* ditto
with # 21677. L.
Exceedingly common everywhere
in Davis region

water plant submerged 8/24/53

21681 *Galium parisiense* ditto
Near # 21677
Very common. *G. asprellum* f. ditto
sprawling over herbage.

21682 *Helianthus autumnalis* L. ditto
very common - with # 21677
showy.

21683 *Verbena hastata* W. ditto
with # 21677. bl. blue.
Very common

21684 *Aster prenanthoides* Mill. ditto
along Dry Fork below
Dry Fork incorporated Randolph Co.
a large meadow here with
several hay stacks, and where we
practiced golf.

21685 *Aporosa cannabinum* L. ditto
on top Canaan Mt.
Common.

21686 *Aster umbellatus* Mill. ditto
var. *puberulus*
with # 21685. (not the variety)
Very common here

Eupatorium maculatum L. 8/24/53

Top of Canada Mt (3702 ft.)

21687 Very common, very showy
with huge pinkish irregular
flowers. One of most showy
plants now.

21688 *Lactuca biennis* (Moench.) Fern.
with # 21684 plant A
8-10 ft. tall
fl. yellowish.
Frequent

21689 *Solidago juncea* L.
with # 21684 bootie
Common.

Solidago gigantea Ait.
var. *leiophylla* Fern.

21690 *Elymus riparius* Wiegand
grass.
with # 21684
Common

21691 *Actinomeris alternifolia* (L.) DC.
with # 21684
Common - very showy.

21692 *Helianthus giganteus* L.
with # 21684 plant A
Common.

21693 *Scrophularia marilandica* L.
with # 21684
Frequent.
Corolla purplish brown.

Fine, delicate grass
on ledge beside road near
Dry Fork, below Dry Fork

21694 On dry shelf of rock.

Agrostis perennans (Walt.)
Tuckerm.

21695 *Polygonum scandens* L.
Near 21684, sprawling
over high herbage. Common.

21696 *Collinsonia canadensis* L.
Near # 21684, along
Dry Fork. Frequent,
Lemon-scented

21697 *Smilax tannoides* L. var. *hispida*
var. *hispida* (one segd.)
with # 21684 pr. black. (multi fern.)
Lower portion stems with black
prickles, some strong and sharp

21698 *Rhizomes* long, thickly.
Sparganium americanum Nutt.
In mud along Dry Fork
near # 21684 Common

21699 *Mentha spicata* L.
Near # 21698
fl. bluish -

21700 *Solidago juncea*
Near # 21684
Common

Solidago gigantea Ait.
var. *leiophylla* Fern.

June 15, 1952. Walk down
Limestone branch from route
15 (to Point of Rocks highway, 3 miles, 9
returning over rocky ledges and
pastures, all in limestone
conglomerate outcrops - trip
5-6 miles.

June 22, 1952. Followed
down Cub Run from bridge
of route 211, 3-4 miles both
sides. A very picturesque
stream, rising in diabase
area south of Arcola - or at
least flowing through diabase
or trap rock soil from the
bridge on 211 almost to Bull
Run Creek into which it flows.
I have never seen a more
bouldered-littered stream, in
the Triassic area from a point
just below 211 - all diabase,
with diabase boulders and ledgy
outcrops back from the flood-
plain area on both banks.

July 3, 1952. We left Arl. Va. at 10 am.
fast time for Davis, W. Va., arriving
there at about 6 pm. E.S.T. Go by way of
Harrisonburg, Franklin, Riverton, Seneca

up route through Harman, to Davis.
collected some plants at lookout at
Germany Valley. Most collecting done
July 4, on course of Texas gas pipe line
1 mile below Serleca Rocks. This
extending up ridges and over North
mountain crest about 4-4 1/2 miles.
Forded south branch to get over other
side.

7/27/52 - To Young's Branch on route 211,
following stream up from 211 1/2 - 2 mi.
all on red Manassas shales and sandstones.
In afternoon to railroad station at
Haymarket, collecting on brook which
is a branch of the Broad Run some
distance down. Entire days walk
covered about 4 miles in all. This
territory also on Manassas red shales
and sandstones.

Aug. 3, 1952. To route 15 on highway from
Leesburg to Point-of-Rocks. Turned right
to Conrad ferry crossing Potomac to
Poolesville, Md. Collected along shore
va. side up river 1 1/2 miles and back
in woods. All Border Conglomerate.
walked only a total of 2-2 1/2 mi.
collected at big limestone spring near
Leesburg, where stocked with rainbow trout.
Larvae minor very abundant in this
cold spring.

august 19, 1952. To Buzzard Mt. ⁽¹⁾
climbing both peaks - and collecting
from the So. R.R. to the quarry pool
and in the deep sag between the
two peaks.

Journal
Aug. 19, 1952 to
Aug. 16, 1953

August 19, 1952. To Buzzard Mt. ⁽¹⁾,
climbing both peaks - and collecting
from the So. R.R. to the quarry pool
and in the deep sag between the
two peaks, and on the slopes and
apex of both peaks. Walked nearly
8 miles. All the underlying
rock formation and outcrop
is diabase. All the common spring
plants occur on these two
peaks - i.e., Hepatica, Bellworts,
Smilacina, Polygonatum (no
trailing arbutus, as soil decidedly
basic, and few heaths - no
mt. laurel, Cyanus, Vaccinium.
Went with Mr. Cougle and his son
ri

Aug. 26, 1952. To Goose Creek, walking
down stream left bank from the
bridge, about 2 miles and return,
collecting much material on
recent broad plain soil, and diabase
at the quarry near the bridge at #7
highway. Then drove to Leesburg
to big spring on route #15 to Point of
Rock collecting here. Walked
about 5 miles. Went with my
daughter Doris and granddaughters
Beth Rose and Linda Lee Chilton.
Many plants collected. All around
the big spring on conglomerate line -
(over)

Sept. 7, 1952. To Goose Creek, (2)
collecting in the dry pine and
deciduous woods $\frac{1}{2}$ 1-mile west
of Goose Creek, and on the
quarry at the creek (left bank
going down). all diabase
formation. Day very cloudy,
thunder and rain in the morning.
walked 3-4 miles going and
coming.

Sept. 14, 1952. To Point of Rocks on
Potomac. Collected a few plants on
conglomerate at big spring on route
15. Then some plants on Va side
just below ~~Point~~ Point of Rocks, along
stream and in corn field - recent
along stream, and undifferentiated
Cambrian along route 15 - here.
Then drive to Limestone Branch
collected along stream, and in
pastures here, all limestone
conglomerate on this portion
of walk. Temperature extremely
hot - one of hottest - or near - on
record. Walked 6-7 miles by
pedometer.

(over)

Sept. 21, 1952. To Belmont Station, taking (3)
route 659 from route 7. Parked at the
railroad here, walking up the railroad
past the trap rock quarry, and on to
Goose Creek, crossing the R.R. bridge
to the west side. We crossed the
pastures and followed up stream on
the right bank up about $\frac{1}{2}$ mile.
Collected along the R.R., along
Goose Creek here, and all around
Trap rock and quarry, where
enormous piles of fine detritus
had been discarded from rock-
crushing and screening. Here
many plants, weeds and other
plants were established on the
loose material - more especially
Chenopodium album, and the

Oenothera

walked by pedometer about 5 miles -

September 28, 1952. To Broad Run
at Buckland, following left bank
down stream from bridge about
2 miles - all on diabase outcrops.
Then return walking west from
route 211 above the bridge, all
over ledge outcrops of red Manassas
shales. Total walk by pedometer =
4 miles. No *Quercus imbricaria* seen.
Shades of yellow water lily at (over)
bridge, but long past blover.

(4)

October 5, 1952. To Little River
on route 15 to Oatlands and
Leesburg, just off route 50 to
Arlie. Walked about 2 miles
up stream from the bridge of
route 15, and a short way
down stream below the bridge,
where outcrops of diabase appear.
Up stream collecting was done
mostly on the alluvial flood plain
soils (recent). The underlying
rocks on adjacent hills appeared
to red shales and sandstone
(Manassas). No shingle oaks on
this stream as near as seen anywhere.
Walked about 4 miles by odometer.

October 19, 1952 - To Goose Creek,
walking down stream from route 15
about 2 miles and return, down
stream to a low rapids beyond a
corn field on an alluvial plain,
with low bluffs on the opposite shore.
Near route 15 Goose Creek, the right
bank is extremely steep and rocky,
passing into a low, sandy, alluvial
plain. Near the stream were shingle
oaks, and dense thickets of
hairybane, with some large ripe
bruits on the ground.

(over)

November 2, 1952. To Limestone Branch from route 15 north of Leesburg. walking downstream finally after 3-3 1/2 miles to the Potomac River. Here we encountered steep limestone conglomerate cliffs, with Aster oblongifolius in showy masses. Returned across the pastures on high ground with many conglomerate cliffs and boulder outcrops which I photographed. walked about 7-8 miles by odometer. (5)

Nov. 16, 1952. To Ball's Bluff, walking south from cemetery about 2-2 1/2 miles - or to end of Harrison Rd. on Potomac shore, where red s.s. and shales come to edge of Potomac, preventing further course south.

Nov. 9, 1952. To Ball's Bluff and back. walked 7-8 miles in all. walk north about 3 1/2 to 4 miles on alluvial floodplain along Potomac, return through woods above bluffs in all about 8 miles by odometer.

March 29, 1953.

To Buzzard Mountain, Culpeper Co., Va. Walked to first peak, and continued down deep valley up the second peak or twin. Walked 7-8 miles going and going collecting plants en route, all diabase formations.

April 19, 1953. Walk through heavy deciduous woods and pastures just east of Goose Creek (right bank down for ~~2 1/2~~ ^{about 7 1/2} miles, all coming and going. Diabase formations, except near Potomac River where Red sandstones met with.

~~April 19, 1953.~~

Day cool and windy but sunny.

April 22, 1953. Down Goose Creek left bank down for about 2 miles, with Sally Allen and Olive Schudge. Day warm, sunny, very beautiful. Botanized on alluvial flood plain and also on ridges, diabase, and red sandstones to west. Walked in all about 4 miles.

May 3, 1953. To Ball's Bluff Cemetery and south along Potomac River south for $2\frac{1}{2}$ miles - Loudoun Co., along alluvial flood plain, and up the cliffs (conglomerate) back to car. Walked 5 miles by pedometer.

May 10, 1953. To Balk Bluff north of Leesburg.
Loudoun Co. (7)

May 17, 1953. To Limestone Branch
and across pastures 1 mile, down
all limestone conglomerate outcrops.
walked about 4 miles by pedometer.

May 24, 1953. To diabase hill 1 mile
east of Goose Creek, walking north
from route 7 for $2\frac{1}{2}$ miles through
woods and fields. Visited large
muddy pool in heavy oak woods
 $2\frac{1}{2}$ miles from route 7 (North), walked
6 miles by pedometer.

June 6, 1953. To Rapidan River
and Clark Mountain, and
just east of So. R.R. near foot of
first peak of Buzzard Mt.,
with E.C. Leonard. I walked
4 miles by pedometer.

All localities in Culpeper Co.
June 14, 1953. To Limestone Branch
north of Leesburg, Va. walked from
this route 7 across pastures 1 mi
and near Limestone Branch
over Conglomerate soil outcrops.

June 28, 1953. To Cub Run
at junction with route 50,
collecting north along this
stream, along the flood plain,
and in old fields and thickets
on the left bank going up.
walked about 1 mile about
up stream, and a short distance
below the bridge of route 50.

Nuphar advena was very
abundant in mud and water
from route 50 to a mile or
more upstream, and in full
flower. This trip was in Fairfax Co.
Pontederia cordata was growing
at the bridge of route 50. Entire
walk up and return covered
3 miles. Rocks red shales and sandstone
Fauquier Co.,

July 5, 1953. To Broad Run of
route 7, driving along Broad
Run as far as the Potomac.
Collected along the Potomac,
and at a point along Broad
Run near its emptying into
the Potomac. Outcrops red shales
and sandstone nearly vertical
over. (over)

collecting very poor on this trip, (9)
as much of the area is being
given over to devastated woodland,
barren weedy fields and a
building development.

July 12, 1953. To Girl Scout Camp (10)
at end of road, turning east
at Lucketts, about 3 miles and
near the Potomac. Walked
from this Camp by a trail to
the Potomac. An area very
poor from a botanical point of
view, and few plants of interest
were met with. Walked about
3 miles here a short distance
up the Potomac, then returned
to Limestone Branch below
Lucketts. Collected near and
above the bridge of route 15,
on conglomerate outcrop.
walked about $3\frac{1}{2}$ miles by
pedometer - all in Loudoun Co.

July 26, 1953 - To knob east of
Goose Creek about 1 mile and
about 2 miles north of route 7 to
Leesburg. All on diabase outcrops.
Visited muddy pool in woods near
field with big straw stacks, and about
opposite this. Found a large, fine
doe dead in the woods. Walked
about $4-4\frac{1}{2}$ miles in all by
pedometer. All in Loudoun Co.

August 2, 1953. To same area (11)
and pools, fields and woods
visited ~~August 26~~ ^{July 26}, 1953, all
diabase territory - a few field
plants, trees and shrubs
collected. Very dry. Walked about
5-6 miles. Day extremely hot and
sultry, partly cloudy with intense
sun in afternoon. Maximum
predicted 90°F.

August 9, 1953. To the same fields
and woods visited August 2, collecting
one new plant (Parthenium
integrifolium) near route 7.
Heavy showers drove us to the car
near 5 pm., with a deluge of rain,
a most wondrous rainbow following
over the eastern hills, with
supernumerary inner and outer
bows.

August 16, 1953. To the same area
covered on August 2, Aug. 9 and
July 26. A clear, not too warm
day, but thunderstorms indicated
in the west at nightfall.
