White Bronze

We have had an experience of
—ONE THIRD OF A CENTURY—

in cemetery work, and have seen many costly stone monuments erected. We have also seen them moss grown, cracked and defaced and become unsightly. Read what a Scientific expert has to say about White Bronze:

"I consider the White Bronze Monuments practically indestructible. They will not blacken or become dingy with age; moss will not adhere or grow upon their surface as upon marble, and the color will remain unchangeable while the monuments endure." S. P. SHARPLES,

State Assayer of Metals for Mass.

Read also what a pleased customer from the Granite State has to say:

"The White Bronze headstone I purchased of you some seventeen years ago is entirely satisfactory. It looks as well as it did when first set up. Judging from appearances it will last forever. You can use this testimonial if you wish."

.... FAYETTEVILLE

Fayetteville, N. C., situated on the west bank of the historic Cape Fear, is a *port* of entry and at the head of navigation on the said river; it is also at the crossing of two great railroad systems, being on the main line of the Atlantic Coast Line and Atlantic & Yadkin railroads. The Cape Fear river is now being further improved by the United States, and, as in the past, will guarantee for all time *cheap transportation* to the merchants and manufacturers of the city and its vicinity. Capitalists and business men see this, so we have recently erected a large silk mill, and the fourth immense cotton factory is now nearing completion. Arrangements have been made to transmit from the Falls of the Cape Fear 25,000 horse-power of electric force to run all kinds of machinery, thus opening the way for small manufacturing industries as well as large ones. And with a climate that has neither the rigor of the North or the debilitating heat of the South, but a happy, healthy medium that gives matchless beauty to our maidens and manly brawn and vigor to our young men.

With all the above and many other advantages, is it any wonder that our people are looking forward to the time when Fayetteville will *again* be the industrial, mercantile and manufacturing center of North Carolina, nor need you wonder that our merchants *can now* give such inducements as to draw customers from even beyond the limits of the State. We have three newspapers—the *Daily Observer* and *Weekly Observer*, edited by Maj. E. J. Hale, one whose liberal education and great experience in military and civil life has made him a cosmopolite; and the *North Carolina Baptist*, edited by Jno. A. Oates, Jr., one who with untiring zeal and energy looks after the religious and moral well being of his people. Now, as this catalogue will go to former customers of *Sunny Side Floral Nursery*, not only in Fayetteville and surrounding country, but to twenty-five States and the District of Columbia, should it fall into the hands of anyone wishing to know more of our favored land, write to either of the editors or to any of the *twenty-six business houses* of the city, whose cards you will find in this issue; they are the people who do not believe in waiting for something to turn up, but just go and turn something up and then use printers' ink to tell the rest of mankind what good bargains they have found. To our local patrons we would say, look over the cards of our advertisers, who thus join with us in respectfully soliciting your patronage for 1900, and wishing all, both patrons and advertisers, a happy and prosperous year, I am

Yours truly,

James M. Lamb

CONDITIONS.

Please read before writing your orders:

PLANTS BY MAIL.

We can send small plants by mail, free, when not less than one dozen plants are ordered at one time, but plants go better by *express*, as the soil in which they have been growing is not disturbed, and we always put in enough to help pay the charges.

PLANTS BY REIGHT.

Large Evergreens and Shrubbery can be sent by freight, as we carefully pack with damp moss so they would stand a two weeks' journey safely, and the charges are reasonable.

PLANTS BY EXPRESS.

Express charges on plants and shrubbery boxed, is 20 per cent. less than on general merchandise; is safe and quick.

TERMS CASH.

Except from known patrons, our terms are cash with order.

Postoffice orders or Express Money Orders are the best way to send money. *One or two cent* stamps for amounts less than one dollar will do. We will not be responsible for currency in letters except they are registered.

Put name and address on every letter. If a lady, write (Miss or Mrs.) before your name. Every letter received is answered same or next day. So if you do not receive an answer in a reasonable time, write again. "Uncle Sam" is careful and prompt, but sometimes people forget to sign their names, or omit to write County or State on the envelope.

CLUBS.

We offer no "chromos" or clap-trap inducements. We aim to give full value for every dollar we receive. Our plants are well grown, strong and healthy. But we are willing to pay for services rendered in getting up clubs or large orders from a neighborhood or community in money, or plants, bulbs, etc., or you may use the following scale of

PREMIUMS:

For \$1.00 you may select plants worth	\$ 1.15
" 2.00 " " " " "	2.35
" 4 00 " " " " "	4.75
" 5.00 " " " " "	6.00
" 10.00 " " " " "	12.50

Cash must accompany all club orders. Plants or bulbs will be put up in separate bundles, and all then shipped in one package, the club raiser to deliver each bundle: It is understood we will not hold ourselves responsible for moneys collected in this way. The club raiser acting solely as the agent of the customers

Evergreens,

The term "evergreens" is generally used to describe all plants that are hardy and hold their foliage from year to year, and includes Pines, Spruces, Magnolias, etc., down to dwarf box. We have made a specialty of growing this class of plants for years, and believe we have the finest collections and the largest stock in North Carolina. No place can have a homelike look without a few evergreens. We wish to call special attention to our stock of evergreens for hedges. Now we do not recommend hedges along a front fence, but for side fences or to divide the front from back yard the hedge is just right. We have a new hedge plant from Japan—*Citrus Tripolata*. It is used largely now for that purpose, and also as a specimen plant; bears freely its white blossoms and wrinkled yellow fruit, which hangs on for a long time. Seedling plants, 12 to 18 inches, 10 cts. each, \$1.00 per dozen, \$7.50 per 100.

Hedge Plants.

For cemetery purposes or for screens dividing the home grounds. We have a fine collection of *Arbournvitæ* in American, Chinese, Pyramidal and Gigantea, 12 to 15 inches, \$6.00 per 100, 18 to 24 inches, \$10 00 per 100. California privet and *Euonymus Japonica* at same prices.

Here is just a few of the *rarest evergreens* in cultivation:

Eriobotrya Japonica.** E. Loquat, or Medlar, or "Japan Plum." A most valuable large leaved plant, 50 cents.

Cedrus Deodara. The Deodar, or Great Cedar of the Himalayas. Probably identical with the Cedar of Lebanon, 75 cents.

Cryptomeria Japonica. The Japanese Cedar. The largest tree of Japan, with trunk 35 feet in circumference and 120 feet in height. Stem long, clear, perfectly straight. Of particular beauty. Pot-grown plants, 50 cents.

Cupressus. The Cypress. A genus of the most beautiful trees, varying in size, some attaining great proportions, 50 cts.

Tsuga, Carolina Hemlock. A new type of the Hemlock of Pyramidal growth, 50 cents.

Callitris robusta. The Cypress Pine from Queensland. Somewhat resembles our native red cedar, but is conical in form and very dense. A fine tree for the Lawn, 50 cents.

Psidium Cattleianum. Cattley Guava. This is quite a hardy species, with beautiful camellia-like, glossy leaves, evergreen, and producing immense quantities of red, acid fruits, averaging an inch thick. Makes very fine jelly. Will need protection in North Carolina, 50 cents.

Coffea Arabica. Arabian, or Common Coffee. Grown throughout the tropics, this beautiful small tree is highly prized for its product, and fortunes have been made in raising it commercially. Our climate here is too severe for it. The plant is an evergreen, with white jessamine-like flowers; the fruit is a red cherry, containing two Coffee beans. Is a pretty pot plant, and bears when but 2 feet high. Fine pot plants, 50 cts.

Magnolia fuscata. The Banana Shrub. Dwarf-growing variety, covered with a profusion of small flowers in April and may, of most exquisite fragrance, similar to that of a ripe banana. Nice young plants, pot-grown, 30 cents.

GERANIUMS.

The following we think the best collection of geraniums we have ever seen; price, 10 cts. each; \$1.00 per dozen :

DEADER, single bright crimson, immense trusses.

GRIFFITH, double, a deep salmon, distinct shade.

APPLE BLOSSOM, double pink, broadly margined bluish white.

PEACH BLOSSOM, soft, bright pink out of doors, tinted salmon.

MME. BRUANT, single Bruant, Miranda type. Color snow white with distinct carmine edge and petals veined with carmine-lake.

SOU. DE MIRANDE. The most popular and distinct new variety sent out in years, color white, banded with bright pink.

JEANNE D'ARC. This is a very much improved Sou de Mirande, being even freer to bloom and much darker and brighter color.

MME. BUCKNER, double, snow-white, strong, vigorous grower.

ALPHONSE RICCARD, best scarlet single geranium.

COMTESSE DE HARCOURT, double Bruant, pure snow-white.

MME. DE LA ROUX, single Bruant, a clear, bright salmon.

TRIUMPH DE NANCY, double, bright carmine-pink, with clear white center.

COLUMBIA, Miranda type. Bright dazzling scarlet. Upper petals white, shading to scarlet on the edges.

BENJ. SCHROEDER, beautiful clear-rose-pink with distinct white eye.

QUEEN OF THE WEST. This old favorite retains its position as the most satisfactory bedding variety, of a fine, orange-scarlet color.

ACTEON, semi-double Bruant, color clear vermillion scarlet.

MRS F. M. GARR, single, snow-white.

DISTINCTION. Foliage bright, green and stiff, bordered very dark zone. Flowers red.

MME. SALLEROI (Silver Variegated). Very fine for massing or bordering.

MOUNT OF SNOW. This is a very fine silver tricolor variety.

MRS. POLLOCK (Golden Tricolor). As an ornament for the parlor or conservatory nothing yet excels this beautiful plant.

LA FAVORITE.—Trusses very large and of the purest—double snowy white.

GEN. GRANT—Solid red; the best single bedding sort.

ERNEST LAUTH—Deep glowing crimson.

PAULINE LUCCA—Another fine single white, with beautiful dark zone on foliage.

GRAND CHANCELLOR—Large crimson maroon.

HETERANTHE—Vermilion-red, of a bright and pleasing shade; a dwarf compact grower; a full heading variety.

Pelargoniums, or Lady Washington Geraniums.

This beautiful plant surely deserves a more extensive cultivation—It rivals the blossoms of the beautiful orchid in texture and color of flowers. Their time in blooming begins in March and continues until late in June.

VICTOR. A large flower, blotched crimson on white ground, upper petals marked purplish black, fine, 10 to 25 cents each.

For bedding purpose we can furnish Geranium assorted for \$5.00 per 100.

French Cannas.

French Cannas.

We have during the past season demonstrated again the utility and beauty of the canna as a bedding plant—ever in light sandy soil if well enriched to a depth of 15 inches, they will please and astonish you. A fine collection of about 20 sorts, embracing the very best. Dry roots until May first, 10 cents each, \$1.00 per dozen; started in 4 inch pots, 15 cents each, \$1.50 per dozen.

Chrysanthemums.

PITCHER AND MANDA, very odd variety, inner petals rich chrome yellow, outer rows white.

GOLDEN LACE, dwarf, yellow.

GOLDEN WEDDING, fine yellow.

JESSICA, old well known white.

IVORY, old variety, good, white.

MRS. ALPHEUS HARDY, white ostrich plume.

ENFANT DES DEUX MONDES, a white sport of Louis Bohmer.

PRINCES OF MALETA, pure white feathery small flowers.

- DIANNA, old variety, fine pure white.
 LOUIS BOHMER, pink ostrich plume.
 MRS. E. G. HILL, beautiful early pink.
 V. H. HALLOCK, rosy pearl.
 ESMINILDA, Japanese pure rose pink.
 JAPANESE IMPERIAL, large Japanese variety, fine large light pink.
 MERRY CHRISTMAS, late, pure white.
 MRS. R. D. DOUGLAS, a very large incurved bloom, bright yellow.
 G. F. ATKINSON, a beautiful clear shell pink.
 GLORY OF THE PACIFIC, a magnificent extra early pink.
 W. H. RIEMAN, a grand exhibition, yellow, deep and very bright.
 MRS. PERRIN. A medium-sized flower; entirely distinct in color, which is of a glistening pink.
 THE QUEEN. Grandest of all white sorts; nothing surpasses the elegance of its form nor the chaste whiteness of its color. A healthy, free grower. No collection complete without it.
 MAJOR BONNEFON. The standard yellow for all purposes. A bright, clear yellow with shadings of largest size, being fully seven inches in diameter and nearly as deep. The plant is of dwarf, sturdy growth. As a specimen pot plant as well as cut bloom it has hardly a rival.
 J. H. TROY. Very early incurved white of fine form and good substance, tall, very large, one of the best early varieties.
 MRS. HIGGINBOTHAM. Finest hairy pink up to date, of broad, spreading, Japanese type, with exceedingly wide cupping and incurving petals, which are thickly covered with glandular hairs.
 MRS. HENRY ROBINSON. A variety of exceptional merit, large and well finished. An early white, blooming with us October 5th.
 AMBER QUEEN. Soft amber, with deep shadings.
 DAYDAWN. Large, white, centre creamy lemon,
 ROYAL PURPLE, rich rosy purple.

NORTH CAROLINA COMMISSION FOR CONTROLLING CROP PESTS,
Raleigh.

Certificate of Examination of Nursery Stock.

To Whom it May Concern:

Satisfactory evidence has been submitted to this Commission that the nursery grounds of JAS M. LAMB, at Fayetteville, N. C., were inspected by the State Entomologist on August 22, 1899; that the growing stock was declared by him to be free from all species of insects designated as dangerous pests by this Commission, and apparently healthy in every respect.

This Certificate expires September 1st, 1900, and includes only stock grown in the aforesaid nurseries.

No. 138.
