Are entirely out of spot Trophy Tomato Seed.

If you are interested, will mail samples upon receipt of inquiry.

Our method of curing the seed preserves the highest germinating qualities. In testing our Tomato Seed, note the vigor of the young plants in contrast with many varieties that are difficult to grow and that are sickly from start to finish.

We grow only one variety of each kind of seed, several hundred acres altogether, and by supplying very carefully selected stock seed we are assured of the purity.

Hoping to have your valued order, we are,

Yours truly,
