1900
ESTABLISHED 1853.

COMMONWEALTH OF PENNSYLVANIA,
DEPARTMENT OF AGRICULTURE.

PHILADELPHIA, PA., 8th mo. 7th, 1900.

TO WHOM IT MAY CONCERN:

THIS IS TO CERTIFY, That I have this 7th day of August, 1900, completed inspection of the nursery stock of Hoopes, Brother & Thomas, grown at West Chester, County of Chester, State of Pennsylvania, and believe it to be free from the presence of "San José Scale, Black-Knot, Rosette, Yellows, or other injurious insects or diseases," that might be transferred on Nursery Stock from the nursery to the orchard or garden.

This certificate is good until August 1st next following the date of inspection.

(Signed)

FRANK M. BARTRAM.

Special Agent.

As an extra precaution we have erected a Fumigating House in which to treat all kinds of stock.

—No. 3—

HOOPES, BROTHER & THOMAS,

Maple... Nurseries
Avenue

WEST CHESTER, PA.

.. SEMI-ANNUAL TRADE LIST ..

AUTUMN 1900.

WHILE we exercise the greatest care to have all our trees and plants genuine and reliable, and hold ourselves prepared to replace, on proper proof, all that may prove untrue, we do not give any warranty, expressed or implied, and, in case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not, at any time, be held responsible for a greater amount than the original price of the trees.

TWO MEDALS AND DIPLOMAS,

AWARDED BY

UNITED STATES CENTENNIAL COMMISSION.

Morning Republican Print, West Chester, Pa.

NOTICE TO PURCHASERS.

THIS list is intended for Nurserymen, Florists and Dealers only, and supercedes all previous editions. The prices are for the quantities named. Five Hundred, Fifty, and Five will be furnished at the Thousand, Hundred, and Ten rates, respectively. On smaller quantities a discount from our retail prices will be made to the trade. Dealers will be furnished at the lowest rates, when their bills for stock purchased at one time exceed two hundred dollars.

OUR NURSERIES,

Covering 600 acres, with a large amount of glass, are in the immediate vicinity of West Chester, which is situated twenty-seven miles west of Philadelphia, and with which we have nearly hourly communication by two railroads—one a direct road, the other a branch of the Pennsylvania Central, and from which we have a siding to our packing-house. By the latter route we are enabled to ship to all parts of the country, without transfer in Philadelphia, and at very low rates to distant points.

OUR OFFICE,

Situated at Maple Avenue Station, is ten minutes' walk from the Main Station in West Chester. Trains leave Broad Street Station, Philadelphia, for Maple Avenue, 6.15, 7.15, 8.40, 9.45, 11.45 A. M.; 2.40, 4.05, 4.42, 5.40, 6.45, 8.15, 10.45, P. M. Return, 5.55, 6.23, 6.41, 7.36, 9.09, 9.51, 11.55 A. M.: 2.19, 4.51, 6.38 and 10.55 P. M. Leave Broad Street Station for West Chester, 6.15, 6.49, 7.15, 7.17, 8.18, 8.40, 9.45, 11.12, 11.45 A. M.; 1.32, 2.40, 2.50, 3.48, 4.05, 4.32, 4.42, 4.55, 5.40, 5.44, 6.19, 6.45, 8.15, 8.35, 10.32, 10.45, and 11.43 P. M. Return, 5.15, 5.54, 6.00, 6.22, 6.40, 6.45, 7.35, 8.25, 9.08, 9.10, 9.50, 11.23, 11.54 A. M.; 12.50, 2.18, 3.05, 4.50, 4.50, 6.05, 6.37, 7.15, 10.24 and 10.54 P. M. A TROLLEY CAR (FARE, 25 CENTS) LEAVES SIXTY-THIRD AND MARKET STREETS EVERY 30 MINUTES FOR WEST CHESTER.

THE PACKING SEASON

Generally commences from the first to the middle of March in the Spring, and about the first of October in the Autumn. The season is not regulated, however, by any definite date, nor by the state of vegetation at the locality of the planter, but by the condition of the trees when received. Parties south of us may receive our trees some weeks after their season has opened, yet when planted they will give entire satisfaction.

PACKING.

All orders for forwarding by freight or express except in car-load lots are carefully packed in bales or boxes, for which a charge is made sufficient to remunerate for the cost of material and time.

SHIPPING.

Our shipping facilities to the West by fast freight lines, and to New England and the South by various steamship lines, are unexcelled in rapidity of transit and low rates of freight charges.

Purchasers are requested to name the mode of conveyance by which they desire their shipments, OTHERWISE WE WILL DESPATCH TO THE BEST OF OUR JUDGMENT. AFTER DELIVERING TO THE FORWARDERS, ALL ARTICLES ARE ENTIRELY AT THE RISK OF THE PURCHASER; AND SHOULD ANY LOSS OR DELAY OCCUR, THE FORWARDERS ALONE MUST BE HELD RESPONSIBLE.

All packages delivered free of cartage at the Freight and Express Offices in West Chester.

Parties desiring stock shipped per express C. O. D., MUST accompany their order with cash to one-half the amount, otherwise no attention will be paid to the same.

CLAIMS.

All claims for errors and deficiencies must be made within TEN DAYS after receipt of the stock. We desire to be notified of mistakes as early as possible, so that we may rectify the same without delay.

TERMS CASH.

The following Catalogues will be mailed on application, viz:

No. 1. Illustrated and Descriptive Catalogue of Fruits, three 2-cent stamps.

No. 2. Illustrated and Descriptive Catalogue of Ornamental Trees, etc., 10 cents.

No. 3. Wholesale Trade List free.

West Chester, Pa., August, 1900.

HOOPES, BRO. & THOMAS.

FRUIT DEPARTMENT.

THESE prices are for our selection of varieties, but we will adhere as closely as possible to the wish of the purchaser. In no case will we supply long lists of selected varieties of either Fruit or Ornamental Trees at wholesale rates, but will allow a discount on our retail prices proportionate to the amount of the order.

JOSIKFA (Chionanthus-leaved Lilac). A very distinct and beautiful species. We offer strong one-year old budded plants, 12 to 18 inches.	1 25	
WEeping (Pekinensis pendula), <i>new</i> , grafted on straight single stems, a decidedly pendulous and graceful form. The flowers are not unlike those of the Privet, but with large panicles. 3 to 4-feet stems and two-year heads	4 00	30 00
SEEDLINGS. Grown from seed saved from all the finest varieties in our large collection and showing a great diversity of tints, 3 to 4 feet, well branched and thrifty	1 25	10 00
NEW VARIETIES, strong two and three-year buds (described below). Price, except otherwise noted	1 25	10 00
Having tested a large number of the most popular and highly recommended foreign varieties as they were annually introduced, and selected only those for propagation that possessed a high order of merit, we confidently believe the following list embraces all the finest qualities known to this charming shrub.		
ALPHONSE LAVALLÉE, quite new, very large, fine, blue in compact trusses of double flowers, 18 to 30 inches.		
AMBROISE VERSCHAFFELT, very pretty pale pink with large trusses. Good grower and quite distinct, 12 to 18 inches.		
AMETHYSTE. One of the newer varieties of merit. Large panicles of bluish-lilac, 12 to 18 inches.		
BERTHA DAMMANN. Large trusses of pure white flowers, very profuse bloomer, 12 to 18 inches	1 50	
CERULEA SUPERBA. Very large trusses of bluish-lilac flowers. Strong grower, 2 to 3 feet		
FLORA PLENA, a valuable old variety with pretty, pale lilac flowers, quite double, 18 to 30 inches.		
GÉANT DES BATAILLES, bright reddish-lilac in large attractive trusses, 2 to 3 feet.		
GLOIRE DE CRONCELS. A beautiful variety, bright carmine in bud, but bluish-lilac when fully expanded. Trusses and flowers large and showy, 18 to 24 inches.		
HYACINTHÆFLORA. Beautiful large trusses of quite double, lilac-rose colored flowers, although with a reddish tint in bud. Among the earliest to bloom, 18 to 24 inches.		
JAPONICA, a new and unique species from Japan, attaining the size of a tree, with large panicles of white flowers. Foliage very large, thick and deep green color. Strong two-year-old plants, 2 to 3 feet	1 50	
JEAN BART. A striking novelty with dark red buds, and double claret rose-colored flowers, when fully open, 18 to 36 inches.		
LA TOUR D'Auvergne, another promising new double lilac, of strong growth, 18 to 24 inches.		
LAVANENSIS, beautiful, delicate rose-lilac, in fair sized trusses, 18 to 24 inches.		
LE GAULOIS, this elegant novelty blooms in large thyrsi of double bright red flowers, 18 to 24 inches	1 50	
LÉON SIMON. Very double bluish flower in large trusses, fine, 1½ to 3 feet.		
MME. ABEL CHATENAY, one of the most attractive novelties of recent introduction, with double milk-white flowers. Very compact panicles, 18 to 30 inches.	1 75	

	Per 10	Per 100
LILAC — MME. LEMOINE. Decidedly one of the most beautiful and useful new varieties grown. Very large panicles of pure white, double flowers, 18 to 24 inches	\$1 75	\$15 00
MME. MOSER. Pure white single flowers, in fine trusses. Strong growth, with large foliage, 12 to 18 inches	1 50	
MATHIEU DE DOMBASLE, one of the very best. Large truss of double rich reddish lilac, 18 to 30 inches.		
MAXIME CORNU. One of the newer double lilacs, very attractive and desirable, 18 to 24 inches.		
MONSIEUR LEPAGE. An elegant new variety with very large flower. Lilac-blue, whitish outside, and very distinct, 18 to 24 inches.		
NIGRICANS, trusses large and compact, very deep reddish lilac. Foliage dark green, 12 to 18 inches.		
PHILÉMON, a new lilac not yet flowered in our collection, 12 inches.		
PIERRE JOIGNEAUX. One of the newer varieties with large panicles of double flowers, 18 to 24 inches.		
PYRAMIDALIS, an exceedingly fine novelty with large, full, semi-double flowers. Rose colored, 2 to 3 feet.		
PROFESSEUR STOCKART, dwarf grower, with large trusses of reddish-lilac flowers. Free bloomer, 18 to 30 inches.		
RENONCULE, exceedingly double, short compact truss. Pale reddish-lilac, 2 to 3 feet.		
ROTHOMAGENSIS. Beautiful reddish-purple, in large panicles. Quite distinct and attractive, 3 to 4 feet.		
ROTHOMAGENSIS METENSIS, pale reddish lilac, in long, panicles. Growth very vigorous, 3 to 4 feet.		
SÉNATEUR VOLLAND, one of the finest double novelties of the season. Large and distinct, 2 to 3 feet.		
SOUVENIR DE LA SPATH, the most distinct and beautiful variety in the collection, trusses immense, very compact, florets very large, deep purple red, 2 to 3 feet	1 50	12 00
SAUGEANA, a member of the Persian group, with reddish purple flower. Fine strong grower, 3 to 4 feet.		
VERSCHAFFELTI, handsome shade of pale lilac. Very large and fine, 12 to 18 inches.		
VILLE DE TROYES, an excellent new form with large trusses of rosy or reddish-lilac, 18 to 24 inches.		
VIOLACEA, strong growth, very double and fine. Pale blue color in short compact trusses, 18 to 24 inches.		
VIRGINAL, very distinct, large pure white flower and truss. Growth strong, free bloomer, 12 to 18 inches.		
VIRGINITÉ, a beautiful new lilac with the same tint as the rose "Souvenir de la Malmaison." Very double and striking flowers, 18 to 24 inches.		
VILLOSA, another new Japanese species with foliage resembling the <i>White Fringe</i> (<i>Chionanthus</i>), and producing immense panicles of whitish or pale peach-colored flowers late in the season, 18 to 24 inches.		
LONICERA (Upright Honeysuckles)— FRAGRANTISSIMA, very fragrant and early, 2 to 3 feet	1 25	
MORROWI, new and desirable. Beautiful both in flower and fruit, 2 to 3 feet	1 00	8 00
ALBERTI, a dwarf trailing species with linear bluish leaves, 12 to 18 inches	1 25	
TARTARICA, pink flower, 2 to 3 feet	1 00	8 00

STANDARD SHRUBS.

The practice of training shrubs in tree form is comparatively new and has proven unsurpassed for the pleasing effect produced in formal gardening work. As centres for beds, groups, etc., or for straight lines bordering walks, they are especially appropriate. A collection of assorted colors of the *Althæa* will prove much more reliable and satisfactory than Tree Roses, while being equally as attractive when in bloom. The following heights annexed to each are intended for the stem only, measuring from the ground to the lowermost branch in the head.

CLASS 1.—GROWN IN THE OPEN GROUND

All on their own roots unless otherwise noted.

	Per 10	Per 100
HYBRID PERPETUAL—Two years, strong and very healthy	\$1 50	\$12 00

Mainly of the following kinds: ALFRED COLOMB, ANNA DE DIESBACH, BARONNE PRÉVOST, CAPTAIN CHRISTY, CAROLINE DE SANSAL, COQUETTE DES BLANCHES, CHAS. MARGOTTIN, CROWN PRINCE, CLIMBING VICTOR VERDIER, DUKE OF EDINBURG, FRANÇOIS LEVET, FRANÇOIS MICHELON, GÉNÉRAL JACQUEMINOT, GLOIRE LYONNAISE, JOHN HOPPER, LA REINE, MME. CHARLES WOOD, MME. GABRIEL LUIZET, MAGNA CHARTA, MARGARET DICKSON, MARSHALL P. WILDER, MAURICE BERNARDIN, MRS. JOHN LAING, PAUL NEYRON, PRINCE CAMILLE DE ROHAN, ULRICH BRUNNER and VICK'S CAPRICE.

NOTICE.—We desire to call special attention to our large block of GÉNÉRAL JACQUEMINOT roses, consisting of several thousand fine plants, 2 years old, on their own roots, and well-grown. Having been raised on thoroughly drained, high ground, they will move with almost perfect certainty of success, and afford entire satisfaction. No extra charge will be made for supplying this popular variety in large or small lots, alone.

CLIMBING—Strong, one and two years. BALTIMORE BELLE, EMPRESS OF CHINA, GREVILLE, PRAIRIE QUEEN, SETIGERA (Wild Prairie Rose), WHITE RAMBLER and YELLOW RAMBLER	1 00	8 00
GEM of the PRAIRIES. On its own roots, fine strong plants, 2 years	1 25	10 00
EUGENE JARDINE. A climber of superior excellence, producing large whitish flowers. Strictly hardy and a strong grower, 2 years	1 25	10 00

NEW CLIMBING ROSE.

WILLIAM C. EAGAN. This is an entirely new, distinct and very desirable candidate for a position in our list of choicest climbing roses. Being convinced of its many excellent properties, we have grown a large stock of healthy young plants, and take special pride in their dissemination. It was raised by Mr. Jackson Dawson of the Arnold Arboretum, Boston, Mass., and is the product of *Wichuraiana* crossed by Gen. Jacqueminot, without any trace of either in the bloom. The habit of the plant is sub-climbing, but vigorous and healthy, with bright glossy foliage. The flower is large and very full, resembling in shape as well as color, the *Souvenir de la Malmaison*. Although only an annual bloomer, it remains in flower several weeks, and the large trusses of superb bloom are unusually attractive. Mr. Dawson considered this the best of all his numerous hybrids. It is unquestionably reliable and hardy at the North. Field-grown, strong and healthy, 2 years

Per 10	Per 100
