In presenting our Condensed Price List for the Spring of 1901, we wish to thank all our patrons for past favors, and we hope by honorable dealing to merit the continuance of your esteemed orders.

All orders received by us have our personal and prompt attention and we guarantee reasonable satisfaction in every case as thousands of unsolicited testimonials now on file fully attest.

We have endeavored to make our prices as low as any for the same class of stock. All stock sent out by us is carefully selected for the different sizes and grades.

With Our Storage Cellar and Packing House and a complete system of our own water works, distributing water to all parts of our packing grounds, we feel that our facilities for the careful and prompt handling of Nursery Stock are the best.

Our Nursery has been properly inspected by the State Inspector, and a card of inspection will be attached to each package or box, thus securing our customers against all danger on this point.

Our Shipping Facilities are Unexcelled. Arlington Heights is only 22 miles from Chicago on the Chicago & North-Western Railway, where connection can be made with all other railroads. Trains leave Chicago at 7:30 a. m. 8:10 a. m. 10:50 a. m. 3:27 p. m. Express Trains for Chicago, leave Arlington Heights at 7:47 & 9:47 a. m. 12:46 p. m. 2:52 p. m. 5:15 p. m.

The greatest possible care is exercised by us to keep our varieties pure and true to name. We hold ourselves in readiness to replace on proper proof all stock that may prove otherwise, but, it is mutually agreed between purchaser and ourselves that we shall not at any time be liable for any amount greater than the original price of the goods.

Visitors to our establishment are always welcome and shown the stock with pleasure, while correspondence is urgently solicited and will receive careful and prompt attention.

Please let us hear from you, or better, come and see us.
