—GROWERS OF—

Tomato and Radish Seed for Wholesale Trade Only.

CONTRACT OFFER — CROP OF 1901.

*M*_____

We solicit your orders for the following varieties of Tomato and Radish Seed. Our Tomatoes are grown for seed purposes only, and from our own selection and growth of stock seeds. We also raise our own Radish stock seed, growing it from sorted and transplanted roots. Thus we maintain a high standard which our patrons find can be depended on. The valuable and distinctive characteristics of the several varieties are carefully maintained. We use constant care in co-operating with our patrons, and all orders entrusted to us are given that personal care and attention which every seed merchant desires, in the growth and cleaning of the seeds he sells.

We will undertake to grow other varieties than those listed herein, but the stock seed will have to be furnished. Ample acreage will be planted to produce the required quantity of seed, but in event of failure on account of weather, fire or any other cause we are only bound to furnish, pro rata, what seed may be saved.

We send out seeds of our own growing only.

Shipments begin in November and are usually completed on or before Dec. 20. Delivered F. O. B. South Haven, Mich. Bags at value.

Terms—60 days acceptance, or two per cent discount for cash in 10 days from shipment.

Trusting that we may be favored with your order for 1901, we are,

Yours Respectfully,
