ACALYPHA MARGINATA.

ACALYPHA SANDERI.

Known also as Philipene Medusa or Chenille Plant (Comet Plant.) A sensational novelty. Silver medals have been awarded it at Boston and New York. Leaves are dark green, from the axil of which springs a long, drooping spike of glowing crimson-scarlet flowers, nearly an inch in diameter and from eighteen to twenty-four inches long, very velvety in texture, reminding one of a long piece of brilliant chenille. An exceedingly curious and interesting novelty; unlike any other decorative plant. This plant is never out of bloom. It is bound to have a large sale on account of its oddity and rarity. Price, 60 cents per dozen; \$5.00 per 100.

ACALYPHA TRICOLOR.

A beautiful plant, with large highly-colored leaves. Bright red, with blotches of crimson-bronze. See cut. Price, 5 cents each; 50 cents per dozen; \$4.00 per 100.

ANTHEMIS CORONARIA SUPERBA—DOUBLE GOLDEN MARGUERITE.

This plant may be well called the "Shower of Gold," as it is a perfect mass of rich golden-yellow flowers the whole year round, being equally useful in winter as in summer. Price, Fine Specimen Plants,

15 to 18 in., HIGH, 4 TIERS OF NOT LESS THAN
4 FRONDS EACH. 6 in. POTS,

75^{Cts.} Each, \$9.⁰⁰ Per Doz.

These Plants should retail for \$1.50 to \$2.00.

As a decorative plant for the house this is one of the handsomest and most serviceable. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances; its symmetry of form, grace and beauty of foliage are unequalled in the vegetable kingdom. It is easily grown in the house and is highly ornamental. Our importation of these was exceptionally large and fine selected stock, especially in the medium size, for which there is always a demand.

AGERATUMS.

A good collection, containing the following sorts. Price, 40 cents per dozen; \$3.00 per 100.

White Cap. New. It is, without doubt, the best white variety ever introduced.

Variegatum. Beautiful variegated leaves.

Tapis Blue. This is the best blue Ageratum for bedding, etc., yet introduced. Price, 40 cents per dozen; \$3.00 per 100.

ANTHEMIS C. S.

ASPARAGUS.

PLUMOSUS NANUS AND SPRENGERI.

Two Valuable Plants for Decorative and Cutting Purposes.

Asparagus Plumosus Nanus. One of the handsomest of our foliage plants. The leaves are a bright green, gracefully arched, and as finely woven as the finest silken mesh. Their lasting quality, when cut, is remarkable, retaining their freshness for weeks, hence it ranks as the most valuable plant we have for this purpose, surpassing Maiden Hair Fern in grace, fineness of texture and richness of color. It is one of the finest decorative vines recently introduced; by many florists it is used instead of smilax, as easily grown and very much more beautiful on account of its light feathery growth. Price, 50 cents per dozen; \$4.00 per 100; \$35.00 per 1,000; 3½ in. pot, 75 cents per dozen; \$6.00 per 100; stronger, 4 in. pot, \$1.00 per dozen; \$8.00 per 100.

Asparagus Sprengeri. Not only is it useful for cutting in sprays for fine cut-flower work, more, particularly in connection with large roses, etc., but grown in suspended pots it makes one of the prettiest decorative house plants we know of. Used in decorations, as, for example, in the decoration of mantels, nothing can equal it. The most valuable florists' plant of recent years. The fronds are long and wiry, and for flat bouquets nothing equals it, for, while fleecy in appearance, in reality it is very stiff and forms an elegant support for flowers. It is also a handsome thing for ferneries and hanging baskets. See illustration. Price, 50 cents per dozen; \$3.00 per 100; \$25.00 per 1,000; 3½ in. pot, \$5.00 per 100; 4 in. pot, \$6.00 per 100.

ASPARAGUS PLUMOSUS NANUS.

THE OLD ASPARAGUS TENUISSIMIS.

Instead of the flat fern like leaves of the Asparagus P. N., this variety has a soft filmy foliage making it indispensable for bouquet work. It is of the easiest culture and will thrive with almost any kind of treatment. Price, 50 cents per dozen; \$3.00 per 100.

BOSTON IVY. (AMPELOPSIS VEITCHII.)

This vine also goes under the name of "Japanese Ivy" and "Boston Ivy." It clings readily to any surface, not even excepting glass, where it will spread its fairy-like tracery of infinite small leaflets and the accompanying circular suckers by which it is attached. The older leaves attain a moderate size. They are graduated down to very small ones. The texture is leathery and smooth. The foliage is closely overlapping, not a stem visible. Its color, very bright in autumn, is a delicate green in summer. Price, 50 cents per dozen; \$3.00 per 100.

ASPARAGUS SPRENGERI.

BEGONIAS.

REX AND FLOWERING VARIETIES.

LESUDSI.

Souv. de Presdt. Gualin.

A beautiful variety. The bloom a most beautiful rosy vermillion. The leaves are of most beautiful form, bronze-green above the purple below. The plant assumes a fine tree form with a little attention. Price, 50 cents per dozen; \$4.00 per 100.

Begonia President Carnot.

A remarkably strong growing variety, of stiff, upright habit; foliage large and somewhat in style of Begonia Rubra, but more than twice as large; upper side deep green, under side purplish-red, flowers beautiful coral-red, in large pendant panicles. Price, 10 cents each; 50 cents per dozen; \$4.00 per 100.

Begonia M. de Lesseps.

A charming variety on the order of Argentea Guttata, the leaf being four times the size seen in that variety, while the silky texture is the same, and it is beautifully spotted with silver. A very strong, free-growing variety that will succeed with any ordinary care, growing rapidly and sending out quantities of leaves. Price, 50 cents per dozen; \$4.00 per 100.

Begonia Vernon.

This excellent variety is of unusual merit as a bedding sort; foliage rich glossy green, often shaded deep bronze, changing to a beautiful clear rose in the open flower. Price, 6 cents each; 50 cents per dozen; \$3.00 per 100.

Begonia Argentea Guttata.

It has purple-bronze leaves, oblong in shape, with silver markings, and is in every way a most beautiful Begonia. It produces white flowers in bunches on ends of growth stems. Price, 50 cents per dozen; \$3.00 per 100.

New Begonia, Speculata.

Quite a novelty in the Rex type. Leaves are in the form of a grape leaf. Color is a bright green, with a background of chocolate; veins of a light pea-green, the whole leaf spotted with silver. In bloom it is magnificent; the panicles, composed of great numbers of individual pink blooms, are lifted high and spray-like quite clear of the foliage. Price, 60 cents per dozen; \$5.00 per 100.

Rex.

This class of Begonias are grown exclusively for the great beauty of their foliage, which is very large, and beautifully variegated a peculiar silvery-metallic gloss. Having a larger stock than any previous year of a good assortment of ten varieties, we think we can supply the demand, which has always been good for the Rex Begonia. Price, mixed varieties, 50 cents per dozen; \$4.00 per 100; named, 60 cents per dozen; \$5.00 per 100; \$40.00 per 1,000.

Begonia Rubra.

One of the finest Begonias in cultivation. Its dark, glossy green leaves, combined with its free flowering habit, make it one of the very best plants for house or conservatory decoration. The flowers are a scarlet rose color. Price, 50 cents per dozen; \$4.00 per 100.

Begonia Erfordia.

A sterling novelty for florists. Begonia Erfordia has all the good qualities of the famous bedders, Vernon and Dewdrop, and is a novelty we can strongly recommend. It will stand the strong sun in summer, and is one mass of bloom from June until frost. It is also a very showy pot plant for spring sales. Habit of growth strong and compact; color deep rosy pink. We have a splendid stock and offer it at an exceptionally low price. Price, 50 cents per dozen; \$3.00 per 100.

Flowering Begonias— Older Sorts.

Price, 50 cents per dozen; \$3.00 per 100.

McBethii. Foliage fern like, panicles of pure white flowers, produced in the greatest profusion.

Fuchsoides Coccinea. Elegant, free-blooming variety. It resembles Hybrida Multiflora in growth; the flowers are bright scarlet.

Foliosa. A handsome plant, the foliage is small and delicate, and contrasts well with its white blooms.

Robusta. The flowers are borne in clusters, and with the coral-red buds form a most elegant and chaste appearance.

Marguerite. Leaves bronzy-green, somewhat resembling Metallica; large trusses of light rose-colored flowers.

Nitida Alba. A strong growing, profuse blooming variety, producing immense panicles of pure white flowers.

BEGONIA SPECULATA.

CARNATIONS

THE NEWEST
AND BEST.

NOTE—When our January trade list was made up, we included in it the following varieties which we expected to have ready to ship January first, but our first and second crops were a failure, and we have learned since that the general Carnation crop of early cutting was very poor. This caused the delay in filling some of our Carnation orders, but we now have a good stock of the following and think we can fill all orders on receipt of same.

New Pink Carnation, "ETHEL CROCKER."

We consider this new Carnation by far the best ever offered to the trade. The flowers under ordinary culture measure from 3 to 3½ inches in diameter and perfect in form. The color is a clear pink, delightfully scented, with a very stiff stem. The habit of the plant is good, health perfect, strong grower and a very free bloomer. Price, rooted cuttings, \$4.00 per 100; plants, \$6.00 per 100.

Olympia. The best variegated Carnation of the 1901 list. Color, glossy snow-white, very delicately penciled scarlet. Less red in it than in Mrs. Bradt. Flowers large, smooth edges, stems very stiff and a good length. The introducer claims the percentage of flower much higher than Mrs. Bradt. Price, rooted cuttings, \$4.00 per 100; plants, \$6.00 per 100.

New Carnation Marquis. This is undoubtedly one of the finest pink Carnations ever introduced. Its color is distinctive, being a true pink—a soft shade with no trace of purple. Its form is perfect, fragrant, delightful, and keeping qualities wonderful. The plant is a strong grower, free bloomer, and propagates readily. Price, rooted cuttings, \$4.00 per 100; plants, \$6.00 per 100.

General Maceo. One of the best of the dark Carnations. Flowers are full, nicely fringed and with a good long stem. Color, dark scarlet with maroon shadings, good color and a free bloomer. Price, plants, \$3.00 per 100.

White Cloud. Undoubtedly the best pure white Carnation on the market. The flowers are large, fine shape and very fragrant. Blooms very early on stiff stems and continues to bloom the entire season. Price, rooted cuttings, \$1.50 per 100; plants, \$3.00 per 100.

C. H. Crane. We consider this the best scarlet to date as a good all round, free bloomer and early Carnation. The flowers are a bright scarlet, a good form, and on a stiff stem. The plants are easy to grow and bloom very freely. Price, rooted cuttings, \$1.50 per 100; plants, \$3.00 per 100.

Mrs. Frances Joost. An improved Scott. Color a clear pink. Blooms large, very fragrant; calyx good, never bursts; long stem which holds the flower erect. Its habit of growth is similar to Wm. Scott, sturdy, vigorous and free. Price, cuttings, \$1.50 per 100; plants, \$3.00 per 100.

General Gomez. A very good dark variety. Color deep maroon; flowers from 2 to 2½ inches in diameter. Price, plants, \$3.00 per 100.

Painted Lady. A large, very full flower, with long stiff stems; color, brilliant cherry pink, often laced lighter pink at edges. A strong, healthy grower, with clean, healthy foliage. Price, cuttings, \$1.50 per 100; plants, \$3.00 per 100.

Psyche. A splendid free flowering Carnation, pure white flaked scarlet. It is an easily grown variety, and its strong vigorous growth and freedom of bloom commend it to every plant admirer. Price, cuttings, \$1.00 per 100; plants, \$2.50 per 100.

Gold Nugget. Pronounced by all to be one of the finest yellow Carnations yet introduced. The flower is of excellent shape and substance, carried on long stiff stems. A clear deep yellow and very prolific bloomer. Price, rooted cuttings, \$1.50 per 100; plants, \$3.00 per 100.

MRS. GEO. BRADT.

Mrs. Geo. M. Bradt. The largest flower and the most beautiful variegated Carnation to date. The illustration gives but a faint idea of its beauty. A constant blooming, long-stemmed and extra large flowered variety, white striped, bright scarlet. This is the most showy of all the fancy flowered Carnations. Remarkable for its extra large size, and delightful fragrance. Price, cuttings, \$2.00 per 100; plants, \$4.00 per 100.

Flora Hill. The plant is a healthy, clean grower, entirely free from rust or disease, of the easiest possible management and wonderfully free in bloom. Flower of enormous size, of nice rounded form, highly clove-scented, and all borne on very long stems, making it an ideal variety for cut flowers. Price, cuttings, \$1.00 per 100; plants, \$2.50 per 100.

Triumph. The ideal pink Carnation. Color, a pure bright pink. The flowers are extra large, on stout, straight stems 2 to 3 feet in height, delightfully fragrant and remain in perfect condition for a long time after being cut. Price, cuttings, \$1.00 per 100; plants, \$2.50 per 100.

CARNATIONS Standard List.

Prices—Rooted Cuttings, \$1.50 per 100; Plants, 40c. per doz.; \$2.50 per 100.

Daybreak. More widely known than any other variety of Carnation. It is a great favorite as a cut flower variety and merits the grand reputation it has the world over. Color, a delicate bright flesh. Very free flowering and long stemmed.

Lizzie McGowan. Still a favorite variety; easily handled and very productive. A pure white, with good size flowers of delightful fragrance. Should be included in every collection of Carnations.

Wm. Scott. A Carnation that everybody grows; very free flowering and easily grown. It is a beautifully fringed, delicate light pink, of good size. Very fragrant, and will keep for weeks after being cut.

Argyle. Color, a lovely shade of carmine pink, or rather pure cerise; flowers $2\frac{1}{2}$ to 3 inches in diameter, borne on stems 18 inches long; healthy, and free from rust; perfect calyx; early, continuous bloomer. The flower is of exquisite form; promises to prove a leader among pinks.

Armazindy. Flowers are pure satiny-white, and marked and shaded with rosy-pink, good size, perfect form, never bursts. One of the most profuse bloomers in the whole family.

Firefly. Deep scarlet, resembling Garfield; early, continuous bloomer; large, well-formed flower, two and a half inches and more in diameter; strong, vigorous foliage covered with heavy bloom.

Mayor Pingree. An excellent lemon yellow, lightly marked with pink and occasionally splashed white.

Portia. Brilliant scarlet. An exceptionally bright color in a Carnation. This is not a red, but is like that rich, glowing shade of scarlet so often found among Geraniums. Growth very vigorous and strong. Foliage large and deep green.

Eldorado. Light clear yellow, petals edged with a narrow band of light pink. A strong, vigorous grower with fine healthy foliage; stems of good length, supporting large finely formed flowers. The color shows up well under artificial light, and does not look white as so many yellows do.

Jubilee. Color, intense bright scarlet of the richest shade. The flowers are of the largest size, and when in full bloom resemble a large bouquet of dazzling red.

Bon Ton. Bright, warm scarlet, large, deeply fringed, fragrant flower on a stem as stiff as a reed. Perfect calyx. Habit of the plant exceptionally strong, resembling Portia, but much heavier and more vigorous.

HARDY SCOTCH OR SWEET MAY PINKS.

These are dwarfier than the Carnation, growing about one foot in height, the colors being of the various shades of maroon, carmine and rose, beautifully laced and banded on white ground, flowers perfectly double, clove-scented, and the plants will stand out of doors year after year, being entirely hardy. Price, 50 cents per dozen; \$3.00 per 100.

Brunette. Center very dark and velvety, almost black.

Juliette. Deep cherry red, variegated with pink and pale silvery white. Very fine.

The New Double White Pink,

HER MAJESTY.

We have much pleasure in drawing attention to this charming novelty, which is one that will hold its own as long as Pinks are cultivated. It has become one of the most "popular of the day," being grown by acres to supply demand for cut flowers. Price, 50 cents per dozen; \$4.00 per 100.

NEW DOUBLE WHITE PINK,
HER MAJESTY.

THREE TYPICAL
CROTONS.

CROTONS.

The Crotons are among the finest decorative foliage plants known. As easy to grow as Coleus, and much brighter in their coloring. The leaves of all are more or less veined and margined, sometimes entirely variegated with shades of yellow, orange and crimson. Some have long, narrow leaves, arching gracefully fountain fashion; others are broad and short, oak-leaved. Some recurve very much, others are twisted corkscrew-like. Crotons love heat, sunshine and moisture. Price, 50 cents per dozen; \$4.00 per 100.

CHRYSANTHEMUMS.

The Best for Cut Flowers and Pot Culture.

We have for a number of years flowered about 6,000 plants, running three flowers to the plant, and have planted the varieties that have been the best all round for size, time of flowering and quality of flowers.

The first twenty varieties are the ones we are growing for this purpose and are arranged from first to last, according to time of flowering.

Price, 40 cents per dozen; \$3.00 per 100; 200 for \$5.00.

Mme. F. Bergmann. Very large and full, and of the purest white, with creamy center; a strong, sturdy habit; fine foliage. The most popular white variety with florists for early forcing.

Glory of Pacific. It is of magnificent size and depth, with broad petals, which finally reflex, showing the clear pink color to excellent advantage. It is of dwarf but vigorous habit; very early, large size.

J. A. Lager. Reflexed, of great depth. Petals long and twisted, open at the end, of beautiful pure yellow.

Mrs. Henry Robinson. Immense incurving, broad-channelled petals of great substance and the purest white; from a flat incurved form it gradually changes into a perfect ball of snow.

Mrs. E. G. Hill. Specimens of this fine new early pink Chrysanthemum were passed upon by the judges at the World's Fair and the exhibitor was awarded a medal and diploma, the points noted being earliness, size, form, color and vigor of growth.

The Wonderful New Lemon, AMERICAN WONDER OR PONDEROSA.

Below we give you the introducer's description.

Nothing that has ever been brought to our notice in the plant line has caused one-half the commotion that this wonderful lemon has. It is a true ever-bearing variety. The tree has fruit in all stages of development, from the size of a pea up to the ripe fruit, showing it to be a true ever-bearer. Fruit has been taken from a tree weighing over four pounds.

In addition to its fruit bearing qualities it makes a very handsome plant for house culture. The dark green foliage is very large and handsome and the pure waxy flowers with yellow stamens are nearly as fragrant as Orange blossoms, which they greatly resemble.

No budding or grafting is necessary. The plant is of very easy culture, flowering and fruiting in any good ordinary soil. Price, nice plants, \$1.00 per dozen; \$7.00 per 100.

Among the new varieties of oranges that have been recently introduced from Japan and other countries, there is one dwarf free-flowering variety, which is suitable for pot culture, and which with anyone proves one of the most desirable pot plants it is possible to possess. We refer to the Japanese Otaheite. While it will grow three or four feet high and branch freely, it is not an uncommon thing to see little cutting plants five or six inches high full of bloom, and even bearing one or two medium-sized oranges. The fruit at their best are not more than half the size of an ordinary orange, but are very bright and beautiful in color, delicious in quality; but it is for its flowers more than its fruit which commends it to general cultivation. When it blooms it is so full that it seems to be all flowers. The pure waxy-white blossoms emit a delicate yet powerful fragrance, which is surpassed by no other flower.

Price 50 cents per dozen; \$4.00 per 100.

THE BABY PRIMROSE.

(*Primula Forbesi.*)

It is a wonderfully free-blooming plant, commencing to flower as soon as born. It is raised from divisions; also from the seed, though the latter method is unadvisable owing to the uncertain and variable character of the seedlings. It forms a dense rosette of somewhat fleshy leaves, from which spring the flowering stems, twelve, fifteen and even twenty inches tall, supporting three tiers or whorls of dainty flowers of a delicate rosy-lilac, with eye of pure gold. The flowers are not more than half an inch in diameter, but they are produced in such great abundance that a few plants present a dense mass of bloom, which continues without interruption and with increasing vigor from September until June. Nice plants, 40 cents per dozen; \$3.00 per 100.

RUSSELLIA ELEGANTISSIMA.

VELVET PLANT.

Gynura Aurantiaca. VELVET PLANT.

White La France.

(Augustine Guinnoiseau.)

Here we have a beauty indeed, one we recommend to all, whether for outdoor culture or for pots in the house in Winter. If you were to ask us to select six of the very finest Roses for you, we should be sure to include it in the six. Do you know La France? If so, you know this elegant new Rose. It is identical with La France, except the color. It is pearly-white, sometimes tinted with fawn.

The Beautiful White Marechal Niel.

The fame of Marechal Niel, with its large, deep, golden-yellow flowers, is so world-wide that nothing further need be said of this new variety to make it instantly popular than that it is the exact counterpart in every respect of Marechal Niel, its parent, save the color of flower, which is pure white, totally distinct.

The Wonderful Red Marechal Niel.

The Red Marechal Niel is the result of a cross between the ever-gorgeous Gen. Jacqueminot and the Yellow Marechal Niel. Flowers are large, well-shaped, full, and of the form of Yellow Marechal Niel in the bud and open flower; color carmine red, shading to pink; fragrance delightful. Very strong grower, though not so rampant as the Yellow Marechal Niel.

Forcing Rose,

Kaiserin Augusta Victoria.

This beautiful Rose, has not only a royal name, but is a royal Rose as well. We have white Roses that have elegant buds, but when full blown are not all that is desired. Then again, we have white Roses that are elegant when full blown, but have poor buds. This Rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open. Color a pure snowy-white.

La France.

We have always given this the first place—the Queen of Roses. Accounts come to us from all quarters every year describing the great profusion of its bloom from June until frost, and extolling its fragrance and immense size. It is of superb form, and double as a Rose can be. No variety can surpass it in delicate coloring—silvery rose shades, with pink. It has a satin sheen over all its petals. It is most universally regarded as the most useful of Roses, for it is hardy beyond question.

New Hybrid Tea Rose, President Carnot.

It is a Rose of the largest size, beautiful both in bud and open flower. The color is distinct and novel, a lovely fawn, shading to pearl. It often measures 5 to 6 inches in diameter. We have no hesitancy in saying that this charming Rose will become as popular as La France, as it has all the good qualities of that Rose, and at the same time is distinct in every feature.

New Rose, Mrs. Robert Garrett.

The buds are unusually long and pointed; the open flowers full and double. The color is a pleasing soft pink, a little deeper than Daybreak Carnation, totally distinct and unlike anything yet seen in Roses. It is a strong, vigorous grower, producing its flowers on long, stiff stems. We regard this as one of the great new Roses, which will attain instant popularity as soon as its merits become known.

New Scarlet Rose, Climbing Wooton.

The flowers are large and of a beautiful velvety-red color, and the perfume is elegant. Whether open, half open or in bud, the flowers are of fine shape. The flowers are borne at the terminus of long shoots, which render them especially good for cutting, much better, in fact, than the flowers of its parent, Souvenir de Wooton. There is always a demand for a good, hardy Climbing Tea, inasmuch as there are exceedingly few to be had. This Rose we believe to possess a very considerable degree of hardiness, and should, with protection, stand the Winter almost anywhere.

We have in quantity all the best cut flower or forcing Roses.

Notice our prices on these varieties.

ROSES

The varieties below \$3.00 per 100. \$25.00 per 1000.

MAMAN COCHET.

One of the best new Roses. The growth is vigorous, with rich, healthy foliage. The extra large flowers are produced on long stems, are very double, and the buds and half expanded flowers are simply exquisite in their graceful form, delicate color and rich fragrance. The color is deep rose pink.

The Beautiful White Forcing Rose,

WHITE MAMAN COCHET.

The finest rose of the year; like its parent the growth is vigorous with rich, healthy foliage, producing large, fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet and all who have tried it pronounce it the finest cut flower Tea Rose in existence.

Grand New Velvety Rose,

CLIMBING METEOR.

Climbing Meteor is the acme of all red Climbing Roses. It is a free, persistent bloomer and will make a growth of from ten to fifteen feet in a season; in bloom all the time, as it is a true ever-bloomer. We do not hesitate to place it at the head of the list of all Roses for summer blooming, as it will make a strong growth and literally loaded with its deep, rich, red flowers all the time. Its flowers are much larger than Meteor and are richer in color.

The Superb Yellow Rose,

MARECHAL NIEL.

The most popular of all. A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over; they illustrate the globular form in its last perfection, and are almost massive in dimensions. It is almost universally held to be the finest climber for indoors or out, where the climate admits of its cultivation.

The Old Ever-Blooming Rose,

HERMOSA.

We believe the Hermosa is the best known in the entire Rose family, and a universal favorite. Hardy as a lilac bush and as free-flowering as the Geranium; it combines everything most desirable in a rose. The flower is cupped, finely formed and full, color most pleasing shade of pink, soft but deep, very fragrant.

New Tea Rose,

THE QUEEN.

A most charming Tea Rose. The offspring of that fine old Rose, Souvenir d'un Amie, whose many good qualities it seems to possess in a remarkable degree. It is pure snow-white, makes good, finely formed buds; is quite full, showing the center but slightly.

Forcing Rose,

PERLE DES JARDINS.

Canary or golden yellow flowers and beautifully formed. Handsome in every stage of development, from the smallest bud to the open flower.

CLIMBING

PERLE DES JARDINS.

Few Roses have as firm a hold in popular favor and are so highly prized by the professional and amateur rose growers alike as the Perle des Jardins. It is not only admirably adapted for forcing, but thrives well in the open air, blooming freely in either case. Its large, full, well-formed, golden-yellow flowers, borne on stiff stems, makes this variety especially desirable for bouquets and artistic floral decorations, while the dark and glaucous foliage of the plant furnishes an excellent setting for the fragrant, delicate hued blossoms.

Forcing Rose,

SUNSET.

A grand variety. The flowers are of large size, fine, full form, very double and deliciously perfumed; the color is a remarkable shade of rich golden-amber, elegantly tinged and shaded with dark, ruddy-copper, intensely beautiful and resembling in color a splendid "After-glow." It is a constant and profuse bloomer.

SOUV. DE LA MALMAISON.

This grand old variety, when used as a bedding Rose in summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, are produced in abundance, and have the requisite form and substance to withstand our hot, dry summers.

Crimson Rose,

PRINCESS SAGAN.

Flowers of this variety are the richest crimson of any Rose in our vast collection. A single bud or blossom will catch the eye at a great distance, so brilliant is the color. Indeed it is unmatched in its velvety richness; could well be termed "The Velvet Rose." It is as free in blooming as Bon Silene.

New Rose,

THE RAINBOW.

This new Rose from California was awarded a silver cup by the State Floral Society. Color a lovely shade of deep coral-pink, striped, mottled in most unique manner with immense carmine, elegantly colored with rich golden-amber at the center of base of petals; makes beautiful buds; flowers extra large, sweet and of great depth and substance.

THE VARIETIES OF ROSES ON THIS PAGE

\$2.50 per 100. \$22.50 per 1000.

Crimson Forcing Rose, METEOR.

A velvety red ever-bloomer, of the deepest glowing crimson. As fine as a Hybrid; flower of medium size, very double, and petals slightly recurving. A beautiful open Rose, a free bloomer and promising well as a pot Rose. It has no tinge of violet or purple to mar its beauty. It promises to be a reliable ever-bloomer, free from bad qualities. The best rich red Rose that was ever introduced for florists' use.

Forcing Rose, GOLDEN GATE.

It is a strong, healthy grower, excellent for both bedding and house culture. Produces a profusion of long, pointed buds, opening to very large double Roses of creamy-white, beautifully tinted with soft yellow at the base of the broad petals, which are exquisitely bordered with clear rose. We heartily recommend it.

CLOTHILDE SOUPERT, The best Market Pot Rose.

It is a strong, vigorous grower. The flowers are large, double, beautiful in form, with the style of the beautiful Rose, "Ball of Snow." The flowers are borne in sprays and the color blends from a soft shell pink to a pure satiny white Rose; while both of these colors are produced on the same plant at the same time.

Tea Rose, CORNELIA COOK.

Old favorite. The buds are of immense size, borne up high on massive stems, and with their round, full, heavy form, carry an air of grace and dignity quite unusual. The flowers are of the clearest snowiest white. Price, 50 cents per dozen; \$3.00 per 100; 4-inch, \$6.00 per 100.

New Tea Rose, MURIEL GRAHAM.

This superb Rose is from that favorite variety Catherine Mermet, and is perfectly distinct in color from anything extant, which is a pale cream, faintly blushed Rose. The habit of growth is similar to its parent. Sent out by Alexander & Sons, Belfast, Ireland, who consider it one of their best introductions. Well worth our best recommendation.

The Famous New Hardy Climbing Rose, CRIMSON RAMBLER.

The plant is of a very vigorous growth, making shoots from eight to ten feet during the season, rendering it a charming pillar Rose. It is also magnificent in bush form, and for covering buildings, trellises, etc., it cannot be excelled. One of the striking characteristics of this Rose is its remarkable color, which is of the brightest crimson, which remains undimmed in the end, showing none of the objectionable purplish tint so common in crimson Roses. The flowers are produced in great pyramidal panicles, or trusses, each carrying from thirty to forty blooms.

WICHURIANA HYBRIDS.

Manda's Triumph. This grand Rose is of free growth, luxuriant foliage, and produces large clusters of double, pure white flowers, beautifully imbricated and well formed, two inches in diameter and sweetly scented.

Universal Favorite. This is the most vigorous plant of the set. The long branching shoots are covered with dense, bright green foliage. The double flowers are over two inches in diameter, and a beautiful rose color, similar to the Bridesmaid, and deliciously fragrant.

Pink Roamer. This is without question a hybrid between the Sweetbrier, and varies these characteristics in bloom, while the growth partakes more of the Wichuriana. The single flowers, which are produced in close heads, are nearly two inches in diameter, bright, rich pink, with almost a white center, which lightens up the orange-red stamens.

South Orange Perfection. (Manda.) This is a gem, growing freely close to the ground and having multitudes of the most perfectly formed double flowers, about one and a half inches in diameter, soft blush pink at the tips, changing to white.

White Forcing Rose, BRIDE.

This is decidedly the most beautiful white Tea Rose. It is a sport from Catherine Mermet, with which it is identical in growth and shape of flowers. The flowers are very large and double, on long, stiff stems, of fine texture and substance, and last a long time in a fresh state after being cut, making it one of the best varieties for corsage wear or bouquets.

Forcing Rose, BRIDESMAID.

This variety is grown so extensively now that it hardly needs description. It is a sport from the old standard, Catherine Mermet, and retains all the good qualities of the parent. It is a deep pink, about two shades deeper than C. Mermet. As a cut flower rose, it is cultivated more than any other.

INCONSTANT BEAUTY.

The Rose of many colors—from yellow to crimson. A plant of this beautiful Rose, when in full bloom, presents a sight that is at once novel and pleasing. The buds and flowers are large, delightfully fragrant, and, as may be imagined, are exquisitely beautiful. It is a Tea Rose, and is, therefore, a constant bloomer.

The Fine New Climber, CLIMBING WHITE PET.

This is an unusually vigorous grower and a wonderfully profuse bloomer. It is remarkable for the rapidity of its growth and freedom of bloom. The flowers are very double and full, of medium size, pure, snowy white, and borne in large clusters.

YELLOW RAMBLER, AGLAIA.

The color is a decided yellow. The flowers are very sweet scented; habit of growth is very vigorous, well-established plants often making shoots of from eight to ten feet in height in a single season.

BON SILENE.

An old favorite. A very vigorous grower and prolific bloomer. A variety that is hard to get stock enough for the trade. Color, a pure pink.

SOUV. DE U'AMI.

Color, a soft shell pink; a free bloomer.

POLYANTHA ROSES.

Mignonette. A lovely Fairy Rose; full, regular flowers, perfectly double and delicately perfumed. Its color is a clear, delicate rose, with a frequent and peculiar intermingling of white.

Parquerette. Flowers pure white, about one inch in diameter, flowering in clusters of from five to fifty blooms. Very full, prettily formed, resembling blossoms of the double white Primrose in profusion of bloom.

Etoile D'Or. The flowers are medium size, very fragrant, full round form, perfectly double and borne in large clusters; color pale chrome-yellow, with rich citron red center.

George Pernet. A strong growing dwarf variety, forming a perfect round bush; the color is bright rose with touches of yellow, and passes to peach-blow with silvery-white shadings.

HARDY CLIMBING PRAIRIE ROSES.

Mrs. Gunnel. Soft, rosy-blush, becoming almost white; large clusters; full and double.

Pride of Washington. Brilliant amaranth, shaded rose center; large cluster; very double.

Tennessee Belle. Flowers bright, beautiful pink. Is more slender and graceful in growth than any of the other varieties.

THE VARIETIES OF ROSES ON THIS PAGE

\$2.25 per 100. \$20.00 per 1000.

White Tea Rose, MARIE GUILLOT.

Perfection in form; flowers large and double to the center. This variety holds first place among white Tea Roses in purity of color, depth of petals and queenliness in shape; grows well and is healthy. The best white Rose for general purposes grown. Price, 6 cents each, 50 cents per dozen, \$3.00 per 100; 4-inch, \$6.00 per 100.

MADAME ABEL CHATENAY, Forcing Rose.

This is a wonderfully strong, healthy growing variety, with rich, bright foliage. A grand bedding Rose, as it is a profuse and continuous bloomer. Flowers large and full, petals recurved and of a beautiful creamy-rose, shaded with rose-vermilion and tinged with salmon; the base of the petals is very highly colored, being a combination of the foregoing shades, strongly accentuated.

Hardy Ever-Blooming Rose, MRS. DE GRAW.

Everyone wants a hardy, ever-blooming Rose. From early summer until frost it may be depended upon to produce flowers in abundance. In color it is a rich glossy pink, delightfully fragrant, and is such a strong, vigorous grower that it is almost impregnable against attacks of the insects which usually destroy some of our finest Roses.

Tea Rose, HENRY M. STANLEY.

The color is a rare shade of amber Rose, delicately tinged with apricot-yellow towards the center. Reverse of petals clear buff-rose. The flowers are of good substance, extra large, finely formed and very full and fragrant.

DUCHESS DE BRABANT.

A bright China Rose, with coppery yellow center, ends of petals suffused with carmine. A charming, beautiful combination of coloring, as each color blends nicely with the other. This variety ranks with the best, and is a Rose of decided merit.

The Beautiful New Rose, MAID OF HONOR.

This grand sport from Bridesmaid originated with the Hoffmeisters of Ohio. Its color is a rich, glowing pink, darker than Bridesmaid.

The Beautiful PINK SOUPERT.

This bright new Rose is a very free flowering variety, much resembling Hermosa, but more double and flowering more freely. The flowers are not quite so large, full and handsome as our original Soupert, but fill a place because of their brightness and freedom.

LEONIE OSTERRIETH, or WHITE SOUPERT.

We have given this Rose an extended trial and believe there is not better white Rose grown. The buds are of a good size and flower full and double, and deliciously fragrant. Pure porcelain white, with deep center.

New Tea Rose, GEN. ROBT. E. LEE.

It is in color an orange-yellow, after the color of La Capucine, only richer and better. It is a good grower, has elegant, long buds, borne on long stems, and will produce more buds than any other Rose we know of.

THE BURBANK ROSE.

A free-flowering, ever-blooming Rose, raised by Mr. Luther Burbank, known the world over as the "Wizard of Horticulture." The only Rose which he was willing should bear his name.

New Crimson Tea Rose, CHRISTINE DE NOUE.

This beautiful new red Tea is a very charming Rose, and promises to be one of the best. It is particularly valuable because red has been a very scarce color among Tea Roses, and this one seems exceptionally fine. It is a splendid grower, making a large-sized, graceful bush, with bright deep green foliage; a constant and very free bloomer.

MOSELLA, the Yellow Soupert.

This splendid novelty is almost identical with that of the original Soupert. It blooms in profuse clusters of three to five flowers, which are very double, ball shaped and open like a Camellia flower. The petals are tinted white, on beautiful light yellow ground extending to the middle of the petals. The plant is dwarf, bushy and free blooming.

The Fine Ever-Blooming

MARIE LAMBERT, or WHITE HERMOSA.

Pure white. It has been called the White Hermosa, as it resembles Hermosa in form and freedom of bloom, and is quite as valuable; for, though no claim has been made for it as a fancy Rose, its persistence in bloom will make it a very popular white variety for bedding or for pots.

New Tea Rose, MME. SCHWALLER.

Like Puritan, this Rose has the strong, firm growth of the Hybrid Perpetuals, the same form and finish of flowers, being especially beautiful when full blown. It is very free in bloom, and has the fragrance of the old June Roses. The color is a bright rosy flesh, paler at the base of the petals, and deepening at the edge.

The New Climbing Rose, EMPRESS OF CHINA.

Color shell pink. It is perfectly hardy, and is a continuous grower. Price, 50 cents per dozen; \$3.00 per 100.

New Tea Rose, HELENA GAMBIER.

Of medium size, very full and of varying colors, from salmon rose to coppery rose, often of a handsome saffron hue, becoming lighter as the flowers open. A fine sort. Price, 50 cents per dozen; \$3.00 per 100.

New Tea Rose, J. B. VARRONE.

A fine grower, flowers very large and double, with high center, opening from long buds. Color a soft China Rose, changing to bright, deep carmine of even shading. An extra good Rose and very sweet. Price, 50 cents per dozen, \$3.00 per 100; 4-inch, \$6.00 per 100.

New Tea Rose, PRINCESS HOHENZOLLERN.

Very strong, vigorous grower, with beautiful foliage, dark and large; flowers very large, more than semi-double, of perfect form, often produced in clusters. Color, a bright, deep, satiny-red, with lighter center.

ISABELLA SPRUNT.

A bright canary-yellow, large, beautiful buds, suitable for cut flowers, a very sweet Tea scent, profuse bloomer. It is no doubt the freest blooming of all yellow Roses. This variety has been a favorite, in all gardens where good yellow Roses are planted, for the past twenty years.

Tea Rose, CHAS. LEGRADY.

This splendid Rose has proven one of the most satisfactory for general planting. Magnificent large buds and flowers of great beauty. Color fine chamois-red, richly shaded with darkest crimson. This rich, unique coloring is one of its marked characteristics, and stamps it with a distinctive charm.

MLLE. FRANCISKA KRUGER.

The striking color of this handsome Rose places it at once in the front as a bud producer in the open air. It is closely allied to Catherine Mermet, and resembles it in everything save color. In its shading of deep coppery-yellow it stands unique and distinct from all others.

Madame Joseph Schwartz. A strong grower; cup-shaped pink flowers.

James Sprunt. Deep velvety-crimson, very double.

Lucillus. A fine, dark crimson. It is very double and a constant bloomer. A good Rose.

THE VARIETIES OF ROSES ON THIS PAGE

\$2.00 per 100. \$17.50 per 1000.

Tea Rose, VICOMTESSE DE WAUTIER.

Rosy yellow upon the exterior of the petals, rosy white in interior. The center is a dark rose, and this color is often lined into the lighter shades above, producing a charming effect.

MADAME CAROLINE KUSTER.

Beautiful orange yellow, clear and distinct; fine.

LA PRINCESS VERA.

The color of this variety is a creamy-rose, veined with lilac; large and full.

LA PACTOLE.

A pale, sulphur-yellow; large and full.

LA SYLPHIDE.

A blush color, with a fawn center; large and double.

CATHERINE MERMET.

A beautiful, clear, rich color, with the same silvery luster seen in La France. Large, well formed. Very beautiful in bud. One of the most popular Roses for cut flowers.

SOLFATERRE.

Sulphur-yellow; large, double, full and fragrant. A strong grower.

New Tea Rose, MISS WENN.

This charming variety is noticed at once for its exquisite color, which seems entirely distinct from almost all other Roses of our acquaintance. We can call it a clear coral-pink, a most novel and distinct shade of color very difficult to describe.

New Tea Rose, MADAME ELI LAMBERT.

A beautiful new Tea Rose. Color is somewhat in the way of Madame de Watteville, but deeper, rich, creamy white, faintly tinted with pale, golden yellow, and exquisitely bordered and shaded with soft, rosy flesh, exceedingly beautiful and very sweet.

New Tea Rose, MAURICE ROUVIER.

Flowers of enormous size and quite double; splendid form; color a soft tender rose, shaded and variegated with red.

New Tea Rose, ENCHANTRESS.

It blooms with astonishing freedom, bearing its large, globular flowers in immense clusters. The color is creamy-white, slightly tinged with buff in the center; vigorous growth; fine foliage and highly valuable.

ETOILE DE LYON.

This is considered one of the finest yellow bedding Roses for outside planting; it is, moreover, one of the hardiest in the Tea section. It blooms freely, and every flower is a gem.

Tea Rose, COUNTESS EVA STARHEMBURG.

This bud is long in form, opening into a fine double flower of great beauty and heavy texture; color a creamy-white, shading to ochre at center; borders of the petals touched with rose.

SAFRANO.

One of the best of all the coppery-colored varieties, foliage is large, growth is very vigorous, flower large, yellow margin shading to a deep coppery. Too good a rose for this price.

GENERAL DE TARTAS.

A brilliant carmine, deeply shaded with violet. An extra large Rose, of a good shape. The growth is fine; very good for out-door bedding.

ALINE SISLEY.

Beautiful shade of violet-red, fine, large pointed buds.

CLOTH OF GOLD.

A good yellow and a strong grower. The foliage resembles M. Niel with a flower the same color and cup shaped.

Tea Rose, PROFESSOR CANIVIAT.

Vigorous in growth and free in bloom. Flower double and of good form, of the color of Souvenir Therese Levet. Price, 6 cents each; 50 cents per dozen; \$3.00 per 100.

PERNET'S TRIUMPH.

It has received the commendation of the highest European authorities, and as far as we can judge, it is well worthy of them, and promises to be one of the very finest of the Hybrid Tea class. The flowers are extra large, having broad, thick petals and long, tapering buds, with delicious Tea fragrance. Color a fine, clear magenta red, sometimes passing to a bright crimson.

New Tea Rose, COQUETTE DE LYON.

No Rose like it for freedom of bloom. The plant is a fine grower and carries numbers of flowers on every shoot. A fine yellow Rose, large, not at all formal, very attractive.

MADAME WELCHE.

An extra fine variety, very large, double and of beautiful rounded form, a soft, pale yellow, sometimes cream, with short, inner petals of glowing orange and copper. Not to be forgotten if once seen.

MADAME DE WATTEVILLE.

This grand new ever-blooming Rose is one of the most beautiful varieties we have ever sent out, and is very largely planted by those who know its beauty. The color is a remarkable shade of creamy yellow, richly covered with rosy blush. The petals are large and each one widely bordered with bright crimson, which gives it a very striking and beautiful appearance.

WHITE PAILEY.

A good Rose for out-door planting. It is a good grower and easy to propagate; foliage small; flower pure white.

NOTICE.

The above Roses, offered at \$2.00 per 100, \$17.50 per 1000, are varieties we have a surplus of, and therefore found it necessary to reduce the price. They are all healthy and well rooted.
