Hardy Cacti, Colorado Shrubs and Plants

WHOLESALE CATALOGUE.

D. M. ANDREWS,
INTRODUCER OF NATIVE COLORADO PLANTS.
BOULDER, COLORADO, U. S. A.

TERMS—Quotations herein are net at 60 days, or a discount of 5 per cent will be allowed for cash with order. We decline to forward goods to unknown correspondents unless order is accompanied by cash or satisfactory reference. Do not expect us to look up references during the rush of the shipping season. We refer to the First National Bank of this city. Large cases of Cacti can be shipped to European points by freight at low rate; always mention route, especially port of entry. We issue a catalogue of Photographs of Colorado plants.

HARDY CACTI.

The collection of six or seven sorts which we hesitatingly offered some years ago has increased to more than a dozen distinct sorts and has far exceeded our expectations in every way. They were a decided success from the first, both to seller and purchaser, and our sales have extended to all portions of the United States, to most parts of Europe as well as to points still more remote. Although an outgrowth, biologically, from peculiar conditions of climate and habitat. they have proved to be the most adaptable of plants, and make themselves equally at home on the parched desert. or in the humid climate of England. As to hardiness, they have been used with entire success at Minneapolis, Minn., Buffalo, N. Y. several points in Massachusetts, even near the sea coast. Several of the sorts offered are native as far north as South Dakota. This data together with observations as to effects of altitude above sea level, etc., establish the belief that all of these will succeed where Indian corn may be matured, while some may be used even farther north.

For descriptions, illustrations, etc., see retail catalogue. We ship choice stock, packing and boxing free, by Fast Freight to any part of the United States or Europe at the following prices:

	Price—	10	100	1000
Cactus Missouriensis.....	\$	.50	\$ 4.00	
Cactus viviparus.....		1 50	12.50

COLORADO SHRUBS.

ACER GLABRUM. Large shrub of symmetrical branching habit, compact, with an abundance of beautiful foliage, 6—10 inches, tr.....	\$1 00		
ALNUS INCANUS VIRESCENS. Large. upright growth, 8—12 inches trans....	1 00		
2—3 feet collected.....	1 25	8 00	
AMELANCHIER ALNIFOLIA. Clusters of beautiful snow-white flowers, useful fruit; dwarf sort, adapted to very dry soil. 8—12 inches, collected.....	75	3 00	25 00
BERBERIS REPENS. (See cut.) Very dwarf, evergreen shrub. Holly-like foliage, masses of fragrant yellow bloom, followed by conspicuous purple fruit. We know of nothing quite so suitable for covering dry or rocky banks and slopes, even under shade of trees. It is not particular as to soil, should be planted out quite thickly and it will soon take entire possession. We offer one grade, superfine collected stock, 3—6 inch, with an abundance of fibrous roots, per 10,000, \$60.00.....		1 00	6 50
CEROCARPUS PARVIFOLIUS. (See cut.) A medium sized shrub, distinct in in appearance from anything else in cultivation. The peculiar habit of growth is well shown in our cut. Foliage is small, distinct, and remains till late. The long, curled, feathery achenes give a pleasing effect....			
6—12 inch, col.....	60	4 00

1 OPUNTIA ARENARIA.

2 OPUNTIA FRAGILIS.

3 OPUNTIA POLYCANTHA.

4 OPUNTIA MESACANTHA.

5 OPUNTIA PHAEACANTHA MAJOR.

ABRONIA FRAGRANS.

BIGELOVIA GRAVEOLENS.

ARTEMISIA FILIFOLIA.

	Price—	10	100	1000
	12—24 inch, col.....	75	6 00	
	2—3 feet, col.....	1 00	8 00	
CORNUS STOLONIFERA, Red Osier.....	2—3 feet, col.....	75	3 00	25 00
CRATAEGUS, (probably macranthus.) Large shrub or small tree, a wonderful abundance of white flowers, followed by showy scarlet fruit, 1—3 feet col.		75	3 00	
JAMESIA AMERICANA. A small shrub of very distinct habit, fragrant, white, orange-like flowers, ornamental foliage, easily grown. 1 foot, col.....		75	6 00	
PHYSOCARPUS TORREYI (Opulaster) small, much branched shrub producing innumerable clusters of Spiraea-like white or rose-tinted flowers.....				
	Choice 1—2 feet, col.....	50	2 50	18 00
	Clumps.....	75	5 00	
RHUS TRILOBATA. We consider this in every respect the most ornamental of the genus. It does not produce suckers from the root, the leaves are small and three-lobed, taking on beautiful autumn tints. The plant forms compact semi-prostrate masses and thrives in poor, dry soil where few other shrubs will grow. The rather large scarlet berries ripen in summer and remain until winter. We have a fine stock of bushy, well rooted plants,				
	6—12 inches.....	1 50	10 00	

	Price—	10	100	1000
	12—18 inches, col.....		3 00	25 00
RIBES CEREUM. Ornamental, both in bloom and in fruit. Choice 12—18 inches, collected.....		75	4 00	
ROSA ARKANSANA. Very dwarf, one foot or less, free blooming, large scarlet fruit, will grow in very dry soil. 6—12 inches, col.....		35	1 50	10 00
ROSA FENDLERI. Larger, very showy flowers and fruit. 1—2 feet, col....		50	3 00	25 00
RUBUS DELICIOSUS. Very distinct shrub, compact growth, large, deeply lobed leaves, snow-white flowers two inches across, profuse bloomer, exceedingly hardy, very handsome whether in bloom or not. We offer choice collected stock which has proved invariably satisfactory. 2—3 feet....		50	2 00	16 00

COLORADO PERENNIAL PLANTS.

ACONITUM COLUMBIANUM. Tall, early, deep blue.....	75			
ACONITUM FISCHERI. Late, large flowers, bright blue....	75	6 00		
ALISMA PLANTAGO. Desirable aquatic or bog plant	50	3 00		
ANEMONE PATENS NUTT. The American Pasque Flower, producing in early spring the very large cup-shaped lavender or bluish flowers, followed by the lacinate foliage and feathery seed heads. Extra choice, well rooted stock, per 10,000, \$75 00.....	35	1 50	10 00	

	Price—	10	100	1000
ARTEMISIA ARBUSCULA. Oblanceolate whitish foliage, shrubby.....	2	00		
ARTEMISIA FILIFOLIA. Thread-like foliage, fine mist-like flower sprays, (see cut.).....	1	50	8 00	
ARTEMISIA FRIGIDA. Used extensively as an edging plant. With its sil- very moss-like foliage, which is more or less evergreen, it cannot be equaled for this purpose by any other hardy perennial. This is absolute- ly drought-proof and is not particular as to soil. Per 10,000, \$60.00 ..	25	1 00	8 00	
ARTEMISIA GNAPHALOIDES. Broad, silvery-white foliage, especially effect- ive when naturalized among shrubbery, etc.....	40	2 00	15 00	
ARTEMISIA LUDOVICIANA. Similar to the last, but foliage more or less laciniate	50	3 00	20 00	
ASCLEPIAS SPECIOSA. Massive foliage, purple umbels.....	60	3 00		
ASCLEPIAS INCARNATA. Narrow foliage, wet or dry soil.....	75	3 00		
ASPIDIUM FELIX-MAS. Male-fern. Large, broad, finely cut fronds of firm texture, heavy stock.....	75	5 00	40 00	
ASPLENIUM FELIX-FOEMINA. Lady-fern. A very large fern; should have shade and moisture.....	1	00	8 00	
ASTER COMMUTATUS. Immense crowded panicles of rather large white				

	Price—	10	100	1000
flowers, plant dwarf.....		35	2. 00	15 00
ASTER ERICIFOLIUS. (not ericoides) A very unique new species with moss-like foliage. Plant only 3 to 6 inches tall but blooms so profusely as to carpet the ground with snowy white. Flowers appear in June and continue for some time; very distinct.....		50	3 50	25 00
ASTER FENDLERI. Dwarf species, not exceeding one foot, producing an abundance of rather large flowers of a peculiar tint of rosy-lilac, very pleasing.....		50	4 00	30 00
ASTER LAEVIS. Tall, large blue flowers, late.....		30	2 00	18 00
ASTER PORTERI. Slender sort, usually not more than one foot tall, producing large panicles of medium-sized many rayed flowers of purest white. This is a gem among dwarf Asters.....		35	2 00	16 00
BIGELOVIA GRAVEOLENS. Golden Feather, or Plumed Golden Rod. (See cut.) One of our best introductions, and becoming immensely popular with our customers. The golden plume-like panicles and neat appearance together with the fact that it thrives under the most ordinary care will stand as reasons why you cannot afford to be without it. Choice two-year-old plants.....		1 00	8 00	75 00

	Price—	10	100	1000
Choice 3-year-old plants.....	I 25	10 00		
BIGELOVIA ALBICAULIS. Equally desirable, but entirely distinct. Both are somewhat shrubby, but while the last often reaches 3—5 feet, this seldom exceeds 6—9 inches, and with smaller panicles. Useful for edgings....	I 00	6 00	40 00	
CALOCHORTUS GUNNISONI, Mariposa Lily. Entirely hardy, very large white or lilac-tinged flowers, with large blotch of color at base of petals. One to two feet, July, excellent for cutting. First size blooming bulbs, ready in September.....	25	I 50	12 00	
CERASTIUM ALPINUM, Carpet of Snow, useful.....	30	I 50	12 00	
CHRYSOPSIS VILLOSA. Bright, yellow rayed flowers, summer.....	35	2 00		
CHEILANTHES FENDLERI. Gold fern. Rocky soil.....	75	4 00		
CLAYTONIA LANCEOLATA. Western Spring Beauty.....	50	4 00		
CLEMATIS DOUGLASII. (See cut,) This belongs to the Leather Flower group, and has the largest bloom of its class. It is not a climber, but an erect, bushy, hardy perennial plant about one foot tall. Flowers in varied shades of blue, purple, etc., exceedingly beautiful, followed by a showy, curled crest of plumed achness. No clematis is easier grown than this. Fine, well rooted clumps.....	50	3 00	25 00	

	Price—	10	100	1000
CLEMATIS FREMONTII. Similar in size and habit, but very distinct in foliage and appearance.....	I	50	10 00	
DELPHINIUM AZUREUM ALBIDUM. Tall spikes of white flowers.....		50	3 00	
DELPHINIUM SCOPULORUM. Beautiful, rich Gentian-blue flowers, in long spikes, elegant plant, early.....		75	4 00	30 00
DODECATHEON PAUCIFLORUM. (See cut) Slender, rose-purple flowers...		40	1 00	8 00
ERYNGIUM YUCCAEOFOLIUM. A distinct sort, with long yucca-like, glaucous foliage, very neat		50	4 00	
EUPHORBIA ROBUSTA. Compact clumps, 1 foot.....		75	5 00	
GENTIANA BIGELOVII. Clustered, dwarf habit, numerous blue flowers in autumn, ordinary soil.....		50	3 00	25 00
GERANIUM FREMONTII. Large light purple, free bloomer.....		50	3 00	
GERANIUM RICHARDSONII. Flowers white veined purple.....		75	5 00	
GUTIERREZIA EUTHAMIAE. Dense hemispherical clumps, covered in autumn with myriads of small golden yellow composite flowers.....		35	2 00	12 00
HELIANTHUS LAETIFLORUS Large yellow semi-double flowers		25	1 00	8 00
HELIANTHUS MAXIMILIANI. Very tall, robust sort.....		50	2 50	
HELIANTHUS RIGIDUS. Rather slender, large yellow flowers.....		20	75	5 00

	Price—	10	100	1000
HELIANTHELLA QUINQUENERVIS. Star Sunflower. Very large light yellow flowers, very early, 3 feet.....	1 00			
HEUCHERA BRACTEATA. Distinct, dense whitish heads.....	75	3 00	20 00	
HYDROPHYLLUM OCCIDENTALE. Very handsome large fern-leaved sort, showy flowers, for moist or dry shade.....	50	2 50	20 00	
IRIS MISSOURIENSIS. A kind especially suited to dry soil, rather slender, with large blue flowers.....	30	2 00	12 00	
LEUCOCRINUM MONTANUM. An exquisite liliaceous plant producing a long succession of large, fragrant crystal-white flowers at the surface of the ground; early spring.....	35	2 00	12 00	
LIATRIS PUNCTATA. A very showy dwarf sort.....	25	1 25	10 00	
LILIUM MONTANUM. Erect scarlet flowers, rare	2 50			
LINUM LEWISII. Large blue flowers, neat plant.....	35	2 00	12 00	
LITHOSPERMUM MULTIFLORUM. Long succession of bright yellow Mertensia-like flowers; good.....	75	5 00		
LYTHRUM ALATUM. Purple spikes, wet places.....	35	2 00		
MALVASTRUM COCCINEUM. Very dwarf, numerous bright scarlet flowers, ornamental lobed foliage, will grow in poor, dry soil, blooms all summer,	35	2 00	15 00	
CENOTHERA ALBICAULIS. Tall, large white flowers, all summer.....	50	4 00		
CENOTHERA BRACHYCARPA. Rosette of narrow foliage, very large yellow				

	Price—		
	1	100	1000
flowers, clay-loam soil.....	50	3 00	
CENOTHERA CAESPITOSA. Similar, but flowers white, changing to rose, sandy soil.....	50	3 00	
CENOTHERA FRASERI. One foot, branching, yellow.....	75	5 00	
CENOTHERA SERRULATA. 6—10 inches, much branched, numerous crump- led yellow flowers an inch broad, blooms all summer, sandy soil, dis- tinct sort.....	50	3 00	
PENTSTEMON ACUMINATUS. Large lilac flowers, glaucous foliage.....	50	3 00	
PENTSTEMON COERULEUS. Dwarf, crowded sky-blue flowers.....	50	3 00	
PENTSTEMON GLABER. Tall, deep purple flowers.....	50	2 50	
PENTSTEMON HUMILIS. Dwarf, deep blue.....	35	2 00	
PETALOSTEMON CANDIDUM. White Prairie Clover.....	40	2 50	
PETALOSTEMON TENUIFOLIUM. Dwarf, dense purple spikes.....	50	3 00	
PHLOX DOUGLASII. Dwarf, large flowered, floriferous.....	35	2 00	16 00
PHYSARIA DIDYMOCARPA. Handsome evergreen rosettes resembling a Sempervivum, multitudes of bright yellow flowers many weeks, followed by curious inflated pods.....	50	3 00	20 00
PHYSOSTEGIA VIRGINICA ALBA. We have a fine stock of this compara- tively new plant. White flowers, all summer.....	25	1 00	8 00

DODECATHEON PAUCIFLORUM.

OPUNTIA ARBORESCENS.

CEROCARPUS PARVIFOLIUS.

YUCCA ANGUSTIFOLIA.

BERBERIS REPENS.

CLEMATIS DOUGLASII.

	Price—	10	100	1000
POTENTILLA GLANDULOSA. Of the many species we have tried, we give this a forward rank for all-around usefulness. It is one foot tall, has rather large bright yellow flowers, freely produced for several weeks. The foliage is thrifty looking, pinnate, the plant is not particular as to exposure or soil and withstands drought to a remarkable degree.....	30	2 00	16 00	
PRIMULA PARRYI. Alpine species, one foot, large crimson flowers, moist soil	2 50			
PTERIS AQUILINA. Per 10,000, \$75.00		2 00	10 00	
RANUNCULUS NUTTALLII. Small fern-leaved sort, yellow flowers.....	50	3 00		
RUDBECKIA LACINIATA. The original single form of the famous "Golden Glow." We sell the Golden Glow at the same price.....	40	3 00		
SALVIA AZUREA GRANDIFLORA. This is a perfectly hardy blue flowering sage, blooming late when flowers are scarce.....	40	3 00		
SAXIFRAGA NIVALIS. Snowy-white fragrant flowers in early spring, ever-green foliage, good sort.....	50	3 00		
SENECIO DOUGLASII. Beautiful aster-like yellow flowers in autumn, sandy soil	50	3 00		
SIDALCEA CANDIDA. Indian Mallow, White flowers.....	30	2 00		
SIDALCEA OREGANA. Rose purple flowers, all summer.....	1 00			
SMILAX HERBACEA. Rapid climber, handsome foliage.....	50	4 00		
SOLIDAGO CANADENSIS. Golden Rod.....	25	1 50		

	Price—	10	100	1000
SOLIDAGO MISSOURIENSIS. Dwarf, early sort.....		25	1 50	
SOLIDAGO RIGIDA. Strong grower, distinct.....		25	1 50	10 00
SOLIDAGO RIGIDISCUA. Small species, rare.....		50	3 00	
SOLIDAGO SPECTABILIS. An exceedingly beautiful sort, with large panicles of very fragrant flowers. Does not produce suckers and therefore does not spread, but forms dense individual clumps which are as dainty as they are magnificent.....		50	3 00	20 00
STANLEYA PINNATA. Beautiful golden Cleoma-like spikes.....		75	4 00	
THALICTRUM CORNUTI. Large showy sort, white flowers.....		50	3 00	
THALICTRUM FENDLERI. Graceful, purplish flowers.....		50	3 00	
THERMOPSIS MONTANA. 1—2 feet, golden pea shaped flowers.....		50	3 00	
THERMOPSIS RHOMBIFOLIA. Very dwarf, yellow flowers.....		50	3 00	
TRADESCANTIA BREVICAULE. Rare sort from Illinois.....	1	00	8 00	
TRADESCANTIA OCCIDENTALE. Free blooming, rather dwarf.....		50	3 00	
YUCCA ANGUSTIFOLIA. (See cut.) We believe this to be quite as hardy as the well known filamentosa. We have supplied it in considerable quantities and have had no unfavorable reports thus far. The foliage is very stiff, and conspicuously edged with white. Strong well rooted stock...		75	5 00	40 00
One year seedlings....			1 00	
ZYGADENUS NUTTALLII. Spikes of yellowish flowers, bulbous.....		30	2 00	14 00

WE TAKE SUBSCRIPTIONS FOR THE FOLLOWING:

MEEHANS' MONTHLY Issued monthly, terms \$2.00 per year. Foreign subscriptions, 9s 6d. Meehans' Monthly contains concise, interesting and instructive articles on every branch of horticulture, the improvement of the home grounds, etc. Each issue contains a magnificent colored plate of one of our native flowers or ferns which alone is well worth the subscription price.

GARDENING A beautifully illustrated Horticultural Journal for gardeners of all classes. The photographic reproductions of the best examples of Floral and Landscape Art, are both charming and exceedingly instructive. Published semi-monthly. Price, \$2.00 per year. Foreign subscriptions, 8s. 6d.

AMERICAN GARDENING A weekly illustrated Journal of Horticulture, and Gardener's Chronicle. A practical up-to-date publication for practical people. Price, \$1.50 per year. Foreign subscriptions, 6s. 6d.

WE MAKE THE FOLLOWING CLUB OFFER:

One yearly subscription to each of the three periodicals mentioned above for \$5.00, or to foreign countries 21 s. 9 d.

All orders for subscriptions must be accompanied by cash. Please make foreign remittances by International Postal Money Order.
